HERMITAGE, La., Nov. 22.—George Gross and Emil Hambly, brothers-in-law, on Saturday drank and quarrelled. Hambly fatally stabbed Gross. Hambly was arrested. He was afterwards taken from an officer by a dozen masked men and shot dead.

HARD TO KILL.

PERU, N.J., Nov. 22.—Miss Jacobus, who was shot last month by her lover, who playfully pointed the gun at her hand, and whose wound was pronounced fatal is still alive and may recover. She has over two hundred shot and pieces of corset in her body. Her vitality surprises the physicians.

SUICIDE.

JERSEY CITY, Nov. 22.—G. A. Amsbury, formerly a physician at Albany, N. Y., suicided at a hotel here on Saturday night, with laudanum. He was dissipated.

IN THE DOCK.

WASHINGTON, Nov. 22.—Yesterday an expert on insanity, called by the defence, said that four years ago he examined Guiteau and reported that he was of unsound mind, and was subject to mental exaltations, which carried him off his base. He attended Guiteau's father on his deathbed. The father had a most remarkable and unusual mental obliquity on religion. The expert further remarked that he knew of at least six experts on insanity, who had been requested to appear for the prosecution but who informed the Counsel that they could not declare it their opinion that Guiteau was not insane. The prospect is that the trial hereafter will consist chiefly in the battling of experts. The assassin yesterday manifested great trepidation when taken from his cell to the van. He said that if the officers did not protect him it would be a lasting disgrace to the nation. Scoville's speech yesterday made a good impression.

HARRISON COMES TO GRIEF.

FREDERICK, M. D., Nov. 22.—Dr. Harrison Wagner, who brought two thousand suits for imaginary wrongs, before obscure magistrates, and obtained by default judgements amounting to $100,000 has come to grief. He brought actions to force payment, but the Court yesterday delivered an opinion adverse to Wagner, denouncing in strong terms the frauds by which judgments were obtained. The Court decreed that Wagner shall pay all costs. Wagner had judgment against the Adams' Express Company, aggregating $50,000.

A FRAUD DETECTED.

BOSTON, Nov. 22.—Fuller one of the parties concerned in the recent swindle of Daniel Goodnow, in which the barque Western Sea figured, yesterday gave testimony implicating Goodnow in a scheme to burn the vessel and defraud the insurance companies.

THE WAY TO DO IT.

ATHENS, Ohio, Nov. 22.—When the mulatto Davis was lynched here for outraging an old white lady, he was taken to a bridge with a rope around his neck and was asked to confess. He inquired what would be done with him if he confessed. The mob told him he would be taken back to gaol to be dealt with by the law. He hesitated and again asked if they would not hang him if he confessed. Being assured that they would not, he said "I'm the man." At this there was instant cry, "throw him off." The other end of the rope was made fast to the bridge; they gave him three minutes in which to pray, but he did not attempt to pray. He said he was ready to die. When the time expired he was hurled off the bridge and his neck was broken by the fall.

THE DEATH-KNELL SOUNDED.

THE decree has gone forth—the death-knell has been sounded, and the poor, old and despised Provincial Agricultural Association has nothing to do but just lay down and die. Its death has been decreed by the TORONTO Industrial Exhibition Association; by the TORONTO City Council; by the TORONTO *Globe*; by the TORONTO *Mail*; by the TORONTO *Telegram*; and finally by the TORONBO *World*. What more could be necessary to seal its fate? How could any institution stand against such a unanimity of opinion—and that opinion—TORONTO opinion? Is not TORONTO but another name for Ontario as Paris was once for that of France? Is not everything that is good, that is wise, that is great, concentrated in TORONTO? Has it not become well nigh a crime for the other cities and towns, and especially for the farmers of the province to question the behests of TORONTO, or venture an opinion which runs counter to the interests of "Canada's great city"? Is not its press the press of the province, with the power to blazon from the housetops its opinions, and to consign to everlasting oblivion the opinions and arguments of those who do not say "ditto" to what is, or is thought to be in the interests of TORONTO. In fact are not TORONTO and TORONTO interests the alpha and omega of the otherwise little province of Ontario, and being such the Agricultural Association and the farmers of Ontario will act wisely, if they ratify the decree that has gone forth, and instruct their representatives in the Local Legislature to hand over that ten thousand to the directors of Toronto's Industrial Association. And we had better be quick about it too, or they will not take it without getting also the grants now given to the riding and township societies. Indeed we do not know but this would be the better course to pursue, as TORONTO is the ONLY place fit for an exhibition and the managers of the Industrial the only people who know how to run any kind of an exhibition, from the donkey upwards. Of course it might be somewhat difficult to induce the high-toned and patriotic gentlemen who run "Canada's great show," to undertake the running of the show business for Canada, as no such paltry considerations as the benefits which would thus accrue to TORONTO, merchants, steamboat owners, hotel keepers, railways, &c., &c.. would enter into their calculations. Still, out of pure love for the province, and especially for the farmers of it, they might be induced to undertake so noble a work—let us try them.

NEW INDUSTRIES.

The Moncton *Times* contains the following paragraph under the heading "No New Factories":—

"The Toronto *Globe* is driven to the last ditch in its opposition to the N. P. It draws a fine line and defies the Government press to point to a single new branch of manufacturing commenced since the N. P. came into force. It says we had cotton factories, car shops, etc., before the N. P., and that no credit is due the Government for the establishment of such industries at different points. The *Globe* refuses to recognize the fact that the N. P., by creating five sugar refineries where only one existed, and by multiplying cotton factories, etc., at an astonishing rate, has done something praiseworthy. Since it wants an entirely new industry, never before attempted in Canada, we recommend the editor to visit the brass factory at Moncton. A Halifax gentleman, at the head of a large hardware house, visited the establishment a short time ago and was surprised to find that such goods were manufactured in Canada, much less in the Maritime Provinces, and large orders from his house that formerly went abroad will be the result. This is a new industry in every sense of the word. There are other brass factories in Canada it is true, such at the *Globe* establishment, but none to turn out the lines of goods made at the Moncton factory. It is the only establishment of the kind ever known in Canada, it is established as the result of the National Policy, and what is best of all it can turn out goods at a large profit, at the prices quoted by Connecticut factories, less the duty. Will the *Globe* make a note of this?"

PORT HOPE.

PAINFUL ACCIDENT.—The *Guide* says that on Tuesday morning last about ten o'clock, as the schooner Caroline Marsh was entering South Bay, in a bit of a blow, her sails jibed over with tremendous force; George Robertson, a young sailor, happened to be standing within the sweep of the main boom, put up his arm to save his head, and by some means became entangled in the lift of the boom, crushing his arm into an almost shapeless mass. The poor fellow could not have his arm attended to until the vessel arrived in port this morning. The doctors cannot decide whether the arm will have to come off or not until the inflammation somewhat subsides.

AN UNKNOWN FOREST.

MR. NIVEN'S EXPLORATIONS OF THE TAMAGAMANGUE COUNTRY.

A Large Supply of Good Pine—Interminable Forest—The Axe Hews a Passage—Appearance of the Burnt Country.

Mr. A. Niven, P. L. S., of Haliburton, has just returned from making a survey of the country between Lakes Nipissing and Tamagamangue. The survey was made under the direction of the Ontario Government, and is merely preliminary to the laying out of a large block of townships, the base lines for which were laid down in this survey. A *Globe* reporter called upon Mr. Niven and gleaned much interesting information respecting the district, which hitherto has been almost unknown. Mr. Niven, with a party of thirteen men, set out from Lake Nipissing in the middle of June. The party penetrated to the north-east corner of the Township of Field, where the survey was to commence.

Here four months of laborious journeying commenced, almost every step having to be

CUT THROUGH A DENSE FOREST.

The first line was cut from the northeast angle of Field due northward eighteen miles nearly to the southern shore of Lake Tamagamangue. Along this line the country is undulating, and rocky ridges with an occasional swamp appear. The swamps, however, are only of small extent, and the ridges are rarely sharp, or show exposures of bare rock. In fact they are more like plateaus, and are densely wooded with pine, birch, poplar, etc. The pine is abundant and of excellent quality, being quite equal to any Mr. Niven has seen elsewhere in Canada. The soil is a sandy loam except where it is rocky. Returning twelve miles southward, Mr. Niven struck twelve miles eastward, finding a comparatively level country, similar in vegetation to the country on the north line. Maple is also present. On this line the soil is in parts excellent, and fully a third of it good arable land. The pine is good. Returning to the north and south line, the party then cut their way due west twenty-five miles. For the first twelve miles the surface is much like that already described, and good timber abounds.

AT THE STURGEON RIVER,

which flows into Lake Nipissing, the soil is clayey and the timber good—very fine pine trees appearing. In this neighbourhood Mr. Niven saw the only great damage done by the fires of the past summer. This was a *brule* two miles wide and ten long. The trees were all, or nearly all killed, but were not burnt down. Burning down rarely occurs in the first fire which sweeps over a country. This fire took place in May, and originated in a fire kindled by a camping party at a portage. The roughness of the country gradually increases westward towards Sturgeon River, but good land and timber is found in large areas along the route. Westward of the Sturgeon the party entered a *brule*, or

TRACT OF BURNT FOREST.

The conflagration which swept over it occurred six years ago, and was extensive. At one time, Mr. Niven says, the *brule* was to be seen six miles on every side of him. The spectacle was a strange one. The tall pine trees still stood rearing their blackened forms over a hundred feet into the air, and stretching out their withered limbs in ghastly malediction over the foliage, which but for them would form a vast lake of verdure. Where the pine trunk was not, there the underbrush was. This dense underbrush consisted of a young growth of poplar, birch and cherry, ten or twelve feet high. Here and there over the top of the swarthy trees rose the bare cliffs or barren hillsides of the Laurentian formation, but down in the flats the surveyors travelled for hours without seeing more than a yard or two ahead. Beneath the tangle of underbrush, through which the axe had to cut a way, stretched in every direction the decaying forms of forest giants. In this desolation the twenty-five mile westerly line was completed, and the party turned northward for twelve miles, sketching the east shore of what is marked on the map as a fifteen mile long lake, but which is in reality a chain of three lakes, one of which—the smallest—bears the euphonious name Ahpetagekickagung, and the others Wahnapachicitegoganchanungue and Olopangishgamacookicongue, or some names equally unintelligible. Till within the last four miles of this northerly line the route was through a *brule*. Then came a fine piece of country, well timbered with maple, birch, balsam and spruce. From this point Mr. Niven, about the middle of September, turned eastward, on the sixty mile line leading to the Ottawa. The first four miles were like those just traversed, and much of it well adapted to agriculture. Then came

THE STURGEON RIVER.

This stream is a fine one. Its lower course is impeded by several falls, but the part lying in Mr. Niven's survey is obstructed only by rapids. It flows through a comparatively fertile valley, with a current two hundred to three hundred feet wide and fifteen to twenty feet deep. The banks are only ten or twelve feet high and are of quicksand and clay, which mingled, form a broad valley on either side. The banks of the stream are finely timbered with hardwood and pine. Leaving the river the line runs eastward over high plateaus broken by the chain of lakes leading from Lake Tamagamangue to the Sturgeon River. As the South Bay of the Tamagamangue is approached the maple becomes one of the most common of all the trees and the scenery is beautiful. A fine country extends from the South Bay a few miles eastward, where the land becomes high and rolling. Then on to the Tamagamangue River the soil is poor. From this river eastward the timber, soil, and appearance of the country are much like those north of the township of Field, and include, of course, some very good land and excellent pine. Then for fifteen miles the country is comparatively flat and is covered with a thick growth of white birch, spruce, balsaam, popular, and small pine. Swamps and rocky ridges are rather frequent. Good land appears here and there. Then comes a stretch of moderately good land near Ottertail Creek, and extending to within six or seven miles of the Ottawa River. This last stretch includes much excellent pine, but the soil is sandy with large areas of granite rock and *brule*.

LAKE TAMAGAMANGUE.

At South Bay the party stopped for a time to explore Lake Tamagamangue. The lake is of a very irregular form, consisting of a central part 30 miles long by 15 to 20 broad, and three arms. The greatest length of the lake is probably sixty miles. The water is remarkably pure, and abounds in fish. The shores are not high, nor are they on the other hand marshy. The number of islands dotting this lake and forming a labyrinth of channels is surprising. The islands are all wooded, and the scenery is beautiful, and may be compared to that of the Thousand Islands. On one of the islands is the Hudson Bay Post, around which sixteen Indian families are settled. The Indians here, and at Temiscamingue, and on the reserves at Lake Nipissing, are the only ones in this part of the country. Lake Tamagamangue has two outlets—one by a river of that name, flowing southward into the Sturgeon, and the other by a river which expanding into Rabbit Lake, flows north-easterly under the name of the Matabigewan River, a branch of the Ottawa. The Tamagamangue as it leaves the lake is 130 feet wide, and of a fair depth. The other outlet is equally large. It was explored to Montreal River by Mr. Galbraith, one of Mr. Niven's explorers.

SOIL, LUMBER AND MINERALS.

Mr. Niven cannot speak of the south-eastern part of the district, as the lateness of the season prevented the completion of the survey in that part. Along the Sturgeon River the soil is clayey, elsewhere it is sandy loam or rocky. The rock is not so much exposed, nor are the rocky ridges so common as in the country south of Lake Nipissing. About one-third of the surface consists of arable land. There is a large amount of fair-sized pine in the district, and of excellent quality. It is easily reached, streams of considerable volume abounding. There are unmistakable indications of iron in the territory, and Mr. Niven has brought specimens with him.

Mr. Niven visited McLaren's saw mill depot, about two miles south of Lake Temiscamingue. He says that if he hadn't seen it he would not have credited the existence of so fine a farm in this part of the country. There are 260 acres cleared and 100 acres without a stump. The buildings are good and splendid crops of oats and roots are raised. Indian corn is grown. Wheat would be grown, but there is no mill to grind it. The soil is first-class.

As the season was late when the party reached the Ottawa they took canoes to Matawan and thence returned home by road. The region traversed was not known to the white man, and Mr. Niven found that chains of lakes marked in the maps had no existence, and that rivers were marked away from their proper positions. His explorations are, therefore, important as making known for the first time a district almost as little known as Central Australia.

CAMPBELLFORD.

A STEEL BOILER.—The *Herald* says that a large boiler, 200 horse power, arrived at the railway station, one day last week. It is composed entirely of steel—the only steel boiler in this part of the country—and will be put up for the woollen mills.

SUCCESSFUL DEER HUNT.—Mr. Charles Gillespie, of this village, was one of a party of hunters who recently shot and captured fifteen deer. They made their hunting grounds on North River, Lost Lake and Deer Lake.

TEMPERANCE principles are spreading amongst the medical profession. Out of the 141 members present at the recent annual dinner of the British Medical Association 49 refused to partake of the wine provided, preferring to use aerated waters instead.

THE Rev. Fielding Ould, vicar of Holy Trinity Church, Staley-bridge, met lately with what subsequently proved to be a fatal accident. A bicycle he was riding went over, and he was thrown under the wheels of a heavy lorry which was passing.

THE Princess of Wales while at Singleton Abbey the other day planted a linden as a memorial of her visit. She was requested to place her hand on the tree while the earth was being filled in around it; but, instead of being content with so passive a part, she seized a heavy garden spade, and shovelled in the earth with skill and vigor, laughing heartily the while.

As two brothers, farmers, living at Burthie House Farm, near Darlington, were shooting at Myers's Flat Farm, a pheasant rose from cover. W. Robson, one of the brothers, shot at but missed the bird; the other brother, J. G. Robson, fired, but, as the bird had changed its course the charge lodged in William Robson's head, killing him on the spot.

A RETURN ordered by the House of Commons has been issued, giving statistics in reference to pauperism in England. The returns shows that the paupers in 1881, as compared with those in 1880, have increased 902, or 0,1 per cent., but as compared with 1869 there is a decrease of 8335, or 1,2 per cent. The number of paupers at the end of the Michaelmas quarter of 1879 was 710,768; at the end of the same quarter in 1880 it was 701,531; and in 1881 it was 702,433.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

DO NOT BE DECEIVED.—In these times of quack medicine everywhere, it is truly gratifying to find one remedy that is worthy of praise, and which really does as recommended. Electric Bitters we can vouch for as being a true and reliable remedy, and one that will do as recommended. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at 50 cents a bottle, by Taylor & Macdonald.—3.

A BLAZE IN BROCKVILLE.

Extensive Damage to Property and Death and Excitement.

BROCKVILLE, Nov. 19.—A fire occurred in a block of buildings last night situated on the corner of Main and Buell streets. The alarm was given about fifteen minutes past eleven o'clock and was answered by a general turn out of the fire brigade. The flames originated in a lot of frame sheds at the rear of D. W. Downey's boot and shoe store, and though none of the buildings were totally consumed much damage has been done in the way of injury to stock. After two hours of hard fighting the flames were got under control. The losers are Mr. D. W. Downey, on boot and shoe stock, insured for $4,000; D. F. Hayes, buildings insured for $2,000; J. S. Kelso's confectionery stock and machinery, insured for $1,000; Mrs. Monahan's buildings, insured for $1,000; A. M. Young's carpenter shop, no insurance; T. Brown's cabinet shop, no insurance; Dr. Hall's office, no insurance; Geo. Veitch's household goods, no insurance. The most tragic part of the affair, however, and in which the town suffers the greatest loss, was the death from excitment and exhaustion of Mr. Allen Turner, Sr., druggist. Mr. Turner was one of our oldest and most respected citizens, a prominent Liberal, and for many years interested in various ways towards the advancement of the town. The affair has caused the most intense feeling of sorrow throughout the community.

AFTER EIGHTEEN YEARS.

A Father and Daughter Meet for the First Time Since the War.

DETROIT, Nov. 18.—Mr. W. S. Thompson, of Rochester, has just been re-united to his daughter after an eighteen years separation. When the civil war broke out he was a resident of Ann Arbor, where he enlisted, and leaving his wife and five-year-old child served in the Georgia campaign under Sherman. Meanwhile his wife and child removed to Detroit, where the former died. When he returned he could find no trace of his daughter, and all endeavours to recover her failed. He had long given her up as lost, till the other day, when in Detroit, an old friend, a policeman, gave him a clue. He said he had often met a lady on his beat, whose resemblance to Mr. Thompson was so great as to cause him to ask her name, which had been Thompson, she said, till she had married. She was then two years a wife. Mr. Thompson at once called on her. He could not recognize his child, but she at once flew to his arms and cried out "You are my papa." She explained that on her death-bed Mrs. Thompson had entrusted her to a Canadian friend then living in Detroit. They afterwards returned to Canada, and, taking a fancy to the the child, concluded to adopt her. They were careful to make no attempt to communicate with her relatives, less the latter should object to to the plan. But when the young woman became of age she returned to Detroit, and securing employment supported herself until her marriage. She was told some time ago that her father was dead, but was unwilling to believe it, and clung to the hope that she would one day meet him.

A WINTER WARNING.

A Word of Caution About Ventilation, &c., During the Cold Months.

Now that winter has set in and doors and windows are kept closed for fear a breath of cold air should rush in and cause discomfort, there is need for quite as much caution in the matter of ventilation as during the summer. It is true that the same amount of malaria arising from the decomposition of vegetable and animal matters does not exist in the air as during the warm months, but this is perhaps more than counter-balanced by other causes peculiar to winter time. In nearly every house in the city there are one or more coal stoves burning, and it does not require a very large escape of gas to vitiate and render unwholesome the air of a house, and then to back this up, there is the fact that the doors and windows are nearly always closed. People exhale quite as much carbonic acid gas in December as they do in August, and as a matter of fact a less quantity of really pure air is allowed to pass through the average sleeping apartment during the days of the cold months than at other times. Then there is another point not so generally known or remembered as it should be, that houses a large number of plants are kept the winter through, and certainly they appear very beautiful and cheerful, but there is a danger in connection with them. During the day time, and when in the sunlight, they serve the very useful purpose of absorbing the poisonous exhalations of the lungs. They partially live on it; but at night time they do the very opposite. It seems to be their time for exhalation, and in quite large volumes do they emit a heavy gas that joins readily with the other gases of the house to degenerate and poison the air. Thus, with closed doors and windows, coal gas and flowers the winter time demands as much care, so far as ventilation is concerned, as the summer.—*London Free Press.*

FARMING IN ENGLAND.

Britain Unable to Complete with the Dominion.

Mr. R. W. Gordon, of Onley Grounds, Rugby, England, who was a delegate to Canada a short time ago, has addressed a letter to Mr. John A. Donaldson, Dominion Immigration Agent in Toronto, on the subject of his experience in Canada and at home. He says:—I am "thoroughly and quite entirely," as the Irishman says, ashamed of myself for having been so long in answering your kind letter of the 29th August. You will see I date from my new abode, where I have lived since last December. I hold this farm on a yearly lease which expires September, 1882, unless I renew it before then. Your country appears to have been again more highly favoured than this—at least in respect to agriculture. This has been, indeed, a disastrous season; the worst, in my humble opinion, we have had. Doubtless you will heap a rich harvest of emigrants again in the spring. The Old Country has its attractions, and they are great, but its ability to compete with such new and vigorous countries as yours, for example will yearly become more difficult, in fact, impossible. We are too crowded; it costs too much to keep us alive. Several of my acquaintances and friends have crossed since I returned, and all by my advice, and no doubt, in part, have gone West. I have not yet heard with what result. You will be awâre that I bought 1,680 acres 18 miles west of Winnipeg before I left the country. In all probability unless we have a great change for the better I will add another to the train of emigrants for the Far West. Snow to-day in the centre of England is lying two inches deep, which augurs badly for another good season. The cost of keeping up stock, if this is another severe winter, will be simply ruination. Hay is selling at £7 a ton, and straw of all kinds is very badly got. Roots in England good; Scotland will stand very little eating, and cakes and feeding stuffs are rising rapidly.

FROM ALL OVER.

MR. DEWDNEY'S appointment is only that of provisional lieutenant-governor of the North-west, until a regular successor to the Hon. Mr. Laird shall be appointed.

MR. PENDERGAST, a commercial traveller from Seaforth, fell off the G. W. railway bridge at Winham on Thursday night, a distance of sixty feet. His injuries are serious.

SERIOUS charges in connection with the expenses of the transfer of prisoners from the county jail to the various penitentiaries and reformatories have been made against Sheriff Munroe of Elgin.

A Philadelphia firm failed twenty years ago, and compromised with its creditors. The members of the firm having had a good run of luck, are now paying off their old liabilities, $125,000.

ACID STOMACH, HEADACHE, HEARTBURN AND INDIGESTION are quickly cured by using Perry Davis' Pain-Killer. Bathing the head freely in Pain-Killer will usually relieve the most severe attacks of headache.

THE other night burglars laboriously drilled seven holes in a safe at Madison, Wis. They discovered 11 cents—and also that the safe had been unlocked. But they had the satisfaction of knowing that they had spoiled the safe.

IN Scotland all rents are steadily falling except those which are derived from moors, forests and good fishing places, and these continue to rise. The rentals of less than fifty shootings in Perthshire amount to more than $325,000.

WHISKEY is bound to rise. A great consolidation of distillers is being effected in the West, by which the amount of whiskey produced hereafter will be regulated by the distillers. The distillers think the price of whiskey is not high enough and are bent on forcing it upwards.

THE JAPANESE carry their tooth-picks in their back hair, and always use them after eating anything. They take care of their teeth, and the teeth take care of their stomachs. Use tooth-picks freely, clean with Sozodont, and bad teeth and breaths will be scarce.

INSTRUMENTAL MUSIC was introduced into public worship of the West Church Inverness, on Sunday 30th of October. This is the first occasion in which instrumental music has been used in worship in any Presbyterian church in Inverness. The change has been decidedly appreciated by the congregation.

MODERN innovations are depriving Venice of the romantic charm which has clung to her for centuries. The song of the gondolier is heard no more. The introduction of small steamers, which make periodical trips along the chief canals, has caused the famous boatmen to retaliate, in an extremely unpoetic sort of way, by striking.

A SEVERE accident lately to a star performer had a far happier termination than was expected. The wife of W. H. Stowe, Esq., manager of Dan. Rice's great show, was terribly injured by being thrown from her horse while performat Cadiz, Ohio. St. Jacobs Oil alone was used and cured her in four days.

SIR CHARLES TUPPER arrived at Pictou from Prince Edward Island on Friday, and in company with a party of other gentlemen went over the Halifax and Cape Breton railway. He reach Halifax on Saturday night by specia train from Pictou.

It is a happily established fact that Fellow's Compound Syrup of Hypophosphites will retard vital consumption, increase involuntary muscular power and thereby harden the organs, promote vitality and facilitate restoration. It consequently possesses the wonderful property of prolonging human life.

"WHAT will you have, ma'am?" said the pretty girl behind the counter of a bakery at Wapokoneta, Ohio, to the richly dressed woman who had alighted from a carriage at the door. "I'll have some satisfaction, if you please," the caller replied; and she got it by scratching the girl's face, knocking her down, and kicking her. "Now, perhaps you won't be quite so civil to my husband when he comes for bread," she added.

FREE OF CHARGE.—All persons suffering from Coughs, Colds, Asthma, Bronchitis, Loss of Voice, or any other affection of the Throat or Lungs, are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of charge*, which will convince them of its wonderful merits and show what a regular sized bottle will do. Call early.—3.

THE palace of St. Cloud, near Paris, which ever since the war of 1870 has been a mere heap of ruins, is to be demolished, and an edifice constructed on its site which it is hoped will some day prove a rival to the famous building at Sydenham. The new crystal palace will be completed next summer. No better situation could possibly have been selected. The gardens are still well stocked for, and the park is superb, while St. Cloud is within an easy distance by boat or train.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tally, special agent for Peterborough.

A HAVANA steamship on her way to New York, ran into a school of whales twenty miles long and half a mile wide. The steamer glided over them or through them at first, but suddenly struck a monster, cutting him in two, and dyeing the water red with blood. It brought the steamer to a stand, and injured the steering apparatus. The sight of the monster's head as it slid up nearly to the deck, frightened the passengers. In ten minutes more it struck another, cutting it in two, with so great a shock that it everybody off their feet.

AT Osgoode hall on Saturday, before Mr. Justice Osler, a motion came before the court for a writ of prohibition to restrain the County Court Judge of York from entertaining application to cancel a liquor license. The object in taking the matter before a superior court judge is to test the validity of the Crooks Act, it being contended that some of the provisions of the Act assume to deal with matters of "trade and commerce," the power to do which is vested in the Dominion Government, alone, under the terms of the British North America Act. The matter was argued very fully and judgment was reserved.

THE Empress of India came into Charlotte, N. Y., on the 12th instant, with 2,100 barrels of Canadian apples consigned to E. M. Upton. The fruit is very fine. The Norseman also brought over on the same day 1,000 bags of potatoes and 1,500 barrels of apples. The "show" apples brought from Canada some time since, are a delight for all who like choice fruit. The strange sight is now seen of Western New York, the great fruit-producing region of the State, relying upon Canadian markets for fruit, when for years the shipments of all kinds of fruit from Charlotte to Canadian ports has been very large.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used more and more favourably to its wildly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of nine pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d., and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TUESDAY, NOVEMBER 22, 1881.

LOCAL AND MUNICIPAL.

The Weather.

The weather has again taken a change and is to-day quite comfortable, although some people complain of the cold. Last night was rather cold and a heavy frost prevailed. The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10,30 a. m. by the Great Northwestern Telegraph Company are as follows:—Lakes,—winds gradually shifting towards the south and increasing in force. Fine cold weather to-day followed by mild weather to-morrow. St. Lawrence,—moderate winds, fine cold weather. Gulf,—decreasing westerly to northerly winds, fine cold weather.

Good's Sporting Annual.

Two Toronto gentlemen, Messrs. H. J. P. Good and Philip D. Ross, are preparing what will be known as "Good's Sporting Annual," containing a complete record of the matches played during the year by all the lacrosse, cricket, football, curling, chess, checker and other clubs in the Dominion, together with the detailed reports of the proceedings of every racing and trotting association. The editors would like the names of all the Presidents and Secretaries, and any information which these can furnish.

Mechanics' Institute.

A meeting of the members of the Mechanics' Institute was held in the rooms of the Institute on Monday evening, with the president, Mr. A. P. Poussette, in the chair. The lecture committee were empowered to make arrangements for entertainments in the rooms. The president spoke of the advisability of making better known the advantages of the Institute. Notice was given of an amendment to the constitution separating the offices of librarian and secretary.

Sale of Furniture.

We beg to remind our readers of the extensive sale of furniture, belonging to the estate of the late W. H. Scott, M. P. P., which takes place to-morrow, Wednesday, at Stevenson's storehouse, Simcoe street, next door west of Helm's old foundry. The Sale commences at 12.30 o'clock sharp. Seats will be provided for ladies and the building will be well heated. The furniture is handsome and as good as new.

Mechanics' Institute Classes.

Classes for instruction in mechanical drawing, in book-keeping and commercial arithmetic, will be opened shortly at the Mechanics' Institute. They will be instructed by Mr. W. H. Trout and Mr. John Braden. Those who are desirous of joining either class are requested to leave their names with the librarian at an early date, as the classes will soon be formed.

The Voter's List.

The total number of appeals made against the Voter's list for 1881 is 62. John McNaughton makes 19 appeals, Thomas Kelly 19, W. Logan 18 and Charles Richardson six. They are nearly all for persons who have moved since the assessment was made.

Personals.

Mr. Pusey, a gentleman largely interested in iron mining in the back country, was in town on Monday in consultation with Mr. G. A. Cox.

Dr. Brereton, M. P. P., Stirling, passed through last night on his way to the convention.

Partridge and Ducks.

Local sportsmen are having a great time at present. Partridge and ducks are said to be unusually plentiful and judging from the large number that are being shipped and exposed for sale, we should say that such was the case.

Conservative Convention.

The night express going south last evening was filled with delegates for the great Conservative Convention at Toronto which took place to-day. Peterborough was largely represented by leading men of the party.

A Chimney Sweeper.

A chimney sweeper has been plying his trade in town for some days past and is doing a rushing business. There are enough dirty chimneys in town to keep a man going for months.

The English Mail.

The attention of our readers is directed to the fact that the English mail, via Halifax, now closes on Wednesday instead of on Friday as formerly.

Quite a Band.

An Italian—presumably—band entertained our citizens this afternoon by discoursing on the streets music, not of a very high order. The band was composed of three men, who played no less than eight instruments, six being manipulated by one man, who by a curious attachment was enabled to play a bass drum, snare drum, cymbals, triangle, mouth organ and with his head a "Jingling Gordie." The band drew large crowds every time they played and made considerable money.

Baths! Baths! Baths!

Just what was wanted in Peterborough! Mr. I. Guerin has started hot and cold water baths in his new barber shop on Simcoe street, a few doors west of Fairweather's corner, and deserves the credit of the public for supplying this health-preserving luxury. He should be well patronized, as he is determined to keep everything clean, warm and comfortable. Flesh brushes, sponges, towels and every convenience necessary. 120

Special Notice.

Dry Goods to be slaughtered for the next thirty days, as I have determined to retire from the business. I will commence to-morrow morning and sell all goods at cost, some lines a dood deal less. I want every customer to distinctly understand that this is no humbug. I must clear all the goods out before the 15th of December. Remember the place, opposit the town clock. Respectfully yours, JAMES DOLAN.

For Midland.

A special train this morning at an early hour, conveyed Messrs. Cox and Jaffray of the Midland railway, and several other gentlemen to Midland, whether they went on a tour of inspection. We have been told that the new and handsome director's car was attached to the train.

Railway Notes.

Reports from Kaladar state that work is being pushed rapidly forward on both lines of railway, which are expected to be built through the back route from Toronto to Ottawa.

It is expected that a mail car will be put on the Grand Junction after the 1st of January.

New Goods.

Use the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

The Boston Bank Failure.

BOSTON, Nov. 21.—The immediate cause of the suspension on Friday of the Pacific National Bank of Boston was the failure of Theodore C. Weeks, a broker and extensive operator on the street, whom the bank was sustaining, and who was carrying a large amount of stocks which have fallen. He was a large operator, it is said in Hartford and Erie, Eastern railway, Silver Islet Mining and other stock. These overdrafts, it is said have been going on for some time, until they amounted to about $500,000, when the bank suspended. According to the October statement, among the liabilities are:—Individual deposits subject to check, $1,090,746.20; demand certificates of deposit, $1,330,109,57. During the past two months the deposits have been reduced $750,000, of which $500,000 has been paid out since the October statement. Large as these withdrawals seem, they are partly accounted for by the fact that when the bank increased its capital stock a portion of it was taken by the depositors, who drew on their deposits to pay for it. Mr. Weeks holds at present over $4,000,000 worth of securities of various kinds, all of which are pledged to banks, two-thirds of their market value having been advanced on them. The remaining one-third, which Mr. Weeks holds as a margin, has been nearly wiped out by the decline in the stock market. Mr. Weeks claims that the banks are foreclosing on him, and, as the market may rise within that time, there is hope that his deficit may be made good. Mr. Benyon, the president of the Pacific, states that the accounts are all straight and regular, and this statement is believed to be in every way trustworthy. It is positively stated that, in any event, the depositors in the bank are secure from loss, there being a capital stock of $1,000,000 to draw upon, besides an equal amount which the stockholders must pay if necessary. There are also the loans to Mr. Weeks, for which security is held. It was a general impression in Boston that the bank would soon resume, but $1,250,000 is required for that purpose. The bank, however, is said to have the the best security to offer for the amount.

French Affairs.

PARIS, Nov. 21.—M. Chalamet, Republican member of the French Chamber of Deputies for the Department of Ardeche, a Protestant, has been appointed Under Secretary of the Ministry of Education and Public Worship.

President Grevy has signed the appointment of M. Magnin, Minister of Finance in the last Cabinet, as Governor of the Bank of France. The Paris *Courier du Soir* says that with the exception of M. Challemel-Lacour, the French Ambassador in London, all the representatives of France abroad will resign their posts. The report is confirmed that the resignations of General Chanzy and Count de St. Vallier as ambassadors at St. Petersburg and Berlin, respectively, were partly due to the appointment of M. Paul Bert as Minister of Public Instruction. It is also affirmed that General Chanzy desires to go to Paris, so as not to neglect his chances in the event of circumstances causing a vacancy in the Presidency of the Republic.

PLEURISY.—This is frequently a most disastrous complaint. It manifests itself in inflammation of the pleura, or membrane that surrounds the lungs. If neglected, should the patient recover even, its effects are sometimes felt ever after. Herrick's Sugar-Coated Vegetable Pills are the remedy.

GENERAL DEBILITY.—This convenient term includes numerous ill-defined and supposed incurable forms of disease, accompanied by general lassitude and exhaustion, without any ascertainable external or internal causes. The Peruvian Syrup sends its renovating influence to the utmost recesses of the system, and has relieved in our community many cases of supposed incurable disease. Sold by dealers generally.

CANADIAN TELEGRAMS.

TORONTO.

Special to the Review, Nov. 22.

THIS MORNING the pressure is low off our Atlantic coast in the north west and over the Gulf of Mexico, and an important arc of high pressure covers the lake region. The weather has become considerably colder in Ontario and Quebec. The temperature at Rockcliff last night was two degrees below zero.

OTTAWA.

Special to the Review, Nov. 16.

IT WILL BE REMEMBERED that Sam Hague's minstrel troupe, who have been making a tour through Canada, and who recently visited Ottawa, complained that they had, on entering Canada, been compelled to pay duty on the horse and advertising cart they brought with them. As they were merely passing through the country this appeared to be beyond the spirit of the regulations of the customs department, and it has now been decided to refund the sum paid, less the usual ten per cent.

WILLIAM G. SHEPPARD, post office Inspector, for Quebec and Capt. Sheppard A.D. C. to the Lieut.-Governor of Quebec arrived by the Q. M. & O. R'y last evening, to attend the funeral of their brother, the late P. R. Sheppard.

RUFUS STEPHENSON, M. P., left the city last night for Toronto, where he will attend the Liberal Conservative convention.

THE ANNUAL REPORT of the Dominion rifle association is now in the hands of the printer, and will shortly be ready for distribution.

SOME THREE HUNDRED car loads of lumber are now being shipped to Ogdensburg and two hundred to Boston by the St. L. & O. R'y.

THE LAST TOW of the season left on Thursday last laden with lumber from Gilmour & Co's mills for Quebec.

SCOTLAND.

SHERIFF BARCLAY, Perth, has given it as his opinion that where a tenant reaps from his whole farm no more than the value of the seed and labour no rent is exigible.

ALEXANDER CAIN, LL. D., has been elected Lord Rector of Aberdeen University. His opponent was Sir James Paget, a well-known London surgeon.

THE Earl of Cawdor has presented to the Nair Literary Institute a handsome volume, entitled "The Thanes of Cawdor," being papers selected from the charter room at Cawdor Castle.

THE Clide Lighthouse Trustees have now contracted with Simons & Co., Renfrew, to build a fleet of four powerful dredging steamers capable of deepening the channel to 35 feet.

THE Town Council have appointed a deputation to wait on Lord Rosebery and the Lord Advocate to urge for an Executive Commission for the further improvement of the Scottish Universities.

A YOUNG bricklayer, who was to have married the younger of two sisters, at Dalvart, near Ballack, has eloped with the elder, the couple carrying off with them the younger sister's marriage outfit, even to the boots.

AT present there are a large number of seals in the river Tay hunting the salmon as they attempt to make their way to the upper reaches. On the 23rd of October, a seal was observed to catch a fine salmon near Perth Bridge.

THE Dundee Gas Commissioners have taken time by the forelock and are going to apply to Parliament next session for authority to supply electric light to all parts of the town, including dwelling houses.

THE Town Council of Edinburgh last year spent £670 in deputations to London and elsewhere. On such occasions the Lord Provost receives £2.3s. and other members £2 2s. of personal expenses per day, besides travelling expenses.

THE landing at Glasgow of cattle and meats from America, during September considerably exceeded the imports during the corresponding month of last year. There were 3214 cattle and 2015 sheep—an increase of 1580 sheep.

THE Town Council of Edinburgh have voted one hundred guineas to the fund for the relief of the sufferers by the gale on the 14th of October, on the east coast. The Council also voted fifty guineas to the Watt Institution and School of Arts.

AT a meeting of the Inverness Gas and Water Committee on the 26th of October, it was agreed to reduce the price of gas from 6s. 8d to 5s. 10d. per 1000 cubic feet. It was also recommended to raise the manager's salary from £150 to £200.

On the 27th October a meeting of the Irishmen of Kilmarnock was held in the Crown Inn Hall, to express their indignation at the arrest of Mr. Parnell and the other leaders of the Land League, and protest against the Irish policy of the Government.

GOOD MEN AND TRUE.

Fourteen Hundred Liberal Conservatives Attend the Great Convention at Toronto.

TORONTO, Nov. 22.—The great Conservative Convention commenced persuant to announcement this afternoon, and was held in Shaftesbury hall. This hall was built for a good purpose, and as the temporary home of the Conservative Convention it was certainly well used, and contained a body of good men. Two o'clock was the time decided upon for the opening of the proceedings. At that hour the delegates arrived. Those representing cities occupied the large lower gallery. Hamilton was represented in the portion of the gallery to the left of the platform. Toronto occupied a large share of the centre of the gallery. Other cities had the right side of the platform. The entire gallery was crowded. Upon the ground floor the delegates from the rural constituencies were seated. The entire seating capacity of the body of the hall was not sufficient to accommodate them. Many had to stand, and crowds gathered in the corners, along the sides of the hall, behind the rear benches, and up the aisles. So fine an assemblage of men it has seldom been the good fortune of anyone to see. There were nearly 1,400 present. There were representatives of all the nationalities dwelling in Canada. There were Canadians, Englishmen, Irishmen, Scotchmen, Welshmen, Germans and Frenchmen. There were men of all occupations. There were agriculturists, mechanics, manufacturers, tradesmen, importers, wholesale dealers, retailers, clerks and lawyers. There were men of all shades of religious opinion. The gathering was indeed a thoroughly representative one, including all classes and conditions of men. When all were seated the following were appointed secretaries:—Mr. John A. Macdonnell, chief secretary, and Messrs. C. E. Robinson, T. W. Crowthers, Remy Elmsley, and T. A. Keefer, assistants.

Sir John Macdonald was invited to speak. Cheer upon cheer met the right hon. gentleman when he arose. The Premier's speech was brief. It referred to the prospects of the party, which were cheering, and counselled preparations for the conflict of 1883. Other speakers followed, including Mr. J. B. Plumb, Mr. T. White, Mr. Meredith, Mr. Tasse, Sir. Alex. Campbell, Hon. D. L. Macpherson, Hon. T. N. Gibbs, Mr. Alex. Brown of Hamilton, Mr. J. J. Hawkins, Hon. Mackenzie Bowell, Mr. Wallace, of Norfolk, and Mr. Robertson of Hamilton. The speeches were brief and to the point. At six o'clock the convention adjourned until Wednesday.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

DILKE CAN'T SPEAK.

LONDON, Nov. 23.—A number of Irishmen in the Town Hall at Newcastle last evening, prevented Mr. Dilke, M. P., addressing his constituents, by groans and hisses.

CHOLERA EPIDEMIC.

LONDON, Nov. 23.—The cholera at Mecca is decreasing, but it has appeared at Yembo on the Red sea, some miles further north.

NO HUNTING ALLOWED.

DUBLIN, Nov. 23.—During a hunt of the Kildare hounds three were poisoned at Sallens. The master of the hounds stopped the hunt and cancelled all fixtures for the future. A mob of five hundred attacked the Armagh Hunt Club at Ballymacnabb. Many horses were severely stoned.

WHY HE IS THERE.

LONDON, Nov. 23.—The German Ambassador denies that Count Herbert von Bismarck has come to London on a secret mission to offer England possession of Egypt, but comes as a second secretary to the German Legation.

A LETTER FROM EGAN.

PARIS, Nov. 23.—Patrick Egan, in a letter to the Treasurer of the Home Rule League, Dublin, in reply to a recent circular, while reminding the Home Rule League that he himself is one of them, he depreciated their idea of attempting to revive their movement at the present juncture, by the formation of local associations. He protests against the opening passage of the circular, which, he says, would appear simply that the legislation of the government has given satisfaction to the Irish people. He says that the country in its independence has outgrown Home Rule in its present form. Parnell, Dillion and their friends are now in prison under Home Rule, and it is prejudicial to the interests of Ireland.

AMERICAN.

NO NEW TRIAL.

JERSEY CITY, N. Y., Nov. 23.—The directors of the defunct Mechanics' and Laborers' Savings Bank have been refused a new trial. The accused are all prominent citizens. The prospect of their being sent to the state prison has created a sensation.

FAILURE.

BALTIMORE, Nov. 23.—Joseph Scrimer, Brewer, is insolvent with liabilities of $100,000.

HER MIND UNSETTLED.

WASHINGTON, Nov. 23.—Mrs. Christancy was was found last night running through the streets bare headed and in her night dress. Her ravings were terrible. It is supposed that her mind has been unsettled by the evidence, alleged to be very damaging, submitted by the prosecution in the divorce suit.

THE AGRICULTURAL INTEREST.

NEW YORK, Nov. 23.—Lefore, of Ohio, will introduce into the house a bill making it illegal to make the Commissioner of agriculture a member of the Cabinet.

THE LAST CENSUS.

NEW YORK, Nov. 23.—The *Tribune* says that Joseph Kennedy, who took the census in 1850 and 1860, thinks that the present census work has been extravagantly conducted, and that the results will not be accurate.

GUITEAU GAINING GROUND.

NEW YORK, Nov. 23.—There is a feeling of uneasiness on the part of the prosecution as to the result of the Guiteau trial. It is believed that Scoville has gained the first point over passion and prejudice from the fact that he was twice applauded yesterday. This is regarded as significant of a change in the public mind regarding the mental condition of the prisoner.

CIVIL SERVICE REFORM.

NEW YORK, Nov. 23.—It is said that commissioner Rowen in his forthcoming report will bear exceedingly pronounced views on civil service reform.

GOULD'S SCHEMES.

NEW YORK, Nov. 23.—The *Times* reports that Gould has secured the control of the New York and New England railway, and the Hudson River road, opposite Newburg. Gould's design is to connect the road with the Elevated railway here.

OFFICE SEEKERS AT BAY.

NEW YORK, Nov. 23.—The President told a Congressman who wanted a change of postmasters made in certain places that he had made up his mind that a safe rule for him to follow was to remove nobody without cause during his term of office fixed by law. He did not think, however, that he was under obligations to re-appoint office holders at the expiration of their terms. When the term of a postmaster was about to expire he should be glad to confer with the Congressman as to the proper man to succeed him, but it was useless to forego the removal. The President refused the request of an intimate friend that he remove an officer appointed by Hay, and appoint a friend to the place. The President also told certain gentlemen that he did not feel in interest bound as President to appoint men whom he had recommended when Vice-President. It was one thing to advise and quite another to act. Such incidents as these have greatly cooled the ardor of office seekers.

LINCOLN'S WIDOW WANTS.

NEW YORK, Nov. 23.—The widow of President Lincoln has been here nearly two months under medical treatment, and it is said that she has needed means to secure proper attention and nursing. The $3,000 pension is not sufficent to supply her wants in her present condition. Cyrus W. Field is exerting his influence to secure the passage of a bill increasing her pension to $5,000.

CONSOLIDATION.

NEW YORK, Nov. 23.—The *World* says that the *Evening Express* was yesterday purchased by Cyrus W. Field, and will be consolidated with the *Evening Mail.*

THE PUGILISTS CAGED.

JEFFERSON, Ohio., Nov. 23.—White and Holden, the pugilists, were bound over in $13,000 each. If they cannot raise the money they will remain in gaol to await the action of the grand jury.

IDENTIFIED.

BROOKLYN, N. Y., Nov. 23.—The body found in the Bay yesterday with marks of violence is supposed to be that of R. A. Schonman, the missing New York banker.

EXPORTING GOLD.

BERLIN, Nov. 22.—The export of gold from Russia increases rapidly.

A MURDER RESPITED.

DUBLIN, Nov. 22.—Duff, the butcher, recently sentenced to be hanged for the murder of Constable Daly in a street affray, has been respited and his sentence commuted to penal servitude for life.

UNITED STATES AND CHILI.

LONDON, Nov. 22.—The *Standard* says:—"The news of the relations between America and Chili cannot be read without a feeling of uneasiness. If Secretary Blaine's policy is to be that of President Arthur, just at a moment when the political horizon seems to be clear, the Americans are entering upon a career of foreign adventure from which grave consequences must be apprehended. It adds:—"In the meantime America cannot stir, even if inclined to resent a slight, as the American navy, if not a phantom fleet, would certainly find it difficult to compete successfully with the Chilian fleet."

DAMAGE BY THE GALE.

LONDON, Nov. 22.—Reports of the effects attending the last storm continue to arrive. A depression of 28.3 inches lies near Sweden, and heavy gales rage over the country. Telegraphic communication in Scotland is greatly interrupted and great damage has been done in many cases. The injuries reported in a few instances terminated fatally. The sea broke through Lytham breakwater last night, entirely suspending railway communication with Blackpool, where the water in many houses lies six feet deep. Later details of the storms show that on the banks of the Firth of Forth large stretches of sea wall were blown away and a breakwater destroyed. At Oban the esplanade was wrecked, and at Blackpool the promenade was destroyed. The storm was the fiercest known at Queenstown for thirty years.

A WILD RUMOUR.

PARIS, Nov. 22.—M. Gambetta's organ in Paris has published a sensational telegram from London, stating that Prince Bismarck's son Herbert has arrived in London on a secret mission to offer England possession of Egypt to the excluion of France, and guarantee that no power having interest it the Mediterranean be permitted to go beyond the diplomatic means of resisting such annexation.

CONTINUED FIGHTING.

SUSA, Nov. 22.—Fighting continues all along the coast. The village of Shebba has been wrecked, and is in possession of the insurgents.

NOT CORRECT.

LONDON, Nov. 22.—The report that the men who escaped in a boat from the burning steamer Solway had been picked up on the Irish coast proves untrue.

FRANCE AND TUNIS.

PARIS Nov. 22.—In the French Chamber of Deputies M. Gambetta stated that the policy of the Government relative to Tunis was based on the order of the day moved by him, and adopted on the 9th inst., declaring that France was resolved loyally to observe the treaty with the Bey. All future measures will be submitted to the Chambers for approval. He would submit on Saturday fresh credits for the expenses of December. He declined to say anything in approval or disapproval of the financial acts of the late Cabinet.

HOW NIHILISTS ARE MADE.

ST. PETERSBURG, Nov. 22.—It is stated that General Vanowski, Russian Minister of War, is much concerned in consequence of the army curtailment, by which many officers are reduced in circumstances. The Minister of War has expressed a fear that these officers would go to swell the ranks of the Nihilists, and has asked the Minister of Finance to find employment for the superfluous officers, but the request has been refused. The creation of a number of extra posts in the Caucasus will probably be authorized to provide for the dismissed officers.

AMERICAN.

THE GREAT TRIAL.

WASHINGTON, Nov. 23.—The inclement weather had a sensible effect this morning in reducing the throng about the court house. An unusual proportion of ladies, however, were to be observed among the spectotors at the opening of the court. Guiteau on arrival was served with breakfast. His appetite is said to be marvellous. He discussed freely the events of yesterday, and expressed some dissatisfaction at the release of Jones upon bail. When the court opened, Scoville made a formal request for the papers taken from Guiteau at the time of his arrest, stating that they were material evidence for the defence. Since the prosecution had not needed them, he could see no reason why they should be withheld from him. The District Attorney offered to furnish copies of the papers, but Scoville insisted upon his rights and asked for the originals.

TAKING PRECAUTIONS.

WASHINGTON, Nov. 22.—The prison van this morning was escorted from the jail by six mounted policemen in addition to the two officers upon the van. The court room was filled. Scoville was early in his seat giving the final touches to his address. John Guiteau was also in court and obtained subponeas for six additional witnesses. None of the gentlemen publicably invited by Guiteau to assist in his defence have responded in person. It is understood that Scoville intends to secure the services of Trude, of Chicago. Several medical experts summoned by the defence are in attendance, among them are Dr. Rice, who has long known the prisoner, and who, it is said, advised his commitment in an asylum four years ago, on the ground of emotional insanity. Guitean's personal appearance has undergone a marked change. Since the first day of the trial until this morning he had evidently devoted unusual care to it. The wild frightened look of his eyes has disappeared.

THE COST OF LIVING.

A GREAT deal is being said and written just now about the increased cost of living, by those opposed to the National Policy, with a view to exciting popular feeling against it. We are told over and over again that because the price (in dollars and cents) of several commodities, which enter into general consumption, has advanced, therefore the cost of living has increased.

Such a line of argument, we contend, is fallacious, and very often, if not always, contrary to facts. Money is not a reliable measure of values between one period of time and another. To illustrate what we mean, let us take the article flour, which enters into general consumption. Can it not happen, has it not often happened, that flour was cheaper when it was (say) eight dollars per barrel, than when it was only five? To the man who has to earn his bread by the sweat of his brow the question is not how many dollars he will have to give for it, but first who will give it to him for his labour upon any terms, and secondly who will give it to him for the least labour. Hence before he can obtain the flour at all, he must find some one willing to give it to him for the labour he has to sell, and the cheapness with which it can be obtained depends upon the demand which exists for his labour. Thus flour at $8 per barrel is cheaper when labour is worth a dollar per day than when the same labour only brings fifty cents; or again flour is dearer at $5 per barrel, when labour is only worth 50 cents, than it is at $8, when labour is worth one dollar. In the first instance it takes ten days to earn the barrel of flour, in the last instance only eight, making the nominally cheapest flour twenty-five per cent. the dearest. Innumerable instances, all illustrating and enforcing the same obvious truth might be given, but one is as good as a hundred to prove that the "earning power" of the people, not money, is the true test as to the cost of living. As the earning power decreases the cost of living increases, as it increases the other decreases.

Now, if this be so, and we believe it to be a statement rather hard to controvert, then the question to be decided is not whether things cost more, in dollars and cents, now, than they did under Mr. Mackenzie's revenue tariff, but has the individual earning power of the people increased or decreased under the National Policy? If it has increased then they are more prosperous, and the cost of living must have decreased; if it has decreased then they are less prosperous and the cost of living has increased.

If this statement be accepted as correct, then we take it, little or no argument is required to satisfy most people that the cost of living has *not* increased under the N. P. Everybody knows that the demand for labor of nearly every description is now infinitely greater than it was three or four years ago; everybody knows that the price obtainable for labor has advanced all along the line; everybody knows that the country is to-day prosperous to a degree which it has not been for years, and knowing by happy personal experience the truth of these things, they know full well, in the true sense of the words, that the cost of living has not increased, but decreased, and that as a consequence they are now able to enjoy comforts which "stern necessity," under the latter part of Mr. Mackenzie's regime compelled them to do without, and that whether it be the National Policy, or Sir John Macdonald's good luck, or because heaven helps those who help themselves, they are now prospering to a degree which leaves them no desire to return to Mr. Mackenzie's "cheap" living.

The Parkhill Homicide.

LONDON, Nov. 21.—McKinnon and McLellan, the men accused of manslaughter in connection with the Parkhill homicide, were released on bail this morning. They pleaded not guilty and have elected to be tried by a jury.

THE INNISFIL TRAGEDY.

How Farmer Richard Slight Came to His Death—Murdered for his Money.

COOKSTOWN, Nov. 21.—A brief account has already appeared of the sad death of Mr. Richard Slight, a respectable farmer, sixty-six years of age who lived near here. The old man had gone to Barrie, and started for home early in the evening. A stranger joined him and wanted a ride. It is supposed that Mr. Slight was a verse to having the individual in question for a travelling companion; so much so that he applied at a house by the way—that inhabited by a foreman on the Hamilton and North-Western Railway—for permission to stay over night. There was no accommodation for him however, and he had to proceed on his way. The stranger stuck to the deceased, although the latter was heard strongly to object to his accompanying him. However it appears they drove off together. Next morning the body of the old man was found cold and stiff in his waggon, and his horses were standing by the roadside. The statement previously made that the horses had gnawed deceased's face is incorrect.

After the discovery of Mr. Slight's body intelligence was conveyed to coroner Norris, of Cookstown, but that gentleman for reasons, which have not been made clear, refused to act; and it was not till the County Attorney at Barrie had ordered him to do so that he did act. Meantime the body had lain as it was found. It was removed on Saturday and a *post mortem* examination held. A jury was empannelled on Saturday night, but an adjournment was made till this morning.

THE INQUEST.

The following is the statement of the coroner:—On the evening of Saturday, November 19, at the residence of Mr. George Reynolds, township of Innisfil, I made a *post mortem* examination on the body of the late Richard Sleight. I found the body with all the clothes on except the cap, in the same waggon in which, from the appearance of things he had come to his death. The face of the deceased lay in the pea straw towards the front end of the waggon, and a two gallon stone jar was quite bloody, while some of the blood had run off the front end of the bottom boards onto the doubletree and out of the whiffletrees. The handle of a small rod whip which deceased had carried was all besmeared with blood. On stripping the body I found it to be that of a well nourished man, apparently about sixty years of age. No wounds were to be seen on any part of the person except the head. Here I found altogether four scalp wounds. The first and largest one commenced at a point two inches above the left ear and extended upwards and backwards for nearly three inches, and cut through all the tissues. The bone itself was not fractured. The second wound I found to be a small one, just above the occipital protuberance. It was horizontal, about half an inch in length. It did not go quite through the scalp, and the bone was not injured. The third and fourth wounds were situated at the right ear, and ran in a horizontal direction, with a space of about three quarters of an inch between them, above the external meatus or opening of the ear. The ear was completely cut in two by the blow. The third cut then ran straight back for rather more than two inches, and severed every tissue to the bone. The fourth and smallest scalp wound was immediately below the third one, and underneath the lower part of the lobe, which was also cut through. This wound was three-quarters of an inch in length, and cut the tissues to the bone. I then proceeded to examine the interior of the skull. I first cut through the scalp from one ear and over the top of the head to the other ear. In doing so I found a quantity of blood effused between the scalp and the scull at and for some distance around the external wounds which I have described. I then doubled the front of the scalp over the face and the back half upon the neck, and removed the calvarium or upper part of the scull. Upon doing so I found a quantity of blood partly coagulated, about two ounces, opposite the wound behind the right ear, and about one ounce opposite the wound above the left ear. The brain itself was natural in appearance and size. I found a fracture of the bone extending from a part above two inches behind the external opening of the right ear, and running inwards and downwards across the petrous portion of the temporal bone, just below the internal meatus or inside opening of the ear; thence into the foramen, then across the sella tincica into the left sphenoidal fissure, and as far as the outward extremity of the orbital plate of the frontal bone of the left side. Another fracture commenced at the right side of the sella tinccia and ran through the right sphenoidal fissure to the outward extremity of the orbital plate on the right side. The first line of fracture would be about six inches in length, and the second about two inches. From the external character of the fracture, and from the contused and lacerated character of the external wounds, I believe they were produced by some blunt instrument in the hand of some one who wielded such instrument with tremendous force to cause the injuries I have described, and which in my opinion were amply sufficient to produce death. My impression is that deceased did not die immediately upon being struck, but rather lived for some time, perhaps some hours, afterwards in an unconscious condition. But had he been found shortly after the blow was dealt and while still alive, he could not have been rescued from death, as his wounds such as I have described above were necessarily of a fatal character.

The jurors returned no verdict, but adjourned till Saturday.

SENECAL V. FOOTE.

Arrest of the Proprietor of the Quebec "Chronicle"—A Charge of Criminal Libel.

QUEBEC, Nov. 21.—There is immense excitement to-day in town over the arrest, by High Constable Bissonnette, of Montreal, on a charge of criminally libelling Louis A. Senecal, of Mr. John J. Foote, proprietor of the *Chronicle*. Mr. Foote was subsequently released on bail, his sureties being James G. Ross, Quebec's millionaire, and Mr. Peter McNaughton. The street in front of and around the *Chronicle* office is thronged with excited crowds of people, attracted by the bulletins posted at the door.

Found Dead.

SIDNEY, Nov. 21.—The body of a man was found about eight o'clock this morning a short distance west of the station. The section man made the discovery. The body was lying on its face a few yards from the track. There was no marks of voilence on it, which bears out the supposition that the man either died of apoplexy or heart desease. The corpse was borne to the Station, where it now lies awaiting identification.

LATER.—The man found on the track one mile west of Sidney this morning is supposed to have been a passenger by No. 3, Saturday night, having a second class ticket from "Toronto to Ottawa." From papers found on him his name is James H. McIntyre, living in Ottawa. His remains have been taken to Belleville.

TIMBER REGULATIONS.

The Winnipeg *Times* says that the recent Order-in-Council regarding the timber regulations has been received at the Crown Timber office. The following are the regulations:—

HOMESTEADER'S FREE PERMIT.

Any occupant of a homestead quarter section having no timber of his own, may, upon application, obtain a permit to cut such quantity of building timber, fencing timber or fuel as he may require for use on his homestead, not exceeding the following:—

1,800 lineal feet of house timber, no log to be over 12 in. at the small end.
400 roof rails.
30 cords of dry wood.
2,000 fence rails.

Should the house timber be sawn at a saw mill, payment for sawing must not be made by way of toll, as the full quantity of lumber cut from the logs must be used on the permit-holder's homestead. In order that mill owners may be able to give satisfactory evidence that saw logs or lumber found in their possession have been lawfully cut, they should require from settlers bringing timber to be sawn, proof that the same has not been cut on Dominion Lands, or that it has been cut under a permit, which the settler should produce in order that its number, date and name of permittee may be noted by the mill owner; the latter should also record the amount of such timber sawn by him, so that he may be in a position to duly protect himself should account or return thereof be demanded by agents of the Department.

The applicant will require to pay an office fee of 50 cents before he can obtain a permit, but no dues will be charged for the timber or wood cut under and in accordance with it.

Settlers whose farms may have thereon a supply of timber, or who are in possession of wood lots, or other timbered lands, will not be granted a free permit.

PERMITS SUBJECT TO DUES.

Permits under payment of dues may be granted to those applying for them to cut timber on available vacant Dominion Lands, on paying dues at the rates hereinafter specified:—

Cordwood, per cord	$ 25
Fence posts, 8 ft. 6 in. long each	1
Telegraph poles, 22 ft. long each	5
Each lineal foot over 22 ft.	1
Railroad ties, 8 ft. long	3
Rails, 12 ft. long, per M	2 00
Stakes, 8 ft. long, per M	2 00
Shingles, per M	60
Square timber and saw logs of oak, elm, ash, or maple, per M B M	3 00
Pine, spruce, tamarac, cedar, and all other woods with the exception of poplar, per M B M	2 50
Poplar, per M B M	2 00

All other products of the forest not enumerated, 10 per cent. ad valorem.

An office fee of 50 cents to be charged for each permit.

Issuers of permits will be instructed by the Minister as to the limit of quantity that will be granted; also what proportion of dues shall be deposited on issue of permit, as guarantee on the part of those obtaining the same.

Besides the dues above specified, grantees of permits may be called upon to pay such addition thereto as the Minister may judge necessary to meet their proportion of any expense that may be incurred by the Department in survey, or other demarcation, on the ground of the limits within which such permits are to be operative.

Permits shall set forth that those obtaining them must conform to the conditions, terms, and requirements specified in the same, and carefully restrict their cutting to the limits described therein; and that any breach thereof will subject the offender to all the pains and penalties in that behalf as set forth in the Dominion Lands Act.

FREE OF CHARGE.—All persons suffering from Coughs, Colds, Asthma, Bronchitis, Loss of Voice, or any other affection of the Throat or Lungs, are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of charge*, which will convince them of its wonderful merits and show what a regular sized bottle will do. OVER THE FALLS.

What came of a Lover's Pretended Suicide—The Current carries him Away.

AUSABLE CHASM, N. Y., Nov. 17.—At the Alice Falls, between this place and Keeseville, the fall of water is over forty feet and very well known to tourists. On Tuesday afternoon about three o'clock it was the scene of an accident not to be forgotten at the Alice Falls for some time. A rejected lover pretended to commit suicide, and the result nearly proved fatal. Above the Falls on the Keeseville road lives a French family. At their house there had been a party who had been married on Sunday—it is quite a common thing for the French people in this section to get married on Sunday—and the friends of the married party went there on Monday to celebrate their marriage. Among them there there was young man named Peter Gumblaw. A young lady member of the family, to whom he had been paying his addresses, had been told by another young lady (a guest) that her young man, Mr. Gumblaw, had done so and so which had offended her. She accordingly went upstairs to where he was and told him that if he was the kind of man he was they would dissolve partnership at once, and requested him to leave the house. The young man completely broke down, and told her she wohld never have to tell him that again. He left the house and went toward the river, and a little boy of the name of Crevier followed him down to the river bank, where the two sat down on a rock. Mr. Gumblaw took off his hat and coat and boots and gave them to the little boy, telling him to give them to "Old Joe," the master of the house, and say that Gumblaw would never need them again. He sat on the rocks talking to the boy for some time, until the proprietor of the house was observed coming down toward him. He at once ran into the water, but evidently went further than he had intended to go. He turned to come back, but could not. The current flowed very rapidly, and despite his struggles towards the shore he was carried off his feet, and screaming with alarm was borne over the fall into the foaming water below. The water falls into a deep hole, and in order to rescue the man, the residents, who had by this time assembled, brought a ladder and some ropes. He was lifted up, and the doctor from Keeseville arrived and examined the man. He found that the left leg was broken at the thigh; three ribs and one arm were also broken, and Gumblaw now lies in a very critical condition.

SNORING IN CHURCH.

A Charge Preferred Against Several Members of the Frome Church—Sleep On.

Snoring in church has been the bane of a good many preachers from time immemorial. Various methods have been tried to stop it, parsons have threatend with the terrors of the bottomless pit, and tried to cajole the culprits with the joys of the New Jerusalem, but to no purpose. The evil has gone on and will exist until Sunday and parsons are no more. A new method was tried to stop the evil by a pastor at Frome, a small hamlet about four miles from St. Thomas, but the snorers triumphed, and the last state of the preacher is worse than the first. Now the snorers are not more demonstrative at Frome than in other localities, but the church being small, the same noise would not be noticed in ordinary churches, becomes unbearable in the Frome church. The person is not more dull than the average parson, but a little more sensitive, and a snore that would not effect another's equilibrium, throws his nerves all into a tremble. Last Sunday was warm; one of those beautiful Indian summer days that invites repose, and the young farmers about Frome, who had taken advantage of the fine weather and done a hard week's work were easily enticed by Morpheus; although they were in church, and knew their duty to their parson and to themselves, they fell asleep, shortly after the second hymn was sung, as the evidence, showed to the sorrow of the parson, and the joy of the small boys. The parson testified that he entreated the sleepers to wake up, and gave them several gentle hints, but like the seed sown an stony ground, it availed nothing. The parson proceeded through many difficulties with his sermon, until he got to "fourthly," when the noises soundud like a a large brass band out of tune, playing "Hold the Fort," and the messenger of peace and *good will to men* had to sit dawn conquered, but not subdued. He ordered the few who were awake to go and arouse the sleeping, and after tranquillity had been restored, went on with his sermon. On Monday morning, Mr. Horton, one of the leading members, of the congregation, lodged an information before Mr. Wm. McKay, J. P., of this city, against several of the younger members of the congregation, charging them with making outlandish noises in church, during divine service, contrary to the form of several statutes in such cases made and provided, and against the peace of our lady the Queen, her crown and dignity. The evidence established the facts as given above, and Squire McKay did not hesitate long before he gave his decision. His Worship said he did not consider the charge a very serious one, although no doubt the preacher had been very much annoyed. It had been a custom as long as he could remember to snore in church, and there was no case in the books where any body had been fined for snoring. He would not fine the accused and establish a precedent that might cause a revolution, and endanger the liberties of people. If he fined these young men, some other parson might bring up his whole congregation, old men and all, to get them fined; and besides, he was not sure how the man who occupied the seat back of his own, in the Kirk where he was an elder, would swear that if his pastor got cranky and brough t up the congregation for snoring. His Worship advised the Frome parson to try some other aemedy to cure the evil, and dismissed the case—each party to pay their own costs.—*St. Thomas Home Journal.*

APSLEY.

From Our Own Correspondent.

THE KNIFE.—On Saturday evening Allister Clapperton was locked up for assaulting James Henry Clifford. On Monday the case was heard before James Golbourne, Esq., J. P., and the accused committed for trial at the next quarter sessions. There was no doubt about the evidence and the matter might have been disposed of by the Magistrate, as there was, as usual, nearly equal fault on both sides, but for Clapperton slashing Clifford with a knife. According to the evidence of Dr. Shaw, who dressed the wounds, some of them though slight, were in dangerous proximity to the chief vessels of the neck. Whiskey—the curse of the place—was at the bottom of it; the prisoner when arrested was drunk and had a bottle of the stuff in his pocket. It is a pity that nothing can be done to check the indiscriminate sale of liquor which is giving the place an evil notoriety.

A MEETING of Lord Aberdeen's tenantry, convened by His Lordship, was held at Tarvas on the 29th October. The Earl, who presided, said the Agricultural depression was part of the general commercial depression which he hoped was now passing away. He attributed it partly to want of capital for farming purposes, and too great banking facilities in the past. He was in favor of compensation for unexhausted improvements, if some just scheme of valuation could be devised.

LIEUTENANT-COL. NATHANIEL HIGINBOTHAM, of Guelph, has been appointed by the Lieutenant-Governor in Council to the Registrarship of the South Riding of Wellington, made vacant by the death of Capt. Prince.

A POPULAR REMEDY.—Hagyard's Pectoral Balsam is one of the most deservedly popular remedies for the cure of cough, croup, bronchitis, and all pulmonary complaints. For sale by all dealers.

THE contract for the construction of that part of the South-Western Railway, extending from R. J. Brown & Co's contract at Boyne to Souris, a distance of 270 miles, has been let to a New York contractor.

People have no more right to become dyspeptic, and remain gloomy and miserable, than they have to take poison and commit suicide. If the stomach becomes weak and fails to perform its functions, Burdock Blood Bitters will speedily remedy the trouble.

WHAT EVERY ONE SAYS MUST BE TRUE.—And every one who has tested its merits speaks warmly in praise of Hagyard's Pectoral Balsam as a positive cure for all throat and lung complaints, coughs and colds, sore throat, bronchitis and incipient consumption.

THE good people of Charlottetown, P. E. I., have almost gone wild with terror because some dynamite was landed there recently. The mayor sent frantic telegrams to the shippers of it, stating that if not removed inside of 48 hours it would be destroyed as dangerous to the city.

THE packer of the "Neptune" brand of oysters, Mr. Thomas H. Dorsey, foot of Tenth street, North River, N. J., writes; I had a a sprained arm, and St Jacobs Oil was applied. It reduced the swelling aud eased the pain at once; proving it a remedy of rare worth.

WALTON, a New York hotel keeper, has this fall landed over $750,000 on the English turf He won £23,000 on Foxhall, and the New market, and £10,000 more a few days afterwards on the Challenge Stakes race.

ALL the car building shops of the Grand Trunk are working to their utmost capacity to turn out new freight cars, and repair disabled ones, in order to meet the urgent demands for more rolling stock to carry the ever increasing tonnage offered to the Company.

A REAL NECESSITY.—No house should be without a bottle of Hagyard's Yellow Oil, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures, or relieved so much pain and misery. It is called by some the Good Samaritan, by others the Cure-all, and by the afflicted an Angel of Mercy.

ANY one who want to get the three volumes of "Endymion," which sold a year ago a guinea and a half, may now buy in London as many copies as he wants for the small charge of half a crown each. But one need not wonder. At an auction in London some weeks since several hundred copies of an aspiring work of travel published in 1878 at two guineas, sold new and uncut at an average of two pence half penny each. If the paper had not been printed on, it would have gone at two shillings a copy.

HUMBUGGED AGAIN:—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

A FEW days ago the Tichborne claimant was visited in Portsmouth Convict Prison by Mr. Guildford Onslow, the interview lasting half an hour. The claimant, although told of the immense dimensions of the petition being got up in his favor, seemed to have lost all hopes of any remission of his sentence, and expressed his belief that the Government intended to keep him there for the full term. Ten years of the sentence expired on October 29, and by a continuance of good marks he will have three years and eight months more to serve before he is free.

DO NOT BE DECEIVED.—In these times of quack medicine everywhere, it is truly gratifying to find one remedy that is worthy of praise, and which really does as recommended. Electric Bitters we can vouch for as being a true and reliable remedy, and one that will do as recommended. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at 50 cents a bottle, by Taylor & Macdonald.—3.

ON a recent Sunday the preacher in the North Congregational Church in Lynn, Massachusetts, surprised his congregation by leaning helplessly on the pulpit just as he was bringing his sermon to a close. The choir and congregation arose, and the hymn was begun; but two of the women singers fell to the floor. The sexton who was in the conference-room, started to go to their assistance, but was unable to support himself on his feet, and in his fall he tripped over a settee. Many person in the congregation who attempted to quit their pews found that they could not walk, and others that were less helpless gathered around them. Somebody came in from the open air, and found that the church was filled with coal gas from the furnace. It had mingled with the atmosphere of the interior so gradually that those in the congregation were not aware of its presence, and were alarmed by its unaccountable effect upon them. The same thing happened the other day in a church in England, when the church-yard presented the extraordinary spectacle of some fifty persons laid in a state of insensibility on the graves.

How to Use Oil Stones.

Instead of oil, which thickens and makes the stones dirty, a mixture of glycerine and alcohol is used by many. The proportions of the mixture vary according to the instrument operated upon. An article with a large surface—a razor, for instance—sharpens best with a limpid liquid, as three parts of glycerine to one of alcohol. For a graving tool, the cutting surface of which is very small, as is also the pressure exercised on the stone in sharpening, it is necessary to employ glycerine almost pure, with but two or three drops of alcohol.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Railway Matters.

Notice is given that a special general meeting of the Grand Trunk Railway Co., of Canada, will be held at the City Terminus Hotel, Cannon street, London, E. C., on Thursday, 2nd December next, for the following purposes :—To consider, and if deemed advisable, to accept and confirm a supplemental traffic agreement between the Chicago & G. T. R. Co. of Canada; also to consider, and if deemed advisable, to accept a supplemental traffic arrangement between the Michigan Air Line Railway and the G. T. R. Co. of Canada. Also to consider, and if deemed advisable, to accept a traffic agreement between the Midland Railway of Canada and the G. T. R. Co. of Canada.

Matrimonial.

This morning at St. Peter's Church before mass the Rev. Father Cicolari, celebrated the nuptials of Mr. John Rogers, of Chandos and Miss Margaret A. Kelly, sister of Thomas Kelly Esq. of this town. The happy couple left on the afternoon train for Montreal to spend the honeymoon. The wedding presents were numerous and costly and came from a large circle of friends and acquaintances. This we may state is the fifth marriage that has taken place at St. Peter's Church this week. Truly, there is a boom in marriages, owing no doubt to the prosperous times, inaugurated by the great N.P.

Vennor's Latest.

Henry G. Vennor has issued the following:—"I see indications of extremely cold and stormy weather, with snowstorms in the neighborhood of the 24 and 25th of the present month, for Newfoundland, Nova Scotia, Halifax and the Maritime Provinces generally, also for the upper lakes, and north-westward to Winnipeg. This snow, however, will again disappear in a subsequent mild spell. England and Scotland will probably likewise share this wintry wave as well as New York city."

A Way Freight.

Owing to the great demand for cars, we are pleased to learn, that the Grand Junction management have seen fit to place a way freight train on the line from here to Belleville. This will be found a great convenience not only by shippers, but also by passengers on the regular trains, who have been inconvenienced on several occasions by waiting until freight was loaded at different stations on the line. This is but another evidence of the manner in which Mr. Cox is looking after the interests of the public.

Special Notice.

Dry Goods to be slaughtered for the next thirty days, as I have determined to retire from the business. I will commence to-morrow morning and sell all goods at cost, some lines a dood deal less. I want every customer to distinctly understand that this is no humbug. I must clear all the goods out before the 15th of December. Remember the place, opposit the town clock. Respectfully yours, JAMES DOLAN.

POLICE COURT.

BREACH OF THE CROOK'S ACT.

WEDNESDAY, Nov. 23.—Inspector Leary commenced his work to-day. Mr. T. G. Choate was charged with committing a breach of the Crooks Act, by selling intoxicating liquor on Saturday the 12th of November, after 7 o'clock p. m.

Mr. C. A. Weller, County Attorney, appeared for the prosecution.

The defendant pleaded guilty. Judgment,—Fine $20 and $3.20 costs, to be paid on or before the 30th instant.

A SECOND CHARGE.

T. G. Choate was also charged with selling intoxicating liquor on the 13th of November.

Defendant pleaded not guilty, and asked to have the charge proved.

A. SANDERSON, sworn.—He had procured liquor at the defendant's house on the 13th inst. It was ale he thought. He got a cigar in the sitting room ; there were some others with him; they also drank something.

TO MR. CHOATE.—He was fined for raising a row in the house, on the night in question. He did not go to defendant and tell him that if defendant did not pay a portion of his (Sanderson's) fine, that he (Sauderson) would have him prosecuted for selling liquor on on Sunday.

The defendant here withdrew his plea of not guilty and entered one of guilty.

Judgment,—Fine $20 and costs $3.20, to be paid on or before the 30th instant.

Runaways.

On Tuesday afternoon a team of horses, drawing a load of mangel-wurtzels, ran away from the weigh scales. They circled around the market square three or four times, and then started off along Charlotte St., scattering the contents of the wagon the length of several blocks. They were secured on the gravel road.

This morning a team of horses drawing a large load of furniture along Brock street, shyed and upset the load. They did not attempt to run, but stood still while the driver re-loaded his somewhat damaged household goods.

The third and last, as far as we have heard, of the present series, and the most serious in some respects, occurred this morning. A heavy team attached to a farm wagon, while standing on the market square, became frightened and bolted. The owner had hold of the lines but was dragged away by the affrighted animals, who ran across the street and would have gone through the archway, under Garvey and Dolan's new building, but for the fact that the driver turned them up George Street. They ran but a short distance when the wagon struck a post near J. Dolan's store. The wagon was over turned, its contents scattered over the road, one of the axles broken and the vehicle badly broken up generally. The horses freed from their incumbrance, dashed across the road and were only stopped from going through one of W. Chamberlain's windows or striking the building, by coming in contact with a post. Here one of the horses tripped, and the other while endeavoring to get free, twisted the harness in all shapes, nearly choking his prostrate mate. A crowd soon gathered and after endeavoring in numberless ways to loosen the animals, a citizen happened along who carried a good sharp knife and by using it in a scientific manner, he cut the (Gordian or some other) knot, and all was well. Damage unknown.

The Weather.

Last night was what may be called the first really cold night of the season, and certainly it was cold. Ice formed to a considerable thickness in many places and did some harm in the cellars of those who have not taken proper precautions to exclude the frost king. There is a difference of over 20° in the temperatures of to-day and yesterday, the difference being in favour of to-day. Mr. Vennor predicts a snow storm to come in a day or two and all should be prepared. The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company are as follows:—Lakes,—High winds and gales shifting towards the westward, fair to cloudy mild weather, with showers of rain or snow in some localities, followed by cold weather to-morrow.

St. John's Church.

We are pleased to be able to announce that an entertainment will be given in Bradburn's Hall, on Thursday evening the 24th inst., of which the first part will consist of a concert by the leading amateurs of the town and neighborhood, and the second part of a play. All those who wish to have an evening's recreation should hold themselves disengaged for this occasion. The plan of the hall will be at Mr. J. I. Davidson's book-store.

The Market.

The market this morning was a large one and produce of all kinds was in abundance. A large number of hogs, for this season, were disposed of, but as a general thing they were exceedingly light. Quite a quantity of beef was also sold by the quarter. Butter is now coming in freely, but buyers pronounce the quality not to be the best. Prices were unchanged. The grain market is rather quiet, prices remaining about the same.

Personals.

Dr. Boulter, M. P. P. Stirling, is registered at the Caisse House.

Mr. Charles E. Stewart, of the Bobcaygeon *Independent*, is at the Caisse House.

PLEURISY.—This is frequently a most disastrous complaint. It manifests itself in inflammation of the pleura, or membrane that surrounds the lungs. If neglected, should the patient recover even, its effects are sometimes felt ever after. Herrick's Sugar-Coated Vegetable Pills are the remedy.

YOUNGS POINT.

From Our Own Correspondent.

THE SAW MILL.—Mr. George Chalmers is having considerable improvements made at his saw mill. He is having the present water wheel taken out and intends putting in two "little giants," Mr. McGregor his millwright having purchased them at the manufactury at Picton last week. When completed, McGregor says he will drive things. They are also erecting a separate flume apart from the grist mill. All will be completed by Christmas and in first class running order.

GRIST MILL.—Mr. McLean our obliging grist miller is having his mill put in first class order, and he is glad that he is to have a flume to himself, as he found it very annoying—sometimes when busy with a grist to have to attend to the water power when the saw mill was going, or shutting off and regulating his gearing connecting with the mill stones.

THE MAILS.—Owing to the bad state of the roads to Apsley, the stage has been very late for the last three weeks. Hugh Sutherland the obliging mail driver says he never saw the roads in such a bad state. I think this mail business is an error, why not have a daily stage to here from Lakefield and have the mails going and coming from Apsley and Burleigh despatched from this place? The distance is too far from Peterborough for both man and beast in one day. Representation should be made to the P. O. Department regarding this. More again on the subject.

SHINGLE MILL.—Mr. Chalmers is also making great improvements in the shingle mill. He is having the present steam engine, which is of 12 horse-power, exchanged for a 20 horse-power one, so Mr. John Kearns will be able to make things lively in his line and that is to try and beat the next good man by turning out first-class shingles.

GOOD.—Mr. Geo. Chalmers sold the other day to a cattle buyer a fine, two year old steer for the handsome sum of $50. Nothing like having first-class stock ; it pays the farmer. It is the intention of the buyer is to fatten it for beef for next Easter.

CAUSE AND EFFECT.—Your correspondent has been putting up stoves and trying to arrange stove-pipes, etc., consequently he is not in the humor for items this week, but look out for next week's budget.

FENELON FALLS.

SERIOUS MILL ACCIDENT.—The *Gazette* says that Mr. Henry McDermid, of this village, met with a very serious accident on Monday evening last in McArthur & Thompson's mill, which he helped to build and in which he has been employed ever since it was finished. While he was at work hanging a marker between the two trimming saws dark came on somewhat earlier than usual, and while hurrying to finish the job he unfortunately stepped in a hole in the floor for the ends of boards to drop through, and fell against one of the saws, which were in motion. The injuries he sustained are, we learn from Dr. Bryson, his medical attendant, very serious and not easy to describe. On his right hand the index finger was cut completely through, half the thumb-nail taken off, and two teeth marks left on the middle finger. On the left hand the saw commenced at nearly the top of the thumb, passing right across the palm and quite through the whole thickness of the hand on the *ulnar* side and into the wrist joint. On the left leg above the knee, the clothes were completely removed or torn into shreds, and three cuts were inflicted on the *quadriceps extensor* muscle. Bad as his wounds were, Mr. McDermid declined to be placed under the influence of chloroform while they were dressed, but sat upwright and bore the operation with scarcely a word of complaint; and we are glad to hear from Dr. Bryson that his patient is doing as well as can be expected so soon after such an accident.

FRACTURED.—On Monday last Mr. George Martin, carpenter, who is employed in Mr. R. C. Smith's Mill, took hold of the lever connected with the logjacking machinery, and had pressed it a short distance forward, when it suddenly rebounded with such violence that his left hand had was forced backwards and one of the wrist bones fractured.

THE JAPANESE carry their tooth-picks in their back hair, and always use them after eating anything. They take care of their teeth, and the teeth take care of their stomachs. Use tooth-picks freely, clean with Sozodont, and bad teeth and breaths will be scarce.

DYSPEPSIA, that all prevalent disease of civilized life, is always attended with a disordered sympathetic system and bag secretions, and no remedy is better adapted to its cure than Burdock Blood Bitters taken according to the special directions found on every bottle.

GENERAL DEBILITY.—This convenient term includes numerous ill-defined and supposed incurable forms of disease, accompanied by general lassitude and exhaustion, without any ascertainable external or internal causes. The Peruvian Syrup sends its renovating influence to the utmost recesses of the system, and has relieved in our community many cases of supposed incurable disease. Sold by dealers generally.

MIDNIGHT TELEGRAMS

CABLE.

LAWLESSNESS IN MACEDONIA.

VIENNA, Nov. 23.—Turkish officers and soldiers massacred a Christian family at Luca, carried off sixteen men, women, and children, and £200. Anarchy is reported throughout Macedonia.

ANTI-SOCIALIST MEASURES.

BERLIN, Nov. 23.—The German Bundesrath has resolved to prolong for a year the minor state of siege in Berlin. A report has been forwarded to the Rechstag justifying the establishment of a minor state of siege in Berlin, Hamburg and Leipsic, because of the undiminished continuance of the revolutionary propaganda, the attempts to seduce soldiers from their allegiance, the glorification of regicide and the vilification of Christianity by the Social Democrats.

THE CHILTERN HUNDREDS.

DUBLIN, Nov. 23.—It is stated that Mr. A. M. Sullivan, member of Parliament for Meath, has finally agreed with a committee of his constituents to apply immediately for the Chiltern Hundreds. The executive of the Land League in Paris, after corresponding with Mr. Parnell, has agreed to be forward for the vacancy Mr. Davitt, as well as another candidate of full legal qualification, probably Dr. Kenney or Mr. Egan.

RUSSIAN AFFAIRS.

ST. PETERSBURG, Nov. 23.—Prince Orloff, who left on Monday with instructions from the Russian Government in regard to the attitude he should assume toward the new French Ministry, will reach Paris on Friday. The *Journal de St. Petersbourg* publishes an article in which, after deploring the departure of General Chanzy, it says:—"We know our regrets may in certain quarters be untimely, and may seem wholly childish. We shall refrain from repining at these singular appreciations of the rising democracy."

HESSY HELFMANN A MOTHER.

ST. PETERSBURG, Nov. 23.—Hessy Helfmann was safely delivered of a daughter last Friday in the casemate of the Troubetskoi bastion in the fortress. Mother and child are well. Hessy will probably receive a free pardon in consideration of the confessions she has made.

SPANISH BISHOPS SNUBBED.

MADRID, Nov. 23.—The Spanish Ministry has refused the request of the Spanish bishops to urge the Italian Government to take steps to insure the independence of the Pope and his security from the dangers now threatening him. The Ministers told the bishops they believed the Italian Government was trying to live up to its promises, and that it is strongly endeavouring to suppress all anti-Papal demonstrations.

STEAMER OVER DUE.

BORDEAUX, Nov. 23.—The steamer Chateau Lafitte, from New York, did not arrive on the 21st inst. as was expected. It is supposed that she is delayed by some damage to her machinery. The despatch boat Oriflamme has gone in search of her.

THE BURDETT-COUTTS LITIGATION.

LONDON, Nov. 23.—*Truth* says the threatened litigation between Baroness Burdett-Coutts and her relatives has been averted. All the counsel consulted considered she married a foreigner, which she could not do under the will of the Duchess of St. Alban's without renouncing her interest in Coutt's Bank. The Baroness, therefore, resigned her half-share in the bank, but will continue to receive a small allowance as compensation.

DISEASED PORK.

PARIS, Nov. 23.—Minister Morton had an interview this morning with Premier Gambetta in relation to the pork question. The meeting was cordial and friendly, and may lead to a satisfactory solution.

NIHILIST CONFESSIONS.

ST. PETERSBURG, Nov. 23.—These confessions agree with those of Lt. Soukanoff. Their immediate result will be that the number of persons figuring in the approaching great trial will be raised from twenty-seven to sixty-two, and possibly far more, as not only Hessy Helfmann and Lieut. Soukanoff, but also Frigon, has made a confession. It is quite likely that 200 persons may be tried in a batch, whether by the Senate constituted as a supreme court, or by court-martial, is not yet decided. General Ignatieff, thanks to whose tact and patience these revelations were elicited, would prefer that the Senate try the cases. He inclines to what, relatively speaking, may be called clemency. He has pledged himself in certain instances that a pardon shall be granted, and intends to keep his promise. The number of executions will thus be diminished. The trial will strike at the heart of the Nihilist organization. It is not to take place till January, however. Between this time and then General Ignatieff expects to have done much more to check the revolution. Fresh confessions are being made daily.

THE "THUNDERER" ON IRELAND.

LONDON, Nov. 23.—The *Times* says:—"It is only too plain that after a brief interval of hesitation a considerable section of the people of Ireland have decided to adhere to the policy of the 'No Rent' manifesto. A plan of dealing with recalcitrant tenants, county by county, has already been adopted in Leitrim and Cavan where two flying columns of 500 soldiers each and police have been detailed for protecting those engaged in carrying out the law. In many places it is notorious that to pay rent at all is as dangerous as it was some time back to pay more than Griffith's valuation. The cattle of a parish priest have been mutilated because their owner denounced the Kilmainham manifesto. If we have to deal with a thoroughly disaffected, disloyal population, of whom the tenant farmers and their families do not form over half, it is idle to expect order to be restored by holding out a hope of a general reduction of rents. The means at the disposal of the Governments are boundless, and they are backed up by the resolute spirit of the whole people of Great Britain. If the existing powers of the Executive are inadequate others must be granted. One thing only is impossible, that Ireland should be delivered over to a lawless faction openly aiming at the disruption of the Union." The article is based on telegrams from correspondents detailing numerous outrages, such as the firing by an armed party into the house of Lord Bessborough's agent at Pilltown, the house being only twenty yards from the police barracks. There have been several other cases of firing into houses, all within the last few days, incendiary fires in Galway and Kings counties, and placarding notices with bullets attached threatening death to rent-payers. The seriousness of the situation is shown by the Dublin *Freeman's Journal* earnestly appealing to the people not to give the Executive the excuse for further coercive action.

AMERICAN.

NEW STOCK EXCHANGE.

NEW YORK, Nov. 23.—The new Stock Exchange is said to be a suggestion of Gould. His chief associates in the enterprise are Field, Sage, and Dillon. Vanderbilt, Morgan, and David Dows disclaim all connection with the scheme, which it is said, was prompted by the refusal of the governing committee of the Stock Exchange to list the stamped certificates of the Metropolitan Railroad under the arrangement for the union of the elevated railways. Cyrus W. Field declares the plan will be carried to success, and that persons in Europe are deeply interested in it and prominent men all over the country.

THE CONFEDERATE BONDS.

BUFFALO, Nov. 23.—The *Telegraph's* Washington special despatch says:—Judah P. Benjamin, late Secretary of State for the Confederate States, in a letter dated London, Nov. 7, explodes the story that there is a large amount of Confederate gold in England. He says there are no funds on deposit in England on account of the Confederate States. The assertions to the contrary emanate from speculators on the Stock Exchange. The bonds are intrinsically worthless. He is not conversant with the doings of the Stock Exchange, and does not know if there are any real transactions, or if all the flare-up is purely fictitious.

CHANGED HIS MIND.

WILKES-BARRE, Nov. 23.—Jas. Weller, a well to do Civil Engineer, was to be married yesterday to Bessie Norris. Every preparation had been made for a grand wedding, but Weller sent a note stating that he had started for Europe and would not return till spring. Miss Norris was overwhelmed with grief, and her conditionis critical. There is said to be another woman in the case. The affair has created a sensation.

BULLS AND BEARS AT PLAY.

CINCINNATI, Nov. 23.—The Cincinnati Chamber of Commerce was moved into its new quarters in Pike's Opera house yesterday. Before leaving the old building the members used up a number of barrels of flour, throwing it at each other. After being completely covered with it they marched down the street to the "music" of tin horns &c.

TERRIBLE CRUELTY.

LITTLE ROCK, Nov. 23.—Wm. Green and his wife were visiting in the Cree nation, Indian Territory. Mrs. Green's father out of revenge beat them both insensible, cut out their tongues, and tied his victims to a tree to die. No arrests have been made.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned hone set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

AT HALF-PAST one this morning a fire broke out in the rear part of the premises occupied by Thomas Leary as a hotel. Before the inhabitants were aware, the fire had gained such headway that there was no possibility of saving the building. The high west wind at the time soon carried the flames into the stable behind these, and these with the Masonic Hall and a large frame dwelling to the east, owned and occupied by F. Leroy as a hotel, with the stables belonging were all consumed. The hotel was owned by Mrs. Rowe, loss $1,600, insured for $1,000. Masonic Hall and sheds, loss $5,000, insurance $3,000. James Campbell $200 loss, insured for $500. Salemn Olmstead $1,000 loss, insurance unknown.

AN INDIGNATION meeting was held here in reference to an editorial which appeared in the Glengarry *Times*, and the following resolution was unanimously carried:—"Whereas a scurrillous and slanderous editorial appeared in the columns of the Glengarry *Times*, in reference to the Marquis of Lorne and H. R. H. the Princess Louise, and whereas a newspaper is supposed to reflect the sentiments of the people, among whom it circulates, be it resolved that we indignantly repudiate having any sympathy whatever with the editorial in question. That we regret the serious accident which befell Her Royal Highness at Ottawa, which has been the unfortunate cause of her enforced absence from this country, and we are deeply grieved that the first newspaper published in the loyal county of Glengarry should obtain the infamous notoriety of having published one of the most scandalous and libellous articles of abuse, of persons occuping the high position of the Marquis of Lorne, Governor-General of Canada and H. R. H. the Princess Louise, the beloved daughter of our noble Queen, that ever disgraced the press of Canada."

THE GREAT BANQUET tendered to the Right Honourable Sir John A. Macdnald by the Liberal Conservatives of the Province of Ontario, at Toronto on Wednesday evening, was, without doubt, the grandest political banquet ever held in the Dominion of Canada. The immense pavilion at the Horticultural Gardens was filled to repletion and over one thousand sat down to the table. All the leading men of the party were present. The guest of the evening was in his happiest mood and delivered one of the most stirring addresses ever heard in Canada. It was an exhaustive review of the great political questions of the past and present, and an elaborate defence of the policy of the Government. The effort was received with great applause, lasting several minutes. A pleasing incident was when Lady Macdonald entered the room. Every person in the vast assemblage rose to their feet and the cheering did not subside for some time. Besides the Premier, Sir Leonard Tilley, Hon. D. L. Macpherson, Hon. Mr. Caron and Mr. Meredith, M. P. P., delivered addresses, as well as a number of others.

YOUNG O'GRADY'S LETTER.

Dear Review,—Since I last put my quill to paper to address your honor, asking you where was Old Dan, this whole country of ours has been turned upside down entirely, and, indeed, then its an awful pity the old man can't be found to take notes of the rumpuses.

In the first place there His Royal Highness has not been seen out since that agent man left, and whether he has taken him with him or not is indeed a mystery to all. Hunters are travelling north towards the palace, it is to be hoped if they reach there that they won't be put in the hay loft this cold weather. I was thinking of paying His Highness a visit myself, but I've changed me mind now for fear there sin't enough hay left. I am going to ask him for his photograph if he is not coming around any more, but it must be taken on a bright day as his black visage now will almost darken the sun. There was a party of hunters up here a while ago and faith they were hunters, an' no mistake. After they got the deer in the water and let them out again, they used to hunt for the place where they'd gone to. I might mention a few of them here; in the first place, there was two Dodds, one was a Tommy Dodd and always "went in to win," and tother fellow was a queer shaver. Then the white man who thought he knew all about it, he started the dogs and it was nip and tuck who got back to camp first, the dogs or himself. Then came the old professor who knew all about it, (that is 70 years ago), but now he has entirely lost his scent, he can neither hear nor see, but still sticks to it that he is the only dawg hunter left in Ontario. Billy was out too, full of his divilment, and shot half the woods to pieces with his snap shooter. I must explain to ye that ye always have to pull the trigger once before ye point at any game or she will fool you, but this time she went off every time at the first pull except when the game was around. Our newly fledged perlice was out too and he wore a long tailed coat like Jno. McGhee, but he got the tails some how hung up in a brush heap and so went home rather light behind.

There was another feller went out popping too he had a load of pop and two popguns, but he went home like the rest of them with divil a pop at any thing, not even a pigeon. There was also a commercial traveller (not from Boston) who traded his commerce to Billy for a mink and half a bushel of watches to boot. George got out on four legs, two wooden ones, a game leg and a good leg, but he got stuck in the mud and hadn't a leg left to stand upon. John tried to pull him out but got his boiled shirt bespattered with mud and went home in disgust. I am sorry to tell ye that Noah's Ark is now a worse wreck than ever it was on the mount years ago, an old ram has bunted it to smithereens, and worse luck there is no law for it, as nobody owns the baste.

There was another party of hunters at Jacks Lake, one of them came out to see the town here, he told the boys it was a longer walk than he expected.

We git more law now-a-days than anything else. The winter has blasted the rosebush in more ways than one. They tried to put another feller in the lock-up the other night but he scooted home. His worship was hollering at the top of his voice "in the Queens name," but the spalpeens up here don't seem to know what it means. Old Sam got brought up before the perlice magistrate, but he got off like the Scot man, scot free, I will try and give ye more about it next time.

I think I told ye we had two doctors, one of them is oh! Shaw, I forget, and the other is a grist-mill man; he has gone home for a holiday now down your way, if ye see him please tell him we are all well, so not to hurry back. I would tell ye more my darlin', but I am afraid now I have bothered ye a little too much, I will be sure to write to ye soon again if its only to wish you and the childer a merry Xmas, so now good bye to ye from Your own

YOUNG DANIEL O'GRADY.

A Sad Death.

Detroit, Nov. 22.—Yesterday William Gray, a young medical student of Chatham, Ont., who was attending the Michigan College of Medicine, died from the effects of poison self-administered. For some days past he had been feeling far from well, neuralgic symptoms being present in great severity. To deaden the pain he took one drachm and a half of crude aconite, which took effect at once. Dr. La Ferte was summoned, who applied every known antidote, but in vain. The unfortunate man lingered for an hour and a half, and then died in great agony. No suspicion of suicide attaches to the act, which is set down as purely accidental. An inquest was opened and adjourned till to-morrow night. The deceased, who was only twenty-four years of age, will be buried in Chatham, where his body has been conveyed in charge of his friends.

LAKEFIELD NEWS.

From our own Correspondent.

LAKEFIELD DAM.

The unsatisfactory condition of the Lakefield dam is a source of annoyance and a serious obstacle to the development of the resources of the back country. The Lakefield dam is private property and so long as sufficient power is obtained the object of the owners is gained. The very fact of the ownership of this dam being private makes the navigation of the waters north of Lakefield very uncertain, to say the least. People hesitate to enter into contracts to supply wood, ties, etc., from the borders of Stoney Lake, on account of not being sure of being able to fulfill the same, simply owing to the position of this dam. The Local Government have spent considerable sums of money on these waters. The Dominion Government also spent a sum of money this last summer in clearing the channel from Lakefield to Young's Point. It seems very absurd for the country to spend money building locks and improving the navigation of the waters north of here, when the very source of this navigation is the private property of individuals. If the owners of the Lakefield dam see fit, or are compelled, as is reported, to reduce the height of it, or to tear it away altogether, then the locks at Young's Point, piers, booms, etc. this side of the point would be comparatively useless. The Lakefield dam should be assumed and controlled by the Government for the people. The whole cost of the necessary repairs to the dam, damages to land injured in keeping the water to a sufficient height—in fact the whole cost to the Government need not exceed seven or eight hundred dollars, if the matter be properly managed. We hope that our representatives in the House of Commons will stir themselves in this matter, and if they do we have no doubt that they could induce the Dominion Government to settle this dam question once for all.

UNFOUNDED ALARM.

A report was started last week through the village that diphtheria had appeared in our midst, but it was a false alarm—it was only a case of measles. Lakefield is and has been remarkably healthy and free from epidemics, so much so that the new cemetery committee appointed some time ago have apparently decided that it would be useless to purchase a new burying ground as it is not needed so far as the village is concerned.

CLEARING THE SWAMP.

Mr. Harper began last week to clear his part of the railway swamp.

LAKEFIELD CHEESE FACTORY.

The Lakefield cheese factory closed the season's operations last week, the balance of the season's make being shipped, the patrons paid their money and everything being settled financially. We are informed that the season's business has been satisfactory in every particular to the patrons of this factory and that the prospects of the next season's operations are exceedingly bright.

THE INNISFIL TRAGEDY

No Definite Clue Obtained Relating to the Murder—On the Search.

Barrie, Nov. 22.—No new facts of any special moment have come to light respecting the murder of the old man Slight on the 3rd concession of Innisfil township on Thursday night. The name of the unfortunate victim was Thomas not Richard Slight. He was a native of Yorkshire and an old and much respected resident of West Gwillimbury township, in this county. He owned a good farm of 200 acres, situated within some six miles of Bradford village, and all who knew him speak of him as an honest, sober, industrious, good-hearted old man, rather loquacious, and given to discussing his affairs with any one he might meet, but always in a jovial, inoffensive way. He was a widower, and for some years, up till quite recently, his daughter, now the wife of Thomas Reynolds, near whose place the murdered man was found, was his house-keeper. The amount of money he carried with him on the day of his death has been ascertained to have not been more than $80. No one seems to be able to describe with any degree of minuteness the strange man who rode with the deceased on his way from the county town, though several profess to have seen him. In the opinion of County Attorney Cotter, who is watching the case for the Crown, the circumstances warrant the belief that the stranger fell in with the deceased at Barrie, learned of his possessing a considerable sum of money, and persisted in forcing himself upon the old man till an opportunity presented itself for killing and robbing him. To-day Government Detective Murray, accompanied by Detective Rogers of Barrie, left here for the scene of the tragedy. They candidly admit that so far they have been unable to get a clue of any importance upon which to work up the case, but they are, nevertheless, by no means hopeless. Suspicion was directed against one man living several miles from Cookstown, and he was summoned to attend court as a witness, but nothing to convict him of the crime was elicited either from himself or from others who gave testimony.

THE E. P. DORR.

Mystery Connected with the Wreck of the Ill-Fated Schooner.

Buffalo, Nov. 22.—All has been learned concerning the missing schooner E. P. Dorr which will be known until the bodies of her unfortunate crew begin to wash upon the beach. The Dorr sailed from Toledo for this port nine days ago, and should have reached here three days at most from the time she started. Her crew numbered seven, but the names of two cannot be ascertained. The others were Captain Peter Dunfrane, Jr., and the mate, James Reno, of St. Catharines, where he leaves a family. Michael Rooney, of Toledo, James Blakeley, of Detroit, John Henderson, of Kingston, and the two others, not known here. Captain Dufrane was one of the most popular young sailors on the lakes, and was highly esteemed for his ability and integrity. He was but thirty years old, and left a young wife and a son about five years old. Mrs. Dufrane had been ill for some time, and the terrible news of her husband's death was so great a shock to her that it was thought she would not survive it. A report was current this morning that she was dead, but this proved incorrect. She is recovering, but is still very weak. Captain Dufrane was a member of the People's Mutual Benefit Association, from whom his wife will receive an insurance of $600.

Last night some lumber, which is recognized to be from the Dorr's cargo, washed ashore opposite the Michigan street bridge on the lake beach. A large raft of oak timber has been adrift on the lake for a week, having broken away from a tug, and it is thought by some lake men that the Dorr collided with this raft and was wrecked. It is considered a very singular case indeed for a light lumber-loaded vessel to disappear so entirely as the Dorr has done.

KINGSTON DIOCESE.

The Anniversary of Bishop Cleary's Consecration Celebrated—The Diocese Debt.

Kingston, Nov. 21.—This morning Pontifical High Mass was celebrated in the cathedral in honour of the first anniversary of the consecration of Bishop Cleary. The scene at the sacred edifice at times was magnificent. Monsignor Farrelly, domestic Bishop, acted as dean to the celebrant, Bishop Cleary. A great many priests of the diocese were present. At five o'clock they dined together, and at eight p.m. attended an entertainment in the Convent de Notre dame, given in His Lordship's honour. The occasion was a grand affair. The ladies were handsomely dressed. During the evening the Bishop was presented with an address and a bouquet of flowers. Yesterday at the cathedral $800 of collection was taken up for the diocesan debt. Kingston has given $3,300 already.

ARCTIC EXPLORATION.

Lieutenant Berry's Recent Movements in the Polar Seas.

Washington, Nov. 22.—Under date Oct. 16, Lieut. Berry writes from St. Lawrence bay reporting that he arrived there the morning before. After his report of September 27th he proceeded to Herald island, where he made search for traces of the Jeannette, without finding any. He found the cairn on the island left by Dr. Ross in July last. Berry then went to the coast of Siberia, but owing to the heavy sea could not send a boat ashore. After waiting forty-eight hours for better weather, he gave up landing, and put out for the island near Cape Serdeg, where he erected a house, and left the master, C. F. Putnam, in command of a party of six, to remain until the ice will permit of their being taken off.

A MAIDEN ALL FOR-LORNE.

The Bridegroom Came Not—Painful Experience of an Elgin Girl.

The St. Thomas *Jonrnal* says one of the fair damsels of West Lorne seems doomed to dissappointment, and is certainly a "Maiden all forlorne. A little over a year ago she was working in Detroit and a gay Lothario from London won her heart and promsed to marry her. Time ran along, and he failed to keep the promise that is alleged to have made her happy and hopeful. She told her friends she had deserted him because he was intemperate, but soon after he committed suicide, and it was then discovered that he had a wife in London, Ont. Now it falls to our lot to chronicle another episode in the life of the young lady who was so nearly duped by the London man. A man named McGregor, who resides, when at home with an uncle near Owen Sound, was working in a foundry in Detroit, and found the disconsolate maiden and consoled with her until her affections were healed and transferred to him as lover No, 2. He promised to marry her, and it is presumable that she promised to marry him. That she was willing to fulfill her part of the contract would appear from the fact that she returned to West Lorne short time ago and prepared a wedding outfit. Last Thursday was to have witnessed the nuptials of the pair and the banquet was prepared, the guests had assembled, the parson was ready and the bride was arrayed and waiting but no bridegroom came. Then joy was turned to sorrow, and laughter gave place to tears. Everybody voted that it was a terrible shame, but that did not lessen the mortification of the was-to-have-been bride nor did it soothe her sorrow. It is said that two other young women have been served the same craven trick, the first one being a resident of the lake shore district of Dunwich. If it is true it is a dastardly shame, and a man who could do anything of that kind and not be ashamed to look the public in the face, cannot leave a community too soon.

WELLAND CANAL.

A Propeller Becomes Unmanageable and Breaks up a Lock.

PORT DALHOUSIE, Nov. 21.—The propellor Europe, from Northport to Buffalo, ran through lock No. 1 at two o'clock this morning. The Europe was in the lock and the lock tenders had commenced hoisting the water, when the line slipped off the pile and she went ahead, carrying away the head gates, and backing up tore away the lower gates and ran into the schooner Filmore lying below the dock, smashing her stern, causing the water to pour in rapidly. She tore up the piles from the wharf running out into the harbor and smashing the yawl boat to pieces. The Europe continued backing up and ran into the wharf below the tug office, carrying away several stringers, &c. The tug Olivia Gordon and scow Royal Oak also broke loose, and drifted around the harbor. The Europe received little damage. The damage to the schooner Filmore will be considerable, as she will have to unload the cargo of iron she has on board and be placed on the dry dock for repairs. She was bound from Kingston to Chicago. The propellers Dominion and Niagara which arrived yesterday had locked ahead of the Europe and will be able to proceed through the canal. A dam will be placed above lock 1, and vessels can then proceed via the new canal, Navigation will be impeded for several days.

FLOODS OUT WEST.

Serious Damage to the Corn Crop in Illinois—Cattle and Hogs Drowned.

SPRINGFIELD, Ill., Nov. 22.—The Sangamon river floods has reached its height, and the water is begining to recede. The stream is usually 200 feet broad, and inside high banks, but now spreads over rich fertile bottom lands, and in some parts is two miles broad, and at Riverton seven miles. East there is a terrible scene of devastation, fields of corn being covered with water, while an occasional island protrudes above the dreary waste, covered with a few stalks of corn. The cattle pens of the Riverton alcohol works are partially submerged, and twenty cattle and 1,300 hogs have been lost. The total estimated loss to the corn crop is a quarter of a million dollars.

FINANCIAL ASSOCIATION OF ONTARIO.

This Company, the head office of which is at London, Ont., has issued a notice that the list of applications for Preference stock at three and a half per cent., premium, equivalent at the minimum rate of dividend to a return of seven and three-quarters per cent. per annum, will close on or before the 22nd December, and that the largest amount which will be allotted at this price to any individual subscriber is limited to two thousand dollars. The *Free Press* of that city, alludes to the Company's last financial statement as follows:

"We notice this Company has issued a special statement to November 15, being part of its financial year ending on the 31st December. The profits, revenue and commissions, after deducting expenses of management, etc., amount to $12,197.06, the accrued interest on investments $997.21, and premiums on stock $1,000, bringing the total income to $14,194.27; out of which dividends at the rate of 8 per cent., paid or provided for, absorb $8,720, and the deduction for interest received, but not yet earned, &c., $596.87, leaving a surplus of £4,876.93 available for the reserve fund. The paid up capital is now $114,440.93 as compared with $62,024.43 end of last year, an increase of $52,416.50. This is, certainly, a very satisfactory exhibit."

The Strength of Wood.

At the late fair of the Massachusetts Charitable Mechanics' Association, held at Boston, there were exhibited interesting tests of constructive material, among these, of pine columns, which had, in some instances, supported remarkable pressure. One of these columns, originally twelve feet long, yielded to a pressure of 190,000 pounds; the weak spot being a large knot, which acted as a wedge, and caused the destruction of the column at less than the proper figures for a sound piece. Another column was twelve feet long, and tapering from seven and three-fourths to six and a half inches in diameter. This stick showed its weakest point at the smaller end, the crumbling of the fibres taking place in that part. A seasoned hard pine girder, eleven inches square and ten feet long, bore the astonishing load of 751,000 pounds.—*Northwestern Lumberman.*

Badly Burned with Moulten Metal.

THOROLD, Ont., Nov. 22.—The moulding shop of Dobbie's Iron Works caught fire last night. While the men were engaged in casting a large wheel the top of the box was thrown up by the moulten metal. The foreman, John Stewart, was badly burned about the face and feet, and the other men had a narrow escape. The fire was extinguished before much damage was done to the building.

FROM ALL OVER.

THE Montreal Conservatives are talking of holding a gathering for the province in that city similar to the convention now being held in Toronto.

THE first volume of the new census returns will shortly be placed in the hands of the printer, and will probably be ready for distribution at the opening of the session.

IN England you can now write a telegram on ordinary note-paper, stick on postage stamps sufficient to pay it, and put it in the street postbox, and it will be sent as soon as the box is emptied.

A POPULAR REMEDY.—Hagyard's Pectoral Balsam is one of the most deservedly popular remedies for the cure of cough, croup, bronchitis, and all pulmonary complaints. For sale by all dealers.

A NEW and fatal cattle disease has appeared in the vicinity of Dubuque, Ia. One farmer has lost nine cows in one night. The animals are seized with rigors and trembling, and death ensues in a few hours.

SPECULATION in dairy products in New York has reached such a point that the Butter and Cheese Exchange have raised their initiation fee from $50 to $250. Somebody in Gotham must be making a great deal out of the products of Western dairies.

People have no more right to become dyspeptic, and remain gloomy and miserable, than they have to take poison and commit suicide. If the stomach becomes weak and fails to perform its functions, Burdock Blood Bitters will speedily remedy the trouble.

HEREAFTER leading ballet dancers in the Grand Opera, Paris, will not mimically struggle over a piece of ribbon or a bouquet. It will be a cigarette, and the dance is called the "pas de la cigarette."

DR. WILLIAM HAMMOND says—"I never smoke until about 8 p. m., after my dinner, and then I smoke five or six moderately strong cigars from that until midnight, and I know I'm a wiser, a better, and a happier man."

WHAT EVERY ONE SAYS MUST BE TRUE.—And every one who has tested its merits speaks warmly in praise of Hagyard's Pectoral Balsam as a positive cure for all throat and lung complaints, coughs and colds, sore throat, bronchitis and incipient consumption.

THE New York building inspector says 800 buildings are in the process of erection and 800 undergoing repairs, while he has only sixteen examiners to watch them as well as to investigate complaints. There has been $15,000,000 more spent this year in buildings than ever before in the history of the city.

"BY reason of a severely sprained ancle one of my horses began to go very lame," writes Mr. R. Arnold, 219 Metting street, Charleston, S. C. "A through application of St. Jacobs Oil entirely cured the horse. I heartily endorse it as an excellent remedy for stock." Every one should use it.

THE recent attempt on the life of the Italian Premier in the Chamber of Deputies is said to have had its motive in the failure of the intending assassin to secure an interview with Signor Drepretis, at which he proposed explaining certain charges on account of which he had been placed under police surveillance.

A REAL NECESSITY.—No house should be without a bottle of Hagyard's Yellow Oil, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures, or relieved so much pain and misery. It is called by some the Good Samaritan, by others the Cure-all, and by the afflicted an Angel of Mercy.

IMMENSE distruction is being done in the south-west central part of Illinois by the overflow of the Sangamon river, by which the fertile cornfields in that valley have been laid under water, and numbers of cattle and hogs have been drowned. The damage to the corn crop alone is estimated at a quarter of a million dollars.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

CONNECTICUT is a happy State. There is so little litigation there that, according to the Hartford Courant, the legal fraternity of that city are in a state of chronic discontent, while, according to the *Register*, of New Haven, the Superior Court, now in session, "is begging for something to do." A few years ago an attorney was fortunate to get a case tried in four or five years" in the court.

AT Catan station, Panama, there is an average of two deaths daily, caused by exposure to sun and rain which the canal laborers undergo. There are at least 300 men employed at that point, building houses and making roads to Colon. These men have no accommodation or protection from rain, and are compelled to sleep in the open air and under cars, on the moist or damp ground, which starts the fever and terminates fatally in a few days.

DO NOT BE DECEIVED.—In these times of quack medicine everywhere, it is truly gratifying to find one remedy that is worthy of praise, and which really does as recommended. Electric Bitters we can vouch for as being a true and reliable remedy, and one that will do as recommended. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at 50 cents a bottle, by Taylor & Macdonald.—3.

A TOWN to cover 600 acres has been created as at one wave of the magician's wand at Wayne thirteen miles from Philadelphia. The town site, water supply, drainage and landscape gardening have cost $500,000 and the purchasers of lots, each of which is one acre in extent, must build houses according to a design to be selected out of twenty prepared for them, each costing from $2,000 to $8,000. The same idea was attempted at Riverside, near Chicago, and the speculation was an enormous failure.

AN interesting jubilee has just been celebrated at Brussels. Fifty years have gone by since the appearance of the first number of the *Moniteur Belge*, under the direction of M. Philippe Bourson, who has continued at the head of its staff, without interruption down to the present time, and who, notwithstanding his 80 years, still possesses sufficient energy and mental activity to justify his remaining at his editorial post. The various members of the Brussels press, headed by M. Berardi, of the *Independance Belge*, presented their venerable colleague with an address of congratulation.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa. Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. LOCAL AND MUNICIPAL.

A Letter of Condolence.

The following letter from the Secretary of the Carswell Lodge, I. O. G. T., speaks for itself:—

Carswell Lodge, Nov. 14th, 1881.
Independent Order of Good Templars.

MRS. BATE,—Madam,—Whereas it has pleased the Almighty Ruler of the Universe to remove by death our respected friend and sister, Annie Bate, and while we sincerely mourn her loss, we would cheerfully submit to the will of an all-wise God, who controls our destinies for weal or woe. We as a Lodge beg to tender to Mr. Bate, yourself and family our heartfelt sympathies in this your sad bereavement, and we trust what has been our united loss, will be our sister's eternal gain, in that better world above, where we hope we shall all meet to part no more, and be forever with the Lord, and sing his praises with our dear young sister who has gone before us. Our charter will be draped in mourning for three months in memory of our late sister. I am sure we shall all miss her pleasant face from our Lodge room, and one who since she connected herself with our Lodge was a regular attendant. Our sister's sudden death was the cause of members being absent, it being between meeting night; though myself and three others knew it, we were debared by our casting that afternoon in the shop from being present. Please accept these our sentiments in this your sad and solemn hour of sadness.

Signed on behalf of Carswell Lodge,

Yours Respectfully,
G. J. EARLY,
Secretary.

The Weather.

The weather all day yesterday was rather fine, but in the evening the clouds commenced to assume an inky hue, and the weatherwise were at bay, no two of the local prophets agreeing on the kind of weather that was to come. Some, agreeing with Vennor, predicted snow, others rain, while some some held hopes of fine weather. To-day broke fine and cold, with a high wind, and as if trying to keep faith with Vennor, it has been trying hard to snow, but up to the time of writing it has made slow progress, as the light snow is soon scattered by the wind, and the ground is quite bare of the "beautiful." The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company are as follows:—Lakes—High winds and gales from the west and north-west. Fair, colder weather with occassional snow flurries.

Midland and Grand Junction Railways.

The Traffic returns of the above railways for the week ending Nov. 14, 1881, were as follows:

MIDLAND RAILWAY.—Passengers and Mails, $2347.78; Freight, $5174.09; Total, $7521.87, as compared with $7057.68 for the corresponding week of 1880, being an increase of $464.19, and the aggregate traffic to date is $363,644.99, being an increase of $56,178.29 over 1880.

GRAND JUNCTION RAILWAY.—Passengers and Mails, $739.12; Freight, $2120.79; Total, $2859.91, as compared with $1865.26 for the corresponding week of 1880, being an increase of $994.65, and the aggregate traffic from 1st June to date is $57,702.86, being an increase of $32,495.36 over 1880.

Buying Machinery.

Two gentlemen representing some of the large lumbering firms on the Georgian Bay, have been in town during the last few day purchasing machinery for mills, from the establishment of Mr. Wm. Hamilton, who is doing an enormous and rapidly increasing trade in that line.

Personal.

We learn from the Las Vegas, New Mexico, *Daily Optic*, that our old friend Ralph O. Helm, has embarked in the auctioneering business, and is doing a thriving business. Ralph's many friends in Peterborough and vicinity will be pleased to hear that he is progressing.

Good Work Tells.

A number of Mr. Adam Hall's workmen have been engaged during the last two weeks in putting up hot air furnaces, not only in Peterboro' but also in Lindsay, Lakefield, Norwood and several other neighboring places. Good work tells.

St. Andrew's Sermon.

The Rev. Mr. Torrance, of St. Paul's Presbyterian Church, will preach the annual sermon to the members of the St. Andrew's Society, next Sunday evening, 27th inst. A special collection, in aid of the funds of the society, will be taken up.

A CLOSE CALL

A Farmer's Wagon Struck by a Train—A Horse Killed—The Man Escapes.

This morning about 11 o'clock, there happened near Downer's Corners, what came very near being a terrible accident; as it was, it was serious, but not nearly so bad as it might have been. It appears that a farmer, said to be Patrick Crowley, jr., who resides in Otonabee, was driving into town, and when near Downer's Corners, the team, a fine and spirited young pair of horses, were frightened by the whistle of the engine of the regular Grand Junction train, which was running in close proximity to the place where Crowley was. The team got beyond the control of the driver, and at once dashed ahead at a breakneck pace, and ran from the corner to Judge Hall's crossing, actually beating the train for that distance. The team tried to cross the track just in front of the rapidly approaching train, but notwithstanding their marvellous speed, the iron horse was too quick for them and struck the team and wagon, killing one of the horses, smashing the heavy wagon to pieces and hurling the man a considerable distance. Crowley lit on his head and was rendered insensible. The train was stopped as speedily as possible, and the unfortunate man picked up and conveyed to town. Upon arriving here he was at once taken to the surgery of Doctors Kincaid and Alexander, where his wound, an ugly gash on the top of his head, was dressed. He was exceedingly fortunate that he did not meet with his death, as those who saw the accident say that his escape from instant death was simply marvellous.

On three or four occasions recently we have heard of narrow escapes at this same place, and something should be done to prevent such occurrences, or loss of life may result. When at Downer's Corner it is impossible to see trains approaching from either directions, the view being hid by the houses in the vicinity.

Lacrosse.

The new club rooms and gymnasium of the Lacrosse Club, were opened for the season on Monday night, on which occasion the members turned out in good force. The building is in the rear of the Roman Catholic Separate school and is well fitted up for the purpose it is intended for. Besides the two alleys there are swings and bars of all kinds, clubs, dumbells, weights, etc. Those who wish to avail themselves of the use of the club room can only do so by joining the Lacrosse Club. We are pleased to see the members turning out so strongly, and only hope that they may continue to do so during the winter, and taking plenty of exercise be prepared to do some good work next season on the lacrosse field.

New Goods.

Use the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

Nearly a Smash.

This afternoon a carter's horse started to run away, an unusual thing, from Mr. D. Pentland's door, and after running as far as the front of this office, upset an organ, which was on the truck, on the stones. Happily the instrument was not seriously injured.

The New Line.

The President of the Mutual Telegraph Company says he will have a line working in Canada by the first of June. It is to be hoped that the construction of the line will be pushed on with all haste.

To the Reformatory.

"Peggy" Oakley has been removed to an asylum for safe keeping, having been declared insane. The young girl Baker was also removed to the Mercer Reformatory, Toronto, at the same time.

A Fine Team.

Mr. T. Cavanagh brought here on Wednesday night on the Midland train, an exceedingly fine team of horses for himself. They weigh 2,680 pounds.

"Nor-West Ale."

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung diseases by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts effected. These wonderful instruments are used in in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung diseases are no longer feared until their very last stage. Write for particulars to M. Souvielle, ex-Aide Surgeon of the French Army, 13 Philips Square, Montreal. All letters must contain stamp for reply.

THE JAPANESE carry their tooth-picks in their back hair, and always use them after eating anything. They take care of their teeth, and the teeth take care of their stomachs. Use tooth-picks freely, clean with Sozodont, and bad teeth and breaths will be scarce.

DYSPEPSIA, that all prevalent disease of civilized life, is always attended with a disordered sympathetic system and bag secretions, and no remedy is better adapted to its cure than Burdock Blood Bitters taken according to the special directions found on every bottle.

On the 21st of October, H. M. Intyre & Co., launched at Markeworth, Paisley, the largest single dredging machine which has been constructed on the Clyde. It has been built for the Dublin Port and Docks Board, and is capable of dredging over 5000 tons per day from a depth of 40 feet below the surface of the water.

PLEURISY.—This is frequently a most disastrous complaint. It manifests itself in inflammation of the pleura, or membrane that surrounds the lungs. If neglected, should the patient recover even, its effects are sometimes felt ever after. Herrick's Sugar-Coated Vegetable Pills are the remedy.

Railway Notes.

Since the way freight was placed on the Grand Junction, the regular trains on that line almost invariably arrive on time.

Engineer Kelly, with old number two, is now running in Engineer Henry's place, until the latter's engine is put in repair.

The freight business on the two lines has reached enormous proportions, and it is with great difficulty that sufficient cars can be supplied to accommodate their customers. Where only a few years ago two or three trains sufficed to carry all the freight offered, dozens are now required and cannot even keep pace with the rapidly increasing traffic. While the above is true of the branch it applies with even greater force to the main line.

St. John's Church.

We are pleased to be able to announce that an entertainment will be given in Bradburn's Hall, on Thursday evening the 24th inst., of which the first part will consist of a concert by the leading amateurs of the town and neighborhood, and the second part of a play. All those who wish to have an evening's recreation should hold themselves disengaged for this occasion. The plan of the hall will be at Mr. J. I. Davidson's book-store.

Explosion of Dynamite.

NEW YORK, Nov. 21.—This afternoon a terrific explosion occurred at 73rd street, where men are blasting rocks. It was caused by the carelessness of Patrick Monahan, the foreman, in hanging a number of dynamite cartridges out to dry on the steam pipe. The explosion shook the entire neighborhood to the foundation, and wrecked windows and doors in fifty-five houses. Flying glass, bricks and furniture injured several persons. Mary Toner was hurt internally: Nellie McGorlick and Miss Schweler were also badly hurt. Monahan was locked up.

ACID STOMACH, HEADACHE, HEARTBURN AND INDIGESTION are quickly cured by using Perry Davis' Pain-Killer. Bathing the head freely in Pain-Killer will usually relieve the most severe attacks of headache.

OVERCOATS!

THE MOST URGENT BUSINESS A MAN WITHOUT AN OVERCOAT HAS TO-DAY IS TO GET ONE. HE MAY GET IT WHERE HE LIKES.

IF HE COME HERE HE'LL BUY IN LESS TIME, BECAUSE HE KNOWS VERY WELL THAT HE CAN GET HIS MONEY BACK NEXT DAY, OR NEXT WEEK, IF HE WANTS IT.

CANADIAN TELEGRAMS.

TORONTO.

Special to the Review, Nov. 24.

JOSEPH ANSCOMBE and Patrick McMahon were charged this morning with enticing Mrs. Eliza Burke into a cab, on pretence of driving to her destination, and with taking her off with intent to commit an outrage. They were remanded.

JAS. LINCH, who had been on a spree with Richard Hickson was sent for two years to the Penitentiary to-day, for knocking Hickson down on the highway and robbing him of $80.

SIR JOHN and Lady Macdonald visited the Zoo to-day. To-night he will address the Young Men's Liberal Conservative Association.

TO-NIG HT A MEETING is to be held to form a new political party. So far as is known there are no men of prominence connected with the movement, which will likely be a combination.

IN THE CONTRACT investigation case to-day Godson in one breath said he thought it was burned accidentally, and in the next offered $5,000 for the detection of the culprit.

THE *Telegram's* NEW YORK correspondent wires that the *Herald* this morning says:—"The Canadian premier condemns the independence move, and says that the Imperial Confederation idea is absurd. He scouts the notion of annexation, declares his unalterable adhesion to home to, high tariff, and the comprehensive system of the railroad syndicate. On these issues an appeal will be made to the country in 1883, this is nothing else than a gigantic platform. A full treasury is a nice thing for the Government that is building a railroad through a wilderness. A few years ago Canadian statesmen objected to annexation because of the debt of the United States, now we might object on account of the Canadian debt. At the present rate of decrease our debt will disappear in about ten years.

MONTREAL.

Special to the Review Nov. 25

THE TRAFFIC RECEIPTS of the Occidental railway for the week ending on the 15th were $17,885, an increase of $3,569 over the corresponding week of last year.

THE NEWSBOYS of the city to the number of 110 were entertained to a supper by Mr. Carsley last night.

THE STOCK MARKET was stronger this fore. noon.

THE NOMINATIONS for the three divisions of the city for the Local House were made to-day. Messrs. Doherty and McShare for the west, Messrs. Stephens and Davidson for the centre, and Messrs. Perrault and Taillon for the east. The following nominations were made in some of the other constituencies:—

TERREBONNE—Hon. Mr. Chapleau, Conservative, by acclamation.

BROME—Hon. W. W. Lynch, Conservative, Wm. Waren, Opposition.

L'ASSOMPTION—Marion, Conservative, by acclamation.

L'ISLET—Marcotte, Conservative, Dupuis Liberal.

THEIR POWERS.

LONDON, Nov. 24.—A Dublin despatch says the Land Commissioners have issued a notice calling attention to the powers they possess to hear applications from labourers seeking to compel farmers to provide better dwellings.

ANOTHER MURDER.

DUBLIN, Nov. 24.—It is stated that a farmer named Sullivan, while returning from Skibbereen fair, was fatally beaten, and his corpse concealed. Five arrests have been made.

PUTTING IT DOWN.

DUBLIN, Nov. 24.—Owing to the numerous raids in the eastern parts of county Clare a system of military patrol has been organized.

OPERATIONS IN TUNIS.

SFAX, Nov. 24.—The French have warned foreigners to withdrew their movable property from the country districts, otherwise it may be destroyed in the razzias which the approaching French columns from Kairouan and Gaber may make on the property of the insurgent Arabs.

THE DRAMATIC LIBEL SUIT.

LONDON, Nov. 24.—An application will probably be made within a few days for a new trial in the libel case of Mr. Clement Scott, dramatic critic, against Mr. Sampson, of the *Referee*, on the ground that the defendent had no opportunity to cross-examine the plaintiff.

A CRITICAL QUESTION.

LONDON, Nov. 24.—The *Times* says the Porte's interest in concluding an arrangement with its bondholders is so great that there is reason to fear it may, in order to remove Russia's opposition, assent to her demand to be allowed to collect revenues in some provinces as payment for the war indemnity. Such a virtual cession of territory would raise grave political questions.

THE EMPEROR'S HEALTH.

BERLIN, Nov. 24.—The Emperor's health causes no immediate anxiety. His throat has always been very delicate, and at this moment he is suffering from a severe cold. At the same time some irregularities in his digestion have given him a good deal of pain, and have brought on several fainting fits during the last few days, so that his physicians have ordered rest and absolute quiet, and have forbidden him any serious occupation with State affairs. The Emperor is said to be somewhat in low spirits. Danger seems, however, to be excluded, at least for the moment. The Emperor passed last night pretty satisfactorily, and to-day he even took some light food, but his appetite is still wanting. The Crown Prince and Crown Princess paid him a visit to-day, and enquiries were made by all the foreign courts. Princess Sophie, daughter of the Crown Princess, is suffering from an attack of diphtheria. Prof. Fredericks has been consulted, and great anxiety prevails in the Crown Prince's household.

THE RAILWAY MURDER.

LONDON, Nov. 24.—The pistol supposed to have been used by Lefroy in his attack on Mr. Gould has been found on the Brighton railroad. the fact that no such weapon was discovered was one of the points of the defence during the trial of Lefroy.

FRANCE'S FOREIGN POLICY

PARIS, Nov. 24.—It is stated that M. Gambetta recently told Gen. Chanzy that the foreign policy of France could not change, that France ought to remain on good terms with all the powers. M. Gambetta opined that the last elections indicated that the country required the adoption of a more decided line of action against the clergy.

THE CLERGY AT ELECTIONS.

PARIS, Nov. 24.—In the French Chamber of Deputies to-day in a discussion regarding the validity of election of M. Boscher de Langle (Monarchist), Bishop Freppel claimed for the clergy the same rights as other citizens enjoy. He maintained that they were entitled even from the pulpit to recommend the faithful to go and vote in fulfilment of their duty. Several members of the left denounced this doctrine. M. Waldeck Rousseau, Minister of the Interior, declared that the Government was unable to remain indifferent to such doctrines, involving the intervention of the clergy in elections. The Ministry were absolutely of the opinion that the clergy should remain within the limits of the Concordat, and intended to use all legal means to impose upon the clergy respect for the law and constitution. (Applause) M. Boscher de Langle's election was nullified by 402 to 93.

THE LORD-LIEUTENANT.

LONDON, Nov. 24.—Earl Cowper, Lord-Lieutenant of Ireland, at Belfast last night said the more he saw of the country the more he was convinced that dissatisfaction always existed, though some times in a dumb and sullen state and under the surface. It was their duty at the present moment to reduce it again to the dumb and sullen state, and then do as much as possible in one generation to remove the dissatisfaction and if possible the prejudices of the Irish people. The *Times*, commenting on Earl Cowper's speech, says:—"It is far more likely that measures of coercion will have to be made more stringent than dispensed with. Even the temporary suspension of trial by jury would be condoned by public opinion if it was shown to be necessary for the restoration of peace, and now that oppression and violence have been adopted as weapons by a section of the Irish people, it is worth while to point out that the Irish people, who forty years ago formed one-third of the population of the kingdom, is now only one-seventh. The conduct of the Irish in English towns and cities shows that they sympathise with the course of their countrymen in Ireland, and return the feeling indicated above.'

IS GUITTEAU SANE?

LONDON, Nov. 24.—The *Daily News* says:—"It seems obvious that the question of Guitteau's sanity and responsibility is a matter of word-chopping and psychological casuistry. Guitteau is perfectly well aware of the nature of his act. We might say Guitteau was crazed just as so many people are called 'cracked,' who are yet acknowledged to be fit to control their own affairs. If Guitteau is declared to be insane a vast number of people like him, feather-brained, conceited fools, will justly infer that they too may indulge in eccentricities and murder."

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. ST. PETERSBURG, Nov. 25.—A secret printing office has been discovered at Vasilidistrow. Six persons, including some women, were captured. Next day several University students were arrested.

SHORT LIVED.

ST. PETERSBURG, Nov. 25.—The Holy Cohort has been dissolved by an Imperial order.

ABOUT A WOMAN.

ROME, Nov. 25.—Captain George Butler, an American artist, who lost an arm at Gettysburg, recently had a duel with Masso, a son of an Italian officer, and himself in the army. The weapons were long rapiers. Masso was wounded in the face. Masso had trouble with a friend of Butler about a woman, and slapped Butler in the face for taking his friend's part. The affair caused considerable excitement.

AN IRISH RAID.

LONDON, Nov. 25.—A large party armed and disguised raided a house in Dublin County for arms. Thirteen raiders were arrested.

AMERICAN.

A MILLIONAIRE'S BEQUEST.

NEW YORK, Nov. 25.—The Late Stephen Whitney, of Phœnix, left $500,000 and a large library to Columbia college.

ORDER IN THE COURT.

NEW YORK, Nov. 25.—The *Tribune* Washington special says that Judge Cox and Marshall Henry regret exceedingly the disorder which has occurred during the trial of the assassin. They will use every effort in future to maintain order. Scovelle says he will do all he can to restrain his brother-in-law.

A PREMATURE EXPLOSION.

GREENWICH, Conn., Nov. 25.—Yesterday while a number of men were blasting rock on the new race course, a premature explosion took place. Samuel Ellison, Morris Dunn, James Ryan and two unknown men were killed, and three others badly injured, perhaps fatally.

ROBBING RATEPAYERS.

PHILADELPHIA, Nov. 25.—In reference to the frauds in the tax office, it is said that sometimes there was a barefaced overcharge of hundreds of dollars in the bills of heavy taxpayers, accounted for by a pretended increase in assessment, the surplus and sometimes the whole amount of the bill going into the pockets of the clerk who received it. Another method was to collect taxes on property which the assessors through accident or design omitted from the lists. Hanel, who disclosed the frauds, says that a storm, which is destined to wreck the reputations of men hitherto respectable in private life and prominent in public affairs, has only begun to blow. It is stated that the Girard Life and Trust Company alone paid $30,000 taxes, of which not one dollar went into the Treasury. Hanel says it was a poor day when a tax clerk did not steal $50 or $60. One man connected with the office made between $60,000 and $75,000 in this way. All were in collusion and fixed the books so that it would be hard to detect the frauds unless examined by one of the ring. City Comptroller Hancock's clerk who audited the accounts stood in with us. Some clerks who were in the frauds are now in office. The exposure of the frauds has created a great sensation.

ONE FOOL LESS.

NEW YORK, Nov. 25.—Jas. Forbes, while under the influence of liquor, last night, ran towards an engine on the Hudson River Railway and attempted to butt it with his head. He was killed.

THE BUSINESS BOOM.

NEW YORK, Nov. 26.—The wholesale houses of all trades report an extremely busy season.

OBIT.

NEW YORK, Nov. 25.—Daniel Record, formerly the leading jeweller in this city, died yesterday aged 81 years. John Anderson, millowner and philantrophist, died at Paris on Tuesday, aged 70. He founded a colony on Pennock's Island.

ROBBED AND MURDERED.

OXFORD, N. C., Nov. 25.—Thos. Lynch, a merchant, was robbed and murdered on the highway on Tuesday night. Two negroes have been arrested on suspicion. They will probably be lynched.

FRADULENT FAILURE.

MEMPHIS, Nov. 25.—The apparent assets of Baum & Co., failed liquor dealers, whose liabilities are $80,000, are only worth $8,500. The firm are severecy critised for refusing to produce their books.

GARFIELD'S MEMORY.

BALTIMORE, Nov. 25.—A Garfield memorial tree was planted at the Hebrew Hospital yesterday. Contributions to the memorial were made by all prominent Hebrews. R. Stocket Mathews who delivered an oration said that the tree should be planted by Hebrews to mark the deep attachment of the Hebrew race for a man of another race, another country, and it might almost be said of altogether different associations.

ACID STOMACH, HEADACHE, HEARTBURN AND INDIGESTION are quickly cured by using Perry Davis' Pain-Killer. Bathing the head freely in Pain-Killer will usually relieve the most severe attacks of headache.

THE JAPANESE carry their tooth-picks in their back hair, and always use them after eating anything. They take care of their teeth, and the teeth take care of their stomachs. Use tooth-picks freely, clean with Sozodont, and bad teeth and breaths will be scarce.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

LIBERAL CONVENTION.

There is no word of a Liberal convention yet, although a Liberal convention is a much greater necessity than a Conservative convention, both because at the next election the Liberals will be on the offensive, instead of the defensive, and because in the Liberal ranks each prominent member of the party seems to be fighting on his own hook. One goes in for leaving the National Policy alone, another for tearing it all to pieces; one goes in for demolishing the Senate, another for simply re-organizing it; one says Imperial federation is a holiday dream; one favours Canada being given a voice in the making of all commercial treaties which affect her; another says that Canada already enjoys all the freedom it is safe for her to be trusted with; one denounces the Pacific syndicate as monopolists and land-grabbers, another holds up his hand for letting the syndicate alone, Parliament having voted it the contract. So it goes. No citadel can be taken if troops do make the attack in unison. They must march together and fight on a common principle—not every man for himself. As it is, the leaders of the party seem to be batting their heads against two stone walls, one being the N. P. and the other the railway contract. As for the railway contract, the people are glad to get the whole thing off their shoulders and all the political jobbery connected with it, while everybody sees that times are better than they were, and whether it is due to the N. P. or not, the N. P. will get the credit of it, Even if the Liberals came into power they could not reverse the fiscal engine. To do so would mean ruin to manufacturers and incalculable loss to importers. Circumstances are stronger than the Liberals are, but it looks as if the Liberals are determined that they will not submit to circumstances. Hostility to the N. P. will not bring back to the ranks the hundreds of commercial Liberals who went over to vote for the N. P. although they had to swallow the Pacific Scandal in order to do so.—*Toronto Telegram.*

CANADA'S MOUNTED FORCE.

How a Handful of Men Keep a Host of Redskins in Awe.

The special correspondent of the London *Times*, who made the North-west tour with Lord Lorne, praises up the Mounted Police, of whom (he says) it would be difficult to speak too highly. Lord Lorne, always very keen in military matters, since the day when he himself worked con amore in a volunteer artillery corps, and who is, for an amateur, therefore, an unusually good judge, pronounced them "as fine a troop as he ever saw." They are ludicrously underhanded for the ground they have to cover, and the number of Indians and white men, often more unmanageable than Indians, whom they are expected to keep in order. They are 300, and the Indians may be counted by tens of thousands. Yet, if a crime is committed out on the prairie, a handful of mounted police seize the criminal, a chief it may be, surrounded by his tribe, and carry him off to the nearest fort like a policeman would take up a pickpocket in Cheapside. Not long ago some Cree Chiefs, considering themselves aggrieved by the Government, seized upon some Government cattle passing through their territory, killing and eating three. Col. Herchimer and six of his men happened to come to the place almost the same day. They at once summoned the chiefs to surrender. The chiefs refused, armed themselves and their immediate followers, and as the police approached, fired a volley over, but pretty near, their heads, to intimidate them. Had the fire been returned, the police, far outnumbered, would probably have been slain to a man, but, calmly relying on the majesty of the law, they walked under the bullets right into the Indian camp, hand-cuffed the three chiefs and carried them off, amid loud protestations and threats, but no actual violence. A still more striking case occurred quite recently among the Blackfeet. One of the mounted police was murdered, shot in the back—by a young Blackfoot Indian, whose father had, or thought he had, a grievance against the Government, and on his death-bed bequeathed the legacy of vengeance to his son. The murderer at first escaped over the American frontier, but coming back was taken by a small body of police from the very midst of his tribe, to whom he appealed in vain, though they knew enough of English customs to know that he was being carried to death. He is now in Fort McLeod, to which we are on our way, and though his execution is a certainty, and the Blackfeet, many of them armed with Winchesters, are quite numerous, and powerful enough to avenge—as they might have rescued—him, indeed, powerful enough to raise war, not the slightest apprehension is felt of their making any serious difficulty, or the Governor-General, I need scarcely say, would not be allowed to go among them, except under the strongest protests for his safety. The Indians know well that nothing more than strict justice has been or will be done. What is perhaps still more curious than their submitting to the control of the police rather than resist it by force is that they voluntarily make use of it themselves. If an Indian, nowadays has his horse stolen, instead of going at once on the war-path, and trying to recover it himself, together with the thief's scalp, he appeals to the police, and expects them to recover it, which they usually do.

A FALSE HUSBAND.

Wesley Nichol, a Palmerston Man, Elopes with a Servant Girl—Arrested in Detroit.

DETROIT, Nov. 23.—The city papers this morning state that an elopement case terminated in this city yesterday afternoon by the arrest of a man who had forsaken his wife and cast his lot with a domestic employed in his family. The facts are as follows:—On Thursday last Mrs. Wesley Nichol arrived in this city from Palmerston, Ont., in search of her husband, who left her, taking his two children with him, about two months ago; at which time a domestic, who had been employed in their family for three weeks previous, also suddenly disappeared. Mrs. Nichol at once conjectured that they had eloped, and began to search for them. She made her headquarters with friends at No. 328 Franklin street. On Sunday evening she called on Patrolman Frank Whipple and related the facts of the case to him. She said that previous to the elopement she did not notice any particular intimacy between the two. She did not live happily with her husband, and after he disappeared she never heard anything from him until she learned from a railroad man that he had come to Detroit with a young woman and two children. The latter also said that Nichol had recommendations in his possession from the Great Western Railway Company, and that he would attempt to find work in this city on some of the railroads. The patrolman met Mrs. Nichol on Monday by appointment and brought her to the Central Station, where she represented her case to Capt. Girardin. The latter instructed Patrolman Tuttle, on duty at the Michigan Central Depot, to look out for Nichol, of whom a description was given him. The father and brother of the girl, whose name is Julia Crittington, upon hearing of the couple being in this city came here, arriving on Monday, and also began instituting a search. On Monday evening Patrolman Tuttle saw a man answering the description of Nichol about the hotels near the depot, accompanied by a young woman, and shortly afterward he was accosted by a young man who said he was Miss Crittington's brother and desired to have her arrested, so that her father could take her back home. The officer and Crittington visited the hotels, but could find no traces of the two. The officer ascertained that Nichol had been employed as a yardman by the Michigan Central Railroad Company, and that he lived on Sixteenth street. An enquiry at his residence showed that he had left there, and there were indications that he was preparing to move out of the city. The officer, however, continued the search for him, and at four o'clock yesterday afternoon arrested him and lodged him in the Central station on a charge of adultery. The young woman still has Nichol's two children, two little girls. A reporter interviewed Nichol in his cell last evening, and he said. "I left Canada two months ago with Julia and my two children. He was in tears at the time, proclaiming how deeply he loved the little ones and now and then sandwiched in a remark that he cherished Julia "more than any one could tell." He said that yesterday morning he placed the children in Julia's care, to take them to the house of an old friend of his named Lawrence, living on Fifteenth street, but could not his home was because he loved Julia, and besay where they were. The reason why he left cause his wife did not treat him well." He frequently broke down in his remarks, and filled the station with sobs, imploring that his children be brought to him. Mrs. Nichol announced her intention to make a complaint against her husband. She says that before leaving Canada he borrowed $200 from friends, saying that he wanted the money to purchase a lot with.

HOW IT WAS DONE.

Extraordinary Revelations in the Hochelaga Body Snatching Case.

When the old man Michael Laroche died at Hochelaga several medical students attended the service in the Roman Catholic Church, and saw that the body was deposited in a sort of oven in the vault of the church, the entrance to the oven being blocked up with brick and mortar. After the burial, a young man, badly clad, evidently a student in disguise, called upon the sexton and offered to hire as stoker for a bagatelle. His services were secured, and he set to work at the furnace in the basement of the chapel. About this time a rumour gained ground that certain parties intended to steal the corpse, and several policemen were detailed to keep watch to prevent the body snatchers from putting their object into execution, but the snatchers were too cunning and outwitted the authorities. Having got one of their number into the service of the sexton, two of them called on the night of the desecration of Laroche's sepulchre upon the cure about renting a pew, and so engaged his attention, while two more students got up a sham quarrel in a saloon to draw the police from their watch at the church. As soon as the police left to arrest the men, two others connected with the band entered the church, and while the "stoker" kept the sexton talking, they displaced the bricks and took the body and carried it unseen to the street, where, having dressed it in the garb of an old woman, they put in a hand cart, on two bags of potatoes, and had the audacity to apply to the local police station for shelter for the pretended woman, whom they said had no home to go to. They were told to convey her to the city, which they did, with what result has been seen.—*Montreal Star.*

A Romance in Real Life.

About eight years ago a man named Ferdinand Gosselin married a young Montreal lady. After living with his wife for a few months, he left for Woonsocket, Rhode Island, where he went to work in one of the mills. While there he made the acquaintance of one Emelina Gagnon. She was worth some money and he succeeded in leading her astray. He returned to Canada and brought her to live with his wife, who was removed to St. Bruno. The curiously assorted trio got on well enough until one day a couple of weeks ago Gosselin turned Emelina out of doors. She came to Montreal and at once instituted legal proceedings against him and his brother Henry. High Constable Bissonnette went out to St. Bruno three times to effect the arrest of the brothers, but both had taken to the woods and remained in hiding. At last Mr. Bissonnette succeeded in capturing them and bringing them to town. They had their preliminary investigation before Police Magistrates Dugas and Desnoyers, being remanded for a few days. Emelina, who is the mother of two of Ferdinand's children, accuses him and his brother of stealing her clothes and some $200 in cash, which also belonged to her. The elder Gosselin is said to have already been in the hands of the law.—*Montreal Post.*

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good, If you don't feel just right try Hop Bitters.—*Nunda News.*

A New Species of Horses.

The *Annals and Magazine of Natural History* for July contains a translation of a Russian paper, in which M. Poliakof brings forward a mass of evidence in proof of the existance of a hitherto unknown species of horse, not far from Zaisan, in Central Asia. The animal appears to resemble a small domestic horse, of a dun color; its head is large in proportion to the size of the animal; and the root of its tail is destitute of long hairs for some distance. M. Polikof names his supposed new species *Equus Przewalskii*, in in honor of the traveler who brought the skin to Russia. He regards it as a true horse, and remarks that "if it were possible to prove that culture influenced the growth of the tail, and that this became more hairy, and the mane longer, under altered conditions of life," it might be affirmed that "it was indeed the animal whose ancestors were reclaimed by man in the stone period, the so-called domestic horse of our day.

COURTSHIP.

It chanced, they say, upon a day,
A furlong from the town,
That she was strolling up the way
As he was strolling down;
She humming low, as might be so,
A ditty sweet and small;
He whistling loud a tune, your know,
That had no tune at all,
It happened so, precisely so,
As all their friends and neighbors know.

As I and you perhaps might do,
They gazed upon the ground;
But when they'd gone a yard or two,
Of course they both looked round,
They both were pained, they both explained
What caused their eyes to roam;
And nothing after that remained
But he should see her home.
It happened so, precisely so,
As all their friends and neighbors know.

Next day to that, 'twas common chat,
Admitting no debate,
A bonnet close beside a hat
Was sitting on a gate,
A month, not more, had bustled o'er,
When, braving nod and smile,
One blushing soul came through the door
Where two went up the aisle.
It happened so, precisely so,
As all their friends and neighbors know.

FROM ALL OVER.

THE juice and strained pulp of stewed celery added to the batter of oyster fitters lend a delicate flavor.

THE two most important things in this lower world both begin with the letter M—money and myself.

THE London *Lancet* urges upon the public the importance of breathing through the nose in damp, cold or foggy weather. It is nature's respirator and protection to the delicate.

Mr. S. S. MASON, Atlantic City, N. J., after a full experience, says: "St. Jacobs Oil is the best thing I know of to use for sprains, sores, bruises, and a similar troubles among horses.

MISS BRIDGET NOLAN ROMAINE ROY, the adventuress, to whom a young Ottawa barrister would have been married recently but for the intervention of a third party at the altar, is now seriously ill in the general hospital and is not expected to live.

PLEURISY.—This is frequently a most disastrous complaint. It manifests itself in inflammation of the pleura, or membrane that surrounds the lungs. If neglected, should the patient recover even, its effects are sometimes felt ever after. Herrick's Sugar-Coated Vegetable Pills are the remedy.

A CORRESPONDENT suggests that there should be restaurants where guests might have little cabins hung with curtains, some to hold two, others to hold four, and still others to hold a larger number of people. He probably remembers the old days of oyster boxes.

LORD LORNE'S proposition, accompanied by the handsome donation of $500, that a suitable building be erected by subscription, to meet the requirements of the Ottawa Art School, is bearing most satisfactory fruit. Mr. Allan Gilmour has supplemented his Excellency's donation by one equally munificent.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

PROMINENT among the glories of vegetation on the volcanic islands of the Pacific is the utu tree, which is wonderfully umbrageous, bears beautiful large glossy leaves, and attains a height of 60 feet. The trunk is often 30 feet in circumference. A native often apostrophizes the Supreme Being as Thou Mighty Utu Tree.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

To the Duke of Cumberland at Gmunden in Austria was recently born a son, and members of the Guelph party in Hanover, on hearing this, dispatched a message of greeting. As the message was addressed to "the heir-presumptive of the Guelph Crown" it got no further that the telegraph office, Prussian officials having declined to forward it.

GENERAL DEBILITY.—This convenient term includes numerous ill-defined and supposed incurable forms of disease, accompanied by general lassitude and exhaustion, without any ascertainable external or internal causes. The Peruvian Syrup sends its renovating influence to the utmost recesses of the system, and has relieved in our community many cases of supposed incurable disease. Sold by dealers generally.

SYLVESTER HENDERSON fell asleep during service in a St. Louis church, and the benediction did not thoroughly arouse him. The consequence was that, in going out of his pew, he stepped in a dazed condition on Charles Gibson's foot, which had grievous corns. Gibson drew a knife, chased Henderson into the street, and dangerously stabbed him.

AT Ottawa on Sunday, shortly after the interment of a man named Buchan, who died very suddenly, a report gained currency to the effect that his eyes had been seen to move shortly before the coffin was closed, and that he had been burried alive. The grave was at once reopened and the body was examined by a medical man, who at once saw that there was no foundation for the rumor.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung diseases by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts effected. These wonderful instruments are used in in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung diseases are no longer feared until their very last stage. Write for particulars to M. Souvielle, ex-Aide Surgeon of the French Army, 13 Philips Square, Montreal. All letters must contain stamp for reply.

The Variability of Bricks.

A correspondent suggests that the market price of bricks should be rated according to their size, weight, and crushing strength. He instances two lots of brick, sold at the same price per thousand. One lot averaged 2¼ x 3⅜ x 7⅞ inches in size, 5 lbs. 2½ oz. in weight, and broke at 5,490 lb. per square inch. The second lot ran about 2¼ x 4 x 8½ inches in size, weighed only 4 lb. 8½ oz., and broke at 3,610 lb. per square inch. The real values of these two lots of brick were obviously very unequal. As our correspondent says it makes a vast difference to the builder of an arch or pier if he calculates on bricks standing 500 tons to the square foot and gets them half as strong; or if he figures on 4,500 bricks per rod of 306 cubic feet, and if it takes 5,500. He thinks that every brick maker should guarantee a certain size, weight and crushing strength—which they will probably do when (and not before) builders refuse to purchase bricks which fall short of a stipulated standard of size and quality, or make their contracts with the brickmaker or dealer contingent, as to price, upon the character of the material delivered.

MOLTKE'S COOL HEAD.

Grenville Murray, in the Geneva Continental Times.

The reasons of Moltke's amazing success are not far to seek. It has been suggested that the military art may be no very profound mystery, that "its principles are the principles of plain good sense, and that a quick eye, a cool head, and a stout heart will do more to make a General than all the diagrams of Jomini." These considerations do not quite exhaust the subject, but there is no doubt that the above natural qualifications, combined with the serious study of tactics, are pretty certain to produce a great captain, fortune moderately favoring him. And Moltke has at least taken care that fortune should as rarely as possible be against him. "From Saarbruck to Sedan," it was said of him, "he left nothing to chance." According to a story which explains much, a friend of Moltke's once encountered him in the streets of Berlin, on a memorable morning in the second half of July, 1870. The French ultimatum had just been received, and the friend, after a hasty greeting, was moving on. "Whither away so fast?" asked Moltke. "Oh I know you must be busy." "Not at all. Everything is ready." And, German-wise, the famous strategist carried off his companion to a cafe, to talk philosophy over a glass of Bavarian beer. At Versailles the French wondered to see him so often "doing nothing," as it appeared to them. Evening after evening he strolled into the restaurant he had chosen, as leisurely as any rich young officer in a crack cavalry regiment; and stayed as long at table as others. Not that he is anything of an epicure—his tastes being of the simplest. It was noticed that a favorite dish of his was roast goose. He had so thoroughly mastered his work that he had no need to be fussy over it.

BELLEVILLE.

SAD ACCIDENT.—The *Intelligencer* says that our Ameliasburg correspondent writes on the 22nd:—A very serious accident happened this morning about 8 a. m., upon the farm of Mr. R. W. Hermon, P. L. S., near Rednerville. The following particulars I have been able to learn from his family:—Arthur Hawkins, eldest son of Mrs. Hermon, had been to the bay with the horses, leading one and the others running loose. Those loose, among which were some young horses, had kicked up their heels a good deal while returning from water, much to the amusement of Arthur. Upon reaching the stable the horses entered their stalls and when Arthur went into the stable leading the pony, he had only advanced a few steps when a fine bay mare about four years old, kicked, one foot striking him in the face, inflicting an ugly gash on the forehead, nose, and a skin wound on the chin. Two of his front teeth were knocked out, one by the roots and the other broken at the gum. He was struck with such force as to knock the boards from the siding in his fall. When found, a few minutes after, he presented a most alarming appearance, lying upon his back, with eyes set, and blood gushing from his mouth and face. He was at once taken to the house and Dr. Wilson immediately sent for. The Dr. arrived in a short time and found him suffering from concussion of the brain. No other injuries were found and the doctor thinks he will recover. He remained until about 1 p. m. in a state of unconsciousness. He only a few days ago returned with his father from a survey and this very sad affair has cut a gloom over the whole family. His many young friends join with those of more advanced years in expressing their deepest sympathy, and hope to learn soon of his recovery.

CAPTURED.—The man Joe Smith, who committed rape on and attempted to murder a little girl in Savannah, Wayne Co., N. Y., on the evening of the 19th inst., has been captured. A woman named Alice Smith, living in this city, on South Front Street, opposite the City Grist Mill, says that from the description of the criminal which was published, she is convinced that he is her husband. He left her, she says, two years ago, and she has not since heard from him. Mrs. Smith's name was Underdown before she was married.

HOME.—Capt. Cuthbert returned home from New York on Monday evening, and Mr. C. P. Holton last night. The Atalanta has been left lying in the Morris Canal, and will probably be allowed to remain there throughout the winter.

PORT HOPE.

HARBOR RECEIPTS.—The *Guide* says that we learn from Mr. A. Cochrane, our very courteous and efficient harbor master, that the receipts of the harbor for the current year, up to this evening are: tolls on exports $20,000, while last year for the whole season, from the same source, they were $19,592; tolls on imports to the present date, $3,400; last year, for the whole season, $2,900. We will give a synopsis of the total at the close of the season.

DUTIES COLLECTED.—The duties collected at this port for the past four months have reached $110,000, double the amount collected for the whole of last year.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

DO NOT BE DECEIVED.—In these times of quack medicine everywhere, it is truly gratifying to find one remedy that is worthy of praise, and which really does as recommended. Electric Bitters we can vouch for as being a true and reliable remedy, and one that will do as recommended. They invariably cure Stomach and Liver Complaints, Diseases of the Kidneys and Urinary difficulties. We know whereof we speak, and can readily say, give them a trial. Sold at 50 cents a bottle, by Taylor & Macdonald.—3.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. FRIDAY, NOVEMBER 25, 1881.

LOCAL AND MUNICIPAL.

Obituary.

Many of our readers, to whom the deceased minister was known personally, will regret exceedingly to learn of the death of the Rev. Dr. Robb, pastor of Cooke's Presbyterian Church, Toronto. The sad event took place at Galway, Ireland, on the 19th of November. The deceased gentleman was born in Belfast in 1833, and therefore at the time of his death was 48 years of age. After having had change of several churches in his native land he came to Toronto in 1874, and up to the time of his death was one of the leading divines of his church. The author of the "Irishman in Canada" regarding the deceased gentleman says:—"I venture to say that Dr. Robb knows more about the science of law than many a barrister who is making twice his income." The same authority ascribed to him the position of being "perhaps the most highly cultivated man in the Canadian Presbyterian Church."

He Did Not Advertise.

The following is vouched for as being correct: A nervous looking man went into a store the other day and sat down for half an hour or so, when a clerk asked him if there was anything she could do for him. He said no, he didn't want anything. She went away, and he sat there half an hour longer, when the proprietor went to him, and asked him if he wanted to be shown anything. "No," said the nervous man, I just wanted to sit around. My physician has recommended perfect quiet for me, and says above all things I must avoide being in crowds. Noticing that you did not advertise in the newspapers, I thought this would be as quiet a place as I could find, so I just dropped in for a few hours of complete isolation." The merchant picked up a bolt of paper cambric to brain him, but the man went out. He said all he wanted was a quiet life.

Preparing for Winter.

As is usual every year after the first cold snap of the season, the managers of the rink are pestered with questions, as to the probable date of the opening of the institution. This year they are taking time by the forelock and are bound to have ice as soon as possible. Owing to the ground being still soft it is impossible to get a good foundation started, until the cold becomes more severe. On Thursday night a number were at work sprinkling the ground, in order to prepare it for the flooding process. They met with good success and expect to have ice after the next real cold snap.

Fresh Laurels.

In its account of the recent St. Vincent de Paul Society's concert at Lindsay, the *Warder* says Miss Bagley of Peterborough on making her appearance was received with applause. To say that her singing was good would not convey the favorable impression it left, for each time she had to respond to an encore. Miss Begley should feel proud of her reception in the Opera House on Tuesday evening. She is the fortunate possessor of a voice full of sweetness, and with judicious training she is destined to become one of the leading vocalists of these parts.

Law Examinations.

At the recent Law Examinations at Osgoode Hall, Toronto, the following gentlemen from Peterborough were successful in passing:—

FIRST INTERMEDIATE EXAMINATION.—Mr. A. E. Dixon, who stood 18th in order of merit.

SECOND INTERMEDIATE EXAMINATION.—Mr. F. W. A. G. Haultain, who stood 7th in order of merit.

FOR CALL TO THE BAR.—Mr. E. A. Peck stood 4th, Mr. F. A. Hilton 22nd, and Mr. H. B. Weller 29th.

Progressing Favorably.

The young man Crowley who was severely injured yesterday by a collision with the train, is progressing favorably. The accident is still the talk of the town, and all agree with us that something should be done to ensure the safety of farmers and those on the train, as a collision at any time might cause a heavy loss of life. Young Huston was killed close to the place where this last accident occurred.

Entertainment.

There was a concert and dramatic entertainment in Bradburn's Hall last night under the auspices of St. John's church. The singing by some of our leading amateurs was unusually good, and the farce was well acted, being much applauded. There was a fair attendance.

The Weather.

Although Vennor's predicted snow storm was a very mild one as far as this vicinity was concerned, still the rough weather gave us a real taste of winter. Last night was really cold and to-day is following suit and in fact goes one better. A strong wind is blowing and as was the case yesterday, the light snow which is falling in flurries, is soon scattered and does not stop. The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company are as follows:—Lakes—Winds and gales from the south and south west; cloudy milder weather followed by snow or rain in some localities.

Skating.

The small boys, and for that matter, both boys and girls, large and small, are having a fine time at present. Spaulding's bay being frozen and the noxious smell of the summer having dissappeared for the season, so that the people are now able to walk about in the lower part of the town without having their olefactory organs assailed with an exceedingly disagreeable stench. Last night the turnout was very large and all day it has been the same. If some of the boys would not use such language as was heard last night, decent people would be better pleased. The ice is in splendid condition and there is room for all.

Bounced.

The other evening three intoxicated men entered a Simcoe street store, when one of their number commenced to insult a young man who was standing at the counter. The loud mouthed individual was requested to leave, but refused, and threatend all kinds of dire things. At last the insulted man got "riled" and the way that he threw the other around was wonderful to see. After being kicked out on the road, the drunken man left for home, threatening Police Court, etc.

Peterborough Law Association.

The following officers have been elected for the ensuing year:—

President.....C. A. Weller.
Vice-President.....A. P. Poussette.
Sec. Treasurer.....E. B. Edwards
Trustees.....G. Edmison. W. H. Moore.

Hymenial.

On Wednesday evening two couples from Peterborough took a drive to Lakefield and were united in the bonds of matrimony, seeking the comparative seclusion of that village for the performance of the ceremony, that they might escape the attendance of their numerous friends in this town.

Brushing Up.

It is a noticeable fact that many of the merchants are brushing up their premises and fixing their windows in the most attractive manner, preparing for the holiday rush that will soon commence. The prospects for a large trade are better this year than for many past.

Horses.

The Stewart House yard this afternoon resembled a horse fair more than a hotel yard. The spacious premises were almost filled with men and horses, and buyers were busily engaged in picking up the best animals and paying good prices for them.

Elocution.

The members of Mr. Burke's elocution class have reorganized, and now hold their meetings at the rooms over the Mechanics' Institute on Friday evening of each week. Three members have been appointed as a committee, and they conduct the meetings in turn.

New Goods.

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes loose, fever and chills more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

MIDNIGHT TELEGRAMS

CABLE.

WILFUL MURDER.

DUBLIN, Nov. 25.—The coroner's jury returned a verdict of wilful murder against sub-inspectors O'Brien and Bouchier, who commanded the police on the occasion of the killing of Mansfield in the affray at Ballyragget.

SEVEN SHOCKS.

ROME, Nov. 25.—There were seven shocks of earthquake felt here yesterday. The walls of many buildings were cracked.

BISMARCK AND REICHSTAG.

BERLIN, Nov. 25.—At a parliamentary dinner yesterday, Bismarck observed that he apprehended no conflict with the Reichstag during the present session, and did not contemplate its dissolution. The bills announced in the Imperial message, he said, would not be dealt with all at once. Considerable time would be required to dispose of them. If he should be unable to carry out his projects he would confine himself to foreign affairs, and appoint a Vice-Chancellor for the Home Department.

RELEASING PRISONERS.

LONDON, Nov. 25.—It is understood that the Government intends to release the imprisoned members of the House of Commons before the session of Parliament, provided that no treasonable conspiracy exists, and that the tenants are not intimidated from applying to the Land Court. The principal Irish judges strongly deprecate any suspension of trials by jury.

VIGOROUS ACTION.

DUBLIN, Nov. 25.—One Maloney, a wealthy merchant and an active member of the Land League, has been arrested on a charge of intimidating from paying rents and circulating "No rent" manifestoes. The Ladies' Land League has resolved to discontinue its meeting. It is reported that Maloney's wife will be arrested, which step will be followed by vigorous action towards the Ladies League.

ANTI-ENGLISH AGITATION.

PARIS, Nov. 25.—At attempt to revive the anti-English agitation in Paris is being made by Mr. Egan, the Land League treasurer, who has secured journalistic assistance from Ireland for that purpose. Extracts from the Irish papers are to be translated and sent round regularly to the French papers, to "correct" as Mr. Egan puts it, the impression made by the "calumnious statements of the English papers and news agencies." The *Debate* to-day even insinuates that the resolution of Mr. Parnell to take no more money for food from the League funds shows that the financial condition of the League is not flourishing. This, however, is untrue, for Mr. Egan states that he has just sent $20,000 to Miss Parnell, and has received $5,000 from Mr. T. P. O'Connor, the first proceeds of his tour in America.

AN INDEMNITY DEMANDED.

TUNIS, Nov. 25.—The Grand Vizier in the name of the Sultan, has written to the Bey of Tunis requiring the Tunisian Government to pay a large sum to the Moslem refugees who arrived at Constantinople from Sfax, as compensation for their losses from the bombardment of the place by the French. The Bey is much perturbed about the matter, and has forwarded a communication on the subject to the French Minister at Tunis.

THE FRENCH CONSTITUTION.

PARIS, Nov. 25.—M. Gambetta seems to be moderating his tone in regard to to the revision of the constitution. His organ, *La Republique Francaise*, in a leading article this morning, says:—"We shall have the revision because the Chamber and the Republican majority of the Senate wish it; but we shall only have what the Senate and Chamber together wish. They will not perhaps give us all we want, but we must be content, whether we like it or not; and everyone else must be content."

CIVIL MARRIAGE IN SPAIN.

MADRID, Nov. 25.—In a Senate committee the Minister of Justice declared that the Government was negotiating with the Vatican for an arrangement of the civil marriage question, and hoped for a favourable result, but in the contrary event the Government would maintain the principal of its bill on the subject, and uphold the prerogative of the State Ministers. The declaration was received with considerable applause.

AMERICAN PORK.

PARIS, Nov. 25.—It was announced to-day in the lobbies of the Chamber of Deputies that the French Government have decided to withdrew the decree against America pork. The late Minister, M. Tirard, threatens an interpellation on the subject. It is well known that the decree in question was due more to M. Tirard's hatred of America and the Americans than to his anxiety for the public health.

AMERICAN.

A FASHIONABLE AUDIENCE.

WASHINGTON, Nov. 25.—The audience in the court room to-day was mainly composed of ladies representing most of the fashionable circles. City Marshal Heney, announced that all demonstrations must be repressed or the court room would be cleared. The admonition was repeated by Judge Cox.

JONES INDICTED.

WASHINGTON, Nov. 25.—Jones has been indicted for an assault with intent to kill Guiteau.

JACK FROST.

WILMINGTON, N. C., Nov. 25.—We had the first killing frost of the season last night. Ice formed in exposed positions half an inch thick.

THE FIRE FIEND.

PITTSBURG, Nov. 25.—This morning the tannery of Kefier, Steifl & Co., Alleghany city, was burned. Loss $25,000. It is believed to have been incendiary. This is the second time that this tannery has been burned within a year.

A FAMILY FEUD.

SALMON FALLS, N. H. Nov. 25.—George Wentworth, a well-known resident, was yesterday shot, perhaps fatally, by E. S. Newell, a telegraph operator. Newell was arrested. The alleged cause of the affray was a family feud.

Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

THE REASON WHY.

WASHINGTON, Nov. 26.—It is said that the license that Judge Cox has allowed to Guiteau is attributed to his belief in Guiteau's insanity, and his determination that the trial shall in every respect be such, that neither the prisoner nor his friends shall have any ground for complaint.

THE DEFENCE TOO SHARP.

WASHINGTON, Nov. 26.—It is reported that a man was employed by the District Attorney to visit the gaol and feign insanity to ascertain if Guiteau was sane. After being there a week the man told Corkhill that Guiteau was insane. It is said that an effort was made to get this expert out of town, but he was summoned by the defence.

$300,000 FOR $500.

WASHINGTON, Nov. 26.—Gibson's report described the case of the Government against Huntly and Williams, where damages of $300,000 were compromised in the auditor's office by the payment of $500. The case was twice referred to the Assistant Attorney General for the Post Office Department, who refused to recommend the acceptance of the compromise.

THE PRESIDENT'S MESSAGE.

NEW YORK, Nov. 26.—The *Times* says that the President has accumulated a large amount of material, and is beginning work in earnest upon his message. The time which intervenes is much shorter than Presidents generally allow themselves for writing their messages. It is reported that the President does not intend to have his message printed, but will send it to Congress in manuscript. In that case the message very probably will first see the light when it is read from the Clerk's desk in the two houses. Falger expects to have his printed and is now preparing the formal part of it.

THEY WANT AN N.P.

WASHINGTON, Nov. 26.—At least two Democratic Senators from the south, and one from the west, besides Voorhees, will make speeches during the coming season, taking practically the same ground in favour of protection or a tariff for revenue with incidental protection. They say that the sentiments of their people are unmistakeably in favour of protection for the new cotton mills and blast furnaces recently established in their States.

SERIOUS SITUATION.

WASHINGTON, Nov. 26.—There is much feeling in Washington among public men over our South American relations, and what was at first treated with little attention is now regarded as a very serious situation. The statement that it is believed to be part of a scheme designed for effect in Chili, has gained circulation, and several ships of war have been ordered to the coast of South America, and negotiations are in progress for the purchase by this Government of iron-clads abroad. Hunt states that he has no knowledge whatever of anything of the kind.

LOBBYISTS AT WORK.

WASHINGTON, Nov. 26.—There are excellent reasons for believing that the present threatening relations between this country and Chili, are the direct outgrowth of a lobby scheme of the claims of Americans against Peru on account of the guano grant. The shares are now owned by a syndicate of capitalists and politicians. The claims amount to a million dollars, and scrip representing millions has been issued for use in Washington and elsewhere for the purpose of inducing the United States to insist upon such action on the part of Chili toward Peru as will protect their claim. It is believed that an understanding has been reached with President Calderon of Peru, that he will discharge these claims in case the United States stands by him.

MEDICAL AND SCIENTIFIC.

DOCTOR MAJOR has made some experiments at the West Riding Asylum, on a number of epileptic patients, by giving to them for one month no nitrogenous food, for the second a diet with a little flesh, and the third month a richly nitrogenous diet: and he found that they had the least number of fits when taking no flesh, and most when fed on a liberal meat diet. Besides this, he had many other indications that flesh (meats) in large amounts was decidedly injurious to them.—*Herald of Health.*

READY METHOD OF PREPARING FOMENTATIONS.—Take your flannel, folded to the required thickness and size, dampened quite perceptibly with water, but not enough to drip, and place it between the folds of a large newspaper, having the edges of the paper laps well over the cloth, so as to give no vent to the steam. Thus preparing, lay it on the heated surface of the stove or register, and in a moment steam is generated from the under surface and has permeated the whole cloth sufficiently to heat it to the required temperature. This method is often very convenient and efficient where there is no opportunity to heat much water at a time.—*Michigan Medical News.*

A HIGH official of Dartmouth Prison has gone to London to lodge information understood to have been communicated by a convict, who had knowledge that an attempt would be made to rub the Hatton Garden Post-office.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of nasal catarrah, bronchitis, asthma and weak lungs, by using Dr. Souvielle's spirometer, an instrument which conveys medicinal properties direct to the seat of the disease. The doctor will be at the Oriental Hotel, Peterborough, on Tuesday the 19th instant, and three following days. Sufferers can try it free.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good, If you don't feel just right try Hop Bitters.—*Nunda News.*

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

THE SNOW BY-LAW.

To the Editor of the Review.

DEAR SIR,—Now that we have had a taste of winter weather, and also of the renewed inconvenience of having to wade through the snow drifts (after the storm of last night) in many places, I hope our "city fathers" will at their meeting on Monday evening next, not only revive the snow by-law passed on 5th Nov., 1879, and see that the same is enforced without fear and favor, (as they do in Toronto for instance), but better still, pass a new one to cover the *whole* of the *town* limits.

In towns of smaller pretentions than Peterborough, the snow has been for years regularly and properly cleaned off—result—comfort in walking during our long winter months.

There are some good folks (would there were more of them), who keep the walks clean, and it is a relief to get on to them, after having tramped and slipped about for some distance on uncleaned walks. By determination on the part of the authorities, *all* the sidewalks could be kept free from snow and ice.

Yours,
PEDESTRIAN.

CAMPBELLFORD.

COMMITTED SUICIDE.—The *Herald* says that a horse belonging to Mr. John Bradford, that has performed a good deal of labour pulling on the rope which carried the "hoist" at the new mill, broke its neck on Thursday evening last. The animal was addicted to pulling backwards, and was fastened with a halter put about his head. The owner was bound to break him of the habit and he succeeded. He placed him in a box stall in Mr. Gibson's hotel stables, and fastened him with a halter large enough for a hawser. Doubling himself up, and placing his hind feet where his fore ones should have been, he commenced pulling, but instead of breaking the halter, he fell backwards, and broke his neck.

Restoration of Solomon's Temple.

It is reported that the Sultan has given orders for the remains of Solomon's Temple to be restored, and the surrounding place to be cleared of all rubbish. On that place stands the Mosque of Omar, the revenue of which is said to amount to £150,000 a year. Hitherto this sum has always been forwarded to Constantinople, but for the future it is to be appropriated for the above mentioned purpose. This act of the Sultan is believed to be the result of the visit of the Crown Prince of Austria to Jerusalem.

ANOTHER WILL CASE.

The Daughters of an old Farmer Left out in the Cold—Set Aside This Will.

KINGSTON, Nov. 24.—On the 5th of September last Wm. Albertson, an old farmer aged 72, died at his home in the township of Kingston, leaving all his property to his wife Maria, although possessed of nine children, one of whom was dead, but who had left a great progeny of children. Soon after the father's burial a storm arose, and after mutual consultation the children, with the exception of the only son living, decided to contest the will. This will was made on December 9th, 1870, by Robert Shaw, barrister, of this city, and on the day after the old man had a stroke of paralysis, and was thought to be but a short time for this world. The grounds on which the children based their claims to a portion of the property was that he was insane and totally incapacitated to contemplate the nature of the will he signed, and that there was undue influence used by the mother and son, and owing to this influence he was unable to resist their importunity. Of course the defendants deny all such allegations, and this case came before the chancellor now holding the sittings here.

The witnesses for the plaintiffs, who may be called legion, have been telling some of the great family secrets relative to Mr. Albertson's mental condition. The first date of the father's mental failing is back seven years. Since that time it is said, he has been growing worse, In the summer of 1870 he fell in the barn from dizziness, and then on the 8th of December, the day before signing the will, he had a paralytic stroke, which caused complete aberration of the mind. His many insane peculiarities were given, among which, it is stated, that there was an entire change of character. While possessed of a clear intellect he was modest and unassuming, but after the symptoms of softening of the brain occurred, he would use profane and obscene language. Many other insane actions were also reported. Several medical experts were examined.

Ald. John Carson, witness to the signing of the will. and Robert Shaw, barrister, were both examined, and the former asserts that Albertson was of sound mind and as mentally clear as he ever saw him. One of the daughters says that on the day he was attacked with the stroke, her brother wanted to rig up the old man and bring him to the city, so that he could make his will. She says that the mother declared "that none of the girls should get as much as she could hold in the palm of her hand." Another daughter thought her father brooded and grieved over the fact that several of the girls were mothers of children while they were not yet wives. The case was begun yesterday afternoon and to-night the plaintiff's witnesses were not all examined. The defence may change the whole aspect of the affair as to the mental calibre of the father when their witnesses are brought forward. The case excites much interest.

FOUNDERED ON LAKE ERIE.

Loss of the Schooner "Mary Jane" on Saturday—Engulfed in the Stormy Waters.

BUFFALO, Nov. 23.—A special to the *Express* last night from Dunkirk says :—The schooner Mary Jane of St. Catherines, was wrecked five miles off East Dunkirk. There are no signs of the crew. The vessel is a total wreck. Boxes marked "The Mary Jane" were coming ashore near Dunkirk.

LATER.—The following has just been received in regard to the loss of the schooner Mary Jane: —Dunkirk, N. Y., Nov. 23.—On Sunday morning last a quantity of wreckage was found on the Goodenough property, Lake Erie shore, about two miles below here. The wreckage consisted of a lot of telegraph poles and a portion of the cabin, in which was secured a cupboard full of papers. The top drawer of the cupboard, which probably contains the papers and names of the crew for the present season, is broken off. The lower drawers, however, contain papers which serve to identify the wreckage as belonging to the schooner Mary Jane, of St. Catherines, Ont., 145 tons burthen. No other tidings have been heard of the vessel, and it is supposed she succumbed to the fury of the gale in which the E. P. Dorr went down. There is little doubt that her crew met a similar fate. She was owned and commanded by Captain P. Flannigan, who leaves a wife and family in Toronto, Ont. Deputy Collector Williams has secured the papers and made a report substantially as above to the Government, The wreckage from the E. P. Dore continues to wash ashore between Buffalo and Port Colborne. There is some speculation as to whether the masts reported above water by the propeller Lake Ontario at Port Colborne could possibly belong to the Mary Jane. It is reported that the schoner Willie Keller is long overdue, but at present it is impossible to collect reliable information, as many vessels are in shelter at various points out of reach of telegraphic communication. No bodies have yet been found. The vessel was bound from Port Hope for Erie with telegraph poles, passing through the Welland Canal on Friday night, and left Port Colborne with a fair wind at 8 a.m. on Saturday. She must therefore have foundered on Saturday evening, as the wreckage was discovered early on Sunday morning.

PORT GOLBORNE, Nov. 23.—The schooner Mary Jane, which is reported lost off Dunkirk, left here about 8 a.m. on Saturday last, bound for Erie, with telegraph poles. A nice fresh breeze from the N.E., which was a fair wind for her, prevailed nearly all day, but towards evening it shifted to the south-west and blew a gale,

A TERRIBLE PANIC.

Escaping Steam in a New York Theatre—Many People Injured.

NEW YORK, Nov. 24.—The performance in the London Theatre to-day was interrupted by a false alarm of fire caused by escaping steam from a broken pipe. The building was crowded almost to suffocation. When the accident occurred an actress was singing on the stage. The cry of fire was raised, the actress fled, and a panic ensued. The musicians abandoned their instruments, on the main floor and in the galleries the occupants sprang from their seats and rushed to the aisles, leaving their hats, coats, and shawls behind. Women shrieked for help and men were seen attempting to walk on the backs and heads of the dense throng in their eagerness to escape. When the advance guard reached the doors they were broken open by the shock and several persons falling were trampled upon. The manager jumped on the stage and endeavored to assure the people that there was was no danger, but could not make himself heard. The engineer fought his way to the gallery and turned off the steam, after which the excitement subsided. The firemen and police had been called out and were needed to keep back the crowd clamouring for re-admittance. Many seats and chairs were broken. Joseph Flagg was trampled on, and became unconcious. McCabe, a young man, had his ankle sprained. Richard McCarthy fell from the gallery stairs, and was trampled on and severely bruised. Robert Phillips was severely injured on the head and chest, having been knocked down. Edward Peters, engineer, while endeavoring to turn off steam, was knocked down and severely hurt in the abdomen. B. W. Skinner was hurt on the knee and thigh by one of the actors jumping on him. Morris Spread was kicked in the abdomen and had his face badly scratched, Charles Yonkers was bruised and injured by being trampled upon.

DELAYS ARE DANGEROUS.

The Sad Experience of a Young Farmer in Frontenac County.

KINGSTON, Nov. 24.—The *Whig* relates the story of a young farmer residing near Petworth, who for a long time courted a comely village maiden—so long that she wearied of his attentions, and determined to make him propose marriage or cease courting her. She dropped numerous hints, but "William" failed to approach the subject. Another suitor appeared on the scene. He was earnest in his purpose; so was the young woman. He saw enough to convince him that success lay in prompt and decisive action, and reasoned "now or never." A proposal was made and accepted, and there being unanimity of sentiment upon the great central thought the settlement of details consumed but little time. The twain decided on marriage, to accomplish which they set out for a neighboring village. The discarded lover informed of what was going on, then became excited, and set out in pursuit to prevent the nupials. He followed from place to place, only meeting with want of success. The feeling grew upon him that he was a defeated man. Those whom he chased had their misfortunes. At Harrowsmith and Sydenham they failed to get a license, but at Wilton they obtained that which they had sought, and also procured the services of a clergyman to perform the ceremony. One young man is left to reflect upon the danger of delay, realizing too late that woman's affections are not to be trifled with.

TRANSATLANTIC TRAFFIC.

A Large Addition to the Fleet of Steamers Next Year.

MONTREAL, Nov. 23.—There will be a large addition to the steam fleet from this port to Great Britain and the continent next year. The The Dominion Steamship Company is building three large iron vessels on the Clyde at present, two being four thousand tons each, the Sarnia and Oregon, and one of nearly six thousand tons, to be called the Vancouver. The steamers are specially intended for passenger service. The Sarnia and Oregon will be launched in January and will make their first trip early in the spring. The Vancouver will be on the route next summer. The Allan Company have contracted for another leviathian iron steamer, a companion to the Parisian, but of still greater carrying capacity. She will be 500 feet keel, 52 feet beam, 37 feet 3 inch deep, 6,597 tons register, and 7,000 horse-power. She will be named the Athenian. The Thompson line will increase their sailings and add one or two new steamers to their present fleet. The White Cross line to Antwerp, will add one steamer to their fleet, and should a large German immigration take place they will have weekly sailings. The new French line from Havre will commence operations early in the spring with a fleet of seven steamers.

COBOURG.

CHURCH DEDICATION.—The *World* says that the new brick Methodist Church at Bethel, in the Township of Hamilton, was dedicated for worship on Sunday last. Sermons were preached morning and evening by Rev. A. Browning, of Newmarket, and in the afternoon by Rev. W. H. Laird, of Port Hope. The congregations were very large, and the services of the greatest interest. The dedication took place at the close of the afternoon service,—Rev. Messrs. Laird, Craig and Cowning assisting in the ceremony. The church is a beautiful little edifice, 32x50 feet., with a choir above in the rear. It is of red brick, with stained glass windows, a handsome pulpit, and seats of the most modern style. It is declared to be one of the prettiest country churches in this section. Cost, nearly $3,000.

FIRE.—On Sunday night, a few minutes after 11 o'clock, a fire was discovered in the stable of Pratt & Bro., on Covert street. The Brigade turned out at once, and No. 2 Company soon had a stream on the flames and held them in check. Afterwards, on the arrival of the steamer the fire was drowned out. The building was destroyed, though not entirely consumed; and the contents, hay and feed and sundry other property, were lost. Fortunately the horse and cow were not in the building. The fire appears to have been the work of an incendiary, and any one who could apply the torch on such a windy night as Sunday night deserves little short of hanging. We think the Council should offer a substantial reward, say $500, for the discovery of the perpetrators of this and recent similar outrages.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

OMEMEE.

AN OLD SETTLER GONE.—The *Herald* says that Mr. Wm. English, of Lot 5, Con. 6, Emily, died at his residence on the 18th Nov. Mr. English was one of the oldest residents of the township, having arrived here in 1842, and settled on the above lot, where he has lived ever since. He was born in the county of Fermanagh, Ireland, and was 93 years of age when he died.

CRANE.—Mr. James Evans, proprietor of the Omemee foundry, has erected a large crane at the east end of the foundry, for lifting heavy machinery in and out of the shop. The cost of its construction will be about $100, and it will lift ten tons.

NORWOOD.

HOME AGAIN.—The *Register* says that F. W. Wilkins, Land Surveyor, &c., who left here for the North West in August last has returned, having completed his survey of some eight townships. His assistants, who were young men from this locality, remain to push their fortunes there. He gives a very favorable report of the country, and intends to return shortly.

LARGE CONTRACT.—Mr. M. Nicoll, carriage-maker, etc., of this place, has taken a contract from Rathbun & Son, to build sixty set of bobsleighs, for use during the coming winter. Mr. N. has put on a large number of workmen and is rushing the work through with all possible speed.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

FOR SEVERE COUGHS AND LUNG COMPLAINTS. —From A. J. Merritt, of Canton, Pa.—Gentlemen,—About ten years ago, after having had a severe attack of the measles, I was troubled with a severe cough and was threatened with consumption. My father having died at the age of 31 with consumption of the lungs, and my aunt having been carried off with the same complaint, it seems to be hereditary in our family. At the time alluded to, I was induced to buy a bottle of Dr. Wister's Balsam of Wild Cherry, and can say conscientiously, I believe it saved my life. I was blacksmithing at the time, and often felt pains in my chest and lungs, which the Balsam relieved. I cheerfully give this statement, and hope you may have success with so beneficial a preparation. 50 cents and $1 a bottle. Sold by all druggists.

Some Plain Talk to Sensible People.

NEWS!

Now that the secret's out, we are asked some fifty times daily,—"When are you going to Winnipeg?" We are NOT *going to Winnipeg, for good and sufficient reasons.*

We had some time ago made all arrangements to take up a retail trade there and had contracted with property owners to put up for us one of the finest business places in that city. Owing to alterations in the plans of the capitalists, a block of wholesale buildings are being erected where our retail premises were to stand.

After diligent enquiry. and offering the inducements of an enormous rent, we have been unable to provide ourselves with a suitable location. We have now abandoned the idea of leaving Peterborough at all and shall remain her permanently.

Under the impression that our arrangements with the Winnipeg people were beyond doubt, we concluded an agreement to dispose of the balance of our Stock here on the first of February next, and will therefore have to leave the premises we now occupy. We shall consequently move on that date to our future Store, THREE DOORS NORTH of our present stand.

Our old customers, and, we hope, many new ones, will then find us in one of the most convenient and pleasant places to purchase in town. Our new Store, (Stethem's old one) will be fitted up in the handsomest manner, with every improvement that experience can suggest. It is our intention to carry on the MILLINERY and MANTLE Departments more extensively than hitherto, and we shall put in a Stock of the freshest and most fashionable kind.

Daily Evening Review

SATURDAY, NOVEMBER 26, 1881.

LOCAL AND MUNICIPAL.

Waterworks.

Although very little is said about the matter, the gentlemen composing the Peterborough Water Company are not at all idle, but are working away quietly. The covenant has been signed, and will soon be presented to the council. We learn that satisfactory arrangements have been completed for a supply of good, pure, wholesome water. A sample of the water from the place where it is at present proposed to draw it from, is to be bottled, sealed and sent to Prof. Ellis, of Toronto, to be analyzed, his report to be sent to the town council.

A company has been formed in Stratford to supply that town with water. The by-law, as printed in the *Herald*, is very similar to ours. The *Herald* advocates the addition of a number of clauses, identical with those in our by-law, and unless the *Herald's* suggestions are adopted the town has no guarantee worth speaking of.

The Weather.

The weather has every appearance and feeling of winter. A sharp, cold wind and the ground covered with snow, sparsely it is true, put one in mind of the months that are yet to come. Snow commenced to fall during the afternoon, and at intervals, it fell all night, in sufficient quantity to cover the earth to the depth of an inch or two, and our citizens this morning had the first opportunity this season of carrying out the provision of the snow by-law. The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company are as follows:—Lakes—Fresh to strong, south-westerly to north-westerly winds. Fair to cloudy, slightly colder weather, with flurries of snow in some localities.

An Enterprising Firm.

The Campbellford *Herald* truly remarks as to an advertisement from the firm of Wilson & Davis, Peterboro', which appears in its columns. "Business men who venture on a large outlay for advertising in papers outside of their own town give evidence of enterprise, and are certainly little afraid of competition. We never saw the establishment of the above firm, but we need no other proof than this we have referred to, to convince us that it is one where purchasers will obtain the best value for their money."

For the Woods.

The Lindsay *Post* says that a gang of some forty-six men for the woods north of Haliburton passed through Lindsay on Monday. They were under the dictatorship of Mr. T. Cavanagh, of Peterborough, who seems to have the confidence of the various lumber firms in the matter of hiring the hands. The contingent is, we are told, only a part of the number who will work for Messrs. Irwin and Boyd, whose shanties are rapidly filling up.

Peterborough Club.

At the annual meeting of the members of the Peterborough Club, the following officers was elected for the ensuing year:—

H. C. Rogers.....President
C. H. Sheffield.....Vice-President
E. J. Toker.....Treasurer
R. E. Wood.....Secretary

COMMITTEE.—T. P. Attrill, J. E. Belcher, W. H. Budden, E. H. D. Hall, H. B. Merrick, C. A. Weller.

Breakers Ahead.

An exchange trembles with apprehension since it has been ascertained by a German chemist that "first-rate brandy can be made from sawdust," "We are friends," it says, "of the temperance movement, and want it to succeed; but what chance can it possibly have when a man can take a rip saw, and go out and get drunk with a fence rail?"

A Contradiction.

The report of the marriage of Mr. William Hopkins is untrue. The account was brought to us on what seemed to be very good authority, but it proves to be another case of very reprehensible practical joking.

St. Andrew's Sermon.

The Rev. Mr. Torrance, of St. Paul's Presbyterian Church, will preach the annual sermon to the members of the St. Andrew's Society, on Sunday evening, 27th inst. A special collection, in aid of the funds of the society, will be taken up.

"Nor-West Ale."

On tap at the Croft House, Calcutt's "Nor-West" Cream Ale, finest ale ever drawn in Peterborough.

POLICE COURT.

AN ASSAULT CASE.

SATURDAY, Nov. 56.—James Watson, one of that roving band, commonly known as "the tinkers," appeared to answer a charge of assault, preferred by his wife.

Prisoner was arrested (on a warrant) by P. C. McGhee, yesterday afternoon, and was kept in the cells until this morning. He has been before the Magistrate before.

As the prosecutrix did not appear, prisoner was remanded to gaol until Wednesday next at 10 a.m.

The Market.

The attendance at the market was larger than it has been for some time, and the spirits of the genial market clerk rose higher than for weeks. This season is about the time that his harvest sets in in earnest, and as he pays a high figure for the tolls he is obliged to look closely after the collection of the fees. The produce offered was of a general and varied character, you could procure almost anything that is ever sold on the square, of different grades of excellence and at different prices. Pork is coming in in large quantities and sells at our quotations, as does almost everything else, there being no change in prices worth nothing. Grain was not offered in any quantity. Butter was rather plentiful as were fowls. Apples and potatoes were in good supply. The rule requiring people having butter, eggs, etc., to dispose of from baskets, to go up stairs over the market building is a good one, and one that works to the advantage of both buyer and seller, although many of the latter fail to see it in that light, and state that they cannot realize as good prices as when down stairs, shivering in the cold. We are inclined to think however that as soon as the winter fully sets in, and people get accustomed to going upstairs to make purchases, the sellers will find a difference, and acknowledge that the authorities were working for the best when they made the rule.

Lumbering Notes.

The great majority of the shanties in the back country districts are now in full blast. Nearly all have a larger number of men at work than they had last season.

Men and supplies are going up almost daily, and as soon as we have a good fall of snow, the "cadging" will commence. When leaving town the men appear to like the prospect of a winter in the woods, and they generally drive up in crowds, singing merrily all the way.

A Warning.

The editor of the *Times* seems much afraid that the editor of the *Examiner* may be contaminated by taking a seat at our Town Council board. We regret to learn that our neighbor had such unfavorable experience of our civic fathers, when he sat amongst them.

"Fated to Marry."

The above is the title of a very interesting novel, by May Agnes Fleming, just issued by the Toronto News Company. It is another of their marvellously cheap works, the price being only 15 cents. It can be procured from your booksellers.

New Goods.

Use the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

Personal.

J. W. Leonard, General Traffic Agent for the Credit Valley Railway, and J. A. Richardson, Canadian Passenger Agent for the Union Pacific Railway, are registered at the Caisse House to-day.

Town Council Meeting.

A special meeting of the Town Council will take place on Monday evening next at 7.30 o'clock.

Oysters! Oysters! Oysters!

Fresh oysters by the plate, raw, stewed or fried, at the St. James Hotel and Restaurant.

Death of Miss Bell.

BELLEVILLE, Nov. 24.—Miss Helen Maria Bell, second but eldest surviving daughter of Mr. John Bell, died at 11 o'clock last night from the effect of injuries received by being thrown from a carriage on Thursday of last week. The injury consisted of concussion of the brain, caused by her head striking against the edge of the sidewalk in her fall. This caused unconsciousness, from which the patient never rallied. Miss Bell, who was but 21 years of age, was highly esteemed for her amiable disposition, and her death has cast a gloom over the city.

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. Now to give you satisfactory proof that Green's August Flower will cure you of Dyspepsia and Liver Complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Fullness at the pit of the stomach, Yellow Skin, Coated Tongue, Indigestion, Swimming of the Head, Low Spirits, &c., we ask you to go to your druggist and get a sample bottle of Green's August Flower for 10 cents and try it, or a regular size for 75 cents. Two doses will relieve you. 2d1w-1y

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

No pearl is whiter than her teeth,
While her soft lips the roses dye,
For Sozodont is her delight,
It keeps those charms so pure and bright.

FROM ALL OVER.

THE highest point reached by any railroad is 16,646 feet over the Andes. 853 gross of Esterbrook's Bank pens would stretch the distance.

FELLOW'S SYRUP OF HYPOPHOSPHITES supplies matter for bone and blood, rendering it highly beneficial for feeble children.

THE St. Catharines *Journal* devotes considerspace to the discription of a petrified partridge owned by a gentleman in that city, and which is thought to be a wonderful phenomenon.

FOR SICK HEADACHE AND SEA SICKNESS.—Take a teaspoonful of Perry Davis' Pain-Killer in hot water, sweetened with loaf sugar, every hour until relieved.

THE Bishop of Saskatchewan, has received $520 in London, Ont., in aid of Emmanuel College diocese of Saskatchewan. His efforts in other quarters are also meeting with encouraging success.

THE clerk of the Brocton House, Brocton, Mass., Mr. Alfred S. Backus, writes that he was almost immediately cured by St. Jacobs Oil of a severe case of rheumatism.

THE Duke of Cambridge, commander-in-Chief of the forces, has drawn up a minute partaking of the nature of a protest against the changes in the army introduced by Hon. Hugh Childers, Secretary of State for War.

THE Rev. Mr. Hasskarl, the German minister at Montreal, who levanted a few weeks, since is not likely to come back without giving an apology to Carl Whitman, the German who accuses him of having insulted his wife.

A FEW days ago a mother in Quebec had some reason to surpect that her daughter was going astray, and found upon investigation that she had improper relation with a Pullman car porter. The man was immediately dismissed from the service of the company.

THE Montreal Ladies Immigration Society, formed for the purpose of introducing female help from Europe, having laid their plans before the Minister of Agriculture, the latter has promised all the assistance and aid in his power to further the movement.

A NEVER FAILING SOURCE OF WEALTH.—It can be proven, the world over, that the grower of live stock, whether poultry or animals, who mixes Harvell's Condition Powders with their feed, realizes twenty per cent on their value more than he who foolishly ignores these great specifics.

MR. WM. MCCRACKEN, of Caradoc, and his son were putting a fence around a straw stack one day last week. The son was driving stakes when his support gave way causing the blow to descend on the father's head. He lingered for a few days and died from the effects of the blow.

A MR. FRASER, of Toronto, who landed in Manitoba about a year ago with $890 in his pocket, purchased a piece of ground for a homestead, but the proximity of three branches of railroads induced him to lay out a portion of the ground in lots. These were sold, and Mr. Fraser has realized about $25,000 from the sale.

A GENERAL STAMPEDE.—Never was there such a rush made for Drug Stores as is now at Taylor & Macdonald's for a trial bottle of Dr. King's New discovery for Consumption, Coughs and Colds. All persons afflicted with Asthma, Bronchitis, Hoarseness, Severe Coughs, or any affection of the Throat and Lungs, can get a trial bottle of this great remedy *free*, by calling at the above drug store.—4

WHILE the steamer General was towing two vessels to Fredericton her anchor by some means lowered and she ran against it with such force as to punch a whole in her bottom. The captain very judiciously put on full steam and beached the sinking vessel before she had time to fill. The General now lies in about four feet of water. Captain Daniel Topley, one of the owners, received a telegram about the accident, and he proposes this morning to leave with a steam pump, and he expects to bring the steamer to St. John.

TRUE TO HER TRUST.—Too much cannot be said for the ever-faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost 50 cents. Sold by Taylor & Macdonald.—4

SULPHOLINE LOTION.—AN EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

CANADIAN TELEGRAMS.

ST. JOHN, N. B.

Special to the Review, Nov. 28

A FIRE this morning destroyed St. Mary's Episcopal Church Sunday School on Waterloo street and Mrs. Spencer's dwelling house on the city road. The former was insured in the Liverpool, London and Globe and in the Northern, $1,000 in each. The latter was insured for $600 in the Imperial. The school trustees had $600 insurance in the Imperial on school apparatus etc., on the sunday school building.

RICHARD MCCARTHY, a farmer, partially insane, committed suicide in the woods by shooting himself in the heart.

N. BEAUDER was drowned by falling into a stream which he attempted to cross on the ice.

QUEBEC.

Special to the Review, Nov. 28.

THE TEMPERATURE early this morning was 15 degrees below zero.

THE JOINT LETTER of the Bishops, adopted in 1876, condemning bribery, perjury and other abuses prevalent in time of elections and exhorting the electors to vote according to their consequences, was in accordance with the instructions therein contained, read from the pulpits of all the Roman Catholic parish churches in the province at the mass yesterday.

A SERVANT employed by Mr. Perry Ganvraux of this city, Josephine Leraux, recently received information from a reliable source of the sudden death of a younger sister employed in a cotton factory at Lawrence, Mass. She accordingly donned a mourning garb, but what was her surprise when on Wednesday she received a letter written in the hand-writing of the sister she had supposed was dead. From the letter she learned that her sister had been ordered by her physician to use chloroform to induce sleep, and taking an overdose, had been overtaken by sleep so profound that it was thought she was dead. She was accordingly prepared for burial, and the mass for the repose of her soul was offered up. All in the church were horrified by hearing a scream from the coffin. It was immediately opened and the young woman was taken to the Bresbytery adjoining the church, where, under strict attention she quickly recovered, and is now on her way to her birthplace, Quebec.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

MILITARY INCREASE.

BERLIN, Nov. 28.—The German military estimates include pay for 300 additional lieutenants and 2,200 non-commissioned officers.

OUTRAGES IN IRELAND.

LONDON, Nov. 28.—A Dublin correspondent says that some more effective means must be found to restore order, unless the Government is prepared to let the country drift into absolute anarchy and revolution. The accounts received daily of outrages of various kinds do not fully represent the truth. In County Clare alone, several houses were fired into last week, of which outrages no reports have been published. Resistance to payment of rent has not in the least abated but rather increased.

VESSELS WRECKED.

LONDON, Nov. 28.—Four vessels are ashore near Carnarvon. Two barks and a schooner, anchored near the same place, were abandoned during the night and are supposed to be wrecked.

AMERICAN.

ORDER IN COURT.

WASHINGTON, Nov. 28.—Judge Cox said last night that he would do all in his power to assist to keep order in court and to keep Guiteau quiet. A judge in a criminal court had no right law in for restraining a prisoner on trial for his life from making any demonstrations he chose to make, except they amounted to actual violence to those around him.

THE GUITEAU COSTS.

WASHINGTON, Nov. 28.—Marshall Henry says that Guiteau's trial will cost the Government not far short of $150,000.

THE PRESIDENTIAL MESSAGE.

WASHINGTON, Nov. 28.—The President is said to have finished his message and it is understood to be short, and while reviewing the events of the year, is meagre as to recommendations, as might have been expected, considering the youth of the administration.

CALDERON RECOGNIZED.

NEW YORK, Nov. 28.—Despatches received at Washington announce the recognition of the Calderon Government by Col. Casiers commanding the Peruvian force in the central department of Peru, upon which Piesola's last hopes had hitherto rested.

INSANE OR SANE.

WASHINGTON, Nov. 28.—Yesterday experts in insanity went to the gaol and spent two hours with Guiteau, drawing from him his story of his life, which he gave very fully. Last evening the experts held a meeting and questioned Scoville, John W. Guiteau and Kerrick, who has for several years pronounced Guiteau insane. After this the experts remained in private council until a late hour. It is understood that the proceedings were informal, and that there exists a wide difference of opinion among them in regard to the responsibility of the assassin.

SETTLING A MEAT BILL.

UNIONTOWN, Pa., Nov. 28.—Ellis Peters probably fatally struck John Patterson with a stove lid on Saturday evening because Patterson dunned him for a meat bill in the presence of other people.

A BIG BLAZE.

PETERSBURG, Va., Nov. 28.—A factory containing 14,000 pounds of sumac leaves was burned yesterday; loss $20,000.

RAILWAY CONSOLIDATION.

CINCINNATTI, Nov. 28.—It is stated that the Vanderbilt-Jewett controversy has been amicably settled and that all objections to the consolidation of the Cincinnatti, Hamilton and Drayson, and of the Cleveland, Columbus, Cincinnatti and Indianapolis railways, under the name of the Ohio railway have been withdrawn.

TERRIBLE DEATH.

NEW BRUNSWICK, N. J., Nov. 28.—Swanser Schorck aged 70, being suffocated by gas from a lime kiln last night, fell into the pit and was burned to a crisp.

WINES AND PORK.

WASHINGTON, Nov. 28.—It is thought that the French Government has been induced to remove the restrictions on the importation of American pork by the fear that this Government might place restrictions upon French wines.

HEAVY CLAIMS.

NEW YORK, Nov. 28.—It is stated that the claim filed under the arrears of pensions, aggregate more than $2,000,000.

PUBLIC OPINION CHANGED.

NEW YORK, Nov. 28.—The *Tribune* says that the assassin's counsel and family state that the tone of the letters received by them has changed greatly with the public opinion within the past two weeks. They detect more pity for the prisoner, based on the belief that he was not sane and more sympathy for the effort made by them to save him from the gallows.

FURNACE BURNT.

CECIL Ohio, Nov. 28—Spaulding's iron furnace was burned yesterday. The loss is estimated at $60,000. Five hundred men are thrown out of employment.

GUITEAU'S DEFENCE.

WASHINGTON, Nov. 28.—When Guiteau is placed on the stand on Tuesday he wants to tell his own story in his own way. He will say a great deal about his inspiration and about the political quarrels. Scovelle will probably claim after Guiteau's story has been told that the Government should prove the assassin to be sane, if this point is over-ruled, or if he does raise it he will proceed with the examination of expert witnesses to prove his brother-in-law's insanity. The family of the accused expect a verkict of acquittal on the ground of insanity. Scovelle will defend the case to the best of his ability although the counsel expect a verdict of guilty.

EMBEZZLING FUNDS.

NEWARK, Nov. 28.—Richard Hawkins has been found guilty of embezzling the funds of Carter, Hawkins & Co., jewellers for whom he was book-keeper. Hawkin's father formerly a member of the firm has been indicted on a similar charge.

SARA STONED.

ODESSA, Nov. 28.—A Jew-baiting mob stoned Sara Barnhard's carriage as she was driving to the theatre on the ground that she was of Jewish decent. They also stoned her hotel and stopped her performance at the theatre.

ELECTED FROM GAOL.

DUBLIN, Nov. 26.—The Mayor of Drogheda, candidate for re-election, was defeated by Mangan, an imprisoned suspect.

THE LAND COURT.

DUBLIN, Nov, 26.—In consequence of the increase of pressure in the business of the Land Court the Government intend to appoint additional sub-commissioners.

SWEARING TO RESIST.

VIENNA, Nov. 26.—"The Krivoschians took an oath on Sunday in church to resist the Austrian military law."

UNSATISFACTORY APPOINTMENTS.

LONDON, Nov. 26.—The Legislative Council at Durban has unanimously passed a vote expressing dissatisfaction with the appointment of Mr. W. J. Sendall, Assistant Secretary of the Local Government Board of London, as Lieutenant Governor of Natal, and expressing a willingness to vote an increased salary to secure the services of an experienced official.

THE PLAGUE SPREADING.

CONSTANTINOPLE, Nov. 26.—A disease which is believed to be the bubonic plague has broken out in the Witze district of Lazistan, Asiatic Turkey. Five deaths therefrom have occurred in ten days. A cordon has been established, and doctors have been sent.

IMPORTANT PAPERS.

DUBLIN, Nov. 26.—Philips, arrested yesterday under the Coercion Act, recently fainted in streets, and the papers in his pocket were abstracted. It is believed the papers were forwarded to the Castle Officials. Although not a member of the League it is stated that Philips has acted as a paymaster since Dr. Kenny's arrest.

KILLED BY HIS GUN.

PARIS, Nov. 26.—Guizot's grandson, M. Robert de Witt, was killed recently while hunting. The hammer of his gun caught while he was going through a hedge, and the piece was discharged, blowing off the top of his head.

SAVING THEIR RENTS.

CORK, Nov. 26.—The amount lodged in the Savings Bank here the present year is the largest since the famine years.

THE SNOW BY-LAW.

To the Editor of the Review.

DEAR SIR,—I have seen many communications in your valuable paper under the above heading, but "Pedestrian," in your issue of Saturday, 26th of November, 1881, says in effect:—

"I hope our City Fathers will, at their meeting on Monday evening next, pass a new Snow By-law, to cover the whole of the town limits." To this proposition I think the majority of the ratepayers can have no reasonable objection and would willingly pay a small tax for the purpose of clearing the sidewalks of snow. This should be done by the Corporation, under the superintendance of the Street and Bridge Committee or the Street Inspector, by means of a horse and a properly constructed scraper or snow plough. Now if this is done effectively, once or twice a week, or every time we have a snow fall of two inches or upwards, and done at trifling expense to the public, we have a solution of the whole "Snow By-Law" difficulty.

I hope the Council will pass a new Snow By-Law, embodying the above or similar provisions for every ratepayer, no matter what his occupation may be, requires rest outside of working hours—but if not, he should have better employment than taking by compulsion, under an arbitrary By-law, a shovel, and by a laborious and slow process, removing the snow from the front of his lot for the accomodation of the public—which labor could be done quickly and effectively at a trifling expense.

Yours, etc.,
PROGRESS.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

JOHN CORNWALL, ESQ., agent to the Count de Boisey, Paris, attended on November 1st, at MacMahon's hotel, Kildysart, to collect rents on the Count's estates in that districts, but received none. About 100 of the tenants went in a body to the agent and said they would not pay no rent until Mr. Parnell and the other suspects were released.

ABURDEN, Miss., Nov. 28.—On Saturday four men with a waggon started *en route* for Arkansas. When three miles west of here on Sunday, they were found lying on mattrasses in a shanty dead. They were covered with quilts and their heads were split open as with an axe. There is no evidence of robbery.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of nasal catarrah, bronchitis, asthma and weak lungs, by using Dr. Souvielle's spirometer, an instrument which conveys medicinal properties direct to the seat of the disease. The doctor will be at the Oriental Hotel, Peterborough, on Tuesday the 19th instant, and three following days. Sufferers can try it free.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and, mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

ST. ANDREW'S SOCIETY.

THE ANNUAL SERMON PREACHED BY THE REV. E. F. TORRANCE.

St. Paul's Church Filled with a Large Congregation—An Earnest Discourse by the Pastor—Privileges and Warnings.

On Sunday evening last the Rev. E. F. Torrance, of St. Paul's (Presbyterian) Church, delivered, by request, the annual sermon before the St. Andrew's Society. The church was filled, there being fully six hundred persons present.

Rev. Mr. Torrance took for his text the 5th and 6th verses of the 137th Psalm as follows:—

5 If I forget thee, O Jerusalem, let my right hand forget *her cunning.*

6 If I do not remember thee, let my tongue cleave to the roof of my mouth; if I prefer not Jerusalem above my chief joy.

Although we are not able to give the full sermon *verbatim*, the following synopsis will be interesting to our readers. The reverend gentleman said:—

I feel some perplexity as to the form which my St. Andrew's Society sermon should take this year. I thought at first of preaching upon the claims of the poor, but remembered that this subject is often referred to on other occasions. I looked in Scripture to see if there was warrant for saying something about Scotland. I found such passages in the Psalms as "We have heard with our ears O God." "If I forget thee O Jerusalum," Paul's words "I am a man which am a Jew." The Psalmist delighted to hear of the wonderful things which God did in the olden time. The exiles in Babylon could not forget their native city. Paul in his defence was glad to say that Tarsus was his native place. If it is yours then, to belong to a land which has been highly favoured it would seem in accord with Scripture to remind you of some of these privileges, that gratitude may be awakened in your hearts. The exiles in Babylon had strong reasons for remembering Jerusalem. There were a thousand hallowed associations clustering around Jerusalem. It was the city of their solemnities, the city whither the tribes went up to give thanks unto the name of the Lord. In it was the Temple where the priests offered sacrifice, the temples where was the Schichinah, or manifested presence of Jehovah. It is true that you are not like those exiles in Babylon. You may worship the God of your fathers just as you did in your native land; you enjoy the highest kind of civil and religious liberty in this land of your adoption. Still, there are reasons why you should remember your native land.

I. Consider the Land itself. It is small in comparison with other lands. It cannot boast of so bright a sky as Italy or so salubrious a clime as other places. But it has great natural attractions. Travellers from all parts visit its lakes and mountains and are enchanted by the varied beauty of the scenery. As the German looks with pride upon those parts of the Rhine whose beauties have been celebrated by the immortal Schiller, so the Scotchman looks with pride upon those parts of the Highlands which have been described so beautifully by the author of The Lady of the Lake. If there is anything in nature calculated to lift the soul up to God—anything calculated to kindle the faint embers of lingering nobility in fallen man, it is the sight of beautiful scenery. As we view from afar a chain of mountains, whose snow capped peaks rise far above the clouds—as we sail over a lake, whose placid waters reflect the rays of the setting sun—as we stand beneath the shadow of a great tree, whose spreading boughs have endured the blast of many a storm, we have had new views of the goodness and the power of God. The scenery in the Highlands of Scotland is inferior to no scenery in any part of the world. Soft and beautiful as is the scenery of the English lakes, grand and majestic as is the scenery of the Swiss lakes, there are none which have a greater combination of charms than Loch Lomond and Loch Katrin. When we think of the land itself, we may say in the words of the Psalmist, "If I forget Thee. Oh Jerusalem let my right hand forget her cunning."

II. Consider the History of the Scottish people. "Oh Jerusalem, let my right hand forget her cunning." As we read the history of Scotland from earliest times we find that the Scotch have ever been a valiant people—a people who loved liberty and who were ready to die rather than be enslaved. Every school boy is acquainted with those periods in Scottish history where efforts were made to bring Scotland into submission to the English crown. Though the land was invaded again and again by large armies, though one of the mightiest of English monarchs and the flower of English nobility tried their utmost to conquer Scotland, their efforts utterly failed. The names of William Wallace and Robert Bruce are enshrined in the hearts of Scotchmen because they appeared as true patriots to deliver their land from a foreign yoke. And not by force of arms, but by the right of succession, was Scotland joined to the English crown.

III. Consider the Literature of Scotland. The very closest relation exists between a nation's history and a nation's literature. A nation's literature grows out of a nation's history, so that a nation without a history would be a nation without a literature. And as the early poetry of nations has had for its subject the martial deeds of its heroes, Scotland has produced great men in every department of literature. She has produced great poets, Burns and Scott. She has produced great philosophers, Reid, Stewart and Hamilton.

IV. Consider the Religious History of Scotland and her great Reformers and Preachers. Her religious history is still more interesting than her political history, and great as have been her poets, orators and philosophers, her reformers and preachers are still greater. In previous sermons I have referred to some of the great men whom God raised to reform the church. I have told you something about Knox, Scotland's great reformer. Born in 1505, he studied in the grammar school of his native place, went thence to St. Andrews, where he studied philosophy and the early Christian fathers. He was carried off as a prisoner to France, where he worked as a common galley slave; he then escaped to England where he attracted attention by his preaching in different parts. He then went to Geneva, where he became intimate with Calvin. Returning to Scotland at the request of some of the nobility, he began to preach against the mass. He was much opposed by the Queen Regent, but her death caused a short breathing spell, during which he was appointed minister in Edinburgh. The Reformation was again frustrated by the arrival of Queen Mary from France, and her determination to establish Popery in the land. Many were the skirmishes between Knox and the Queen. He died in 1572 and was burried in the churchyard of St. Giles. During the period following the death of Knox, the ruling monarchs sought to obtain control over the church and to force Episcopacy upon an unwilling people. In 1605 King James sent a messenger at arms to dismiss an assembly at Aberdeen, and when the ministry adjourned to meet again he sent fourteen of the most eminent of them to prison. On the accession of Charles I, the Book of Canons was prepared, which forbade a general assembly or any other meeting of ministers unless especially called by the King. The Scottish people were not willing that their ministers should obey any such command, and in 1638 a solemn covenant was signed at the Grayfriar's church in Edinburgh, in which they determined to put away all idolatry, superstition and immortality, and to worship God in simplicity and faithfulness according to His word. Charles thought that he would put down all opposition by raising an army and invading Scotland, but he met with such a vigorous opposition from the Covenanters that he was obliged to make a treaty of peace and agree to submit all ecclesiastical matters to the next general assembly for settlement.

But we must now come down to later times and say a word about that great historical event, the Disruption in the Church of Scotland. As the age of Elizabeth was the golden age of English literature, so the first half of this century was the golden age of sacred eloquence in the Scottish pulpit. Then God raised up a long line of preachers, who by their piety and earnestness, were instrumental in doing much good. There are three names which shine forth prominently in this long line—Chalmers, Candlish and Guthrie. They took a leading part in that movement, which led to 400 ministers giving up their livings rather than suffering interference with their spiritual rights. It is said that when Jeffry saw those ministers leave St. Andrew's Church in a body, that he said "I am proud of my countrymen." When we think of the land itself, its history, its literature, its great reformers and preachers we may say with the psalmist if "I forget thee O Jerusalem let my right hand forget her cunning."

I have said this much in praise of the land which you love so well; I would not conclude however, without some words of warning. There seems to be a tendency on the part of some Scottish ministers to disregard that book to the study of which, above everything else, Scotland owes its material, intellectual and political greatness. The Rationalism of Germany seems to be finding its way into Scotland and to be superceding those grand old doctrines which the Reformers and the Disruption ministers so faithfully preached. The drinking customs also, which prevail in Scotland are terribly injurious to the nation's welfare. To walk along the High street of Edinburg on a Saturday afternoon and see women with babies in their arms, going in and out of the brightly lighted gin palaces to see men reeling in frenzy along the streets, is a sight sad enough to make an angel weep. If the Bible continues to be less regarded, and if the drinking customs continue to increase, who can tell what the result may be? Perhaps in the not far distant future some one may stand upon the Calton hill or upon Arthr's seat, and behold Edinburg, that queenly city, an utter ruin. Let us then determine to honor the word of God and set ourselves against that traffic which is slaying its thousands.

A collection was taken up at the close of the sermon, in aid of the funds of the Society.

It will be seen by reference to another column that members of the Society, and all Scotchmen, desirous of celebrating "St. Andrew's Nicht," are to meet at A. P. Morgan's Hotel, at 8 o'clock on Wednesday evening, 30th instant.

GREAT STORM IN EUROPE.

The British Isles Swept by Terrible Gales —Many Lives Lost at Sea.

LONDON, Nov. 25.—A storm has raged with terrible violence since Tuesday night. At Stornoway the sea broke over the beach and invaded the street. Eight fishing boats were dashed together and destroyed. At Blackpool the sea swept through the windows of many houses, and cabs were blown over. The sea rushed down the street, one thoroughfare was six feet under water. At Portadown the roofs of houses were carried across several streets. At Sligo a schooner was blown ashore and a bridge partially destroyed. At Derryhead one Moran was killed by his house being blown down. Part of the roof of the railway terminus at Limerick was carried away. Similar reports have been reieved at Newry, Lurgan, and elsewhere. At Dublin the storm was the severest known for many years, and at Spiddal, County Galway, it was the worst experienced for half a century. Numerous marine casualities are reported. The bargue Barbara, from Rangoon for Liverpool, was totally wrecked at Pembrokeshire, and the captain drowned. A brigantine was seen outside Ardrossan battling with the gale on Wednesday, but she foundered and the crew of seven or eight were probably lost.

SAN SEBASTIAN, Nov. 25.—The Spanish steamer Jovellanos, from Liverpool, foundered with all hands in entering the harbour. It is believed that fifteen persons were aboard. It is feared that numerous disasters occurred in the Bay of Biscay during the late storm.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

IRELAND.

IT is stated that one or more regiments returning from Natal will proceed to Ireland to relieve the marines.

LORD O'HAGAN has been made a Knight of St. Patrick, and is the third Roman Catholic Peer who has obtained that distinction.

Mr. J. J. O'KELLY, M. P., steadily refuses to see all visitors in Kilmainham, as he will not submit to the indignity of being put into a wire cage to be seen by them.

THE White Star Steamship Company have contracted with Harland & Wolff, of Belfast, for the construction of vessels which will, when delivered, aggregate 60,000 tons, and will cost nearly £2,5000,000.

IT is said that since Mr. Parnell has been incarcerated in Kilmainham he has received more slippers than a favourite curate, and more embroidered handkerchiefs than will last him for the remainder of his life.

THE tenants of the Nicholastown and Bray estate of Mr. Randal Macdonald, Dublin, assembled on Nov. 1st for the purpose of paying their rents. The tenants offered to pay Griffith's valuation, which was refused, and they all left not having paid anything.

IT is understood that the political suspects in all the gaols of Ireland have determined to go upon prison diet. The expense of catering for them is now £400 a week. The prisoners will no longer permit to be used for the purpose the money subscribed by America.

FOR SEVERE COUGHS AND LUNG COMPLAINTS.—From A. J. Merritt, of Canton, Pa.—Gentlemen,—About ten years ago, after having had a severe attack of the measles, I was troubled with a severe cough and was threatened with consumption. My father having died at the age of 31 with consumption of the lungs, and my aunt having been carried off with the same complaint, it seems to be hereditary in our family. At the time alluded to, I was induced to buy a bottle of Dr. Wistar's Balsam of Wild Cherry, and can say conscientiously, I believe it saved my life. I was blacksmithing at the time, and often felt pains in my chest and lungs, which the Balsam relieved. I cheerfully give this statement, and hope you may have success with so beneficial a preparation. 50 cents and $1 a bottle. Sold by all druggists.

LOVE AND MURDER.

A Man Who Coveted his Neighbour's Wife —Witchcraft Among Coloured Folk.

CHARLESTON, S.C. Nov. 25.—Henry Johnston was executed this afternoon at Sumter, for the murder of John Davis. A very large number of people were present. At a late hour on the night of the 10th of February last, Henry Johnst on was lodged in the gaol at Sumter, charged with murdering John Davis on the 5th of that month. The murdered man as well as his assassin, were both negroes. Johnston shortly after his arrest stated that he was in love with the wife of the deceased, a woman near twenty-five years of age, the prisoner being about forty; that she repelled his advances, and he sought the aid of a conjuror, one Orange Isaacs, an aged negro. The so-called conjuror gave him a charm—known in the language of negro witchcraft as a "hand"—composed of various articles, viz:—beas wax, fox hair, a little sand from the shoes of the person intended to be acted on, and a drake's foot, all sewed up in a small cotton bag. He was told to wear it next to his skin, over his heart, for one week, and the woman would love him. He did so, and at the end of a week reported to the conjuror that the woman had confessed her love for him, but had refused to accept him unless her husband separated from her. The conjuror afterwards gave Johnston another charm designed to alienate the husband from the wife. It was worn the prescribed time, but he reported that the woman and her husband continued to live happily together, and that the charm would not work. The conjuror replied that Davis must be possessed by a devil, and that he would give Johnston a charmed bullet, which he must put in his gun and fire at Davis' head as he passed from the wood in which he was working towards his home at sundown next evening. Johnston objected that if he killed the man the law would hang him if he were found out, His fears on this head were allayed by the conjuror giving him another charm, which he said would be proof against the law, and that no judge or jury could convict him while he wore it upon his person. Thus fortified. Johnston shot Davis through the head on the following evening, killing him instantly, and covering his body with leaves in the woods near the spot where he fell. He then proceeded to the house of the deceased, and was received and welcomed by the widow, and domiciled himself in the place of the dead man. Johnston was tried and found guilty of murder in the first degree. Before the sentence. that he was to hang on the 25th of November, was passed, he asked the Judge to give him as long a time to live as the law allowed. He asked the Judge "How would you like, your Honour, if you were in my place, to be hanged in a hurry?" Johnston always had hopes that the charm given by Isaacs woul keep him from being punished for his crime. His faith was strengthened by the fact that two of the jurors empannelled in the case were taken suddenly ill, that two others had to be substituted in their places, and by the sudden death of the Sheriff, a strong, healthy man, within three hours after the death sentence had been passed, and a few minutes after he had expressed his abhorrence of having to hang the man.

MEDICAL AND SCIENTIFIC.

MR. C, HAD A DESK in my office. Coming in one morning, he said to me, "Mr. G., I fear I have got the rheumatism in my chest, and I have just been to the doctor and he thinks so too." "What makes you think you have the rheumatism in your chest?" "Because I have pains under my shoulder-blades and elsewhere." Do you have pains in all these places at once, or now here and now there?" "No, not all at once, but now here and now there." "How long have you had these pains?" "Some three or four days." "Have you eaten any fresh pork lately?" "No, but I ate some sausages on Sunday." "Did you have any of these pains before you ate the sausages on Sunday?" "No, I don't remember that I did." "Did you tell the doctor this morning that you had the rheumatism in your chest? "Yes, and he thinks I have." "Well, my dear sir, you can have that kind of rheumatism any time you wish. You have only to take a good square meal of sausages, or fresh pork if you prefer it, and as soon as you begin to feel these pains here and there, go to the doctor and tell him your fears. He won't dispute you. He is a Christian gentleman. Why should'nt you know?' My friend, with an incredulous smile, turned to his desk; and though he came daily to his work for weeks afterwards, I heard no more of his rheumatism. I guess the doctor cured him.—*Christian Union.*

DYSPEPSIA AND ITS CURE.—The first signs of dyspepsia, from errors of the table, are those of a heated and partially dry condition of the mucous membrane, that delicate internal membrane that lines all the passages, and the digestive canal, throughout its whole course. The tongue may be furred in the morning; one feels languid, not well-slept, and lacks appetite; while there may be also heat and dryness of the nasal mucous membrane, amd perhaps, constipation. For such a case, a little judicious starving is best. The stomach needs a rest. Good pure water, either plain, aerated, or iced, taken little but often, will save one from the pangs of hunger; or at all events, from the incovenience of it. The liver will then have time to get quit of its bile, and both it and the stomach will be restored to tone. The blood will have time to get quit of its poisonous properties, whether acid or bile, and a newness of life and general freshness will be the happy result. If this is done in time, chronic dyspepsia may be avoided. As a rule, people eat too much and take too little exercise; and hence dyspepsia, which when neglected becomes chronic. Could the throat only keep day by day, a list of the various articles of diet and drink which pass it, their quantity, quality and times of passing, and present it to its owner at the end of the week, people would have no cause to wonder that they sometimes felt somewhat "out of sorts." The wonder really is, not that there is so much dyspepsia but so little; especially when we reflect how few are the people who take systematic exercise.

KEEP A BOTTLE OF LIME WATER.—If good milk disagrees with a child or grown person, lime water at the rate of three or four tablespoonfuls to the pint, mixed with the milk or taken after it, will usually help digestion and prevent flatulence. Lime water is a simple antacid, and is a little tonic. It often counteracts pain from acid fruits, from "wind in the stomach," and from acids produced by eating candies and other sweets; also "stomach ache" (indigestion) from over eating of any kind. A tablespoonful for a child of two years old, to a gill or more for an adult, is an ordinary dose, while considerable more will produce no serious injury. A pint of cold water dissolves less than ten grains of lime, and warm water still less. Pure lime water, even though pretty closely corked, soon deteriorates by carbonic acid in the air, which unites with the lime and settles as an insoluble carbonate. To have it always ready and good, and at no cost, put into a tall pint or quart glass bottle, of any kind, a gill or so of good lime just slaked with water. Then fill the bottle nearly full of rain or other pure water, and let it stand quietly, corking well. The lime will settle, leaving clear lime water at the top. Pour off gently as wanted, adding more water as needed. Some carbonic acid will enter, but the carbonate will settle, often upon the sides of the bottle, and freshly saturated water remain. The lime should be removed and a new supply put in once a year or so, unless kept very tightly corked.—*American Agriculturist for December.*

CONDUCTOR W. S. Rathburn, of the Lake Shore railroad, residing in Detroit, Mich., was cured by St. Jacobs Oil of a very severe case of rheumatism. He was delighted with its prompt action and influence.

A CITIZEN given to beer, but otherwise worthy, was suddenly taken off, and his friends erected a monument to his memory, and had inscribed upon it: "Take him for all in all," etc. A surely critic objected, saying it would be better to have it read, "Take him for half-and-half.

WHAT EVERY ONE SAYS MUST BE TRUE.—And every one who has tested its merits speaks warmly in praise of Hagyard's Pectoral Balsam as a positive cure for all throat and lung complaints, coughs and colds, sore throat, bronchitis and incipient consumption.

A YOUNG widow who married again was called upon by a friend of the family, who thus addressed her: "I am sure, my dear, that you have not chosen as wisely as you might have done. Had your poor dead husband been alive, he would never have let you make such a match."

THE comic oyster now winks within his pearly shell and laughs inside of himself in anticipation of the fun he will have at some coming church festival, swimming around all alone in ten gallons of soup, boss of the whole thing, and liable to get caught by hungry ladies. But it's tew much.

A REAL NECESSITY.—No house should be without a bottle of Hagyard's Yellow Oil, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures, or relieved so much pain and misery. It is called by some the Good Samaritan, by others the Cure-all, and by the afflicted an Angel of Mercy.

FIVE of the Italian miners who were imported by the Canada Consolidated Mining Company to work the Gatling mine grew tired of the work, and made an attempt to run away a day or two ago. Constables were sent after them, however, and they were caught and brought back. The company paid their expenses out to this country, and they in return bound themselves to work for the company for a certain number of months.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good, If you don't feel just right try Hop Bitters.—*Nunda News.*

IT is stated that the trial of Guiteau will be concluded on or about the 3rd prox. At the trial yesterday the prisoner made a statement regarding himself, and aspersing the character of his divorced wife. He also interrupted the witnesses several times, and at last became so unruly that the court threatened to gag him. Mrs. Scoville will give her evidence to-day, and perhaps the prisoner himself will be examined.

AN inquiry is to be made into the state of the water of the River Thames, England. For many years much attention has been made to keeping the channel from filling up, but the sanitary condition of the water has been almost disregarded, until now in places the stream is said to be black and foul as an open sewer, with pestiferous gases bubling up from below, giving off offensive odors that can be perceived at a great distance.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

LOCAL AND MUNICIPAL.

Horse Notes.

On Friday Mr. C. Quintal, of Montreal, shipped to that city over the Grand Junction and Grand Trunk Railways, nineteen fine general purpose horses. On the same day he shipped from Omemee eighteen of the same class of animals. Mr. Quintal is the most extensive buyer who has visited this secton for many years, and has expended a very large amount of money during the last two years in this and neighboring counties.

In giving the weights of Mr. T. Cavanagh's fine team the other day, we made a mistake. The correct weight as certified to by the market clerk of Port Hope is 2,860 lbs. The animals are five and six years of age respectively, and were purchased at Pickering and cost the owner $400 cash.

Mr. Cavanagh on Saturday purchased from Mr. J. Matchett, of Otonabee, an extra fine general pnrpose horse, paying therefor the snug sum of $163.

A Mail Car Wanted.

The people along the line of the Grand Junction Railway are complaining very loudly regarding the postal facilities afforded them. As the Grand Junction does not carry the mails, the people have to rely on the antiquated stages for their mail matter and naturally enough they complain that, with a railway running past their doors, the stages are about "played out". Representations have been made in the proper quarters with such effect, we are told, that a mail car will be attached to the Grand Junction trains early in the coming year.

The Weather.

Winter has decidedly set in, the thermometer having fallen to 5° below zero last night. The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Winds shifting to the south and southwest, and increasing to gales. Fair to cloudy, decidedly milder weather, with showers of snow or rain in some localities to-night.

"Converted" Bills.

The Kingston *News* says:—The public are warned again that there are a number of one dollar Dominion notes in circulation that have been converted into four dollar bills. The genuineness of the bill can be found by examining it on the back, where the effect of the alteration is plainly visible. The deception cannot be perceived on the face of the note.

Waterworks.

On Saturday evening the promoters of the Water Company shipped to Toronto per express a jar of water taken from the river above Hillard's mills. The jar was sealed with the town seal and sent to Professor Ellis, the celebrated analyist who will thoroughly examine it and send his report to the Town Council.

The Letter Boxes.

The letter boxes which were recently placed in position by the Government are not yet used to any extent. Stamps have been placed for sale at places convenient to the boxes and it is probable that as soon as the people get fully educated to the use of the boxes the collections will increase rapidly.

Journalistic.

The Stratford *Herald* reaches us this week in a new dress, having changed from the four to the eight page form. The *Herald* is one of the neatest and newsiest papers on our exchange list and we wish the enterprising proprietors continued success.

Town Council.

A special meeting of the Town Council takes place this evening at the Council chamber. Up to the time of writing there is very little business to transact, but more may spring up before the meeting is through.

Personal.

Mr. R. J. Lyle, an old Peterborough boy, now manager of the Equitable Mercantile Company, Toronto, called on us on Saturday. He is in good health and reports business as very prosperous.

Ministerial.

We notice that the Rev. T. W. Blatchford, Bible Christian Minister, recently stationed at Ashburnham, has been removed to London Ontario. We congratulate Mr. Blatchford on his appointment to such an important Parish.

Lumbering.

On Friday Mr. Cavanagh hired and sent to the woods for Messrs. Ross, 10 men. The wages paid average $18 per month, larger than has been paid for years.

FAREWELL TO FATHER CICOLARI.

Departure and Promotion—Handsome Presentation—Enthusiastic Addresses.

During mass in St. Peter's Church, on Sunday morning, Nov. 27th, the Rev. Father Lynch announced that the Rev. Father Cicolari was about to take his departure on Monday from Peterborough. This unexpected news came like the shock of an earthquake upon the congregation, as they were completely taken by surprise. Father Lynch spoke in strong terms and with much feeling of the pleasant relations that had subsisted between Father Cicolari and himself, and of the regrets he felt at his departure, though this was alleviated by the knowledge that Father Cicolari was promoted to the charge of the parish of Lochiel. The congregation would sympathise with him in these regrets, but they must all bow to the will of his Lordship Bishop Cleary.

After mass the members of the congregation formed a committee, appointing Dr. O'Sullivan chairman, and Mr. T. Kelly secretary. It was determined to present Father Cicolari with a purse, for which subscriptions to the amount of $370 were collected during the afternoon. An address was drawn up and was presented in the evening after vespers to Father Cicolari. Dr. O'Sullivan read the address with much feeling, and Mr. J. Hackett presented the above handsome sum, in the presence of the congregation. The following is the address:—

To the Rev. George A. Cicolari, Curate of Peterborough:

REV. AND DEAR SIR,—The suddenness with which the, to us, most disagreeable news was conveyed of your early departure from our midst leaves little time in which to give any earnest or tangible proof of the love, admiration, and gratitude entertained in the hearts of this congregation toward you.

But brief though the period at our disposal be, we cannot allow it to pass without giving in some slight manner a small proof of the esteem in which you are held by both priest and people.

Our most beloved Parish Priest, Father Lynch, in his remarks this morning, left nothing for us to say on the co-operation, friendship and amity, existing between you as *cure* and curate, which must certainly have been as mutually pleasing to yourselves as it has been edifying and profitable to us, your parishioners.

It remains, therefore, for us, on behalf of the congregation, only to assure you that your four years of unassuming, though zealous, labour in the promotion of the Glory of God, whether in connection with the school, the choir, the St. Vincent de Paul Society, or the congregation in general, have made an impression almost as durable as time; while your social relationship in all things, and your cordial sympathy in our various little trials and tribulations, have won for you such a green spot in our memory, and such a warm corner in our affections, that time alone can efface.

We would humbly ask you to kindly accept this small purse as an earnest of the love and esteem with which your name will be long, long remembered, and your memory fondly and lovingly cherished by both Priest and people of St. Peter's Church, of Peterborough.

Signed in behalf of the congregation,

THOS. KELLY, Secretary. J. O'SULLIVAN, Chairman.
JOHN HACKETT, DANIEL SULLIVAN,
BRYAN LYNCH, CORNELIUS YOUNG,
CHAS. GRANT, THOMAS CAHILL,
And many others.

Peterborough, Nov. 27, 1881.

Mr. T. Kelly then read the following address from the St. Vincent de Paul Society:—

The Rev. Father Cicolari, C. P. of St. Peter's Church, Peterborough:

REV. AND DEAR SIR,—We have been deputed by the St. Vincent de Paul Society to wait upon you and express to you their sentiments of sincere and heartfelt sorrow on hearing of your sudden and unexpected departure from Peterborough, and from the friends who so dearly and devotedly loved you for the past four years; and we are sure that by none will you be more sadly missed than by our devoted Parish Priest, Rev. Father Lynch, who will miss your social and genial companionship.

However, we bow to an all-wise Providence, and trust that in your new home you will find kinder friends (but not truer) than your friends of the St. Vincent de Paul Society. You cannot blame us, rev. sir, if we are so selfish as to wish that you could always remain with us, but since that is impossible, we nevertheless express to you our untold satisfaction in your promotion to the onerous and exalted position as Parish Priest of Lochiel. We must now bid you God speed onward and upward.

Signed in behalf of the Society,

THOS. KELLY, President,
JAS. DOLAN, Vice-President,
DANIEL SULLIVAN, Secretary.

Peterborough, Nov. 27, 1881.

Father Cicolari replied as follows:—

MY DEAR KIND FRIENDS,—I sincerely thank you for your princely gift, and those expressions of love and esteem contained in your address. When I say that I thank you for them I but feebly express what the feelings of my heart are towards you.

This act of your's to-night I did not require to convince me of your generosity and liberality. Oftentimes during the four years I have been among you have I been a witness to your real good nature and genuine good-heartedness. I have always met among you the true Catholic spirit, which consists in love, respect, and veneration for the priesthood. This love and respect for those who have charge of your spiritual welfare you have shown frequently, still, listening to the promptings of your kind hearts, you have added one more proof to the already long list. In your address you refer to the relations existing between the *cure* and the curate, the Rev. Father Lynch and myself. Those relations, I am happy to say, were always friendly and of the most agreeable nature. To your Parish Priest I owe a deep debt of gratitude for the many acts of kindness he has shown towards me during my stay with him.

You refer also in the address to the part I have taken in the work of the Parish. Well, my work was always a pleasure for me, because, in going among you, by your ready co-operation with the Priest in all things, you made his work and his duties light and full of pleasure. By your true Catholicity you make the labor of a Priest among you nothing other than a pleasant task.

In conclusion let me once more thank you for your generous offering. Your liberality I shall long remember. Of yourselves I shall have nothing but pleasing and joyous recollections. I will look back with happiness to the years I have spent in your midst, knowing that my path at every step has been filled with pleasure. May God bless every one of you. May He bless you and your families. May you always be precious in His sight, and be favored with His choicest gifts and blessings.

REV. G. A. CICOLARI,
Peterborough.

Father Cicolari left in the morning for his new sphere of duty, carrying with him the esteem, not only of his own congregation, but of all who knew him, among whom there is a general feeling of regret at his departure. He will be especially missed by the younger members of the congregation, in whose welfare and pursuits he always showed a warm interest, gaining their love as well as their respect.

Littell's Living Age for 1882.

This widely-known weekly magazine has been published for nearly forty years, and during that long period has been prized by its numerous readers as a thorough compendium of the best thought and literary work of the time. As periodicals become more numerous this one becomes the more valuable, as it continues to be the most thorough and satisfactory compilation of the best periodical literature in the world. It fills the place of many quarterlies, monthlies and weeklies, and its readers can through its pages easily and economically keep pace with the work of the foremost writers and thinkers in all departments of literature, science, politics and art. Its importance to American readers is evident; in fact it is well nigh indispensable to those who keep informed in the best literature of the day: and its success has therefore been uninterrupted. Its prospectus is well worth the attention in selecting one's periodicals for the new year. New subscribers remitting now for the year 1882, will receive the intervening numbers *gratis*, and its clubbing rates with other periodicals are worthy of notice. Littell & Co., Boston, are the publishers.

The Licensed Victuallers.

We understand that the Licensed Victuallers are to hold a meeting early in the coming month, for the discussion of matters connected with their business. It is expected that Mr. A. G. Hodge, Secretary of the Ontario Trade Benevolent Association will be present and explain the objects and working of the Society, and if it is endorsed, delegates will be appointed to attend the general meeting at Toronto on the 15th of December.

The Mechanics' Bank.

Holders of Mechanics' Bank bills throughout the country should remember that unless returned before the final dividend of the bank liquidators has been declared, the notes or bills will be valueless. It is probable that the advertisement announcing the final dividend will appear before the 1st of January next.

DYSPEPSIA, that all prevalent disease of civilized life, is always attended with a disordered sympathetic system and bag secretions, and no remedy is better adapted to its cure than Burdock Blood Bitters taken according to the special directions found on every bottle.

A NEVER FAILING SOURCE OF WEALTH.—It can be proven, the world over, that the grower of live stock, whether poultry or animals, who mixes Harvell's Condition Powders with their feed, realizes twenty per cent on their value more than he who foolishly ignores these great specifics.

A GENERAL STAMPEDE.—Never was there such a rush made for Drug Stores as is now at Taylor & Macdonald's for a trial bottle of Dr. King's New discovery for Consumption, Coughs and Colds. All persons afflicted with Asthma, Bronchitis, Hoarseness, Severe Coughs, or any affection of the Throat and Lungs, can get a trial bottle of this great remedy *free*, by calling at the above drug store.—4

TRUE TO HER TRUST.—Too much cannot be said for the ever-faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost 50 cents. Sold by Taylor & Macdonald.—4

OVERCOATS!

THE MOST URGENT BUSINESS A MAN WITHOUT AN OVERCOAT HAS TO-DAY IS TO GET ONE. HE MAY GET IT WHERE HE LIKES.

IF HE COME HERE HE'LL BUY IN LESS TIME, BECAUSE HE KNOWS VERY WELL THAT HE CAN GET HIS MONEY BACK NEXT DAY, OR NEXT WEEK, IF HE WANTS IT.

The GREATEST LIVING AUTHORS such as Prof. Max Muller, Rt. Hon. W. E. Gladstone, Jas. A. Froude, Prof. Huxley, R. A. Proctor, Edw. A. Freeman, Prof. Tyndall, Dr. W. B. Carpenter, Francis Power Cobbe, Prof. Goldwin Smith, The Duke of Argyll, Wm. Black, Miss Thackeray, Mrs. Mulock-Craik, George MacDonald, Mrs. Oliphant, Jean Ingelow, Thos. Hardy, Mathew Arnold, W. H. Mallock, W. W. Story, Tourgenieff, Ruskin, Tennyson, Browning, and many others, are represented in the pages of

Littell's Living Age.

THE LIVING AGE has been published for nearly forty years, and has met with continuous commendation and success. In 1882 it will furnish to its readers productions of the most eminent authors **above named, and many others**; embracing the choicest Serial and Short Stories by the **Leading Foreign Novelists**, and an amount

Unapproached by any other Periodical

in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the **foremost Essayists, Scientists, Critics, Discoverers,** and **Editors,** representing every department of Knowledge and Progress.

THE LIVING AGE is a *weekly magazine* giving more than

THREE AND A QUARTER THOUSAND

double-column octavo pages of reading matter yearly. It presents in an inexpensive form considering its great amount of matter, with freshness, owing to its weekly issue, and with a *satisfactory completeness attempted by no other publication*, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is therefore invaluable to every American reader, as the only satisfactory fresh and COMPLETE compilation of an indispensible current literature,—*indispensable* because it embraces the productions of the

ABLEST LIVING WRITERS.

"No other periodical can compare with THE LIVING AGE in interest and value. A veritable thesaurus of the best work of the most celebrated writers in literature, science, politics and art."—*Boston Traveller.*

"It supplies a better compendium of current discussion, information and investigation, and gives a greater amount and variety of reading matter, which it is well worth while to read, than any other publication.—*Boston Journal.*

"It contains not only the best solid literature, but also the best serial stories of the day. Its pages are sufficient to keep any reader abreast with the best printed thoughts of the best of our contemporary writers."—*Episcopal Register, Philadelphia.*

"The ablest essays and reviews of the day are to be found here. We know of no investment of eight dollars in the world of literature that will yield equal returns."—*The Presbyterian, Philadelphia.*

"It is indispensible in every household where any attempt is made to keep up with the current thought of the day. It is a thorough compilation of what is best in the literature of the day, whether relating to history, biography, fiction, poetry, wit, science, politics, theology, criticism, or art."—*Hartford Courant.*

"It enables its readers to keep fully abreast of the best thought and literature of civilization."—*Pittsburg Christian Advocate.*

"It being a weekly publication, is, comparatively speaking, the cheapest magazine published."—*Commercial Advertiser, Detroit.*

"No reader who makes himself familiar with its contents can lack the means of a sound literary culture."—*New York Tribune.*

"An indispensible visitor."—*New York Observer.*

"The oldest and best."—*Courier-Journal, Louisville.*

"As much a necessity as ever."—*The Advance, Chicago.*

"The best and cheapest periodical in America."—*Evangelical Churchman, Toronto.*

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

HAMILTON SHIP OWNERS have again suffered a heavy loss. News has been received of the loss of the propellor Lake Erie engaged in the Chicago and Collingwood trade, and owned principally in this city. John Harvey, A. H. D. McKay and others held shares in her. She was bownd down and collided with the Northern Queen in Poverty Bay, on the north-west portion of Lake Michigan. She was commanded by Captain Johnson of Collingwood, first engineer, Moses Brandon of this city, second engineer, David Kilpatrick of this city, steward R. Thompson of St. Thomas. She was built in 1873 at St. Catharines, was 390 tons burthen, rated at A 1½, valued at $23,400, cost $43,000, fully insured. One man was scalded to death. All the others were saved.

A MURDERER HANGED.

LONDON, Nov. 29.—Lefroy, the murderer of Gould, was hanged this morning. Lefroy slept well last night, and went silently on his way from his cell to the scaffold, but his expression was ghastly. The drop was nine feet. Instant death ensued.

COLLISION AT SEA.

LONDON, Nov. 29.—The schooner British Navy was sunk by a collision in the Downs yesterday; twenty one lives were lost.

BRIBERY PUNISHED.

LONDON, Nov. 29.—Eleven persons including a solicitor, have been convicted of bribery in the Macclesfield and Sandwich parliamentary elections. They were sentenced to terms of imprisonment varying from two to six months.

THE RUSSIAN ARMY.

ST. PETERSBURG, Nov. 29.—Twenty-two hussars of the guard are being tried by a court-martial for strangling one of their officers. A Circassian Prince, a Lieutenant of the same regiment, is being tried for sabreing a shop-keeper, who accidently entered a room he had reserved as a restaurant.

AMERICAN.

NOT INSANE LOOKING.

WASHINGTON, Nov. 29.—Sitting on his little dais and visible from every corner of the court-room, Guiteau yesterday seemed supremely self-conscious and supremely happy. His looks lent no strength to the plea of insanity as a defence. His appearance is that of an intelligent business man; he never looked less like an insane man than yesterday.

MUNICIPAL FRAUDS.

PHILADELPHIA, Nov. 29.—It is stated that the sheriff's office is also involved in the tax frauds.

DIED IN THE PULPIT.

NEW YORK, Nov. 29.—The Rev. Mr. Dallas Stager, pastor of the Baptist Church, while preaching on Sunday fell dead in the pulpit.

NEGROES LYNCHED.

GREENWOOD, Miss., Nov. 29.—Craig Jordan and Parker Jordan, coloured men, were lynched for the assassination of Robert Collins a white man. They confessed their guilt.

PENSION ARREARS.

NEW YORK, Nov. 29.—The *World* says that it is known that among the members of Congress who will probably attack the Pension Arrears Act are some distinguished soldiers of the late war.

MORE SUBDUED.

NEW YORK, Nov. 29.—A Washington despatch to the *Sun* says Guiteau is now much more subdued in his manner and speech. His interruptions are less frequent perhaps than ever and less offensive.

IMPORTANT TESTIMONY.

WASHINGTON, Nov. 29.—John W. Guiteau's testimony seemed among Scoville's friends to cause a marked impression, and is regarded by all as of great importance. The prosecution will use it with telling effect in their closing arguments.

SENT TO A PEST HOUSE.

HOLLYOKE, Mass., Nov. 29.—Seven girls, employed in the rag room of the paper mill here have been attacked with small-pox. They have been sent to the pest house.

A PUBLIC BURDEN.

ST. PAUL, Nov. 29.—The authorities here are indignant because diseased and insane immigrants come here from New York and Philadelphia, and become a public burden.

RECORDS DESTROYED.

DECURE, Texas, Nov 29.—The Court House was burned yesterday; $150,000 loss. The cattle brand records of the county were destroyed. It is feared that this will throw the cattle business into confusion, and will lead to many crimes of violence. It is suspected that the fire was started by persons interested in having certain brand records lost.

VESSELS DELAYED.

NEW YORK, Nov. 29.—As a result of the recent storms, the following steamers are over due from four days to a week:—St. Germain from Havre, Ceptic and City of Chester from Liverpool; Cassius from Hamburg; Eastland from Antwerp; Castor from Amsterdam; Rein from Bremen and Alexander Bixio from Marseilles. All of them have a large number of immigrants on board.

TAMMANY.

NEW YORK, Nov. 59.—John Kelly denies the truth of the rumour that he intends to retire from active political life, and says:—"We have no doubt we can make our organization more solid than it has been for years.

RAILWAY CONSOLIDATION.

NEW YORK, Nov. 29.—Jewett, the president of the Erie Railway, denies that the contest over the consolidation of the Cleveland, Columbus, Cincinnatti and Indiana Railway with the Cincinnatti, Hamilton, and Dayton Railway has been settled.

A NOTORIOUS FORGER.

NEW YORK, Nov. 29.—The trial of Charles Baker, the notorious countifeiter, charged with counterfeiting a 10,000 franc note of the Bank of France, began at Brooklyn yesterday.

GUITEAU ON THE STAND.

WASHINGTON, Nov. 29.—The crowd about the Court House this morning was four times greater than upon any previous day. As usual the majority of those who got into the Court Room were ladies. Guiteau took his seat looking pale and careworn. He was almost immediately called to the stand and was closely guarded by the officers. Scoville asked him to give some incidents from his earliest life and his recollections of his mother. Guiteau replied:—"Am I to be put on as a regular witness to-day or only to identify some letters? I supposed the latter. I am not feeling at all well to-day but shall be much better in a week or so." Scoville replied:—"I had arranged to examine you to-day and there are no other witnesses present." Guiteau said:—"You should have had your witnesses on hand, I don't wish to be subjected to going on the stand when I am not feeling well enough to be submitted to cross examination by the counsel for the prosecution. I have got a good deal to say and I want to go over the whole business carefully and scientifically, so to speak, and I want to be in good talking condition."

CONFESSION RETRACTED.

LONDON, Nov. 28.—Lefroy who murdered Gould on a train on the Brighton Railway has retracted his confession relative to the murder.

MORE OUTRAGES.

DUBLIN, Nov. 28.—The houses of two persons who had paid rent were burned at Knowsly last evening. Butterfield, a Land League organizer, in County Down and Armagh, was arrested to-day. Armed men forcibly entered the house of one O'Keefe and fired several shots, wounding him. He had paid his rent.

TURKEY TO BE BROUGHT TO TIME.

LONDON, Nov. 28.—Lord Hartington, addressing his constituents at Blackburn, said Earl Dufferin, ambassador at Constantinople, was striving to obtain the fulfilment of the clause of the Berlin treaty relating to Armenia in order to prevent a renewed outbreak which would disturb Europe. Turkey must faithfully observe the stipulations of the treaty which are the conditions of her continued existance. The whole of Europe would see that these stipulations are enforced.

A MISSIONARY'S DEATH.

LONDON, Nov. 28.—Mr. Adam McCall, leader of the Livingstone inland mission on the Congo, died at Madeira on Thursday.

RUSSIAN ADVANCES.

CONSTANTINOPLE, Nov. 28.—The correspondent who was recently imprisoned in Merv has arrived in Constantinople. He says that Russian trains are running on the Caspian Railway, which is in working order to within five days march of Merv.

THE THREATENED VILLAGE.

LONDON, Nov. 28.—In order to avert the peril still threatening Elm, it is proposed to bombard the Risikop, and thereby precipitate the loose rocks in another direction.

A DISASTROUS GALE.

LONDON, Nov. 28.—Fifty persons injured by the late gale are being treated in London hospitals. It is feared some will die. Fifty barges were sunk in the Thames. Extensive floods are reported on the Upper Thames Valley.

SPAIN AND GIBRALTAR.

MADRID, Nov, 28.—Senator Guelly Rente, representative of the Havana University, yesterday asked the Cabinet if the time had not come when it would be opportune and patriotic to open negotiations with England to obtain the restitution of Gibraltar. The Minister of Foreign Affairs declared that he regretted that the question had been raised. Spanish resources and the country's position in Europe did not justify any member touching on so delicate a matter. The gallant Senator is determined to push his idea by an agitation of public opinion, his wish being to offer England some colony on the coast of Morocco.

THE IRISH AGITATION.

DUBLIN, Nov. 28.—A Cork correspondent says armed men recently entered the house of a woman named Henles, near Listowell, for the purpose of shooting her because she gave information to the police. The children threw themselves upon their mother in terror, and one received a shot in the leg. The mob left after making the mother swear under threat of death not to divulge the occurrence. Six persons have been arrested on suspicion of being concerned in the outrage.

VESSELS WRECKED.

LONDON, Nov. 28.—The steamer France from New York for Havre put into Cherbourg on Sunday. She experienced terrific weather and sighted a large ship dismasted apparently abandoned. A French lugger stranded near Lydd and four persons were drowned. Several of the crew of the steamer Sumatra at Falmouth from Boston were disabled and the chief officer badly injured. Numerous wrecks are reported, especially on the west coast.

REVIEWS.

HARPER'S MAGAZINE.—The December number of Harper, the beginning of the 64th volume, is even better than usual. A profusely illustrated paper on "The Bernadottes," gives the romantic story of the present royal family of Sweden. Joseph Hatton continued his interesting account of "Journalistic London." The description of "A day in the House of Commons," narrates an episode of the War of Independence. In "Among Our Footprints," W. H. Gibson gives interesting details of natural history, while M. D. Conway describes certain supposed "Monsters," both papers being admirably illustrated. The articles on "The Grave of Penn," and "Autumn Sketches in the Pennsylvanian Highlands" also owe as much to the pencil and graver as to the pen. Mrs. T. W. Dearing has a paper on "Economy in Dress," which will be of interest to the ladies. The two serial stories "Anne" and "A Laodicean," draw near a conclusion, lovers' misunderstandings being cleared up in both. There are several shorter tales and poems of merit. The editorial miscellanies maintain their usual excellence.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipation Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

AGRICULTURE AND ARTS

THE AGRICULTURAL AND ARTS ASSOCIATION OF ONTARIO.

Important Meeting of the Council—Substantial Reduction in the Number of its Members—Toronto's Trickery Shown up.

The Council of the Ontario Agricultural and Arts Association met in Toronto on the 24th Nov., for the purpose of receiving the report of the committee appointed at London, to report upon the future policy of the association, and the transaction of other business, and continued in session during that and the following day.

THE NEW PROGRAMME.

After the transaction of some routine business, and hearing a deputation from Guelph, asking for the exhibition of 1882.

Mr. Carnegie presented the following report of the committee just mentioned.

1st. That in the view of the commendable enterprise and liberality now being displayed by those interested in the growth and prosperity of particular cities and towns in organizing and holding annual exhibitions at which premiums are awarded for the same classes of stock products and articles as are usually exhibited at the Provincial Exhibition it is expedient that the holding of a Provincial show annually should not be compulsory, and that the means and energy of the Board should be directed in some other channels of usefulness bearing on the progress of agriculture in this province.

2nd. That in the interest of economy the membership of the Council should be reduced by removing therefrom all *ex-officio* members except the Commissioner of Agriculture and two representatives from the Association of Mechanics's Institutes.

3rd. That in the event of the foregoing recommendations being approved, steps should be taken to obtain the Legislation, necessary to their carrying out, and in the direction set forth in the following memo of the more important amendments proposed to the present act, viz :—

1. That section 17 be repealed, and that the auditors be appointed one by the Council and one by the Commissioner of Agriculture.

2. That section 25 be amended so as to allow the Council to appoint a non-member of the Board Treasurer, without making him, by virtue of such appointment, a member of the Board.

3. That section 26 be repealed and the following substituted therefor :

It shall be the duty of the Council to take measures for the promotion of the Agricultural interests of the Province in any or all of the following ways :—

1. By holding Provincial agricultural meetings and shows of stock, implements, farm and horticultural products, machinery, manufactures, etc., in the principal cities and towns of the Province either by themselves or in conjunction with the Dairymen's, Fruit Growers' Mechanics' Institutes, and other associations.

2. By holding meetings and shows for particular sections of the Province either by themselves or in conjunction with other associations.

3. By aiding exhibition associations in accomplishing the same objects, by the granting of medals, prizes, or other awards of merit.

4. By offering prizes for the best managed farms, buildings, etc.

5. By holding and aiding ploughing matches, and the testing of agricultural implements and machinery.

6. By encouraging the planting of trees and the study of forestry.

7. By introducing and testing new varieties of grain, seeds, vegetables, or other agricultural productions.

8. By introducing and testing fertilizers.

9. By introducing new or improved implements of husbandry and agricultural machinery.

10. By introducing or aiding in the introduction of new and improved breeds of animals, either from other countries or Provinces, or from one part of the Province to another.

11. By offering premiums for reports on the rearing and feeding of animals, the management of the dairy, the production of wool, the improvement of agricultural machinery and implements, the growth of timber, the adaptability of particular localities for particular branches of agriculture, the erection of buildings, fencing, draining, etc.

12. By causing or aiding in causing lecturers to be delivered on such subjects and at such places as may be deemed in the interest of agricultural improvements.

13. For the promotion of agricultural education, (*a*) by holding examinations and granting diplomas ; (*b*) by establishing scholarships ; (*c*) by offering prizes for essays on suitable subjects ; (*d*) by collecting and circulating information bearing upon subjects connected with the agricultural interests of the Province.

14. By promoting the application of science to agriculture by the appointment of one or more chemists to perform such duties as may be required of him, such as analysis of soils, manures, etc.

15. And generally by adopting every means in their power to promote improvement in the agriculture of the Province.

4th. That the 34th section be amended so as to read : The Corporation of any city or town may enter into any agreement with the Council, binding such Corporation to erect the buildings necessary for holding the annual Exhibition of the Association ; and in the event of the Council being unable to make satisfactory arrangements with the city or town selected for the holding of a Provincial Exhibition, or for any cause they deem it inexpedient, the Council shall have power either to select another place for holding such exhibition or dispense with it for that year.

After a long discussion on the second clause cutting off the ex-offico' members, it was finally amended so as to remove the representatives, of the Mechanics' Institutes as well as the others. The rest of the report having been adopted without amendment,

Mr. RYKERT moved that a clause be added asking that the members of the Board should be elected directly by the societies (as formerly) instead of through delegates as at present, which was agreed to and the report as amended was adopted.

ONTARIO BUREAU OF STATISTICS.

On motion of Mr. SAUNDERS, it was agreed to tender to the Commissioner of Agriculture the free use of rooms in that building for the proposed Bureau of Statistics.

THE FINANCES OF THE ASSOCIATION.

Mr. DRURY presented reports from the Finance Committee. One asked authority for the payment of a number of small accounts, amounting to $330.52. Another stated that the receipts from the last exhibition amounted to $16,282, and the total expenditure, exclusive of about $14,000 for prizes, was $5,178.40, leaving a balance to their credit in the bank on Nov. 9, of $5,933.63. This was their condition after all debts had been paid, except the $330.52, which were ordered to be paid to-night. He thought that when the public compared their small expense of $5,178 for holding an exhibition with that of the Industrial Association, they would find good reason for maintaining the Provincial.

The reports were adopted.

On the Council assembling on Wednesday morning Mr. CARNEGIE submitted the report of the Committee on

THE HERD BOOK.

They recommenned that they be authorized to communicate with the Quebec Board with reference to the publication of a joint herd book for Ayrshires ; that an appendix be issued to the 5th volume of the Durham herd book showing all cattle registered in the 3rd and 4th volumes not up to the standard necessary to the registration of their progeny ; that no pedigrees not up to the standard shall be published in the 5th and 6th volumes unless in the case of females already registered as having seven crosses and their progeny ; that a revising committee examine into all doubtful pedigrees, their decision to be final, and take steps for the early publication of volumes 5 and 6, and for the annual publication of the herd book ; that no certificates be issued in future, unless required, but instead a postal card containing the name of the animal and also of the breeder, with sufficient reference to the herd book be sent.

The report was adopted and Messrs. Drury and Carnegie with the Secretary were appointed the "Revising Committee."

THE SECRETARY'S SALARY.

Mr. DRURY moved that in future the salary of the Secretary be $1,700, out of wuich sum he should provide all office assistance. The mover pointed out that by this change the office of Assistant Secretary would be abolished, and the expenditure of $1,950 for office salaries would be reduced to $1,700. Carried.

Mr. J. C. Rykert submitted the report of the Committee on

TORONTO AND THE EXHIBITION,

as follows :—

The committee having had under consideration the question of holding the exhibition in 1882, in consequence of the action of the city of Toronto has had no little difficulty in advising the Council as to the course it should pursue. The committee does not recognize the right of the City of Toronto to say that the exhibition shall not be held on the grounds now leased to the Industrial Exhibition, inasmuch as these grounds were leased to the city of Toronto at the joint request of this board and the city, and the intention of the Government was specifically set forth in the lease itself. The words of the lease admit of no doubt that this board could, if it felt so disposed, invoke the proceedings of the court to compel the Industrial Exhibition to stand aside and give up the grounds to this association whenever it was decided to hold the exhibition in the city of Toronto. In the lease bearing date, April 25, 1878, we find the following words :—"All westerly portions of the military reserve in Toronto known as Garrison common, is conveyed for exhibition purposes in connection with the Agricultural and Arts Association of the Province of Ontario." If the right of the association were not intended to be recognized, it was quite needless to use the words "in connection with the Agricultural and Arts Association of Ontario." Your committee would remind the council that an application was made to the council by the city of Toronto to yield up its claim to the old grounds and buildings expressly on condition that the same rights and lien should be transferred to the new grounds. After several interviews between the Board and the City Council our consent was given to the surrender of the old grounds expressly and only on condition that this council should have the privilege of holding the exhibition in the new grounds whenever the delegates to the annual meeting should determine to hold the exhibition in this city. After much negotiation with the Government, and with the active interference and co-operation of the late Hon. David Christie, the lease was granted with the condition thereby expressed, This council, recognising its right to the new grounds, at the request of the city, made a grant of $4,000 towards the buildings in the new grounds, but at no time did it intimate its willingness or consent to hold the exhibition two years consecutively in this city. Committee would remind the council that neither the board nor any of its members could make any promise in regard to the future holding of the exhibition, in view of the express terms of the Act, which declairs that the delegates at the annual meeting shall say where the exhibition shall be held. Your committee deeply regret that the city of Toronto should forget the pledge they made to the Agricultural Association when the lease was obtained, and ignore the rights of the association to hold the exhibition in Toronto. While desirous of maintaining the rights of the association, your committee feel that no good can be gained by entering into litigation with a body of men who will pander to local interests to the detriment of the general public. Your committee would recommend that the board keep faith with the delegates as expressed at the annual meeting, and hold an exhibition in 1882 in some other city.

The report was adopted.

THE PLACE OF EXHIBITION IN 1882.

Mr. LEGGE moved, seconded by Prof. BELL, that the next exhibition be held in the city of Kingston.

Mr. I. MORGAN, (Ottawa), moved in amendment, seconded by Mr. MOORE, (Guelph), that the selection of the place for the holding of next exhibition be laid over to the annual meeting of the Council.

The motion and amendment led to a somewhat lengthened and warm discussion, and upon the yeas and nays being called for, the amendment was carried on the following division :—

YEAS.—Messrs. Morgan, Moore, Hunter, Shipley, Grahame, Rykert, White, Saunders, Demsey, and Klotz—10.

NAYS.—Messrs. Legge, Parker, Aylsworth. McKinnon. Carnegie, Drury, Bell, and Buckland—8.

On motion Dr. WIDDIFIELD, M.P.P., was appointed auditor in place of Mr. Cavers who has gone to the North-West, and the council adjourned.

FOR SEVERE COUGHS AND LUNG COMPLAINTS. —From A. J. Merritt, of Canton, Pa.—Gentlemen,—About ten years ago, after having had a severe attack of the measles, I was troubled with a severe cough and was threatened with consumption. My father having died at the age of 31 with consumption of the lungs, and my aunt having been carried off with the same complaint, it seems to be hereditary in our family. At the time alluded to, I was induced to buy a bottle of Dr. Wistar's Balsam of Wild Cherry, and can say conscientiously, I believe it saved my life. I was blacksmithing at the time, and often felt pains in my chest and lungs, which the Balsam relieved. I cheerfully give this statement, and hope you may have success with so beneficial a preparation. 50 cents and $1 a bottle. Sold by all druggists.

A POISONER'S WORK.

Deliberate Attempt to Take a Clergyman's Life—Discovered in Time.

OTTAWA, Nov. 25.—A determined attempt to poison the Rev. Dr. Mann, of Pakenham, was made a few days ago. It appears the reverend gentleman is in the habit of taking porridge every evening for supper, and that on the occasion referred to the supper had been provided as usual, and the doctor sat down between the lights to partake of it. He had no sooner taken a spoonful of the porridge than he discovered a strange taste with it, and calling to Mrs. Mann, who was in the next room, asked, "What is the matter with the porridge ?" to which Mrs. Mann replied that she did not know of anything wrong, as she had made it herself. The doctor then called for a light, and on examining it was discovered to contain Paris green, which had been mixed with it. The doctor tasted a second time, and then spat it out on another plate. While the matter was under discussion the servant girl, who had been called to account for the mixture, warmly asserted that there was nothing wrong with the porridge, and hastily catching up the plate threw it into the fire. The mouthful the doctor had ejected was then locked up in a bureau, but in the morning it also was gone, Dr. Mann was very ill during the night, and vomited several times, but is now all right. the doctor had strongly objected to the servant's receiving the visits of one of the male sex until he was satisfied of his character, which is supposed to be the cause of the attempt, but the servant has been discharged. Considerable regret is expressed among the residents of the town at the girl being allowed her liberty.

THE FARM AND GARDEN.

About Potatoes.—Expensive Food.

It is estimated that New York City alone daily consumes about 20,000 bushels of potatoes; or one bushel to each 75 or 80 of the resident or transient population; or 4½ bushels each per annum. The wholesale price now (Nov. 3.) by the car or boat load is $2.50 to $3.00 per barrel, or fully $1 per bushel, and the retail price considerably higher. Shrewd dealers and speculators have for some time past been buying up all available supplies in many localities. Ordinarily, the greater weight of potatoes for the same money value, and the frost embargo for at least three winter months, prevent the transfer of potatoes from regions of plenty to those of scarcity, as is done with grain; but active transportation over long distances is now going on. Potatoes are always an expensive food, that is to say, comparatively. A bushel of potatoes (60 lbs.) contains nearly 50 lbs of water, and only about 10 lbs. of solid nutriment, which is mainly starch. At present wholesale prices here this is nearly 10 cents a pound for the food they yield. Fair wheat flour at $8 a barrel is only 4 cents a pound. Corn at 80 cents a bushel (56 lbs.) has nearly 50 lbs of nutriment, costing less than 2 cents per lb. Taking the country altogether, and the prices of potatoes, corn, wheat, etc., high and low, from year to year, the average nutritious food obtained in the form of potatoes, costs four to five times as much as it does in the consumption of corn or beans, and two and a half to four times as much as in the form of wheat flour, of oatmeal, beans, rice, etc.—*American Agriculturist for December.*

Notes on Live Stock in Winter.

The farm animals at this season are directly dependant upon the care and attention of the farmer. To pass the winter with profit they must be well kept. Animals are very complicated engines, and must be run by careful engineers. The food they receive is the fuel, and the daily rubbing, cleaning etc., may be likened to the inspection, cleaning and oiling of the engine. The fuel must be equal to the demands made of the animal engine, else the machinery will be run at a disadvantage, and therefore with diminished profit. When the water is low and the fire almost out, the engine is a source of loss to the owner. On the other hand the fire may be brisk, and the boiler well supplied but some screw is loose, or a part rubs another too closely and the friction thus produced neutralizes much of the force. So in the animal machine, all the parts must work harmoniously together, or in other words there must be perfect health to obtain the best results. An animal may have the best of food in sufficient quantity, and still pass a hard winter, and without profit to its owner. Food of the best kinds without shelter, is in the animal economy like fuel in an engine that is rusted and loose and out of order. Both are expensive methods of arriving at desired results. It takes too much force to run the machine in both cases. As it is cheaper to have a good engine kept in good order, so it is to have an animal in health and comfort. The thoughtful farmer will see many other points of likeness between the animal machine and the one constructed by human hands, but this is enough to suggest the importance of keeping farm animals in a healthful and comfortable condition by means of warm stables with clean floors and pure air.—*American Arriculturest for December.*

Geraniums in the Window.

It is very rare to see a well-grown Geranium in window culture. Even if the plants bloom fairly, they are often drawn up, mis-shapen things, not pleasing to look upon. In the majority of cases, plants that have been set out in the garden for the summer, are allowed to "go as you please." The roots finding an abundance of rich soil, the tops grow off at a famous rate. At the approach of cool weather the plants are taken up as they stood; if any cutting is done, it is at the roots, to bring them within the limits of a pot, and the plants are placed in the window. As a consequence of such treatment, the majority of the leaves fade and fall, and show a lot of long, lanky stems, with a small tuft of leaves at the top. This condition of the plants is due either to a lack of knowledge or to timidity. Amateur cultivators as a general thing, seem to fear to use the knife; could the plants suffer pain, they would not be more reluctant to cut. The proper method is, to prepare the plants for taking in long before the time for lifting them; but it is too late to advise that, as it is to suggest pruning them at the time of taking them up. Even at this late day it is better to cut back the Geraniums to a good shape than to let them remain as they are Of course each plant will have its own needs in this respect, and only general advice can be given. Cut back the long stems in such a manner that the plant will form a low, rounded head, and remove altogether such branches as will make the head too much crowded.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good, If you don't feel just right try Hop Bitters.—*Nunda News.*

A LITTLE son of Dr. McBrien, of Oshawa, was taken with a choking fit on Friday last, which proved fatal. The child had frequently complained of having a pea in its throat for some time, but as he had a cold little attention was paid to it. TRUE TO HER TRUST.—Too much cannot be said for the ever-faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost 50 cents. Sold by Taylor & Macdonald.—4

The blocks have been placed in position, and suitable inscriptions are now being cut on them.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible'" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wfy

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

LOCAL AND MUNICIPAL.

Flour by Telephone.

Among our most enterprising business men is Mr. Geo. C. Rogers, who is always ready to sieze upon any improvement either in his own industry or in some line apparently quite unconnected with it, but which he knows how to make of service. The idea of his customers being able to order his flour by telephone, as he has just announced, will be certainly a novelty. We learn that since he has set up his new machinery, he has had a double and a single rig both busily employed all the time delivering orders. No wonder Mr. Rogers says he is afraid of no competition, even from the millers on our neat Canadian water way.

Accident.

Yesterday afternoon about 5 o'clock, James Arsenault, while working at Hilliard's saw mill, where he was tailing on the large circular saw, met with a severe accident. He was standing with his back to the carriage, when as it ran back the iron head block upon it struck him on the thigh, jamming it against the skid, and inflicting a deep flesh wound. He was removed in a waggon to his home close by, and Dr. Boucher, who was summoned, was quickly in attendance, and dressed the wound. Arsenault has a a wife and four children, and is an industrious young French Canadian. We are glad to learn that he is doing well.

New Kind of Patent Flour.

Mr. D. T. Choate, miller, now running Elliott's mill at Osaca, is manufacturing a new kind of patent flour. Mr. Choate learned the process he is now operating during his residence in the State of Minnesota. Last Saturday he left a bag of the new flour at the *News* office; since then it has been tested thoroughly, and bread made from it exceeds in lightness, whiteness, and sweetness, anything we have yet tasted. Those desirous of something new in the flour line, should procure some and give it a trial.—Port Hope *News*. Flour of the same manufacture as that mentioned above is for sale at the Town Clock Grocery.

Ontario and Quebec Railway.

Among the applications to the Dominion Parliament for Legislation during its next session is one by the above company, for an Act, to amend their charter so as to enable the Company to acquire the charter of or amalgamate with the Toronto, Grey and Bruce Railway Company or such other railway company or companies as the Ontario and Quebec Railway, when constructed, may connect with, intersect, or cross; also to lease such railways, and for other amendments.

Municipal Election.

It will be seen from our town council report that the arrangements have been made for holding the municipal elections for the town. For a wonder the council did not begin "talking to Buncombe." Perhaps having worked better than usual this year, they find less necessity for talk.

TOWN COUNCIL MEETING

THE COVENANT OF THE WATER COMPANY WITH THE TOWN APPROVED.

Preparations for the Municipal Elections—Rewards for Detecting Incendiarism—The Market House—Untied Horses.

The Council met on Monday evening, Nov. 28th. Present,—the Mayor and Councillors Cahill, McNaughton, Kelly, Paterson, Richardson, Chamberlain, Douglas, Menzies and Yelland.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From S. Johnson and Wm. Toole asking for remission of taxes.

From Mrs. Williams asking for remission of taxes and assistance.

From Geo. Lowden asking for remission of statute labour, as he was otherwise assessed.

From Wm. Toole asking for remission of arrears of taxes.—All referred to the Finance Committee.

ACCOUNTS.

Wm. Hamilton.....$13.00
F. McAuliffe..... 5.00

Mr. McAULIFFE on motion was heard and claimed $5 in addition to $4 already paid for watching and preparing the body of Larocque. There were two of them. It was dirty work.

Councillor McNAUGHTON dictated the payment, which he moved seconded by councillor KELLY.

Councillor PATERSON thought they should keep to the bargain made by the constable. Larocque's brothers should have paid this charge.

After some further discussion, $3 additional was ordered to be paid.

Mr. Hamilton's account was referred to the Finance Committee.

WATERWORKS.

The Mayor said the covenant of the Waterworks Company had been handed in signed and sealed. It was approved by Mr. J. F. Dennistoun, acting for the town. He read it as follows:—

To all to whom these presents shall come; the Peterborough Water Company sendeth greeting:

Whereas the said Peterborough Water Company have recently become incorporated under the statutes in that behalf for the purpose of supplying to the Town of Peterborough pure water for public and private purposes.

And whereas a by-law passed by the council of the Corporation of the Town of Peterborough anthorizes and empowers the said company to lay down pipes and conduits as therein set forth and subject to the regulations and condition s in the said by-law fully set out, which by-law is No. CCCCXXVII, and is entitled "a by-law to authorize the company hereinafter mentioned to lay down pipes or conduits for the conveyance of water under the streets, squares and other public places of the Town of Peterborough, and was finally passed by the said council on the 11th day of October, A. D., 1881,

And whereas among other conditions in the said by-law contained there is one to the effect following, i. e., that before commencing operations under the said by-law, the said Peterborough Water Company should execute and deliver to the Town Clerk in form to be approved of by the council a covenant, binding the said company to the full observance of the regulations and conditions in the said by-law contained, and further covenanting with the said Corporation of the Town of Peterborough to sell out at a valuation their entire works and appurtenances at the time and in the manner in the said by-law fully set out, and by such by-law intended.

And whereas the said, the Peterborough Water Company are desirous of complying with the requirements of the said by-law and entering into such a covenant, as is thereby intended to be entered into by them, and these presents have been prepared for the purpose of being such covenant when duly executed by the said, the Peterborough Water Company.

Now know ye that the said, the Peterborough Water Company hereby covenant with the Corporation of the Town of Peterborough, that they the said the Peterborough Water Company will fully observe and keep all the regulations and conditions in the said by-law contained and set out and hereby included by such by-law, to be observed and kept by the said the Peterborough Water Company, and the said the Peterborough Water Company further covenants with the said the Corporation of the Town of Peterborough, that the said the Peterborough Water Company will sell out at a valuation their entire works and appliances to the said the Corporation of the Town of Peterborough at the time and in the manner in the said by-law set out and by such by-law intended.

In witness whereof the said the Peterborough Water Company have hereinto caused to be affixed their common seal attested by the hand of William Cluxton, their president, this 28 Nov., A.D. 1881.

Signed, sealed and delivered in the presence of W. H. Cluxton.

Countersigned, GEO. W. HATTON, Secretary. Signed, W. CLUXTON, President. [Seal]

The above covenant pursuant to by-law therein named is in form such as was intended by me at the time of drafting by-law and I approve the same.

JAS. F. DENNISTOUN.

The covenant was received and approved.

FINANCE REPORT.

Councillor PATERSON brought in the report of the Finance Committee as follows:—

The Finance Committee beg leave to report with the following recommendations:—

No. 1. A. Comstock's account, 40 cents, to be paid.

No. 2. As to Mr. Dumble's communication *re* Mr. Gideon Fitzgerald's R. R. damages, and as the Treasurer has been forbidden to pay the amount by the late Dr. Burnham's solicitor, Mr. D. G. Hatton, we recommend the treasurer to pay the money over to Mr. Gideon Fitzgerald provided he indemnifies the council for the amount and costs of said payment.

No. 3. As to Mr. W. H. Ellis' communication *re* estimates on Mr. Trout's waterworks scheme, we cannot recommend the payment of his claim.

The report was received and adopted.

THE MARKET.

Councillor CHAMBERLAIN read the report of the Market Committee as follows:—

We cannot recommend that any change be made in the Market Hall at present.

The report was adopted.

GAS.

The contract with the Gas Company was referred to the Finance Committee.

MUNICIPAL ELECTIONS.

The by-law appointing deputy returning-officers and polling places for the Municipal Elections was passed through all its stages. The appointments were as follows:—

1st Ward, Joseph Lundy, deputy returning-officer; Arnold Soanes, poll clerk. Mission school house, polling place.

2nd Ward, J. J. Davidson, deputy returning-officer; James Noble, poll clerk. Polling place council chamber.

3rd Ward, John Irwin, deputy returning-officer. George Toole, poll clerk. Polling place, Mr. Irwin's house.

4th Ward, William Lee, deputy returning-officer; Frank Mason, poll clerk. Polling place Mr. Lee's shop.

UNTIED HORSES.

Councillor McNAUGHTON wished that the constables should be ordered to enforce the by-law as to untied horses on the street. Runaway horses were endangering life and limb.

HEATING MARKET HOUSE.

An order was passed for a load of wood for heating the market house.

THE LATE INCENDIARY FIRES.

Councillor CAHILL moved, seconded by Councillor McNAUGHTON that a reward of $500 be offered for information leading to the conviction of the persons who set fire to the building of Mr. Edmund Chamberlain on Spaulding's Bay.

Councillor CAHILL said that it had been supposed that little property of value had been consumed in this old brewery, but it appeared that the loss amounted to several thousand dollars. There was no man who had a better claim for the protection of the municipality than Mr. Chamberlain, who had done many a kindness to our poorer townspeople. He had allowed for instance a poor family to remain, rent free, for some time in the very building in question.

Councillor CHAMBERLAIN thought there should be a standing offer of such a reward.

The motion was carried.

WATER SUPPLY.

Councillor CHAMBERLAIN asked for information as to the report that the corporate seal had been attached to a jar of water sent to Professor Ellis for analysis.

The MAYOR said Mr. Hatton had asked him if Mr. Ellis' analysis would be satisfactory. He told him he thought it would.

Chief Constable JOHNSTON said he had seen the water procured and forwarded. It was sealed, though not with the corporation seal.

STREET IMPROVEMENTS.

Councillor CAHILL moved, seconded by Councillor PATERSON,—That the treasurer be authorized to pay for the work now being done on Downey street, when certified by the street inspector. Carried.

The Council then adjourned for four weeks.

POLICE COURT.

THEFT.

TUESDAY, Nov. 29th.—William Welch was charged by George Brown, who keeps the junk shop near the bridge, with stealing two bags of wool from him on Nov. 28.

Frederick Clarke swore that prisoner sold the wool to him.

The prisoner was arrested by constable Craig of Ashburnham.

He pleaded not guilty, and elected to be tried by the judge. He was committed for trial.

Street Thieves.

Last night about six o'clock, as a representative of this office was on his way home, a man stopped him and enquired where he could find a police officer. He said that some sneak thieves had carried off his overcoat from his wagon while standing in front of Mr. J. Dolan's dry goods store. He said he would willingly give the full price of the coat if he could discover the guilty person. This is probably only the commencement of a series of pety thefts such as we experienced last winter, and the sooner a stop is put to it the better for all concerned.

Y. M. C. A.

All those interested in the present and future success of the Peterborough Y. M. C. A., are earnestly invited to be present at the meeting in the basement of St. Paul's Church this evening, at 8 o'clock. Mr. W. P. Crombie, who is in town for the purpose of helping to work up and establish on a permanent basis this association, will deliver an address. Come and encourage both officers and members by your presence.

Deer Hunting.

A party, among whom are Mr. James Campbell and Mr. John Ludgate, started to-day for a week's hunting, being the guests of Messrs. Irwin & Boyd, on their limits beyond Haliburton. We hope they will be successful, and that the venison will be good.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

IGNATIEFF RESIGNED.

ST. PETERSBURG, Nov. 30.—It is stated that Gen. Ignatieff has tendered his resignation to the Emperor.

AGRARIAN OUTRAGES.

CORK, Nov. 30.—Three rent paying tenants on Lord Kenmore's estate were shot last evening and wounded in the legs by armed men. Three cows belonging to a rent paying farmer, near Farnes, were ripped open. This crime is getting more frequent, Lord Doneraile has discharged all the laborers on his estate because he was unable to discover who battered his entire flock of sheep to death.

AMERICAN.

A COFFEE EXCHANGE.

NEW YORK, Nov. 30.—Negotiations are in progress for the formation of a coffee exchange here, the first of the kind in the world.

PROTECTING HIS WIFE.

ATLANTA, Nov. 30.—In Talbot County, Anderson, with an an axe, killed Willis Wells, who was beating Anderson's wife. Anderson was arrested, but will probably be acquitted.

HEAVY DAMAGES.

NEW YORK, Nov. 27.—Johanna Voos yesterday obtained a verdict for $12,000 against the Second Avenue Railway for injuries occasioned by a car starting as she was about getting off.

THE U. S. POST OFFICE.

WASHINGTON, Nov. 30.—James will probably not sever his connection with the post office department until the end of the present session.

A BIG FIRE.

ALBANY, Nov. 30.—A group of barns belonging to Maxwell Bros., on the Bennett farm, were burned this morning. Fifty head of cattle, fifty horses, fifty hogs and a quantity of hay, &c., were destroyed. The loss is $50,000 and the insurance $22,000. The fire was incendiary.

BURNING A TOWN.

ATLANTA, Nov. 30.—The Jones brothers were arrested at Camille on the charge that they fired their own store to obtain the insurance money, thus causing the destruction of nearly all the business part of the town. The case is creating much feeling.

A DOG FIGHT.

ALBANY, Nov. 30.—A fight for $1,000 a side between the champion slut Chippy of Troy and the dog Toss of New York, took place yesterday at Syder's Lake, at the back of Troy. The contest last for one hour and ten minutes. Toss was declared the winner, but was so badly punished that he will probably die. Sporting men throughout the States took great interest in the match, and $10,000 changed hands.

A STRANGE MADMAN.

WASHINGTON, Nov. 30.—Guiteau talks at a speed which is the despair of the stenographers. He speaks without premeditation, and in all his windings and turnings never contradicts himself, or gets names or dates wrong. His accurate and ready memory was noticed yesterday by all. Timid, as he evidently was, when first put on the stand, he gained courage and appeared at ease. Some of the insanity experts are as yet at a loss what to think. One said yesterday it was one of the most singular cases he had ever studied. Much that he said was irrelevant.

CIVIL SERVICE REFORM.

WASHINGTON, Nov. 30,—It is understood that the President in his message will give his views on Civil Service reform.

HARD MONEY.

WASHINGTON, Nov. 30.—It is said that Folger's report will express financial opinions and statements, which accord with those of the most advanced hard money theorists.

NEW YORK, Nov. 30.—Weinmuller, a Poughkeepsie student was mysteriously shot here on Saturday night and died this morning.

WITHOUT PRECEDENT.

NEW YORK, Nov. 30.—A Washington special despatch to the *Tribune* says that placing a murderer alleged to be insane on the witness stand to testify in his own behalf, as was done in the Guiteau case yesterday, is believed to be unprecedented.

THE STAR ROUTES.

NEW YORK, Nov. 30.—A Washington special despatch to the *Times* says that the Star route men announce that soon after the beginning of the session of Congress, resolutions will be introduced directing the Post Master General to put the routes in the condition in which he found them. The contractors are rallying at Washington.

A WARLIKE RELIC.

NEW YORK, Nov. 30.—The Frigate Constitution of the old ironsides of 1812 has arrived at Navy Yard, Brooklyn, and will go out of commission to-day, having been pronounced unseaworthy, no provision is being made for rebuilding her. All that remains of the original vessel are the mizen top sail sheet bits.

THE COURT STILL CROWDED.

WASHINGTON, Nov. 30.—Despite the rain there was scarcely any diminution in the crowd. Among the experts present were Dr. Nicholls, of Bloomingdale Insane Asylum, and Dr. Gray, of Utica. Guiteau resumed the witness stand.

NIHILIST PRESS.

ST. PETERSBURG, Nov. 30.—Another secret printing office has been discovered with a quantity of printed papers in which the authors ask the sympathy of the nation for what they are about to do for the benefit of all. The announce that they must make a supreme effort, which they say will be the finishing stroke.

THE HIGH SHRIEVALTY.

DUBLIN, Nov. 29.—The Liberal members of the corporation of Dublin have decided to name E. Dwyer Gray and several other advanced politicians to the Lord-Lieutenant for the office of High Sheriff of Dublin. It is usual to appoint the first person named.

A NARROW ESCAPE.

ST. PETERSBURG, Nov. 29.—It appears that the assassin Sampowski asked for General Ignatieff at the Bureau of the Ministry, and not finding him, attempted to kill his adjutant, General Teherevine, instead.

A NEW EDITOR.

PARIS, Nov. 29.—The *Gaulois* to-day appears with a heading announcing that M. Jules Simon will in future be political editor of the paper. It is reported that M. Simon will be seconded by M. Bardoux and other influential republicans. He intends to begin a campaign in defence of the threatened clergy and constitution.

MEETING OF PARLIAMENT.

LONDON, Nov. 29.—Parliament has been reprorogued to February 7th, when it will meet for the despatch of business.

CLERICAL INFLUENCE.

PARIS, Nov. 29.—The French Chamber of Deputies has annulled the election of M. de la Villagontier, Monarchist member for Fougeres, on the ground of clerical influence.

FATAL COLLISION AT SEA.

LONDON, Nov. 29.—The steam yacht Lucerne collided with the clipper Dundee near Gravesend. The former sank, and seven persons were drowned.

CASTELAR AND GAMBETTA.

MADRID, Nov. 29.—Emilio Castelar contributes a remarkable article on the Gambetta Ministry to the Conservative paper *El Pio.* He points out that circumstances no less than French national customs and inclinations have now firmly established the Republic of France. Repeating the saying of M. Thiers, he declares that the Republic must be Conservative, and contrasts the Republic of 1848 and 1878, the latter based on the matured principals of French society. In a striking passage he shows how wide a gulf separates a tolerant policy, such as that of M. Thiers, from that of the French Radicals of to-day, whom he styles Jacobins, Positivists, and dogmatists. Coming to the discussion of the Gambetta Cabinet, he satirically says that with the exception of its leader who is a statesman greater than Guizot and Thiers, and whose genius is overpowering in originality and power, the new Ministers are merely interpreters of the ideas of the *Republique Francaise.* He is especially severe on M. Paul Bert and M. Allen Targe. In conclusion he condemns M. Clemenceau and the rest of the Intransigeants, and advises all Conservatives, Democrats, and Republicans to rally around M. De Freycinet, who is thus placed at the head of a second great party, and would help to consolidate the present institutions of France.

A REFUNDING BILL.

WASHINGTON, Nov. 29.—Randall is reported to have said that a 3 per cent. refunding bill will be introduced in the house at an early day.

YOUNG'S POINT.

From Our Own Correspondent.

BLACKSMITH.—Our old friend, Jos. Lannin, has removed northwards to shoe horses and blacksmithing in general for Mr. Geo. Chalmers' shanty—head of Stony Lake—P. Phalen, jr., foreman, and Richard Hurd begins in his stead. He come well recommended, having learned his business with Mr. Yelland, of Peterborough, and is considered a good horse-shoer and A 1 for blacksmithing in general. We are sorry to part with Mr. Lannin and trust that his successor in business will do well.

TRAPPING.—Our old friend, Mr. P. Young, sr., cannot be kept at home these times, having learned the art of trapping when young he cannot resist the temptation of trapping for a mink or musk rat, but as for breaking the heart of a beaver now-a-days, that day has gone bye. He has a son Robert who follows the profession and has been pretty lucky of late. But skins are cheap. A law ought to be passed by the Local Government to prohibit trapping or killing fur bearing animals for, say at least, three years—better for all concerned in the long run.

THE WEATHER.—The roads (the Douro side excepted) are now good to travel on. Boating is a thing of the past for a season.

LUMBERING.—Mr. A. Dugan, foreman for Mr. Geo. Chalmers, has got 100 acres underbrushed, and about 1,000 maple and beech trees skidded for stove wood, ready for the stove, also a great many pine, basswood and cedar logs. When all cleared up the 100 acres will look well. Mr. Chalmers is to sow it all in fall wheat next year. Arthur is wishing for sleighing.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so

WEDNESDAY, NOVEMBER 30, 1881.

A MAGNIFICENT DEMONSTRATION.

ATTRIBUTE it to what cause one may, the banquet given to Sir John A. Macdonald, on the 23rd November, in the Pavilion of the Horticultural Gardens, Toronto, was a magnificent demonstration—one which has never been equaled, and it would be well-nigh impossible to surpass in this or any other country, and the gratifying aspect of it was that, large as the pavilion is, it was unable to accommodate those who desired to be present. Early the day before every available ticket had been secured, and those who thought there would be time enough to secure them were grievously disappointed and had to remain away. It was indeed a tribute of which any man might be proud—especially coming as this one did, after forty years of active and uninterupted service in the Government of his country, and is the best possible answer which could be given to those who for so many years have devoted their abilities to misrepresenting his every act and traducing the private character of a man who will live in Canadian history long after his enemies are forgotten.

MR. THOMAS WHITE, the representative elected by Cardwell, for Montreal, asked the Tory delegates not to be alarmed at the result of the coming election in Quebec. He hopes that "many of the electors who are now voting "with the Opposition in the present local elec- "tion will vote with the Dominion Govern- "ment in a general contest." And does Mr. White really imagine that men who will not swallow Senecal will swallow Tupper?—*Globe of 24th.*

As a rule Protestant Conservatives refuse to support Senecal. While retaining their allegiance to Sir John and the N.P., in the commons they are opposed to the lesser corruptionists at Quebec.—*The Globe's Montreal letter of the 25.*

Which are we to believe, the editor sitting in his sanctum, on King street, Toronto, or his reliable (?) correspondent on the spot?

FOR THE YOUNG LADIES.

To the Editor of the Review.

SIR,—Why should not many of the young ladies of our town join the Mechanics' Institute evening classes, particularly the book-keeping and arithmetic class?

I see no reason why they should not, but many why they should.

In the by-gone days many would-be aristocratic ladies thought it very creditable to show that they not only need not, but that they were also quite incapable of engaging in any useful employment. A few ignorant pretentious people affect the same still. But the times are changing; to be useful now is to be honorable, and the higher and greater service one renders to themselves and society, the more distinguished and respected they become. Such being the case it is evident that a course of mental training, which is so directly useful in the common affairs of life, ought at once to be seized and its advantages secured, not so much with the view of becoming regular accountants and pursuing that vocation, which, however, many do, with both credit and advantage, and it certainly must be a source of satisfaction to think that in the event of other plans of life failing, or under unforseen adverse circumstances, one possesses always a means of respectable livelihood, possibly of a competence. But I would have ladies practically understand book-keeping and business methods for the sake of better administering the affairs of the household. It is said that a man must ask his wife's leave to be rich. This leave if asked cannot always be granted. But a woman who conducts her affairs on business principles, who can calculate and work to a given point, *can give* her husband *leave to be rich.*

Look at the situation of the well-to-do skilled mechanics, a class in high demand at the present time, and who are rapidly rising in the social position; his hours of labor overlap the hours of business, his mind is on his trade, in order to be proficient and progressive he reads it up and studies it outside of working hours, he and the ambitious boys who expect to fill similar places with him will be attending our drawing class this winter. It is evident that this mechanic's wife must be the business man of the family. If his success, as the good bread-winner, depends on his mechanical skill, her success as the wise economizer and controller of his means, depends on her business tact and management, to which our business classes and business schools would immensely contribute.

We hope the young ladies will think about this and act with the usual sagacity of their sex without asking leave of Mrs. Grundy.

Yours, etc.,
W. H. TROUT.

THE CONSERVATIVE CONVENTION.

The Largest and Most Enthusiastic Political Gathering ever Held in Ontario.

The enthusiasm with which the members of the Liberal Conservative party in this Province responded to the call of their leader—Sir John Macdonald—to assemble in convention in Toronto on the 22nd and 23rd Nov., has, we venture to say, never been equaled in the political history of this or indeed any other Province. The number present at the opening of the convention has been variously estimated at from 1,000 up to 1,400, but whatever the actual number present, this we do know, that Shaftesbury Hall, both floor and gallery were filled to overflowing—even the very isles being occupied by those who could not find seats. But it was not only a large gathering, but what is of more importance, a representative one—every constituency being truly and *bonafide* represented thereat.

Space forbids our attempting anything approaching even of the briefest report of the proceedings, we may, however, mention that there were present from this county Messrs. J. Burnham, M.P., G. Hilliard, M.P., R. A. Morrow, H. H. Smith, J. B. Pearce, J. Finlay, H. T. Strickland, W. C. Saunders, R. C. Strickland, J. Clarke and J. Carnegie.

Mr. James Turner, of Hamilton, occupied the chair, and addresses were delivered during the two days by Sir John Macdonald, Sir Leonard Tilly, Hon. M. Bowell, Hon. Mr. Caron, and a large number of others among whom was Mr. Thos. Cowan, of Galt, who in '78 was an opponent of the N.P., but who has since seen the error of his ways and now gives it and its framers a hearty support.

"RESOLUTIONS ADOPTED."

Before closing the following resolutions were passed by the Convention:—

The delegates from the various constituencies of Ontario having now completed the business for which they were called together, deem it their duty before separating to put on record the opinions they hold on the chief public questions of the day, and on the policy of the present Government with respect thereto.

Resolved, "That we recall with satisfaction the proceedings of the convention of January, 1878, at which resolutions were adapted favouring a National Policy for the protection and development of the agricultural, manufacturing and mining interests of the Dominion. The policy propounded in that convention was embodied in the resolution moved in the House of Commons by Sir John Macdonald in the session of 1878. It was accepted by the people at the polls after an exhaustive discussion, in the press, at public meetings, and in Parliament, during which no portion or phase of that policy was left unassailed or undefended. It was carried into effect by the legislation of 1879, and since been vigorously maintained by the administrative action of the Government. The assembled delegates therefore desire, in the most earnest manner, to express their gratification at the promptitude and energy displayed by the Government in making the National Policy the law of the land, and in enforcing the provisions of such law, in thorough fulfilment of the promises made to the people."

Resolved, "That the progress of Canada since 1878 in population, enterprise, and wealth as evidenced by the extension and multiplication of industries, the expansion of trade, the increase of revenue, the advance in the value of Canada securities, as well as the restored confidence in the resources and future of the Dominion, has been so great that the delegates feel justified in attributing the country's remarkable prosperity as due in a large measure, under a favouring Providence, to the timely adoption of a wise and well-considered National Policy."

Resolved, "That the delegates desire to express their strong conviction that the continuance of this prosperity greatly depends on the permanence of the fostering policy of 1879, and that its reversal in whole or in part would check enterprise, alarm capital, make Canada again a slaughter market for the productions, manufacturing and agricultural, of foreign countries, and greatly tend to cause a recurrence of the depression which so heavily weighed down the energies of the country for several years before the adoption of the present patriotic policy."

Resolved, "That the courageous and successful policy of the Government with respect to the Pacific railway meets with hearty approval of this convention. The contract entered into by them for the completion and working of the whole line, while less costly in its terms than that made in 1873, and much less burdensome than the terms offered by the late Government in 1877, secures the rapid construction of the railway and the early settlement of the North-West, and relieves the Government from the risk and responsibility of maintaining and operating the line as a public work. At the same time the control reserved to the administration over the location of the line, and over the rates for the carriage of passengers and freights, provides abundant guarantees for the selection of the most advantageous route, and the adoption of the tariff best calculated to direct the great stream of trade through Canadian channels to our cities and seaports."

Resolved, "That the financial condition of the Dominion is so eminently prosperous, that the convention desires to express its gratification at the departure of the dark days of deficit, and the return to a period of surpluses. The maintenance of an ample revenue will raise the credit of the country, enable the Government to reduce the interest on the public debt, provide for the prosecution of public works required for the material advancement of the country, and will afford an opportunity for reducing taxation without lessening the protection now ensured by the tariff to the varied industries of the country."

Resolved, "That this convention, having recorded its full approval of the administrative policy which has been so largely instrumental in promoting the prosperity of the Dominion pledges itself to support the present Government by every legitimate means whenever it may be called upon to appeal to the country."

Resolved, "That the convention regards with apprehension the continuing increase in the public expenditure which has taken place under the administration of the present Provincial Government while the revenue of the province has remained comparatively stationary, and is of opinion that by the exercise of greater economy that expenditure may be materially reduced. They also view with strong disapprobation the centralizing policy of the Ontario Government in seizing upon appointments not previously in the gift of the executive and using them for the purpose of their political aggrandizement, and are of opinion that that policy is inimical to the best intrests of the province and fraught with danger to the rights and liberties of the people.

"The convention desires to express its warm sympathy with, and approval of, the course pursued by the Opposition in the Provincial Legislature under the able leadership of Mr. Meredith and pledges itself to continued and hearty support."

Resolved, "That this convention heartily and thankfully rejoice at the restoration to health of Sir John Macdonald, the trusted and honoured leader of the Liberal-Conservative party, the ripe statesman, who, with wisdom, patriotism, and success, has mainly shaped the policy and guided the legislation of Canada for more than a quarter of a century; and this convention fervently hopes that his life, in undiminishing usefulness, may long be spared to his country."

Resolved, "That this convention desire before dissolving to express its abiding conviction that it is of the utmost importance to the Dominion that its connection with Great Britain be maintained, and its belief that the advocates of independance, with its consequence, annexation to the neighbouring States, represent merely an insignificant minority."

Resolved, "That this convention recommends that the candidate of the Conservative party in each riding be selected by delegates, as pointed out on page 6 and 7 of the phamplet marked private distributed at this convention."

GRANDFATHER'S PET.

I've a bonny wee darlin', she's no very auld,
Just like a sweet bud that begins to unfauld:
There are mony darlin's that's nae doubt thought fine,
But it's seldom ye see a wee darlin' like mine.

She's no in her teens yet and quite a young thing,
An' fresh as a primrose ye see in the spring;
To compare her to flowers is quite out o' place,
She excels them a' wi' her sweet sonsie face.

She's a bonny wee darlin' and dear loving pet,
Her winsome bit manner ye cannot forget;
Whiles when I teaze her she feigns in a plicht,
But kisses and sweets soon put her a' richt.

It soun's weel to speak o' angels aboon,
But better on earth to hae ane o' yer ain;
It's this keeps me happy wherever I be,
My bonny wee darlin's an angel to me.

She's noo sae engagin', I deem her a queen,
Her pure soul it peers through her bonny blue een;
The breath frae her lips as it passes, ye powers!
Resembles the simmer wind kissing the flowers.

My bonny wee darlin', while hope links the chain,
I've this fervent wish—ye wad aye be my ain;
But ane made for lovin', it's easy to see,
She'll soon hae around her mae lovers than me.

She apes my bit oddities; that I forgive,
And pray most sincerely that lang may she live,
She's seen but as simmer—my heart's on her set.
May heaven protect her aye—grandfaither's pet.

JEEMS KAYE AND THE LAW OF GRAVITATION.

Auld Mr. M'Cunn is an extrornar scientific man, aye propounding some new theory aboot something, and fairly bamboozling kind o' plain sailing folk like mysel' that are quite content to tak' things as they come, withoot diving awa doon to the age o' antiquities tae fin' oot the why and the wherefore.

The ither night we were haeing a wee drap toddy, and jist as I wis lifting my gless up Mr. M'Cunn spiers quite sharply, "What gars the epples fa' aff the trees, Mr. Kaye?"

"Guid gracious, Mr. M'Cunn," I says as I laid doon my gless, "what a like question. Were ye tasting afore ye cam in?"

"No," he replies, "I'm in sober ernest!"

"Weel, then," I remarks, "it disna say much for your intelligence. What mak's the epples fa' aff the trees? What's tae hin'er them fa'ing aff?"

"Tut! tut! ye dinna understand me; why do they no hing on for ever?"

"Why do they no hing on for ever? because they fa' aff."

"But what gars them fa' aff?"

"What wid mak ye fa' aff?"

"Noo, Mr. Kaye, there's nae use in getting angry, or in bantering me. Answer my question scientifically!"

"Weel, a' the scientifically that I can answer it is that eppless, grossats, an' everything I ken o'—except maybe orangers, and I'm no acquant aboot them—fa' aff if they are no pulled. I suppose it is the wecht that dis it."

"Man, Mr. Kaye, it's weel seen ye never read Sir Isaac Newton. It's the law o' gravitation does it."

"I've herd of the gravitation water works oot at Barrhead," I says, "but never o' gravitation epples."

"But it's the law o' gravitation, Mr. Kaye; the earth attracts the epples tae it, and so they fa'."

"Oh, Mr. M'Cunn," I says, "ye're getting faur owre deep for me! Ye're ga'ing owre the score a'thegither! talking aboot the earth attracting epples! Why does it no attract your heid?"

"Because it's fastened on."

"Oh, Mr. Kaye," he says, "ye're owre thick-heided—Ye don't un'erstan thae scientific things. Noo, for instance, if ye throw up your hat intae the air, why does it fa' doon again?"

"Mr. M'Cunn," I replies, "I'm afraid it's mair than drink that's wrang wi' ye. I doot—I doot—there's a slate aff. This is awfu'."

"Aye, but answer me, Mr. Kaye."

"Ye'll get nae answer frae me—if ye dinna like tae ask sensible questions ye can let it alane. Hae ye been reading ony o' Bradlaughs books?"

"Gravitation again, Mr. Kaye! and noo, if ye rouw a bool alang the floor, why will it go to a certain length and then stop?"

"Mr. M'Cunn," I says, "this is getting waur and waur. I wish ye were safely hame and in yer ain bed; for I don't want ye tae be taking ill here, and if I'm ony judge ye're in for a sharp attack o' the measles. 'Tae think that a man o'—it is sixty-nine or seeventy ye are?"

"Sixty-nine."

"Weel, tae think that a man o' sixty-nine wid be havering awa' aboot epples fa'ing aff trees and bools rouwing alang the floor, and tae say its science! Ye were talking aboot Sir Isaac Newton and the epple. Was that him that fired at the epple on his grandfather's heid? There's a recitation aboot it."

"Oh, that wis William Tell—a different man a'thegither. You're no well read, Mr. Kaye."

"Weel," I says, "certainly I'm no weel up in scientific subjects like you, but I try tae be as practical as I can, and I look at what's going on roon aboot me, and I often see in the papers that money is chape. Noo. Mr. M'Cunn, that has often puzzled me, and I wid like ye tae explain it. When money is at it's very cheapest, wid ony o' the banks gie me a po'in' note for nineteen shillings? And they talk aboot money fluctuating! Guid gracious, it's aye fluctuating—frae one pocket tae anither."

Mr. M'Cunn, wi' a' his science, couldna explain this—he owned he was bate, and said he agreed wi' me a poun' was a poun' a' the warl ower.

"Noo, Mr. M'Cunn," I says, "that's jist whaur ye gang aff the reel, ye see; ye haver awa' aboot epples fa'ing aff the trees—what dis it matter tae you or me whether they fa' aff or no, ye canna prevent it I suppose—an' yet ye never fash your thoom aboot this money being chape, altho' it micht be worth something tae get tae the bottom o't. If I wis hauf as clever as ye are, I wid never rest till I kent what it meant. Hoever, whatever it may be in London, it seems tae be aye the same hereaboots, so we'll say nae mair aboot it, but jist sit intae to the fire, and hae anither gless o' toddy, an' I'll gie ye a guess that oor minister gaed at a party I wis at the ither nicht—

"Why is a wee bird sitting on a telegraph wire like a penny?" Noo, what d'ye think o' that ane?" Could ye anfwer'e? No, I thocht no. It's a gey deep ane—'Because it's heid's on the one side and it's tail's on the ither.' It's no often ye hear as guid a ane as that, Mr. M'Cunn."—*The Bailie.*

Warmth From Newspapers.

Many years ago, in one of the severe winters when there was much hardship among the poor, a city paper suggested that old newspapers, spread over his bed, would form an excellent substitute for blankets and coverlets. This brought upon the journal a great deal of harmless ridicule from other papers, but it brought comfort to many a poor family. In the matter of bed-clothing, especially, we are apt to associate warmth with weight, and do not consider that there is no warmth in the coverings themselves, but that they merely prevent the heat of the body from passing off. Whatever is a poor conductor of heat will make a warm covering. Paper itself is a poor conductor, but still poorer are the thin layers of air that are confined when two or three newepapers are laid upon one another.

A very notorious character in Ireland, the Rev. Thresham Gregg, who some time since challenged Bob Ingersoll to ecclesiastical combat, has just died at the age of 82. He was an excellent scholar, capital stump speaker, and as a dramatist exhibited considerable ability in a play called "Elizabeth." He was for many years chaplain to the Orange organization.

THE Zulu chief of a travelling museum which showed in Rochester was six feet and a half tall, of course, was advertised as seven. He wore scarcely any clothes, spoke what the lecturer said was Zulu language, and was terrific in a war dance. But the manager failed to play him his stipulated $12 a week, whereupon he complained before a justice in good English, and said he was Francis West, a hod-carrier.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good, If you don't feel just right try Hop Bitters.—*Nunda News.*

THE colliers in the Ostran coal mines, the largest in Austria, are on strike. At last accounts the strike was becoming serious. Twelve hundred men had struck. It was feared that the miners of large neighboring pits would join them. The strikers claim an increase of wages and demand the dismissal of all the overseers. Two companies of infantry have been sent to Ostrau.

THE London *Economist* says that while the advantages of New Zealand are, in point of climate and soil, incontestably superior to those of Canada, yet, as the former owes to England a debt involving an annual payment of $18.40 per head, while Canada has to pay but $12.70 per head annually to England, the verdict of of the London Stock Exchange in putting Canada's four per cent. ten per cent. higher than New Zealand fours is sound. The *Economist* considers that Canada's power of borrowing is far from exhausted.

TRUE TO HER TRUST.—Too much cannot be said for the ever-faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost 50 cents. Sold by Taylor & Macdonald.—4

FOR SEVERE COUGHS AND LUNG COMPLAINTS.—From A. J. Merritt, of Canton, Pa.—Gentlemen,—About ten years ago, after having had a severe attack of the measles, I was troubled with a severe cough and was threatened with consumption. My father having died at the age of 31 with consumption of the lungs, and my aunt having been carried off with the same complaint, it seems to be hereditary in our family. At the time alluded to, I was induced to buy a bottle of Dr. Wistar's Balsam of Wild Cherry, and can say conscientiously, I believe it saved my life. I was blacksmithing at the time, and often felt pains in my chest and lungs, which the Balsam relieved. I cheerfully give this statement, and hope you may have success with so beneficial a preparation 50 cents and $1 a bottle. Sold by all druggists.

The Best And Cheapest Recreation.

The simplest forms of recreation are the cheapest and the best. The four elements of recreation may be described as walking, talking, reading, listening. These four are the basis and primal constituents of amusements. A walk after breakfast is the finest tonic in the world. We are curious machines after all, and the brisk walk in the morning seems to brace up the whole physical and mental system. It is to be observed, however, that the walk should really be a recreation, and not form a study. People who are acute observers frequently convert the lanes and fields into a study or laboratory. They are busy with Nature or human nature. They will study the hedges or the humanities. Charles Dickens, who had an idea of preserving the requisite balance, used to occupy exactly the same time in walking as in writing. But perhaps he worked quite as hard at the walking as at the writing Mr. Stopford Brooke truly says in one of his semi-theological discourses: "Enjoyment is a necessity of life, and its morning air. It is equally vain and wicked to lessen or decry it, for we have not half enough of it. But it is a shameful thing when men, not ruling it with temperance, degrade it in the eyes of others by making it equivalent to satiety. Enjoy, then, but keep the beauty of enjoyment by self-restraint in it." Here we have indicated a governing principle in all our recreation. People who live simply for their amusement speedily transform the character of their pursuit. Amusement becomes their work instead of their by-play, their business instead of their pastime.

Cheap Paint.

It is said upon good authority that those wishing to paint and protect inside walls of shops, factories or mills will find the following an excellent and cheap receipe, which will last much longer than any ordinary whitewash:—Three hundred parts washed and sieved white sand, 40 parts of precipitated chalk, 50 parts of resin, and 4 parts of linseed oil are mixed and boiled in an iron kettle, and then one part of oxide and copper and 1 part of sulphuric acid are added. This mass is applied with an ordi- paint brush while warm. If it is too thick it is diluted with linseed oil. This paint dries very rapidly and gets very hard, but protects the wood excellently.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. WEDNESDAY, NOVEMBER 30, 1881.

LOCAL AND MUNICIPAL.

Nearly a Fire.

We understand that there was a very narrow escape last night, from what looks exceedingly like an incendiary fire in the very centre of the town. On returning home from the train, a little before eleven o'clock, and entering the stable, Mr. E. Phelan, Jr., noticed a strong smell of smoke, and at once proceeded to discover from whence it came. After a brief search it was found that the sill of the stable of Mr. Geo. McComb adjoining was on fire, and that the smell proceeded from it. As Mr. McComb's stable stands up over the creek, it is somewhat difficult to understand how fire in such a place could originate by accident, although it is of course not impossible. Had the fire not been discovered at the time it was there can be little doubt that it would soon have made a clean sweep of Phelan's stables and sheds, as well as McComb's, if it did not extend to more valuable property.

Mabel Heath.

The beautiful emotional and humourous domestic drama entitled Mabel Heath, will be given in Bradburn,s Opera House on Saturday December 3rd, in the afternoon at 2 p.m. and also in the evening, in which Miss Georgie Gardner will sustain the title role, supported by an excellent company. The play is one which has already met with marked success in the United States, winning flattering notices from the press and drawing large and gratified audiences. It is a strong play in all respects, being well written, and abounding in strong emotional incidents and highly dramatic situations. The Syracuse *Courier* in speaking of Miss Gardner says her performance was marvelous in grace and vigor and there is probably not a woman in the country to-day other than Adelaide Phillips who can equal her.

Life of Garfield.

Mr. Mack is in town soliciting orders for the "Life of Jas. A. Garfield," by the well-known author, Jas. D. McCabe, and published by the National Publishing Company, Philadelphia. It contains 700 pages, beautifully illustrated, and gives a full account of the late President's early life, his struggles with poverty and efforts to obtain an education, his services as a soldier and statesman, his able and patriotic administration doing battle with rings and corruption in high places, the history of his assassination and of his long and painful illness, his last hours and death, the funeral solemnities, &c. It is a handsome volume, and should find a place in every library.

Accident to the Norseman

The Port Hope *Guide* of Tuesday says:—last night the steamer Norseman left this port for Whitby to load peas for Rochester. Some time during the night she ran on a reef two miles east of Oshawa harbour, and has filled with water. We have not received an account of the full extent of the accident, only what will be found in telegraphic column. A steam tug from Kingston with steam pumps has gone to her rescue, and if the weather should prove favorable she will be got off without much trouble. We understand her insurance runs out to-day. All hands are safe.

Peterboro' Abroad.

We find the following in a recent letter of the *Globe's* Norwest correspondent from Shoal Lake: "I have met an Irish Canadian, Mr. Merrick, the most cheery and cheerful of them all. He has done much, and his energy and hopefulness continuing he must succeed well in the future. His wife, a Peterboro' lady, is also well adapted by disposition to life in the North-West. She is an unceasing worker, and her house, though limited in size like those of her neighbours, is owing to her taste and industry, a very *bijou* of comfort."

New Goods.

The Market.

There was a good attendance on the market this morning considering the unpleasant weather. There was an abundant supply, especially in pork, beef and poultry.

POLICE COURT.

WIFE BEATING.

WEDNESDAY, Nov. 30.— James Watson, was brought up on a remand on the charge of assaulting Mary Watson his wife, with intent to do her some grievous bodily harm. As complainant did not appear, and it was supposed that she was being kept out of the way to prevent her giving evidence, the case was further remanded till December 5th.

Midland and Grand Junction Railways.

The traffic returns of the above railways for the week ending Nov. 21, 1881, were as follows:

MIDLAND RAILWAY.—Passengers and Mails, $2964.67; Freight, $3457.05; Total, $6421.72, as compared with $5640.34 for the corresponding week of 1880, being an increase of $781.38, and the aggregate traffic to date is $370,066.71, being an increase of $56,959.67 over 1880.

GRAND JUNCTION RAILWAY.—Passengers and Mails, $737.85; Freight, 1,435.36; Total, $2,173.21, as compared with $1,442.78 for the corresponding week of 1880, being an increase of $730.43, and the aggregate traffic from 1st June to date is $59,876.07, being an increase of $33,225.79 over 1880.

Personals.

Mr. A. McQuade, M. P. for South Victoria, was in town to-day.

We are glad to notice the success of Mr. P. Rudkins, our popular young townsman, in his studies at St. Michael's College, Toronto. Mr. R. was assistant teacher of the Separate school for three years and was held in high esteem for efficiency. He studied with Mr. F. J. Lynch, the principal of the school, three or four years previous to entering the college. The success of his pupil reflects credit on Mr. Lynch.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate to fresh winds, fair to cloudy weather with light rain in some localities, stationary or slightly lower temperatures.

Christmas Cards.

We have received some beautiful specimens of Christmas cards from Mr. Jas. Little, who seems to have an extensive and choice assortment from which his customers may select.

New Sidewalk.

A new sidewalk has been laid down opposite Messrs. Garvey and Dolan's new hotel on George street, thus filling an awkward gap for pedestrians.

OUR MINING WEALTH.

A Sketch of Present Operations—Resources More apparent.

It is almost two years since your special correspondent visited the Mississippi to judge for himself as to the truth of reports which had reached him of the richness and availability of the iron deposits of that locality. The railway had then just been opened to Mississippi Station, which is a mile or two south of the river, and he found matters in a very primitive condition. The Forest House which is now a well-kept hotel, affording extensive accommodation to both travellers and boarders—was then a small structure into which railway employees, mining prospectors, and occasional travellers of all classes, were huddled together to find sleeping place as best they could. Mr. Folger, the Superintendent of the road, who accompanied me to the Mississippi, told me that on one occasion he was one of thirty-seven who slept together on the floor of a very moderately-sized room. Your correspondent at that time, in spite of unfavourable weather and other drawbacks, saw enough to satisfy him of the valuable character of the deposits in the neighbourhood, and his descriptive account of what he saw has done much to turn the attention of capitalists to this district.

THE MISSISSIPPI MINE.

At that time nothing in the way of mining had been attempted on the Mississippi, and all he had to base his opinion on was the appearance of out cropping ore. The land around, to the extent of 2,000 acres, was about that time purchased by the Folger brothers of Kingston, who leased a portion of it for ninety-nine years to a company of United States capitalists at the head of whom is Roberts, the President of the Charlotte Iron Works near Rochester. The company—known as the "Mississippi Mining Company"—have contracted to pay the owners of the property a royalty on a minimum of 30,000 tons of ore per annum, and are actually raising that quantity now from a single mine. The ore, which is magnetic and very rich, is chiefly shipped to Charlotte, the surplus being sent to Elmira and Pittsburg. A second mine has been opened quite close to the first, but on a separate vein of ore, and already most encouraging results have been reached. The working superintendent, Mr. Law, was at the time of my visit putting in hoisting machinery to take the place of the ordinary bucket and pulley apparatus, and the work will now go on with greater rapidity. The

OTHER SHAFT WAS FIRST OPENED

in January, 1880, and has been carried downward to the depth of 75 feet, with an average width of 40 feet. The vein dips to the south east, and runs from south west to north east. It can easily be traced for a considerable distance by means of outcrops, and it is very little broken by the intervention of rocky streaks, so far as the work of excavation has gone. In a south westerly direction from the opening, at a depth of some 50 feet, a tunnel was run to a distance of 70 feet. After taking a large quantity of ore out of this spot, the shaft was sunk to its present depth, and the work of excavation is now going on underneath the former tunnel and parallel to it. The amount of ore raised averages 100 tons a day, but much larger quantities than this are taken out when the vein is worked under most favorable conditions. In a very short time, when the second mine is thoroughly equipped with machinery, the amount of ore raised will be greatly increased, and this without a corresponding increase of expense, as the openings are so close to each other, that one boiler serves to work not merely all the hoisting machinery, but also the

STEAM DRILLS IN THE MINES.

The facilities for loading the ore on flat cars are perfect. The small cars on which it is hoisted out of the mine are drawn up on trestle work until they reach a spot directly over the cars, and the ore is then dumped on the latter, without having to be handled at all. The load allowed a single car is ten tons, and each truck carries two tons up from the mine. Between the mine and the switch on the main line—a distance of less than a mile—stands on a pleasant looking flat spot the village occupied by the workmen. Most of the buildings have been erected by the company, between whom and their employees the most pleasant relations seem to subsist. Some of the miners board, but it has been the policy of the company to employ married men and settle them in houses. There are therefore between 30 and 40 families living either in the little hamlets or cottages built by themselves in the forest surrounding the mines. In the course of a few months the rapidity of development which has marked this interesting spot will no doubt lead to a still larger influx of population.

OTHER SPLENDID MINES.

The first mine reached on the trip north from Kingston is not the Mississippi, but the Glendower. This is a joint stock organization, and is well enough stocked, but is not at present doing much, mainly on account of its distance from the railway. The mine is about four miles from Bedford station, and the ore has to be hauled through that distance with teams.

Beyond the Mississippi several miles is the Levant mine, worked by the Bethlehem Iron Company, of Pennsylvania. The railway is not yet open for traffic to this point, but pending its completion the company are raising ore at the rate of 40 tons a day, and piling it up to await an outlet. They have two openings made, one 75 feet deep along a vein from 12 to 15 feet wide, and the other 50 feet deep along a 30-foot vein.

Quite close to the Levant mine is one operated by Boyd, Caldwell & Co., who are raising ten tons a day from a vein 25 feet wide, which they have already followed to a depth of 20 feet.

Still further north and near the Clyde River, W. G. Caldwell, M.PP., has a few men at work raising ore from a mine on his extensive property, which occupies both sides of the railway track for several miles.

It is expected that all the ore now being raised in these different localities will be overtaken by the railway by the first of June. After reaching the Madawaska, to which point only the Ontario Government aid extends, there will remain 14 miles to be completed in order to connect with the Canada Pacific. That some means will be found of bridging over this hiatus is confidently hoped, but no definite financial plans have yet been laid.—*Toronto Globe.*

People have no more right to become dyspeptic, and remain gloomy and miserable, than they have to take poison and commit suicide. If the stomach becomes weak and fails to perform its functions, Burdock Blood Bitters will speedily remedy the trouble.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

A REAL NECESSITY.—No house should be without a bottle of Hagyard's Yellow Oil, in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures, or relieved so much pain and misery. It is called by some the Good Samaritan, by others the Cure-all, and by the afflicted an Angel of Mercy.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible'" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental facultiee brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

REPORT DENIED.

LONDON, Dec. 1.—The loss of the yacht Lucerne by a collision with the clipper Dundee, is denied.

GARFIELD'S MEMORY.

PARIS, Dec. 1.—At a meeting of the American Legation last evening, a committee was appointed to collect subscriptions for the Cleveland monument to Garfield.

NIHILISTIC DOINGS.

ST. PETERSBURG, Dec. 1.—Sankowski has confessed that he and three other Nihilists had sworn to kill General Ignatieff, Tcherevine and Koslow, prefect of police. Tcherevine owes his life to the precaution of wearing a coat of mail under his clothes.

THE CLOTURE IN PARLIAMENT.

EARL Carnarvon, in speaking at Portsmouth yesterday, said that he identified the Government with the revolutionary party as against at once the rights of property and the liberties of the people and the freedom of speech. He said the Conservatives would oppose any attempt to introduce the *cloture* in parliamentary debate.

AMERICAN.

INCORRECT RUMOURS.

WASHINGTON, Dec. 1.—It was falsely reported that a crank fired at the President at a hotel, and also that a lunatic tried to shoot him at his residence. It is believed that the rumours were circulated by a practical joker.

ONWARD MARCH.

FORT KEOGH, Montana, Dec. 1.—The track of the Northern Pacific railway was yesterday laid to this point.

QUARANTINE FEES.

NEW YORK, Dec. 1.—In the quarantine investigation yesterday the President of the Ship Owners' Association declared that the fees fixed under the state laws were illegal, being a restraint to commerce. The witness thought that the fee ought to be abolished.

NO WOMEN WANTED.

NEW YORK, Dec. 1.—The cigar makers last night denounced the employment of women in cigar factories.

A BAND OF CRANKS.

WASHINGTON, Dec. 1.—Scoville has received the following:—Milwaukee, Nov. 26.—To C. J. Guiteau, Judge Cox and Jury, now trying Guiteau. Gentlemen, you are hereby notified that if the trial of Guiteau, for the murder of General Garfield, results in the acquittal of the prisoner, he and you may commend your souls to mercy, and say farewell to your friends. We are now 1,000 strong in this city, and branch organizations are being formed in all the principal cities in the country; we expect at least 20,000 from New York and the whole state of Ohio. Have you heard of Lou Williams? Our object is death to Guiteau, and he cannot escape, as if he is acquitted or declared insane we are sworn to march to Washington and lynch the assassin, together with Judge Cox and Jury. Outraged justice demands this sacrifice for the deliberate murder of noble Garfield, and for the farce which has been permitted to invade her solemn temples for the prostitution of law at the hands of the miserable Cox. One has failed, but there are thousands who have yet to fail. Beware? (Signed) The Ghost of Garfield.

ITALIAN BEANS.

NEW YORK, Dec. 1.—500 bags of Italian beans, the first importation from Italy in the history of the bean business of the country, were received here yesterday.

FASHIONABLE WEDDING.

NEW YORK, Dec. 1.—Among the prominent weddings here yesterday was that of Clarence Van Zandt, Rochester, and the daughter of Dr. J. R. White, of this city.

OBIT.

NEW YORK, Dec. 1.—Sanford Brumley, a prominent member of the Produce Exchange, died yesterday, aged 54. Thomas R. Gould, an American Sculptor, died in Italy on Sunday aged 63.

MONETARY.

NEW YORK, Dec. 1.—The *Tribune* says that the call for 3½ per cents issued yesterday is to be interpreted as meaning that they do not intend to purchase four and four and a half per cents, until the extended bonds are redeemed.

THE WHITE HOUSE.

WASHINGTON, Dec. 1.—The Executive Mansion will not be ready for the President until the latter part of next week. The employees at the mansion say that, but little idea can be formed of the delapidated condition of the premises, by those not employed there.

FOR THEIR RULER.

WASHINGTON, Dec. 1.—At the coming session there will be a number of bills introduced providing for the erection of a private dwelling for the President. The plan perfected by Senator Morrill of Vermont is to duplicate the President's house near to Potomac river. Another plan provides for the building of a dwelling on Meridian Hill, a mile and a half from the White House.

SHORTENING THE TRIP.

NEW YORK, Dec. 1.—Prominent capitalists here contemplate building three steel ocean steamers for passenger traffic only. The vessels will be provided with power three times as great in proportion to their displacement as is obtained by ships now afloat, and they are expected to make the voyage to England in about five days.

THE PRISONER'S DEMEANOR.

WASHINGTON, Dec. 1.—Guiteau yesterday lectured to a great audience, and he knew it. He spoke with animation, sometimes waxing almost eloquent as he employed the arts of an orator and piled picturesque phrases one upon another. He held universal attention. The changeful moods of the man were wonderful in their number and intensity. The only time Guiteau seemed to be affected during his terrible cross examination was when Judge Porter reminded him with great power of the long days of suffering which the President endured; Porter asked the prisoner whether he thought the deity intended that on the President's removal that he should suffer in that way. Guiteau was silent for a long time, and his glance was cast upon the floor.

MARKING THE PLACE.

WASHINGTON, Dec. 1.—A marble tablet was placed in the ladies' waiting room at the Baltimore and Potomac depot yesterday, to mark the spot where Garfield was shot. The inscription is:—James Abraham Garfield, President of the United States, shot July 2nd, 1881.

THE GREAT TRIAL.

NEW YORK, Dec. 1.—A Washington special to the *World* says that it is probable that the Guiteau trial will soon finish. Most of the testimony to follow will be that of experts. About 30 experts are in attendance, most of whom are retained by the prosecution. Guiteau showed no lack of shrewdness during his cross examination yesterday. The general belief is that Guiteau's cross examination so far has damaged the cause of the defence.

FATAL FIRE.

SCRANTAN, Pa., Dec. 1.—At a fire here early this morning Mrs. McCarthy and Mrs. Reid perished in the flames.

THE ASSASSIN'S TRIAL.

WASHINGTON, Dec. 1.—At the trial to-day Guiteau addressed the audience. He said:—"Two weeks ago I sent out an appeal for money, I did it on my own account. The day afterwards Scoville publicly announced that it was without his authority. I again wrote to my friends to send me money in the interests of justice. If they don't want to be known let them send it without their names to Scoville.

STILL IN THE BOX.

WASHINGTON, Dec. 1.—Judge Porter in the cross examination elicited from Guiteau that physically he was a coward and always kept away from personal danger, and that morally he was as brave as a lion, when he thought that the Deity was back of him. The Deity influenced him to remove the President. In his opinion the doctors killed the president. The acts of Jones and Mason in attempting to kill him were wrong and they ought to to be punished, unless they can show that they were inspired by the deity. The witness soon showed signs of impatience and by striking his open hand upon the desk emphasized every sentence he uttered. When pressed for answers he finally became obstinate and shouted to Porter: I know you well and I know bigger men than you are. I have seen you shake your finger at a witness in New York, but you can't scare me. Shortly after when asked if he believed in the commandments he responded that it ought to read in his case "Thou shalt kill." He became exceedingly violent and refused to discuss that matter at all, There was no murder in his case and no killing. It was simply for the jury to determine whether or not his action in removing the President was inspired by the deity or not. It was all nonsense to split hairs any longer over that work. It must be distinctly understood that the removal of the President was the act of the Deity.

EVICTIONS.

DUBLIN, Nov. 30.—The evictions on the estate of Lord Bantry, at Castledown, proceeded quietly. The tenants were two years in arrears. Most of them offered to pay a year's rent, which in some instances was accepted on account.

MORLEY SPEAKS.

LONDON, Nov. 30.—Mr. Samuel Morley, M. P., in an address at Bristol last night, gave an enthusiastic account of his tour in America, and said the material and moral progress throughout all the States was simply immense. There was also growing heartiness and good will towards England.

THE PANAMA CANAL.

PARIS, Nov. 30.—The engineer of the Panama Canal Company returns to the Isthmus on the 6th of December, and work will be immediately commenced. The Isthmus will be attacked at three points.

SUSPECTS.

DUBLIN, Nov. 30.—Killen, barrister, has been rearrested under the Coercion Act for inciting people not to pay rent. Michael Boyton has been released from Kilmainham gaol on account of ill-health. He was conveyed to the hospital.

MURDER TRIAL.

ST. PETERSBURG, Nov. 30.—A court-martial met yesterday to try Prince Tcherevadhidse, who is accused of the murder of a shop-keeper last July. The court was crowded with the rank and fashion of the city. One hundred and thirty-two witnesses are to be called, among them a troupe of Bohemian singers.

AMERICAN.

RAILWAY ACCIDENT.

TRENTON, N. J., Nov. 30.—A section of the express on the Pennsylvania railroad ran off and delayed the first section between Lawrence and Pencion. The locomotive of the second section was badly damaged. The cars of the first section were wrecked and a number of passengers were hurt. The engineer and fireman of the second section were injured. At Bristol a freight train ran into the rear of the express, and the passengers were badly shaken up. This is the fourth accident of the same character on the same road within twenty-four hours, all attributable to the dense fog.

A NOTORIOUS FORGER.

BROOKLYN, Nov. 30.—Chas. Becker, the notorious counterfeiter, was found guilty of forging notes on the bank of France.

THE U. S. NAVY.

WASHINGTON, Nov. 30.—The report of the Naval Advisory Board was made public to-day. It recommends the construction of 38 unarmed cruising vessels, and of a number of rams, torpedo gunboats, and torpedo boats. After eight years if the programme of the board is adopted, there will be available for service, 21 ironclads, 70 unarmored cruisers, 5 rams, 5 torpedo gunboats, and 20 torpedo boats.

FOG ON THE HUDSON.

NEWBURGH, Nov. 30.—During a dense fog on the Hudson last night, the steamer Geo. W. Hoyt, towing 15 loaded canal boats, ran ashore at the mouth of Murderer's Creek, near Corfall Landing. The steamer and 13 boats got afloat to-day. The steamer McDonald, towing 30 canal boats, also got ashore on the flats near Polepel's Island on the eastern shore opposite Cornwall Landing. It is expected that they will come off safely at the next high water.

A COMPLETE WRECK.

DETROIT, Mich., Nov. 30.—The following special despatch appears in the *Morning Post* and *Tribune*:—"The New England Transportation steamer, Northern Queen, which sunk the steamer Lake Erie of the same line, off Poverty Island last Thursday, was lost on Friday evening. In the attempt to get into the mouth of the Mamstigue River, she struck on the bar and broached to, closing the channel, and is so broken up that a schooner ran through or over her amidships into the river. The crews of the Queen and the Erie went south by rail to-day.

FOR ABORTION.

BUFFALO, N. Y. Nov. 30.—Dr. Edwin Pynchon, indicted for abortion in the case of Buddie McCrea, appeared before the crimnal term of the Supreme Court, Judge Smith presiding, this morning, and renewed his bail in the sum of $2,000, Messrs. David Tucker and Stephen V. Butts being his securities. He will be tried in the April criminal term of the court.

ATTACKED BY RATS.

BUFFALO, N. Y., Nov. 30.—A special despatch to the *Courier*, from Erie, dated Nov. 29, says that George Furness, aged 9, being accidentally locked in school, was attacked by a swarm of rats. The boy fought desperately for some time, and when discovered was lying senseless with a swarm of rats tearing at him. He will live, but the fright has probably dethroned his reason.

PHILADELPHIA FRAUDS.

PHILADELPHIA, Nov. 30.—Charges of fraud are springing up on every side. It is now stated that for some years previous to the present administration many thousands of dollars were received in the City Solicitor's office, of which there is no record on the books of the Comptroller. It is expected that Tax-Receiver Hunter's report to the City Council and to the District-Attorney on Thursday will be something startling.

HUMBUGGED AGAIN.—I saw so much said about the merits of Hop Bitters, and my wife who was always doctoring, and never well, teased me so urgently to get her some I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured and has remained so for eighteen months since. I like such humbugging.—H. T., St. Paul.—*Pioneer Press.*

A GENERAL STAMPEDE.—Never was there such a rush made for Drug Stores as is now at Taylor & Macdonald's for a trial bottle of Dr. King's New discovery for Consumption, Coughs and Colds. All persons afflicted with Asthma, Bronchitis, Hoarseness, Severe Coughs, or any affection of the Throat and Lungs, can get a trial bottle of this great remedy *free*, by calling at the above drug store.—4

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

WILSON & DAVIS'.

Daily Evening Review

THURSDAY, DECEMBER 1, 1881.

THE HON. JAMES COCKBURN has been appointed Commissioner for the Preliminary Consolidation of the Dominion Statutes.

ON the 21st of October last there was $7,430,043 standing to the credit of depositors in the Post Office Savings Banks of the Dominion, an increase of $552,052 during the month of October. This is a satisfactory kind of ruin and decay.

IT is said that operations will shortly be commenced with a view to rendering the Lievere River navigable between Buckingham and High Falls, to the great advantage of the lumbermen and phosphate miners in that district. This is a much better way of spending the surplus than in making paltry reductions which nobody would feel.

THE Privy Council has just given a decision sustaining the "Act respecting uniform conditions in policies of fire insurance," passed by the Ontario Legislature as constitutional, and declaring that it does not interfere with the matter of "trade and commerce," as allotted to the Dominion Legislature.

"The poorer classes in Canada are not so well off as they would have been had not a system of taxation been instituted which makes them pay more for the necessaries of life than a revenue tariff would."—(*Globe* of 26th Nov.) Poor fellows! What are the necessaries of life to which the *Globe* refers? Is it tea? Then the duty on the cheaper teas is lower now than it was under Mr. Mackenzie's tariff. Is it coffee? Then the duty under both tariffs is identical—two cents per lb. Is it rice? then the duty is still the same—one cent per lb. Is it sugar? then the specific duties on the different grades are just the same now as they were under Mr. Mackenzie's revenue tariff, while the advance in the ad valorum duties, on that over 14 Dutch Standard (the rich man's sugar) is ten per cent, and on those grades below the above standard only five per cent, or half a cent per lb. on a sugar that costs 10 cents at the place from whence it is imported, So that on these four articles we have a reduction on the poor man's tea of from one to two cents; an increase on his sugar of probably a third of a cent per lb. and on the other two articles no change whatever, and yet we are told by the *Globe* that the "poorer classes" are not so well off as they would have been under Mr. Mackenzie's revenue tariff. Does the *Globe* want to insult the intelligence of the poorer classes?

MANITOBA WHEAT.

MR. M. M. COPE, of Monmouthshire, England, a member of the British Board of Commerce and Agriculture, spent a good part of last summer in the North-West, and as a result speaks thus with regard to the produce of our great wheat field:—

"To show you how high this hard wheat stands I may state that 90 per cent. of the wheat of Northern Minnesota and Dakoto is graded No. 1, while in Southern Minnesots, Wisconsin, Iowa and Illinois only 10 to 20 per cent. is so graded, and in Kansas and other southern latitudes perhaps little or none. The peculiar climate of the North-West, with its dryness, hot daysand cold nights, appear necessary for its growth. Here the importance of Manitoba appears, for 95 per cent of its wheat is No. 1. Not only is the quality better, but in weight and production to the acre it excels even the Minnesota and Dakota wheat. While the latter weighs 60 to 92 lbs. to the bushel, Manitoba wheat—I speak from actual knowledge—weighs 62 to 64 lbs. The difference of two pounds may not seem of much importance, but nevertheless it is, for the increased weight does not add to the bran, but represents just as much mere real flour, consequently Manitoba wheat must command the very highest prices in the world.

"In Minnesota and Dakota, for fifty miles on each side of the Red River, there is capital soil, and again west on James' River, as well as here and there in other parts, but in the greater part of these States the land is second-class, or inferior. Even the good lands are greatly deteriorated by the constant succession of wheat crops, and require a rest every six years, In Manitoba it is otherwise. The good lands are very extensive, although not found in the solid blocks which some people imagine. The soil is so rich and deep that crop after crop of wheat may be taken from the soil for a large number of years without a diminution in the yield per acre. There is nothing like it to be seen on the continent."

LAKEFIELD NEWS.

From our own Correspondent.

ATTENDING TO BUSINESS.

Messrs. R. and G. Strickland have been back to their limits looking after their shanty business for a week or ten days. They are expected home on Saturday next, the 3rd instant. Your correspondent has been informed that the Messrs. Strickland have already cut a remarkably fine lot of square timber. Very frequently sticks are cut measuring over 300 cubic feet.

FORESTERS.

Court Lakefield No. 13, C. O. F., is to have a social on Thursday evening next, the 8th instant, in Union Hall on Queen street. Each Forester is to bring his wife or a lady friend, if he has no wife, to the social or open court, which will consist of a lunch, readings, music, &c. It will be held on the night of the regular meeting, and will no doubt be a real Foresters' social or reunion.

ORANGE MEETIEG.

The regular monthly meeting of L. O. Lodge No. 122 will be held in the Orange Lodge room Lakefield, on Monday evening next, the 5th instant, at seven o'clock. The election of officers will be the order of the day.

MASONIC MEETING.

The regular communication of Clementi Lodge of A. F. and A. M., will be held in the Masonic Hall on Queen street on Tuesday evening next, the 6th instant, at 7.30 o'clock. The election of officers is on the summons.

FISHING.

Several parties living near Mud Lake, in Smith, were brought up last week and charged before squire Hull with spearing fish contrary to law. Two were fined $10.00 and costs; the others got off on account of want of evidence.

COAL OIL.

There are loud complaints going the rounds this week concerning the storing of coal oil in this village contrary to law. The law says that not more than two barrels of oil may be stored within so many feet of a building, &c., and it seems that several parties have disregarded the law in the matter, and that one party has this week stored a car-load in the centre of the village, and some parties are afraid of a big blow up.

MAIL.

Your correspondent at Young's Point last week in very appropriate terms referred to the carrying of the mails to the back country from Peterborough instead of Lakefield. The people of Lakefield irrespective of political feelings or learnings condemn in unmeasured terms, and are determined to resent at the earliest opportunity the injustice which has been done to Lakefield, and is still continued by the post office department in having the back country mail carried from Peterborough by stage, instead of Lakefield. Lakefield is the natural distributing point for the mails north, and there is not a single circumstance to justify the expenditure incurred in carrying the Apsley mail, or in fact the whole back country mails the extra ten miles. Petitions have been sent to the Government from the north part of the country about the matter, but they have never been heard of since being sent in. If the Government would carry the mails by stage from Port Hope it would have a better case than it has at present, or if the extra amount thrown away in running a mail stage between Peterborough and Lakefield was spent in giving better mail accommodation to the people in this part of the country then the Government would be deserving of praise. The post office at Lakefield is a very important one to say the least. A population of over two thousand receive their mails at Lakefield, and these people are surely deserving of some consideration. The fact of the matter is that the mail accommodation afforded this place in many respects is twenty years behind the times, and it is time, high time, that the post office inspector had some interest in doing his duty, so far as this part of the country is concerned.

MILLBROOK.

IN THE CREEK.—The *Messenger* says that on Friday evening 11th, as a young man named Jas. Widdess, was going home he found it a sort of dark, and fearing that he would not get safe over the sidewalk across the bridge at Harry Campbell's blacksmith shop, he struck a match and stepped of the sidewalk into the creek, losing his hat and getting a very cold ducking. The glare of the lit match seemed to have added blackness to the darkness. It is a great wonder that accidents are not more frequent at this particular place, for want of railings or some protection. Parties who have to cross this man-trap frequently, should get their lives insured—then, it would not be as bad for—those they left behind.

RUNAWAY ACCIDENT.—On Friday evening, after dark, as Messrs. David and Alex. Armstrong, of the 7th Concession of Cavan, were on their way home, from this village, their horse became frightened, opposite Mr. Thos Hutchinson's, threw them over the bank, and seriously hurting Mr. Alex. Armstrong—the injuries being mostly internal. He is lying at Mr. Steel's hotel, under the care of Dr. Hunter. The escape from instant death was remarkable. The injured man, though not out of danger, is progressing favourably.

TRADE NOTES.

DURING the past eight months, Messrs. Hays have turned out over 50,000 sugar barrels—over 40,000 for the Halifax refinery and 12,000 for the Moncton refinery.

A LARGE factory for the manufacture of silver and nickel plated goods is to be erected at a cost of $20,000, on the corner of King and Portland streets. The foundation is being excavated.

NEW buildings are required to meet the growing demand of the Napanee Brush Company, and about the first of the year new structures which are specially fitted for the work will be ready for occupation.

THE Canada Braid Works, which were some months ago established at Colborne, Ont., are now very busy. About fifteen hands and ninety machines driven by steam, are employed manufacturing shoe and stay laces out of thread supplied by the Hamilton Cotton Company.

"On the Hip."

This rather inelegant expression, used popularly to indicate that condition of things in which one person holds another securely by some circumstance, word or act, finds literal exemplification in the following narative by Mr. John Rourk, of Ottawa, Canada. Mr. Rourk says: I have been subject to hip disease for 8 or 9 years, and have tried all kinds of remedies, but found nothing to give me any relief until a friend advised me to try St. Jacob's Oil. I tried it, and after using 1½ bottles I am entirely relieved of pain, and have not been troubled since, now nearly six months. This is what people would call getting hip disease "on the hip."

FREE TRADE LOGIC.

The St. John, N.B., *Sun* furnishes the following specimen of Free Trade logic from the Halifax *Chronicle*:—

"But the protection fallacy was taken up and adopted, and what is the result? Instead of Halifax profiting by its 'wonderful advantage' and establishing a cotton factory on a sound basis, with the prospect of a fair market, it is to be forced into an illegitimate competition with factories in places which are not so advantageously situated, and which should not enter into the business, but which are being moved by the unnatural and the unhealthy stimulus of protection. St. Stephen, N.B., is erecting a large factory, St. John has another in hand, Moncton has another—three new factories in New Brunswick—and in our own province the town of Windsor has a factory in course of erection. So the effect of the National Policy is to deny to Halifax the legitimate benefit of its advantageous position, to strike a blow at sound manufacturing enterprises, and to raise up unsound ones to engage in a cut throat competition, which must inevitably end in ruin to some."

The cry used to be that the National Policy would produce monopolies. Now, however, the trouble is that it produces competition. Our anti-National Policy contemporaries are not troubled with too much consistancy.

A NEVER FAILING SOURCE OF WEALTH.—It can be proven, the world over, that the grower of live stock, whether poultry or animals, who mixes Harvell's Condition Powders with their feed, realizes twenty per cent on their value more than he who foolishly ignores these great specifics.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

A LUMBERMAN'S LIFE.

The Philadelphia *Times* says:—The post of danger in the duties of a lumberman is on the jams, and there the most skilful men are sent. Pitfalls will open in the midst of a solid mass of timber, and then close in a moment, after having dragged a man down beyond all help; a log will move a few inches slowly and unnoticed, and then with a movement like an arrow strike a man, crushing the life out of him in an instant. On every side dangers are lurking, and he is fortunate that passes a spring without injury. There is something attractive in the looks of a log jam, and if the fascination that danger has were taken from it, still he would rather work there than on the shore. The long, narrow sea of white timber, cracking and writhing with the current, the water roaring and foaming as it escapes from its prison under the logs, and the logs themselves moulded into fantastic shapes by the terrible pressure behind them, all have an attraction for men who are impressed by strength or picturesqueness.

Floods are made by large floating dams, and will raise the water several feet, lifting the jam up into the air as if it were a toy boat. If a specially large flood is needed, two and sometimes three are used at a time, the flood gates of the lower dam being opened just as the water from the dam above reaches it. In this way an immense "splash" is obtained that only the most refractory jams can successfully combat.

There are few grander sights to be seen anywhere than the moving of a large log jam. The grand strength with which they move, tearing out the largest trees and forcing everything before them, and the fierce motion of the logs, like the crazy shuttles of some giant machine, and the perfection of force compel enthusiasm from the most phlegmatic spectator. The wild hurrahs of the men on the logs add to the excitement, and the observer is quite sure to find himself running along by the side of the moving mass cheering as if he had won a battle. The men who are at work scarcely realize the danger, they are so carried away by the excitement, and they may be seen jumping from one log to another and cheering as though perfectly safe on solid ground, instead of a dangerous sea of moving logs that are continually rising and falling and dodging this way and that, driven by the flood of water furnished by the floating dams. The skill shown by experienced floaters in riding logs is wonderful, and it seems impossible for human dexterity to reach such perfection. A jam will sometimes form where precipitous rocks make it impossible for the men to escape on either side, and they must ride the logs for several rods. In such places the water is always swift, sometimes forming rapids, and watching the logs tumbling, jumping and rolling along with a deafening roar, one wonders how men can live among them for an instant. Behind the jam breakers come the sackers with their teams, drawing the logs that jams have forced far out on the banks and rolling in those on the shore. "Bringing up the rear," is the technical term given this work by the lumbermen, and it is no more desirable than occupying the same position in the army. It is terribly cold work too, wading in the snow water, ice freezing on the levers and on the clothing wherever exposed to the air, and makes the spectators shiver to watch them. But the hardy lumbermen do not mind it. They expect it, and their strength is equal to the demand.

At mealtime they all come with prodigious appetites for their rations, that are as hot as can be eaten. Hot biscuits, potatoes, eggs, meat, tea, coffee and everything else, solid and liquid, are smoking like the steam from a locomotive, while generous draughts from the cup that inebriates add their fuel to the general fire. No cold victuals are current in log-floating time, all the chill required is found in the ice water, and something has to be taken to counteract its influences.

The nights are spent in camps, where the roaring fires burn all night, partially to dry the wet clothes that must be put on in the morning. Coming into the room where the clothes are hung, a great cloud of steam is seen that rises to the ceiling, where it condenses, and either falls down in drops or evaporates on the warm boards, and the clothes are all smoking as if engaged in a contest. When the river is reached the life changes. There are few jams to break, less wading, and more riding in boats, and all the work is easier and less dangerous. If the logs stop on a rock that is out in the middle of a river, a boatman carries some men there who may roll them off and get into the boat again without danger and without getting wet. There are logs along the shore to be rolled in, but the water is not as swift as in the runs, and in the deep water a man can stand with comparative safety. Everything is easier, and the day the river is reached is almost a holiday among the lumbermen.

Moving an Immense Building.

At a recent meeting of the Engineer's Club of Philadelphia, Mr. Howard Murphy, the Secretary, read a detailed description of the moving of the Hotel Pelham, at Tremont and Boylstone streets, Boston, for the purpose of widening Tremont street. The hotel is built of freestone and brick, 96 and 60 feet frontage. The Boylstone street wall is supported on eight granite columns twelve feet high, three or four feet square. There are a basement and seven stories above the sidewalk. Height above tramways on which it was moved 96 feet. Weight, 5,000 tons, exclusive of furniture, which was not disturbed during removal, nor were the occupants of the stores on the first floor and some of the rooms, the various pipe connections being kept up with flexible tubes.

Careful experiments with models showed that if the lower part of the building was firmly braced, there was no danger of shifting in the parts above. The general arrangements consisted of heavy and substantial stone and brick foundations for iron rails and rollers, and the building was forced to its new position with 56 screws, 2 inches diameter, ½ inch pitch, operated by hand against timbers arranged to uniformly distribute the pressure against the building. Much care and ingenuity were displayed in the details of the arrangement. Two months and twenty days were occupied in preparation.

The moving itself was begun on Aug. 21st, and finished on Aug. 25th, but the actual time of moving was but 13 hours and 40 minutes. The greatest speed was 2 inches in 4 minutes. The hotel moved about ½ inch at each ½ turn of the screw. The whole distance moved was 13 feet 10 inches. For the work, 4,351 days labour was required. The whole cost was about $30,000.

This is the largest building that has ever been removed, although larger have been raised, which latter is a much simpler and less risky operation. The complete success of this undertaking is shown by the fact that cracks which existed in the walls prior to removal were not changed by the operation. Paper was pasted over them before commencing that any change might be seen.

AT the close of a long interview with Aristides Welch, Esq., of Erdenheim Stock Farm, near Chestnut Hill, Penn., that gentleman, who bred Iroquois and Parole, said: "I want my groom to continue the use of St. Jacobs Oil, for it is an excellent thing for horses." Prominent horsemen all use it.

MISS ANNIE LOUISE CARY is mentioned as the possessor of $450,000—all earned by her own charming voice. Among her treasures is one of the most perfect emeralds in the world. It weighs twenty-three carats, and is valued at $50,000. It was brought at the sale of Queen Isabella's jewels in Paris.

A WORLD OF GOOD.—One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone set tea that has done a world of good. If you don't feel just right try Hop Bitters.—*Nunda News.*

REV. DR. MANN, of Buckingham, Que., was a few days since poisoned by a servant girl in his employment, who put Paris Green in his porridge, but the attempt was discovered in time to save Rev. gentleman's life. The cause of the girl's murderous attempt is said to have been that her master forbid her receiving the visits of one of the male sex.

NEWS has just been received in Brussels that Mr. H. M. TRUE TO HER TRUST.—Too much cannot be said for the ever-faithful wife and mother, constantly watching and caring for her dear ones, never neglecting a single duty in their behalf. When they are assailed by disease, and the system should have a thorough cleansing, the stomach and bowels regulated, blood purified, malarial poison exterminated, she must know that Electric Bitters are the only sure remedy. They are the best and purest medicine in the world, and only cost 50 cents. Sold by Taylor & Macdonald.—4

FOR SEVERE COUGHS AND LUNG COMPLAINTS.—From A. J. Merritt, of Canton, Pa.—Gentlemen,—About ten years ago, after having had a severe attack of the measles, I was troubled with a severe cough and was threatened with consumption. My father having died at the age of 31 with consumption of the lungs, and my aunt having been carried off with the same complaint, it seems to be hereditary in our family. At the time alluded to, I was induced to buy a bottle of Dr. Wistar's Balsam of Wild Cherry, and can say conscientiously, I believe it saved my life. I was blacksmithing at the time, and often felt pains in my chest and lungs, which the Balsam relieved. I cheerfully give this statement, and hope you may have success with so beneficial a preparation. 50 cents and $1 a bottle. Sold by all druggists.

A Keen Curler.

Mr. Wadderstone, of Bathgate, was a most excellent man, and a good curler, and in the temporal as well as spiritual happiness of his parishioners took the most lively interest. John Clarkson a most highly respected and worthy elder of his session, also a "true son of the broom," having very late one Saturday evening received a challenge from the people of the parish of Shotts to meet the curlers of Bathgate early on the following Monday, was nonplussed how to communicate the joyful intelligence to his clergyman. After many qualms of conscience he made up his mind to inform him of it in the session-house on Sunday morning. The pastor no sooner entered than John said in a low tone, "Sir, I have something to tell you—there's to be a parish play with the Shotts folk to-morrow at——" "Whist, man, whist! O fie, shame, John—fie, shame, nae speaking to-day about warldly recreations!" The parson, however, just as he was about to enter the kirk-door, having wheeled suddenly around, returned to his friend, who was now standing at the plate, and whispered into his ear—"But whan's the hour, John? I'll be sure and be there?"

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

LOCAL AND MUNICIPAL.

Calvert vs. Burnham.

In the report of cases in the Court of Appeals in Tuesday's *Mail* we notice the following:—

CALVERT VS. BURNHAM.—Judgment; appeal allowed with costs. In this action the plaintiff Mr. Geo. R. Calvert purchased land in Peterborough subject to a mortgage to Mr. Elias Burnham, upon which Mr. F. E. Burnham, as acting for his father, represented the sum of $150 only to be due, although the mortgage was made to secure $450, and interest at ten per cent Upon Calvert applying to Burnham for a discharge of this mortgage offering to pay him the $150 and interest, Burnham asserted that he had advanced the whole sum of $450. Produced a cheque payable to his son's order, to establish the fact. Calvert, however, contended that F. E. Burnham was his father's agent and not the agent of the borrower, and that payment to him was not therefor payment to the borrower. He accordingly filed a bill in chancery praying to have the mortgage declared a security for $150 only, or that he might be allowed to redeem upon payment of that sum or that Burnham might be ordered to pay him over the remaining $300 mentioned in the mortgage. The mortgage had not matured and when the case came up for hearing before Vice-Chancellor Proudfoot in the fall of 1880 it was argued for the defendant, that as the mortgage was not due the plaintiff had no right to come into Court to ask an enquiry as to the state of the mortgage account, and his lordship upheld this view, deciding that the plaintiff's bill should be dismissed without going into the merits of the case. Against the decision the plaintiff appealed and his appeal was argued in Toronto in May last by Mr. Bethune, Q.C. and Mr. Poussette for the plaintiff and Mr. E. Blake, Q. C. for the defendant and the court has now given judgment, allowing the appeal with costs, thus reversing the judgment of Vice-Chancellor Proudfoot and giving the plaintiff the right to be heard on the merits.

Messrs. Poussette & Roger for the plaintiff and Mr. John Green for the defendant.

Stock Repository.

The buying and selling of horses has now reached such proportions in Peterborough, that a regular stock repository has become one of the necessities, and Messrs. James Walsh and C. Stapleton, two gentlemen fully competent in every respect to manage such an institution, have determined to establish one. They have secured the building, known as Ryan's tannery, and have now a number of men at work putting the large room 60x56 feet in proper shape. The premises cannot be surpassed in Canada for convenience. They are large and airy with splendid light, plenty of water, with a creek running through them. Stalls are provided for the accommodation of thirty-six horses, and if necessary almost double that number can be furnished with box or open stalls. The firm propose to carry on business in the same manner as the Messrs. Grand, of Toronto. They intend to have an auction sale every Wednesday, commencing next week. Farmers and others who may wish to sell or exchange horses can fully rely on this firm, who will attend to the wants of their patrons and use every endeavor to carry out their wishes. We wish the new firm success.

Home Again.

The many friends of Dr. Harvey will be pleased to learn that he arrived home on Wednesday evening from Manitoba, not only safe and sound but much the better for his trip. We learn from the doctor that the accident with which he was reported to have met, was a very big three black crow story, as it was manufactured out of the simple fact of the locomotive of the train, on which he was travelling become detached, and leaving the passenger car standing on the track. Mrs. Merrick also returned with the doctor, prefering to winter in Peterborough rather than in the North-West.

Fire.

About one o'clock this morning, fire was discovered in the dining room of the St. James' Hotel, next the post office. The alarm was given at once and a large crowd soon collected and the incipient blaze was soon quenched with a few pails of water, the steamer not being used at all. The origin of the fire is unknown, and the damage, except to furniture by removal, is merely nominal.

Personal.

J. W. Leonard, General Passenger Agent of the Credit Valley Railway, is at the Caisse House.

Mr T. B. Tate, of the Victoria Railway, Lindsay, is in town.

Mechanics' Institute Classes.

The class for book-keeping and commercial arithmetic under Mr. John Braden, will hold a preliminary meeting in the rooms of the Institute on Friday evening at 8 o'clock.

THE PLOUGHING MATCH.

The Question of the Age of Competitors Greater Precaution Recommended.

Pursuant to notices issued by order of the Chairman a meeting of the Committee having charge of the last county ploughing match, was held on Wednesday afternoon at 2 p.m., there being present Messrs. Campbell, (chairman) Collins, Garbutt, Rutherford, Kidd and Breakenridge.

The CHAIRMAN stated that he had called the committee together to take into consideration the complaint which had been made about the winner of the first prize in the boys' class (Arthur Kidd) being over 18 years of age.

Mr. KIDD wanted to know if a written protest had been lodged.

The SECRETARY stated that no written protest had been lodged, but simply a verbal one by Mr. Alex. Scott.

Mr. KIDD objected that as no written protest had been lodged, they had nothing before them upon which they could take any action. He also objected to his son being made an example of, unless others were dealt with in the same way, and claimed that the practice of understating ages was a common one at these matches. He objected that in the recent match competitors had been allowed to plough who who were not on the ground at nine o'clock, and that a proper signal for starting had not been given, &c., and said that if his son was proceeded against he had in his pocket a written protest on his part against others, but he didn't wish to put it in if it could be avoided. In the course of a somewhat long speech he admitted that his son was over 18 years of age, and that he went to the match with the intention of ploughing in the boys' class, although over age. After a rather long discussion, during which those members of the committee who had been present at the match repudiated the charges made against its being properly conducted:—

Mr. COLLINS moved, seconded by Mr. RUTHERFORD,—That this committee regret that an irregularity has occurred in the recent ploughing match, as appears by the verbal protest laid before us, and we would recommend that in future greater precaution be taken to prevent such an occurrence as is said to have taken place and that this committee take no further action in this matter.

Carried on the following division:—

YEAS—Messrs. Collins, Rutherford, and Kidd.

NAYS—Messrs. Breakenridge and Garbutt.

On motion of Mr. Breakenridge a vote of thanks was passed to the chairman (Mr. Campbell) and secretary (Mr. Carnegie) for the manner in which they had discharged their respective duties, and the meeting adjourned.

Sudden Death.

The Millbrook *Messenger* says that Mrs. Wellington Brown, of Peterborough, and her sister, Mrs. James Hanley, of Millbrook, have lately been visiting their mother, Mr. John Deyell, (late of Millbrook,) at St. Thomas. While there, Mrs. Brown's only child, Irene aged about two years, was taken sick, and died on Saturday last. The remains passed through here on Monday evening on the 9.30 train, accompanied by the parents and some of the friends, amongst whom was Mr. Albert Deyell, uncle of the deceased.

Correction.

In our item of "Nearly a Fire" yesterday, we stated that the stable belonged to Mr. Geo. McComb, whereas it should have been to Mr. John McComb, to whom it really belongs—the stable being attached to the premises at present occupied by Mr. J. B. Dunn.

Drawing and Painting.

A lady, late Art teacher in the Albert College, Belleville, is desirous of opening a class in drawing and painting in oil or water colour, crayons, pastils or India ink, provided a sufficient number of pupils offer themselves. Enquire at Mr. Sproule's Stodio.

WEST NORTHUMBERLAND.

COBOURG, Nov. 30.—A meeting of five delegates from each polling division in the riding, numbering one hundred and five in all, assembled this afternoon to nominate a Liberal-Conservative Candidate. Three names were presented for the ballot, viz.:—Mr. Geo. Guillet, Hon. Sydney Smith, and Mr. Vance Gravely, each of whom formally placed themselves in the hands of the meeting, pledged to support the nominee of the convention. The candidates being sent for, Mr. Gravely considered it a patriotic course to withdraw from the combat and leave the issue between Mr. Smith and Mr. Guillet. The ballot was taken, resulting in the nomination of Mr. Guillot by a ballot of 82 to 24, on the announcement of which the vote was made unanimous with great enthusiasm. There never was a better representation of opinion through the adopted system of delegation in this riding. Out of 110 elected delegates, including every polling division, 105 attended. Mr. James Barnum, of Haldimand township, presided. The result of the poll cannot be a matter of doubt if the work is well done. Nomination day is fixed for the 12th and the polling for the 19th of December.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

Small Blast Furnace.

The smallest blast furnace is in Greenup county, Kentucky, and is called the "Pine Grove" furnace. The stack is 17 feet high, with 6-foot bosh, 22-inch tunnel head, and is blown by one 2½ inch tuyere; the blast being produced by a blowing cylinder of 4 foot stroke, thirty inches in diameter, driven by a thirty horse power engine. The furnace is not very different from others, except being smaller, as it has casting house, bridge house, engine house and such other fixing as furnaces usually have. Mr. Spriggs says; "I was of the opinion for several years that pig iron conld be made on a small scale with success, and it was in this faith that I have worked from April to October to to complete this establishment, which was to be a test. I am glad to say, that immediately after being blown in, it was doing every part of its work satisfactory. I thought perhaps it would take more coal to make iron on a small scale, but I find out it is a mistaken idea. I can make iron on as little, or even less coal than it can be made on in larger furnaces. Another fear I had was that our ore would not make car wheel iron, but fortunately it makes that which is first class. It is soft, very strong, and chills nicely in the pigs. The furnace is banked up at present for want of coal. Chopping is going on at a lively rate, wood is being hauled on the hearth as fast as possible, and we will start up again in about two weeks. From that time we will endeavour to run steadily as long as weather will allow charcoal to be made. The furnace will make, when worked up to her full capacity, 3½ ton per day."

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

TORONTO.

Special to the Review Dec. 2.

IT IS LIKELY that that the Hon. Alex. Mackenzie will accept the Reform nomination for East York, it having been unanimously offered to him. A movement is on foot to induce Sir John A. Macdonald to contest the riding, it being likely that Boultbee will retire.

TWO DRUNKS were sent for six months to the Mercer Reformatory to-day.

MRS. MACKELLER who was about to remove to Goderich, broke her leg in two places last night by falling into a man trap on Young street. She was carried on a stretcher to an hotel, where she now lies.

THERE ARE HOPES of a compromise in Ontario Bank affairs to-day.

GEO. FULLJAMES has challenged Jack King, the Philadelphia light weight, to fight for $1,000 a side and at 127 pounds. King is now in Cleveland and has been trying to get on a match. Fulljames will have nothing to do with it without a purse. If King will not accept, Fulljames will not fight at 124 pounds for the same amount. The fight must come off if no body is present but the seconds and referee.

Mining in Hastings.

BELLEVILLE, Nov. 30.—Mr. Wm. Coe, who has just returned from England, has been very successful in his endeavors to interest English capitalists in the rich iron lands owned by him and others in the townships of Tudor and Wollaston, especially the latter. A company has been organized for the purpose of working the lands in Wollaston, and the construction of a line of railway from Madoc to the centre of the township will be commenced next year, and will be finished, so Mr. Coe guarantees, within two years after the date of commencement. The line will connect with the Grand Trunk Railway track at Madoc. Mr. Coe has been negotiating with the Township Council of Wollaston with a view to secure certain concessions, in order to facilitate the operations of the company. All that is asked is that that the township will allow the assessment on the property owned by the company in Wollaston to remain for twenty years the same as it is at present.

FRANCE AND TUNIS.

PARIS, Dec. 1.—M. Gambetta had this afternoon to defend the Tunisian policy of the new Ministry against the repeated attacks of his adversaries, and, in the case of M. Camille Pelletan, who spoke for the first time in the Chamber, against an eloquent oration. The President of the Council acquitted himself of his task with even more than usual felicity. The tone of his replies were temperate, while his explanations were cleverly calculated to reassure European opinion without tying the hands of France. An excellent impression was made in different ways by the speeches of both M. Gambetta and M. Pelletan.

THE NIHILIST TRIALS.

ST. PETERSBURG, Dec. 1.—A medical student has been arrested at St. Petersburg for writing a note threatening Gen. Tcherevine and Count Ignatieff with death in revenge for the execution of Peroffkaja and Teliohoff. The trial of the Nihilists progresses slowly, but every day discloses some new evidence of the extent to which the Nihilist propaganda has spread throughout all classes in Russia.

A NOBLEMAN EXILED.

ST. PETERSBURG, Dec. 1.—The court-martial St. Petersburg has found Prince Tcherwaschidze guilty of wounding the merchant last summer, and sentenced him to exile, with deprivation of his rights as a nobleman.

CHILI AND THE U. S.

PARIS, Dec. 1.—The secretary of the Chilian Legation in Paris states that the relations between Chili and the United States have not for a moment ceased to be friendly. He has received copies of letters from Ministers Hurlburst and Kilpatrick, Commander Lynch, and the Secretary of Foreign Affairs of Chili, which show that there is no possibility of any encroachment policy on the part of the United States, and dispel all feeling of uneasiness from that source.

AUSTRIA AND THE PORTE.

CONSTANTINOPLE, Dec. 1.—The Porte has demanded of Austria the suspension of the conscription of able-bodied men in Bosnia for service in the Austrian army, and says if enforced enlistments are continued an appeal will be issued to the European powers to prevent it.

PROGRESSING FAVORABLY.

MADRID, Dec. 1.—Amendments have been proposed to Congress for abolishing and modifying several of the rules of the House in connection with the political oaths of allegiance, in order to allow members who are not Catholics or Christians to take the oaths according to their faith, or to dispense with the oaths, and make a simple promise to keep the law of Spain. The present party in office and the Cabinet had pledged themselves when in Opposition to modify the rules of the House as regards the oath of allegiance.

THE LAND QUESTION.

ABERDEEN, Dec. 1.—At a convention of delegates representing 40,000 Scotch farmers, held in that city, resolutions were unanimously adopted demanding the abolition of the laws of entail and primogeniture, and the passing of an act affording facilities for the purchase of land, equitable compensation for improvements, and guarantees as to fair security for tenure.

EFFECTS OF THE GALE.

LONDON, Dec. 1.—The barque Lohengrin, from Dalhousie, was abandoned on the passage, and all hands but the Captain and two seamen were drowned. The steamer Castor, from Amsterdam, for New York, has returned damaged. She lost a mate and two seamen. The steamer State of Indiana, from New York, for Glasgow, was passed yesterday west of Fastnet light, with her main shaft broken. A steam tug has gone to her assistance. Nearly all the Yarmouth smacks caught in the recent storm have returned. Loss of life occurred in seven cases.

FEARFUL LOSS.

LONDON, Dec. 1.—Advices from Dundee state that in the Western Islands and on the west coast of Inverness, Ross, and Sutherland, over three hundred fishing boats have been destroyed by the late gales, and their nets washed away.

AMERICAN.

GRAIN EXPORTS.

NEW YORK, Dec. 1.—The exports of grain from the United States for the current year show a decrease of 36,289,000 bushels. The decrease is attributed to high prices.

AN ELOPING PREACHER.

NEW YORK, Dec. 1.—Rev. Thomas Baskerville, a leading minister of Bloomfield, Iowa, has eloped with his servant girl, leaving his family destitute.

A BROKEN BANK.

CALDWELL, Kansas, Dec. 1.—Nothing has been done yet with Danford, the president of the broken bank, but unless he settles with the people he will probably be dead to-day. A crowd of armed men from Hunnewell are to be here to take him as soon as the Caldwell people are through with him. The action of the committee sent to Wichita is awaited.

LATER.—A rope was put around the neck of Cashier Smith last night, and fearing lynching he made a confession as to the whereabouts of the bank's assets.

PEOPLE ARE BEGINNING to find out the true virtues of Dr. Carson's Stomach and Constipa-Bitters, and they are becoming the favorite family medicine of the Canadian public for all derangements of the Stomach, Bowels, Liver and Kidneys. In large bottles at 50 cents, special agency for Peterborough at J. D. Tully's.

MILLIONS GIVEN AWAY.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night.*

LONDON, Dec. 2.—The *Times* discussing the tariff convention at New York says, it is unwise for English manufacturers to deceive themselves with the expectation of any speedy movement towards free trade in America.

BISMARCK DEFEATED.

BERLIN, Dec. 1.—In the German Reichstag to-day, the item for the expenses of the Economical Council was rejected by 169 to 62 despite an energetic speech by Prince Bismarck.

SCOTCH FARMERS MOVING.

GLASGOW, Dec. 2.—At a meeting held in Scotland in connection with the land agitation yesterday, about two thousand delegates, representing four thousand farmers, were present. Several Scotch members of parliament were also present. Resolutions were passed demanding reductions in rent, compensation for improvements; abolition of the laws of entail and other legislation in the interests of tenant farmers. It was urged that the legislative changes required must apply to the existing leases of all farmers. An association for Scotland was formed.

AMERICAN.

A BROKEN WHEEL.

LONG ISLAND CITY, Dec. 2.—While two men were raising soil on a hand car yesterday, on the Southern railroad, one of the wheels broke while the car was running at a fearful speed. The car and men were thrown down a fifteen foot embankment. John Garrison was killed and others seriously injured.

A LOTTERY SWINDLER.

JERSEY CITY, Dec. 2.—Thomas Armstrong was arrested yesterday charged with carrying on a lottery swindle under the name of Robt. Dunlop & Co. It is alleged that the business brought in as much as $2,000 per day.

ANOTHER FRAUD.

BOSTON, Dec. 2.—The post-master has decided that the "Manufacturing Company" is a fraud.

A BURSTED BOILER.

DAYTON, Ohio, Dec. 2.—A boiler exploded at midnight on Thursday in the Wadsworth Coal Company's mine One man was mortally and another severely wounded.

ON STRIKE.

GALLITVILLE, Ohio, Dec. 2.—The laborers in the steel works have struck on account of the reduction of wages. The works are stopped and 2,500 men are out of employment.

GREAT FIRE.

POUKEEPSIE, Dec. 2.—The Poukeepsie glass works were burned last night with large quantities of glass. Loss estimated at $250,000. Insurance $150,000. The fire was of incendiary origin.

An Important Invention.

On Saturday last, at the Alexandra Palace, London, the first public trial was made of "Wilson's Combined Low-water and Steam Safety Alarm." The operations of the apparatus are two-fold. Firstly, to give warning of the fall of water below the water line in a boiler; and, secondly, to indicate any generation of steam pressure in excess of the registered pressure. The alarm is constructed with an inner and outer cylinder, containing a float and valve spindle, safety valve, loading spiral spring to safety valve, and an alarm whistle. Should the water in the boiler be allowed to recede below the determined minimum low water line, the float immediately descends with it, causing a vacuum through which the steam passes into the alarm whistle, and so giving notice of the condition of the water in the boiler. So sensitive is the regulation of the apparatus that if as small a quantity as one quart of water is injected into the boiler the alarm at once stops and safety is restored. Again, on the other hand, should there be the slightest (half lb.) generation of steam in excess of the Government register, the pressure immediately overcomes the loading spiral spring and allows the steam to escape through the outer cylinder into the alarm whistle, thereby giving notice that too much heat is being used and fuel wasted. Simply opening the furnace door, or setting the engine in motion, is sufficient to overcome this neglect. The experiments were carried out by the inventor, and in every particular were most successful. The apparatus can be regulated and fixed to any size of boiler, marine, locomotive, or otherwise—at a very low cost. It is impossible for the valve to be in any way tampered with, as the outer casting is melted down, pegged, and sealed.

NEVER GIVE UP.—If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a billious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at 50 cents a bottle, by Taylor & Macdonald.—5

CANADIAN COMPETITION.

New York State Alarmed at the Improvements in Our Canal System.

BUFFALO, Nov. 28.—The Mayor of Oakville, Ont., was in the city to-day, and was asked his opinion of the annexation sentiment in Canada. He talked freely, and gave an idea of what Canada is really doing in the way of competition with this country in the carrying trade. The *Telegram* in referring to the interview says:—

"It is well enough for the people of this country to talk about our neighbors across the border being a century behind the time, but the facts in the question of commercial importance are apparently in favor of Canada. While we were laughing at Canada, she was devising plans which are now being consumated into realities, and which will rob this country of the greater part of her exporting trade. The time for theorizing has long ago passed. The State of New York must be up and doing, or all her boasted commercial greatness must vanish."

PORT HOPE.

A MAGNIFICENT CAR.—The *Times* says that the Midland car works here have turned out a magnificent car for the accommodation of the chief officials. Last week our reporter called at the car works and had the pleasure of being shown through this triumph of handiwork, the omcial car, by Mr. Douglas, the courteous foreman. Seating himself in the easy chairs and glancing around at the elegant moving abode, our representative thought it must be a nice thing to be a president, even of a railroad. The decoration, which is a model of fine art, was the work of Mr. R. Fogarty. At the rear entrance is the smoking car, capable of seating five or six persons with comfort. The structure is fitted up with closets, wash-rooms, heating apparatus, president's bed-room, and all the comforts of modern railway accommodation, in most superb style. Throughout, the workmanship is of the best and the material of the finest. The doors are of solid mahogany, the glass in the windows is of the best British plate; the panels are veneered in Hungarian ash, and French walnut, with ornamental centre piece of mahogany; the lining, usually canvas, is of white birch, the lamps are silver plated, the parlor, which occupies about one half of the car, is commodious and heated by steam pipes. The car wheels are imported and of the Mansel pattern with heavy steel tires. It is furnished with a baker heater, has a monitor roof, and altogether is very substantial, being built mainly of solid oak. Mr. Walker, of this town, furnishes the upholstering *pro tem*, but Mr. A. Hugel, the ex-president, is negotiating elsewhere for a complete furnishing in the finest Maroon leather. A week ago last Tuesday the first trial was made, when the President rode to Midland and back. Everything was satisfactory. "It is a thing of beauty" and solid comfort, and we wish the President a lengthened period to enjoy it.

LAKEFIELD NEWS.

From our own Correspondent.

TAX COLLECTOR.

The village collector of taxes as usual reports the poorest people paid, and that the parties best able to cash up as a general rule are the slow coaches in paying their taxes. The collector threatens a raid on Monday next, so we may expect some fun.

NEW SAW MILL.

Very fair progress is being made with the work on the Messrs. Strickland's new saw mill in this place. The masons have taken a advantage of the last few days of soft weather and have now nearly completed the foundation walls. The work on the new raceway is also well advanced. It is expected that the new mill will be fully equipped and in running order by the early spring.

MATRIMONIAL.

A young couple came into the village on Wednesday last, Nov. 29th, from the country, and after some little trouble got married and took the afternoon train for the south. The bride's father came into the village the morning after in a dreadful rage with every one generally and especially with the truant couple. It seems that the young lady's parents new nothing of the wedding until the evening after and that they were very much opposed to the match. Some of the angry father's friends advised him to keep cool and quiet as his daughter was of age. The advice was taken and he returned to his desolate home.

HUNTING PARTIES.

Mr. White of Alnwick and a companion returned on Wednesday last, Nov. 30th, from Crane Lake, where they have been still hunting for the last ten days, elated with their success, having secured ten deer in ten days hunting. Lakefield parties are doing well also, so we are informed. Thomas has succeeded at least in shooting two deer. There is hopes for doubting Thomas yet.

MISTAKEN IDENTITY.

A Dead Man's Letters to His Mother—An Intelligent Jury.

The London *Free Press* of Tuesday tells the the following extraordinary story:—

The sensation occasioned by the finding of a human body in the Mill Race at Blackfriars' Mill on Wednesday morning last, has hardly subsided before the public interest is again revived from learning that a great mistake has been committed in the matter. It will be remembered that difference of opinion existed in the minds of many in regard to the unfortunate man's identity, and it was not until Mrs. Mowlds asserted positively at the inquest that she identified the remains as those of her husband that the doubting ones gave in. Subsequently the family had the body decently interred. Mrs. Cathrine Mowlds, mother of the supposed deceased, resides on Talbot street, near the corner of King. From the first she was not firmly convinced that the body found was that of her son, who had some time previously gone to Chicago. Steps were immediately taken to communicate with his friends there, and a telegram was sent to Mr. Woodward asking for tidings of him. Yesterday the following letter was received by his mother from the young man himself:—

CHICAGO, Nov. 25th.

"DEAR MOTHER.—I received your welcome letter on the 11th. It made me quite happy to hear that you are all well, for I was very uneasy before.

"I will write to Robert and William right off, and tell them what I think over affairs. It has rained about half the time since I came to Chicago. I got the telegram that you sent Woodward about eleven o'clock and was surprised to see it. The same address will find me still."

"P. S.—There is no snow, but it is very cold here."

The letter concludes with expressions of affection, and is signed. "From your same old TOM."

The joy of the family on receipt of this intelligence was beyond description. When a Free Press reporter visited the old lady last night, her eyes were brimming over, and she again and again vowed that she could not believe that the body was that of her boy. What action will be taken to establish the identity of the deceased, or whether the body will be exhumed, has not yet been decided on as yet. The revelations in regard to this matter will have a tendancy to bring coroners' inquests and kindred investigations into disrepute, unless more searching inquiries are made by those in authority than appears to have been done in the case under consideration.

YOUNG'S POINT.

From Our Own Correspondent.

SAD DROWNING ACCIDENT.—The sad intelligence reached here early on Wednesday morning that Mrs. Woods, wife of a farmer, living near Loon Lake, was drowned on Tuesday forenoon last. She left in the morning to cross the lake to visit a neighbour, and broke through the ice, her cries brought Mr. Farmer who heard her cries. Before he came his two sons appeared on the scene and both broke through the ice, but being good smart fellows in the water they got out. Mr. Woods, the husband, also came to the rescue and he broke through, and when brought out was nearly gone. If Mr. Farmer had not been at hand with a rope he certainly would have been also drowned. Her demise leaves the widower with eleven children, the youngest only two years old. Her untimely death is greatly regretted by all who are acquainted with the family.

Selling a Menagerie.

Van Amburgh has been dead these many years, but his show goes on just the same. At least it did until the other day, when the two partners, Frost and Ferguson, who have been exhibiting a show as Van Amburgh's, though there is not a beast in the collection that had seen the light when Van Amburgh died, sold at at auction away up on the hills of Duchess County, N.Y., whither flocked the farmers from the neighborhood, and nearly every showman between the two oceans was present at the sale. The farmers came for fun principally, but many of them bought the draft horses. A dromedary, shivering in the cold was "knocked down" for $325. A bachtrachian camel, so called because of its two humps, fetched $625. A sacred cow didn't get a bid; a hyana was sold for $5; a bless-bock was sold for $315; an orynx for $210, and a harte-beste for $200: a rhinoceros, "which breathed like a blacksmith's bellows," (the auctioneer being obliged to pitch his voice an octave higher in order to make himself heard,) was knocked down at $2,450. It weighed 3,500 pounds. The elephant Bolivar, said to be the largest in the world, hampered with a chain, which clanked like a prisoner's shackles, was started at $5,000, and it was whispered about that Barnum and Forepaugh both wanted the animal. The figures ran up to $7,100, and Mr. Reed, bidding for Forepaugh, became the purchaser at that price. Bolivar is eighteen years old, and weighs five tons. He will be much larger. His keeper, who was with him for eleven years, was nearly heart-broken at the the thought of parting with him. Boxes containing trappings and tawdry and tinsel of all sorts were sold to farmers at ridiculously low prices. A lion-king dress was bought by a man in a checked flannel shirt and blue overalls. Six Chinese suits went to a farmer, who said his boys could wear them, and a lot of Esquimaux skins to a man so thin, as the auctioneer remarked, that he would not cast a shadow. Nobody could be induced to buy the man-fish wagon, so it was stored with the chariots and cages which could not find a sale.

Its Work in Strathroy.

It often happens that the opinion of an experienced man, an expert, if we so call him, conveys greater force than an aggregation of outside, uneducated testimony. And then, too, personal experience or observation is so much more convincing than mere assertion. Trained to habits of analysis and keenest accuracy, and from the very nature of their daily occupation, given to the most incisive criticism of anything of a proprietary nature, chemists, as a class, hesitate very long before endorsing anything of remedial nature whose virtues have been announced through the public press. St. Jacobs Oil, however, is so universally successful and so unvaryingly accomplishes all that it promises that the able chemist, W. J. Dyas, Esq., of Medical Hall, Strathroy, Ont., sends with his friendly recommendation, the following from David Harrison, Esq., 9th con., Township of Caradoc:—Having suffered with inflammatory rheumatism since last July, and hearing of St. Jacobs Oil, I sent for a bottle of the article on the 15th of October. At that time I was confined to the house, and could not possibly get out of bed without assistance. After four applications of the Oil the pain ceased entirely, and I was able to go about Strathroy in less than a week. I cannot give too much praise to St. Jacobs Oil for what it has done for me, and I believe it to be a most reliable remedy in rheumatism. Its wonderful efficacy should be brought to the knowledge of everybody.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

River Improvement.

The Belleville *Intelligencer* says that at the forthcoming session of the Legislature application will be made—on behalf of the lumbermen, we presume—for power to erect dams on the streams in the townships of Tudor, Madoc and Marmora, for the purpose of storing water to facilitate the driving of saw logs, etc. Would it not be possible to form a company for the improvement of the river, with the object of furnishing water power continuously to manufactories here, to enter into this scheme with the lumbermen and so to attain the desirable object herein indicated? We commend the matter to the attention of all who are interested.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

N. H. DOWNS' Vegetable Balsamic
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry: then becomes loose, fever and the pulse more frequent, the cheeks flushed and chills more common. The Elixir, curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold every where.

FALLEN IDOLS

Fond mother, an idol surely reigns
In that loving heart of thine,
Follow me questioner, she sadly cried,
And you shall look upon mine.
I followed her into a shrouded room,
Quietly, softly we trod,
Then stood by young child's lifeless form,
Whose spirit had flown to God.

What is your idol, I asked a bride,
With a wreath on her radiant brow,
Her sunny eyes raised to her husband's face,
Said, "he is my idol now."
Long years rolled o'er and we met once more,
But her glad blue eyes were dim,
And her brow so fair was lined with care,
And her idol, oh! what of him?
Living alas in the sunny past
In the memory of long ago,
For his love had changed with time's changing tide,
Ah! her idol had fallen so low.

"What is your idol," I asked of one,
In the flush of his manhood's hour,
"My idol, he answered, "is glittering gold,
For all things acknowledge its power."

In weakness and pain, we met once again,
And I knew in that sorrowful hour
By his short labored breath—the grim angel of death
Had conquered his gold idol's power.
Idols of earth springing fast into birth
Wherever man's footsteps have trod,
Let us earnestly pray to thrust them away
As usurping the true rights of God.

THE NEW BABY.

An Unusual Appearance in the Spoopendyke Family.

"Well, well, well," said Mr. Spoopendyke, with a grin that involved his whole head, and an effort at a tip-toe tread that shook the whole house. "And so it's a girl, my dear."

Mrs. Spoopendyke smiled faintly and Mr. Spoopendyke picked up his heiress.

"It's the image of you," she said, regarding with some trepidation Mr. Spoopendyke's method of handling the infant.

"I don't see how you make that out," said Mr. Spoopendyke gravely. "I don't know when my nose looked like the thumb part of a boiled lobster's claw. Do I understand you than my eyes bear any resemblance to the head of a screw?"

"I mean the general features," murmured Mrs. Spoopendyke.

"The general features seem to be all mouth," retorted Mr. Spoopendyke, examining his acquisition. "If the general features are at all like, my visage must remind you of an earthquake. Hi! kitchee! kitchee! What makes her fold up her legs like that?"

"She can't help it," reasoned Mrs. Spoopendyke. "They'll straighten out in time."

"No time like the present," quoted Mr. Spoopendyke, and he took his daughter's feet and commenced pulling her limbs. "I don't want any bandy-legged first in this family while I'm at the head of it."

Naturally the baby began to cry, and Mr. Spoopendyke essayed to soothe it.

"Hi! kitchee! kitchee! kitchee-ee-ee!" he chirruped. "Great Scot, what a cavern! Any idea how much this mouth weighs? Hi! kitchee! kitch-e-e! You'll have to get that mouth roofed in before cold weather. What's the matter with her, anyway.

"Perhaps you hurt her. Let me take her, please," pleaded helpless Mrs. Spoopendyke.

"She's doing well enough. Hi! you! hold up! Haven't you anything to catch this mouth in? It's spilling all over the neighborhood. Ail Topsy, Genevieve, Cleopatra, dry up! I'm going to have trouble breaking this young one's temper, I can see that. There! bend the other way at once!" and Mr. Spoopendyke tried to straighten up his offspring without avail.

"Let her come to me, do, please," moaned Mrs. Spoopendyke, and Mr. Spoopendyke was forced to hand her over.

"Well, that's quite a baby," said he, nursing his knee, and eying the infant. "What'er those bumps over its eyes for? What preponderance of intelligence do they represent?"

"You musten't talk so," remonstrated Mrs. Spoopendyke. She's the handsomest child you ever saw."

"Well, she's got to stop biting her nails before she goes any further with this procession. Here, take your hands out of your mouth, can't you? Why don't you put her hands down?"

"Why, all babies do that," explained Mrs. Spoopendyke. "You can't stop that."

"I'm going to try," said Mr. Spoopendyke, "and I don't want to be interfered with in bringing up this child. Here, you Maud S. Bonesetter, put your hands in your pockets! Don't let me see any more nail-chewing, or you and I'll get mixed up in an argument. She gets that from your family, Mrs. Spoopendyke."

"Say, dear, don't you want to go and order some things?" asked Mrs. Spoopendyke.

"No," rejoined her husband, "I want to see this youngster. Where's her chin? Do babies always have their upper jaw set right on their shoulders? Kitchee! kitchee! Her scalp comes clear to the bridge of her nose. I don't believe she's quite right. Where's her forehead? Great moses! Her head is all on the back part! Say, that baby's got to be pressed. That's no shape."

"Get away," exclaimed Mrs. Spoopendyke, indignantly. "She's a perfect angel. There's nothing in the world the matter with her."

"Of course you know," growled Mr. Spoopendyke. "You don't want anything more than a fog-horn and a misspent appropriation to be an orphan asylum. If I had your faith and the colic I'd make a living as the foundling's home! She'll be old enough to spank in a week, won't she?"

"No, she won't!" said Mrs. Spoopendyke. "She'll never be old enough for that."

"I'll bet she will," grunted Mr. Spoopendyke. "If she is'nt she'll get it before she matures up to that period. That's all. Let me take her. Here, let's have her."

But Mrs. Spoopendyke flatly refused.

"Keep your dod-gasted baby then!" roared Mr. Spoopendyke. "If you know more about babies than I do, then keep her. The way you coddle her one would think she was a new paste for the complexion."

And Mr. Spoopendyke started off to find his friend Specklewottle, who congratulated him, and started off with him to assist in the selection of an overcoat and a pair of ear-muffs as precaution against the approaching winter.—*Brooklyn Eagle.*

FROM ALL OVER.

INSTRUCTIONS have been issued by the Attorney-General of Ontario to the London authorities, to drop the prosecution of West, the pseudo-detective concerned in the Lucan incendiarism case, for larceny.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

MR. CAPREOL has received a despatch from Sir E. J. Reed, ex-constructor of the British navy, saying he is coming to Toronto to report on the Huron and Ontario Ship Canal. It is understood that he is acting for English capitalists. A public reception will be tendered to him.

UNVAILING were the effects of Mr. W. M. F. Quinlan, superintendent of Glass Works, Crystal City, Mo., to cure himself of a most troublesome sore on his knee. One week's faithful use of St. Jacob's Oil cured him completely, much to his great comfort.

A JOINT stock company with a preliminary capital of $10,000 was formed at Ridgetown on Saturday evening for the purpose of erecting and operating a knitting factory. The whole amount was taken up in a few minutes after the stock books were opened. The company will commence operations at once.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but simple food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

THE cold weather has compelled the Chaudiere mills to close down for the season. The cut this year, though not as large as anticipated, was an extensive one. The demand throughout the season for sawn lumber has been good, and prices have not been as high since 1872. Comparatively speaking, very little stock will be wintered over here.

A NEVER FAILING SOURCE OF WEALTH.—It can be proven, the world over, that the grower of live stock, whether poultry or animals, who mixes Harvell's Condition Powders with their feed, realizes twenty per cent on their value more than he who foolishly ignores these great specifics.

THE coroner's inquest respecting the murder of Thomas Sleight, in the township of Innisfil, on the 17th ult., was resumed at Cookstown yesterday, when, after several witnesses had been examined, the jury returned a verdict of wilful murder against the prisoner, William Nay, who was committed for trial.

FOR some time the members and heads of the Orange Order in Toronto have been receiving subscriptions to defray the cost of erecting a large public hall. The estimated cost of the hall and buildings in connection with it is $25,000; of this sum $7,000 has been subscribed. It is the intention of the committee to commence building as soon as a suitable site can be found.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

A WHIP of sole leather, two feet long, burned in the centre to make it hard, oiled at the extremities to make it pliable, and mounted on a hickory handle a foot and a half long, is the exquisite instrument with which an officer of the Wisconsin Industrial School for boys, is said to have been in the habit of enforcing order and punishing offences among the lads under his charge.

LIFE at present in the South African diamond fields is not agreeable. Hundreds of miners, who are unable to get work, tramp from place to place, and finally lapse into beggary. Fever abounds and the hospitals are crowded. Vegetables have run up to starvation prices. Small cabbages are worth nearly a sovereign a piece, and potatoes fetch 25 cents per pound.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

THE Naval Advisory Board, at Washington, recommends the construction of thirty-eight unarmoured cruising vessels, besides a number of rams, torpedo gunboats, and torpedo boats. According to the programme laid down by the board, the United States navy would in eight years include twenty-one iron-clads, seventy unarmed cruisers, five rams, as many torpedo gunboats, and twenty torpedo boats.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age, Sold at 25c. a box everywhere. d52w9

FRIDAY, DECEMBER 2, 1881.

LOCAL AND MUNICIPAL.

"Mabel Heath."

Regarding the company that are to play "Mabel Heath," at the Opera Hall on Saturday evening next, the Toronto *World* of the 25th of November speaks as follows:—

"Miss George Gardner and Company appeared at the Grand Opera last night in the emotional drama "Mabel Heath." The play is a first-class one in every respect and abounds in highly dramatic situations and strong emotional incidents. In many respects it is similar to the favorite Hazel-Kirke, the daughter marrying secretly against the wishes of her father, who, upon casting her adrift, is stricken with blindness. The unexpected meeting of Mabel Heath with her father, in which she defends him against the attack of her betrayer is a fine piece of acting, and is highly calculated to draw out the sympathies of the audience. A striking feature of the play is the marked devotion of Mable's friend, Sadie Milton, as well as that of her tried Irish servant Denny, both of whom continue faithful until she is at length restored to her father's arms. The principal character, of course, was Mabel Heath, which was taken by Miss Georgie Gardner. This talented young actress who appears for the first time before a Toronto audience gives promise at no very distant day of shining in her profession, and is unquestionably a rising star, and possessed of versatile ability and dramatic power she excells in the part which she has chosen at the beginning of her career. Miss Ida Carpenter is already well and favorably known on the Toronto stage, and the reputation she has already acquired was not in the least diminished by her performance last night. The other parts were well handled."

The Norseman Off.

The Port Hope *Guide* of Thursday states that the steamer Norseman, arrived at that port at five o'clock on Thursday morning in company with the wrecking tug Hiram H. Calvin, of Kingston. As stated in our issue of Wednesday, the schooner Eliza White and tug Albert Wright went to her assistance. Her cargo of peas, all her saloon furniture, wood, etc., were placed on the Eliza White. The Calvin arrived to her assistance on Wednesday afternoon about four o'clock and placed the steam pumps in position, and succeeded in about four hours to float the stranded steamer. The rock on which she struck was about half a mile from the shore on Bluff Point, two miles east of Oshawa. It was a large boulder with deep water all round, so that the tug Calvin could get close up to her. The Albert Wright arrived last night with the Eliza White in tow. The diver examined the hole this morning in port, and found a large bruise about a foot and a half in circumference, which he succeeded in stopping. She left for Kingston in company with the Calvin this afternoon.

The Weather.

The weather continues remarkably mild and soft during the day, but the mornings and nights are cold and more seasonable. The snow is keeping away well and the weather prophets are remarking, "We told you so." The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Moderate south-westerly backing to easterly winds, cloudy to fair weather, stationary or higher temperature.

Badly Scalded.

On Tuesday evening, Mr. Peter King, an employee at J. Whyte & Co's foundry, was rather seriously scalded. It appears that he was engaged with a number of others in repairing a steam pipe, when one of the other men turned the cock too far over, and the steam rushed out, striking Mr. King on the chest and one of his arms. If the steam had struck a little lower down, the consequences would have been far more serious, but as it is, his arm is badly blistered, and he is still under the care of a physician.

The Port Hope Elevator.

The Midland Elevator Company's elevator at Port Hope is being covered outside with patent metallic shingles, the same as those introduced into Canada or this part of the Dominion at least, by Mr. W. Cluxton. Mr Arthur Rutherford has the contract and of course will do an excellent job.

English Class.

A class in English in connection with the Mechanics Institute, will be conducted by Mr. Ea[illegible]. Those wishing to join the class may leave their names with the librarian at the Institute.

For The Winter.

The Golden-Eye is now laid up on stocks in the lock for the winter, where she will be put in first-class trim for next season's campaign.

St. Andrew's Day.

Some of the Scotchmen of Peterborough and vicinity celebrated St. Andrew's Day by a supper at Mr. A. P. Morgan's hotel. Owing to different causes the attendance was meagre but those present enjoyed themselves, as all Scotchmen know how. Mr. Morgan put forth an extra effort for the occasion, and we are informed by an old member of the society, that the spread was the best that he ever sat down to at any of the Society's dinners. This fact speaks volumes for the genial host. The chair was occupied by the President, Mr. T. Telford, and Mr. W. Telford, the Bard of the Society, read his annual poem, composed for the occasion, which we will endeavor to publish in another issue. Several hours were very agreeably passed in honoring Scotland's Patron Saint, and the company broke up at an early hour thoroughly satisfied with the manner in which the affair passed off.

Election of Officers.

At the regular meeting of L. O. L. No. 49, held at the Orange Hall on Thursday evening, the following officers were elected for the ensuing year:—

W.M.	Brother Samuel Jameson
D.M.	Brother George Brown
Chaplain	Joseph Batten
Secretary	John Mowry
Treasurer	Henderson Nesbitt
D. of C.	J. G. Weir
1st Committeeman	Geo. Hall
2nd Committeeman	Jno. Lillico
3rd Committeeman	H. Baker
4th Committeeman	Thomas Dawson
5th Committeeman	Jas. McIntyre

A Coming Event.

We learn that arrangements have been completed for the grand ball, to take place on Monday evening January 2nd, 1882, under the usepices of the Fire Brigade Band. Invitations have been sent out and already a large number from neighboring towns have signified their intention of being present. Handsome prizes are offered for the best lady and gentlemen waltzers and the competition is likely to be strong. As is well known, the band never do things by halves, and to all of our readers who like to trip the "light fantastic," we would say, be sure and be on hand.

The Missing Link.

Mr. Hogg, C. E., and a number of other engineers have been going over the line from Peterborough to Omemee for several days, and have now secured a first class line for the "missing link," far superior to the line located before. The location survey will commence about Monday next, and construction will be begun as soon as possible after the engineers are through, and before many weeks have passed Peterborough will be on the main line, where her importance entitled her to have been placed many years ago.

The Toronto and Ottawa.

The Toronto and Ottawa engineers are still busy at work on the line of the road, east of Madoc. The greater portion of the right of way for a distance of one hundred and eighty-four miles east of Madoc has been purchased, and Mr. Campbell, of Port Perry, will start next week to finish that portion of the work. Mr. J. C. Bailey has now charge of over six hundred miles of railway, in course of construction from the Sault to Ottawa.

Personal.

Mr. J. C. Bailey, Chief Engineer of the Toronto and Ottawa railway, is at the "Oriental." He has just returned from the Sault, having taken there a number of men who are now at work.

Mr. Geo. Read, of Keene, Ex-M.P.P., for East Peterborough, is at the "Caisse."

New Grocery and Provision Store.

Mr. M. Quinlan has opened out a complete and fresh stock of Groceries, Provisions, Christmas Goods etc., in the store lately occupied by W. J. Devlin, opposite the Huffman House, Hunter street. Give him a call, he will sell cheap for cash.

Ashburnham Elevator.

The timbers are now being placed in position for the elevator, to be erected near the Grand Junction station in Ashburnham, and it will be ready to receive grain in the course of a month or less.

The Recent Fire.

We regret to learn that the recent fire at the St. James' hotel caused Mr. Daly more loss than was at first anticipated, in consequence of the injury done to the furniture by the hurried removal.

High Water.

The water in the river is now higher than it has been for many years at this season. The cause of it is not known fully.

THANKS RETURNED.

To the Editor of the Review:

DEAR SIR,—Will you allow me through your columns to thank those who rendered assistance towards putting out the fire at my hotel and removing the furniture.

Your truly,
J. F. DALY

Peterborough, Dec. 2, 1881.

UNITED States Senators are not only paid a salary, but are allowed $125 for stationery. The other day a young man came across one of them, (Judge Davis) counting some money. "Young man," said Davis, "this is the true way to make money; economy and saving. There is my stationery allowance. The Senators are allowed $125 for stationery. Too much, too much! I have used just $4 worth, and am entitled to $121 in cash, and here it is. Be economical and saving, young man."

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

A Female Crank.

Soon after Mrs. Garfield went to Cleveland to reside, she received a letter from a woman asking for several thousond dollars to pay off her husband's debts. She enclosed a photograph of her insolvent husband, and asked further that Mrs. Garfield solicit President Arthur to give him a clerkship under Government. Mrs. Garfield destroyed both the letter and picture. Six weeks later this same woman wrote to say that she and her husband had enjoyed a vacation journey of nearly five thousand miles, the delights of which had been impaired only by the recollection of her husband's debts and Mrs. Garfield's bereavement. She also enclosed a postage stamp for the return of her former letter and her husband's picture, in case Mrs. Garfield was not disposed to grant her requests. Several letters were received from church societies asking for help with their debts. One woman wrote for money to buy a mourning dress for herself and a tombstone for her son, lately dead. Another, who had lost one husband, in the war, had married another husband, who was a worthless and undesirable companion. She wanted money to enable her to leave him. A young girl wrote for money for her wedding trousseau.

The Innisfil Murder.

BARRIE, Dec. 1.—William Nay, the young man who was committed by a coroner's jury to stand his trial for the murder of Thomas Sleight, was brought from Cookstown to the county gaol here this morning. He still appears quite cheerful, and states that at the proper time he will satisfactorily explain matters, and thereby obtain his discharge. It is understood that the prosecution did not bring forward all the evidence they could at the preliminary enquiry. Medical testimony will be given at the spring assizes to show that the accused was unfit to walk from Barrie to his home, a distance of twenty-two miles.

New Goods.

Use the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

SATURDAY, DECEMBER 3, 1881.

THE ONTARIO BANK MEETING.

THE meeting of the Stockholders of the Ontario Bank called for last Wednesday to take into consideration the propriety of reducing their capital stock one half proved a most stormy one, wrangling being the order of the day, during the three days which it lasted. On Wednesday Mr. Glass, of London, moved a motion refusing to take any action whatever until the Board was remodeled. This was resisted by the Directors, and as a consequence a vote had to be taken which occupied the time until late on Thursday evening, when it was declared carried by a majority of 8,000 votes. On Friday the wrangling continued until a peaceable solution was found in the following motion which was carried unanimously:—

"That the Directors of the Ontario Bank be requested at the earliest moment to place in the *Canada Gazette* and other papers, as required by law, a notice calling a special general meeting of the shareholders of the Ontario Bank to receive the resignations of the whole Board of Directors and to make by-laws relating to the appointment of Scrutineers and the mode of filling vacancies on the Board of Directors, and for the transaction and consideration of all matters which might be considered pertaining to an annual general meeting of the stockholders. And further, that the Board of Directors do forthwith give proper notice of application to Parliament for a reduction of the capital stock of the Bank, without naming the particular amount of such reduction."

THE *Globe* is very much exercised over the fact that our importations of cotton and woollen goods are increasing in spite of the N. P. Well what if they are? No one will, we imagine, dispute that there is manufactured in Canada a much larger quantity of these goods now than there was either one or two years ago. If so, and we are at the same time importing more, it is obvious that the consumption must have largely increased over what it was when Mr. Mackenzie was making this a cheap country to live in. In fact we are inclined to think this is the case, and to attribute it, first to the fact that the purchasing power of the people has increased, and secondly to the fact that most people's wardrobes had become so reduced under Mr. Mackenzie's regime that an extra supply is now required to bring them up to that point of comfort which it was impossible to maintain in the good old days when the *Globe's* flies on the wheel were in power.

GERMAN EMIGRATION.

BERLIN, Dec. 3.—In the German Reichstag to-day Herr Botticher, Secretary of State, spoke of the number of persons who emigrated during the last four years, and pointed to the great care bestowed upon emigrants on their arrival in America as only calculated to foster a desire to emigrate. Herr Meyer (Liberal) advocated a law for the protection of emigrants.

RIOTING AT LIMERICK.

LIMERICK, Dec. 2.—Some civilians attacked a party of soldiers in a Limerick liquor shop today. The military were summoned and cleared the streets at the point of the bayonet.

A DASTARDLY OUTRAGE.

LIMERICK, Dec. 2.—An attempt has been made to blow up the lodge-house at Limerick, belonging to a gentleman named Considine. Nearly the whole roof was blown away, and a gable end demolished. The keeper was seriously injured. The outrage is attributed to evictions on the property.

THE BELLEMULLET RIOTS.

DUBLIN, Dec. 2.—At Bellemullet, Ireland, a coronor's jury found Constable Sullivan guilty of murder in shooting Mary Deane during the riots after the order to cease firing had been given. Sullivan swore he didn't fire at all, and the Crown solicitor declared that the verdict will be quashed by the Queen's Bench.

GEN. IGNATIEFF DISMISSED.

ST. PETERSBURG, Dec. 2.—It is stated that in consequence of Gen. Ignatieff's assurance with regard to the complete discomfiture of the Nihilists, the Emperor had determined to remove from Gatchina to St. Petersburg, but Sandowski's attempt upon the life of Gen. Tcherevine caused the greatest consternation at Gatchina, and the return of the court is now indefinitely postoned. It is rumoured that the Czar is so incensed with Gen. Ignatieff that he has dismissed him from his post.

AMERICAN.

AN UNWELCOME GUEST.

NEW YORK, Dec. 2.—The steamer St. Germain arrived to-day, having aboard Carl Dunkle the notorious criminal shipped to the United States by the authorities of Switzerland. The collector informed the captain of the steamer that if Dunkel was allowed to land the papers would be refused to the vessel. Dunkel was therefore not permitted to leave.

BURSTED BANKS.

JERSEY CITY, N. Y. Dec. 2.—John Halliard, president of the failed Mechanics' and Labourers' Bank, has been convicted of conspiracy to defraud, and sentenced to eighteen months imprisonment. James Dounellon, secretary, and Dr. O'Callahar, a director, were fined $500 each. Sentence was suspended on Dittman, Sweeny, and Sharon, the other directors. The court was crowded with depositors, and Halliard's sentence was applauded. He broke down, and his wife fainted.

THE IRISH CONVENTION.

CHICAGO, Dec. 2.—The Irish convention today adopted resolutions reciting the grievances of the people of Ireland, and expressing a determination to aid in support of the Land League. An address of sympathy and encouragement was also adopted, and the convention discussed a proposition to send an instalment of $250,000 to Ireland. A vigorous despatch was read from the Ladies' Land League of Montreal expressing sympathy with the object of the convention. The convention recommended that a special levy of cash from the organizations represented, and all others organizations friendly to the Irish cause, and from the friends of such organizations, be forwarded as an instalment before the 1st of February to the treasurer of the National League.

The executive committee, of which Dr. Wallace, of New York, is a member, was appointed to carry out the pledges of the convention and to organize associations to act in concert with the organization in Ireland. T. P. O'Connor, of Elmire, said the convention should take practical form, and opened a subscription list with $500, which was followed by subscriptions amounting to $38,000, all of which were paid in. The chairman of the committee is to solicit Secretary Blaine to take action to liberate American citizens from British prisons. The convention wound up with cheer for Parnell and Dillon.

THE LOCAL ELECTIONS throughout the Province of Quebec, on Friday, resulted in a clean sweep for the Conservative party, who carried 47 out of the 65 constituencies. Mr. Chapleau will have a clear majority of 35 in the new house. The day passed off very quietly in every constituency. There was great rejoicing throughout the province when the result became known.

THE SARMATIAN.

Her Arrival in Boston after a Tempestuous Voyage of Twenty Days

BOSTON, Nov. 30.—The Steamer Sarmatian, Capt. Scott of the Allen line, arrived at this port this morning from Glasgow, after a rempestuous voyage of twenty days, having left Glasgow Nov. 10. From the 17th to the 25th she met a series of gales, which were terrific in fierceness, but which, however, did very little damage to the vessel. On the 17th Capt. Scott was at his port on the bridge, when a heavy sea struck the seaboard side breaking the rails and throwing the Captain down, injuring his back and right leg, necessitating his keeping his stateroom for ten days. The Sarmatian brought five cabin and thirty-two steerage passengers, besides a large miscellaneous cargo.

GUITEAUISMS.

WASHINGTON, Dec. 3.—Guiteau's testimony has converted many to the belief, not in his entire sanity, but in his entire responsibility. The relations of Guiteau are reported as feeling keenly the need of a skilled orator to present their theory of the case to the jury. It is stated that Scoville has spent the most of his money on the case, and that he is scarcely able to pay current expenses, and thinks of lecturing on Civil Service reform as connected with the tragedy, in order to replenish his purse.

Daily Evening Review

SATURDAY, DECEMBER 3, 1881.

No better illustration could be afforded of the beneficial effect which the placing of the Pacific Railway in the hands of a strong and vigorous Syndicate, has had upon the North-West than the advance in the assessment of the city of Winnipeg from a little less than four millions in 1879 to over nine millions in 1880, and also the fact that the customs revenue collected at that port advanced from $17,784 in November, 1880, to $61,317, last month.

THE REVENUE.

The revenue of the country continues to be a in a most satisfactory condition, a circumstance which is anything but gratifying to those prophets of evil omen of the Cartwright school and their organs, who predicted that the tariff of 1879 would not produce the requisite amount of revenue to meet the necessities of the public service. The following is a statement of the receipts from Customs and Excise for the five months from the 1st of July to the 30th of Nov. 1881, inclusive, compared with the corresponding period last year :—

	1880.	1881.
Customs.....	$7,481,201 64	$9,012,546 90
Excise.....	2,258,717 09	2,509,495 38
	$9,739,918 73	$11,520,042 28
Increase over 1880.....		$1,780,123 55

The following is a comparative statement of the revenue for last month compared with November, 1880 :—

Customs for month of Nov., 1881,.....	$1,719,109 15	
Do do 1880.....	1,290,390 30	
		$428,718 85
Excise for month of Nov., 1881.....	$ 602,020 23	
Do do 1880.....	550,901 06	
		$ 51,119 17
Increase for month November, 1881, over November, 1880.....		$479,838 02

This is a highly satisfactory statement upon which the Government and the country are to be congratulated.—*Ottawa Citizen.*

SKILFUL CRACKSMEN.

A Montreal Citizen's House Boldly Ransacked—Jewellery Taken Away.

MONTREAL, Dec. 1.—The most barefaced and daring robbery recorded here since the McNamee robbery of $15,000, was perpetrated this morning at the house of Melvin Smith on Mountain street. Mrs. Smith was awakened by the cries of her child, and upon rising heard some person rush down stairs and come in collision with the hall stove. Her husband was awakened at once, and upon looking down stairs found that the house had been ransacked and robbed. A set of diamond shirt studs valued at $4,000 were taken, and rubies and diamonds, etc., were also carried away to the extent, at a low estimate, of $6,000 to $7,000. The thieves left no trace, but must have entered the house and secreted themselves before the doors were locked.

LATER.—Additional particulars of the daring robbery at Melvin Smith's residence shows that though the thieves ransacked Mrs. Smith's bureau they missed taking away a diamond ring valued at $1,000. In Mr. Smith's purse were two silver dollars, one of which had his name engraved upon it. The recognizable coin was taken and the other left. There was in one room a burglar alarm, but the patent did not work. The burglars must have been extremely expert in their trade, and are believed to belong to the United States. Mr. and Mrs. Smith are both light sleepers, but all the operation had been carried on within a foot of them. The thieves must have crawled in between the bed and the cradle, picked the lock of the bureau, and ransacked all the drawers in a most inconvenient position, where the least false step or motion would probably have betrayed them. No burglars' tools or weapons of any description have been found on the premises. Nothing was broken or injured in the house, and not the least trace was left by which the robbers could be identified. This morning a policeman found Mr. Smith's vest lying in the front garden. It must have been picked up hurriedly in the flight, the gold watch and chain abstracted, and the vest thrown down there.

On Monday evening a stranger was found in Mr. Smith's porch, and asked for some man who did not live there. Being directed to go down the street he went up the street instead. This is the only clue possessed at present. Mr. Smith's house has twice before been entered by burglars, and this third robbery has taken place in spite of all the precautions which he took to prevent it. Detective Fahey and his Dominion force have the case in hand, and are guarding every avenue of escape.

THE MOUNTED POLICE.

They do a Good Turn for Some American Ranchemen.

It will be remembered that about a month ago three ranchemen named Harrison, Brown, and Murray came to Benton after assistance in recovering about twenty-five head of horses, stolen from them on the Yellowstone by Blood Indians; that Sheriff Healy and posse started out in accordance with their request, and succeeded in finding one or two of the stolen horses at the Blackfoot Agency, where, also, one of the thieves, Bad Bull, was captured; that, failing to recover the whole number of horses stolen, Harrison with the Piegan chief White Calf and seven warriors, started for Fort McLeod with every assurance of finding them among the Bloods at the Agency.

Mr. Harrison returned to Benton the day before yesterday, and brings the following interesting account of his treatment at the hands of the officials at the post, to whom too much credit cannot be given for their determined action and ready response to Mr. Harrison's appeal :—

On Oct. 24th the post was reached and a search instituted in a quiet way for the horses. But none could be found. Thereupon Calf Shirts summoned the chiefs of the Bloods to a conference with Mr. Harrison, by whom they were told that all that was wanted was the horses. The Blood chiefs went away and soon after returned with a few head of horses, some of them Harrison's, but Harrison suspected, and the event proved it true, that the best horses had been sent for trade with the Cootenay camp and after buffalo. Thereupon application was made to Major James Crozier, commander of the post, and to Mr. John McDougall, for assistance. These two gentlemen had both been aware af a war party of thirty Indians having come back from across the line with white men's horses a few days before.

They immediately sent out some mounted policemen, and by half-past ten o'clock they had brought in seven of the party—all that could be found—to the fort. A jury of twelve citizens was empannelled. The trial was held before Col. McLeod, the stipendiary magistrate. In less than two hours and a half the seven Indians were found guilty. Sentence was suspended, fearing lest it might make the remainder of the party, for whom search is being made, get out of the country. These forcible and summary measures had a good effect on the Indians, the first of which was the surrender of eighteen head of horses which had been stolen from time to time. All of these but three, which gave out on the road, were brought in by Harrison, and were turned over to Sheriff Healy, who recognized several as being described to him by their owners, from whom they had been stolen.

Mr. Harrison speaks in the highest terms of his treatment by the McLeod officials. He returns to his home still out about fourteen head of horses, his time for six weeks, and the wages of twelve men for some five days.

We understand he will make claim for reimbursement from the Canadian Government.

In our last week's issue the *Record* took occasion to remark that by their conduct the police of the North-West Territory gave evidence of being afraid of the Indians. But it seems that such is not the case. Indeed, such prompt execution of law is unusual even in the most civilized country. Of course it can not fail to have its influence in stopping this business of horse thieving by northern Indians which has already gone too far.

A BIG, BIG DIAMOND.

The Largest Stone Found This Century on Exhibition in London.

On Saturday night, Nov. 12, one of the great diamonds of the world—the largest, according to Mr. Edward Streeter, which has been found this century—was exhibited in London. It was discovered in the claim of Mr. Porter Rhodes, in the Kimberley mine, South Africa, and by its remarkable whiteness completely disposes of the charge against Africa of being the nurse of tawny diamonds. The surface diamonds had, indeed, a yellow hue, but now that the miners have gone below the trap, they find in Jagersfontein and other famous regions of the Griqua diamond fields the clearest blue white stones. The Porter Rhodes diamond was brought to light on Feb. 12, 1880, and before it left the diamond fields £500, which was placed to the credit of the local hospital, had been paid by spectators to see it, and £80,000 had been offered for it in vain by a syndicate of London jewellers. It weighs 150 carats, is still uncut, but is so cloven that the "table" and one of the "steps" is already formed, and it will lose less than most diamonds in the cutting, being expected to produce a net weight of about 100 carats when it assumes the form of a brilliant. Its great purity of colour and compactness of shape make it a beautiful object, even in its present rough state.

Mr. Streeter shows near it models of other famous diamonds, the Koh-i-Noor (106 1-16), with which Mr. Rhodes has been enabled, by the Queen's permission, to compare it at Windsor, the Star of the South (the great Brazilian stone), the Dresden Drop, etc., together with the unique jewel the Mackel diamond, in which a small stone has been imbedded by some freak of nature. It was interesting to compare with these gems the more valuable jewel from South Africa, and the comparison was enjoyed on Saturday by a numerous company, among whom were many of the members of the Corps Diplomatic, Mr. Childers, Lord E. Churchhill and others. The diamond was shown to the Queen and to the Princess Beatrice and the Duke of Albany at Osborne in January of this year, and her Majesty presented Mr. Rhodes with a watch, which he showed on Saturday with as much pride as his big diamond.

DISEASED IMMIGRANTS.

Insane and Helpless Paupers from Europe a Public Burden in Pennsylvania.

PITTSBURG, Pa., Nov. 28.—The authorities here are becoming indignant at the character of a large class of immigrants who come here from New York and Philadelphia. The Board of State Charities has the matter under consideration at present. The Secretary of the Pittsburg Poor Board said to-day :—"We send up three or four immigrants to the Poor House almost every day. They are generally afflicted with some disease which prevents them from working. Some have ship fever, others fever and ague, epilepsy, or they are dependents. Thus far this month we have sent twelve of this class of immigrants up to the farm, and this is a very light month. In fact, during some months we have no other cases but needy immigrants, who, if not cared for would die in the street. Our Poor Board purpose taking some action on this subject at their next meeting. Many of these cases are sent over here by the authorities in foreign countries, and others are sent over by their friends, who are desirous of getting rid of the expense and trouble of caring for them, and generally it is rather difficult to get at those facts.

Doing Its Work at Ottawa.

To see anything taken hold of and vigorously pushed to its determinate result is, to us, a very gratifying sight. For some time past there has been no little commotion in our midst in view of a very persistent struggle going on between two mighty-well matched adversaries. The old established one had been enjoying a sort of monoply in our midst, afflicting whom it would, and yielding to no influence whatsoever. The latter arrival simply comes upon the same ground occupied by the old resident and very quietly insinuates itself, and at once is acknowledged master of the situation. The following specific illustrations, imparted to one of our representatives, will convey a clearer idea than any amount of abstract reference. Mr. Alexander McKechnie, Rochesterville, Ottawa, Ont., said :—"I was a perfect cripple with rheumatism in my arm and my feet for more than two weeks, when I was advised to try St. Jacobs Oil. I did so; in two days I went to work, and at the end of a week I was as well as ever. I consider St. Jacobs Oil a "dead sure" cure for rheumatism in every form." Mr. James Dempsey, Cobourg St., Ottawa, was pleased to remark :—"Having suffered for some time in the back, I am gratified to say that I have been completely cured after a few applications of St. Jacobs Oil, and can confidently recommend it to any one suffering in like manner." Mr. William Cherry, of Ottawa, thus spoke :—Having tried several preparations for the removal of aches and pains, and found none to equal St. Jacobs Oil, I fully recommend that wonderful substance as a sovereign remedy for that purpose." It would be superfluous for us to indicate that the "aged inhabitant" is rheumatism, and this "thorn in the flesh" is St. Jacobs Oil, which is doing a splendid service towards insuring his removal from our midst.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

UNITED States Senators are not only paid a salary, but are allowed $125 for stationery. The other day a young man came across one of them, (Judge Davis) counting some money. "Young man," said Davis, "this is the true way to make money; economy and saving. There is my stationery allowance. The Senators are allowed $125 for stationery. Too much, too much! I have used just $4 worth, and am entitled to $121 in cash, and here it is. Be economical and saving, young man."

MILLIONS GIVEN AWAY.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

DR. CARSON'S STOMACH AND CONSTIPATION BITTERS, are rapidly taking the place of all other purgatives, including Pills, Powders, etc., There action is mild yet effectual and they are a certain cure for all bilious complaints. In large bottles at 50 cents. J. D. Tully, special agent for Peterborough.

FROM ALL OVER.

A DESPATCH from New York intimates that Brecken, the absconding cashier of the Bank of Prince Edward Island, is in hiding in that city.

IN Georgia there is a man who for thirty three years has been in bed, suffering great agony from rheumatism and being unable to move.

BY a return just made, it appears that there are in England 4,006 paupers who are ending their days in workhouses because their savings were engulfed by fraudulent friendly societies.

A POINTED criticism need not necessarily be written with a fine pointed pen; one of Esterbrook's medium or broad pointed pens will answer as well. Ask your stationer for them.

"I SPRAINED my ankle some time ago, and suffered seriously from the pain and swelling," writes Mr. George Stevens, Peabody, Mass., "as a last resort I used St. Jacobs Oil. Three applications cured me entirely."

Two brothers living near New Philadelphia, Ohio, disputed about the ownership of an ordinary waggon bed worth $2, and after spending $300 in legal costs, the plaintiff has just recovered a verdict of 10 cents damages.

THE value of the output of coal from the mines of Nova Scotia during the eleven months of this year just elapsed, exceeded by $23,000 that of the output for the whole of the year 1880.

SCENE—Photographer's booth at Scotch country fair. Sandy (whose photo has just been taken): "Eh! man, that's no like me at a'." Artist: "It widna be sae bad if it wisna sae like ye." Sandy departs meditating.

A NEVER FAILING SOURCE OF WEALTH.—It can be proven, the world over, that the grower of live stock, whether poultry or animals, who mixes Harvell's Condition Powders with their feed, realizes twenty per cent on their value more than he who foolishly ignores these great specifics.

HENRY CLAY, a grandson of the famous bearer of that name, went to Greenland a year or so ago for the purpose of joining the Howgate expedition there. The expedition, like Captain Howgate, was a failure, and Mr. Clay was left to look for the North Pole on his own hook. He did so, travelled a great deal by dog-team, and got enough of it. He has just reached his home in Kentucky.

DURING his examination Guiteau said that the theory and practice of American politics is "You tickle me and I'll tickle you." Probably acting upon this maxim, a number of Southern and Western Congressmen intend offering vigorous resistence to the Star route reforms, with the object of having the old state of affairs re-established.

FOR DYSPEPSIA OR INDIGESTION, Habital constipation, Biliousness, Liver or Kidney affections, the safest and best remedy is Dr. Carson's Stomach and Constipation Bitters, the great family medicine. They can with perfect safety be given to the youngest child as they are purely vegetable in composition and mild in their action. Sold in large panel bottles at 50 cents. J. D. Tully, special agent for Peterborough.

Les Mondes has recorded a very unusual instance of suppression of telegraphic communication. Some time ago it was found that no message could be sent between Souk-el-Arba and Medjez-el-Bab. Those who had been detailed to make an inspection found that an enormous serpent had coiled itself around the wires and a post, and thus interfered with the conductivity of the line.

AT a suggestion of the Prefect of Police, a number of medals of honour have been awarded to policemen in Paris for exceptional deeds of daring in the execution of their duty. The medals are in silver, and are devided into first and second-class. Among the deeds specially recognized in this manner are saving life, arresting dangerous criminals, killing mad dogs, helping to extinguish fires, and stopping runaway horses.

WASHINGTON health officers are hard-hearted. Dr. Delaney, an African, one hundred and one years old, and descended from the Mundingo tribe, asked to be registered as a physician. He showed what purported to be a diploma, the words being written in English on an elephant skin, dated Sierra Leone, 1806. Neither this testimony nor his remark that he was with Livingston for four years, had any effect upon his hearers, for he was not allowed to register.

ACCORDING to a London paper, this year as last year, and through many that went before, Mr. Gladstone prefaced his arrival at Hawarden Castle by the despatch of a large box containing books he had picked up during the session at book stalls, and in second-hand book shops. There is an unpretending looking shop in the narrow thoroughfare in the Strand, which the tenants like to call Book-sellers' row, where he is a constant customer. He bought here, among other things, a second-hand copy of "Lothair."

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

WHEN sleeplessness is caused by grief it is said that morphia, narcein, and codein prove very efficient remedies, but when it arises from nervousness or arterial excitement, bromide of potassium acts well unless the patient is anæmic. In purely nervous sleeplessness chloroform in small quantities answers well. Hydrate of chloral suits in all cases except in dyspepsia and heart disease. The sleeplessness of the aged and of persons with debilitated constitutions should be treated with such tonics as wine, bitters and the like.

THE murder committed on the English railway from London to Brighton, has led to another homicide. Two men named Beedham and Newman quarrelled in a public house at Bethnal Green, a few nights ago, about Lefroy, one contending that he was guilty, and the other maintaining that he was innocent. They came to high words, and ultimately "adjourned to a quiet spot to settle the matter in a few rounds." During the fight Newman struck Beedham a blow behind the ear, rendering him insensible, and he died shortly afterward. Newman then ran away and is still at large.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

TRICKS OF A NOTED BURGLAR.

The Leadville Democrat says: An episode which was quite amusing to a small circle of spectators occured at the county gaol a few days ago, when one of the "cross-roaders" was brought in for board. Mike Govern, to whom has been given the sobriquet of "Limp Leg," acquired this title from the fact that when he was engaged in a legitimate occupation he was a victim in a railroad accident, and his injuries necessitated amputation at the knee. Mechanism furnished a substitute for foot and calf, and he started out to be a gambler. His crippled limb hindered him seriously from doing hard work. It was easier to steal than to labor, and his "game" limb was a fort and a bulwark against the vagrant act. Consequently he had very natural advantage for a shining light as a loafer, and he stood on the street corners unmolested. Finally Limp Leg was arrested for complicity in a burglary in Chicago, and he was sent to the penitentiary. Having served his term, he naturally drifted to the west after he had established his identity as a burglar, and after having been arested repeatedly on suspicion; and a few weeks ago when the burglars were doing extensive work here, he was again taken in. There was little evidence before the grand jury, and upon the warrant was marked "Not a true bill." The doors were opened to Limp Leg and jailer, Reese Tucker, told him that he might go. At this juncture Sam Tate stepped forward and whispered something in the ear of Jailor Tucker. The jailer indulged in a bland smile, and turning to the fellow, who had lingered for a moment said:

"Limp, let's see your tool chest before you go, will you?"

"What do you mean?" replied Limp Leg, feigning the most profound ignorence of what the jailer referred to.

"Oh, you needn't be afraid, the grand jury has said that you could go, and we want to see where you carry your burglars' tools."

"Burglars' tools?" exclaimed Limp Leg, as a shadow of color passed across his features.

"Yes, the set that you carry in your wooden leg, continued the jailer. "You'd better show us the trick, now, or we'll have you re-arrested. If you do we'll give you just one hour to get out of town with your stock of tools." At this Limp Leg reseated himself, and, pulling up his pants' leg, he exhibited the cork addition of extention.

"If you think you can find anything wrong with my leg just look at it yourself," said Limp Leg, as he thrust it out towards the gaoler.

"Touch the spring," shouted a voice from behind the bars.

"Touch the spring, Limpy," repeated the gaoler to the fellow, who was now wild with wrath.

Seeing that he was cornered, Limpy then reached down and, throwing his thumb nail on a needle that protruded from the cork leg, a small door flew open in obedience to his touch. A small hole was revealed here, and, inserting his finger, Limp Leg brought fourth an assortment of articles that are employed in getting into the house of a man who has a bank account. There were several skeleton keys, several pincers and three or four slender files. This was indeed startling, and, sticking to his word, the jailer told Limp Leg to get up and git. The door of his tool chest was locked and he went off, leaving his curse behind him.

Daily Evening Review

SATURDAY, DECEMBER 3, 1881.

LOCAL AND MUNICIPAL.

Railway Notes.

A telegram from London, England, dated December 2nd, says that the Great Western Railway Company of Canada has made such arrangements as will enable it shortly to acquire the Credit Valley, and it is the intention of the Great Western to assist in building the Ontario and Quebec line from Ottawa to Toronto without delay. Negotiations to this end have been in progress for several days, and have now been agreed to.

The Cobourg, Peterborough and Marmora Railway has ceased running for the winter.

It has been currently rumored for some days that the Canada Pacific Syndicate have purchased the Victoria Railway, but the rumor lacks confirmation.

Rumor says that Mr. Cox intends to put on two trains a day to run direct from Peterboro' to Toronto, thus placing us in a position where we are the independent of Port Hope connection with the Grand Trunk, Another step onward.

The Grand Junction station at Belleville is being fixed up. The repairs were needed.

The new freight shed at the Union station is almost ready. There will be any amount of freight to keep it full.

Mr. Wheeler, the contractor, has completed the link of railway connecting the Toronto and Nipissing with the Midland at Woodville junction. This is another link in our through line from Toronto to Ottawa, and will enable the Midland to run a through train from Peterborough to Toronto.

The Bowling Alley.

The Lacross Club bowling alley is now in full blast and the alleys in better condition than ever they were, for making large scores. The club have gone to considerable expense in fitting up their rooms and in order to enable them to carry out their plans fully, we desire to see a large number of new members enroll their names with the secretary. The game, as is well known, is one of the healthiest that can be played, while those members who do not care to exert themselves as much, have recourse to a fine gymnasium, complete in every respect. The President with his usual generosity has put up for competition a handsome championship belt to be played for every Friday night during the winter, the man winning the most games every month to hold it for the following month. The first game took place on Friday night. The competitors numbered twelve and the play was very good. The principal scores were as follows:—

A. Sawers	212
J. Joyal	191
J. Lynch	181

The Market.

Considering the unpropitious state of the weather, the market was well attended. Of course, being Saturday, rain and snow fell, not in any considerable quantity, but just sufficient to make the roads soft and muddy. As usual at this season of the year, the produce offered was of a general character. Pork was very plentiful. There is no change in prices worth recording.

A Change.

Owing to the fact that extensive changes are being made at the office of the Great Northwestern Telegraph Company, the lines are not working as well as usual, and in consequence our despatches are not so numerous as they generally are. When the changes are completed Mr. Cox will have one of the finest offices of the kind in the country.

Pedigreed Cattle.

We understand that some people are in doubt as to Mr. Henry Collin's cattle being possessed of the necessary qualification to insure their registration in the Canadian Herd Book under the new regulations, but they need not have the slightest doubt on this point as they all prove to be up to the new standard.

POLICE COURT.

FUN AMONG THE GRAIN BUYERS.

SAURDAY, Dec. 3.—Benjamin Green was charged by John McPherson, with using grossly insulting language towards him.

After hearing the evidence of complainant and two other witnesses, defendant was found guilty by the Magistrate.

Judgment—fine $2, and costs $5.60.

A CROSS SUIT.

John McPherson was charged with committing an assault on Benjamin Green, on Thursday last.

The evidence did not sustain the charge, and the complaint was dismissed without costs.

TO KEEP THE PEACE.

Benjamin Green was bound to keep the peace for one year, himself in the sum of $400, and W. H. Wrighton and Henry Rush in the sum of $200 each.

Through the Ice.

This morning while a Mr. Shearer was skating on Mud Lake, the ice gave way beneath him and he fell into the water close to the floating bridge. Beyond a cold bath, no harm resulted from his involuntary immersion. We have heard of two or three similar cases on Spaulding's Bay, but as the water there is not very deep there is no danger of any person being drowned. As some of the more venturesome youths are commencing to venture on unsafe ice on the river and lake, a word of warning will do them good.

The Buzz Saw Bites.

A carpenter, a Frenchman, says that a buzz saw bites when it gets a chance. It happened thus; he was cutting shingles for the roof of Mr. D. G. Henthorn's new "Enterprise" hotel and not being accustomed to the work, he slipped the index figer of his right hand in front of the circular saw. The saw grasped the opportunity and split the finger for over an inch. A surgeon dressed his wound.

More of It.

Messrs. McKee and Davidson have recently received the largest stock of plate glass ever brought into town at one time by any single firm. We believe that the greater portion of it is for Mr. Thomas Bradburn, who intends next spring to put in plate glass in the windows of all the stores owned by him. We are keeping up our reputation of being the "Plate Glass City."

Municipal Matters.

Matters in municipal circles are exceedingly quiet and there is hardly any talk of candidates who aspire to seats at the Council Board. True many names of eligible persons are mentioned, but as is usual in such success, by far the greater proportion of persons decline the honor. There will, in all probability, be no opposition for Mayor, and the present incumbent of that office will be elected by acclamation.

The Caisse House

Mr. Motashed has secured the services of Mr. Wynn, late of the Dafoe House, Belleville, and that gentleman now presides over the bar at the "Caisse." He comes well recommended and will doubtless soon become popular with the boys. The "Caisse" is rapidly gaining popularity and its patrons are better served than ever before. Success!

Lecture.

A lecture entitled "A Visit to England" will be delivered by the Rev. Mr. Bell in St. Luke's School House, Ashburnham, on Monday, Dec. the 5th. at 7,30 p.m. It will be illustrated by photographic views of the chief places of interest through the aid of a Scioptican. Admission 15 cents.

The Licensed Victuallers.

A meeting of those interested in the liquor trade is to take place at Hill's old Music Hall on the 8th of December, when Mr. A. G. Hodge, of Toronto, will be present and explain the aim and objects of the Ontario Trade Benevolent Association, and organize a branch society for this county.

About a Dog's Tail.

This afternoon on George street a crowd gathered around two farmers, one of whom stated that the other had cut off a dog's tail. Tht accused denied the perpetration of the act. The discussion grew quite warm, and the services of P. C. McGhee were required to restore order.

New Grocery and Provision Store.

Mr. M. Quinlan has opened out a complete and fresh stock of Groceries, Provisions, Christmas Goods etc., in the store lately occupied by W. J. Devlin, opposite the Huffman House, Hunter street. Give him a call, he will sell cheap for cash.

New Goods.

See the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

Sale of Periodicals.

The adjourned annual meeting of the Peterborough Club will take place on the evening of Tuesday, the 16th inst., at 7.30 o'clock, when the illustrated periodicals for past years and also for the incoming year will be sold.

Court of Revision.

The Judge's Court of Revision on the Voters' List of the town for 1881 commences at the Council Chamber on Monday next, at 10.30 o'clock. All those interested should govern themselves accordingly.

Bazaar.

The ladies of the George Street Methodist Church hold a bazaar in the lecture room of the church on Thursday, the 15th Dec. Tea will be served from 5 to 7 p.m., and at night oysters.

Manufacturers of Reapers, Mowers, Threshing Machines, prefer "Castorine" Machine Oil to any other. It will outwear lard, seal or elephant, and is warranted not to gum.

TELEGRAPHY.

Annual Meeting of the Great North-western Telegraph Co.—Election of Directors.

TORONTO, November 30.—The annual meeting of the shareholders of the Great Northwestern Telegraph Company of Canada was held to-day at the offices of the Company on Wellington street. Mr. William Gooderham occupied the chair. The proceedings included the reading of the report of the directors for the last year, which referred at length to the amalgamation of the Canadian Comprnies with the American system. The report of the General Manager indicated the construction of new lines since the first of July, amounting to 456 miles, mostly in sections of the country very badly needing telegraphic facilities, and also along new lines of railway now being constructed. The condition of the existing lines had been vastly improved, a large force of men having been employed thereupon in special repairs and rebuilding, in order to put the lines in good condition before winter set in. The following Directors were then elected:—Wm. Gooderham, Toronto: O. S. Wood, Montreal; Richard Fuller, Winnipeg; Hon. Wm. McDougall C. B., M. P., Ottawa; Adam Brown, Hamilton; D. H. Bates New York: Jas. Healey, Toronto; A. S. Irving, Toronto; Erastus Wiman, New York.

At a meeting of the Directors, held subsequently, Mr. Wiman was elected President, Mr. O. S. Wood, of Montreal, Vice-President, and an Executive Committee consisting of the President, Vice-President, and Mr. Wm. Gooderham appointed. The meeting then adjourned.

IRELAND.

OWING to the boycotting of the Muskerry foxhounds, the members of the hunt, at a meeting held on November 7th, decided on selling the horses, hounds, &c., and other property, and giving up hunting.

ON Nov. 5th, poison notices were extensively posted up in Naas, stating that the land of Bryancan and Broadleas were poisoned. The land, the notice states, is the property of Patrick Driver, a "suspect" in Naas jail. The notice is given to sheep and dog-owners.

No little commotion was excited in Kilmainham jail, recently, by the accidental discharge of a revolver by one of the police on duty in the large hall in which the "suspects" are. Several persons standing close to him narrowly escaped the bullet. The guards turned out, and some of the police, who, it is stated, were asleep on duty, have been reported.

THE first case in which, since the passing of the Land Act, an arrangement has been made between landlord and tenant out of court, has occurred on the estate of Mr. George E. Brown, at one time the representative of Mayo in Parliament. Reductions of rent varying from £3 to 10s. per annum were agreed upon, and leases granted for fifteen years. The farmers considered that by this means they secured a reduction at much less expense than by having a judicial rent fixed. The original notices in the Land Court were withdrawn.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age, Sold at 25c. a box everywhere. d52w9

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

No fragrant wild flower of the heath
Is sweeter than my Julia's sigh;
No pearl is whiter than her teeth,
While her soft lips the roses dye,
For Sozodont is her delight,
It keeps those charms so pure and brig

Must say it is the nicest thing I ever used for the teeth and breath," says everyone having tried "TRABERAY," the new toilet gem. Get a 5 cent sample.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

MONTREAL.

Special to the Review, Dec. 5.

THE POLICE have been unable so far to get any clue to the party who left the infernal machine at the Court House. The machinery by which the instrument is operated has been removed, but so far no mechanic can be found to open the machine. From the smell emitted it is believed to contain nitro glycerine and dynamite powder. All sorts of conjectures are afloat as to the object the parties had in attempting to blow up the Court House. There is no absolute certainty yet as to the contents of the machine.

THE STATEMENTS of profits made by vessels last season are various. It is said that the Marine Insurance Companies have realized another bad year.

A MEETING of Presbyterians who are opposed to innovations in the church service, assembled for public worship yesterday under the auspices of the Presbyterian Defence Association. The Rev. Mr. McCrae, M. A., of Aberdeen, preached both morning and evening, and much interest was taken in the services. About one hundred person were in attendance.

Special to the Review, Dec. 5.

CHARLES E. FURLONGE, of the bank of British North America, reported as having left town with the police in pursuit, was captured on board the night train going west, and brought back to town early this morning. He had driven out the mail road and boarded the train at Sutton's Mills. The warrant on which he was arrested, charged him with embezzling a cheque for $1,500. This morning he and Lewin were brought before the Police Magistrate. Lewin pleaded not guilty and Furlonge said nothing. Both prisoners were remanded until to-morrow, the cheque can't be found and it is supposed that it was destroyed by Lewin.

THE LAND COURT.

DUBLIN, Dec. 3.—55,000 applications have this far been made to the Land Court, They are increasing at the rate of five hundred daily. There is no doubt that as soon as the ten commissioners which have been appointed get to work, the applications will greatly increase. There have been only 178 decisions as the result of four week's work. At this rate it would take over six years to decide the cases already before the court. Before the year is passed there will be at least 150,000 applications.

LONDON, Dec. 3.—It is thought the same gang that stole A. T. Stewart's body may have taken the body of the Earl of Crawford.

A MACEDONIAN RISING.

ATHENS, Dec., 3.—A general uprising of Greeks in Macedonia is apprehended by the Turkish authorities. A large number of arrests have been made, and it is reported that Turkish troops are searching houses on Mount Athos and the peninsula for arms concealed by the Greeks.

NO REPUBLICANS.

ROME, Dec., 3.—The *Liberta*, replying to Prince Bismarck's statement that Italy had advanced to a republic, declares that three-fourths of the Left would not tolerate a Cabinet even slightly tinged with republicanism.

A GREAT JEWEL ROBBERY.

LONDON, Dec., 3.—Jewels valued at £80,000 have been stolen from Lord Hill Trevor's seat, near Chirk, North Wales.

MINISTER LOWELL.

LONDON, Dec., 3.—Minister Lowell reached Paris on Monday from Rome. His health is hardly restored, He was presented on Saturdap to M. Grevy by Mr. Morton, and will arrive in London on Tuesday, when he resumes his charge of the legation. The reported resolve of the President to retain Mr. Lowell as minister proudly gratifies the English and Americans alike. The story of Mr. Morton's intention to spend the winter in Cannes on accoant of his wife's health is groundless. Mr Morton has arranged a meeting of M. Gambetta and Mr. Lowell for Monday.

INCREASE OF CRIME.

DUBLIN, Dec., 3.—Iu the eastern counties the assizes have begun, and the judge spoke of the great increase of crime. He said that threatening letters and intimidation were everywhere on the increase, and the fearful crime of arson was much more frequent. I am not an alarmist, and do not predict civil war, but certainly the situation is most critical here. The Liberal Irish policy and the existence of the Liberal Government is trembling in the balance.

DISASTROUS FIRE.

GLASGOW, Dec. 3,—The spinning mills of Black and Wingate at Glasgow have been burned. Damage, £50,000. One thousand persons are thrown out of employment.

AN EVICTION EXPEDITION.

DUBLIN, Dec. 3.—The report that an eviction expedition will shortly be made to the islands along the coasts is most important. Among these is Dwise, the inhabitants of which are believed to be determined to resist, and to be possessed of dynamite.

QUASHED.

LONDOD, Dec. 3.—The Court of Queen's Bench at Dublin has quashed the proceedings against sub-inspectors O'Brien and Boutchier, who commanded the police at the Ballyragget riot, and against whom a verdict of wilful murder was returned by a coroner's jury.

Boyd and Hanlan

LONDON, Dec. 2.—Mr. Ball telegraphs to the *Sportsman* that he is only authorized to make a match in accordance with Hanlan's instructions, namely, to row for £200 to £1,000 a side on the Thames, or £500 with £50 for expenses, on the Tyne. If Boyd chooses to go to Toronto he can row there for £500 and will be allowed £50 for expenses. In default of the adoption of any of these suggestions the original match for £200 or more on the Thames can be concluded. Hanlan will not charge expenses in the latter case. Boyd has decided that if Hanlan will not row for less than $500 on the Tyne he will try to race the money rather than allow the match to lapse. He thinks Hanlon's request for £50 for expenses unreasonable, as he (Boyd) will have to pay his own training expenses.

Fracas on Board a Train.

ST. JOHN, Dec. 2.—The greatest consternation prevailed on the Intercolonial train from Halifax. A number of sailors more or less under the influence of liquor were on board. Just before reaching Amherst a squabble arose among them causing the greatest excitement among the passengers. During the *melee* one sailor plunged a knife into the face of another, the blade penetrating both cheeks. Passengers ran through the cars shouting that murder had been committed, and it required the utmost efforts of the conductor and brakeman to prevent a panic. At Amherst the sailor who had committed the act was given in charge, and the other man, who was in a very weakened condition, was also left behind to obtain medical attention.

THE IRISH CRISIS.

DUBLIN, Dec. 5.—It is generally believed here that the present crisis is the most important of the whole land movement, for the people have clinched with the Government, and have thus far successfully resisted all the strength of coercion. It is a startling fact that two-thirds of the rents are not being paid, and that the tenants have no intention of paying them without heavy reductions, which the landlords refuse. The land courts are so slow that the Act is as yet no remedy whatever for the troubles. The Government did not expect this delay, believing that after a few decisions the landlord and tenants would settle between themselves. The actual significance of the situation is this. The Government have employed the force demanded by the landlords and the conciliation demanded by the Liberals, and both have thus far failed. The people did not wonder at the strength of the Land League while permitted to have its own way, but now that force is being used disorder continues, and the country is experiencing a reign of terror.

A RUNAWAY RUSSIAN.

NEW YORK, Dec. 5.—A. V. Perrin, a naturalized American citizen was arrested in Russia last July on a charge of violating the stipulation in a passport given him years ago on leaving Russia, that he would return in a specified time. He escaped fron Russia, leaving business affairs there in the greatest confusion. There has been considerable diplomatic correspondence over the case. Perrin received a letter from Washington stating that as there is no naturalization treaty between the two Governments, the United States is not in a position to demand that her cltizens shall have immunity from arrest for such a charge. Perrin therefore obtained permission from the Russian Government to return to Russia, and will do so.

IRELAND.

ONE solicitor in Armagh has received instructions from over two thousand tenants for applications to the Land Court.

THE Dublin *Gazette* continues a return of outrages committed in the country in the month of October, which amounted to 490.

WHEN the new altars are erected, and the alterations and decorations are completed, in the Roman Catholic Cathedal, Waterford, it will be one of the greatest in Ireland.

THE landlords are alarmed at the way in which the land Act is being carried out. Many of them have their estates mortgaged to the extent of fully 70 per cent. of their value. In such cases, where the Commissioners reduce rent 25 per cent., the landlord is totally deprived of his income. Another grievance is that the depreciation of landlords' incomes disqualifies many of them from serving as grand jurors.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborgh.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*.

NEVER GIVE UP.—If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a billious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Daily Evening Review

MONDAY, DECEMBER 5, 1881.

GUELPH AND THE PROVINCIAL.

A RECENT issue of the Guelph *Herald* contains a timely and, on the whole, a sensible article on the Provincial Exhibition and Guelph's claim thereto in 1882.

In the centre of a very fine agricultural country and of a large number of Ontario's best breeders of stock; easy of access in all directions, within sight of the Agricultural College and possessing as beautiful and convenient a show ground as there is to be found in the Province, it is difficult to find any other reason for the city of Guelph's claims having been so persistantly ignored than that assigned by the *Herald*, namely, Toronto selfishness.

Happily for Guelph, and we are inclined to think for all Provincial interests outside of Toronto, that "avaricious" city has, by the action of its City Council and Industrial Association, so completely cut itself off from all consideration at the hands of the Provincial Association and those whom it represents, that it will be allowed to make good its insulting boastings, that it can maintain an annual exhibition of its own without either outside assistance or interference. By all means let it do so. There is ample room in this Province for a *bona-fide* annual agricultural exhibition outside of the selfimportant city of Toronto, and that too in centres where infinitely more good can be done. And the farmers of the Province and the citizens of those cities and towns, against whose interests Toronto's selfish policy is specially directed, have only to follow the advice of the *Herald* and "unite in a determined fight against the despotic attempts of Toronto" to ensure the maintenance of the Provincial Association, and the holding of good exhibitions in various sections of the Province to the manifest advantage of every interest—except those of Toronto.

But while we are strongly impressed with the advantages which Guelph offers for the holding of a Provincial Exhibition and the justness of its claim thereto, it does seem to us that there are good and sufficient reasons why its claim should stand over until 1883. For the last two years the Provincial has been held west of Toronto—at Hamilton and London—and to go to Guelph next year would be to take it three years in succession to the western section of the Province. This, we think, even the Guelphites, will concede would scarcely be fair to the eastern section—*i.e.* if Kingston continues to desire it. Of course if Kingston should get its back up because the motion did not carry in its favour at the last meeting of the Board, then we think the next exhibition should be held in Guelph, because so far as Ottawa is concerned it is only two years since it was held there before, and besides it is on the eastern boundry of the Province, while London, from the fact that the exhibition having been held there this year, should be considered out of the race in any event.

THE irrepressable J. D. Edgar in a recent speech was thankful that "a merciful Providence had inflicted only one of two great evils upon us—for we could scarcely have borne bad times and a Tory Government at the same time." Granted, and what is the result? Why that of two evils we should choose the least, and consequently the country will choose good times with a wicked Tory Government, rather than bad times with a saintly government which is sure to drop "sweet plums" into poet Edgar's mouth.

THE people out west, and for that matter in Ontario, seem to have gone wild over lots in Winnipeg. For instance, we are told that a man bought a farm one mile north of that city for $13,000, and sold it the following day for $44,000; that a lot bought one week for $32,000 was sold the following week for $44,000 and so on *ad infinitum*. No doubt this is all very fine while it lasts, but the day will come when there will be a reaction, and then there will be a crash with a vengence.

THE Quebec *Chronicle* states that Le Credit General of Belgium is about organizing a new company for the manufacture of beet-root sugar in the Province of Quebec. Orders for the requisite machinery have been given. The management of the enterprise has been entrusted to Mr. Contal, one of the most noted men in France, in connection with the manufacture of beet-root sugar.

CAMPBELLFORD.

NEARING THE END.—The *Herald* says that work about the woollen mills is going on very satisfactorily, and if the weather continues mild, Mr. Turner, the manager informs us, the wheels will be in position and the wanterpower ready for use in about ten days. A commencement of inside operations will be made shortly, and it is expected that about the first of the new year the machinery will be put into motion for the manufacture of woollen goods. When the building is completed it will compare in magnificence only second to a few similar establishments in the Province.

MOVED.—The huge steel boiler which recently arrived at thestation, was conveyed to the woollen mills on Saturday evening last. The work of moving it from the blocks upon which it rested occupied the greater part of the day, while the power necessary for its transportation consisted of ten horses attached to a stone-boat made specially for this purpose.

Grand Junction Railway.

On Thursday afternoon a conference was held between the Committee appointed by the city and Mr. G. A. Cox, President of the Midland and Grand Junction Railways. Mr. Jaffray, one of the Directors of the Railway Company, and Mr. Blackwell, Superintendant, were present.

Mr. Cox said that the meeting would be an informal one, and that Mr. Blackwell had prepared plans of McDonald street, from which it was found that that route was impracticable on account of the heavy grade; that the directors of the Company were in favor of the adoption of a more easterly route for freight, with a passenger depot east of Brown's foundry. The difficulty he found that arose was the distance to be built, which would be about three miles.

Ald. Dickson said that the chief objection to the road remaining on Pinnacle street was the using of the lower part of the street for sidings, which the company would be required to remove at once.

Mr. Cox said the Company had not yet completed the survey of the route west of the river, but would like a proposition from the committee to lay before the Directors. He said further that the contract for the line from Peterborough to Omemee was already given out, which addition to the road, when completed, would build up a large business on the line.

After further unimportant conversation the Committee adjourned.—*Belleville Intelligencer.*

Talk About Timber.

The Kingston *Whig* says a gentleman, whose knowledge of the timber trade is well known, stated that the timber trade this year had been better than it had been for some years. He did not think that unchartered vessels lost anything, as they secured fully as high rates as those that had been engaged last winter. The freights paid fairly well, but nothing more than vessels ought to earn; in fact if the profits were less no person could afford to build vessels or keep them in repair. This winter, he thought, it would be difficult to obtain charters, as the owners of timber were likely to hold off until the spring. This was owing to the fact that last summer rates fell to lower figures than those for which vessels had been chartered. He thought this holding off would be a wrong policy, as when there was a demand for vessels the captains would be more independent. There will really be a larger amount of timber for moving next year than this. The method of chartering will be the very opposite to that which was adopted last winter. If there be good rates for grain, vessels will prefer to carry it. Grain freights this year were, however, far below the average, and not nearly so good as the year before. A 6c. freight from Toledo and a return cargo of iron ore to Ashtabula or Cleveland would be better than a $70 freight on timber from the same port.

Roman Relics in Great Britain.

Some interesting Roman remains have been discovered at the village of Wingham: and, considering it lies on the direct road to the centre of England from Richborough, the favourite landing-place and the strongest seaside fortress of the earliest conquerors of Britain, the find is not surprising. The first curiosity which the explorers lighted upon was a bath-room, the walls of which were found to be covered with black and white tesseræ. The floor had also been paved, but unfortunately this part of the ancient building had been destroyed. On the north two other chambers, ornamented in the same manner, have been uncovered, and on the west a part of the hypocaust, with passages for the admission of hot air, has been disclosed to the light. At the present time the investigators are driving to the south, and have already come upon traces of more rooms. From the descriptions of the remains this ancient villa is not unlike that which was found at Bognor, in Sussex, exactly seventy years ago, but the rooms are neither so large nor so elaborately ornamented. —*St. James' Gazette.*

Business on the Intercolonial.

OTTAWA, Dec. 1.—Mr. Schrieber, chief engineer of the government railways, has returned to the city, after inspecting the Intercolonial and Prince Edward Island railways. The traffic on the Intercolonial is reported to be so great that the present rolling stock is insufficient to meet the demand, and several hundred new freight cars and locomotives have to be added. The increase is principally in the shipping of coal from the Nova Scotia mines to the western markets.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

The Fly and the Watch-Dog.

When John Buskin, in one of his uniquely expressed and incomparable essays, holds up the house-fly as the embodyment of true earthly liberty, he uses an illustration that all can appreciate. But when he would convey the idea of the most abject slavery by citing the watch-dog as the truest representative thereof, we must dissent from the opinion of our friend of art and beauty. If in all this world—in its varying circumstances and changeful conditions, there can be found a degree of serfdom more exacting and remorseless than that imposed by sickness, we would be pleased to discover such. And when it partakes of that nature where the nerves vibrate with pain of neuralgia at the slightest touch, and the body is made unshapely by the cruel energy of rheumatism, then it is slavery indeed. However, with the bad runs the good, and with the disease is to be found near by the antidote, as the following illustrations will show: Mr. Thomas Claydon, Shelburne, Ont., writes:—"I have been suffering with a lame back for the past thirty years, and have tried everything I heard of without success. Not long ago I was persuaded by I. F. Belfry, druggist, in Shelburne, to use a bottle of St. Jacob's Oil. I purchased a bottle, and, strange to say, before I had used it all, I was perfectly cured. I must say that it has rendered me a great service, and I can confidently recommend it to anyone afflicted. No one can speak too highly of its merits. Mr. W. E. Weeckley, also of Shelburne, thus mentions a matter of his experience:—"I have been a sufferer with rheumatism for years. I was laid up with a severe attack a short time ago, and I can truly say that St. Jacobs Oil produced the quickest relief that I ever experienced. I cheerfully recommend it to every sufferer." Such the disease—such the antidote.

IT is no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united *nature's forces*, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health; this then we recommend when vitality is on the wane, or when the organism becomes enfeebled.

CHILLS AND FEVER.—Ay person who is conversant with the merits of Dr. I. R. Herrick's Sugar-coated Vegetable Pills, will tell you that no remedy of equal excellence has yet been discovered for this distressing complaint. Test the matter for yourself. They are sold everywhere.

IT WILL DO IT.—Food will lodge in the interstices between the teeth, and it becomes a source of their decay. Sozodont will dislodge such deposits, and prevent the mischief. All parents should provide Sozodont and thus secure the health of their children's teeth.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but simple food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

UNITED States Senators are not only paid a salary, but are allowed $125 for stationery. The other day a young man came abroad one of them, (Judge Davis) counting some money. "Young man," said Davis, "this is the true way to make money; economy and saving. There is my stationery allowance. The Senators are allowed $125 for stationery. Too much, too much! I have used just $4 worth, and am entitled to $121 in cash, and here it is. Be economical and saving, young man."

THE LOST PROPELLERS.

Statement of Captain Johnson, of the "Lake Erie."—Sufferings of the Crew.

The Chicago *Inter-Ocean* publishes an interview with Captain J. M. Johnson, of the Lake Erie. Captian Johnson, with Captain Cameron, of the Northern Queen, and their crews arrived at Chicago on Wednesday morning. Capt. Johnson said:—

"We left Chicago an the evening of Nov. 22. after the utmost precaution had been taken for our safety. The wind was blowing hard from the south-west, and we kept under the lea of the west shore. When off Twin River point, on Wednesday night it began to snow, and a north-west gale prevailed. Along toward Thursday morning we were nearing Point Aux Barques. It was a horrible night. It snowed and rained together, and the air was permeated with mists and smoke so that the ship lights were hardly distinguishable. The Lake Erie was ahead and I on deck. I blew the whistle to indicate a change in our course towards Beaver Islands. No response came—the sound had no chance in that gale. I gave the order to port the wheel. Observing that the Queen did not respond I ordered the mate to starboard the wheel. The second change of course was fatal. The Queen bore down upon us. She gave two warning whistles, and there was a sudden crash, shaking the ship from stem to stern. The Lake Erie was struck twelve feet forward of the aft gangway at 5 a.m. In an instant all hands were on deck. I sounded the water forward and found four inches, but aft it had crept above the fire hold of the floor. Five minutes later the fires were out. An examination showed that the steampipe was broken, the machinery useless, and we were at the mercy of the waves. There was a tremendous sea on, but the Queen came alongside and took us on board, and among others Wm. Forbes of Hamilton, who was severely scalded. There was not even time to get our personal effects, nor anything except our money and the ship's books. We tried to get a line on the Erie and tow her into shallow water, but the sea would not permit. She kept rapidly filling up until of a sudden she rose on her keel, the main mast crashing down, and sunk out of sight, stern first. I shall never forget that instant, nor the pang of horror that thrilled me when I saw her disappear. Had her machinery not been disabled we might have made shallow water twelve miles distant, in the two hours she remained above. We sounded where she went down, but found no bottom. An examination of the Queen showed the stem was broken. The storm and snow continued. They worked landward to a place they did not know two miles south of Manistique. They lay there all Thursday and there the injured man died. We tried to get a pilot to go to the Beaver Islands, but could not, and we had to run in to Manistique. The Queen struck a bar. Between the current setting out, and the gale and sea running in, the Queen whirled twice around, the stern striking the end of the pier. Great swells dashed over her and as she was pounding to pieces, the Captain scuttled her to save at least a remnant. The sea broke in her windows and carried away her cabins. The crew got off with danger. They buried their dead shipmate and set out on their journey to Day River, a distance of 60 miles. Here they struck the railway, and proceeded thence to Chicago.

FROM ALL OVER.

An extra force of police is once more detailed to protect Mr. Gladstone's residence in Downing street.

Customs collections at Toronto for November show an increase of $53,788.75 as compared with November, 1880.

Burnet and Prevost, two reprieved murderers, have arrived at the Kingston Penitentiary, where they will be imprisoned for life.

A Reliable Fact.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

Great evils have their compensations. Miserable sinners in St. Louis are now paying their way to heaven in mutilated coin. The amount put in the contribution boxes is said to be astonishing.

Hagyard's Yellow Oil is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

London is, it seems, redeemed from the reproach of not having a really first-class restaurant. The "Bristol" has been started by a Parisian. It is splendidly appointed, and its $2.50 dinner is excellent.

Interviews had by reporters of the Cincinnati *Commercial* with leading lawyers and physicians of that city show that they consider the production of a section of President Garfield's backbone in court as wholly unnecessary, and many of them pronounce it an outrage.

"My wife's mother was afflicted with rheumatism for twenty years and tried almost every remedy, without any relief until she used St. Jacobs Oil. Three bottles entirely cured her. It is the best remedy I have ever seen," writes Frank P. Dryden, Esq., Pocomoke City, Md.

The advertising device of an actress at Mansfield, Ohio, was to stand on a trestle bridge, scream wildly when a train approached, and then climb down to a lower beam, letting the cars pass harmlessly over her.

There is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

The Cunard steamer Gallia, a new vessel and their quickest boat, arrived in New York on Friday last, Nov. 25, four days overdue. From the time she left Queenston, on the 13th Nov., she met with a succession of violent and tempestuous westerly gales.

A Hint.—Ask your Druggist, Grocer or Shopkeeper, for a bottle of Pain-Killer. If he passes it down without ceremony ask him while extracting the quarter dollar from your wallet, if this is the genuine made by Perry Davis & Son.

We read in a London paper:—"I find, on looking over the tabulated returns, that of all recognized professions the one least liable to insanity is that of literature. According to the returns, there are this year 139,143 men and women engaged as authors, editors, journalists, reporters, translators, or in other literary work. Out of these twelve only are returned as lunatics."

Millions Given Away.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

An Ohio teacher says that the best method of instructing children is in the use of an almanac which contains chronological memoranda, the teacher explaining the meaning of the references and requiring the pupil to bring to recitation all the facts within his reach. For instance:—"November 19, 1794, Jay's Treaty with Great Britain signed." This subject calls for the meaning of November, a biography of Jay, and a history of the treaty.

Hagyard's Yellow Oil will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

Says the St. Thomas *Times*:—It is a sad reflection upon the morality of our country that a seduction case has become an almost inseparable concomitant of each succeeding assizes, and indications are that an unusual number of these actions will come up for hearing at the next sittings. One member of the legal fraternity has already been retained in three seduction and one breach of promise case; another gentleman has two of a similar nature and several others are in prospect.

One Experience from Many.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother. — *Home Journal.*

No Impossibility.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible'" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

A Tonic Without Alcohol.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

PLANTS

Received every week during the Winter, at

LONG BROS., Confectioners.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others. It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

MONDAY, DECEMBER 5, 1881.

LOCAL AND MUNICIPAL.

Railway Notes.

On Friday evening a Grand Trunk train left the track west of Port Hope. Five cars were thrown down an embankment but no person was hurt. The accident was caused by a broken wheel.

We are pleased to notice that Mr. George Chamberlain has been appointed agent here for the Credit Valley railway. He is a good business man and will look after the interests of the road.

It is said that the Victoria railway will be put at a value of $1,000,000 or upwards if it enters the Midland amalgamation scheme. It is principally owned by Messrs. Proctor and McInnes, of Hamilton.

The combined meeting takes place at Port Hope on Monday next. All the roads interested will be fully represented and the meeting will be one of the most important that has taken place for years.

Over one hundred car loads of ballast have been put on the Grand Junction line, between Belleville and Stirling, during the last week.

Some of the worst curves on the Grand Junction line are being straightened, and the roadbed put in better condition.

Work on the two bridges below Stirling is progressing rapidly, and the bridges will soon be open for traffic.

About fifty men are employed grading on the Trent Valley railway to the north of the Grand Trunk track at Trenton.

The Whitby, Port Perry, and Lindsay road receipts for the week ending Nov. 30th, were $2,485. The total receipts to that date were $93,937, an increase of $9,854 over the same period last year.

We understand that a new time table for the Midland railway will be issued on the first of Jaunary next, after which date the through trains to Toronto *via* Woodville will be put on. We also understand that numerous changes are to be made in the running of the regular trains.

The Weather.

The weather continues exceedingly fine, but it is altogether unseasonable. The lumbermen are complaining loudly about the want of snow, and unless it soon comes, they will be greatly hampered in their operations The weather probabilities for this district for the following 24 hours, as reported from Toronto, at 10 a. m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Increasing southerly to westerly winds. Cloudy to fair weather, followed by rain tomorrow. Higher temperature.

Heard From.

The woman Defoe, who was convicted of keeping a disreputable house here some months ago, has turned up in Belleville. She was giving evidence as to the character of a house, when the magistrate asked her if she had ever been committed in Peterborough. She replied yes and as the *Intelligencer* says her evidence was thus rendered rather worse than useless,

Mechanics' Institute Classes.

The members of the drawing class in the Mechanics' Institute, are requested to meet their teacher in the Institute classroom to-morrow (Tuesday) evening at 8 p.m.

Board of Education.

The regular monthly meeting of the Board of Education takes place at the Institute building on Tuesday evening at 7.45 o'clock.

From Lindsay.

Quite a large party of ladies and gentlemen drove down from Lindsay on Sunday and spent the day here.

At the Lock.

Mr. T. M. D. Croly, is at work doing some repairs to the apron of the wing dam at the lock. Mr. T. D. Belcher. is in charge.

Personal.

Colonel Williams, M. P. Port Hope, was in town to-day.

THE VOTERS' LIST.

One case was reserved.

POLICE COURT.

AN ADJOURNED CASE.

MONDAY, Dec. 5.—James Watson was brought from gaol, to which institution he was remanded last week, to answer a charge of assault, preferred by his wife.

As the wife did not appear, he was again remanded untill Wednesday next at 10 a.m.

ASSAULT WITH INTENT.

James Higgins, now notorious, was brought from gaol, where he had been since Saturday night, to answer a charge of assault with intent, prererred by Ellen Higgins.

The case was enlarged until Wednesday next in order that some necessary witnesses might be subpœnaed.

Newspaper Generosity.

An exchange very pertinently says:—Why any one should expect the newspaper publisher to be more generous in squandering his substance than other business men is something that cannot be accounted for, except on the supposition that some people have an idiotic idea that printers set up type for the love of work, and that ink and type and printing presses are gifts from Heaven to sinful men, who publish newspapers merely for the purpose of soothing the pathway of their fellow-men on the rugged road to fortune, and who hope not for reward this side of the grave.

Vital Statistics.

The number of registrations made with the town clerk, Division Registrar for Peterborough during the month of November were as follows:—

Births	17
Marriages	10
Deaths	8

New Grocery and Provision Store.

Mr. M. Quinlan has opened out a complete and fresh stock of Groceries, Provisions, Christmas Goods etc., in the store lately occupied by W. J. Devlin, opposite the Huffman House, Hunter street. Give him a call, he will sell cheap for cash.

New Goods.

Use the Poland Metallic Hair Brush "for headache." British Plate Mirrors for ladies' toilet. Choice lot of those very desirable Gentlemens' Dressing Combs. TAYLOR & MACDONALD, Medical Hall, Corner of George and Hunter Streets.

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. Now to give you satisfactory proof that Green's August Flower will cure you of Dyspepsia and Liver Complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Fullness at the pit of the stomach, Yellow Skin, Coated Tongue, Indigestion. Swimming of the Head, Low Spirits, &c., we ask you to go to your druggist and get a sample bottle of Green's August Flower for 10 cents and try it, or a regular size for.75 cents. Two doses will relieve you. 2d1w-1y

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

AHA!—Dentists who have tried "Teaberry," pronounce it the finest thing on the face of this earth for the teeth and breath. 5 cent samples.

ADVICE!

"Whatsoever You do, do Quickly."

This maxim applies to many things but to none more emphatically than the purchase of a WINTER SUIT.

People may wonder these frosty mornings that they feel the cold so keenly, and they may continue wondering until they have come, and ordered from us a WARM SUIT and an OVERCOAT, and discarded the linen duster they have been wearing since summer.

Every man can afford to buy a SUIT from us, because we have them at prices to suit the pockets of everyone.

No establishment gives better satisfaction, with this understanding customers select from our goods and order with the knowledge that if they change their minds afterwards—which they never do—they can bring back the clothes and have their money returned.

The belief is current, and is warranted by the facts, that if we have not what you want, and at right prices, you cannot secure it elsewhere.

Our sale of OVERCOATS still continues, those in need of one would do well to secure it at once.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. In a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of otue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Special to the Review Dec. 6.

ANOTHER INFERNAL MACHINE of a similar character to the first was found on the same spot at the Court House this morning, by the two boys who made the original discovery. It had gone off, but apparently without doing any injury. The lads who brought it to the police station say it was lying beside the first machine found when they removed the latter, but a man who was present told them not to touch it.

A NUMBER of immigrants, some of whom were Russians, bound for the Northwest, arrived here to-day.

THE STOCK MARKET was unchanged this morning, prices ruled the same as yesterday.

AN ATTEMPT WAS MADE last night to burglarize the dry goods warehouse of John Murphy & Co., Notre Dame Street, but was fortunately frustrated by the timely arrival of a policeman. There were three men engaged in the work and they had broke a $50 plate glass window. They effected their escape.

ENNISMORE.

From Our Own Correspondent.

WEATHER NOTES.—November now come to a close has reminded as somewhat of winter, snow having fallen on eight days to the depth of 4⅝ inches, rain fell on ten days aggregating to the depth of 3½ inches, making a total depth of water of 3⅞ inches. The average temperature of the month at sunrise and sunset being 34°9. The highest the theremeter reached was on the evening of the 1st., namely 55°, and the lowest on the morning of the 28th, reaching to 3° below zero.—The weather keeping so mild no doubt is a great boon to the farmers who are still behind in their fixing up for winter.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

THE SLAVER.

LONDON, Dec. 5.—A Zanzibar despatch says: On the 3rd inst. Capt, Brownrigg, of the British man-of-war London, with ten men in a steam pinnace, attempted to capture a dhow flying French colours and loaded with slaves. The Arab crew resisted fiercely. Capt. Browning, a seaman, the stroker, and a supernumerary were killed, one man severely and two slightly wounded. The dhow escaped.

WITH IRELAND.

LONDON, Dec. 5.—The Lord Mayor of London writes to the *Times* stating that the Property Defence Association of Ireland has not failed to come under his notice as Lord Mayor, and that the Irish nation may rely on the traditionary sympathies of the city of London to aid the Association.

THE LEAGUE.

DUBLIN, Dec. 5.—The Land League system is being openly reorganized under the name of "The Political Prisoner's Aid Society." Several meetings of this new organization were held on Sunday in the neighbourhood of Dublin.

DELAY IN THE COURT.

DUBLIN, Dec. 5.—It is believed that the present crisis is the most important of the whole land movement, for the people thus far have successfully resisted all the strength of coercion. It is a startling fact that two-thirds of the rents are not being paid, and tenants have no intention of paying them without heavy reductions, which the landlor is refuse. The Land Courts are so slow that the Act is as yet no remedy whatever for the troubles. The Government did not expect this delay, believing that after a few decisions the londlords and tenants would settle matters between themselves. The country is experiencing a reign of terror. In the eastern counties the Assizes have begun, and the judge spoke of the great increase of crime. He said that threatening letters of intimidation were everywhere on the increase, and the crime of arson much more freqnent. The opinion that Parnell's arrest was a mistake is being every day vindicated.

THE CAMPBELLS ARE COMING.

LONDON, Dec. 5.—The *Standard* says it has authority for stating that the Marquis of Lorne has every intention of returning to Canada, and that the Princess Louise will also return before the spring. The Marquis of Lorne authorizes a contradiction of the reports that he does not intend to return and resume his duties early in the spring. He will positively return, and will be accompanied by H. R. H. the Princess Louise.

THE ANTI-JEWISH RIOTS.

ST. PETERSBURG, Dec. 5.—Authentic news of the anti-Jewish riots at Odessa has only just reached here. The reported attack on Sara Bernhardt went without comment until Sunday's issue of one of the leading journals, which makes remarks on the affair that are a disgrace to journalism. A correspondent says he can state on good authority that a fresh outbreak of the anti-Jewish agitation in Russia is considered imminent.

TROUBLE FOR THE AMEER.

LONDON, Dec. 5,—A correspondent at Quettah telegraphs:—It is said the Ameer's General, Abdul Kaddas Khan, who captured Herat, has warned the Ameer that the Heritis are not prepared to accept any further change or interference. Yusuf whom the Ameer appointed Governor of Herat, has not been able to proceed beyond Farrot, although re-enforced. It is reported that Abdul Kaddas Khan is intriguing with the Governor of Afghan-Turkestan. It is probable the Ameer will appear before Herat in the spring

UNBOSOMS HIMSELF.

BERLIN, Dec, 5.—The Emperor William, when receiving the President and Vice-President of the Reichstag yesterday, emphatically declared that his message, read at the opening of the Reichstag, was the fullest expression of his innermost convictions as to the welfare of the nation. The *Kreuz-Zeitung* says at the reception the Emperor remarked that it was the duty of all desirous of supporting the monarchial principle to pursue the end indicated in the Imperial message.

THE SUSPECTS.

DUBLIN, Dec. 5.—The *Gazette* publishes a list showing that the number of imprisoned suspecets on December 1st was 334. About twenty have been imprisoned since that date.

THE OUTRAGE RECORD.

The value of property stolen at Lord Arthur Hill Trevor's seat is now estimated as low as £18,000. A man servant has been arrested as an accomplice. The authorities are cognizant that midnight drillings are occurring. Farmer Milligan, who paid his rent, was way-laid and beaten to death on Saturday. A large crowd to-day stoned the carriage of Considine, on whose property there were evictions lately. Mrs. Considine was struck by a stone.

Drowning Accident.

NAPANEE, Dec. 3.—Mr. Dan. Davey of this place, proprietor of Davey's summer resort, opposite the Stone Mills, started on Thursday afternoon in a small fishing boat for Picton, to purchase provisions. He was accompanied by Noble Johnston, a fisherman from Bath. Nothing has since been seen of them. The boat was found in Hay Bay, upside down, and it is the general impression that they are both drowned. Parties from here and Stone Mills are grappling for the bodies, but it is very doubtful if they will be found, as no one seems to have seen the boat capsize,

NAPANEE, Dec. 4.—Rathbun & Son, of Deseronto, kindly allowed their tug Sherwood to take a load from here to-day to grapple for the bodies of Davey and Johnston, who were drowned on Thursday. Everything possible was done, but as no one saw the accident no idea can be formed as to where the bodies would likely be found. The tug returned this evening with a load of Davey's household goods. Davey's hat, coal oil can, and several articles drifted ashore along with the boat, which fully satisfies every person that both were drowned. The boat was a good substantial fishing boat, but had no ballast in, and the wind was very high and the sea rough. Davey leaves a wife and two children. Johnston lived in Bath, and was unmarried.

NO TONNAGE FEES.

NEW YORK, Dec. 6.—Judge Van Holsen yesterday decided that the tonnage fees collected from vessels at this port under the statutes of the State are unconstitutional.

THE ANNUAL MESSAGE.

WASHINGTON, Dec. 6.—The President's message has been sent to the Senate and house. It is an exhaustive and very interesting document.

THE U. S. NAVY.

WASHINGTON, Dec. 6.—Rear-Admiral Rodgers, president of the Naval Advisory Board, is reported as saying that our navy is capable neither of inflicting material harm, nor affording adequate protection from assaults of either Chili, Bazil or Buenos Ayres, to say nothing of England, France, Germany, Italy or Spain. There are complications in Chili which possibly might lead to war. In that event San Francisco and New York are practically at the mercy of the Chilian ironclads. At the best it would be years before we could construct a vessel capable of opposing the Invincible, Inflexible or any one of dozens of English iron clads. What we want are fast cruisers that would threaten the merchant marine of any country with which we are likely to come in collission. Rodgers is doubtful as to the expediency of building iron clads and is not sure whether we are not approaching the time when ships of war will throw off armour and fight in the lightest rig. Rear-Admiral C. P. Rodgers thinks even if we have no war the ships proposed by the advisory board are needed for present uses of the navy.

PERILS OF THE SEA.

QUEENSTOWN, Dec. 6.—The steamer Germanic brought twenty-five of the crew of the British steamer Harworth from Montreal, abandoned at sea. The Harworth drifted about unmanagable for eleven days. The crew sighted five vessels, one within three miles, but neither took any notice of their signals. The crew were nearly exhausted, and were rescued with difficulty.

SQUANDERED THEIR WEALTH.

PHILADEIPHIA, Dec. 6.—Stephen S. Price is under $90,000, bonds to answer in a civil suit for property amounting to $700,000 belonging to relatives and entrusted to him for management, which they charge him with having embezzled and dissipated.

PROFESSOR STIVELY.

SARATOGA, Dec. 6.—Professor Stively claiming to be the True Messiah, arrested at Washington yesterday, is a resident of Saratoga. He came originally from Virginia. His wife says that he has suffered from neuralgia in his head and at times conducted himself in a peculiar manner, but is perfectly harmless. Mrs. Stively communicated with friends in Alexandria Va., to look after her husband.

A FAMILY BROKEN UP.

EDMARTON, Mo., Dec. 6.—Clara Snell died yesterday, making five deaths in the family, which are alleged to be due to shame and grief on account of the murder of Andrews by Clay Snell in September. This leaves of the family only Clay, who is in jail.

GUARDING THE MESSAGE.

WASHINGTON, Dec. 6.—The President has taken very great care to guard his message. It is in type but the only copy struck off is the one he has. The type is locked in a safe and a man stands on guard. Every person who handled the copy is held personally responsible for its safety. It is understood that a large sum has been offered for one copy.

AN EMPTY SEAT.

NEW YORK, Dec. 6.—The *Tribune* says that Garfield's seat in the house yesterday was vacant. Superstitious Congressmen declare that under no consideration would they occupy it.

THE FRAUD AGAIN.

PHILADELPHIA Dec. 6—There is considerable gossip concerning the suit of the Keely Motor Stockholders agatnst Keely to compell him to give them information regarding his apparatus. Keely's nephew who is his companion in the workshop is skeptical as to his uncle's invention, and says there was more money put into the thing than can ever be got out. The nephew says it has never yet been run by vibratory power, and during a recent exhibition a sort of quicksilver was used.

EXPERTS' TESTIMONY.

WASHINGTON, Dec. 6.—A distinguished expert says that the experts in the Guiteau trial yesterday were simply asked whether if the man was insane they would pronounce him insane. Those who chose to answer the question said, "Yes, of course." He calls attention that they did not try to elicit conclusions derived from personal examinations of Guiteau. It is seen therefore that nothing in the testimony of the experts touched upon his responsibility.

ARTHUR WON'T SWEAR.

WASHINGTON, Dec. 6.—Yesterday Scoville and Reed called on the President and urged the desirability of his appearing as their witness. The President told them kindly but firmly that he did not agree with them. They told him finally they would make no further effort to secure his attendance.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

UNITED States Senators are not only paid a salary, but are allowed $125 for stationery. The other day a young man came across one of them, (Judge Davis) counting some money. "Young man," said Davis, "this is the true way to make money; economy and saving. There is my stationery allowance. The Senators are allowed $125 for stationery. Too much, too much! I have used just $4 worth, and am entitled to $121 in cash, and here it is. Be economical and saving, young man."

NEVER GIVE UP.—If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a billious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. LAKEFIELD AND THE MAILS.

OUR Lakefield correspondent last week had some strictures on the Post Office Department with reference to the Lakefield and back country mails which are scarcely deserved. It is no doubt very desirable that those getting their mail matter at Lakefield should have the fullest possible accommodation, as also those residing north of that place, but we fancy that if the Burleigh Road mails were started from Lakefield instead of Peterborough they would very soon find they had got themselves out of the frying pan into the fire. Suppose the change asked for were made, and the Burleigh Road mails started from Lakefield, what would be the result. In the first place Lakefield would be deprived of the early mail bag from Peterborough three times a week which she now receives, she would also be deprived of the four o'clock p.m., mail which she now enjoys three times a week from there to all points, thus giving her business men two hours hours longer to answer their letters on those days than they otherwise could have, unless the Midland can be induced to push on a second train, which is unlikely unless the Government can be induced to engage a special train for the purpose which they never do. So much for Lakefield. Then with regard to the Post Offices north of that point: If their mails were started from Lakefield their mail matter would as a rule be twenty-four hours older than it is at present—a result which they would scarcely desire. With regard to the enhanced cost of carrying the mails in question from Peterborough instead of Lakefield, we understand that when the last contract was let the Post Office officials were informed that the contract would be taken for less money from Peterborough than it would be from Lakefield. So long therefore as the present railway arrangements exist, it is obvious that both Lakefield and the Burleigh Road Post Offices are better supplied with postal facilities than they could be with a mail starting from Lakefield.

HOW IT WORKS.

Last week we received an offer for the insertion of a large advertisement of an article called Ozone, manufactured in Cincinnati O., at a price which we did not care to accept, and on Monday we received from the same firm a circular cancelling the order because the manufacturers "find" that to conduct their business "successfully they must have a branch in Canada." In other words they find, that if they want to sell their Ozone to Canadians, they must manufacture it in Canada, and in this way as well as by its sale contribute to Canadian prosperity. This is only another out of the many ways in which the N.P. is contributing to the present prosperous state of the country.

MERE LOCAL SHEETS.

The Guelph *Herald* says:—"The *Mail* and *Globe* have systematically belittled the Provincial, and exaggerated the importance of the Toronto show. Let any one turn to a file of these papers of last September and to the gorgeous headings day after day, giving an account of the Toronto show, and see if they can find the account of the Provincial occupying any prominent part of the papers. Toronto has in this *as well as in every other public matter, shown herself to be utterly selfish*, and the two papers mentioned have lowered themselves from a position as Canadian journals to mere *local* sheets."

NORWOOD.

ACCIDENT.—The *Register* says that Mr. Kenneth Kempt, while planing lumber in the Hub Factory, one day last week, narrowly escaped having his hand taken off. It appears that while shoving a board through the planer, he allowed his hand to go further than he should have, and the consequence was that he had a slice taken off his thumb and three of his fingers before he had time to withdraw it. He immediately bandaged the injured members and pluckily resumed work.

ANOTHER ACCIDENT.—Mr. R. Phillips, while engaged in "roughing" hubs in Finlay & Co's. Hub Factory, the other day, was struck on the head with a portion of the hub, which cut his face badly and knocked him several feet from the lathe. He was immediately conveyed home and is, we are happy to be able to state, rapidly recovering.

Moved by DR. HOURIGAN, seconded by MR. MCGRATH,—That the nominations of trustees to take the place of those whose term expires with the close of the year, be held in the Central School, Murray street, on Wednesday, the 28th instant, and that John Corkery, be returning officer. Should more than the required number be nominated for any or all of the wards, then the election shall be held on the 4th of January next, at the following places, and the persons named to act as Deputy Returning Officers:—

FIRST WARD,—Lake Street School, A. Williams, Deputy Returning Officer.

SECOND WARD,—C. McGrath's shop, C. McGrath, Deputy Returning Officer.

THIRD WARD,—Murray Street School, John Corkery, Deputy Returning Officer.

FOURTH WARD,—Wm. Lee's shop, Wm. Lee, Deputy Returning Officer.

THE TEACHER QUESTION.

On motion the communications for teachers were referred to a committee, consisting of Messrs. Cahill, Hourigan, and Lemay, the result to be reported to a meeting to be called for next Monday evening.

The meeting then adjourned.

AN ADJOURNED MEETING

The Board met pursuant to adjournment, on Monday evening the 5th inst.—Thos Kelly, Esq. in the chair.

Present: Messrs. McGrath, Grant, Hourigan, McNamara, Sullivan and Cahill.

The minutes of the last meeting were read and confirmed.

UNABLE TO AGREE.

Mr. McGrath, Chairman of Committee to whom was referred communications from teacher, reported verbally that the committee did not arrive at any satisfactory conclusion, hence the matter remained as heretofore—Received.

FOR HEAD MASTER.

Moved by Dr. HOURIGAN, seconded by Mr. MCGRATH,—That Mr. M. O'Brien be engaged as head master for the ensuing year at a salary of $500.

Moved in amendment by Mr. GRANT, seconded by Mr. SULLIVAN,—That Mr. Lynch be re-engaged as head master at the salary of $500.

The amendment was put and lost on the following vote:—

YEAS.—Messrs. Grant and Sullivan.

NAYS.—Messrs. Hourigan, McGrath, McNamara and Cahill.

The motion was also lost on the following vote:—

YEAS.—Messrs. Hourigan, McGrath and McNamara.

NAYS.—Messrs. Sullivan, Grant, Cahill and the Chairman.

Moved by Dr. HOURIGAN, seconded by Mr. MCGRATH,—That Mr. Kimmett be engaged as head master for next year.

Moved in amendment by Mr. GRANT, seconded by Mr. SULLIVAN,—That Mr. Lynch be re-engaged for next year at the salary of $500.

The amendment upon being put was declared carried on the following vote:—

YEAS,—Messrs. Cahill, Grant, Sullivan and the Chairman.

NAYS.—Messrs. Hourigan, McGrath and McNamara.

ASSISTANT TEACHERS.

Moved by Mr. CAHILL, seconded by Mr. MCGRATH,—That Misses Sheehy and Hurley be engaged as assistants at the salary of $200 each.—Carried.

MALE ASSISTANT.

Moved by Mr. MCGRATH, seconded by Mr. GRANT,—That Mr. Holden be re-engaged for the ensuing year as first assistant at the salary of $250.—Carried.

THREE MONTHS' NOTICE.

On motion of Mr. CAHILL, seconded by Dr. HOURIGAN,—The Secretary was instructed to have a written agreement with teachers, providing for their dismissal at any time by getting three months notice, and giving the same privilege to teachers, whereby they can retire upon notifying the board three months in advance.—Carried.

APPOINTING HEADS.

Moved by Mr. GRANT, seconded by Mr. CAHILL,—That Miss Sheehy have charge of the Lake Street School, and Miss Hurley be junior assistant in the Central School.—Carried.

The meeting then adjourned.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

IT IS no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united *nature's forces*, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health; this then we recommend when vitality is on the wane, or when the organism becomes enfeebled.

Horrible Affliction.

NEW YORK, Nov. 30,—There expired at the Charity Hospital to-day an old man who for years had been a victim of the dreadful malady, leprosy. The case had a peculiar interest for the physicians, and, desirous of ascertaining how he came to be afflicted, they closely questioned Henkle about his whereabouts for years past. Before 1865 he had been in Texas and Mexico. Four years before he came to the hospital, he noticed eruptions on his hands, head and feet, which, under treatment, were effaced. Two and a half years later they showed again, but disappeared. This time his eyebrows fell out, and after the disappearance of the spots tubercular eruptions took their place on his forehead, his legs swelled, and the skin whitened and became much swollen about his eyes. In 1877 partial anæthesia of the skin took place, and all feeling ceased. In 1879 the tubercles of the face increased over the eyebrows and also on the chin and neck, giving the patient a thoroughly canine aspect. In 1880 the tubercles of the face became softer, many disappeared from the arms and back, and the patches on the leg began to break up into smaller distinct tubercles.

HALF A MILLION BURNED.

Four Large Flouring Mills in Minneapolis Destroyed—Several Persons Killed.

MINNEAPOLIS, Minn., Dec. 4.—At 4 oclock this morning a fire broke out in the milling district, destroying four large flouring mills, one cotton mill and causing the death of at least four men. The fire originated in the flour mills of C. A. Pillsburg & Co., and communicated to the Excelsior mill owned by Dorillus Morrison and operated by Pillsburg & Co., and to the Minneapolis mill owned by Crocker, Fisk & Co., which exploded, killing Neill Fredericks, the first assistant engineer of the fire department. The fire then communicated to the Empire Mill, owned by L. F. Watson, of Massachusetts, and operated by Pillsbury & Co. The street having been reached at this point the fire was got under control, but the brands from the conflagration falling upon the roof of a cotton mill near by, owned by Dorillus Morrison, it was also consumed. The railroad on the trestle work in the rear of the mill and several freight cars filled with wheat were consumed. The explosion at the mill of Crocker & Fisk levelled the walls, crushing the elevated railroad in front and killed three persons, injuring others fatally and several others in a less degree. The capacity of the mill destroyed was 2,400 barrels per day.

LATER.—Alex. Burk, a sweeper in the Pillsburg mill, who was standing on the office steps was struck on the head with a stone and died from his injuries. An unknown citizen was found killed outright. The wounded are Daniel Hobach, fireman, badly cut; F. T. Coulter, fireman, left arm broken, right ear severed and otherwise severely injured; Alfred Kelkey, fireman, struck by a rock, badly injured; H. Snyder, mill fireman, received a bad scalp wound and was hurled into the canal but escaped, Thos. Mullen, a miller, was thrown into the canal and cut. Loss $416,000, insurance $207,000.

FOOLING WITH FIREARMS.

Fatal Shooting Case in a London Wholesale House—"Didn't Know it was Loaded."

LONDON, Dec. 3.—James Black, a plumber in the employ of D. McPhie & Co, with a boy named Fred. Rankin, an assistant of Mr. Black's had been engaged during the forenoon at the Dominion Bank. About noon they completed their work there, and after dinner went down to Burns & Lewis' wholesale house, and were about beginning work in the cellar, when Black asked the boy where his tools were. The boy went to get them, and on getting over to the corner where they lay, drew out a pistol, and pointing it at Black, said, in a mock heroic way, "You had not better say anything to me. Remember I am armed." At this time the elevator come down from the storey above, on which were two boys, James Halpin, also an assistant of Black's, and Albert E. Griffith, a clerk in Burns & Lewis'. Rankin pointed the pistol at Halpin, and then at Griffith, and drew the trigger. Griffith clapped his hand on his left hip, and sank to the floor exclaiming "Heavens, is that thing loaded!" Great confusion prevaled. Griffith was conveyed to his home at 34 Waterloo street, where three doctors were immediately in attendance. They decided not to probe for the bullet, as the consequences were almost certain to be fatal. The bullet entered the left buttock, and is supposed to have passed almost through the body. The doctors regard Griffith's chances of recovery as extremely doubtful. Rankin says he did not know the pistol was loaded. He will probably be arrested.

A DOUBLE INJUSTICE.

One Montreal Man Robs Another of his Wife and then of his Trousers.

OTTAWA, Dec. 3.—Not long since the wife a man named Paul Laron eloped from Montreal with one Jerome Plouffe. Two or three days since the police in this city discovered that the missing couple had come to the Capital and were residing in Lower town. The woman's husband was sent for, came here, and at once took possession of the partner of his bosom, who became very penitent. As he was of a forgiving nature, it was agreed that her little escapade should be forgotten. The reunited couple went to a Murray-street hotel yesterday, where they intended to remain until to-day and then return to Montreal. Yesterday Laron brought a new pair of trousers, which he left in his bedroom, and went out. During his absence it seems that Plouffe entered the room and carried off the trousers, having apparently made up his mind that if he could not retain possession of Laron's wife he would have something belonging to him. Loron had reason to suspect Plouffe of being the thief, and gave information of the theft to the police, who this afternoon found Plouffe on Sussex-street wearing the trousers. He was at once arrested and will appear before the Police Court on Monday.

SCOTLAND.

A GENTLEMAN, a former citizen of Haddington, has given a cheque for £100 for a public fountain in the centre of town.

HADDOCKS are so plentiful in Stornoway that at a fraction over a farthing a pound curers refuse to buy any more of them!

THE iron ship "Banffshire" left Glasgow on the 7th of November, carrying a large and valuable cargo of sugar machinery for the Fiji Islands.

BARLEY, Curle & Co., launched on the 17th of November, at Whiteinch a magnificent four-masted sailing ship, 2000 tons, for the General Shipping Company.

THE takes of herring in Loch Feochan have been unprecedented, and reached a climax one Thursday lately when the boats came to the railway pier loaded to the gunwale.

MR. BARKLEY, M. P. for Forfarshire, in addressing his constituents recently, said there must soon be large and permanent reductions in rents in every county in Scotland.

PROFESSOR NICHOL, of Glasgow, on the 11th of November, delivered the opening lecture of a course of English Literature in connection with the Glasgow Association for the Higher Education of Women.

THE benefits of the Fine Arts Chair at Edinburgh, founded by the late Sir John Watson Gordon, are about to be extended to ladies in connection with the Association for the University Education of Women.

THE Duke of Richmond and Gordon has made an agreement with his Aberdeen tenants whereby he is to grant them compensation for improvements made on their forms. Two years' notice on either side is to be given in case of removal.

SIR THOMAS GLADSTONE entertained the tenantry on his estates in the Ramsay Arms Hotel Montrose, on the 9th of November, and intimated he would allow them a reduction of 20 per cent. on this year's rent and 10 per cent. next year, whatever the nature of the season might prove to be.

THE new large dredger, valued at £90,000, had a narrow escape form being wrecked on its way to Dublin in tow of a steam tug, through the parting of the tow rope, and the tug being lost sight of in the storm. One of the crew of the Newry life-boat was drowned while returning from the rescue.

FROM ALL OVER.

THREE thousand gallons of beer were spilled at the Toronto brewing and malting establishment by the bursting of a vat. Oh what a flood was there, my thirsty friends.

REV. FATHER COONEY, of the Ottawa college staff, was found dead in his bed on Sunday afternoon. About half an hour previous to his death he retired to his room apparently in good health. He was 75 years of age.

CAPTAIN HENRY WEEKS, Brooklyn, N.Y., the well known boat builder and sailing master, has used St. Jacob's Oil for sprains with marvellous effect. It also cured his wife of rheumatism at once.

CANNON KING KRUPP a few weeks ago had in his employ 23,000 men, but new orders obliged him to hire an additional force of 8,000, which places him at the head of the population of a small city—more than 30,000 men.

A HINT.—Ask your Druggist, Grocer or Shopkeeper, for a bottle of Pain-Killer. If he passes it down without ceremony ask him while extracting the quarter dollar from your wallet, if this is the genuine made by Perry Davis & Son.

MESSRS. MOORE, James Ross, Latouche Tupper, and a few others have bought forty-six acres of the Pritchard property in Winnipeg for a sum exceeding $80,000. The estate adjoins the railway reserve, and is one of the most valuable in the city.

A BULLDOG walked into a coloured church in Memphis during service, marched quietly up the main aisle, ascended the pulpit, caught hold of the minister and dragged him down stairs. There was nothing to account for the dog's behavior, unless it was that the minister was a visitor.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

IT is the fashion now to ring a door bell and tell the lady of the house that her married daughter a few blocks away is very ill. When the mother hastens to the bedside of her daughter, the kind gentleman who has notified her slips in, steals all the valuables, and gets away just before the return of indignant mamma.

CHILLS AND FEVER.—Ay person who is conversant with the merits of Dr. I. R. Herrick's Sugar-coated Vegetable Pills, will tell you that no remedy of equal excellence has yet been discovered for this distressing complaint. Test the matter for yourself. They are sold everywhere.

A SARCASTIC Canadian paper having spoken of our Government as having "audaciously risked at sea one of its war ships," the patriotic San Francisco *Alta* demands that our people get even for this insult "by catching a lot more Canadian fish and compelling the thrifty Kanucks to give back the last one of our mail bags."

MILLIONS GIVEN AWAY.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

IN the court of common pleas on Saturday, Dalton McCarthy, Q.C., moved for a writ of habeas corpus to bring McCormick, convicted of manslaughter, before the court, to receive sentence. There is a question of venue raised on account of the trial being held in the new county of Dufferin, which is not, strictly speaking, the county in which the offence was committed. Judgment was reserved.

A LARGE number of people went down to the Custom House wharf, Quebec, to see the s.s. Polino, which arrived up at noon from Sydney, The whole of the vessel's decks and hull were covered almost to the extent of a foot with ice, The crew had a bad time of it coming up the river, on account of the severity of the weather, and several of them were frost bitten.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

UP to the 30th ult. less than $600 had been received by the Central Relief Committee for the benefit of the Muskoka bush fire sufferers. The *Herald* says there is immediate necessity for a much larger contribution. The amount received will relieve only a very small portion of the distress. Some of the unfortunate sufferers have no stoves, no winter clothing, and no means of procuring the necessaries of life, while numbers are not in much better circumstances. Here is a field for the charitably disposed.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

POLICE COURT.

A PROJECTING SIGN.

TUESDAY, Dec. 6.—Alex. Graham was charged with an infraction of the town by-law, by the erection of projecting sign.

By consent the case was enlarged for one week.

JOHNSTON VS. MCGHEE.

Thomas McGhee was charged by Margaret A. Johnston, with committing an assault on her on Saturday last, with intent to do her some grievious bodily harm.

The prisoner said he knew nothing whatever about the matter as he was drunk at the time.

The Magistrate explained to the prisoner that the charge was a very serious one and if found guilty he might be sent to the penetentiary.

The prisoner said he knew nothing about it and elected to be tried by the Magistrate. The case was enlarged until Wednesday morning at 10 o'clock.

More Horses.

Messrs. Quintal, of Montreal, and Cavanagh, of this town, on Monday, shipped to Montreal, eighteen horses, purchased in the vicinity of Lindsay. Mr. Cavanagh informs us that he contemplates going into the business on his own account, and intends to ship direct to New York, where there is always a good market for first class horses. If Mr. Cavanagh carries out his idea, he can control the greater portion of the trade in this part of the country, and will doubtless be as successful in that business as he has been in any other that he has embarked in.

No. 1 Company.

The new large, armoury, of this company has been fitted up and the clothing and arms moved into it. It is much more roomy and comfortable than the old one, and a stove has been set up in it to make it more habitable during the winter. The recruits who recently joined, to the number of about fifteen, are now well up in their drill. A large turnout of old and new members is requested for to-night, for company and manual drill. The clothing will be issued to-night.

The Weather.

Although still fine the weather is not as fine as it has been for the last few day. A mixture of rain and snow fell this morning, but did not remain long. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great North western Telegraph Company, are as follows:—Lakes—Strong winds and moderate gales from the south west and west. Cloudy weather with occasional rain.

For Manitoba.

Eighteen persons male and female, from this vicinity left on the express on Monday evening bound for Manitoba and the North West. Mr. Charles Fairbairn, from whom they purchased their tickets, accompanies them through to their destinations, and will look after them during the trip.

At Work.

One of the Great Northwestern Telegraph Company's Inspectors and his assistants are at work to-day moving the instruments in the office to the other side of the building, as necessitated by the extensive improvements now being made in the premises.

Piano Tuning.

The celebrated tuner Mr. Glock, late tuner for Brodwood & Son., London, England, and Reichstein in Germany, will remain in town Tuesday and Wednesday (to-day and to-morrow). Orders left at E. J. Hartley's piano room, Hunter street east, from 9 a.m. to 9 p.m.

Board of Education.

The regular monthly meeting of the Board of Education will take place at the Institute building at 7.45 o'clock this evening.

Peterborough Club.

The adjourned annual meeting and the sale of periodicals will take place this evening.

OUR LOCAL RAILWAYS.

Some of the Things Transpiring on or About Them—The Very Latest.

Application will be made at the next meeting of the Ontario Legislature for power to enable the Grand Trunk to assume control of the Toronto, Grey and Bruce. Advertisements to that effect will be issued at once.

Regarding the rumored railway sales, the *Globe* says that scarcely a day passes but some new railway scheme crops up. The directors of the roads concerned, on being interviewed, profess ignorance, and it is therefore extremely difficult to arrive at anything definite regarding the rumours. The only channel left open is to hear both sides of the question, and draw inferences. The latest sensation is the rumoured consummation of the scheme foreshadowed in the *Globe* some time ago, regarding the purchase by the Canadian Pacific Syndicate of the following roads:—Great Western, Toronto, Grey and Bruce, Northern and North-Western, Credit Valley, Ontario and Quebec, and the Montreal, Ottawa and Occidental. These acquisitions, coupled with the Canada Central, which is already controlled by the Syndicate, will give the company a through line to Quebec. Messrs. E. B. Osler and Hector Cameron, who have been in England during the last month, are said to have been the medium through which the fusion was accomplished. It is well known that the Syndicate has held a controlling influence over the Credit Valley since last spring. It is probable that the Northern railway will be extended to Callendar, on the Sault Ste. Marie, where it will connect with the main line of the Canada Pacific. Its Hamilton correspondent, however, on Monday night telegraphed upon what appears to be excellent authority that the Credit Valley has really passed into the hands of the Great Western Railway Company, and the latter Company will assume its management at an early date.

There appears to have been some misconception regarding the meeting to be held at Port Hope on Monday next. Instead of representatives of all the interested roads being present, only the proprietors of the Midland will meet to ratify an agreement already entered into by the other roads. The English proprietors will be represented by Mr. Cox as proxy. He represents a large majority of the stock and bondholders. The agreement is a very long one and is already in the hands of interested persons, so that they will be fully conversant with it before the date of the meeting.

It is very seldom that we are called upon to chronicle an accident of any kind on the Midland railway, and even when we are, it is always of a light nature. On Monday evening an accident occurred near Millbrook whereby the 6.15 train was delayed for over an hour. It appears that three cars intended for Peterboro' were cut off the train from Port Hope and ran down the line to make the "running switch." The brakeman was at his proper place on the front car, but when he went to tighten his brake (on a Grand Trunk car) it would not work, so he ran to the second. This one was out of order too, so he ran to the third and last car and essayed to slacken speed. Just as he had about accomplished this work, the coupling connecting the second and third cars gave away, and the two front cars rushed down on the cars which were standing on the siding, striking them with considerable force, breaking in the end of a G. T. R. box car and breaking the "draw heads" of the coach but happily doing no further damage.

The regular night express made some "tall" running between Peterborough and Port Hope on Monday night. On account of the accident at Millbrook the train was unable to leave here until 7.30 o'clock, and as there were a large number of passengers on who desired to go west, it was determined to try and make a connection at Port Hope with the Grand Trunk express. Superintendent Ferguson was on board, and calmed the fears of those who were afraid of being left in Port Hope. At 7.35 Conductor Riley called "all aboard," and soon after the train steamed out, Engineer Young holding the "throttle." Three stops were made, at Fraserville, Millbrook and Garden Hill, and the Grand Trunk station Port Hope was reached at 8.23, the run of 32 miles being made in 48 minutes, including stoppages. The Grand Trunk was waiting and all on board were loud in their praises of the Midland officials, who had done all that they possibly could to oblige the passengers, and succeeding in doing what many considered was almost an impossibility.

On the Belleville and North Hastings branch of the Grand Junction Railway, between the Junction and Madoc, the regular train on Monday killed no less than six cattle at one sweep, and injured two others, out of a herd of twelve that were standing on the track and refused to heed the warning signals of the engineer.

The engineers and assistants are busily at work running preliminary lines, for the "missing link." They expect to secure a far straighter line than that surveyed by Mr. Ellis.

The Toronto *World* says that the directors and officials of the Credit Valley laugh at the report of their line being acquired by the Great Western. No negotiations for such a purpose have commenced. The Credit Valley has been bonussed by the municipalities as an independent line, and it is altogether likely it will remain such. It may be possible that a working arrangement or terminal agreement has been arrived at, the works on the Esplanade having been stopped. But in any case, the municipalities are protected by a pro rata traffic clause in the charter.

A Useful Cement.

When rubber rings are used for steam, gas, and other pipes, the following cement can be employed to prevent any escape:—Resin is pulverized and mixed with ten times its weight of strong ammonia. A viscous mass is obtained, which liquifies by itself after three or four weeks. This mass adheres very well to rubber, as also to iron or wood, and when the ammonia volatizes the cement hardens and becomes impermeable to gases and liquids.

A STONE was fired through a train at Wingham Friday night, seriously injuring an invalid lady being conveyed to Kincardine.

MEMORANDUM!

Cold or hot a certain amount of clothing is necessary. A perfect fitting garment is in either case most comfortable.

Good Cloths and Trimmings not only make better clothes than cheap goods, but they keep their shape better and give the wearer more satisfaction.

To have your clothes cut IN STYLE, and made up faultlessly might be the chief aim in life. Now the question comes, where can you combine all these points of excellence?

The answer comes promptly, at Dolan & Co's. George Street, where the best lines of goods are always in stock, and the best help procurable employed.

Turn in and see us, and if we can't convince you of the fact that we can dress you up in the *very latest*, we shall miss our guess.

ZOPESA.

(FROM BRAZIL.)

—The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Election of Officers.

At the regular monthly meeting of Loyal Orange Lodge No. 80, held at the Orange Hall on Tuesday evening, the following officers were elected for the ensuing year, after the transaction of routine business:—

Thomas Brown	W.M.
Adam Dawson	D.M.
John Sharp	Chap.
James Duncan	Treasurer
John Smith	Secretary
T. M. D. Croly	D. of C.

Free Fight.

A free fight took place to-day about noon, near Morgan's Hotel. The contestants were Dunlops, of North Monaghan, T. Lytle, the Hustons and some others. The men were promptly arrested and brought before the Magistrate, the cases being enlarged until Monday next.

Personal.

Mr. E. H. Harrington, is in town canvassing for Mr. Charles Dent's new work, "The Last Forty Years, or Canada since the union of 1841." published by George Virtue & Co. of Toronto.

Mr. A. Hugel, of Port Hope, is at the "Oriental."

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

MIDNIGHT TELEGRAMS

CABLE.

THE TURKISH MISSION.

CONSTANTINOPLE, Dec. 6.—The chief object of the mission of the Turkish envoy, Ali Nizan, to the Emperor of Germany, is alleged to be to obtain Germany's support against any attempt of the European powers to violate Turkish interests.

TOBIN, THE FENIAN.

LONDON, Dec. 6.—The Treasury has undertaken the prosecution of Tobin, who was arrested recently after the search in his house at Bradford and the seizure of a box containing documents connected with the Fenian and Land League movements. Mr. Polland, who appeared on behalf of the Treasury, in opening the prosecution, said the charge against Tobin would be treason and felony. He would show beyond all doubt that the prisoner had been connected with the Fenian movements since 1871, and connected with a treasonable society called the Irish Brotherhood since 1875. The Bradford police, he said, had daily watched the movements of Tobin since early in the present year. The prisoner was remanded for a week.

IRISH TROUBLES.

DUBLIN, Dec. 6.—Michals Whelan, manager of the *United Ireland* newspaper, has been arrested and sent to Kilmainham gaol. Armed and disguised bands nightly scour county Kerry, forcing blackmail from the farmers. Mr. Long, a farmer in Mullivar, county Kilkenny, has been murdered. Justice Fitzgerald, in opening the Munster Assizes to-day, declared that life in Ireland was so insecure as to be worthless, right was disregarded, property unsafe, and a spirit of lawlessness were crushing the country.

CONSTITUTIONAL REFORM.

NATAL, Dec. 6.—A committee of the Natal Legislature has reported in fevour of a reform of the constitution, the Executive being only responsible to the Colonial Legislature in debate.

LADIES' LAND LEAGUE

DUBLIN, Dec. 6.—At meeting of the Ladies Land League to-day it was announced that £1,161 had been received during the past week. It was also stated that £6,000 had been received from Egan since the 4th October.

WITH THE WIDOW.

LONDON, Dec. 6.—The Grand Lodge of Master Masons last night passed a resolution of condolence with Mrs. Garfield.

THE CHARGE.

DUBLIN, Dec. 6.—The formal charge against Tobin is that of being in possession of arms for the purpose of carrying out a treasonable conspiracy as defined by the Treason and Felony Act. Mr. Polland stated that he would ask for Tobin's committal either for treason felony simply or for conspiracy with persons unknown to commit that offence. The papers seized show that 257 men were enrolled in the neighborhood of Bradford, and that the Brotherhood possessed arms to equip them, and had a fund of over £200.

POOR PRINTERS.

DUBLIN, Dec. 6.—Warrants have been signed for the arrest of five additional employees in the office of the *United Ireland*. When the arrests are made the paper will be without editorial staff. It is understood that John Dillon is about to be released from prison.

DEMPSEY RETIRING,

LONDON, Dec. 6.—Dempsey the proprietor of the Ulster *Examiner and Northern Star*, has retired from the contest for election of a member of Parliament for Londonderry, to fill the vaccancy caused by the promotion of the Right Hon. Hugh Law, to be Lord Chancellor of Ireland. This action is in obedience to a voice from Kilmainham. Notwithstanding Dempsey's retirement from the Parliamentary contest in Londonderry he received a number of votes, as his name remained on the polling papers.

ANTI-LEAGUE ALLIANCE.

DUBLIN, Dec. 6.—The Orange Emergency and Property Defence Association and the Irish Lnnd Association have amalgamated for the purpose of forming vigilance committees in defence of life and property.

BISMARCK'S REQUEST.

BERLIN, Dec. 6.—Prince Bismarck has asked the Emperor to relieve him of the routine of official duties, but to permit him to retain control of this government.

THE BRITISH IN BORNEO.

LONDON, Dec. 6.—During a debate at the Hague to-day in the Chambers on the English claims in nerther Borneo, M. Rochussen, Foreign Minister, stated that the British Government declaimed any rights of sovereignty in Borneo.

EXPLOSION AT A GAS WORKS.

LONDON, Dec. 6.—The purifying house in the Birkenhead Gas Works exploded at three o'clock this morning. The fire was prevented from spreading. Nobody was hurt, but the explosion caused a great panic. Hundreds of persons rushed into the street. The origin of the explosion is unknown.

REFORM WANTED.

CONSTANTINOPLE, Dec. 6.—Lord Dufferin, British Ambassador, acting on instructions from Lord Granville, Foreign Secretary, has requested an audience of the Sultan, for the purpose of representing the necessity of reforms in Armenia. In consequence of this demand the Porte has decided to institute a commission on reforms, and to send a commissioner to Armenia.

AMERICAN.

MINISTER KILPATRICK.

WASHINGTON, Dec. 6.—The Consul at Valparaiso telegraphs that Minister Kilpatrick died at Santiago on Sunday.

ARTHUR'S EVIDENCE.

WASHINGTON, Dec. 6.—Mr. Scoville said he had made an unsuccessful attempt to secure the President's attendance. After discussion the prosection agreed to allow Scoville to prepare interrogatories to be submitted to the President, and to allow his evidence in this form to be put in.

NEW BUILDINGS.

NEW YORK, Dec. 7.—During the past eleven months plans have been filed in New York and Brooklyn for new buildings and alterations involving an aggregate cost of fifty five million dollars.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

THE ministers of a city in Eastern Massachusetts have been asked to preach against gambling, it having been ascertained that no inconsiderable sums of money have recently changed hands in the High School on the result of a race, the election and a game.

LATELY adverted to by the Indianapolis (Ind.) *News*, is the fact that Mr. Frank Pattan, one of the editors of the *Indiana Earmer*, (of Indianapolis), strongly indorses St. Jacobs Oil. It cured his wife of a very severe attack of rheumatism and so quickly.

THE finding of the infernal machine near the City Hall at Montreal has occasioned great excitement in that City. On examination, however, it was found to be filled with a poor quality of nitro-glycerine, and the means of causing this material to explode was absent.

A HINT.—Ask your Druggist, Grocer or Shopkeeper, for a bottle of Pain-Killer. If he passes it down without ceremony ask him while extracting the quarter dollar from your wallet, if this is the genuine made by Perry Davis & Son.

WHILE out hunting, George Howard, of Macon, Ga., saw fall from a tree a snake six feet long, tightly wrapped around a squirrel, which it soon swallowed. The other squirrels in the tree were so terror-stricken that they ran in every direction making a noise that was an entreaty for help. Killing both the snake and the squirrels, Mr. Howard continued his hunt.

VICTORIA WOODBELL announces herself as a candidate for the presidency of the United States. The campaign in her behalf was begun more than a year ago when she was nominated by a no less personage than Victor Hugo in the Paris *Rappel*. He does not see that it is more ridiculous for a woman to be President of the United States than that one should be ruler of Great Britain.

MILLIONS GIVEN AWAY.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

MUSICAL fishes are found in the lakes of Ceylon. Sir James Emmerson Tennant describes the sound they produce as "like the gentle thrills of a musical chord or the faint vibrations of a wine glass when its rim is rubbed by a wet finger." He says that the note is notsustained, "but a multitude of tiny sounds, each clear and in itself, the sweetest treble mingling with the deepest bass."

A BRIGHT youth, undergoing examination a few days since for admission to one of the departments, found himself confronted with the question:—"What is the distance from the earth to the sun?" Not having the exact number of miles with him he wrote in reply:—"I am unable to state accurately, but don't believe the sun is near enough to interfere with a proper performance of my duties if I get this clerkship." He got it.

THE quarrel between Anna Dickinson and Fanny Davenport has resulted in a suit brought in Philadelphia by the former to compel a return by the latter of the manuscript of "An American Girl," the play whose failure caused the disagreement. The author says that the actress ruined the piece by making inartistic interpolations, and the actress replied that she did so in order to arouse the audiences to some faint interest in the performance.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

Daily Evening Review

WEDNESDAY, DECEMBER 7, 1881.

A PRODIGIOUS ACHIEVEMENT.

Although various causes have hitherto prevented our noticing the eel-like efforts of the *Globe* to break the force of an article which appeared in these columns under the heading of "The Taxation Cry," we presume it will not be considered too late to do so now. It will of course be impossible for us to follow the *Globe* through the two articles and several editorial notes which our article called forth, but we shall try to answer one or two of its statements.

The manner in which the N.P. affects the working man is evidently a very sore spot with the *Globe*, and one which it would be much wiser to leave alone, inasmuch as the more it picks at it the better opportunity does it afford for its supporters giving prominence to its advantages as compared with the tariff which preceded it. With that ease which is peculiar to the *Globe*, it in its first article turns away from the real issue between it and ourselves (the *amount* of customs duties paid by *every* family of five persons) and after quoting a single sentence from our article, proceeds to demolish the imaginary statement, that because the poor man did not contribute as many dollars and cents to the customs revenue as the rich, he was not so heavily taxed—an entirely new issue, the raising of which is the best possible proof that its former one was unsustainable. Now, with regard to the new issue raised by the *Globe*, namely "that the burdens laid upon him (the poor man) by the N. P. are beyond comparison, greater than those laid upon rich persons," we are quite willing to concede that such a statement contains much more truth than the *Globe's* statements usually do, because so long as taxes are collected it will not be impossible to give reasons why the incidence of taxation falls heavier on the poor than the rich man. But while conceding that much, we cannot concede what the *Globe* desires its readers to believe, namely, that the incidence of taxation under the N. P. falls heavier on the poor man than it did under Mr. Mackenzie's revenue tariff. That such is not the case we are prepared to prove by taking the example of the tea duties to which the *Globe's* second article was devoted and with regard to which it characterizes the change in the mode of levying the duty as a "prodigious achievement."

In the article in question the *Globe* says:—

"In Mr. Mackenzie's time the taxes on tea were:—

Green and Japan, per pound.....6 cents.
Black, per pound.....5 "

Sir Leonard Tilley "dropped" the tea taxes to the following figures:—

Black, per pound.....2 cents and 10 per cent.
Green and Japan.....3 cents and 10 per cent.
From United States....10 per cent. additional.

Now let us see the effect on the price of tea of this grand reduction of taxation. In 1878 the last complete year under the old tariff, the value of the tea imported was $2,597,847, and the tax thereon was $511,313; or 23.5 per cent. In 1880 the first complete year under the N.P., the value of the tea imported was $2,750,460, and the tax thereon was $641,261; or 23.3 per cent.

The extent of the advance made toward a free breakfast table is thus represented:—

TAXATION ON TEA UNDER OLD AND NEW TARIFFS.

	per cent.
Rate under old tariff	23.5
Rate under new tariff	23.3
Amount by which the tea tax has been reduced	00.2

Glorious fact! Prodigious achievement!"

Now we say, unfair, and grossly deceptive as the foregoing statement is and is intended to be, it proves conclusively that although the gross duty collected is made out to be practically the same under the two tariffs, the amount of duty paid by the cheapest teas under the N.P., is not so great per lb., as that paid per lb. by the more costly article, as was the case under Mr. Mackenzie's revenue tariff. As the *Globe* is compelled to point out, the duty formerly was an entirely specific one, levied without any reference to value, while under the present tariff fully one half is levied as an ad valorum duty—therefore unless all the tea imported is of precisely the same value per pound the duty now paid on each pound of tea cannot be precisely the same. Some must pay more and some less than the average. That being the case and the *Globe* being compelled to admit that the average was slightly lower 1880 than it was in 1878, it will be evident to the "ruralists" at whom the *Globe* delights to sneer, although it may not be to the "wiseacres" of King Street, that the amount of duty levied on the cheaper teas (that is the poor man's teas) is less under the Tilley Tariff than it was under Sir Richards, and that the amount thus taken off the poor man's tea has been placed on the rich man's, a course which certainly must have the very opposite effect to that so audaciously claimed by the *Globe* in its first article.

But although the *Globe's* own statement proves our case, we cannot help pointing out that it would be impossible to frame a more dishonest statement or one more calculated to deceive its readers than its tea figures.

Notwithstanding that its own article informs the reader that the duty on tea in 1878 was a purely specific one, and that in 1880 it was about half specific and half advolorum, it cooly ignores altogether the basis upon which the duty was collected in 1878, and upon which a full half of that of 1880 was also collected, and thus dishonestly applies a false measure to its calculations for the purpose of hoodwinking its readers. On turning to the official returns for 1878 and 1880, we find the number of pounds of tea entered for home consumption and the duty paid thereon in these years to be as follows:—

YEAR 1878.

	lbs.	Total Duty.	Average per lb.
Black Tea	4,984,091	249,205	5c.
Green Tea	6,035,140	362,108	6c.
	11,019,231	641,313	

YEAR 1880.

Black Tea	5,301,460	239,658.21	4.24
Green Tea	6,676,797	401,261.98	6.01¼
	11,978,257	641'261.19	

Now, had the *Globe's* poor man's tariff of 1878 been in force in 1880, the duty payable on the above tea would have been as follows:—

5,301,460 lbs. at 5 cents per lb.	$265,073.00
6,676,797 " 6 "	400,607.82
Total	$665,680.82
Duty actually collected	641,261.19
Of a reduction of	$ 24,419.63

which the *Globe* coolly ignores in its comparison of the working of the two tariffs. But this is not all. In the figures for 1880 is included the extra duty of ten per cent. on importations through the United States, which amounted to $60,854.90, and which if added to the above sum, makes a total difference in the two tariffs as regards direct importations, in 1880 of $85,374.53—or a reduction of about thirteen per cent. instead of the two mills per cent. allowed by the *Globe*—that is, there was only a sixty-fifth part of the truth in its statement.

Although in our previous article, we made no claim in behalf of the N. P. for a general reduction in the duty on tea, but simply that by the manner in which the duties are now levied, the duty on the cheaper teas had been reduced, and those on the dearer increased, thereby making the incidence of taxation bear less heavily on the poor man than Mr. Mackenzie's tariff did, we flatter ourselves that we have proved that the *Globe* in proclaiming the change in the manner of levying the tea duties as a "prodigious achievement" has only proved more conclusively than ever before that the N. P., not its revenue tariff, is in this, as in everything else, the poor man's friend, and that instead of increasing "the burdens laid upon him," the N. P. has "beyond comparison" decreased them when compared with those "laid upon rich persons."

DUMMER.

From Our Own Correspondent.

A PRESENTATION.—On Wednesday evening last, about fifty of the adherents of Mr. Fleming's congregation met in the school house, and thence proceeded to the manse, where they pleasantly surprised him by presenting him with an address and a purse of some $27, after which he made a suitable reply. Supper, which was provided for by the ladies, was now earnestly proceeded with, and after having done justice to that part of the programme, a little more merriment was indulged in and then all separated highly pleased with the enjoyable time spent. The following is the address:—

DEAR PASTOR.—We, the members of your congregation, embrace this as a favorable opportunity for the purpose of presenting to you this address with the accompanying purse which we wish you to accept, not for its intrinsic worth, but merely as a small token of the kindly feeling entertained of you by us as a congregation. In presenting this favor we have no expectations, either in gaining public applause or your own personal affection, but on the contrary do so only as a slight recognition of the important services rendered by you during the short time you have been in our midst. Though scarcely eight months have elapsed since you assumed the pastorship of this congregation, momentous changes have taken place, we have an increased membership and we are quickly assuming such a financial status that ere long we can look forward with an air of confidence that our debt will be speedily diminished, all of which we can largely attribute to your unceasing efforts and willing hand. Without further occupying your attention with this address, which very inadequately expresses our gratitude to you and family, let us conclude by asking Him from whom all favors come to bless you abundantly whether in the pulpit, home, or wherever your lot may be cast, and may He ever crown your highest aspirations with success, and moreover we join one and all in wishing you, though somewhat premature, a merry Christmas and a happy New Year with many returns of the same.

DEER HUNTING.—John Rose, while engaged in ploughing some days ago, was suddenly surprised by finding a fine doe in the vicinity of his barn, closely pursued by dogs, and wishing to deprive the canine heroes of their intended prey, set out at race-horse speed to achieve the honor. Success seemed certain, but a sudden evolution on her part brought her into a dense thicket where for some time she was lost to view, and consequently her worthy antagonist ceased the pursuit. Again she reappeared and again the chase went on, but this time she was soon come up with when she was found to be in a very exhausted condition sprawling on the ground. Needless to say a fatal blow was then given, and when dressed she weighed ninety pounds.

TEACHER.—A considerable change has taken place in the teaching staff of this district. Mr. Edmison, Sr. teacher, Warsaw Public School, has been re-engaged for the ensuing year. Miss Cook, teacher of junior department has resigned, after having successfully discharged the duties of her position for four successive years. Mr. Thomas Hawthorne takes her place. Mr. D. J. Rose of S.S. No. 1 Dummer resigns his position at the close of the year for the purpose of joining the exodus of young men for Manitoba next spring. Mr. A. Ferguson, of Norwood, has been engaged as his successor.

MANITOBA BY RAIL.

Another Through Connection to the Prairie Province—The Route

OTTAWA, Dec. 5.—It is said that a new through connection has been made between Montreal and Chicago and Manitoba, and that freight is already beginning to rush. The route mapped out is as follows: From Montreal to Ottawa, Q. M. and O. R.; from Ottawa to Brockville, C. P. R.; from Brockville to Utica, ferry transfer and Utica and Black river; from Utica to Suspension bridge, New York Central, Canada Southern to Amherstburg, and Lake Shore to Chicago; from Chicago the Manitoba connection will be made over the St. Paul, Minneapolis and Manitoba railway. One hundred cars of steel rails are now being shipped from Brockville to Winnipeg, this being the route it is supposed to take.

A Daring Robbery.

CLEVELAND, Dec. 3.—A bold and audacious robbery was consummated at the Commercial National Bank of this city to-day noon. As President Dan P. Eels sat at his desk in his private room in the bank talking with several friends, a stranger entered, and as Eels' back was turned stole a box on the desk containing $117,000 in negotiable unregistered bonds and escaped. There is a slight clue to the thief. It is said the loss will in no way affect the bank.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

IT IS no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united *nature's forces*, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health; this then we recommend when vitality is on the wane, or when the organism becomes enfeebled.

CHILLS AND FEVER.—Ay person who is conversant with the merits of Dr. I. R. Herrick's Sugar-coated Vegetable Pills, will tell you that no remedy of equal excellence has yet been discovered for this distressing complaint. Test the matter for yourself. They are sold everywhere.

IT WILL DO IT.—Food will lodge in the interstices between the teeth, and it becomes a source of their decay. Sozodont will dislodge such deposits, and prevent the mischief. All parents should provide Sozodont and thus secure the health of their children's teeth.

BOARD OF EDUCATION.

THE SALARY QUESTION, AS REGARDS THE INSTITUTE, AGAIN DISCUSSED.

The Salaries of two Teachers Raised—Considerable and Warm Talk—The Town and Board—The School Elections.

The regular monthly meeting of the Board of Education took place at the Collegiate Institute on Tuesday evening.

Present,—James Stevenson, Esq., Chairman, and Messrs. Dumble, McClelland, Denne, Rutherford, Poussette, Stratton, Sawers, Robinson, Cox, Toole and Best.

The minutes of the last meeting were read and confirmed.

AN OBJECTION.

Mr. DENNE said that some question of the legality of the report on salaries at the last meeting had been raised, and no mention of it appeared in the minutes.

The Chairman and several other members had no recollection of the fact, and nothing appeared in the minutes to bear Mr. Denne out. It was said, however, that the matter had been spoken of after adjournment.

Mr. DENNE asked if the report had been carried by a majority of the full Board?

The CHAIRMAN read from the rules of order and showed that the report had been carried in a legal manner.

INQUIRIES.

Mr. SAWERS asked how much had been paid for Mr. J. Braden's assistant?

Mr. J. BRADEN—A teacher, has been employed for three days this term at $1.25 per day.

NOTICE OF MOTION.

Mr. SAWERS handed in a notice of motion for the re-consideration of the salary question at the next meeting of the Board.

COMMITTEE ON APPOINTMENTS.

Mr. DUMBLE, as chairman, read the following report:—

The Committee on Appointments begs to report that they have considered the question of High School Teachers' salaries, by the Board referred to them, and they recommend that the salaries be as follows:—

Mr. Dixon	$1100
Mr. Campbell	1000
Mr. Earl	900
Mr. James	800
Mr. McKee	700

Your Committee recommend that the above salaries be payable from and after the first of January next.

(Signed) D. W. DUMBLE, Chairman.

Peterborough, Dec. 6. —Adopted.

Mr. DENNE objected to any increase. If one part of the salaries were raised the other should also be increased.

Mr. RUTHERFORD thought that Mr. Campbell's salary which had been cut down before should now be increased. The salaries of Messrs. Earl and McKee had been increased time after time, and he thought that they were not treating a successful teacher like Mr. Campbell in a proper manner.

Mr. DUMBLE said the teachers should have a living salary. Now living was high and the committee thought Mr. McKee was not receiving enough, while others thought that the English master should receive as much as the Classical master.

Mr. COX had always voted for increases of salary for the reason that he did not think that teachers were paid enough. He thought some members of the Board had "pet" teachers and would vote only for an increase for them. If the report recommended an increase to all, he would support it. Higher salaries were necessary in order to meet the enhanced cost of living. A few hundred dollars would not amount to much to the town. He knew his position was not a very popular one with the ratepayers but he felt confident that it was the right one.

Mr. TOOLE thought that no person had been specially picked out. The salary question had been before the Board for the last two months. He had moved in reference to the increases mentioned in the report last spring. When provisions, etc., were cheap he had tried to keep down salaries, but as the cost had increased he wanted to give all the teachers a living salary. He said that Messrs. Earl and McKee were good teachers, and fully deserved the slight increase recommended. He would support the report.

Mr. MCCLELLAND was surprised to hear the remarks of Mr. Cox. This question was a very vexed one as Mr. Cox would have known had he been present at the meetings. The whole question was referred to a committee who had fully considered the matter, and had no "pet" teachers. The reports of the Inspectors showed that the work done by Messrs. Earl and McKee was excellent and he thought they would have hard work to fill their place. The salaries of the teachers referred to had not been increased for three or four years. Mr. Cox had not fully considered the matter or he would not have spoken as he did.

Mr. POUSSETTE defended the report and said that he for one member of the Committee had no "pets." He was opposed to the difference in the amounts paid to the Classical and English masters. It took far longer to learn English than any other language in existence at the present time. He had no regard for persons when he considered the matter. He was in favor of grading the salaries as they had done. He thought it was not a piece of presumption to consider and pass the report. Anything the new Board did would not take effect until the first of April.

Mr. RUTHERFORD wanted to know if any of the teachers had asked for an increase of salary.

Mr. MCCLELLAND—Yes, all of them several times.

Mr. DENNE said the only objection he had was that of considering the question twice in one year. Such an action was illegal.

Mr. DUMBLE said he would rather do an illegal action if it was right, (laughter) than a legal act if it was wrong. The Ward teachers had not been paid enough. He believed in the motto "live and let live." He was in favor of increasing the salary of some of the female teachers who were doing as good work as some of the males. He was in favor of paying such salaries as would ensure us good teachers. He thought that the salaries proposed were rather under the mark, than over it, and when compared with many of the other schools of the Province were far lower. He wanted the discussion to drop and give the poor teachers a rest for a short time at least.

Mr. COX stated that business had prevented him from attending several of the meetings. He was not opposed to increasing Mr. Earl's salary, but he remembered that some time ago, when he voted for a liberal salary to the teachers he found himself opposed by some of the gentlemen who now voted with him and *vice versa*. Perhaps some of these "pet" teachers whom they had supported had left the school.

A member. Yes that's so!

Mr. POUSSETTE said that the rooms were not properly graded before. By this action they were saving $100.

Mr. COX said that the former Principal who had been driven from the school by quibbling over $100 salary, after the first of January next would receive nearly as much as the two head teachers of the school combined, and he was well worth it too.

Mr. RUTHERFORD said the teachers were not underpaid. He thought Messrs. Earl and McKee would not be dealt with unfairly, if their salaries were left alone. Mr. Campbell's salary had been reduced and should be increased to the sum he formerly received. The outside teachers had not been paid enough before.

Mr. MCCLELLAND said that Mr. Rutherford had voted for the former report and was not consistent in his present action.

Mr. STRATTON wanted to act cautiously, as he was a young member of the board. He was not in favour of paying "fancy" salaries but wanted to give a man enough to live on. He had given the matter some consideration and had looked into the salaries of teachers from all over the Province and found that other towns of about our size paid lower salaries than we did, He was in favour of increasing Mr. McKee's salary, but thought Mr. Earl was fairly paid, but if it would give Mr. McKee a raise, he would vote for the two increases.

Mr. SAWERS would vote for $650 for Mr. McKee, but thought Mr. Earl was well paid. He said that in the public school salary matter some of the members of the members of the board had not acted as they were acting tonight. He wanted the salaries of four teachers in the public school increased.

Mr. COX moved, seconded by Mr. SAWERS,—That the report be referred back to the committee, to consider the advisability of restoring Mr. Campbell's salary to its former figure.—Lost.

Mr. POUSSETTE thought that the teachers were not well enough paid. He was disgusted with the action of the board in Mr. Jeffers' case. The principal should have at least $1,200. The Committee have set the Principal's salary at $1,100 and had gone down $100 in each case afterwards.

Mr. RUTHERFORD thought that the board in increasing the salaries that we decreased before and wanting to increase those that had not been decreased were not acting fairly.

Mr. MCCLELLAND said that Mr. Rutherford had voted for the decreases he spoke of.

Mr. RUTHERFORD "acknowledged the corn" and was willing to stand by his action.

Mr. DUMBLE said he acted from principle and not on account of personal friendship, Mr. Campbell was a particular friend of his and the other two were not. Mr. Sawers was not consistent in the way he talked and voted. At a former meeting he had voted to increase the salaries of well paid teachers. Mr. Sawers has not the first principle of right about him, and—

Mr. SAWERS.—I have as much principle about me as you.

Mr. DUMBLE.—We have been pestered with that man ever since he came to the Board and—

The CHAIRMAN here interfered and called for order.

Mr. SAWERS said that Mr. Dumble wanted to put a certain teacher out of the School and that was why he opposed an increase of salary to her. He did not care what Mr. Dumble said as both of them were known to the public, and he left them to judge between them.

YEAS (for the report).—Dumble, McClelland, Stratton, Denne, Toole, Poussette and Stevenson.

NAYS (against the report).—Rutherford, Robinson, Best and Sawers.

Mr. COX did not vote. After stating that he had never voted against an increase of salary or for the reduction of one.

Mr. DENNE said that he hoped when he desired it that the Chairman would allow him to refrain from voting as he had allowed Mr. Cox.

The CHAIRMAN stated that he had not excused Mr. Cox, although that gentleman had said so. Mr. Cox had on his coat and had left his seat.

THE TOWN MONEY.

Moved by Mr. DUMBLE, seconded by Mr. MCCLELLAND.—That inasmuch as it is provided by statute that the rates levied for school purposes are payable on or before the 14th day of December in each year, the board is entitled to receive from the Town Council the school appriation at that date; and therefore the Secretary-Treasurer is hereby instructed to make application to the Town Treasurer for the payment to the board of the school appropriation by the 14th of December in each year, so as to save unnecessary payment of bank interest.—Carried.

THE COMING ELECTION.

Moved by Mr. DUMBLE, seconded by Mr. POUSETTE,—That the elections for Public School members of this Board be held this year at the same places in town as they were held last year, and the following persons be and are hereby appointed Returning Officers thereat respectively:—

FIRST WARD—Joseph Lundy.
SECOND WARD—Chas. D. Macdonald.
THIRD WARD—John Irwin.
FOURTH WARD—William Lee.

That a meeting of the Board be held on the 1st Thursday in January after the elections to receive the reports of the Returning Officer, and to take the necessary steps to complete the election as by law required.—Carried.

The Board then adjourned.

Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall Mich.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but simple food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

Sensible Advice.

POLICE COURT.

AGGRAVATED ASSAULT.

WEDNESDAY, Dec. 7.—Mrs. M. A. Johnson, charged Thos. McGee with assaulting her on Saturday night with intent to do her grievous bodily harm.

COMPLAINANT swore that on Saturday evening about eight o'clock she was on McDonnell street, when prisoner, whose clothes were all muddy, accosted her, asking her where she was going, and when she said she wanted nothing to do with him, he said he would make her go where he wanted. She ran, but prisoner followed, seized her shawl and struck her, but she broke from him, the shawl pin giving way, and ran to Potvin's grocery, where some men were, and some of them went after prisoner. She went towards them and identified prisoner, and though she ran, he struck her again. It was moonlight, so that she could see across the street that his clothes were muddy. He was not so drunk but that he could run faster than she could.

CROSS-EXAMINED BY MR. WOOD.—She was going to Potvin's grocery. He struck her first on the cheek with his open hand, not hurting her very much. He soon after struck her on the other side. Both blows caused swelling and she felt their effects next morning.

JOHN COOK swore that he saw prisoner sitting down on a doorstep on McDonnell street. He had gone to see who it was that struck Mrs. Johnston. Prisoner threatened him with oaths. With others they walked to the corner, when Mrs. Johnston came up and identified prisoner, who ran after her and struck her with his closed hand.

WILLIAM LOCKIE gave similar evidence. Prisoner also struck him.

ALBERT HARVEY gave corroborative testimony as to the second assault.

CROSS-EXAMINED BY MR. WOOD he gave prisoner a good character for steadiness and sobriety, though he was too drunk then to know what he was doing.

Mr. WOOD argued that there was only evidence of a common assault, and that he might therefore call prisoner.

The MAGISTRATE said it was an aggravated assault.

PATRICK TAGNEY and Cornelius McAuliffe gave prisoner a good character for sobriety and quiet conduct.

FREDERICK POULLETTE had known him from a baby and spoke favourably of him.

JOHN MCGEE, prisoner's father, said he had always treated him and his mother well, and gave them his earnings. He had never known him drunk before.

MR. WOOD urged the slight nature of the assault, and the prisoner's good character.

The MAGISTRATE said that drunkenness did not externate the offence. Women walking peaceably on our streets must be protected from ruffianly attacks. He found prisoner guilty of an aggravated assault.

COMPLAINANT asked for leniency as it seemed to be a first offence of the prisoner.

The MAGISTRATE said her intercession saved him from the Central Prison. He fined him $10, and costs $8.00, or in default three month's imprisonment.

WIFE BEATING.

James Watson was brought up on remand for grievously assaulting his wife.

MARY WATSON said she was the wife of prisoner, who assaulted her on Nov. 24th in their own house.

PRISONER elected to be tried by the County Judge.

MRS. WATSON said she did not want to punish him, but to make him keep his hands off her.

Mr. WOOD, for prisoner, said he was willing to be bound over to keep the peace.

The MAGISTRATE said there was a probability that wife beaters would soon have to taste the lash themselves, and would then see how they liked it.

The prisoner was then remanded to gaol until to-morrow morning, sentence being reserved.

ANOTHER ASSAULT.

Ellen Higgins charged James Farley, with assaulting her on Nov. 14th.

PRISONER elected to be tried by the County Judge.

COMPLAINANT swore that prisoner who was her mother's husband, assaulted her in their house. He struck her mother first, and the knocked witness down and kicked and hamm[illegible]ed her. She was knocked stupid. She w[illegible] cut and bleeding, and when she recovered [illegible] went to Mrs Lynch's for assistance.

CROSS-EXAMINED by Mr. Wood:—[illegible]e did not take any whiskey home with her [illegible]. When prisoner came home her mother [illegible]ned the door, which was buttoned, and w[illegible]ss was standing two yards behind her. S[illegible]aid the information not strike prisoner. S[illegible] the following day. [illegible]Y, defendant's wife, was not allowed to [illegible]

MRS. AGNES [illegible]VIDENCE.

MRS. BRIL[illegible] to Farley's that evening and [illegible]OYD did not see the the assault; she [illegible]ck her. She saw the marks on Mrs. prisoner face next morning, of blows and [illegible]Higgs.

[illegible]SAN LYNCH heard complainant scream [illegible]er when he was coming back from church. [illegible] hurried on and found her at his door bleeding, with marks of blows on the face. He had seen prisoner at church not more than half an hour before.

THOMAS BROWN lived opposite Farley's. He heard screams of murder from there about 11 o'clock on the evening in question. He heard voices quarrelling both then and earlier, but that was nothing unusual. He recognized prisoner's voice.

Prisoner was committed for trial.

COURT OF QUARTER SESSIONS.

BEFORE HIS HONOR JUDGE DENNISTOUN.

The December sitting of the Court of Quarter Sessions opened at the Court House on Tuesday, before His Honor Judge Dennistoun. Thh docket was an exceedingly light one, there being only one case for trial.

The following gentlemen were sworn in to act as Grand Jurors:—

HENRY C. WINCH, Foreman.

James Burgess,	Sylvanus Davis,
Joseph Bowie,	Wm. Graham,
William Blezard,	Chas. McCarthy,
Wellington Boyce,	Wm. Mohor,
Alexander Clark,	Thos. McKee.
Alexander Calder,	Hugh McKay,
John Cleghorn,	Jos. McClelland,
John Corkery,	W. Rombough,
Geo. R. Calvert,	Thos. Richie,
Angus Davidson,	Wm. Sharpe,

After being addressed by his Lordship, they retired and soon after returned into court, bringing in a "true bill" against George Huston, charged with felonious wounding.

The court then adjourned.

WEDNESDAY.

The Court met at 10 o'clock a. m., and the of the petit jurors were called.

His Lordship then asked if Mr. Weller, the County Attorney, was ready to proceed with the case of the Queen *vs.* George Huston, who was charged with feloniously wounding D'Arcy Dunlop on the 21st of June last, on the boundary line between the townships of North Monaghan, Peterborough, and Cavan, Durham.

Mr. Weller stated that some time ago, an officer had left subpœnas at the residences of two important witnesses, whom he had good reason to believe, were concealing themselves so as not to be called to give evidence in the case. On Tuesday another officer had gone out, but was also unable to find the men. He expected to prove an important fact by them, and under the circumstances, asked for an enlargement of the case, especially as the prisoner's counsel were willing.

Messrs. Burnham and Dumble, who appeared for the prisoner, expressed a willingness to allow the case to stand over until the June sessions.

The prisoner was accordingly liberated on bail.

There being no other case before the Court, the judge dismissed the petit jurors, and informed them that they might call on the County Treasurer, and draw their $3 for about 2¼ hours attendance at the Court Room.

PRESENTIMENT.

The following is the presentiment of the Grand Jury:—

To His Honor Judge Dennistoun.

The members of the Grand Jury in making their report beg to congratulate you in that there are no criminal cases to be disposed of at this sessions, and that their duties are only of a nominal nature. We have examined the jail and prisoners, and have to report everything in a most satisfactory condition, and we take pleasure in thus testifying to the efficiency of of the officers connected therewith.

(Signed) H. C. WINCH.

The Judge thanked the Grand Jurors for their attendance, and told them to call on the Treasurer.

The Court then adjourned.

The Weather.

The weather has taken another change and is now more cold and wintry than it has been for some days. Rain fell last night and this morning, after which snow fell for a time but owing to its soft nature it did not remain for any length of time but soon melted. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Clearing colder weather, north westerly gales with snow squalls to-day, followed by southerly winds and rising temperature to-morrow.

Broke His Leg.

We regret to learn that Mr. Joseph Crevais, clerk at the Stewart House, while bowling at the alleys on Tuesday night, slipped and fell, breaking one of his legs. He was at once taken home and his injuries attended to. We hope to see him around again in a few days.

MEMORANDUM!

Cold or hot a certain amount of clothing is necessary. A perfect fitting garment is in either case most comfortable.

Good Cloths and Trimmings not only make better clothes than cheap goods, but they keep their shape better and give the wearer more satisfaction.

To have your clothes cut IN STYLE, and made up faultlessly might be the chief aim in life. Now the question comes, where can you combine all these points of excellence?

The answer comes promptly, at Dolan & Co's. George Street, where the best lines of goods are always in stock, and the best help procurable employed.

Turn in and see us, and if we can't convince you of the fact that we can dress you up in the *very latest*, we shall miss our guess.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

"THE BEAUTIFUL."

WATERTOWN, N. Y., Dec. 8.—Four inches of snow fell last night.

A ROUGH VGYAGE.

NEW YORK, Dec. 8.—The steamship Necker, had a tempestuous voyage. A sailor was lost overboard, and another had his legs broken and almost all the officers and crew were more or less cut and bruised.

JAPANESE COURT.

NEW YORK, Dec. 8.—The Japan Government proposes to constitute a Court for the ultimate hearing of cases, where foreigners are offenders or parties to suit. The Court will be composed of citizens of a number of the most prominent powers having treaties with Japan. One judge will be chosen from each as well as a number of jurors. The majority of the Court are to be foreigners. It is understood that U. S. Minister Bingham will be offered the first position in the new Court.

MORE CROOKEDNESS.

NEW YORK, Dec. 8.—A clerk in the Pension office was arrested yesterday, charged with using government franking envelopes, for private envelopes for private business. He made a partial confession indicating a conspiracy with several others in the Pension office and other Departments to pass claims and take a lottery for attention to prepare claims under consideration. Sensational developments are promised.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

MIDNIGHT TELEGRAMS

CABLE.

GAINING LIGHT.

MADRID, Dec. 7.—To-morrow the *Gazette* will publish the formal opening of the Superior Council of Administration in Cuba and of the Council of State in Spain favourable to the suppression of the iron chains and collars used in Cuba to punish negroes under the famous regulations of Senor Canovas and the gradual emancipation law of 1880. The Sagasta Government in accordance with these opinions will issue directly after the Cortes are prorogued for Christmas a royal decree prohibiting all corporal punishment of negroes in Cuba. It seems that the late Conservative Cabinet maintained corporal punishment at the request of Captain-General Blanco, transmitted in a private despatch at the instigation of the planters.

A LIBERAL ELECTION.

LONDON, Dec. 7.—Londonderry county elects a Liberal members of Parliament to succeed a Liberal. After the declaration of the poll, Mr. Porter, the Liberal candidate, had to be escorted to his hotel by the police. The crowd threw stones, and Mr. Dickson, a member of Parliament, was cut on the hand. The Catholics generally voted for Mr. Porter. On the reception of the news of the result of the election at Coleraine a crowd paraded the streets and broke the windows of the houses of a number of supporters of Mr. Porter. Shots were fired from one house, wounding several men.

RUSSIAN OFFICIALS CENSURED.

ST. PETERSBURG, Dec. 7.—More than ordinary excitement was produced at St. Petersburg to-day by developments made in the State trials proceeding there. The Government broadly and unequivocally charged that Gen. Movinsky and State Councillors Fursoff and Tjargloff were partly chargeable with contributing to the assassination of Alexander II, by their negligence in the performance of certain of their official duties.

CANONIZATIONS AT ROME.

ROME, Dec. 7.—The Italian Government has taken precautions to ensure tranquility at the canonization to-morrow. The Vatican authorities have taken great pains to exclude the profane. The number of Italian pilgrims is comparatively small.

A NEW PROTECTIVE FORCE.

DUBLIN, Dec. 7.—The Inspector-General of Police has advertised for the enlistment of army and navy reserve men and police pensioners for special protection duty.

MISSIONS IN AFRIGA.

DUBLIN, Dec. 7.—The Rev. Messrs. Richards and Jourdan, sent on a mission by the American Board of Commissioners for Foreign Missions to Umzeila, a powerful chief in the country north of Delagoa Bay, have returned. Umzeila will permit the American Board to establish missions in his country.

EMEUTE PREVENTED.

ST. PETERSBURG, Dec. 7.—The St. Petersburg police have captured fifteen persons provided with the uniform of army officers and crosses of the order of St. George. They evidently intended to disturb the festivities of St. George's day (Friday). Exceptional preparations have been taken in consequence of this discovery.

AMERICAN.

THE GARFIELD HOSPITAL.

WASHINGTON, Dec. 7.—General Sherman and the Executive Committee of the Garfield Memorial Hospital have received most encouraging reports from abroad regarding the interest taken everywhere in the enterprise. Committees have been formed in many of the principal cities in Europe and in Cairo to collect subscriptions. Generous contributions are being received from all sections of the United States, but further appeals will be made. Windom has prepared a bill to provide a special charter for the hospital, and make it a national organization.

A RUNAWAY TRAIN.

BUFFALO, N.Y., Dec. 7.—A singular accident occurred on the Central road last Friday near New Hamburg, on the Hudson River. The fast express from Chicago to New York had reached that point when a side-rod on the locomotive broke, and disabled both the engineer and fireman, leaving the engine unmanned while running at a high rate of speed. The master mechanic of the road was on the train and made his way to the engine and stopped it, preventing what might have been a serious accident.

COMPLETE COLLAPSE.

NEW YORK, Dec. 7.—The *Tribune's* Washington special says that the defence of Guiteau closed yesterday somewhat unexpectedly, making clear the fact that the assassin's case has completely broken down. Doctors Dimon, late of the Criminal Asylum, Auburn, N. Y., Talcot of New York State Homœpathic Asylum of Middletown, and other experts summoned for the defence, have not been put on the stand. It is understood that they intimated to the defence that their evidence would not be advantageous to the assassin. Most of them have been cited to appear for the Government. The defence have closed practically without expert support for the theory of insanity. One of the Government experts, speaking of Guiteau would not even admit that he had any mental disorder. The expert would only say that the assassin had not "one of the best kinds of minds." He expressed the belief that much of the boisterous behaviour of the prisoner in the court was for the purpose of simulating insanity. The New Year may open before the verdict is rendered.

Up to the 30th ult. less than $600 had been received by the Central Relief Committee for the benefit of the Muskoka bush fire sufferers. The *Herald* says there is immediate necessity for a much larger contribution. The amount received will relieve only a very small portion of the distress. Some of the unfortunate sufferers have no stoves, no winter clothing, and no means of procuring the necessaries of life, while numbers are not in much better circumstances. Here is a field for the charitably disposed.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother. — *Home Journal.*

THE OGDENSBURG AND LAKE CHAMPLAIN RAILWAY have taken a contract for the shipment of six hundred car loads of lumber to Boston during the winter season.

THE CITY SOLICITORS has decided that the that the city is not legally bound to pay the bonus of $100,000 to the Canada Atlantic Railway. The Company having failed to carry out the conditions specified, the council cannot now legally issue any debentures under the by-law, but they will in all probability ask the Local Legislature to legislate in the matter, it being considered that the Company are fairly entitled to the amount.

CAPTAIN JOHN STEWART, of the Princess Louise' dragoon guards, has returned to the city from the North-West Territories, where he has established an extensive cattle ranche.

LAKEFIELD NEWS.

From our own Correspondent.

MUNICIPAL MATTERS.

It is reported that Councillor Garbutt has decided not to be a candidate for municipal honors for another year, but the report has not yet been confirmed. Councillor Horner has definitely declined to have anything more to do with municipal affairs. He has been a councillor for five years, and has during that term brought a large amount of practical common sense into the discharge of his duties as councillor, and has in consequence received the hearty support of his constituents. It is generally understood through the Village that Messrs. Nelson and McWilliams at the earnest request of their many friends will allow themselves again to be elected as councillors. Mr. Nelson is an old and tried councillor, having sat at the board for five and a half years. He has always been remarkably attentive to the duties of the office, and always ready and willing to do any thing reasonable, and to spend both time and money in furthering the interests of Lakefield. Mr. McWilliams has also been an excellent councillor. His fair dealing at the council board has been so well appreciated that he was honored last January by being placed at the head of the poll at the municipal election then held. Lakefield has for some time been favored with a careful and economical council, and its ratepayers will best consult their own interests by electing the same class of men as councillors in the future as they have in the past. There is no probability of there being any opposition to Mr. R. C. Strickland, as Reeve. Mr. Strickland has been so successful and has given such general satisfaction as Reeve, that it would be really absurd for any one to oppose him, as there could be no prospect of success.

A NEW MAN.

Mr. Wm. Cox, since it was definitely ammended that Mr. Horner would not be a candidate, has consented to stand for councillor for the ensuing year. Mr. Cox has been spoken of for some time as having the necessary qualifications for a good councillor, and he was urged to present himself last year as a candidate, but we understood that he declined to oppose anyone of the old council. He has again this year been urged by numerous and influencial ratepayers to come forward as a candidate, and he has consented to do so. We have no doubt but that he will be elected handsomely.

ORANGE LODGE MEETING.

The Young Canadian Orange Lodge of Lakefield will hold its regular December meeting in the Orange Hall, on Tuesday evening next, the 13th inst., at 7.30 o'clock. The principal business will be the election of officers for the ensuing year.

NEVER GIVE UP.—If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a billious nature, by all means procure a bottle of Electric Bitters. Daily Evening Review

THURSDAY, DECEMBER 8, 1881.

It is worthy of particular notice that the *Globe* in placing the issue of the contest before the electors of West Northumberland, never once mentioned the National Policy. What change has come over the dreams of the *Globe*? Are we to understand that it has abandoned its revenue tariffs, and adopted the N.P. We were going to say that wonders never cease, but the *Globe* has executed so many wounderful turnabouts during the last year or two that nothing that it may now do in that way can excite the wonder of any one.

The Guelph *Herald* "can hardly think that the Government at Ottawa would have granted the use of her ordnance lands to Toronto for a local show," and "hazards the statement that the Toronto deputation succeeded in getting this land, ON ACCOUNT (the large type is the *Herald's*) of its being required for the Provincial fair in 1878." The *Herald* is quite right, and we hazard the opinion, that were any private individual proved guilty of the same duplicity and trickery as the Toronto city council has undoubtedly been in this matter, they would be hooted out of the society of all honest men, if not made to answer for their misdeeds before the courts.

The course pursued by the present Dominion government with regard to the Governorship of the North-West Territory affords another striking example of its economical management as compared with that of its predecessors. During his term of office Mr. Mackenzie provided a berth for a colleague as Governor of the North-West Territories, at a salary of $7,000 a year with sundry expenses in addition. The time of Mr. Mackenzie's appointment having expired, Sir John Macdonald has combined this office with that of Indian Commissioner for the same district, and thereby saves the country $5,000 per annum in the shape of salary alone—the Indian Commissioner receiving two thousand extra for performing the arduous duties hitherto performed by Mr. Laird.

An accountant writes to the *Globe* objecting to the appointment of Dr. Widdifield, M.P.P., as one of the auditors of the Provincial Agricultural Association, because he is not an accountant, because he resides so far from Toronto, (at Newmarket, we believe,) and because he is a member of the Legislation, a portion of whose funds is placed at the disposal of the Association. So far as the first objection is concerned, though accountants are a very desirable class in the community, it by no means follows that they are the only people who can audit these or any other accounts. With regard to the second objection it is worthy only of a self-opinionated Toronto man, and may be taken as another evidence of the extent to which selfishness is warping the judgment of Toronto people generally; and as to the third objection, we should have thought it is a very good reason for the Doctor's appointment, seeing that it will enable him to judge intelligently of the wisdom of the grant which he along with others have been making to the Association. It at least proves that the Council of the Association court the fullest enquiry into their expenditures.

BUCKHORN.

From Our Own Correspondent.

New Piers.—Mr. Chas. Wynn, contractor, &c., has commenced to build new piers in place of the old ones, which have been like everything else around here for the last five or six years, going to a wreck. The Dominion Government is doing the repairs under the superintendence of Mr. T. D. Belcher.

Personal.—Col. Williams, of Port Hope, was up here on a tour of inspection last Monday. He owns a great deal of property here and ought to build a grist mill on his mill privilege at once, as one is very badly wanted. The farmers around here have to go to Lakefield and Peterborough with their grists, a very great distance for the settlers in Harvey and back townships to go in any sort of weather and roads. The roads are none of the best in the township of Smith.

The Government Dam.—The dam here has been thoroughly repaired, and all re-filled in with gravel; it will be finished next spring. Mr. T. D. Belcher had a gang of men nearly all fall working at it under the management of Mr. Hall. Mr. Belcher is looked for daily to inspect the work done, as the men want to have a squaring up to pay their debts; so hurry up, Mr. B.

AN INFERNAL MACHINE.

Startling Discovery at the Court House—Attempt to Blow up the Building.

The discovery of an infernal machine within the railings af the Court house, and in close promixity to the rear wall of the building, on Saturday night, created no little consternation among the police force, and is naturally calculated, when taken in connection with recent events of suspected incendiarism, to excite considerable alarm. The manner in which the discovery was made was of a most accidental, or we shauld rather say providental character. A gentleman whose name for the present is withheld, whilst walking homewards along the terrace, between the Court House and the Champ de Mars, noticed an object lying within the rails which he at first took to be a box lost, or placed there by some person. Reaching through the rails he picked up the article and after a brief examination concluded to deposit in the central police station, there to await a claimant. On the way he met Detective Gladu, and telling that officer of his find, handed him the box saying it had probably been lost or forgotten by some one. The Detective then took it to the station and was in the act of stowing it away amongst the other goods "found by the police," when the peculiar appearance of the box, which had hitherto escaped notice, attracted his attention and he examined it more closely. Seeing this, the curiosity of several constables standing around was aroused and they gathered round to see what the latest addition to the hoard of strange articles which the receptacle in question contained might be. One of them an old soldier formerly of the Royal Engineers, whose education gave him a superior knowledge, had his suspicions raised by the look of the box, and he at once exclaimed that it was an

INFERNAL MACHINE.

The announcement as might naturally be expected, threw a consternation among those present and for a moment they felt that they were themselves in anything but safety. The officer, however, proceeded to a minute examination of the machine, and his inspection disclosed the fact that it contained mechanism of a most ingenious and perfect nature intended to explode a charge of six pounds of dynamite, and that at the time the machinery was

ACTUALLY WORKING

and as it seemed to the excited onlookers might explode at any moment and send them with the building in which they were standing into eternity. With presence of mind which does him the utmost credit, Constable Clarke, the officer referred to, instinctively grasping the details of the mechanism, set to work to remove the danger and succeeded in stopping the motion of the works which produced a feeling of relief among the bystanders, for though police constables are necessarily accustomed to face danger, the presence of so insidious a foe as an infernal machine had a somewhat unnerving affect. Undeterred by the immediate presence of peril, a minute examination followed of the box and its contents. The material of which the box is constructed is galvanized zink and its dimensions are ten inches long by five in height and four in width. Projecting from the top is a small tube. The cover being raised disclosed an ingenious and complete system of mechanism resembling clock work, which is so arranged as to operate on a hammer or cock resembling that of a gun. These works are wound up—and as we have said at the time of discovery were in running order so as to release at a given time a spring, which allows the hammer to fall and explode the dynamite cap. The charge of this deadly material contained in the box being six pounds, a quantity sufficient as will be readily understood to produce the most terrible and disastrous results. The box and its contents have a total weight of about ten pounds, and are evidently of foreign make, probably American, but very possibly, as Constable Clark observed, of German workmanship. After the officers had satisfied themselves of the terrible nature of the machine, they at once took steps to place it in a secure position in the detectives' quarters in the City Hall, where it is impossible for any harm to result from it.

During yesterday the detectives made endeavours to find some clue as to who had placed the box where it was found and to trace the would-be perpetrators of so devilish an outrage as that which was apparently intended, but, so far, their efforts have been without success, or if otherwise, and any discovery likely to place them upon the proper scent has been made, they refrain from disclosing the fact. To-day it is intended that a more thorough examination of the machine shall be made by experts, and a searching examination instituted into the affair. So far, of course, there is only speculation as to the motives which instigated the originators of this dastardly scheme. Various theories are indulged in, some of which would connect the affair with the machinations of O'Donovan Rossa and Fenian conspirators across the border, in view of that worthy's threats of designs on British public buildings. Others again, see in it a connection with events alleged to be the results of incendiarism, which have occurred in the city within the last few days. But, of course, as we have said, these are but theories. That the true nature and all particulars concerning this, as it at present seems, most fiendish outrage will be brought to light, there should be little doubt, and the public may rest assured that no efforts will, be spared, not only to sift the matter to the bottom but to prevent a recurrence of an event, fraught with such imminent peril to life and property.—*Montreal Gazette.*

YOUNG'S POINT.

New Steam Engine.—The new steam engine of 20 horse power to run Mr. Geo. Chalmers' shingle mill, arrived on Monday last, and worked well. Mr. Kearns will now make things run lively in his line of business which is making good shingles. The engine is from the Waterous Co'y, of Brantford. Mr. McLeod, of Peterborough, is the special agent for Peterborough county.

Saw Mill.—Mr. McGregor is pushing things ahead in the saw mill, and has a gang of workmen preparing the foundations, &c., to place the two new water wheels in their position, which will take two weeks to complete.

Personal.—Col. Williams, of Port Hope, passed through here on Tuesday last on a tour of inspection, of his farming lands in this section. He seldom visits this party, as Mr. William Young is his land agent, and manages everything satisfactorily for the Colonel.

Sport.—A well-known sportsman from the neighbourhood of Peterborough, along with a friend passed through here on Monday last, going north to have a good hunt before the time expires.

Lakeview House.—Mr. Kearney has got his driving house and ice house finished and they look well. The ice house is a capital one, and built on the newest modern plan for keeping meat, &c., fresh during the summer months; go ahead James.

☞Millions Given Away.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle *free*, and try for yourself. It never fails to cure.—5

GOVERNMENT SALE OF TIMBER LIMITS IN MUSKOKA.

Lively Bidding and High Prices—A Large Addition to the Provincial Surplus—How Buyers Find the Value of the Berths.

The Legislative Chamber in the old Parliament Buildings on Front street is a quasi-sacred place. When the legislature is in session woe be to the unlucky wight not wearing M.P.P. after his name who ventures therein! He is immediately pounced upon by the sergeant-at-arms and borne away no one knows whither, perhaps to the dungeon or the tomb. But on Tuesday, Dec. 6th, the gloomy old chamber wore a different aspect. If you had dropped in shortly after noon you would have seen the speaker's dias occupied, but not by the speaker, and the member's chairs filled, but not by the members. The occasion was the rarely-occurring one of a sale of timber limits by the Ontario Government, and the occupant of the dias was Mr. G. B. Cowper, of the Crown Lands department,

THE AUCTIONEER FOR THE NONCE,

who wielded an ebony ruler instead of the customary gavel, while filling the chairs and spreading over into the ladies' gallery were leading lumbermen from all parts of Ontario, or those who were acting in their behalf. At the side of Mr. Cowper sat Hon. Mr. Pardee, commissioner of crown lands, in general supervision of the sale. Among

THOSE PRESENT

connected with the lumber trade were Cook Bros. and McArthur Bros., Toronto; J. R. Booth and R. Nagle, Ottawa; J. C. Miller, Parry Sound; E. W. Rathbun, Deseronto; J. Cockburn, Gravenhurst; J. Petrie, Guelph; T. Murray, Pembroke; J. Bonfield, Eganville, besides several American buyers from Bay City, Saginaw, Tonawanda, and other places. The gentlemen from the other side, however, did not invest to any great extent, the large majority of the berths going to Canadian firms. Besides those engaged in the lumber business were one or two Toronto lawyers, who bought largely in the interests of other parties.

HOW SALES ARE CONDUCTED.

A sale of timber limits is not an everyday affair. The law, with a wholesome fear of what might occur under the stress of "party exigencies," does not permit timber limits to be disposed of in the usual way as lands for settlement purposes. The latter may be bought at any time, but the former can only be obtained when the Crown Lands Department brings on a sale, which must be by public competition. Hence the crowd of lumbermen and others on Tuesday, anxious in the present prosperous state of the lumber trade to obtain limits, and knowing that this would probably be their last chance for years to come. The last sale of timber limits by the Ontario Government was in 1872, when over $500,000 was realized. On Tuesday timber berths in the townships of Mowat, Blair, McConkey, Hardy, Patterson, Mills, Sinclair, Bethune, Proudfoot, Gurd, Machar, Strong, Joly, Laurier, Pringle, Lount, Nipissing and Himsworth, all in the Muskoka and Parry Sound districts, were offered for sale. The limits aggregated

1,411 SQUARE MILES;

berths amounting to 130 square miles were withdrawn, the reserve bid not being reached, and the remainder sold for a total of $717,176, or an average per square mile, exclusive of ground rent, of $560. This is a most remarkable showing, and the significance of the figures will be realized when it is stated that at the last sale, which was held by the Quebec Government, the average was only $98, while the sale held by the Ontario Government in 1872 produced an average of only $199. The bidding on Tuesday afternoon was at the outset slow and backward, the first couple of berths being withdrawn, but it quickly grew rapid and lively, and in some instances very large figures were reached.

THE HIGHEST PRICE PAID

was for berth No. 2 in the township of McConkey, which was knocked down to Mr. J. M. Martin for $2,500 per square mile, or a total of $40,000; berth No. 1 in the township of Joly was sold to Mr. J. L. Burton for $42,550, or $2,300 per square mile; No. 4 in Nipissing to C. A. Brough for $28,875, or $1,540 per square mile; No. 3 in Mills to the same gentleman for $25,381, or $1,410 per square mile; No. 3 in Joly to J. Bonfield for $21,900, or $1,200 per square mile; No. 4 in Strong to McArthur Bros. for $11,000, or $1,100 per square mile; No. 3 in Himsworth to J. R. Booth for $17,760, or $1,110 per square mile; No. 3 in Sinclair and No. 1 in McConkey to Cook Bros. for $14,840 and $22,837, or $1,060 and $1,050 respectively per square mile. The lowest price reached was for No. 3 in Mowat, which was sold to T. G. Blackstock for $937, or $50 per square mile. The sale altogether was

A MOST SUCCESSFUL ONE,

fully realizing in the matter of prices the expectations of the Government. As the law formerly stood, limit holders had only five years in which to remove the pine from the lands which they had under license, any timber remaining after that time belonging to the settler, but at the last session of the legislature an Act was passed under which a licensee on payment of the ground rent ($2 per square mile) and dues may renew his license from year to year, the Government after a certain number of years paying to the settler a percentage of the dues collected upon the timber cut. The disparity between the prices paid for different berths is of course accounted for by the variety in the quality and quantity of pine, the facilities for floating down streams, acreage burnt, etc.

NO INFORMATION

respecting the quantity of pine on the various berths, etc., was furnished by the Government, and intending purchasers had to make an examination for themselves of such limits as they wished to buy. As one facetious lumberman put it when the sale was drawing to a close and the auctioneer remarked on the growing darkness of the room, "We've been in the dark all the afternoon." Lumbermen, however, generally know what they are doing and buying, and those at the sale on Tuesday did not look as if they were exceptions to the rule. As a matter of fact all the firms sent out experts to examine the several berths, and of course the reports made thereon were kept a profound secret. As soon, however, as the berth was knocked down the lumbermen would tell one another what their report was. For instance, one berth over which there was considerable competition was reported to one firm as being good for three-quarters of a million feet per mile, and another firm had it rated at one million. One gentleman, however, nearly caught himself in the matter of a bid. One limit which was going up by $10 bids, and had reached the sum of $2,090, when the audience was suddenly surprised to hear him ejaculate "$3,000." This, of course, put a stop to all further competition, and the berth was knocked down to him for that sum. It turned out, however, that the too eager buyer had only intended to advance the usual $10 and say "$2,100." The limit was accordingly put up again and ultimately sold to another for $2,300.—*Toronto World.*

The DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

FROM ALL OVER.

It was found that only a small proportion of the medical association in the Province have conformed to the Act respecting medical fees, so as to legalize the local tariffs which they adopt in the several districts. A proposal is being made to revise the scale in Toronto.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

A COMMEMORATIVE silver plate has been placed upon the pew formerly occupied by President Garfield in the Christian church at Washington. Since his death the pew has been draped in mourning, and it is to be kept thus draped as long as the church stands.

THE Boston Common Council must be composed of a jovial set of men, who enjoy a rubber at whist, or, perchance, a hand at poker, in their leisure hours, for among the bills approved in the past year, and paid out of the contingent fund, was one for "a dozen packs of cards, $6.50.

"I FELL from a wagon a few days since," writes Mr. G. C. Atkins, Beaver, Pa., "and sprained my wrist so very badly that I could not attend to my business. After using seven different remedies, and the pain increasing I tried St. Jacobs Oil. In ten minutes the pain had gone, and I could enjoy a night's sleep." It is *the* remedy.

DURING a pelting rain a Michigan schoolma'am, finding that she could not unlock the school-house door, climbed into a window four feet from the ground and pulled her fifty-two pupils in after her, and the next day she received six offer of marriage. Michigan men appreciate a good wife.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but simple food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

PUBLIC opinion at Washington seems to be setting in strongly in favour of President Arthur, the general impression being that he will conduct public business on business principles and by business methods. So far he is said to have exhibited remarkable skill in dealing with men of every stamp, and to have shown no mercy to mere office-seekers, bores, and intriguers.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

A GENTLEMAN in Ohio purchased an excursion ticket from Washington to Toledo, and the ticket expired while he was still on the road, owing to a detention of trains, for which he was not responsible. The conductor on the terminal railroad refused to receive the expired ticket and ejected the passenger. For this a jury now gives him $500 in a suit against the Pennsylvania Railroad Company, whose agent sold him the ticket.

THE Commissioner appointed by the Government to inquire into the financial affairs of the township of Sombra has reported that the several charges of mismanagement, imprudence, and neglect of duty on the part of the Treasurer and township officers have been fully sustained. It is feared that upwards of two thousand dollars will be lost to the township through the default of the late treasurer.

A BUST of the Duke of Cambridge that adorned the Army and Navy Club in London was recently found to be broken. All the servants of the club were summoned and asked what they knew about the accident. One of the page boys said that when he left the hall, a little before the accident, the bust was entact. "Who was there when you left?" he was asked. Sir Garnet Wolsely," he replied.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

ABOUT noon on Tuesday one of the Roberts Company's glycerine magazines at Kinzua junction, twenty miles from Bradford Pa., and containing 1,230 pounds of glycerine exploded with terrific force. The earth trembled as if shaken by an earthquake, the shock being distinctly felt in Bradford. The explosion was mysterious in its origin, combustion being cited as the cause. The forest covering at least three acres in the vicinity was laid low, and houses at Kinzua were nearly shaken from their foundations. No one was injured. It is said to be the only known case of glycerine exploding from combustion.

PRESIDENT ARTHUR'S first message, presented to Congress on Tuesday is in many respects an important document. Much of it is occupied with details of the country's foreign relations which may be summarized in the remark that it is living in friendship with many, and at peace with all. The surplus for the year was over $100,000,000, and the excess of exports over imports, which is steadily increasing, last year reached the enormous figure of $259,712,718. A sweeping repeal of internal revenue taxes is recommended, and measures are urged for the care of the Indians, the efficiency of the army and navy, the settling of the question of presidential "inability," and the suppression of polygamy. Civil Service reform comes in for a long discussion, without any very radical suggestions.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

A PLUCKY WOMAN.

Exciting Scene in a Railway Train—Subduing a Breakaway Convict.

DETROIT, Dec. 5.—Henry White, sentenced to thirty-nine years' imprisonment for robbing a stage in New Mexico, has been brought here by United States Marshal Wilcox. On a train near Pokagon, White picked the lock of his handcuffs with a toothpick and attacked Wilcox with the handcuffs. A fierce struggle ensued, and Wilcax was knocked down. Seventeen men in the car left the officer to struggle alone. White seized Wilcox's revolver and tried to shoot him. Mrs. Smithson, wife of a Denver engineer, the only woman in the car, sprang upon the seat behind him and caught the convict's arm. The men in the car then came to the officer's assistance and White was again secured. Mrs. Smithson declined a reward, but Marshal Wilcox will send her $500. White is a notorious stage robber.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall Mich.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible'" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

IT IS no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united *nature's forces*, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health; this then we recommend when vitality is on the wane, or when the organism becomes enfeebled.

CHILLS AND FEVER.—Ay person who is conversant with the merits of Dr. I. R. Herrick's Sugar-coated Vegetable Pills, will tell you that no remedy of equal excellence has yet been discovered for this distressing complaint. Test the matter for yourself. They are sold everywhere.

IT WILL DO IT.—Food will lodge in the interstices between the teeth, and it becomes a source of their decay. Sozodont will dislodge such deposits, and prevent the mischief. All parents should provide Sozodont and thus secure the health of their children's teeth.

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. Now to give you satisfactory proof that Green's August Flower will cure you of Dyspepsia and Liver Complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Fullness at the pit of the stomach, Yellow Skin, Coated Tongue, Indigestion, Swimming of the Head, Low Spirits, &c., we ask you to go to your druggist and get a sample bottle of Green's August Flower for 10 cents and try it, or a regular size for 75 cents. Two doses will relieve you. 2d1w-1y

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

LOCAL AND MUNICIPAL.

Week of Prayer.

The programme for the week of prayer having been issued by the Executive Committee of the Evangelical Alliance of the U. S., the Ministerial Association of the Town of Peterborough at their late meeting on Monday, 5th instant, made the following arrangement for the observance thereof in this town.

SUNDAY, Jan. 1.—Subject for discourse, renewed consecration.

MONDAY, Jan. 2.—Bible Christian Church, thanksgiving for the blessings, temporal and spiritual of the past year, and prayer for their continuance. Address by Rev. J. Shaw.

TUESDAY, Jan. 4.—St. Paul's, humilation and confession, an account of individual, social, and national sins. Address by Revds. Mr. Stobo and G. C. Workman.

WEDNESDAY, Jan. 4.—St. Andrew's, prayer for the blessing of God on his church and his word. Address by Rev. W. Jolliffe.

THURSDAY, Jan. 5.—George Street Methodist Church, prayer for the young and all agencies for christian training. Address by Revds. E. F. Torrance and T. Brown.

FRIDAY, Jan. 6.—Baptist Church, Aylmer Street, prayer for the universal prevalence of peace and righteousness. Address by Rev. Mr. Bell.

SATURDAY, Jan. 7.—No meeting arranged for. Subject, prayer for christian missions, the outpouring of the Holy Spirit and the conversion of the world.

Each pastor will preside at the meeting held in his own church. Each meeting to commence at 7.30 o'clock p. m.

Railway Notes.

Messrs. George Stephen and R. B. Angus, of the Canadian Pacific Syndicate, deny the stories connecting the Canada Pacific with the Credit Valley Road. They say that there really are negociations in progress concerning the Credit Valley and Great Western, but the published rumours telegraphed from Toronto are not founded on fact but are mere conjectures.

The Hamilton *Times* says if the Syndicate should get possession of the Northern and Northwestern, and try to keep the Grand Trunk out of this city, Hamilton would be sure to look favourably upon the proposition of the Midland (an ally of the Grand Trunk) to construct a line from the Nipissing track at Toronto through Hamilton and thence to the International bridge.

The new Midland Railway station at Lakefield is almost finished, being ready for the painters, who are to proceed with their work at once. Mr. George Tanner has made a good job of the work and rushed it up in a short time. It will be convenient for the villagers.

The last *Canada Gazette* contains the following:—

Notice is hereby given that an application will be made to the Legislature of Ontario at the next sitting thereof for an Act authorizing the Midland Railway of Canada to build and extend its line from the city of Toronto, or some other point on what is now known as the Toronto and Nippising railway, to the city of Hamilton, and thence to a point on the Niagara river, at or near the International bridge; also for power to amalgamate with, buy, or lease any line of railway which may be crossed or touched by such extension, or to arrange for running power with any and every such company.

Dated this 1st Dec., 1881.

GEO. A. COX.
President Midland Railway of Canada.

Pictures Arrived.

Subscribers to the Royal Association for Promotion of the fine arts in Scotland, can now procure their pictures from Mr. Charles Cameron. The picture of the year is a magnificent steel engraving entitled "Cattle Crossing the Solway." There are quite a number of subscribers in Peterborough.

A Veteran Gone.

We are sorry to hear of the death of the well known pony, Billy, belonging to Mr. Wallis, of Merino. He will be missed on the streets of Peterborough. He was aged 21 years.

POLICE COURT.

ASSAULT NO. 1.

WEDNESDAY, Dec. 7.—John Kerr and James Dunlop were charged by Thomas Lytle with committing an assault on him on the 7th instant.

The men were arrested and brought up by Chief Johnston, and the case was enlarged until Friday next at 10 a.m., both prisoners being liberated on bail.

ASSAULT NO. 2.

James Dunlop and Robert Dunlop were charged by William Huston with committing an assault on him on the 7th inst.

The men were arrested and brought up by Chief Johnston, and the case was enlarged until Friday next at 10 a.m., both being liberated on bail.

ASSAULT NO. 3.

John Huston charged D'Arcy Dunlop with committing an assault upon him on the 7th of December.

The prosecution was not ready to proceed and the prisoner was liberated on bail to appear on Friday next at 10 a.m.

ASSAULT NO. 4.

Robert Dunlop charged Robert Meharry with committing an assault upon him on the 7th instant.

Prisoner was bound over to appear on Friday next at 10 a.m.

TRYING TO RAISE A ROW.

James Wilson, an old gray headed man who should have known better, was charged by P. C. McGhee, with usiug grossly insulting language towards Robert Dunlop, with intent to commit a breach of the peace.

The defendant pleaded not guilty.

P. C. MCGHEE, sworn:—He saw defendant to-day near Morgan's hotel. There had been a row there just before he saw him. Robert Dunlop was standing near the stove. Defendant stepped up to him and striking his hands together, said "you dare not meet me on the bridge to-morrow at 10 o'clock." Defendant also said that he "could kick the stuffing out of Dunlop." They were about a yard apart. Witness then coaxed defendant away. There were a large number of persons around. There was great excitement.

Another witness corroborated the officer's evidence.

The MAGISTRATE pointed out that the defendant might be punished very severely if the charge had been laid under the statute. Defendant was an old and respected resident and he hoped that next time there was a row that defendant would not be the first to step in and try to raise another. Defendant came under the category of prize fighters, the only difference being that while one fought for money and published a challenge through the newspapers, the other fought to disgrace his friends. He would impose a fine of $5, and costs $2, to be paid forthwith.

SETTLED AT LAST.

THURSDAY, Dec. 8.—The case of the "tinker" Watson, charged with assaulting his wife, which was enlarged from yesterday, came up again this morning. The man has spent about two weeks in gaol now, his trial having been postponed from day to day in order to secure the attendance of witnesses against him.

Yesterday he was found guilty and sentenced was reserved until this morning, when the Magistrate imposed a fine of $1 and $6.85 costs, or three months in gaol.

He had not the necessary funds and accompanied P. C. McGhee to the county gaol, where he will spend Christmas and several other days, unless his wife pays the fine, a not at all unlikely thing.

The Exact Amount.

On Tuesday night after the meeting of the Board of Education, two members commenced to dispute as to the amount that the salaries of the teachers had been increased by the recent addtion of the Board. One said that the increase would amount to $200, while another stated his willingness to bet the oysters that it would not amount to $40. The bet was accepted and upon examination of the Secretary's books, the exact amount was found to be $45, so the man that lost the bet walked down the street in company with four others, and although he felt a little sore over, it he called "oysters for five" and paid for them like a little man that he is.

Bank Change.

Mr. W. Maynard, who has been acting manager for several months past, of this branch of the Canadian Bank of Commerce, leaves here this evening to return to London. The customers of the Bank express themselves as having been so well pleased with their business relations with him, that they would gladly have seen him appointed to the permanent charge of the agency. Mr. Maynard will also be greatly missed socially, having made many friends during his stay here.

Rather Serious.

We regret to learn that the acsident to Mr. Joseph Crevier at the bowling alley on Tuesday night, was rather more serious than we at first announced. It appears that he was sparring with "the gloves," when one of his feet slipped, throwing him down on the hard and slippery floor, breaking one of the small bones of his leg and dislocating his ankle. He is now under a doctor's care, and we hope soon to see him about as usual.

A Bad Hole.

We beg to call attention to a very bad hole on Weller street, nearly opposite Mr. Gladman's residence. Serious accidents may occur, if it is not attended to before the snow comes. We hope the Street Inspector will see it remedied without further delay.

Bazaar.

The ladies of the George Street Methodist Church hold a bazaar in the lecture room of the church, on Thursday, the 15th Dec. Tea will be served from 5 to 7 p. m., and at night, oysters.

Military Gymnasium.

The gymnasium at the Drill Shed will be open to-night for the use of members of No. 1 and 2 Companies.

The Weather.

After the rough weather yesterday, the fine weather to-day is a great relief. Last night was one of the coldest of the season, the high wind blowing almost a gale. The sleet which fell during the afternoon was frozen hard, coating the sidewalks with asheet of ice. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Increasing southerly to westerly winds, fair to cloudy weather, with light snow in some localities, higher temperature.

Lecture.

M. W. P. Crombie will deliver the last of his series of lectures in the rooms of the Y. M. C. A. to-night (Thursday), at the hour of 8 o'clock sharp. All young men are cordially invited to be present, and we trust that he shall be greeted with a good meeting. Mr. Crombie intends leaving for Lakefield in a day or two.

Sudden Death.

We regret to learn that Mr. John W. Moore has received a telegram announcing the sudden death of his son, R. S. Moore, M.D., at Mount Vernon, Indiana. Full particulars have not yet been received.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

MEMORANDUM!

Cold or hot a certain amount of clothing is necessary. A perfect fitting garment is in either case most comfortable.

Good Cloths and Trimmings not only make better clothes than cheap goods, but they keep their shape better and give the wearer more satisfaction.

To have your clothes cut IN STYLE, and made up faultlessly might be the chief aim in life. Now the question comes, where can you combine all these points of excellence?

The answer comes promptly, at Dolan & Co's. George Street, where the best lines of goods are always in stock, and the best help procurable employed.

Turn in and see us, and if we can't convince you of the fact that we can dress you up in the *very latest*, we shall miss our guess.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

SULPHOLINE LOTION.—AN EXTERNAL MEANS OF CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. SWUNG INTO ETERNITY.

HAYVERN, THE MAN WHO KILLED HIS FELLOW CONVICT, MEETS HIS DOOM.

Preparing for the End—He Expresses Contrition for his Crime, and asks Forgiveness—A Morbid Crowd—His Antecedents.

Special to the Review Dec. 9.

At four minutes past eight o'clock this morning Hugh Hayvern expiated his crime of murdering William Salter, a fellow convict in St. Vincent de Paul Penitentiary on the 28th of May last, at the hands of the public executioner, and within the precincts of the common gaol here. The prisoner had been constantly attended for some time past by the Rev. Father Lavalle, the chaplain of the prison, but yesterday evening that gentleman was relieved from his incessant labors by the Rev. Father Casseau who sat up with the unfortunate criminal all night, and celebrated the offices of the church, at an early hour this morning, in the condemned cell, where an altar had been erected by the Sisters of Charity, for the benefit of the culprit. Bishop Fabre visited Hayvern for the second time and exhorted the condemned man to look to the Almighty for strength to enable him to pass through the dreadful ordeal, that was before him. Before his Lordship took his departure, the prisoner gave the good Bishop assurances of full preparation for the future state, and his determination to meet his doom without fear. During the night

HE SLEPT BUT LITTLE,

being apparently much disturbed in mind and body. He conversed freely during his waking moments with the guards and others in attendance.

HE ADMITTED HIS GUILT

of the horrible murder for which he was to suffer, and expressed the deepest contrition for committing the dreadful deed and said he did not know what impelled him to the act. He denied having any cause for revenge against his victim, and hoped that poor Salter's soul was in heaven, seeing that he had given him no time to prepare for death. He acknowledged the justice of his sentence and remarked that if any man deserved to be hanged he did. With respect to his alleged aberration of mind he said

HE THOUGHT HE WAS SANE,

but at times he thought he must have been insane. It is pretty hard to die seeing that life is sweet he said, but if it were not for the disgrace entailed upon his family he would as soon be dead as alive. At an early hour a light breakfast was furnished, which he partook of sparingly. Before daylight the officials began to assemble in the gaol. Mr. Deputy Sheriff Sanbern was the chief in the absence of high Sheriff Chaveau, who is at present in Quebec. The Reverend Chaplain Father Lavelle whose ministrations have evidently had a most tranquilizing affect upon the spirit of the murderer, were present with the other reverned gentlemen already mentioned. The last rites of the church were administered and the most affectionate exhortation given to the doomed man, on the brink of the grave to be ready.

A PROCESSION WAS THEN FORMED.

the sheriff in a black gown leading the way. The prisoner was supported by two wardens and he appeared physically weak and

AS PALE AS DEATH.

The scaffold had been erected in an angle outside the prison, but within the outer walls on north east side. It was of rough pine boards and the platform was about 10 feet high. On emerging from the door facing the steps ascending the scaffold.

HAYVERN GAVE AN AFRIGHTED GLANCE

at the spectators who were collected outside on a fence about one hundred feet off. The executioner was directly behind, clothed in a black mask, no part of his features being visible. The Reverend Fathers were also in attendance with soothing words of of comfort up the last. Outside these gentlemen and the officials, the only notable person on the steps was Frechette the Poet Laureate with a sad expression on his countenance. It was expected that Hayvern would say something on the eve of the jump into eternity, but

THOSE PRESENT WERE DISAPPOINTED,

as he only bid adieu to those who had been so kind to him during his confinement, inside the gaol. His arms had been strapped to his side, so the only further preparation was to tighten the straps upon his legs. Everything being adjusted, but without a cap or covering of any kind being thrown over his face, the lever was touched with his foot by the executioner, the bolt sprung out, and with a sickening thud

THE BODY WAS DANGLING DOWN BELOW.

With the exception of stretching out his legs to their fullest length, there were no convulsive movements of the body, beyond some very slight nervous twitchings of the muscles of the neck and shoulders. The physician of the gaol Dr. Robillard,

PRONOUNCED HIM DEAD IN ELEVEN MIMUTES

after the bolt was drawn.

Hayvern was 28 years of age and was brought up to no business. His parents are Irish, but he was born in Montreal. His mother stated in the witness box that he had never earned a dollar by honest labor. He was convicted twenty-three times for all the offences in the Criminal Calendar in our local courts. During the brief intervals he was out of prison, his mother stated in court that

HE WAS NEVER HAPPY.

At the time of the murder for which he has paid the last penalty of the Criminal law, he was serving his time for highway robbory with violence upon a man who had previously treated him generously. One of his most frequent offences was a brutal assault upon the police. Physically he was not a powerful man, he stood about 5 feet 9 inches, and was rather slimly built. He had black hair and eyes of the same hue. His forehead was low, but his countenance was by no means forbidding. He was clean shaved this morning and had no hair on his face. His family reside here and it was said that one of his brothers was present and witnessed the execution. There were about

ONE HUNDRED AND FIFTY PERSONS

admitted within the gaol inclosure, the large majority having no business present but to gratify an odious and morbid curosity.

Singular to say there were a number of fair young ladies admitted to the gaol, who looked down upon the scaffold with wondering eyes from the windows above. They had at least the good taste to withdraw while the execution was taking place. After the body was suspended about half an hour, it was cut down and an inquest held by Corner Jones. A formal verdict was returned by the Jury after hearing Dr. Robillard's testimony.

Outside the jail walls a large crowd had collected, but they could see nothing of the proceedings within.

ANOTHER HOLOCAUST.

VIENNA, Dec. 8.—Ring Theatre, formerly the Comic Opera House, took fire to-night just before the beginning of the opera. The fire was caused by the fall of a lamp on the stage. The house was tolerably full and the loss of life is very great. Up to 9.30 a.m., seventy bodies had been recovered. Many persons were injured. Sixty were saved by ladders, and by jumping into cloths held below. The greatest efforts were made to save life. The scene was terrible, the flames shooting up through the roof and eventually gutting the entire building.

11 p.m.—A hundred and forty-five bodies have been brought out of the theatre, but the dead therein are still numerous, many bodies having been consumed in the galleries and other elevated parts of the building. The chief cause of the catastrophy was that in the confusion the iron partition separating the stage from the auditorium was not lowered. Thousands of people assembled in the neighboring streets, where they could hear the cries of agony of the people at the windows of the theatre praying to be saved. The rapidity of the flames prevented the people from taking advantage of the ordinary exits. Only a small proportion of the audience saved themselves, which they did by leaping from the windows, three storeys high, into cloths held below.

MIDNIGHT.—The taking out of the bodies from the theatre continues. It is estimated that 300 persons perished. Some of the bodies are fearfully disfigured. Several persons were injured springing from the windows. Among the missing are Fife, Court Musical Director, and Hellmersperger. Most of the bodies identified up to the present time, are those of tradesmen and minor officials. On the spreading of the news of the disaster the performances at the other theatres were stopped.

A TERRIBLE NIGHT.

VIENNA, Dec. 9.—The loss of life by a theatre fire is estimated as high as four hundred. The latest reports say that crowds in the galleries rushed towards the doors and crushing others preventing the most of the number from escaping. The smoke and flames completed the work of death. Five minutes after the first alarm was given the dead in the uppermost gallery were laying in great masses. It is believed that no Americans are among the dead.

FAVOURABLY RECEIVED.

MADRID, Dec. 9.—Hamlin has received papers which comment favourably on the President's message.

AMERICAN.

WHAT GUITEAU'S BROTHER SAYS.

WASHINGTON, Dec. 9. — John W. Guiteau said yesterday, "I don't want to be put in a position of doing anything which seems to be against my brother's interest in this case. I believe he is insane, but my father was not insane. My aunt Julia was never insane. I believe my brother should have every chance which a man on trial can have. I propose to stand by him with all my power as long as he has any life to defend. but I want the truth and none other. I don't want to see injustice done to the dead and to the living. The fact is Scoville is wrapped up in my judgment in personal enmity towards my father. He believes everything he hears. He is doing all he can to prove that he was insane, but he is mistaken as to the facts. He would not try to put anything int the case that he does not believe.

THEY HAVE TO PAY.

NEW YORK, Dec, 9.—Mrs. Armstrong yesterday obtained a verdict for $10,000, against an Insurance Company here on the policy on the life of her husband.

NOT A WARLIKE MOVE.

WASHINGTON, Dec, 9.—It is stated on the best authority that there is no motive in sending the United States steamer *Despatch* to Salmon Bay. Their mission is simply to thoroughly survey the Bay.

AN IMPORTANT ISSUE.

WASHINGTON, Dec, 9.—Many politicians at Washington believe that the tariff issue will provoke a great deal of important discussion this winter.

SECRETARY OF STATE.

WASHINGTON, Dec. 9.—The nomination of Frelinghuysen to be Secretary of State was made out at the State Department yesterday and sent to the President.

THREATENING HIS LIFE.

KANSAS CITY, Dec, 9.—It is said that Governor Crittendon has received a number of threatening letters from friends of the convicted and suspected train robbers. It is reported that a conspiracy he been formed to kidnap his eldest daughter.

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. Now to give you satisfactory proof that Green's August Flower will cure you of Dyspepsia and Liver Complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, Fullness at the pit of the stomach, Yellow Skin, Coated Tongue, Indigestion. Swimming of the Head, Low Spirits, &c., we ask you to go to your druggist and get a sample bottle of Green's August Flower for 10 cents and try it, or a regular size for 75 cents. Two doses will relieve you. 2d1w-1y

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

AHA!—Dentists who have tried "Teaberry," pronounce it the finest thing on the face of this earth for the teeth and breath. 5 cent samples.

Daily Evening Review

FRIDAY, DECEMBER 9, 1881.

DOES THE "GLOBE" DESIRE DEATH?

"All who wish to see the reign of incompetence, *extravagance* and corruption brought to an end should avail themselves of every opportunity to express their disapproval of the present *regime*, and this the electors of West Northumberland now have a chance to do." (*Globe* of Dec. 3rd.)

"There was an important fact to be borne in mind, that this country was not stationary. * * We were a young country taking up new territories, growing in population, and, if we were to become stationary, it would simply mean death. We were, however, not stationary and he hoped the expenditure within reasonable limits would increase." (Mr. Bertram, on the Budget, March 5, 1878.)

With these extracts from two such very high authorities before them, we desire to ask the attention of the reader to the following facts, viz:—

1st. The gross ordinary expenditure for the year ending the 30th June, 1878, (the last full year under Mr. Mackenzie) was $6,542,510; for the year ending the 30th June, 1880, (the last for which we have the official returns) it was $6,963,852, an increase in two years of $421,342, or at the rate of $215,671 per annum.

2nd. In four of the items included under the heading of ordinary expenditure we find the following increase in 1880 as compared with 1878, viz:—

Militia and Defence	$ 71,882 35
Public Works	53,382 17
Indian Grants	273,009 06
Dominion Lands	60,174 46
Total	$458,448 04

Or $37,106 more than the total increase, thereby proving that the gross expenditure on civil government, administration of justice, police, penitentiaries, legislation, &c., &c., &c., has actually decreased.

3rd. The gross expenditure in 1878 under the heading of "charges on revenue" was $5,301,124 against $5,227,113 in 1880, or a *decrease* of $74,011.

These are the facts as obtained from the public accounts and these are the figures to which the *Globe* applies the word "extravagance," and which in its opinion, in a measure at least, justify its charge of "incompetence" and "corruption" against the present Dominion Government. Had the *Globe* omitted the word "extravagance," we might have come to the conclusion that the present Government were, in its opinion, "incompetent" because the controlable expenditure of the Dominion, apart from that on large public works, was becoming camparitively stationary under the present *regime*—a state of affairs which, when defending Mr. Mackenzie's expenditures, Mr. Bertram declared simply meant death. Verily Sir John has a hard road to travel, because if he does not increase the expenditure it means death, and if he increases it ever so little it is such frightful "extravagance" that the electors will fail in their duty if they do not avail themselves of every opportunity to condemn his incompetence, extravagance and corruption. What a wonderful thing politics—especially Grit politics—are.

REVIEWS.

The Last Forty Years.—Mr. J. C. Dent, has set himself no easy task, in aiming at being the Justin McCarthy of Canada, but the numbers now before us of his new work "The Last Forty Years, or Canada since the Union of 1841" leads us to believe that he has not over-rated his powers. It is no easy thing to write current history and review the actions of statesmen still living, in a vivid yet impartial manner, but Mr. Dent seems to have succeeded in doing so. The epoch he has chosen is a most stirring one, including in fact the whole political growth of the Dominion, so it cannot fail to prove interesting, when narrated in Mr. Dent's graphic style. Such a work too will be most useful, for the history of our own times is too often neglected in all countries in favour of earlier centuries, and there are many enthusiastic Canadian politicians who have very vague ideas of the origin and growth of our institutions "broadening slowly down from precedent to precedent," as the poet laureate writes of our mother country. Mr. Dent's work will therefore supply an acknowledged want. We hope that he will take care to supply a good and full index, which adds immensely to the value of a book like this, as, what it must become, a useful work of reference. The appearance of the work, typography, illustrations and paper, do credit to the publisher, Mr. George Virtue of Toronto.

FROM ALL OVER.

A few days ago an infant child of Mr. J. Philps, of Pelham township, felll on a knitting needle, and the point passing through the child's eye into its brain produced paralysis of one side.

An old soldier named Driscoll, who died recently in Clarksburg, had drawn his pension from the British Government for fifty-six years the amount being nearly $6,000. He was 95 years of age.

A Reliable Fact.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

Information has been received by the Italian consul at Montreal of the arrest at Turin of five men who were engaged there in circulating the forty thousand dollars' worth of notes stolen from the Consolidated Bank in Montreal in 1876.

The latest piece of Yankee ingenuity is a scheme for supplying the cities of the Eastern, Middle, Southern, and some of the Western States with gas manufactured in the Pennsylvania coal mines, and conducted in pipes to the place of consumption.

Hagyard's Yellow Oil is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma.

A Hint.—Ask your Druggist, Grocer or Shopkeeper, for a bottle of Pain-Killer. If he passes it down without ceremony ask him while extracting the quarter dollar from your wallet, if this is the genuine made by Perry Davis & Son.

An unknown and fatal disease which has hitherto baffled local medical skill, has made its appearance in two townships in the county of Richmond, Que. The complaint, which is said to be extremely infectious, appears to set in with syncope, followed by diphtheritic symptoms and ultimately by death from asphyxia.

"I have used St. Jacobs Oil in my family—my wife using it for pains in her back, my children for stiffness of the neck, and myself for my feet, which were frozen—and I must admit that it is the best remedy for bodily ailments I have ever used," writes Mr. Wm. Roberts, Ave. L and 32nd st. Galveston, Texas.

A Mrs. Robinson, of St. Thomas, visited every drug store in the place on Friday and endeavoured to purchase poison, with the object of taking her life. She divulged her intention to the first clerk she patronized in response to his pressing inquiry, and of course he refused to sell her the drug. Then he followed her to the other dispensaries and frustrated her efforts to get what she wanted.

It is no longer an idle dream or boasting to affirm that Fellows' Hypophosphites, wherein are united *nature's forces*, will strengthen man and make his life not only endurable, but sparkling with rude and joyous health; this then we recommend when vitality is on the wane, or when the organism becomes enfeebled.

A great many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

Millions Given Away.—Millions of bottles of Dr. King's New Discovery for Consumption, Coughs, and Colds, have been given away as trial bottles of the large size. This enormous outlay would be disastrous to the proprietors, were it not for the rare merits possessed by this wonderful medicine. Call at Taylor & Macdonald's Drug Store, and get a trial bottle, and try for yourself. It never fails to cure.—5

When Doctors Disagree, Who Shall Decide?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

The question of the responsibility of bank directors for loss entailed by neglect of the shareholders' interests will shortly come up in the Montreal courts, a shareholder of the Ville Marie Bank having entered an action against the former directors of that institution who held office at the time of its suspension. The charges in the declaration are for gross neglect, speculation and other wrong-doing, which, it is alleged, led to the failure, and loss of half the capital of the bank.

Feeble Ladies.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

Cut this Out.

Vennor sends us the following predictions for the remainder of this month, prefacing them with the statement that they were prepared after reflection and are not mere guesswork:—

Dec. 7 to 10.—A cold and wintry change generally, with very cold weather west and northwest, terminating in the heaviest snowfall so far.

Dec. 10 or 11.—A general snowfall and drift.

Dec. 12, 13, and 14—Milder weather. An abrupt rise of temperature: rains in western and southern sections, and storms on "lakes."

Dec. 15 and 16—Colder and stormy; extending well to southward.

Dec. 17—Snowstorms, Chicago and westward.

Dec. 18—Cold and blustering, generally.

Dec. 19—Gales on lakes and Gulf of St. Lawrence.

Dec. 20—Cold weather and snow in southern United States.

Dec. 21 and 22—Generally mild weather.

Dec. 23 and 24—Snow, sleet, and rains, generally to New York and Washington. The rains at southern stations, and snow west.

Dec. 25 (Christmas)—Probably stormy, generally.

Dec. 26 and 27—Snowstorms over northern United States and in Great Britain.

Dec. 28, 29, 30, and 31—A "cold wave" all over and well to westward, with heavy snowfalls on closing days of year or New Year's.

As my almanac was chiefly prepared in September last, this date was too early to permit of my giving such details as the foregoing with safety. I shall be glad if the readers of the Review will interest themselves sufficiently to cut this piece of weather out and test it in a generous spirit.

SCOTS IN NUMBER ARE GETTING SMA'.

The following poem by William Telford, bard of the St. Andrew's Society, was read at the annual dinner on the 30th November.

It grieves me sair, upon St. Andrew's nicht,
To come in here an' look upon sic a sight.
You ask ma reasons—faith ye needna spier,
It's just at seein' sic few Scotchmen here.
I canna blame Canadian-born Scots—
They were na brought up in auld Scotia's cots;
I dinna wonder at there love bein' sma'—
Perhaps auld Scotia their een never saw.
Behold a man that boasts of bein' a Scot—
He drew his first breath in a Scottish cot—
Faither, fore-faithers, were a' Scotch thegither—
He drew the breast of a rale true Scotch mither—
Doon fra her knee he slipped the youthfu' tether—
Wi' his bare feet aft played amang the heather,
An' through the broom that waved upon the knowes.
Or pu'ed the cowslips in the grass-a howes;
In joy an' pleasure spent his youthfu' days
Speelin' the steep scars—jumpin' fra the braes—
Waden the burn, the minna or troot to seize
His hame-made breeks roued up aboon his knees;
His childhood years passed wi' light, joyous mirth—
Auld Scotia seemed the dearest place on earth;
Aft in the gloamin', under the green shade,
He poured his love out to some Scottish maid.

Had he but stayed in Scotia's glen or hill
He micht hae been a rale guid Scotchman still.
His love for country like auld Scotia's mist,
Vanished that day when he tied up his kist.
That is but ane—guid faith there's hundreds mair
That's ill-deservin o' the name they bear.
Love for their birthland faded in their mind—
When they left hame they left that love behind.
If in their heart love left one lingerin' ray,
Crossin the saut sea washed it clean away—
The onla relic of that dear auld hame
That they possess—is onla but a name.

Charge them wi' that, their face wi' rage gets blue,
They boast they are as guid a Scot as you,
Their words an' actions canna baith be richt,
Or they wad join their brither Scots this nicht.
Some ca'es the Scotch a selfish, clanish race:
That's na true—I'll prove it to your face:
But few are here, on this the Scotchman's nicht—
If Scots be clanish, they keep oot o' sight.
Let love of country in your bosom swell,
Where'er you hail from or where'er you dwell,
Man void o' that, I care not wha he be,
If heart he has, it's sma'er than a pea.

Here is a few wha's love is mair sincere,
Still thinks o' hame, an' loves auld Scotia dear;
While lookin' roond me, I cou'd beat a groat
Here sits some chips o' the true sterlin' Scot.
This nicht stirs up scenes lang past—not forgot;
Their fancy wafts them to the auld thatched cot—
There they were born—the place where they first grat,
Wi' sisters, brithers, roond the ingle sat;
Their Scotch up-bringin' fresh this nicht comes back;
How they did jump when'er their father spake—
How their kind mither mended a' their claes—
Aft kissed an' clapped them they brake their taes.
Is there a Scot whose heart remains unmoved,
That left in Scotia all the friends he loved?
If they still live, them on your memory keep—
If dead—love Scotia where their ashes sleep.

St. Andrew's nicht, true as the magnet prove,
To bind Scots closer in the bonds of love;
Here they can spend a social hour or twa,
An' ta'k o' hame an' freends that's far awa'.

Your guid society serves anither end;
To needa Scots you lend a helpin' hand;
Tho' it be sma' its better that than nane—
A crust o' bread is sweeter than a stane.

True brither Scots, all praise I give to you;
Though but a handful, stand like Scotchmen true;
Tho' some may scoff, let them not you divide—
Hold your Society and your country's pride.

May your Society prosper and remain
A Scotch momento—when you're dead and gane.
Be loyal Canadians; but, whate'er befa'.
Still love old Scotia while a breath you draw.

For the Peterborough Review.

NEDDY KELLY.

A REMINISCENCE OF MONAGHAN.

"The sentence of the court upon you is that you find two sureties in ten pounds each, and yourself in twenty pounds to keep the peace for one year."

The late Dacre Hamilton, by his countenance, person, position and magisterial ability, commanded the respect and admiration of the inhabitants of the town of Monaghan where he was chief magistrate and a terror to evil doers for many years without police, street lamps, railroad, telegraph, or newspaper in the town. The only assistants he had for the prevention of crime, and arrest of offenders were Paddy Brennan, Bryan Kelly, a few old night watchmen, and occasionally Josh Turtle and Joe Leslie.

The above sentence was pronounced by Mr. Hamilton at Monaghan petty sessions on Neddy Kelly, convicted of threatening grievous bodily harm to Billy Good, an inoffensive carpenter who lived in Dublin street, with difficulty Neddy's friends found the sureties, the clerk prepared the bond which Neddy read down to "All His Majesty's Subjects," then straightening up he said, in an indignant tone.

"The devil purshue the bit of it I'll sign."

"Then" said the magistrate," you shall go to jail and remain there until you do sign it."

Remonstrating on his absurd conduct Neddy's friends induced him to sign the bond, he muttering as he did so, "to all his Majesty's subjects," and then, with an indignant scowl, he said, "there now I've signed it, but the Lord help the first furriner I meet." Neddy was then about 30, medium size, dark complexion, pockmarked, had a hook nose, a blind eye and a squint in the other, except when under the influence of whiskey he was obliging, cheerful, witty and shrewd. active and handy in yards, gardens and stables; his failing was a periodical craving for whiskey, which, when indulged in, was like throwing turpentine into a furnace, driving his vital machine with dangerous rapidity, causing obstructions, collisions, smash ups, lost time by repairs, sin and suffering, his notions of right and wrong to become so bewildered that he imagined he was upholding his manly dignity by knocking the man down who gainsaid him, and when his means were exhausted to get so confused about *meum et teum* as to get possessed of personal property to which, on investigation, he could not shew a clear title. A big fat turkey was missing, suspicion rested on Neddy, a search warrant was given to Sergeant McHugh, who searched Neddy's domicile and was about to retire without effect, when a six year old girl gave proof of innate depravity by replying to the sergeant thus: "The turkey is not under the bed, Sir," whereupon he stooped down and with his bayonet brought the turkey to light, but there being no positive proof, Neddy got the benefit of the doubt.

All his questionable acts, while driven by whiskey, Neddy repudiated and deplored on sober reflection. Many a hard struggle he had by self denial, in resisting strong temptation to drink whiskey, the luxury of rich and poor offered him as friendly treats. To his credit be it told, he gained such a mastery over his craving appetite that he avoided whiskey for years; gave satisfaction to his employers, and won their sympathies and esteem. While employed at the Westenra Arms hotel, his wit, courteous and obliging demeanour attracted the attention of a young gentleman—a frequent visitor at the inn, who took him to his country residence, and made him his general servant, where he became a favorite:—

Of Neddy's progenitors, early life, or where he was educated I have not been informed beyond the fact that his father was a cross grained blacksmith who shod asses near Scottstown, where he erected a family residence without the direction, plans or specifications of an architect. A friend met him one day near the new building and asked him of the details, extras, cost, &c., to which old Dan replied, "It's a nate house, sir, and will shute my family well, it jist cost me four pown forby the scraas."

About one mile and a half from Monaghan, there is a little gate house or porter's lodge. On that road nobody ever saw a mail nor stage coach, nor a blockade of vehicles, there could not be a greater contrast than the traffic and driving on it, and that on the central thoroughfares of London and Paris. After a visit to those places and to various parts of the continent last summer, we had the pleasure on a beautiful day in August last of driving through the gates, past the said little lodge up the broad winding avenue to a wide carriage turning place and lawn, skirted by forest trees giving shade and shelter to a modern family mansion, on a rising ground not far from the banks of the Blackwater. The surrounding scenery is varied, pleasing and picturesque by groves, clipped hedges, green hills and dales, walks, gardens and arbors, the perfume of roses, honey suckle and sweet briar, these with the notes of the blackbird, thrush, lark, linnet and goldfinch, &c., make the place a delightfully secluded opot for study, exercise and preparation for

The "land" where everlasting spring abides,
And never withering flowers.

The name of the place is Raconnell, the owner and occupier of the demesne and house for many years was Colonel Lucas, who had a numerous family. Two sons were John and Robert. John, genial, jorial, the true type of a young gentleman joined the 29th regiment when I was a boy. In a few years he obtained his commission as captain. While in England Major Denver, a portly gentleman, a few years older than John, accepted his invitation to Raconnell for a few weeks; the Major was accompanied by his servant, a ruddy, humorous active Englishman about 40, and very intelligent for one of his class. Neddy Kelly was rejoiced to welcome home his best friend, Capt. Lucas, who brought him from the Westenra Arms to Raconnell, a few years previously.

One evening, after a few days grousing in Knockballyronia, the Major and the Captain sat in the dining room; a decanter of old malt, apples and crackers were on the table. The conversation turned from the army and other topics to the respective qualities of their two men; the Major told several incidents and anecdotes in reference to the tact, presence of mind, drollery and intelligence of his man, Bob Selley, who had been his faithful servant seven years. "After all you have told" said the Captain "your man could not hold a candle to Neddy Kelly for repartee, wit, waggery, song, whistling and dancing. Finally they agreed to test the pair, sent for them, bade them be seated, and gave each a hooker of old Dundalk malt. The Major, addressing them, said "the Captain and I have been conversing about your merits as to tact, wit, song, story, &c., and as we could not come to an amicable settlement of the subject, we concluded to send for you to join us with as much freedom and ease as you you would with the Wilsons of Newgrove and the Tate." After some conversation, the Major asked Bob for something impromptu, to which Bob responded in a fine baritone voice:—

In Raconnell's demeone, the morning was bright,
The Major and Captain awoke with delight,
They dress'd, had breakfast, and grous'd all day,
In the evening they sat with spirits light and gay,
They sent for Bob Selley and his friend Neddy Kelly,
And here, hand in hand,
Before you we stand
Awaiting your command
Our talents to display. (Applause.)

"Now Neddy," said the Captain "A faint heart never won a fair lady."

Ned in *allegro*:—

"To Monaghan town the other day,
Dan came from Dublin, all the way
To make a speech, I heard them say
In favor of Rippale.
On the balcony of the hotel,
Dan spoke two hours and did it well,
While some did cheer and fight and yell,
And some were put in jail.
He who commits a crime said Dan
Strengthens our enemies all he can,
Disgraces every Irishman,
And hinders the Rippale. (Cheers.)

"Come Bob think of merrie England," said the Major.

Bob *animato*:—

There's a land that bears a world known name
Though 'tis but a little spot,
'Tis the first on the blazing scroll of fame,
And who shall aver it is not,
Of the deathless ones who shine and live
In arms, in arts, and song,
The brightest the whole wide world can give,
To that little land belong,
'Tis the star of the earth, deny it who can
The Island home of an Englishman. (Cheers.)

"Now Ned remember Ould Ireland," said the Captain.

Neddy in *andante*:—

"O Erin my country, I love thee most dearly,
No music to me like thy murmuring rill,
The Shamrock to me is the fairest of flowers,
And none is so sweet as the daisy clad hill,
O where is the nation can rival old Erin,
O where is the kingdom such heroes can boast,
In battle they're fierce as the lion and tiger,
And bold as the eagle that flies round the coast."
(Applause.)

"Well done men," said the Major, "now you will please without further notice, give us a dumb dialogue, each must draw on his imagination by the gestures of the other." After a few preliminaries the two men stood about two yards apart gazing earnestly at each others, countenance, while the Major and the Captain looked on with intense interest. On a signal from the Major, Bob commenced by slowly raising his right arm, and with solemn visage looked up and pointed his finger toward the ceiling.

Neddy then raised his right arm and pointed his two fingers upwards, they then came to attention for a few seconds, when Bob slowly raised his right arm and looking as solemn as a chief justice, pointed his three fingers upwards, Neddy shut his fist, raised his arm, stamped his foot, and with angry features made a lounge his fist in close proximity to the nose of Bob who winced and drew back a little. Bob took an apple off a plate and ate it, Neddy took a cracker and ate it with avidity, staring at Bob as he would at a determined enemy. Bob then faced the Major and the Captain and said "Gentlemen I give it up," whereupon the Major arose, conducted Neddy out of hearing, took his seat and said, "Now Bob give us an interpretation of the dialogue." Bob took his position and looking as sedate as a bishop, said "I never met a man of such discernment and so quick of apprehension as Neddy Kelly. I raised my arm and pointed my one finger to show that there is one great Almighty first cause, one God and Father of us all, without beginning and without end. He put up his two fingers to show that there is a second person, a Son, who was with the Father before the world was, the representative of humanity, who has by his atonement restored to man the image of God, lost by Adam's fall, who ever lives to make intercession for sinners, and is sublimely set forth in the Te Deum.

I put up my three fingers to show that there is a third person, the promise of the Son, who convinces the world of sin, righteousness and judgment, restrains from vice and leads to virtue, gives an earnest of an eternal inheritance spoken of in Paul and in the 8th of Romans. He shut his fist and in a stern solemn attitude, showed that these three are one, united, ever to be adored Trinity, described in the Creed of Athanasius.

I ate an apple to show that in consequence of eating the forbidden fruit, death and all our woe came intothe world, and how dreadful sin is, when one act of disobedience caused so much sin and suffering throughout all generations for six thousand years.

He ate a biscuit to shew that in consequence of eating the forbidden fruit the vast majority of men must earn their bread in the sweat of their brow. Now gentlemen, you will understand that it would be no use trying to go any further with such a gifted genius as Neddy Kelly."

The Major then conducted Bob out and brought in Neddy, who, with a vacant smile on his droll visage, stood the personification of a man who neither lost nor won nor held his own, enough to excite the risibilities of two gloomy ascetics, let alone two jovial gentlemen.

"Now Neddy," said the Captain, "please give us your interpretation of the dialogue."

Neddy, rather excited, said, "without the fear of God before his eyes," the ill-bred, impudent varlet, ungrateful for the sight of his two eyes, put up his one finger to show that I had only one eye.

I put up two fingers to show that he had two eyes, that it ill became him to boast of having two to one the advantage of me in a visionary way.

He put up his three fingers to show that my one eye and his two makes three. This was enough to provoke a saint; the divil will get a tight grip of him yet if he doesn't take care. I soon gave him a hint that his tricks wouldn't do here by bringing my fist close to his beak, to remind him that although he can crow over me for being deficient of an eye, I have the ability to knock his two eyes into one.

He ate an apple the mane hound, he did that to remind me that I stole apples. I told him the other day of a youthful trick; the pantry window was left open to let in the air; it had round iron bars on the frame and looked into the yard, where I worked when a boy. Looking in I saw a big basket full of beautiful apples on a settle within a few feet of the window; they were enough to make the teeth of any gossoon water. After a little study I got my fishing rod, took off the butt, bored a hole through the end, put a tenpenny nail through it, gently guided it through the bars, dropped the nail into an apple and drew it out. In this way I hooked a few dozen. It was more of a boyish trick than a theft. The divil an apple I stole since, nor a haporth o' harm ever I did that I did not mend, if in my power. I defy any one to say I ever betrayed the trust confided in me."

"I can vouch for your strict honesty," said the captain."

"Long life to yer honor. May you live to be a general, overcome in every battle, and fight your way into paradise," replied Neddy.

"I ate a cracker," he continued, to show that honest earned bread gave me strength to leather the sowl case of Selly and any rascal who would take his part."

Roars from the Major and the Captain who, it is needless to say, set Neddy all right in reference to Bob Selley.

CHILLS AND FEVER.—Ay person who is conversant with the merits of Dr. I. R. Herrick's Sugar-coated Vegetable Pills, will tell you that no remedy of equal excellence has yet been discovered for this distressing complaint. Test the matter for yourself. They are sold everywhere.

IT WILL DO IT.—Food will lodge in the interstices between the teeth, and it becomes a source of their decay. Sozodont will dislodge such deposits, and prevent the mischief. All parents should provide Sozodont and thus secure the health of their children's teeth.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

A TONIC WITHOUT ALCOHOL.—Dyspeptics and those suffering from chronic diseases should read the following from Rev. John Gregory, pastor of the Wesleyan Methodist Church at Pittston, Pa.:—My Dear Sir,—Having at various times personally, and in my own and other families, tested the great value of the medicine called Peruvian Syrup or Protected Solution of Protoxide of Iron, I most cheerfully recommend it, especially to those who are suffering from dyspeptic and nervous disorders. As a reliable and powerful alterative, it is, I think, unsurpassed; and as a tonic, free from all the objectionable features of alcoholic remedies, it is a most efficient auxiliary to the temperance cause. One of the greatest hindrances to the temperance reform at present is, as I think, the medical use of alcoholic stimulants. Whatever may be argued to their necessity in certain cases, we have in the Peruvian Syrup, a safe and efficient substitute for those dangerous remedies. This testimony is given unsolicited, with the hope that some who are not yet acquainted with the valuable properties of the medicine may be induced to give it a trial. Sold by all druggists.

LOCAL AND MUNICIPAL.

Railway Notes.

The *Globe* says that an important meeting of the Board of Directors of the Victoria Railway was held on Thursday at the Credit Valley Railway offices in Toronto, and such changes made in the constitution of the Board as will transfer the control of the road to the Midland Railway Company, thus facilitating the completion of the scheme of railroad amalgamation known as the Midland Railroad Consolidation, the details of which have already been fully described. The elections of new officials resulted as follows:—President, John Proctor, Hamilton *vice* C. J. Campbell, of Toronto, resigned. Directors—Robert Jaffray, of Toronto, *vice* George Laidlaw; D. McInnes, of Hamilton, *vice* Col. W. Arthurs, of Toronto; Charles Cameron, of Hamilton, *vice* J. L. Morrison.

An Omission.

In the *Mail* of Thursday appears a short paragraph, giving the list of games won by the Millbrook Lacrosse Club during the last season. Curious to state, whoever sent the paragraph, forgot to mention the fact that the first twelve of Millbrook was badly beaten by the second twelve of Peterborough. 'Twas ever thus.

POLICE COURT.

ASSAULT NO. 1

FRIDAY, Dec. 9.—The court room was crowded this morning to hear the trials arising out of the "big fight" on Wednesday afternoon. About every other man in court had a black eye, or a bruised face, showing that a large number of persons had been engaged in the *melee*.

The first case called was that of Thomas Lytle against John Kerr and James Dunlop, charged with assaulting him on Tuesday last.

Mr. J. Burnham, M.P., appeared for the prosecution, and Mr. E. B. Edwards for the defendants.

Mr. Edwards asked for an enlargement as he had been unable to obtain a material witness.

Mr. Burnham said the prosecution was ready to proceed at once and did not want to be brought back here again unless it was necessary.

The MAGISTRATE opposed Mr. Edward's application, and refused to enlarge the case unless good and sufficient grounds for so doing were shown.

Mr. Edwards filed an affidavit showing that an important witness for the defence was not present. He asked for a week's adjournment.

The MAGISTRATE with the consent of the prosecutor enlarged all the cases for one week, bail being accepted as before.

The Licensed Victuallers.

According to previous announcement a meeting of those interested in the hotel and liquor trade, in the town of Peterborough was held at Hill's Old Music Hall on Tuesday afternoon. The chair was occupied by Mr. Wm. Croft, of the Croft House, and Mr. J. E. McIntyre, of the Oriental, acted as secretary. After the transaction of some minor business, Mr. A. G. Hodge, of the St. James' Hosel, Toronto, Secretary *pro tem* of the Ontario Trade Benevolent Association, addressed the meeting at considerable length, clearly explaining the aims and objects of the society he represented. He said that a charter had been obtained and pointed out the necessity of the hotel keepers being organized throughout the country. Practically now they had not any and were not prepared to fight the Scott Act or anything else that might come up. The society is not by any means an aggressive one but purely a defensive one. He pointed out the necessity of suppressing the unlicensed groggeries that were a curse to every town, and the resort of the lowest characters in any community. At the conclusion of his able address a vote of thanks was unanimously carried. It was decided to form a local association and a meeting will be held at the "Oriental" on Monday evening next to complete the organization and appoint delegates to the General Convention to be held at Toronto on Wednesday next.

Personal.

Mr. William Mackey, of Ottawa, accompanied by his son and another gentleman paid a visit to Peterboro' yesterday, for the purpose of ispecting Messrs. Irwin & Boyd's mill, and gathering information about saw mill machinery, as Mr. Mackey is about erecting a new mill on the Ottawa. In the course of the day Mr. Mackey also visited the shops of Mr. William Hamilton, and was so well pleased with what he saw there and we have no doubt but that the visit will lead to business. We may add that this was Mr. Mackey's first visit to Peterborough and that he was induced to make it solely by what he had seen in the *Canada Lumberman* with reference to Messrs. Irwin & Boyd's mill and the manufactures of Mr. Hamilton.

Poultry Show.

At the regular monthly meeting of the Canadian Poultry Association, held at Toronto on Thursday, a letter was read from Mr. John McClelland, of Peterborough, in which it was stated that the Peterborough Poultry Association had intended to hold an exhibition, but had abandoned the idea in order that a grand rally might be made at Toronto. The writer recommended that the names of exhibitors should not appear on the coops until after the decisions of the judges had been announced.

A Successful Sale.

The sale of horses and stock at the Stock Repository of Messrs. Stapleton and Walsh on Wednesday, was one of the most successful ever held in this part of the country. A large number of animals were sold and all realized good prices. Farmers who have stock to sell can fully rely on this firm for fair dealing. The date of the next sale will be announced through our columns at an early date. Farmers and others should pay attention and watch for the announcement.

Open Air Concert.

We are requested to state that the Fire Brigade Band will play on George Street (weather permitting) on Saturday evening. We will publish programme to-morrow.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

NEVER GIVE UP.—If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any other disease of a billious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at 50 cents a bottle, by Taylor & Macdonald.—5

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal*.

Midland and Grand Junction Railways.

The traffic returns of the above railways for the week ending Nov. 30, 1881, were as follows:

MIDLAND RAILWAY.—Passengers and Mails, $3081.10; Freight, $3578.23; Total, $6659.33, as compared with $5074.80 for the corresponding week of 1880, being an increase of $1584.53 and the aggregate traffic to date is $376,726.04, being an increase of $58,544.20 over 1880.

GRAND JUNCTION RAILWAY.—Passengers and Mails, $687.20; Freight, 1,755.88; Total, $2,443.08, as compared with $1,644.13 for the corresponding week of 1880, being an increase, of $798.95; and the aggregate traffic from 1st June to date is $62,319.15, being an increase of $34,024.74 over 1880.

The Weather.

The weather is now alternately cold and warm by turns. Snow fell this morning for a time, but not to any depth. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Fresh to brisk, westerly to north-westerly winds. Fair, colder weather.

Death of the Bishop of Algoma.

Right Reverend F. D. Fauquier, D. C. L. died very suddenly at the residence of Mr. Frank Arnoldi, John street Toronto on Wednesday afternoon. His lordship was in the act of putting on his hat and coat in the hall-way when the hand of death fell upon him. Heart disease was the cause. Mrs. Fauquier died three weeks ago in this city after many years of illness.

The deceased bishop was born in England in 1817. He prepared for holy orders under the late Bishop Bethune, having been in the service of the Anglican church since 1845. Far 28 years he had charge of a parish in East Zorra, in the diocese of Huron. In 1875 Dr. Fauquier was elected to fill the episcopal office of the then new diocese of Algoma, where he has labored ever since with considerable success. His demise will be deeply deplored.

MEMORANDUM!

Cold or hot a certain amount of clothing is necessary. A perfect fitting garment is in either case most comfortable.

Good Cloths and Trimmings not only make better clothes than cheap goods, but they keep their shape better and give the wearer more satisfaction.

To have your clothes cut IN STYLE, and made up faultlessly might be the chief aim in life. Now the question comes, where can you combine all these points of excellence?

The answer comes promptly, at Dolan & Co's. George Street, where the best lines of goods are always in stock, and the best help procurable employed.

Turn in and see us, and if we can't convince you of the fact that we can dress you up in the *very latest*, we shall miss our guess.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TORONTO.

Special to the Review, Dec. 9.

IT SEEMS THAT only 61 shares out of 1,000 were represented at the meeting of the Toronto Brewing and Malting Company, called by Messrs. Himan, President, Blake, Long and Tasse. The meeting was only advertised once, and only in one paper. Mr. Howe was elected President and Long and Tasse directors. Immediately on his return, Mr. Blake took legal advice on the result.

MR. J. N. BLAKE, barrister, is suing Gooderham & Worts for $17,000, being ten per cent commission on farms purchased for the Stouffville and Sutton branches of the Toronto and Nipissing road.

IT IS BEING said that the Rev. John Pearson is to be the next Dean.

IN THE Central Prison there are 342 inmates and it is so crowded that some of the convicts have to sleep on shake downs.

PREPARATIONS FOR WORK have begun on the Don dry dock.

LIZZIE KING, who has lately been in trouble over drinking to excess, was arrested again last night and made three determined attempts at suicide. She first took off her garters and tried to choke herself. The stationman heard the noise, and took them from her. Then she took off her strings and repeated the attempt. The noise of her choking being heard again, she was taken out of the cells and kept in the station office. The station man had occasion to leave the office when she whipped off an undergarment and again tried to choke herself.

THE DETECTIVES state that procuresses attend the arrival of the trains. The statement was made by the lady superintendent of the Haven. County Crown Attorney Fenton to-day said in court that he must confess to having neglected his duty in not raiding houses of ill fame. The public sentiment seemed to be against it, but now that the public was aroused, he meant to do his duty.

G. B. REEVES, General Freight Agent of the eastern division of the Grand Trunk railway, is promoted to be traffic manager of the Chicago and Grand Trunk division. Mr. John Mayne, of Portland, is expected to succeed him. The latter was a short time ago only a brakeman.

If you want Good, Substantial Tweeds for men or boys at wholesale prices, you can get them at Munro & Alexander's.

270 BODIES RECOVERED.

VIENNA, Oct. 9.—Two hundred and seventy bodies have been recovered from the ruins of the Ring theatre. The fourth gallery has not yet been explored. It is believed that no one escaped from that gallery, and very few from the third gallery. The seventy corpses last discovered are little more than charred fragments. The law proscribes the use of oil lamps in the corridors of theatres, so that the exits shall be easily gained in the event of the failure of gas. This precaution was utterly neglected. The person in charge of the iron curtain between the stage and auditorium fled at the first alarm.

A MISSING STEAMER.

LONDON, Dec. 9.—It is supposed that the British steamer *Saxon Monarch*, a month overdue has foundered in the Bay of Biscay. It is feared that all hands, forty seven in number have been lost.

REFUSED.

CORK, Dec, 9.—The Duke of Devonshire has refused the reduction of rent asked by his tenants.

SEVEN ARRESTS.

DUBLIN, Dec, 9;—Seven persons in the vicinity of Castle Island, have been arrested for assisting in attacking a houses of the tenants of the Marquis of Drogheda, Marquis of Devonhire, and Lords Massen and Clonchurry.

THE MAYOR ASSISTS.

LONDON, Dec. 9.—The Lord Mayor of London has consented to head the English movement to assist the Irish Property Defence League.

Those who appreciate a bargain will do well to visit Munro & Alexander's.

THE COERCION ACT.

DUBLIN, Dec. 9.—Reed, Coffey, and Maloney, lately returned from America, have been arrested near Castle Island under the Coercion Act.

TERRIBLE COLLIERY EXPLOSION.

BRUSSELS, Dec. 9.—An explosion occured in Cockerell's colliery, by which sixty-six persons were killed.

THE "TIMES" SUPPORTS IT.

LONDON, Dec. 9—The *Times* advocates assistance to the Irish Property Defence Association, because there are no reasons why, if the present agitation against the payment of rent triumphs, the same method should not be extended, and the Irish bribed by foreign enemies of the British Government to combine in resisting taxes with a view of extorting their independence.

THE SEIZURE OF SHIPS.

MADRID, Dec. 9—In the Chamber of Deputies to-day Silvera asked the Government to submit to the House all documents relating to the seizure of English or American ships by Spainards in the Sooloo Archipelago.

EGAN AGAIN.

DUBLIN, Dec. 9.—Patrick Egan, treasurer of the Land League, publishes a bitter attack upon Pigott and the former proprietor of the *Irishman*, who refuted the principles of the League. Egan gives correspondence which he claims proves Pigott's endeavours to extort a loan by threatening to publish a statement relative to the misuse of the League's funds.

SECRET SERVICE FUND.

ROME, Dec. 9.—The Italian Chamber of Deputies referred the motion of Cripi for an increase in the Secret Service fund to the Budget Committee, in spite of the Government's expressed wish that the motion be withdrawn. Crispi severely censured the Government's foreign policy.

MINISTERS WANT TO RESIGN.

BERLIN, Dec. 9.—News has been received from St. Petersburg to the effect that Generals Ignatieff and Tcherevine recently tendered their resignations simultaneously, in consequence of difficulties between them in regard to politic measures against the Nihilists. The Czar, however, persuaded them to withdraw their resignations.

EARL CRAWFORD'S BODY.

ABERDEEN, Dec. 9.—Authoritive information has been received at Aberdeen that the body of Earl Crawford was embarked on an Italian yacht for Florence.

AMERICAN.

FROM HIS WOUNDS.

ROCHESTER, Dec, 9.—General John H. Martindale, elected Attorney-General of New York State in 1886, is reported as dying in Nice, France, where he recently went for his health, which was shattered in the army.

Munro & Alexander's immense stock is vanishing like snow before a summer sun. No Wonder.

AN ITALIAN'S CRIME.

NEW YORK, Dec. 9.—This morning in Thompson street, Lemont Tocieto, aged 21, shot and killed his wife, aged 14, then fatally shot his mother-in-law, aged 32, then shot himself through the neck. Bespattered with the brains of his victims and dripping in blood, he went to the police station. He has a chance of recovery. There is the greatest excitement in the Italian colony. The murderer said he shot himself once, then his wife and mother-in-law, and afterwards shot himself twice. The murderer was unreasonably jealous, and often abused his wife when he had no cause. His mother-in-law interfered in a family row and met her fate. The latter died soon after reaching the hospital.

THE COLORED CADET.

NEW YORK, Dec. 9.—The *Graphic's* Washington special says that it is rumoured in army circles that Advocate-General Swain has affirmed the finding of the Court in the Whittaker case. It will be remembered that the Court convicted Whittaker of mutilating his own ears. It is said that he will be dismissed from the army.

A NEW CANAL SCHEME.

CHICAGO, Dec. 9.—Ex-Mayor J. H. Murphy, and Major J. M. Allen, of Davenport, Iowa, visited this city to-day to interest the Board of Trade and prominent citizens in the Hennepin Canal project, by means of which the Mississippi River is to be united by water to the port of Chicago, and an outlet thus formed by way of the lakes for the grain traffic of the North-West. Congress is to be petitioned in its favour.

Come let the joyous tidings roll
From east to west, from pole to pole,
That woman's teeth, and lips, and breath
No more shall suffer worse than death,
For Sozodont with magic sway,
Preserves them now from foul decay.

THE GREAT THEATRE FIRE.

VIENNA, Dec. 10.—It is now feared that nearly one thousand persons perished in the theatre fire. Among the dead is one Care, described as from America. Owing to the telegraph on the stage not having been put in operation the firemen did not arrive until 25 minutes after the beginning of the fire. They came partially without apparatus and their work was much retarded and by the excitement and confusion was largely increased. The fire department proved utterly inefficient. There was only one steam fire engine throwing a small stream that could not reach the upper portion of the house. The hand engines were only fed from water butts filled from barrels driven to ground. There were no fire escapes; the ladders came late on the ground and much time was lost planting them. Among the missing are two bank officials, twenty members of the Fruit Exchange and a score of medical students. Several people who escaped have become insane. Brown, of Brown Bro's. and Co., New York, with his wife and entire family visited the theatre on Thursday afternoon and left early. Brown says the stairways were narrow and winding, and the landing from the labby to the parquette seats was scarcely wide enough for two persons to pass, and he vowed that he would never take his family into such a death trap again. There seems to have been no American medical students at the fire. Among the missing are an entire family of seven. The father arrived home on Thursday after six months absence, and celebrated his birthday by taking his family to the theatre. Fifty persons who jumped from the windows were caught in sheets and saved, these included some naked, half naked and strangely dressed artists.

LEAGUERS ARRESTED.

CORK, Dec. 10.—Two prominent members of the League have been arrested here.

AMERICAN.

FATALLY BURNED.

PITTSBURG, Pa., Dec. 10—At Rockcut seven miles from here, this morning a fire occurred at a house where nearly fifty workmen boarded. Sixteen men were burned to death and a large number fatally burned.

FREIGHT RATES,

CHICAGO, Dec. 10.—None of the leading railroads to the east can secure business at present except at losing rates. The managers of the Missouri barge lines are taking grain from St. Louis.

NO INTERFERENCE.

WASHINGTON, D. C. Dec. 10.—The President yesterday told Brady of Virginia, a member of the Republican State Commission, that he did not intend to interfere on behalf of any candidate for the Senate, but hoped that the result would not effect the future useful movements by Mahone.

BLAINE'S WITHDRAWAL

WASHINGTON, Dec. 10.—In view of the impending withdrawal of Blaine from the Department of State, the instructions given to the Commissioner sent to South America were drawn up under the direct supervision of the President.

THE FRAUD COMBINATION.

TOPEKA, Dec. 9.—Great frauds on the Atchison, Topeka, and Santa Fe Railroad have been discovered. A combination of boss section men, boarding-house keepers, and others along the entire line combined to have fictitious names carried on the pay-roll. It is supposed that 20) men were engaged in the swindle, and that from $100,000 to $200,000 was stolen. Eighteen men have been arrested. The swindle includes fifty prominent rich men. Attachments to the amount of $80,000 have been issued, and a large amount of property levied upon. Warrants were issued to-day for sixty more employees of the Atchison, Topeka, and Santa Fe Railway, who are charged with defrauding it.

The cheapest flannels are to be had at Munro & Alexander's.

COBOURG.

COBOURG STILL IN LUCK.—The *Sentinel-Star* says that his Worship the Mayor is not behind Mr. Mulholland in Winnipeg town lots, for on Tuesday he sold for cash his interest in the property purchased by him in Winnipeg four years ago at $2,000 for the handsome profit of thirteen thousand five hundred dollars. Not so bad for Cobourg.

RECOVERING.—Mr. Herrington, the student who received such severe injuries at the burning of the Dumble block, has so far recovered as to be able to be driven out. We understand that he leaves for his home to-day.

Sensible Advice.

You are asked every day through the columns of newspapers and by your druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. DISGRACEFUL JOURNALISM.

"But after all the strongest card Mr. Chapleau had to play was the backing of the Dominion Government and the use he was enabled to make of the Syndicate projects. It is easy to understand the *role* played by Sir John Macdonald in this matter. He has always depended on the French vote as his main support in the Canadian Parliament, and he has always been ready to sacrifice the interests of other sections in order to secure it. This is his game now, and he hopes to succeed by it, simply by hoodwinking the rest of the Dominion. The purchase of the North Shore Railway by the Syndicate was the bait dangled by the two Premiers before the French electors in order to secure their support now with a view to securing it again at the Dominion elections. The centre of Syndicate influence is Montreal. Montreal men, and no others, were allowed to have a share in the profits of the excessively profitable bargain made with the company. The whole of their projects are directed towards benefitting Quebec interests, and injuring other localities. Not even the Capital of the Dominion has the slightest chance of participating in the good things of which the control has been vested in Montreal capitalists by the present Government. The whole of the Ottawa Valley has been snubbed and made use of simply to get better terms elsewhere by the Company backed up in all its doings by the Dominion Government. And when we come to points further West the contrast becomes still more striking. *The Canada Central Extension, now a portion of the Canada Pacific, was built entirely in the interest of the Province of Quebec, and to afford connection with the main line of which it now forms a part.*"

We ask the reader's particular attention to the last few lines of the foregoing somewhat long extract from a recent article in the *Globe* on the Quebec elections, because we believe that, taken in connection with what precedes it, there is therein displayed a system of deliberate misrepresentation which is a disgrace to the journal that descends to it.

We leave it to our readers to say if any other conclusion can possibly be drawn from the above extract, than that Sir John Macdonald had subsidised the Canada Central railway in the interest of the Province of Quebec and the city of Montreal, to the ingury of Ontario. That we say is the only legitimate conclusion to be drawn therefrom, and yet what are the facts? The fact is that the Canada Central railway received its subsidy *from Mr. Mackenzie's Government in spite of the earnest protest of the opposition at that time, led by Sir John Macdonald.* So that if the Canada Central extension "was built entirely in the interests of the Province of Quebec," it was so built by the Hon. Alex. Mackenzie and not by Sir John Macdonald, and the *Globe* cannot be ignorant that such is the fact. We wish we could think otherwise, because it is painful in the extreme to be compelled to think that any journalist would set himself so deliberately to work to deceive its readers as the *Globe* has done in this instance, well knowing all the time, that with many of its readers this deliberate lie cannot be overtaken much less counteracted.

THE MARQUIS OF LORNE ON CANADIAN AFFAIRS.

A deputation from the Chester Town Council consisting of the Mayor (Sir Thomas G. Frost), Mr. Charles Brown; Mr. H. T. Brown, the Sheriff; Mr. J. P. Cartwright, the Town Clerk; and the Deputy Town Clerk, Mr. Samuel Smith, visited Eaton Hall yesterday for the purpose of presenting an address from the Council to the Marquis of Lorne and the Princess Louise. The party, who drove from Chester, were received at Eaton Hall by the Duke of Westminster. The Mayor said it was the desire of the Chester Corporation to present an address of welcome to the Governor-General on his return from Canada, and the Princess Louise on her visit to Chester. Mr. Samuel Smith, the Deputy Town Clerk, then read the address, which was signed on behalf of the Corporation by the Mayor and Town Clerk.

The Marquis of Lorne said: Mr. Mayor and Gentlemen, I beg to thank you on behalf of the Princess and myself for the loyal expressions contained in your address towards her Majesty the Queen. I know of old the loyalty of the citizens of Chester, and that the gentlemen here present have had various opportunities of personally tendering to members of the Royal Family the hospitality for which your ancient city is renowned. As representing for a time her Majesty in Canada, and for a very much briefer period at the present moment the Canadian interests in England, I beg to thank you on my own behalf and on behalf of Canada for what you have said with regard to that country. The interest and sympathy of England towards Canada were signally shown three years ago when the Princess and I left Liverpool for the Canadian shore. Liverpool may be considered as representing the associations connected with the modern mercantile success of this country. After three years I come back to Chester to find the same feelings and sentiments towards Canada expressed on behalf of your ancient, loyal, and beautiful old city, which represents so much the memories of old England. I cannot tell you how highly the Canadians value any words spoken in appreciation of themselves and of their land in the Old World. Perhaps they are a little over-sensitive sometimes with regard to the utterances which they hear of a contrary nature, and possibly lay too much stress upon the value of that depreciation. It is possible too, I think, that many of them lay too much stress upon the very few words which may possibly be taken as expressing a coolness towards her interests. Under the influence of this feeling they may occassionally speak of England as if she were the old woman who had so many children she did not know what to do. I need hardly mention to you that such language is probably only used by one person in ten thousand, and it can scarcely be said that there is one person in ten thousand amongst us who does not attach the utmost importance to your imperial connection. It is of the utmost importance to the interests of both countries that that connection should be cherished, as our Transatlantic brethren in Canada are already no small community. I have just lately been across the country, and any one who has gone across the ocean and seen our heritage there must agree with me that in all probability our nation will eventually be quite as strong on that continent as it is in these old realms. Already they are in number as strong as this England of ours was in the times of Elizabeth, and already their population is larger by one half than were the Americans at the time of the unfortunate war which divided them from us. It is because I know your words will be sent across the water that I beg to thank you with all my heart for the sentiments you have so kindly and loyally expressed.

To-day the Governor-General and the Princess Louise go to Hawarden Castle to lunch with Mr. and Mrs. Gladstone. Immediately afterwards they will depart for London.—London England *Daily News*, Nov. 16.

REVIEWS.

OUR LITTLE ONES.—The December number of this periodical, published by the Russell Publishing Co., Boston, will certainly be welcomed in the nursery. The amusing contents, large clear print and beautiful illustrations, will ensure its success.

CANADIAN MONTHLY.—On the eve of the commencement of the twenty-first volume of Rose-Belford's "Canadian Monthly and National Review," the editor issues an address, in which he asserts the just claims of this national periodical as having advanced the era of intellectual production among us, and infusing a literary spirit. He recalls his prediction in an early prospectus "that the day would come when its *twenty first* volume would be reaching reading communities in the valleys of the Red River and the Saskatchewan, by express trains on a Canadian Pacific Railway," and claims that this is in a fair way to be literally fulfilled. He asks for continued support and favor to enable it in the future to be even more helpful to the cause of Canadian letters. The current number contains large instalments of the serials, "Six days of rural felicity," and "Reminiscences of a Canadian Pioneer," so as to end them with the volume. N. Flood Davin has some "Remarks suggested by President Garfield's Death." In "A sprig of Yew," Fideles pays a tribute to the memory of "Stanley, Garfield and Holland." Among other articles are "The Legal Degrees of Marriage in Canada," "Picturesque Canada, a critique." "Canadian Christmas Cards," "Scientific Religion," "Diderot and Materialism," "Another view of Chess," etc. Some of the poetry is of unusual excellence.

TRADE NOTES.

$300,000 has been subscribed to the Nova Scotia Cotton Mills Co., and it is to be increased to $400,000.

THE exterior of the new worsted mill at Quebec is finished, and the interior is rapidly approaching completion.

M. LEGRU, the Paris capitalist, now in Quebec, says that fifty millions of francs have been subscribed in France for investment in local industries in Quebec Province.

THE frame work of the knitting factory on Goderich street, Halifax, is fast approaching completion. The manufactory will give work to some forty or fifty hands.

FOUR hundred carcasses of mutton are canned weekly at Forest & Co's establishment, in Antigonish, N. S. The bones are ground into meal for fertilizing purposes.

THE Cotton Factory Branch Railway (Halifax) is completed and all ready to run on. The foundation of the factory is fairly under way. There is a good prospect of its being completed in the spring.

THE city of Montreal has never been so busy. The manufacturers are working night and day to fill orders from all parts of the Dominion. The National Policy seems to have worked wonders in this neighborhood. The orders from Manitoba and the West are so numerous that they cannot be filled for months.

MESSRS. O. W. OGILVIE, Thomas Craig, L. J. A. Corriveau, and G. W. Craig, intend shortly organizing a company for the purpose of erecting a large silk manufactory in Montreal. Applications for an act of incorporation will be made by Messrs. Chapleau, Church, Hall and Atwater, at the next session of the Provincial Parliament. The capital of the Company will, it is understood, be $200,000.

THE Canada Iron and Steel Company intend erecting shortly in Montreal furnaces for the manufacture of iron and steel direct from the ores by means of crude petroleum. The furnaces will be erected under the supervision of Mr. Armstage Rhodes, C. E., son of Col. Rhodes, of Quebec. The Capital of the company is one million dollars, and the directorate comprises the names of some of the most influential and successful busines men in Canada.—*Industrial World.*

ACCORDING to private cable advices received last week (says the Montreal *Journal of Commerce*), the American, Canadian, European & Asiatic Cable Co., which was chartered last session, has completed its organization. The board of directors is one of the strongest in capital and influence ever formed. The capital has been all subscribed, and operations, it is said, will be commenced at once. The company intends laying two cables next year, and will, during the coming winter, make arrangements for the construction of land lines from Halifax to Victoria, connecting with all the principal cities of the Dominion.

RIVAL TELEGRAPH LINES

Progress of the Canada Mutual Telegraph Company—A Toronto Office.

The Canadian Mutual Telegraph Company, which is looming up in the distance as a rival of the amalgamated company, is making rather slow progress in the construction of its lines. The primary object is to connect the chief places of business in the Dominion, as Montreal Toronto, and Ottawa, with the lines in the United States of the North American Mutual, the father of the Canadian Mutual. In pursuance of that object a line has almost been completed from Ottawa to Montreal, whence it will be carried to connect with the United States lines at Albany, and offices will be opened in those cities in probably less than a month. Last week a number of men began at Lambton Mills constructing a line towards Buffalo, with the object of

CONNECTING TORONTO WITH THE LINES THERE.

This line, it is expected, will be completed by the first of January, when an office will probably be opened here.

These connections are all that will be made before next spring. Then, however, it is understood, the company will attack the work at every point in the Dominion, and it will be carried on so vigorously that before the following winter sets in every line of the Great North-Western from Sarnia to Halfax will be duplicated by its rival.

The head office of the Company will be in Montreal.—*Mail.*

FATAL ACCIDENT

Young People Come to Grief on their Way to Singing Practice.

VICTORIA HARBOUR, Dec. 7.—The terrible accident of Saturday last has cast a gloom over the neighbourhood where it occurred. The following are the particulars of the sad affair:—The young people belonging to the families of Mr. George Widdess and Mr. T. Robinson were on their way to singing practice at Vasey, in preparation for the new Methodist Church opening. The wheels of the waggon, which was crowded, passed over a root, and Mr W. J. Robinson, who was driving, was thrown violently to the ground. The horses becoming alarmed at the confusion which ensued, started off on the run, dragging Mr. Robinson along the road. Miss Margaret Widdess attempted to recover the lines, when she also was thrown out and dragged some distance, sustaining injuries which led to her death in about half an hour after the occurrence. Miss Robinson was rendered insensible for some time from bruises which were inflicted on her head and shoulders, but she will, it is believed, recover.

LAKEFIELD NEWS

From our own Correspondent.

HUNTING PARTIES.

Mr. White of Alnwick and a companion returned on Wednesday last, Nov. 30th, from Crane Lake, where they have been still hunting for the last ten days, elated with their success, having secured ten deer in ten days hunting. Lakefield parties are doing well also, so we are informed. Thomas has succeeded at least in shooting two deer. There is hopes for doubting Thomas yet.

SOLD.

A farmer living in the north part of the township of Smith visited Lakefield last week for the purpose of selling five hogs. He was offered $8.00 per hundred in Lakefield, but declined the offer, and went to Peterborough to do better, when after waiting around nearly all day, he sold his his pork for $7.62½ per hundred having spent his day and lost about $5.00.

LUMBERING.

The Messrs. Strickland are making rapid progress with their operations in the woods, having up to Saturday last cut over a hundred thousand feet of timber.

SHOT TWO OWLS.

A farmer living not far from Lakefield has recently taken to raising fancy fowl and prided himself considerably on his achievements in that line, but recently some of his best specimans were missing and it was thought that they were carried away by owls. Upon arriving home recently, he saw what he supposed to be two owls perched upon his barn. The gun was taken quickly from the house and with one shot two birds were brought to the ground. Imagine our friend's amazement when on lifting the birds they were found to be two of his Plymouth Rocks.

LARGE PORKER.

Mr. James Jory, a farmer living about two miles north of Lakefield, killed a hog last week, a year and a half old, which turned the scales at 445 lbs. Beat that who can.

That Infernal Machine.

MONTREAL, Dec. 7.—The infernal machine scare continues to employ the police authorities and the local reporters. It appears that the finders of the machine have been discovered. Thomas Bouchier and Thomas Mirone, two French Canadians, found the box, and believing they had a treasure trove, broke open the lid and took the machine to a watchmaker, who ordered them out of his place, telling them what it was. Bouchier stopped the machinery several times, as it seemed to insist upon going of itself. He then took the box to the police station and gave it in charge of the police detective, who put it away in the detective's office without telling anyone a word about it. The affair assumed a tinge of the satirical this afternoon, when the Chief of Police received a telegram from New York signed Redmond McNamara. It is addressed to the Chief of Police, and reads as follows:—"We have reached home safe; sorry for the failure; will do better next time." Dr. Brainerd, of the Hamilton Powder Company, recognized the substance, which is called in England dynamite No. 2, in the United States "giant powder," and in Montreal "dualine." It is of the manufactures of the Raphannoc Chemical Company of Chester, Penn., and must have been originally a good specimen of the article. Placed where it was he believed it would have done little damage to the building, but the spikes contained in it might have killed some persons, had they been passing when it exploded.

There is a crowd every afternoon at Munro & Alexander's, those who can should buy in the morning.

FROM ALL OVER.

MR. PARNELL is reported to have been taken suddenly ill on Wednesday with an attack of malarial fever.

MAGNIFICENT pine forests have lately been discovered on the upper waters of the Saskatchewan, and explorers have traced them fifty miles up the shoulder of the Rocky mountains.

A YOUNG man carelessly carrying a gun down stairs in an Indiana town one day last week accidentally discharged it, and the ball buried itself in the body of a pet cat that his 5-year-old brother was carrying in his arms. It was a narrow escape for the child.

MRS. R. F. HASKELL, No. 43 Boston street, Salem, Mass., writes: I have used St. Jacobs Oil on my daughter for a pain in her left side, and it proved itself a splendid physician. Everybody regards it as a reliable friend.

THE Montreal *Herald* brings to light an attempt by the New York *Journal of Commerce* to levy blackmail on the Canadian Pacific Railway Company. It publishes a letter—from the chief editor, complaining that the advertisement of the bonds has been left out of that paper.

"FRIENDSHIP," Cicero says, "is the only thing in the world concerning the use of which all mankind are agreed," but all writers agree that a good pen is a desideratum, and Esterbrook's will be found to be A1.

MR. FINN, the expert who made an examination of the contents of the infernal machine found near the Montreal Courthouse, has received a threatening letter. It winds up by saying that "The N. S. has her two eyes upon you."

ONE feature of President Arthur's speech which gave great satisfaction is the total absence therein of any reference to the South as a distinctive section of the country. It is stated that the President was the immediate author of the entire document.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

A YOUNG woman at Peru, New Jersey, is still living although she has carried buck-shot in her lungs for more than a month—pieces of her dress and corset, and 200 buck-shot. They were placed there by her lover as a slight token of his idiocy, notwithstanding her warning that the gun he pointed at her was loaded. So far from being shut up for the rest of his "natural" life the idiot insists on the girl's marrying him.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Two big slices of bread and a piece of beef formed the sandwich which a St. Louis servant girl gave to a beggar; but he was not satisfied, and demanded a cup of coffee. She said there was no coffee ready, and he commanded her to make some at once, emphasizing the order with a slap. Then she knocked him down, and set a very hot flat iron on his breast. He will bear the brand untill his death, which may take place soon, for the burn is possibly fatal.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

A YOUNG man, a farmer, living a short distant east of Omemee, was in search of a life partner. He went to church on a Sunday about six weeks ago, and saw a young lady that would apparently comply with his wishes. After church he introduced himself, accompanied her home, got a license on Monday, and was married on Tuesday. His matrimonial career was of short duration, for on Wednesday last he returned, after being absent for a day, and found she had eloped with the hired boy, aged about nineteen, the latter taking with him a pair of boots belonging to his employer.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

MESSRS. JAMES HARRIS & Co., have recently commenced the manufacture of a new class of car wheels which have an outer rim of steel and a centre of iron. For years this firm have been making the ordinary chilled iron car wheel, but the recent demands of their business have called for the manufacture of steel wheels as well as iron, as the former are much more durable, wearing longer and running easier than the ordinary iron wheel. It is claimed for the steel wheel that it will run 115,000 or 120,000 miles and after being turned down even will run the same distance over again. The wheels are of the same size and shape as the iron wheels, but the outer rim or wearing part is of steel; while the inner central section is of iron. The process of casting unites both parts firmly and they are like a solid piece.—*St John, N. B. Telegraph.*

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCAL AND MUNICIPAL.

The Weather.

Vennor and probs don't agree as to the weather we may expect for the next day or two. Vennor presaged a heavy snow fall while the other authority says only snow flurries, but up to the time of writing both are rather out in their calculations, as the weather is fine and cold with no sign of snow. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Light to moderate winds, fair cold weather with snow flurries in some localities, followed to-morrow by southerly to south-westerly winds and rising temperature.

A Novel Sight.

At the Police Court on Friday morning, a novel sight was witnessed. Never before since the court was established were seen so many black eyes, bruised and scratched faces, and cut heads One would think from the general appearance of things that all the able bodied men of two or three townships had been fighting. It is a pity that these family feuds have reached such a pitch, and we are afraid that unless they are put down with a firm hand, Monaghan and Cavan will become a second Biddulph, a reputation to be guarded against.

If you want a Dress you will save money by buying it at Munro and Alexander's.

TOWN COUNCIL MEETING

A SPECIAL AND EXCEEDINGLY QUIET SESSION OF OUR "CITY DADS"

The Time for the Commencement of the Construction of the Waterworks Extended until the First of May next—Some Accounts—A Bad Sidewalk.

A special meeting of the Town Council was held at the Council Chamber on Friday evening.

Present—His Worship Mayor Smith in the chair, Councillors Cahill, McNaughton, Kelly, Paterson, Chamberlain, Yelland, Richardson.

The reading of the minutes of the last meeting was dispensed with.

The MAYOR explained that he had called the meeting at the request of Mr. D. G. Hatton, representing the Waterworks Company. That gentleman was present and would explain matters.

ACCOUNTS.

County (repairs to Lock's Bridge)	$380 95
R. W. Bell, (examining lunatic)	5 00
H. LeBrun, (suit for P. C. McGhee)	22 00
County, (conveying lunatics etc.)	92 00

All the accounts were referred to the Finance Committee.

OUR WATERWORKS.

Mr. HATTON explained that owing to different circumstances the company were not able to commence operations at the time specified in the By-law. The company, as they all knew, was composed of gentlemen well-known to all the citizens. Mr. Gamble, of New York, was the only outsider. That gentleman felt that the By-law was rather stringent, and now did not feel like putting his money into the company. He, however, felt that it did not make any difference, as he knew of gentlemen who were perfectly willing to invest their money and assist in the construction of the work, so that the town was sure of the waterworks being completed at the date agreed upon. The company did not ask for an extension of time for the completion of the works, but only for the commencement of operations. He submitted a By-law, approved of by Mr. J. F. Dennistoun.

The By-law was read a first time.

The Council then went into committee of the whole, Councillor Kelly in the chair.

The By-law was read a third time, carried, signed and sealed.

The By-law provides for extending the time for the commencement of active operations from the 10th of November, 1881, until the 1st day of May 1882, and it further provides that further extension cannot be granted, without the waterworks by-law becoming null and void.

A BAD SIDEWALK.

Councillor PATERSON—Has the Street and Bridge Committee any funds on hand?

The CLERK—About $20.

Councillor PATERSON—There is an awful bad sidewalk on Bethune street, between Brock and Hunter streets.

The MAYOR—The Street Inspector had better repair it at once.

The Council then separated, wonderful to say without a single wrangle or cross word.

There are still a few pieces of Carpet left at Munro & Alexander's.

The place to buy Ticking, and all Housekeeping Goods is at Munro and Alexander's.

Good News for Outsiders

We see the statement made, we presume for the benefit of young men who have to stand waiting outside the church door, that the newest thing in churches is a slate which is left hanging in the vestibule, so that young ladies on entering can register their names, number of pew, and information as to whether they have company or not. (Brothers and parents not included,) The convenience of this plan must at once be evident to young men, and may induce some of those at present accustomed to waiting at the door, to take a seat inside.

See Munro & Alexander's Coloured Silks. They are selling a silk at 37½c.; worth 50c.; and a perfect beauty at 85c. worth $1.25 a yard.

Railway Notes.

We understand that the contract for the construction of the line of railway from Manilla to Wick has been let to Mr. Wheeler, and that the work is to be finished by September 1882. This will give us a straight line to Toronto, if the line from here to Omemee is finished by that time, and we have no doubt but that it will be.

Midland Railway bonds have taken another rise on account of the benefits to be derived from the amalgamation scheme.

The engineers locating the "Missing Link" reached Omemee to-day.

Entertainment.

An entertainment will be given in St. John's School-House, in aid of the "Women's Foreign and Domestic Mission Society," on Thursday, Dec. 22nd, at eight o'clock. Tickets, price 25 cents can be procured at Wilson & Davis and J. I. Davidson's.

Ministerial.

The Rev. H. Sherin will occupy the pulpit of the George Street Methodist Church on Sunday morning, and that of the Charlotte Street Church in the evening. The Rev. Mr. Jeffrey of Cobourg will preach in both churches on the 18th instant.

To-Night.

The Fire Brigade Band will hold forth on George Street to-night, when a splendid programme of classical and operatic music will be given.

Personal.

The Rev. C. H. Marsh, the lately appointed curate of Otonabee, has arrived in town and will preach to-morrow morning at St. Luke's Church, Ashburnham.

The assortment is still complete at Munro & Alexander's.

Munro & Alexander's sale is a great success.

A great variety of Gent's Furnishing Goods at Munro & Alexander's at cost price.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

The value of Munro & Alexander's Wincies astonishes everyone.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother. —*Home Journal.*

MEMORANDUM!

Cold or hot a certain amount of clothing is necessary. A perfect fitting garment is in either case most comfortable.

Good Cloths and Trimmings not only make better clothes than cheap goods, but they keep their shape better and give the wearer more satisfaction.

To have your clothes cut IN STYLE, and made up faultlessly might be the chief aim in life. Now the question comes, where can you combine all these points of excellence?

The answer comes promptly, at Dolan & Co's. George Street, where the best lines of goods are always in stock, and the best help procurable employed.

Turn in and see us, and if we can't convince you of the fact that we can dress you up in the *very latest*, we shall miss our guess.

TERRIBLE BALLOON ACCIDENT.

LONDON, Dec. 10.—A Government balloon in charge of Captain Temper, accompanied by Mr. Walter Powell, M. P., and Mr. Gardner, ascended from Bath yesterday, and descended at Bridport. The balloon struck the ground heavily, and Mr. Gardner and Capt. Temper were thrown out, and injured. The balloon rose with Mr. Powell, and was seen to descend at sea. Nothing has since been heard of the balloon or of Mr. Powell.

THE LEAGUE CONDEMNED.

LONDON, Dec. 11.—The Grand Orange Lodge of Ireland has issued a circular condeming the Land League, and stating that in the United Kingdom aad the colonies there are thousands and thousands of Orangemen ready to fight for the constitution.

AN IRISH CARDINAL.

DUBLIN, Dec. 11.—The Archbishop of Armagh, Primate of All Ireland, will be created a cardinal shortly after Christmas.

PLACARDS TORN DOWN.

Inflammatory placards, posted in Dublin and the suburbs headed "No Rent," have been torn down by the police.

A FINE PAID.

LONDON, Dec. 11.—Advices from Free Town, Sierra Leone, state that the Liberian Government has paid the fine of $5,000 imposed by the German Goverment on account of the ill-treatment of German seamen.

NO SLAVERY.

MADRID, Dec. 11.—A large meeting at Valladolid passed resolutions requesting the Government to remove the last vestiges of slavery in the Antilles.

LEAGUE DISSENSION.

DUBLIN, Dec. 10.—Mr. Piggott has written a letter denying Mr. Egan's charges that he endeavoured to extort a loan by threatening to publish a statement relative to the alleged misuse of the League's funds. He maintains that it was the League which offered him £500 to publish false accounts. He comments severely on Mr. Egan's conduct, and declares that the "no rent" cry is an injury to Ireland. and a libel on Irish patriotism.

PLANS STOLEN.

BERLIN, Dec. 10.—Great commotion exists in the offices of the grand general staff at Berlin, owing to the theft of plans and papers of great strategical imporance.

GLADSTONE'S FRIENDS.

DUBLIN, Dec. 10.—Bishop McNulty, of Meath, publishes a letter declaring that if the Radical party does not compel Mr. Gladstone to reverse his policy, and release the "suspects," he must decide to renounce Irish support at the next general election. He says this will show the power of the recently completed Irish organization.

FATAL RAILWAY ACCIDENT.

LONDON, Dec. 10.—A collision occurred at Canonbury on the North London railway to-day. Seven persons were killed, and over sixty severely injured. A signalman, unaware that a train crowded with passengers had stopped at the tunnel, permitted three other trains to follow, and all came into collision.

THE VIENNA HORROR.

VIENNA, Dec. 11.—The official report published this afternoon says that the number of persons recorded as missing, including those identified and those not identified, is 917. The list is not yet complete, and the grand total may be placed at 1,000. The bodies were transported to-day to the Friedhof for interment to-morrow. Some victims of the Jewish faith were buried this morning. The funeral ceremonies will take place at noon and clergymen of the Catholic, Evangelical, Greek, and Jewish confessions will officiate. The Vienna Mannergesang Verein will chant a requiem over the grave.

SELF INFLICTED WOUNDS.

Some of the dead in the theatre were found grasping each other by the throats, their nails and fingers imbedded in the flesh. Some show self-inflicted mortal wounds. Children were found in the pit, thrown from the galleries by their frantic mothers. Ten carloads of corpses have been taken to the hospitals. There have been many suicides out of grief at the loss of relatives and friends in the fire.

A MURDERER DEAD.

CONSTANTINOPLE, Dec. 10.—The Turkish Minister of Foreign Affairs has informed the American Minister that Ali, who murdered Dr. Parsons, the American missionary, died over a year ago.

RUIN AND DECAY NOTES.

The Londonderry Steel Works are a striking illustration of the effect of the N. P. on the country. Before the policy was put into practical operation these works dragged out a shaky existence. They were galvanized into new life under the N. P., and now they employ 600 hands and pay out $1,000,000 for wages and materials, and are the largest customers the intercolonial railway has, their payments on account of freight being over $100,000 a year. Their coal bill amounts to $70,000. They have increased their output 30 per cent. since the tariff was re-adjusted. A town is growing up around the works, and it already numbers two thousand persons. The farmers around it all believe in the National Policy, finding as they do a *home market* near at hand with cash payments.

A large addition the Rosamond mills, Almonte, is now completed, and is designed for the manufacture of worsteds, yarns, serges, coatings, etc., the only factory of the kind in Canada. The worsted factory has been now some months in operation, and there is no difficulty in selling all that it can produce.—*Globe.*

A building formerly used for a furniture factory is being now fitted up by Messrs. W. Wylie & Co. for the manufacture of shawls. It will be put in operation in January with one sett of machinery, but preparation is being made to shortly increase to three setts, thus developing its capacity three-fold.—*Globe.*

Last but not least of these active and budding industries in woollen manufacture is to be a knitting mill, for which an association of capitalists has just been formed, and has made application for a charter, with a capital stock of $50,000. Mr. Bennett Rosamond is the principal promoter, and is associated with several Montreal capitalists in the undertaking.—*Globe.*

A NOTED MAN.

TROY, Dec. 12.—Col. T. P. Shoffer, the Louisville millionaire, who first introduced the telegraph system into Russia, died here last evening.

THREATENING THE CZAR.

ST. PETERSBURG, Dec. 12.—The person who placed threatening letters and proclamations in the Emperor's prayer book and pocket handkerchief has been discovered to be a woman, who has been in the service of the Empress for eight years. When detected she was putting a letter in the prayer book reminding the Emperor he had only a few weeks of life before him. The woman declared that she did this out of gratitude, with the conviction that she would thus serve the soverign whom she loved so well. She refused to give the name of the person who supplied her with the letters and proclamations.

A STRANGE ASSASSIN.

ST. PETERSBURG, Dec. 12.—In the trial of the police officers accused of having neglected to take the necessary precautions against the murder of the Emperor, it has been revealed that there were four instead of three assassins concerned in the death of the late Emperor. The fourth assassin Amelianoff, was not tried for state reasons. He stated that on the 13th they walked into the quay of the canal without sighting a single policeman. When the second bomb burst under the Emperor's feet and he fell bleeding, Amelianoff rushed up and held the sovereign till other help came. Under his arm he had all the time a bomb, similar to that used by the assassins. Amelianoff says that none of the police dared approach the wounded Emperor until he took him in his arms. This revelation caused intense excitement. Three officers were found guilty and were sentenced to exile for three years.

GUITEAU'S SANITY.

NEW YORK, Dec. 12.—A Washington despatch to the *Herald* says that Dr. Spitzan on Saturday visited Guiteau, and it is said on good authority that he considers the prisoner insane. He is reported to have said that he could find dozens of persons in any asylum less insane than Guiteau.

A SAVAGE ATTACK,

SAN FRANCISCO, Dec. 12.—A despatch from Yokahama, Japan, says natives of the Aleutian Isles, fired on the crew of the Sea Otter, sinking the schooner. Several of the Japanese crew were killed, and one of the foreign officers received eight balls in his body, another being badly wounded.

A CHINESE DIPLOMAT.

SANFRANCISCO, Dec. 12.—Ching Isaopi, the new Chinese Minister to the United States, has arrived here.

THE U. S. NAVY.

NEW YORK, Dec. 12.—A Washington special despatch to the *World* says that there is a general agreement among members of Congress that something must be promptly done to rehabilitate the navy and create a merchant marine, but opinions differ greatly as to the means by which this can be accomplished. On the one hand free ships, and on the other hand subsidies are urged.

Cured by Prayer and Married

HONSEDALE, PENN., Dec. 6.—The wedding of Miss Lillie D. Tyler, of Damascus, Wayne County, Penn., to Mr. John G. Mitchell, of the same town, took place a day or two ago, precisely one year from the mysterious cure of the young lady. Miss Tyler had been an invalid for upward of six years with a peculiar disease, which kept her confined to her room most of the time. She was treated by eminent physicians from New York and Philadelphia, but in vain. In October, 1880, she heard of a female in Connecticut who cured people by prayer, and to this person Miss Tyler wrote, receiving a reply appointing the 26th of November as the day when Lillie should, with her friends, pray for her restoration to health. The day came, and Miss Tyler was so weak she could scarcely raise her head from the pillow. The company included her family and her Pastor the Rev. Thomas Wescot. At noon they commenced their prayers, and before night the young lady was able to go about the house. As her cure has been entirely effected, she has redeemed the pledge made long ago to Mr. Mitchell, and they were married last Saturday by the same clergyman who prayed so fervently only a year before for her recovery. The case has attracted wide-spread attention, and the story as told by the bride is true in **every particular.**

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1w1y

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction, Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age, Sold at 25c. a box everywhere. d52w9

Decline of Man.—Impotency of mind, limb or vital function, nervous weakness, sexual debility and all diseases caused by indiscretions and abuse, are radically and promptly cured by the use of Mack's Magnetic Medicine, which is for sale by all responsible druggists. See advertisement in another column. Sold in Peterborough by ORMOND & WALSH.

MONDAY, DECEMBER 12, 1881.

OUR FOREST WEALTH.

THE realization by the Ontario Government of over seven hundred thousand dollars, in a single day, for the privilege of cutting timber on the public domain, should of itself, be sufficient to induce the adoption of prompt and vigorous measures for the protecting of our forest wealth. Large however, as is the sum which has been obtained at the sale of the 6th inst., it is after all but a moderate portion of what the Province is likely to receive for the same, and but a very small portion of what it will undoubtedly receive, can the timber now on this twelve hundred odd square miles be protected from its great enemy—fire.

It is true that at the instance of the present commissioner of Crown Lands—Mr. Pardee—the Ontario Legislature some years ago placed on the statute book a measure designed to prevent the setting out of fires during the dangerous seasons of the year, but however good that act may be, it has remained practically a dead letter, owing to its being made the duty of no person or persons to see it enforced, and we believe it will continue so unless the Government appoint proper persons for that purpose. That the importance of the interests involved will justify any reasonable expenditure for such a purpose will not for a moment be disputed.

As matters are now going the day cannot be far distant when the valuable patrimony which we inherited from past ages in our forests will be a thing of the past.

Timber, like that for which we are just now receiving annually large sums, and which directly and indirectly is giving so much employment to our people, is not produced in two or three life times, it is therefore bound to decrease quite rapidly enough under the lumberman's axe, without adding to its depletion by wanton fires, which might be largely prevented by the adoption of proper measures to that end, and by excluding settlers from our pine lands. Of course we are aware that there are those who will cry out against this latter suggestion, but that does not compensate for the millions that have been lost, or prevent the country from being large losers in the way of revenue and employment, by the Government encouraging indiscriminate settlement. The high bonuses already paid and the dues still to be paid for some of the limits sold last week prove, that much of these lands is worth infinitely more to the country for the timber that now stands upon them than the settlers could be, even if a prosperous one could be placed on every hundred acres—a thing which is impossible, because it is notorious that the best pine lands are the least adapted to the wants of the settler—unless he be a timber shark.

Moreover, the encouragement of indiscriminate settlement and a failure to protect the timber from the fire fiend is a great injustice to the men who invest their money in these limits, as well as the Province. High as the prices realized at the recent sale were, they would undoubtedly have been higher, had the purchasers been guaranteed reasonable protection against the destruction of the timber they were purchasing. Indeed the great risk run from this cause every year that it is allowed to stand, compels its owner to cream it as quickly as possible in order to secure himself against loss, notwithstanding that such a course is wasteful of valuable timber, and calculated to depress the lumber market.

It is to be hoped that the importance of this subject will no longer be overlooked by the powers that be, but that speedy and efficient measures will be adopted whereby the most may be made out of our forests, and the evil day when they will cease to yield an income to the Provincial ex-chequer, and afford employment to our people be posponed as long as possible.

BEAT THIS WHO CAN.

The *Globe* quotes with evident glee the following paragraph from the Brockville *Recorder* :—

"Like many other places we know of, Prescott has many citizens who believe in buying goods—notably coal oil—where it can be got the the cheapest, and not feeling like pandering to the infamous tax which the N. P. has placed on that article, have been in the habit of saving about thirty cents per gallon by purchasing their supplies in Ogdensburg."

"Saving about thirty cents per gallon!' Whew! Why, coal oil retails at thirty cents a gallon in Peterborough! It either must be very dear in Prescott, or very cheap in Ogdensburgh, or the statement of the *Recorder* must be a stretcher. The reader can take his choice.

THE SHIP CANAL.

The following letter appears in the Toronto *Telegram* :—

To Messrs. Platt, Hay and Beatty, Representatives of the Dominion Parliament for the City of Toronto—

GENTLEMEN,—I have interested the Ontario Government the Corporation of the City of Toronto, the County Council of York, the Warden of the County of Simcoe, in the Huron and Ontario Ship Canal and have the favourable opinion and support of the gentlemen representing the City of Toronto in our local house, and I have secured the formation of a syndicate to carry out the construction of the Huron and Ontario Ship Canal. It is considered a commercial necessity to the trade of the great West and North-west of this continent, being the shortest route to Europe, by way of the St. Lawrence, over New York, of nearly 800 miles. The subject, with details, has been so often before the public that it would be superfluous in me to go into statistics now. My present object then is to press upon you that the Canal cannot be built without a grant of 10,000,000 acres of land which is proposed to be taken from the disputed territory. If the principle of the Hydraulic Lift-Lock system is found practicable from the report of the delegation which it is in contemplation to send by the Ontario Government to visit the works at Anderton, near Liverpool, will you gentlemen in your places in Parliament support such a measure as will secure the grant of land, recommended by Sir Charles Tupper in his evidence before the House of Commons. A reply previous to the expected arrival of the eminent engineer, Sir E. J. Reed, K. C. B., M. P., of England, that I may publish it, will much oblige. Yours faithfully,

FRED. C. CAPREOL.

Canal Office, Toronto, Dec. 8th, 1881.

Possibly at some future date the requirements of the great North-west for traffic accomodation may make expedient the construction of even this costly canal. In the meantime there is the Trent Valley navigation, which only requires two and a half millions of dollars instead of tens of thousands of dollars and acres of land, for which a favourable route has already been found by Government surveyors, and which while equally shortening the route, avoids the dangers of the lake navigation.

THE CANADIAN TERRITORY.

Returns just issued by the Department of the Interior give the area of the Dominion of Canada in Provinces as follows :—

Province.	Square Miles.
Ontario	109,480
Quebec	193,355
New Brunswick	27,322
Nova Scotia	21,731
Prince Edward Island	2,333
Manitoba	150,000
British Columbia (including Vancouver and other islands)	360,344
Northwest Territory	1,868,000
Keewatin District	309,077
Islands in the Arctic Ocean	311,700
Islands in Hudson's Bay	23,400
	3,406,545

Canada, with its 3,406,545 square miles of territory as shown in the above return, is much larger that the United States. From the report of Mr. Gannet, geographer of the United States census, we learn that the total area of the United States, Alaska excepted, is 2,970,000 square miles. The total water surface, including rivers and small streams, lakes and ponds, is 55,600 square miles. The coast waters, bays, gulfs, sounds and the like, cover 17,200 square miles. The gross area is, therefore, 3,025,000 square miles. The following table shows that the Dominion is second in extent to Russia alone among the countries named :—

	Square Miles.
Austria-Hungary	226,406
France	201,900
Germany	212,091
Great Britain and Ireland	121,230
Italy	112,667
Russian Empire	8,404,767
Spain	182,758
Sweden	170,980
United States	3,025,000

EDWARD THE UNCERTAIN.

Our clever contemporary, *Grip*, enjoys an advantage over his brethren of the press, and employs it to good advantage. It is given to the cunning bird to ply both the writer's pen and the artist's pencil with equal facility. Whenever a public question attracts general public attention *Grip* sezies the salient features of the situation, summarizes the gist of popular opinion in a brief, pithy article and illumines the whole the whole with a comprehensive cartoon.

One of the happiest hits that Mr. Grip has made for many a day is made in his issue of last week. The cartoon has the great merit of being self-explanatory, and one need not turn to the letter-press comment to fully appreciate the point.

The Hon. Edward Blake, looking somewhat like an uncrushed tragedian who plays the part of an elderly Lothario in a society drama, is detained by the hand of an old, gaunt, parsnip-nosed female, Miss Grit, while he squints longingly, and with uncertain eye, over his shoulder at a merry maiden in her teens, who trips lightly down the street with a roll of papers under her arm labelled "political independence; national party." As she passes she casts a half-saucy half-pitiful look at the gentleman in the slouch hat, as though she were both astonished and pained to see him in company with the angular female. This "person" Miss Grit regards as a "dangerous third party" and she exclaims: "Oh, Edward, swear to me that you will be true!" The distracted man dissembles, replies: "I will be true—comparatively—but I never swear."

This is precisely the position of Edward the Uncertain. He has plighted his troth to the harridan who demands an oath of fealty, but his heart is with the young party who walks abroad in her strength and beauty, free and fair, with the bright future before her, and the miserable past behind. If he gives his hand where his heart can never be, it will be a marriage of convenience, and with the usual results. He cannot even plead the excuse of the poet that "I love my love because my love loves me." She don't. She has never forgiven him for jilting her at Aurora.

Who is this demirep that claims the reform leader as her own? She is old, ugly, bad tempered and bigoted. She nagged Baldwin to death. Her embrace proved fatal to Foley. William Lyon Mackenzie refused to live under the same roof with her. McGee obtained a bill of divorce, and she scandalized him almost in the grave. She is now playing the part of Delilah to the Samson of Edward the Uncertain.

Mark our words, and observe that you may see them come true.

If Mr. Blake goes to the country in 1883 upon the grit platform, nothing short of a second Pacific railway scandal can save him from defeat.

The moribund dictatorship of the *Globe* is unequal to the task of thrusting one-sided free trade and perpetual vassalage upon the people of Canada.

This is the only thing that can at present be predicted with any degree of certainty of Edward the Uncertain.—*Toronto World, (Liberal).*

ALL the necessary preparations for the reception of the "suspects" in the jail at Armagh are now completed, and additional warders have arrived from Maryborough. The preparations made in the jail are very elaborate, and the foundry has been working over-time for some time past, order to meet the exigencies of the case. The general opinion is that this will be Mr. Parnell's future place of imprisonment.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but sample food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

BADLY SOLD.

We find the following report in the *Monetary Times*:—

We learn that some twenty-five or thirty Peterborough people would be glad to know of the whereabouts of one Alexander Macauley, who sold each of them, for cash and "truck" and trade, a policy in the Temperance Mutual Benefit Life Association of Easton, Penn., of which two men of a family named Chase, Simeon B. and N. D. B. Chase, are president and secretary. And all done contrary to the law made and provided at Ottawa for the protection of the Canadian public from irresponsible tramps and companies. The following are the terms of Sec. 13 of 40 Vic., cap. 42.

"Any person who delivers any policy of insurance, or collects any premium, or transacts any business of insurance on behalf of any life insurance company, without such license as aforsaid, shall be liable to a penalty of $1,000 for each such contravention of this Act,—which penalty may be sued for and recovered on information filed in the name of the Attorney General of Canada; and one half of the said penalty when recovered shall be paid to the Crown, and the other half of the said penalty to the informer: and in case of nonpayment of such penalty and costs within one month after such judgment, the person so offending shall be liable to imprisonment in any jail or prison for a period not exceeding six months in the discretion of the court wherin he is convicted."

If the party be responsible, he is evidently liable for some $25,000 or $30,000 of penalties, for he delivers a "policy," and collects a premium. One man paid him $14, another $18. One invested in no less than four policies of $2,000 each. The first three clauses of the policies read:

"1. The above-named member hereby agrees to forward to the Association Two Dollars and Twelve cents within thirty days after due notification of the death of any member of the Association. And further if the said amount is not received by the Association, within thirty days from the date of such notice, then and in that case, this certificate shall be null and void, and of no effect."

"2. A printed or written notice from the Secretary, directed to the address of said member as it appears on the books of the Association, and deposited in the Post Office, shall be deemed and taken as legal notice. Due notice must be given to the secretary of the Association, by said member, of all changes of his residence, occupation or name."

"3. The above-named member further agrees, that if the annual dues are not received by the Association on or before the day they become due, then this certificate shall be null and void and of no effect."

After a man has paid for a good while how easy to change his address on the books at head Office, and send his notice to Parrbora, N. S., or somewhere else. or to call for double the assessments needed each month, as the Rochester Mutual Benefit Association now confesses to have done during a good part of the past year. This Temp. Mut. Benefit Association, in 1879, flattered its membership with an assessment of only $5.67 per $1,000, but in 1880 it had to collect $22.83 per $1,000, causing about one-third of its members to drop out.

The following particulars of how much a policy of $2,000 in some of those irresponsible assessments swindles amounts to, we clip from a good authority:

Mr. Hoke, of Wrightsville, Pa., carried a $4,000 risk in the Southern Pennsylvania, of Hanover, and when his risk died, he received $441, because it was all the assesment brought.

Isaac Beard, of York, Pa., carried a $1,000 risk in the People's Relief of Hanover, Pa., and received $96.42. There wasnot much relief in that.

John Brickley, of Meyerstown, Pa., carried a $1,000 policy in the Southern Pennsylvania, of Hanover, P., on the life of Jacob Schaeffer, and received $73.50.

George Shotzberger carried a $6,000 policy on the life of Henry Heinbach, in the Hanover Mutual Aid Association of Hanover, Pa., and received $958.

Andrew Kerstetter carried a $10,000 policy on the life of his mother, Barbara Kerstetter, in the Agmen, of Selinsgrove, Pa., and received $366.

Percival Lenig and———Shotzberger carried a $3,000 policy on the life of Joseph Lenig, in the Prudential, of Harrisburg, Pa., and received $90.

Wm. Witmer carried a $1,000 policy on his own life in favor of his wife, in the Beneficent of Middletown, Pa. He died, and she received $38.37.

COBOURG.

INCENDIARISM.—The *World* says that last Sunday morning, about two o'clock, a fire broke out in the sheds at the Agricultural Grounds here. It must have been kindled in several places about the same same time, as the fence and sheds, for several rods, were ablaze in a very few minutes. The flames wereextinguished after having consumed a line of sheds and fence nearly twenty rods long. Again about daylight, the same morning, the vacant building formerly used as a Collegiate Institute was discovered to be on fire. Here the flames did not make much headway before they were arrested. The inside of the building was considerably damaged. We are pleased to state that our Town Council are taking active measures to guard against the frequency of incendiarism in our midst.

THE NEW POST OFFICE.—Our Postmaster removed the Office last week, to Hitchins' new block. The citizens of Cobourg can now boast of having one of the most suitable and commodious Post Offices in the Province. Mr. Sykes has not yet completed the furnishings of the new premises, but we expect soon to see everything arranged; which will add to its convenience and attractiveness. After this week the office will close at 7 o'clock.

THE HOG.—This important source of wealth to the Canadian farmer, is never so remunerative or so healthy as when his feed has been mixed continually with Harvell's Condition Powders, as they vastly improve his weight, and the flavour of his flesh.

FROM ALL OVER.

When an evangelist asked a young man, who came into the car and sat down beside him near the door, if he was a Christian, the young man answered, "No, I am a brakeman."

The Bishop of the Episcopal diocess of New Hampshire has startled the people of that State by saying that he would not be surprised if the Saviour's coming were near at hand.

A RELIGIOUS paper printed at Poonah, India, says of a young woman who committed suicide: "She ended her virtuous life in the cool retreat afforded by a convenient and umbrageous well.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma

BRADSTREET reports the week's failures in Canada as four, a decrease of six compared with the corresponding week of last year. The same agency reports a rush to the retail stores for Christmas goods, showing widespread prosperity.

"TO SUCH an extent did I suffer with inflamatory rheumatism that I could not feed or dress myself without assistance. Two-thirds of a bottle of St. Jacobs Oil entirely cured me, and I consider it worth its weight in gold," says C. E. Jones, New Alexandria, Ohio.

A CHARITABLE society reports the bestowal of nearly half a million meals at a cost of a fraction under three cents a meal. It is thought that the necessitous persons who partook of these "meals" were not made to suffer from the overfed and stuffed condition in which many young persons and others find themselves after indulging in Thanksgiving and Christmas dinners.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

GUITTEAU was more than usually obstreperous at his trial yesterday, and frequently used such epithets as liar, scoundrel, puppy and sneak to the witnesses testifying in rebuttal of the insanity plea. Most of the witnesses were men to whom the prisoner owed money for rent of desk room. One witness testified that Guitteau told him he might one day kill some big man and emulate Wilkes Booth,

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterbororgh.

WALLACE ROSS suggests that he, Hanlon and Boyd put in two hundred pounds apiece and row on the Thames for the whole amount of the sweepstakes thus formed and the new *Sportsman* challenge cup. Hanlan views the proposition favourably. but would like to see the stakes increased to four hundred pounds each, and suggests that Trickett should join in, and settle all questions of supremacy at one sweep.

SIR LEONARD TILLEY and Sir Hector Langevin yesterday paid a visit to Brockville, and were enthusiastically received. During the day the various industries of the town were inspected, and all found to be flourishing, thanks to the beneficial effects of the Government's policy. In the evening an address was presented to the honourable gentlemen, who made very happy and exhaustive replies, reviewing the condition of the country.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

A BENNINGTON (Vt.) doctor had an adventure the other night. He met a woman on the road about midnight, dark and dismal, as he was returning from a call. She asked for a ride, and he took her in, but noticed that she wore heavy boots and acted like a man. The doctor was scared, and, apparently by accident, dropped his whip and asked his companion to pick it up. She got out and the wily leech drove off. He afterwards opened a bundle the person had left in the wagon. It contained burglars' tools, pistols, and knives.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

Australian Forests.

The Australian colonies are discovering the importance of taking steps to preserve their forests from further destruction, not only on the ground that the timber should be protected, but in order to prevent losses in the water supply. Evils which attend the destruction of trees are already felt in many provinces in an increased dryness of climate, longer droughts, and more numerous bush fires. During the 38 years ending in 1868 the average annual destruction of the New Zealand forests was 23 per cent., and in the five succeeding years 20 per cent. It is proposed in South Australia that a block of 200,000 acres be reserved for systematic tree-planting, and that in the first year $70,000 be expended on it, and in each of the 11 following years $32,500, a total expense of $650,000. After the first five years there would be, it is estimated, a revenue from periodical thinnings of $175,000, and in 21 years the colony would possess 310 square miles of forest.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

A LITTLE OFF!

It puzzles some to understand how we can afford to sell at such low prices and still make a profit. To us there is nothing surprising in the matter. There are those amongst us who are "a little off" in their reckoning, but of this later. *So far we have merely inserted the thin end of the wedge*, when the "spring time cometh" we will apply a sledge hammer to the other end.

LOCAL AND MUNICIPAL.

Presentation.

On Saturday evening there was a presentation and address to Mr. Emmet Kendry at the Auburn Mills, on the occasion of his leaving for Campbellford. Miss Frances Rutherford presented the watch on behalf of the weavers and employees in the weaving room, and Mr. George Way read the following address:—

AUBURN MILLS, Dec. 10th, 1881.

To Mr. Emmet Kendry.

DEAR FRIEND,—As you are about leaving us, we, the weavers and employees of the weaving room, beg to offer you an affectionate "farewell" and "God speed;" and to request your acceptance of the accompanying watch, as a small token of our esteem and gratitude for the uniform kindness with which you have treated us and for your untiring endeavors to promote our interests.

We all cordially unite in hoping you may be successful in your new undertaking, and with all our very best wishes for the future welfare and happiness of yourself and Mrs. Kendry, we beg to subscribe ourselves.

Faithfully yours,

Signed on behalf the Weavers and others { FRANCES RUTHERFORD, MAY A. FRANKLAND, WM. SOMMERVILLE, GEORGE WAY, ROBERT WAR, and 39 others.

Mr. E. Kendry made a suitable reply.

THE ADVANTAGES OF MECHANICAL DRAWING.

To the Editor of the Review:

SIR,—Much that is taught in our schools and colleges is primarily with a view to mental training or mental discipline. Such is the case with a great part of an ordinary mathematical course or a course in the ancient classics. It is generally admitted that such studies have little or no practical bearing on any of the ordinary pursuits of life. Drawing of any kind, but particularly mechanical drawing, if viewed simply as a means of mental discipline should rank high. It incites to the habit of correct observation, gives exercise and strength to the powers of reason and reflection, matures the judgment, cultivates the taste, trains the eye, and makes the hand dexterous. A turn at good muscular exercise is about all that is wanting for the cultivation of the whole man. This is a good showing on the score of general training. But besides this by far its greatest value lies in the *practical* advantages it offers. It is a prime necessity in nearly all of the departments of art and manufacture. The economical construction of our modern high class work requires a carefully designed prearranged plan, which is usually embodied in the form of a drawing generally made to a scale—shewing the thing as a whole, with the several parts in their true position and proper relation; other drawings of portions and sectional views are also added as required. This is building up the thing on paper and has nearly all the advantages of genuine trial construction. The efficient draughtsmen then must understand the builder's art, and it follows, that to properly teach mechanical drawing is not alone to show how neat lines of geometric forms may be made on paper, but also to teach the principles of the science pertaining to some particular mechanical trade. And the workman, who learns, implants upon the basis of his already acquired manual skill a knowledge of the mechanical principles involved in the work he performs. Consequently ambitious, progressive young men, who have a very natural desire to master the theory as well as the practice of their trade, take up this study and art, for it is really both; not always with a view of becoming expert draughtsmen and following it as a life pursuit, but for the purpose of becoming better masters of their own situation. They know then not only *what* they are doing but *why* they do it. If a new drawing is placed before them to work by, they feel an acquaintanceship with that sort of thing, they not only see it but they see *through* it. They can begin the work at *once* and begin *right*, while to many engaged in the trades an average mechanical drawing is about as puzzling as a mass of Egyptian hieroglyphics.

Every man's work should contribute to his pleasure. Life at its best is dull enough, but it must be dreadfully dull to the man who for fully two thirds of his working hours has no greater interest in what he does than the pittance it gives him for daily support. He is under the curse of Adam to its full extent. I am aware that the employment of many is of such a nature that there is nothing in it to interest them. Their work is one perpetual treadmill—an endless routine soon learned and never to be forgotten.

This is all very well when the ability of the employee is just about equal to the situation, and he adds to it the grace of contentment. He needs no lessons in drawing. Such I think are somewhat excusable if with the monotonous web of their daily work a little diversion is interlaid. Active minds in such positions chafe and worry and soon leave them for others where there is scope for manual skill and mental effort. Such a man then enjoys his labor. It is to him a subject of study, and of course a matter of interest. He learns drawing to assist him in its prosecution, also for the pleasure of knowing the beautiful art.

A good knowledge of drawing is equal to a large amount of experience. Though experience is most always valuable yet it is often overestimated. Experience in doing work after clumsy old fashioned methods is a positive disadvantage, and experience even in some good methods often works a man into a rut and keeps him there. Experience is valuable when used as part of our stock of information on which we draw and apply to the matter in hand as each particular case may require.

The ability to do this—to turn things to account, to make the most of a given set of circumstances, depends most largely upon study, and the kind of study should be that which pertains to our own pursuit. Then with the knowledge of drawing we are enabled to readily give tangible form to our ideas. We express them in a universal language. Mechanics of every nation can read, understand and work by them.

Such, Mr. Editor, are some of the advantages obtainable from a study and practice of this interesting subject.

I am pleased to say that our classes start this winter with excellent prospects as to numbers and progress. Allow me also to thank you for the space you have so generously accorded us in the advocacy of Mechanic Institute matters.

Yours, &c.,

W. H. TROUT.

Our Band.

On Saturday evening—according to announcement—the Fire Brigade Band turned out and gave one of their popular rehearsals on George Street. The sidewalks were thronged with the public and they were in no wise disappointed in what they expected to hear. The band, under the ever-watchful eye of Bandmaster Miller, is playing better than ever, and we noticed some new and choice selections of a high order.

To-Night.

At the great auction sale of Furs, Robes, &c., there will be sold a consignment of fine Scotch and English tweeds, broad and narrow cloths, blankets, flannels, shirtings, damask and linen table cloths, and a variety of fancy goods all suitable for the present season and Xmas presents. To be absent will be your own loss.

The DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

The Weather.

The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Strong winds and moderate gales, gradually shifting towards the west; cloudy, mild weather, with local rains.

SUB-CONSTABLE Glynn, of Ballimore, was processed by William Logan before the Leitrim County Court Judge for £5 damages, for driving his sword through the head of a drum when dispersing a crowd at Mohill. The County Court Judge decided that the policeman had no right whatever to injure the drum, but adjourned the case till next assizes.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

WHAT SHALL I BUY?

There are two ways to supply your wants; one to find A RELIABLE MERCHANT and make use of him whenever you have need. The other to go in search of BARGAINS, offered by those who claim to have made their ANNUAL REDUCTIONS, that only in this cutting of rates get their prices down to the figures a reliable merchant has been selling at the whole season through.

In the latter case you may be served with shop-worn goods that could not be sold at the high prices they held them at.

People recognize that we are at the head of the first named class, we have as complete lines of Dry Goods as were ever collected in one Concern in Peterborough.

Great Bargains in all matters of DRESS GOODS are now being shown by us; and shoals of customers are profiting by the inducements of our prices to supply their wants.

We have made the most ample preparation to meet a stirring CHRISTMAS TRADE in fancy and seasonable articles.

AN ENGLISH VIEW.

THE London Railway *News* of November 26th has a long article on the "Midland of Canada Consolidation," in which it speaks very favourably of the amalgamation that has just been accomplished. After a detailed account of the different railways entering into the combination, and of the connecting links that are to be constructed, the article concludes as follows:—

"This proposed consolidation we consider one of the wisest measures which has had its origin in Canada for many years. It will build up a strong corporation, and, when the Ontario and Sault Ste. Marie road, incorporated for the construction of a line to the Sault Ste. Marie, is completed, the Midland will become one of the most important railway undertakings in the country. The promoters of the Sault Ste. Marie line appear, judging from the report of the directors, just published, to be confident of success. Their line, joined with the Northern Pacific, will make one of the shortest routes to the North Western States of the United States, and to the North West Territories of the Dominion. Such a line, if it is proceeded with, can be completed many years before it is possible to construct the Canada Pacific, projected to go north of Lake Superior—the most barren and inhospitable region on the whole continent. The proposed consolidation is one well adapted to strengthen the position of the Midland of Canada, while the support which it will give to the Grand Trunk, with which, as will be seen from the Map, it connects at several points, cannot fail to be of great value to that company in attracting to it a large portion of the business by way of the Lakes and Georgian Bay.

THE Napanee *Beaver* (opposition) pays the following well-deserved tribute to Sir Leonard Tilley, and the earnest manner in which he is endeavoring to discharge the important duties of his position:—"The interest displayed by Sir Leonard Tilley in his tours of inspection of the manufacturing industries of the country, together with his cordiality in listening to the claims of all classes for favours in the arrangement of the tariff and his affability in meeting the mechanics and labourers, has won for him a host of admirers if not supporters. * * * * * Although we fail to agree with all the points of the Finance Minister's policy, we must admire his readiness to give a fair consideration to every claim, and the endeavor he is making to personally investigate and comprehend the importance of each industry which his fiat is calculated to make or mar." When did Sir Richard Cartwright ever try to make himself acquainted by personal investigation, with the needs and difficulties of any class of our people?

TERRIBLE LOSS OF LIFE.

HONG-KONG, Dec. 12.—A typhon visited the coast of Tonquin, and the river inundated the plantations. The damage has been immense, and the loss of life great. Over two hundred bodies have already been recovered. The American ship Humboldt was wrecked at Lincoln island, and Clinton, the second mate, and a Chinese steward and cook drowned.

RUSSIAN AFFAIRS.

ST. PETERSBURG, Dec. 12.—The three officers, Major-General Mravinski and State Councillors Tjaeglieff and Foursoff, who were convicted of not taking necessary precautions in the matter of the Little Sadowa street mine, have also been condemned to the loss of all their civil rights and privileges. The sentence was passed at two o'clock this morning. Major General Marvinski's name is struck out of the army list. Extenuating circumstances were found by the jury, which was composed of merchants. Great surprise was manifested at the mildness of the sentence.

THE GREAT DISASTER.

VIENNA, Dec. 12.—The bodies of 126 victims of the disaster at the Ring theatre were interred at the Central Friedhof yesterday by their friends. To-day 151 were placed in the vast common grave that, before it closes, will have received the few charred remains and ashes of 700 more of the victims. Of those now buried only 125 have been identified. The rest are unrecognizable by their friends and relatives. This is best, for the memories of the loved departed are happier than they would have been otherwise. The vast excavation is 108 feet long by 14 wide, with three openings for lowering the coffins. It will be the last resting place of all, irrespective of their confessions; Catholics, Protestants, Greeks, and Jews, all rest together as they found death together. Priests of all four confessions joined in to-day's solemnities at the Central Friedhof, each forgetting their religious rivalries in the common sorrow of the people. It was a solemn and touching ceremony. Twenty thousand people had walked the long four or five miles to the great cemetery in Vienna. Some places of business were closed, and black flags were suspended in front of the cathedral of St. Stephen and from the large public buildings.

THE LAND COURT.

LONDON, Dec. 12.—At a sitting of the Western Land Court in Ireland on Saturday, Sir Roger Palmer's agent informed the Court that he thought their reductions of rent were based upon just principles. Rents, he said were generally much too high, and with Sir Roger Palmer's authority he was arranging a reduction of his entire rental on the basis of Land Court decisions.

SOLD FOR RENT.

CORK, Dec. 12.—Forty farms, seized under execution for rent, were offered for sale. Twenty-one were purchased for the landlords. In ten cases the tenants settled the rent.

WHOLESALE ARRESTS.

ST. PETERSBURG, Dec. 12.—The *Nova Vremya* states that during the recent disorders in Odessa the police and Cossacks searched all the restaurants, night houses, etc., and arrested 1,348 persons.

THE GOVERNMENT.

LONDON, Dec. 12.—The Press Association states that Earl Spencer, Lord President of the Council, has arrived in Dublin. It is believed he will consult with Forster, Chief Secretary, and Earl Cowper, Lord Lieutenant of Ireland, regarding the state of affairs in that country.

NEW BARRACKS,

LIMERICK, Dec. 12.—A meeting of magistrates will be held to-day to consider the providing of additional police barracks.

COLONIZING CANADA.

LONDON, Dec. 12.—To-morrow the prospectus of the new land company to promote the colonization of lands in the North-West will be issued. The title of the Company has been changed to "The Land Corporation of Canada." The capital is fixed at £500,000, divided into fifty thousand shares of £10 each. The directors are the Duke of Manchester, Robert G. Allen, Sir Rowland Blennerhasset, Messrs. Alexander Frazer, Ellis Gilman, Arthur Grenfell, Henry Mayland. There will be a Canadian local committee, consisting of Messrs. Bannatyne, Bain, Blanchard, and Sweeny, of Winnipeg. The bankers in London will be the Westminster Bank, and in Canada the bank of Montreal. The corporation has the option of purchasing from the Syndicate one million acres of land along the main line of the Canada Pacific railway or its branches. They contemplate also purchasing other lands from the Hudson Bay Company and the Government of Canada. They will divide the land into farms of from 160 acres each to 640 acres each. On each farm they will erect suitable buildings and will let these farms to tenants. The terms will be very easy, with a view to inviting settlement. The tenants will be offered the option of purchasing their farms on certain conditions. The project is received generally with favour among business men in the city, and it is thought the shares will be disposed of without difficulty.

AMERICAN.

EMBEZZLEMENT.

POUKEEPSIE, N. Y., Dec. 12.—Seneca Halloway, paying-teller of the Poukeepsie National Bank, was arrested this morning, charged with embezzlement. The bank officers say a partial examination of the books shows a shortage of from $40,000 to $50,000, which is about one third of bank's surplus. Halloway was recently elected County Treasurer.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

J. D. Tully is agent for the Bitters here.

H. AND O. SHIP CANAL.

Letters From Toronto Representatives Favouring the Scheme.

The following joint reply has been received by Mr. Capreol to his letter:—

TORONTO, Dec. 10th, 1881.

F. C. Capreol, Esq.:—

DEAR SIR,—In reply to your public letter to us of the 8th inst., we have to say we would be glad to advance the interests of the Huron and Ontario Ship Canal as far as lies in our power. Since the hydraulic lift-lock can be applied to canal purpose we cannot doubt that the construction of this Canal will be so much cheaper than originally supposed, that the work can now be accomplished. Such an enterprise is of great importance for the commerce of the great North-West, giving to Canada the benefit of the trade by the outlet of the St. Lawrence, instead of by way of New York, and will, if carried out, without doubt revolutize the carrying trade of this Continent. We desire to say that we think you deserve every credit that a community can give for the untireing and determined energy shown to carry out such a vast enterprize as the proposed "canal," which would be alike beneficial to the Dominion and the Province of Ontario, and especially to our constituents. We are glad to learn that the Ontario Government is considering the subject; they should take the initiative. If the Provincial Government acts liberally and promptly, it would be a strong reason why the Dominion Government should seriously entertain propositions for aid to a work calculated to favourably effect the interests of the Dominion at large as well as the Province.

Yours, very truly,
(Signed) SAM'L PLATT, M. P.,

IRELAND.

THE Ladies' Land League of Trim have sent a beautiful arm chair to Mr. Charles Stewart Parnell in his cell at Kilmainham.

THE Rev. Laurence O'Keeffe, C. C., of St. Mary's, died, on Nov. 13th, from fever contracted while discharging the duties of his office.

Two men charged at the Belfast police court with cursing Mr. Gladstone, the Government, and "Buckshot Forster," have been sentenced to one month's imprisonment each.

A WOODEN house was recently supplied to an evicted family at Turlough, by the Land League. The house was planned in Dublin, and on arrival, only the putting together of the various parts was necessary.

THREE Coastguardsman from Ballyvaughan were drowned, on Nov. 12th, while proceeding to unload stores from her Majesty's revenue cutter, the Stag, by the capsizing of their boat in a sudden squall.

ON November 13th, a party of men, numbering eight or ten hundred, with dogs and shillelaghs, assembled in Clogheen, with the intention of having a hunt. They killed some game, which they presented to the families of "suspects."

ON November 7th, 800 men, with 95 ploughs, assembled in the neighborhood of Enniscorthy to save the crops and sow the winter corn for Mr. Gregory Murphy, who is at present in Kilmainham. The work was completed in about two hours.

THE farmers in the Clonmel district still refuse to pay rent. A black flag inscribed, "Pay No Rent," is floating from the summit of Cullohill Castle, on the border of county Tipperary, and all the efforts of the police to pull it down are unavailing.

ON Nov. 16th, an offer of Lord Miltown to purchase forty acres of land near Naas, part of the estate of T. B. Browne, owner and petitioner, was sanctioned by Judge Ormsby. The lands comprise forty-one acres, the rent is £40, and the offer was £2,000, or 40 years' purchase.

ON November 17th, Mr. Gray, M. P., visited the suspects in Kilmainham. He was the bearer of a box containing a dressing gown and smoking cap, presented Mr. Dillon from the Dungarvan branch of the Ladies' Land League. The cap was made for Mr. Dillon by Mrs. Cassidy, an English lady, and a member of the Land League.

OUR RAILWAY SYSTEM

The Midland Railway Now Commands Central Ontario.

ON THE THROUGH LINE FROM TORONTO TO OTTAWA.

THE "MISSING LINK" TO BE CONSTRUCTED AT AN EARLY DATE.

A Good Outlook for Peterborough—Securing the Grain Trade—Mr. Cox's Masterly Speech—The Views of the Directors.

From Our Own Reporter.

A special general meeting of the bond and shareholders of the Midland Railway was held at Port Hope on Monday afternoon. The chair was occupied by Mr. Geo. A. Cox, President, and among the others present were Messrs. H. Read, Secretary, R. Jaffray, H. P. Dwight, Toronto, J. R. Dundas, Lindsay, and Lewis Ross, Port Hope, directors, and Messrs. W. Gooderham, President of the Toronto and Ottawa and the Toronto and Nippising Railways, Toronto, W. Cluxton, Peterborough, E. S. Vindin, Col. Williams and A. Hugel, Port Hope and representatives of the press. Mr. H. Read, Secretary of the Midland Railway read the notice calling the meeting.

In moving the resolution for the ratification of the agreement, Mr. Cox spoke as follows:—

GENTLEMEN:—The notice which has just been read by the Secretary and the consolidation agreement upon the table is sufficient to show the extent and importance of the business that we have met here to-day to transact. As the interests of the proprietors of the Midland and other railways are so largely involved and as our action to-day cannot fail to affect, to a considerable extent, the welfare of the communities served by the various railways interested, I will endeavor to place before you, the nature and object of the negotiations which your directors have been endeavoring to bring about during the past few months, and which we have now the pleasure of submitting for your approval. In order to make myself understood by the large number of our proprietors who do not reside in this country, and with whom we have not the good fortune to meet to-day, I will briefly refer to the various railways as they now stand—to the extensions and links proposed in order to complete the system and place it in a condition to work with the greatest economy, combined with efficiency, and will endeavor to show what we expect will be the earning power, and advantages to be gained by such consolidation, both to the public and to the proprietors of the various companies. The agreement itself, which is in the hands of, and accessible to all interested parties, will show the financial basis under which it is proposed to admit the different companies into the contemplated consolidation. You will find on the table before you a small map indicating, perhaps somewhat roughly, the general outline of the Midland Railway, as it will be if our proposals are accepted by you to-day, and you will notice that the different lines which it is now proposed to consolidate are so located as to more or less interfere injuriously the one with the other whilst under separate management, and that some of them are so small as to make the burden of separate management unprofitable, whilst a want of unity has been a serious drawback to an efficient train service and car supply. Of the lines, as they now stand, the Midland Railway has a mileage of 142 miles, and I am very much pleased to be able to inform you at this stage that its earning power is increasing in a very rapid ratio, and that our most sanguine estimate of the earnings for the year 1881, in spite of one or two serious drawbacks, is now almost certain to be realized, which means that we shall have a gross revenue of over $400,000, and a net revenue quite sufficient to pay all our interest obligations on our bonds. The Toronto & Nipissing Railway runs from Toronto to Coboconk on the main line, with a branch, under lease, of 27 miles from Stouffville to Jackson's point on Lake Simcoe making a total mileage for that railway of 115 miles, and during the past few years it has averaged a gross earning power of about $200,000 per annum. The Whitby, Port Perry, and Lindsay Railway runs from Lindsay to Whitby, a distance of 46 miles, and its earnings under the pool with our company were $90,298 for 1880, and will be about $105,000 for 1881. The Victoria Railway runs from Lindsay to Haliburton, a distance of 56 miles, and its gross earnings since its extension to Haliburton have been between $42,000 and $47,000 per annum. The Grand Junction Railway, runs from Belleville to Peterborough, a distance of 66 miles with a branch from North Hastings Junction to Eldorado, of 23 miles. It has not yet been fully in operation for one year, but will probably make a gross earning of about $115,000 between the first of June, 1881, and the thirty-first of May, 1882. This gives a total completed mileage of 438 miles on which we find a gross earning of say $865,000 per annum is being made. To complete the system it is proposed to carry on the construction of the Toronto and Ottawa railway from Madoc to Ottawa, and there to connect with existing lines to the seaboard, and also to make a connecting link between Peterborough and Omemee and between Manilla and Wick. The Toronto and Ottawa railway is already under construction, and a large number of men are employed on it at the present date. The line runs through a section of country which will undoubtedly give it a remunerative local traffic, section by section as each section is completed. The link between Peterborough and Omemee is required to shorten the distance from Ottawa to Toronto and in fact from points on the Toronto and Ottawa, Grand Junction and Midland south to points on the Midland north, Toronto and Nipissing, and Victoria divisions, including the city of Toronto. The same remarks also apply to the link required between Manilla and Wick, and to the business interchanged with the city of Toronto and principal places on the Midland south, Whitby, Grand Junction, and Toronto and Ottawa divisions. These links will be 14½ and 6½ miles long respectively, and when completed will reduce the distance between Peterborough and Toronto by our own route from 117 to 88 miles, and this saving of 29 miles will be effected on the whole of the traffic passing between the principal points on the new system. The proposed Ontario and Sault St. Marie line starting from Kirkfield or Atherly on the consolidated system will afford most important connections, and add very largely to our earning power. I have given you the general outline of what in the opinion of your directors it is desirable the Midland railway should be made by consolidation and otherwise. The agreement now submitted for your approval shows the financial basis under which it is proposed to bring the various interests into harmony under one system, and provides the necessary funds for the immediate prosecution of the new works, and the thorough equipment of the entire line in keeping with the largely increased traffic that it will be sure to have. The construction of the Toronto and Ottawa railway or rather the extension of the Midland railway to Ottawa, you will see is to be pushed forward with all possible speed from our present eastern terminus. Our train service will be extended over the new line as it is completed in sections, and your directors are confident that these sections will become self supporting from the outset even before the line is complete, and makes its eastern connections at the city of Ottawa. The net earnings for the most part of the different lines which it is now proposed to consolidate, while to some extent working in opposition to each other have been sufficient to pay the interest on the amount that they now represent in the consolidation; this taken in connection with the largely increased earnings, and reduced working expenses that must necessarily result from a fusion of interests under one management places the new company at once upon a highly satisfactory financial basis as regards its dividend paying ability. I may mention that some of the reasons why your directors are so sanguine of large additional earnings is because the Midland Railway in the past has had no proper outlet of its own to the City of Toronto, which is the commercial centre of Ontario, in consequence of which the trade of that City has either been forced off our line into the hands of competing routes or we have had to divide up the earnings on the Toronto and Western trade with either the Grand Trunk, the Northern, or the Toronto and Nipissing Railways, but the latter being a Narrow Guage Road, necessitated a transfer which practically discouraged traffic over it in the face of other lines being able to offer through facilities, which we will now be able to offer, as the Toronto and Nipissing has completed its change to the Standard Guage during the present month. This facility will give an immense impetus to both our passenger and freight trade from the northern end of the Midland Railway; it will also materially assist us in developing the large through trade from points situated on the upper Lakes *via* Midland and Toronto. In the past we have had to divide up all our through rates, allowing the carriers which actually had access to large markets, from 30 to 50 per cent. of all rates earned; (the same remarks apply not only to the Midland but to all the lines now proposed to be consolidated), whereas in the future the whole of these monies will be earned and retained on our own system, and will be largely augmented by our extension eastward. The recent completion of our Elevator and Docks at Midland, the commencement of the through grain trade, the erection of New Mills, and the generally increased activity in lumbering operations on the Midland Division, as well as the activity in the mining interests, and extensive developments of new ore beds on the Grand Junction Division, all afford unmistakable evidence of increased traffic, and you will observe that in our financial arrangements we have made ample provision for the additional Rolling Stock that will thus be required to give prompt and efficient service to the public. While we have been so earnestly engaged in carrying on the negociation here it is gratifying to know that the Proprietors have not by any means been indifferent to the matter, as evidenced by the fact that out of a total of 109,500 votes no less than 87,727 are represented here to-day, either in person or by proxy. The agreement has not yet been published, and for various reasons we do not consider it advisable to place it in the hands of the general public at the present time. It is however now accessible to all the interested persons. The promoters of the Ontario and Sault Line are very sanguine of its early construction and it is the intention of the promoters of that road with the aid of the consolidated Lines to push forward the work without delay. The Government feel very strongly the great importance of the Sault Line, and will doubtless grant Provincial aid. The bond and shareholders in England are kept informed on all that is going on in Railway circles and take a great interest in our affairs. A circular had been sent out asking for proxies, and such a great number had complied that the vote to-day represented a large majority of both Stock and Shares.

A TORONTO MAN'S VIEWS.

In seconding the resolution Mr. R. JAFFRAY, Toronto, said that the President had gone over the ground so thoroughly that there was very little left for him to say. From the great popularity of the scheme throughout the entire country, it was evident that the people will get better accommodation and will not be cramped as they have been on different occasions. There are no points touched by this line where competition now exists. There was at Lindsay, but when the pooling arrangement was made, it was done away with, and now the people are better served. He did not know of any places on the line that would be benefitted to such extent as Peterborough and Lindsay. Both of these towns possess magnificient water power, especially the former, and with an outlet for their goods, he expected to see manufactories spring up in all directions. This scheme will give Central Ontario a railway system that is unequalled in the Dominion. He could promise that next season the company would have three steamers every week running from Midland to Duluth and Thunder Bay. These steamers would be first class in every respect, and would afford the very best accommodation for travellers and business men. This would be the shortest route to the Great North-West and would bring Peterborough, Lindsay, Uxbridge, Markham and other places, in direct communication with the greatest wheat growing country of the world and would open up a vast trade. The amalgamation scheme had been favorably received by the press everywhere and he had not seen an unfavorable comment. He thought that in these days of combinations this was a good sign that the public had confidence in the scheme and did not fear that there was any swindling about the transaction. Mr. Cox had given them estimates and he could say that any estimate that had ever been given by Mr. Cox had always been overdone and he thought that the last estimate given was the safest yet. This step would be one of the most beneficial to the Province at large, that was ever taken, and no road ever did Toronto as much good as this one will do. He had great hopes of the success of the road and felt that all who took part in the work would be proud after the consolidation was completed.

A PORT HOPE VIEW.

Mr. Hugel said that the present scheme was one of the greatest and most thorough that had ever been undertaken in Canada and was an old idea of his. He was glad to see that the name of the Midland was to apply to the consolidated roads, and gave Mr. Cox credit for bringing such a thing about. This road would open up the North West to Toronto and greatly benefit that city. He thought that Port Hope would be greatly benefited by having the roads all under one management. In former days he had opposed the scheme of pooling with the Whitby Port Perry and Lindsay road, as he always felt that the connection should be made with the Nipissing road and he felt so yet. It was in the interests of shippers to seek the nearest outlet and as all know Port Hope is that place. He concluded by congratulating Mr. Cox on the consummation of the scheme.

THE PROPRIETOR OF THE NIPISSING.

Mr. Wm. Gooderham said it was a well known fact that railway men were workers and not talkers and therefor those present need not expect much from him. Mr. Cox had treated the subject in a masterly manner and had left nothing for him to say. This scheme was one that must and did commend itself to the common sense of the people. He felt that before long the railways of this country would be controlled by three lines, the Canadian Pacific, Grand Trunk and Midland. He said that the consolidated roads would have a big affair on their hands to furnish an outlet for the produce of the North-west. He would do all in his power to make this scheme a success and would put all the ability in it that he could in order to attain that end. As far as he was concerned there were no petty jealousies and in conclusion he wished the new road prosperity.

A PETERBOROUGH VIEW.

Mr. Cluxton came as a spectator and to listen to the explanations given by Mr. Cox. He thought that a great deal of wisdom had been exercised to carry out the scheme and he felt that it was one that must meet with the approval of the entire country. He had taken a great interest in the Toronto and Ottawa Railway from its inception until it was secured by Toronto men. He had always favoured going by way of Lindsay and was glad to see that this road was going that way. When the Toronto and Ottawa road was first spoken of, the *Monetary Times* looked on it as a visionary scheme, but he had written a letter pointing out that a competing line to the Grand Trunk was a necessity. He were glad that the scheme had been consummated and hoped that it would be as great a success as the President anticipated.

CARRIED UNANIMOUSLY.

Moved by Mr. Geo. A. Cox, seconded by Mr. R. Jaffray,—That the agreement now submitted to this meeting for the consolidation of the Toronto and Nipissing Railway Company, the Whitby, Port Perry and Lindsay Railway Company, the Victoria Railway Company, the Toronto and Ottawa Railway Company, the Grand Junction Railway Company and the Midland Railway of Canada," is hereby approved and the directors are hereby authorized to use all lawful means in their power, by petition sealed with the Company's seal and otherwise, to secure the confirmation of the said agreement by the Legislature of Ontario.

The resolution was carried without a dissenting vote.

CONGRATULATIONS.

Mr. Jaffray was glad to see Mr. Gooderham, the President of the Toronto and Nipissing and Toronto and Ottawa railways, present, as he had taken a very active part in the promotion of the scheme. It was also very gratifying to hear Mr. Cluxton express himself as [being in favor of the road being built by way of Lindsay.

WITHOUT DISSENT.

Moved by Mr. Cox, seconded by Mr. DWIGHT,—That the draft act now submitted to this meeting, confirming said agreement is also approved, and the Board are hereby authorized to sign and seal such petitions therefor as they may deem best. The President is authorized to add such clauses to the said act, as he, the President, in his judgment may deem proper. —Carried unanimously.

THE WIND UP.

Mr. Cox thanked those present for their attendance and the interest they had taken in the meeting. He was much pleased with the manner in which things had terminated. There was great interest taken in the meeting by the English bondholders, as evidenced by the large number of proxies that had been sent out.

The meeting then adjourned, subject to the call of the President.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

SCOTLAND.

ARROL & Co. have secured the contract for the erection of the new Tay Bridge, and the work is to be proceeded with at once.

THE Duke of Buccleuch has granted ground for a new pond to the Hawick Curling Club. It is to be in the field on the farm of Whitlaw, close Crowbyres Bridge.

IN the Western Islands, and on the western coast of Inverness, Ross, and Sutherland, over three hundred fishing boats were destroyed by the late gales, and the nets washed away.

THE Royal Scottish Academy has appointed a committee, with Sir Noel Paton as Convener, to collect sketches and works of art for disposal on behalf of the East Coast Disaster.

THE first pipe of the Rye water scheme of Paisley was laid on the 15th November near Beith Railway Station in the presence of the Paisley Water Commissioners. The scheme will cost £100,000.

AT a meeting of the Edinburg Town Council on the 15th November a sum of 100 guineas was voted as a guarantee fund in connection with the forthcoming International Fisheries Exhibition.

IN addressing his constituents at Linlithgow on 14th November Mr. Ramsay, M.P., said that to give Ireland a separate national existence would be to bring about a terrible crisis in the country.

CLUNY MACPHERSON, C.B., who commanded the Inverness Highland Rifle Volunteers at the Royal Review on August 25th, has presented a commemorative medal to every officer of his regiment present on that occasion—28 in all.

ST. MARGARET'S Loch is being drained to such an extent as will practically insure immunity from drowning this winter should the ice break and skaters fall in. The condition of Duddingston and Dunsappie Lochs is also receiving attention.

TWO farms belonging to Berwick have just been relet at a startling reduction of rent. The first, rented up to to present time at £440, is relet at £215, exclusive of £50 tithes; the second has gone down from £430 to £235, exclusive of £70 tithes.

A SHETLAND fishing boat, while engaged at the haddock fishing on the 15th November, brought up with one the hooks the remains of a waistcoat with a Geneva watch and chain attached. The watch was greatly corroded, but the chain was in good condition.

DURING the storm on the 14th November snow fell heavily in the Vale of Lethnott, and numbers of sheep were smothered. On one grazing over eighty dead sheep have been got, and more than a score, still missing, are supposed to be buried under the snow, which in various places is over five or six feet deep.

FROM ALL OVER.

IT is understood that the marriage of Prince Leopold with the Princess Helena of Waldeck is to take place at Windsor Castle in March.

EXPERIMENTS in Mississippi are held to prove that cottonseed oil for frying purposes is superior to lard, there being no rancidness, burning or blackening.

ALOIS DANTON, now a corporal in the Austrian service in Bosnia, sends five florins to the Paris *Express* as a subscription for a statue of his great grandfather, the Danton of 1793.

AN Iowa girl has had all the love letters sent to her by various admirers bound into a book, and keeps it an the parlour table with the family album for the entertainment of her callers.

NEW Hampshire has a young lady of good circumstances who, upon graduating from school thought that for a case of emergency she should have a trade. She is learning to clean and repair watches.

"I HAVE given St. Jacobs Oil a trial on sores and fresh wounds of horses, and find it to relieve the soreness in a few hours. I deem it valuable to all owners of horses,"—says Mike Goodin, Esq., of the Belmont Driving Park, Montgomery Co., Pa.

EVERY painting of the great masters in Rome is now photographed, and some of the photographs are sold in the Eternal City at a cent a piece. The well-known dealer Piale, on the Piazza di Spagna, always keeps one million of them on hand.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

WHAT is the matter with art in Boston? The Boston *Herald* says:—"So you want to laugh, do you? Then stroll down to the Museum of Fine Arts, and look at the Christmas card designs."

BY applying a current of electricity through a new curling iron, a regular degree of heat is obtained, which is said to be much less injurious to the hair than the old-fashioned curling iron or slate pencil.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

A FRENCH novelist makes his gentlemanly hero say:—"When you are not on speaking terms with a gentleman he does not stare at you whether you are alone or with a lady. If he is a boor he will stare, which is a sure sign that it is better to have his gaze than his acquaintance.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

FARM HINTS.

A good bed keeps a horse clean when lying down, and aids his rest. Wheat straw is about the best article of which to make it.

A small maturing hog is much more valuable than a large one, as no more feed will be required to raise two good quick-growing ones than it will for a large but slow all-lard hog.

Mix a little sulphur with salt and feed occasionally to sheep. It will effectually destroy sheep ticks. The same remedy applied to cattle troubled with lice will soon rid them of vermin. The use of sulphur with salt repays the trouble of keeping a supply for cattle and sheep. If a mixture of one part of sulphur with seven of salt be freely applied, there will be no trouble with vermin.

THE BEST FARM HORSE.—What class will be the most profitable to raise is a question of interest to nearly every farmer. Trotters may be set aside. The care and skill required in training, even when the colt has all the advantage of pedigree, is such as would make serious inroads upon the time and patience of all but a fortunate few. So the trotter may be set down as not a profitable horse for the farmer to breed; but carriage and heavy draught horses are. Both of these kind are scarce in all our large cities, and the demand for them greater than the supply; hence prices are always remunerative. For some years to come no sort of farm stock will be more profitable than these two classes of horses. The carriage horse requires a good share of thoroughbred blood in him, else he will show a deficiency in style, spirit, action and endurance, qualities that constitute the chief value of that class.

CLEANLINESS IN MILKING.—The manner of milking in the Channel Islands, the home of the Alderney, is peculiar, and has the merits of cleanliness, at least. Milking and straining the milk are done at one operation. The milkmaid with her tin pail, linen strainer and sea shell proceeds to the pasture. Seating herself beside the cow, she thus completes her arrangements. The strainer is securely tied over the narrow-mouthed bucket, and placing the large narrow shell on the strainer she vigorously directs the stream into the shell; overflowing the shallow brim, the milk passes through the strainer into the receptacle beneath, the shell being used simply to prevent a hole in the linen strainer.

GIVE your animals good dwellings. The inmates of stables and sheds need light and ventilation fully as much as the denizens of our handsomest houses. And yet thousands of horses, upon whose work men and families depend for their livelihood, are stabled in close dark, filthy inclosures, while cows of whose life thousands of children are partakers in the most literal sense, fare far worse in all that pertains to health. It is believed by many careful observers that animals are as sensitive as men even to malarious influences. Certain it is that in malarious regions the horses and cattle are always thin, bony and spiritless.

SOOT FOR FERTILIZING.—I have long had great faith in soot as a manure, and have here a covered box placed near the castle, into which the sweep puts all the soot from the chimneys and flues, from time to time. This in the course of the year amounts to an incredible quantity of manure, and very handy and useful we find it. When a piece of ground is dug, we give it a dressing with soot, and then (in gardening phrase) "break it down" for the crop. This really means running a harrow or rough rake over it, and it mixes the soot with the soil nicely and the result is always satisfactory in the crop. Last year our onion crop showed unmistakable signs of the maggot. I immediately had the piece dressed with soot. Heavy rains set in just after, and soon the onions were on their legs and the maggot gone.

Prince Leopold's Engagement.

The *Court Circular* states that the Queen has received the the intelligence of the engagement of Prince Leopold, Duke of Albany, to Princess Helene, of Waldeck, which took place three days ago at Frankfort. The Princess is a younger sister to the present Queen of the Netherlands, and niece to the Queen of Sweden. The Princess Helene is the fourth daughter of the Prince Waldeck Pyrmont, and having been born on the 17th of Febuary, 1861, is just eight years younger than her future husband. Her eldest sister is still unmarried; her second, the Princess Marie, is the wife of Prince William of Wurtenburg, and her third sister, the Princess Emma, was married two years ago to the King of Holland. On her mother's side she is a granddaughter of William, formerly sovereign of the now abolished duchy of Nassau and consequently neice of the present Queen of Sweden and Norway. Waldeck is one of the smallest of the German principalities, its area being only 466 square miles, and its population barely 54,000. After the war between Austria and Prussia, in 1866. Prince George Victor offered to abdicate in favor of the King of Prussia. But this proposal not being accepted, a treaty was signed, by which he surrendered his chief sovereign powers to the King of Prussia, retaining merely nominal authority.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

A LITTLE OFF!

It puzzles some to understand how we can afford to sell at such low prices and still make a profit. To us there is nothing surprising in the matter. There are those amongst us who are "a little off" in their reckoning, but of this later. *So far we have merely inserted the thin end of the wedge*, when the "spring time cometh," we will apply a sledge hammer to the *other end*.

The Weather.

The weather has been very disagreeable during the last two days, a drizzling rain having fallen almost continually all the time. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Easterly to southerly winds, rainy, mild weather to-day; westerly to northerly winds to-night; colder to-morrow.

To-Night.

At the great auction sale of Furs, Robes, &c., there will be sold a consignment of fine Scotch and English tweeds, broad and narrow cloths, blankets, flannels, shirtings, damask and linen table cloths, and a variety of fancy goods all suitable for the present season and Xmas presents. To be absent will be your own loss.

Save Your Money.

A call will convince the most skeptical of the great saving to be effected by making their purchases at W. Fairweather & Co's great sale. Their stock is the largest in town. The assortment is without a rival, and the prices are right.

SOUTH MONAGHAN.

From Our Own Correspondent.

COUNCIL MEETING.—The Council met at Centreville on Dec. 6th, pursuant to a call of the Reeve at nine a.m. Present the Reeve, Mr. Rutherford, and Councillors Lightfoot, Dawson, Riddell and Wood. The Reeve in the chair. The minutes of last meeting were read and confirmed. On motion Robt. Tippett, path master for beat No. 10, was heard and drew the attention of the Council to the bad state of repair of the swamp road on said beat, he also mentioned that the bridge over the creek required a new covering. Moved by Mr. Wood, seconded by Mr. Riddell,—That the matter referred to by the pathmaster for beat No. 10 be laid over for consideration.—Carried.

ACCOUNTS.

Accounts were presented from Joshua Turnbull repairing scraper $1 00
McClung & Butler 3 00
Joseph Perrin for damages 2 00
Wm. Rutherford, provisions for S. Bonar 2 60
Joseph Fisher, gravel for beats 4 and 5 ..... 3 40
Joseph Wood, gravel for beat 19 ..... 3 25
Joseph Wood, damages 1 00
Robt. Waddell, gravel for beat 16 ..... 1 40
Andrew Finnie, gravel for beat 7 ..... 2 15

Moved by Mr. Riddell, seconded by Mr. Wood,—That orders be drawn on the Treasurer for the payment of the foregoing accounts.—Carried. Moved by Mr. Riddell, seconded by Mr. Lightfoot,—That in future the matter of relief to S. Bonar, an indigent, be referred to the Reeve, and that he make a report of the same to the Council.—Carried. A by-law to fix a place for holding the nomination and election for Reeve and Councillors for 1882, was introduced; the by-law went through the usual form and was finally passed, signed and sealed. On motion of Mr. Lightfoot, seconded by Mr. Riddell,—The Council did then adjourn one hour and a half for dinner and resumed at 1:30 p.m. W. Dixon asked the Council to refund him his statute labor tax, on the grounds that he had performed his road work. After an explanation was received from the pathmaster and Mr. Dixon, as to how the work was performed, it was moved bo Mr. Lightfoot, seconded by Mr. Wood,—That Wm. Dixon be refunded his statute labor tax, and that an order be drawn on the Treasurer in his favor for the amount, viz. $2.00.—Carried. An order was then drawn in favor of Wm. Dixon for $2.00, James Rutherford asked the Council for a reduction of taxes on the grounds that he was assessed for too much land. After Mr. Rutherford's request had been thoroughly investigated it was then moved by Mr. Riddell, seconded by Mr. Lightfoot,—that owing to an error of the Assessor in assessing James Rutherford for forty acres too much land, that he, the said James Rutherford, receive a reduction of taxes to the amount of $9.57.—Carried. Moved by Mr. Wood, seconded by Mr. Riddell,—That James Wright be exempted from statute labor for the present year on the ground that he is residing on Con Island, Rice Lake, and that he be refunded his statute labor tax.—Carried. An order was then then drawn in favor of James Wright, for $2.00. Moved by Mr. Wood, seconded by Mr. Riddell,—That an order be drawn on the Treasurer in favor of the Pathmaster for beat 22, west boundary, north division, to be expended on same beat in lieu of William's statute labor tax.—Carried. An order was drawn accordingly. On motion of Mr. Wood, seconded by Mr. Lightfoot, the Council did then adjourn.

BOBCAYGEON.

MISSING.—The Bobcaygeon correspondent of the Fenelon Falls *Gazette* says that over two weeks ago a Mr. Harry Simpson, a well known resident in this locality, went a-missing without leaving any trace of where he had gone. When last seen he was walking through the village, and as he had said he was going off to Harvey, a few miles distant, to boss a shanty for Mr. Ullyott, no notice was taken of his absence until inquiries from there as to where he had gone led to the belief that something was wrong. All search has as yet failed to show what became of him, but the impression gains ground that he perished in the lake.

A Visit to Manitoba.

Mr. John Dixon, of the firm of Dixon Bros., dry goods merchants, Oshawa, formerly of Peterborough, has just returned from Manitoba. His visit to the Prairie Province was made with a view of buying land. He likes the appearance of the country and says every person there is full of business, a large number being engaged in speculating in land, the price of which can be ascertained by the amount Mr. Dixon paid. On Saturday morning, the 12th ult., he bought two lots in Winnipeg, 66x100 feet each, and paid for them $1,300 per lot. The lots are situated about half a mile from the main street. Before night he was offered $200 for his bargain. On the Monday following he proceeded to Brandon, about 140 miles from Winnipeg, at which place he purchased 16 lots, averaging 40x120 feet, paying $2,550 for the whole. Before the money was paid over he was offered $1,500 for his bargain. These lots were sold by the Syndicate, in June last, $525. Mr. Dixon returned to Winnipeg on Saturday, when he was offered $400 in advance of the amount he paid for his property in that city, but having bought all the lots with the intention of holding them, he refused both this offer and the one he received in Brandon. He says that land around the latter place is very good, but as a rule the soil in the Province is not as good as he expected to find it. When he left Brandon on the 19th ult., the thermometer stood 32 degrees below zero at seven o'clock a. m., and the cold weather, he thinks, is the greatest drawback to the country, and he would not like to live there on that account. Coal in Winnipeg was selling at $19 per ton, and soft wood $6 per cord, butter 40 cts. per lb., eggs 35 cts. per dozen, and everything else high in like proportion. Carpenters are getting from $2,50 to $3 per day, and masons and plasterers $5 to $6. In Brandon coal was $32 per ton, and beef, by the quarter, 15 cents per pound. Mr. Dixon says the general opinion in Winnipeg is that land there will be considerably higher next spring, but that it must soon take a drop. He saw a number of the former residents of Oshawa, and they seem to be making money.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

Come let the joyous tidings roll

WHAT SHALL I BUY?

There are two ways to supply your wants; one to find A RELIABLE MERCHANT and make use of him whenever you have need. The other to go in search of BARGAINS, offered by those who claim to have made their ANNUAL REDUCTIONS, that only in this cutting of rates get their prices down to the figures a reliable merchant has been selling at the whole season through.

In the latter case you may be served with shop-worn goods that could not be sold at the high prices they held them at.

People recognize that we are at the head of the first named class, we have as complete lines of Dry Goods as were ever collected in one Concern in Peterborough.

Great Bargains in all matters of DRESS GOODS are now being shown by us; and shoals of customers are profiting by the inducements of our prices to supply their wants.

We have made the most ample preparation to meet a stirring CHRISTMAS TRADE in fancy and seasonable articles.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WEENESDAY, DECEMBER 14, 1881.

THE PITTSBURG TRAGEDY.

Further Particulars of the Boarding-House Fire—An Additional Name.

PITTSBURG, Dec. 12.—Everywhere throughout the city the deepest sympathy is expressed for the unfortunate sufferers by the terrible fire at Rock Cut, the main force of which have already been telegraphed. Michael Morgan, of Worchester, Mass., who was badly burned about the head and body, is also to be numbered among those who lost their lives in this catastrophe, he having died in the hospital here on Saturday night. This makes eleven men who were killed by the fire. Several of those most seriously injured were conveyed to the hospital on there arrival here. Of these John Connelly, it is feared, cannot survive his terrible burns, which have completely disfigured his face. Martin Laffrey is also so badly injured that he can hardly recover. Michael Leonard had his skull fractured by falling down stairs, but he may recover. The keeper of the boarding house while endeavouring to rescue his daughter, who unknown to him had already escaped, was severely burned and almost suffocated. He fell just outside the building and while there was trampled upon by the men rushing from the building. Except Connolly, the man most seriously injured is John O'Reilly, a middle-aged man from Ireland. The scene at the depot when the train arrived with the survivors was a most pitiable one. The wounded were removed tenderly from the cars to the waiting-room, where physicians were quickly in attendance to relieve their sufferings. Many people were attracted by the sad and novel sight, and a crowd quickly gathered about the waiting-room, but except the physicians and those they chose to assist them none were admitted. The men who had escaped without or with but slight injuries seemed to be dazed by the terrible experience through which they had passed. No more convincing testimony of the narrowness of their escape in many cases could have been given than the appearance of the men themselves. Many had their hair and beards singed; none had time to dress themselves. Some were without boots, some without shirts, while others would have been almost without covering had it not been for the friendly covering afforded by blankets which had been given them. The contractor, Martin Joyce, in whose employ the men were, furnished money for them to procure the necessary clothing. When the doctors had done all possible for the wounded men they were removed to the West Pennsylvania Hospital.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma

LONDON, Eng., Dec. 13.—The absence of news from the balloon which carried Powell to sea on Saturday, causes a sensation. Powell aspired to cross the Atlantic in a balloon.

A FENIAN PROSECUTION.

LONDON, Dec. 13.—Tobin, recently arrested at Bradford for being connected with Fenian and Land League movements, has been committed for trial on a charge of treason, felony and conspiracy.

MR. BRADLAUGH'S SEAT.

LONDON, Dec. 13.—Mr. Labouchere in speaking at Northampton to-day said Mr. Gladstone had promised to insist upon the admission of Mr. Bradlaugh upon the opening of the sesson of Parliament.

FRANCE, SPAIN AND ENGLAND.

MADRID, Dec. 13—The Spanish press has begun to reflect the anxiety of public opinion against English diplomacy, and against French military encroachments in Morocco. The Ministerial and independent papers chiefly attack the French policy as being aggressive towards its neighbours in North Africa, and menacing to the Spanish arms in Morocco. The Republican paper *El Globo* denounces England as the adversary of Spain in Morocco, in Portugal and in Gibraltar. *El Globo* calls upon the Madrid Government to direct its efforts to resuming possession of both shores of the straits, and thus force England to restore the rock.

FRANCE AND RUSSIA.

ST. PETERSBURG, Dec. 13.—The Russian Government, through the *Journal de St. Petersburg*, intimates its warm assent to the appointment of Count Chandordy as French Ambassador to St. Petersburg as a guarantee of a policy of peace and a loyal accord to the Continental powers.

PAPAL UTTERANCES.

ROME, Dec. 13.—In a farewell audience to-day to the prelates who attended the canonizations the Pope said:—"Union is more necessary now than ever. God's Church is being attacked, despite its power of bridling human passions and restraining the masses in revolt. The benefits conferred by the Holy See upon the populations are denied with no less madness than audacity. May Italy one day understand what she might do in behalf of liberty and her rights. The Pope will not bring her danger, but prosperity."

SELF-APPOINTED.

DUBLIN, Dec. 13.—By the advice of English sympathizers with Ireland, Mr. O'Donnell attempted to gain admission to the Mansion House meeting to-day as representative of the tenantry. The Lord Mayor refused to admit him, as he had not been invited. O'Donnell thereupon sent a protest stating that the Lord Mayor was doubtless prudent to prevent the voice of even a single representative of the Irish people being raised in a packed meeting of city money-lenders and friends of the rack-renters, who were preparing to render the Land Act a dead letter by pressing for the immediate payment of the arrears of the famine season.

AMERICAN PORK IN FRANCE.

PARIS, Dec. 13.—In the French Chamber of Deputies to-day M. Gaudin (Bonapartist) questioned the Minister of Commerce regarding the importation of American pork. M. Gaudin said it ought not to be left to the importers themselves to take the necessary steps to prevent the importation of infected meat. The Under-Secretary of Commerce replied that the quantity of imported meat was so considerable that proper inspection was impossible, and the decree was withdrawn in consequence. The government was negotiating with the United States on the subject. M. Gaudin asked how inspection would be possible in America which was impossible in France. The matter was too serious to be settled simply by a decree. He therefore submitted a bill embodying the prohibitory decree which the Government had withdrawn.

AN EARTHQUAKE.

LONDON, Dec. 13.—Fishermen from the north of the island of Arran report that a shock of earthquake was felt yesterday, and thousands of fish were thrown upon the beach.

AN AWKWARD WELCOME.

LONDON, Dec. 13.—It is reported that the law officers of the Crown have been considering the advisability of indicting Mr. T. P. O'Connor and Mr. Healy for conspiracy on their arrival in England. It is stated that the part they took in the proceedings of the Land League convention at Chicago is relied upon as sufficient to ensure conviction.

A FRANCO-AMERICAN TREATY.

PARIS, Dec. 13.—The Chambers of Commerce of Paris, Lyons, St. Etienne, Rheims, Bordeaux Macon, Colmar, Rochelle, Montpelier, Grenoble, Angouleme, Bayonne, Nancy, Havre, and Marseilles have pronounced in favour of negotiations for a Franco-American treaty of commerce.

THREE PER CENT BONDS.

WASHINGTON, Dec. 13.—The Senate Committee on Finance to-day considered Sherman's three per cent bond Bill. The Bill appeared to meet with unanimous approval, but action was postponed in order to hear the views of Folger on Thursday.

THE VIENNA WARNING.

NEW YORK, Dec. 13.—The Fire Department yesterday ordered an immediate inspection of all the places of amusement where machinery and scenery are used. A veteran fireman, prominent in the Department, who has made the round of the theatres of the city, said yesterday that there was not one theatre safe from a fire, and that he would not take his wife to any of them.

ROUGH WEATHER.

BOSTON, Dec 13.—The steamer Malta, from Liverpool experienced terrible weathe.. Two men were killed.

THE LATE RULER.

WASHINGTON, Dec. 13.—In the House Taylor offered a resolution which was unanimously adopted, for the appointment of a committee of clerks to audit all claims for services and expenses growing out of the illness and burial of Garfield. Also to consider what allowance, pension or privileges shall be granted to his widow and family.

WHAT CHRISTIANCY SAYS.

NEW YORK, Dec. 14.—Tne *Sun* says that ex-Minister Christiancy questions the accuracy of the correspondence regarding Chili and Peru, that has been made public. As published it contains the following in your last despatch, you said:—"A Department of the Chilian Government refused absolutely to recognize Pieroali as representing civil authority in Peru, and that Calderon was the head of the Provisional Government." No such paragraph was ever received by him. He furnished no such information. He says:—"Nor did the State Department ever intimate to him that he had to furnish such information." Christiancy says that he was practically instructed by the State Department to recognize the Calderon Government, although such action was against his judgment and against his despaches to the State Department.

DUELS AND DUELISTS.

RICHMOND, Va., Dec. 14.—It is stated that a bill will soon be introduced into the Legislature removing the political disabilities of persons engaged in dueling during the canvas. Among these alleged to be so disfranchised are State Officials, Congressmen, and General Paine a prominent Democrat, and the editor of the *Whig*. Besides the priucipals there are a number of seconds.

THE HOLIDAY RECESS.

WASHINGTON, Dec. 14.—The opinion dividing Members of both Houses yesterday resulted in an agreement that the holiday recess should begin on Wednesday or Thursday of next week, and last until the first Thursday of the new year.

A HORRIBLE DEATH.

PLEASANT VALLEY, Pa., Dec. 14.—A slate picker named Clifford, aged 12, was caught in the teeth the Ontario coal breaker yesterday. He was horribly mangled, and it took over two hours after the machinery was stopped to release him. The boy was conscious the whole time but died a few hours after.

From Our Own Correspondent.

COUNCIL MEETING.—The Council met at the Old Town Hall. All the members present. Minutes of last meeting read, and amended by placing M. Hannon and J. Drain as mover and seconder, for granting an order for $5.72 to David Rose, instead of Jacob White and M. Hannon, and signed.

The Clerk was instructed to prepare a by-law granting the use of a certain portion of road to John H. Clysdale.

The Clerk was instructed to give a schedule of the names of parties placed on the Collectors Roll for statute labour, and the amount in all cases where the pathmasters have made proper returns since the said amounts were put on the roll, and to instruct the collector to abate the same.

The Clerk was instructed to notify the trustees concerned that Duncan Costello has made application to be detached from S.S. W. No 11 and attached to W. No 2.

A road contract on lots 10, 11 and 12 in the 12 concession to amount to $10.69, under M. Hannon commissioner, William Gratton, on condition that the work be done by the first of January next.

The motion of last meet granting an order for $5.72 to David Rose was rescinded, and the Reeve was instructed to destroy the order.

ORDERS GRANTED.

To Francis Newell, refund of statute labour tax and interest	$ 1 21
To Jas. E. Kidd, costs in road case of Tigh vs. McIntosh	2 56
To Abraham Wigmore, abatement of taxes of 1881	7 75
To Robert Lynn, desk for township clerk	12 00
To A. R. Kidd, sessional allowance $16; road commissioner $2; selecting jurors $2; postage &c., 20 cent	29 20
To D. Drain, sessional allowance $16; road commissioner $12	28 0
To M. Hannon, sessional allowance $16; road commissioner $12	28 00
To W. Wason, sessional allowance $16; road commissioner $10	26 00
To J. White, sessional allowance $16; road commissioner $10	26 00
To W. Darling, balance as clerk $50; registrar of births $10; selector of jurors $2; refund of postage &c. $6.90	68 90
To Samuel S. Spence, selector of jurors	2 00
To Francis T. Lumsden, salary as treasurer	60 00

By-laws passed, one to fix the place for the nomination, and to appoint poling places and deputy returning officers for the municipal election of 1882. And one to provide for the payment of money.

The council adjourned for first meeting of council of 1882 to be held in Warsaw.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother. — *Home Journal.*

WEDNESDAY, DECEMBER 14, 1881.

PLUCKY, IF IT ONLY LASTS.

EVEN when one cannot agree with the views of an individual, most people feel disposed to admire that kind of pluck which makes a man nail his colors to the mast and announce his determination, come weal or come woe, to sink or swim with them. And it was with just such a feeling that we read a recent article in the *Globe* on "the Reform party and the tariff." In that article, whatever it may do in the near future, the *Globe* nails its free trade, or rather revenue tariff opinions to the mast and declares its determination to stand by them even though it should thereby be kept in the cold shades of opposition for ten years to come. Such language is manly and not out of place, seeing that there are not a few reformers now-a-days who are desirous of playing fast and loose with protection. They are opposed to the National Policy, but they would at the same time fain convince those who favour it that in framing a new revenue tariff they would protect vested interests. Such a dodging of the real issue involved is simply cowardly and unworthy of any political party aiming at the Government of this Dominion. Either our tariff should or it should not be framed on the principle of protecting and fostering Canadian interests, and in the belief that it is possible to aid and assist struggling industries by the manner in which customs duties are imposed. If it should not, then, as the *Globe* says, the National Policy is the "quintessence" of political injustice. If it should, then protection would be just as sweet, so long as protection was afforded under any other name as under that of the N. P. We are not fighting for a name as some people seem to suppose. We are fighting for a principle—the principle being that in levying our custom's duties we shall aim at protecting the products of our country in our own markets as well as at raising a revenue, and at creating as great a deversity of employment for our people as our circumstances will permit. That is the great principle underlying the National Policy, while the great principle advocated just now by the *Globe* and the party which it still seems able to control, is that the customs revenue shall, so far as possible, be raised from articles, non-produceable in the country, such as tea, and as little as possible from those articles the imposition of a duty upon which is calculated to foster their growth or manufacture within the country. These are the two principles underlying the rival policies claiming public support at the present time, and we have no fear for the future so long as this underlying principle is kept fairly before the people, as the *Globe* by its recent article will unquestionably help to do, and as we trust it will long continue to help to do.

A NEW EXPRESS COMPANY.

Organized at Kingston, to Cover the Whole of Canada.

KINGSTON, Dec. 10.—A company has recently been formed with a capital stock of one million dollars, under a charter obtained from the Dominion Government in 1873, for the operation in Canada of the Dominion Express Company. It is said that as soon as matters are definitely arranged the new company will commence operations, and not only cover the older provinces, but work the Canada Pacific railway in Manitoba and the North-West. The object of the new syndicate is not exactly in opposition to the Canadian Express Company, but is to cover the whole railway system of the Dominion of Canada.

DEATH IN KEROSENE.

An Ottawa Woman the Victim of a Probable Fatal Lamp Explosion.

OTTAWA, Dec. 12—A widow named Mrs. John Dunn, living with her two children and a young man boarder on Mount Sherwood, met with probably a fatal accident this morning. She arose early and went down stairs presumably to light a fire. Shortly afterwards one of the children heard a moaning noise, and rushing down stairs found his mother lying on the floor in apparent agony, with her clothing still burning in patches where it was not already burned off. He screamed an alarm, bringing the other child and a young man down stairs. By this time both floors and walls were on fire. They extinguished the fire and carried the unfortunate woman to bed. A doctor was summoned, who found the poor victim burned to a crisp from neck to ankles, and it is impossible for her to recover. A coal oil lamp was found on the kitchen floor with the top blown off, giving evidence that an explosion had occurred.

ENGLAND'S FUTURE GRANARY.

An Interesting Paper Read Before the Royal Colonial Institute.

At the Royal Canadian Institute in London, Nov. 23., the Duke of Manchester made his first appearance after his long absence on a visit to the Australian colonies, and the occasion, which was the opening ball for the winter, was generally interesting. The paper of the evening was read by Mr. Webster, and had the title of "England's Colonial Granaries"; the matter being very instructive. It was Mr. Webster's opinion that Canada would soon send us home more of her surplus thousands of cattle and sheep, so reducing further the prices of animal food, which would cause further agricultural depression in this country—an opinion that will be shared by many British farmers. Of the countries exporting grain and flour to us, the United States ranked the first with 56 per cent. of the total; Russia second with 8 per cent.; and Canada third with 6 per cent. The total value was £62,750,000 stg., and foreign countries supplied £52,750,000 of this, £10,000,000 worth being grown, happily, in our own colonies. 1877 statistics showed that every Australian was as large a customer to this country as 16 Americans, and every Canadian a better one than 35 Russians. In fact England is the only portion of the British Empire that consumes foreign goods to any extent, the Colonies almost exclusively purchasing goods produced in the limits of the Empire itself. In future the people of our Colonies may discover that England does not give them a fair share of her import trade, and they may increase their manufactures, and, in Mr. Webster's view of the case, they might be justified in so doing. Why should we not try to adopt the system here which Canada has adopted? The country seems to hold the belief that a well-balanced community should not be wholly an agricultural one, but should combine in its midst other interests and elements. Were the barriers now raised in the British Empire ever removed, Greater Britain would, for commercial purposes, become a well-knit-together whole; and the wealth of each individual unit or State would be assured. Taking the Canadian Far West alone, the extent of this territory is so vast that the mind cannot form a clear conception of it from statistics. In the Canadian Far West the population, including Indians, is probably under 200,000, and it is not thought an extravagant statement to put the future population of this territory, when it shall have been rendered easily accessible, and when its advantages have exercised its full effect in attracting settlers, at nearly 100,000,000. There can be no doubt that the resources of Canada have not as yet been fully developed, and the day is probably not so far in the future when a five-fold increased quantity of cereals will be grown than there are now. There are immense tracts in this corn-growing zone, the whole of which, cultivated and uncultivated, is estimated at one million square miles; and doubtless when the agricultural population of Canada increases, will produce millions of cwts. more grain that at present. Ontario, Mr. Webster said, had long been celebrated for the superior quality of its wheat. Manitoba has tens of thousands of acres of the richest and most suitable land for corn-growing in the world. In these regions there are boundless prairies of virgin soil entirely encumbered with trees, and the district simply awaits the time when the Pacific and other lines of railway open it out. When that day arrives it will attract farmers as settlers to its soil, and materially aid Canada in becoming a formidable competitor with the United States in the corn markets of the world. There is a physical cause why wheat grown in the northern region of Manitoba should be superior to that grown in the United States to the south of it. The nearer the northerly limit at which wheat will grow the finer is its quality. From the 15th of June till the 1st of July, nearly two hours more daylight prevailed in Manitoba than in the State of Ohio. It is not heat alone that is required to bring the wheat plant to perfection, even where the soil is best adapted for it growth. Other conditions being present, the greater the amount of solar light the better the result. I believe that sooner or later—and probably sooner—the England landowner and farmer will have to face the competition of the Great West, not merely in the prevention of famine prices, but in the creation of and probable perpetuation of low prices. The lecturer concluded his remarks upon Canada with a quotation from a speech of the late Hon. Wm. Seward:—"I see in British North America, stretching as it does from the Atlantic to the Pacific, in its wheat fields of the West, its invaluable fisheries, and its mineral wealth, a region grand enough for the seat of a great empire." Mr. Webster's remarks were received with cheers. The evening was one of the most instructive and profitable ever spent in the rooms of the Royal Colonial Institute, and a vote of thanks was heartily given at the close of the proceedings to the Duke of Manchester, who had been cordially welcomed among the *habitues*, who were present in large numbers.

REVIEWS.

WIDE AWAKE.—The December number of "*Wide Awake*" will be a welcome holiday visitor, maintaining, as it does, its old reputation, as the prince of periodicals for the young people. We have also received from the same publishers, Messrs. D. Lothrop & Co., of Boston, Mass., specimens of their publications for still more juvenile readers, "*Baby Land*," and "*Little Folks*," as well as of "*The Pansy*," edited by Mrs. Alden. All these periodicals are illustrated in a style that will attract the attention and ensure the admiration of the older members of the family circle.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

CANONIZATION DAY.

Meaning of the Great Event Which Occurred in Rome last Week.

The despatch from Rome on Friday last, describing the ceremony of canonization which took place on Thursday, will convey to the majority of readers very little of the significance of that rare occurrence. To Roman Catholics, however, it is full of meaning. For the 250,000,000 of that great denomination, it adds to the galaxy of the heavenly choir four blessed names, four suitors at the throne of the Almighty for the welfare of the church and society. The meaning of the event, which is very rare, can be better understood when it is known that the ceremony of yesterday was but the culmination of a long trial in which the four sainted names were defendants, and in which prosecution and defence were managed with all the skill of the ablest advocates. The process of canonization is a long, elaborate, and very costly one, and is generally conducted at the expense of the religious order to which the aspirants belonged in life. Long after the death of the holy person, after everything good and ill that could possibly be said of him has been said, and after his life and works have borne the scrutiny of careful examination, his name may be proposed to the holy see for canonization. He is then placed upon his trial before a court composed of the most learned doctors of divinity among the cardinals, and counsel is employed on both sides to sustain him saintlike or to prove him sinful. The advocate of the devil, as the adverse counsel is called, spares no pains to disparage his character and to discredit the miracles which are alleged to have been wrought by him during his life or in his name after death. The trial lasts for many years, and frequently survives all the original parties, judges and counsel on both sides. When finally closed it remains for the Pope to confirm, reject or postpone the finding. If he confirm it, all the pomp and ceremony of the church are called in, as on Thursday, for the formal declaration of it to the world, and the faithful all over the globe learn with joy that a new name is added to the calendar of saints whose holiness sheds lustre upon the church.

TAKEN ON TRIAL.

A Belleville Man Takes a Buxom Farmer's Daughter on Trial—She Won't Do.

The Belleville Chief of Police was called on Monday to settle a matter, the particulars of which are as interesting as they are novel. One Thomas Barnhardt, had been working during the season for a farmer residing in the vicinity of Hay Bay. This farmer is the father of a buxom daughter. Thomas looked upon the fair one with amorous glances, and finally told his tale of love. "Barkus was willing" in this case, and so were her parents. Thomas however, was not so much in love as to be entirely blind. He did not want to bind himself for life, or for years, to a woman who might not be all his fancy had painted her. So he contracted to take the blushing damsel on trial for twelve days. If at the end of that time she satisfied him, he would marry her; if she did not, he would return her to her parents. To this decidedly novel matrimonial arrangement we are told the girl's parents consented, and the two lovers came to Belleville with the intention of testing their connubial qualifications. The twelve days expired last Saturday, when Barnhardt told the girl to return to her mamma, as she did not quite come up to his idea of what a wife should be. He, however, kept some of her clothing, and on Monday the girl's parents applied to the Chief for assistance to regain possession of the missing articles. They had no particular fault to find with the dismissal of their daughter by Thomas, as he did only what was agreed to under conditions of disapproval, but they objected to his retaining what did not belong to him. While living here the girl, we are told, passed for Barnhardt's wife and resided with him as such. Those who knew the parties, but not the agreement, were considerably surprised when they heard the wife had been shipped back home as a poor piece of goods. This is the latest matrimonial venture, and it is the oddest too.—*Ontario.*

KEENE.

From Our Own Correspondent.

L. O. L. ELECTION OF OFFICERS.—At the regular monthly meeting of Argyle L. O. L. No. 494 Keene, held in the Orange Hall on Tuesday evening the 8th inst., the following officers were elected for the ensuing year:—

Bro Thos. McIntyre	W.M.
" Walter J. Renwick	D.M.
" Robert B. McIntyre	Chaplain
" Walter Renwick	Treasurer
" Jas. McIntyre	Secretary
" John Baker	D. of C.
" Wm. Dowdell	1st Com.
" Thos. Laing	2nd Com.
" Wm. Wedlock	3rd Com.
" Jas. Thomson	4th Com.
" Jas. Edwards	5th Com.

After other business of importance had been transacted the Lodge closed in due form. A table was spread in short order with refreshments of the choicest kinds, and an onslaught commenced by the Argyle boys, which was kept up with vigour until the wants of the inner man were fully satisfied. Songs and speeches by the brethren next followed and the evening was very agreeably spent until midnight, when all quietly dispersed to their homes very well satisfied with the manner in which the last meeting in 1881 had been conducted.

ENGLAND.

ART gifts have been left to the town of Birmingham, of the value of about £40,000.

THE marriage of Prince Leopold with the Princess Helena of Waldeck is to take place during March next.

MR. WEBB, the English cutler, has just died leaving a fortune of nearly £1,000,000, and it is believed that a large part of it would never have accumulated but for the novel plan he hit upon for advertising.

RETURNS recently made of the earnings of pilot-boats attached to the port of Liverpool indicate a small but steady increase from year to year. For the quarter ending on Sept. 30th last the gross earnings were £17,918, 18s 6d., against £17,751 2s 9d. in the corresponding quarter of 1880, and £15,887 8s 1d. in the same period the year before. For the full year ending on Sept. 30th the total was £69,702 17s 9d., against £67,384 7s 8d. in 1880, and £60,094 16s 3d. in 1879.

AN official announcement from the War Office is published as follows:—"When General Sir Garnet Wolseley succeeds to the Adjutant Generalship in April next he will, like his predecessors, transact official business under the authority and responsibility of the Commander-in-Chief, who is the military adviser of the Secretary of State." This is apparently put forth to settle the rumors that the Duke of Cambridge is hostile to General Wolseley's appointment, and that the Government intend that General Wolseley shall enforce changes in the army, to which the Duke of Cambridge is opposed.

FROM ALL OVER.

A LITTLE English school-girl recently died in convulsions caused by fright, and this fatal terror was inspired by reading the prophecy which Mother Shipton did not make, to the effect that the world would come to an end during this year of grace.

PERFECTION is not of this world, but we feel safe in asserting that, as a neutralizer of pain and exterminator of rheumatism, St. Jacobs Oil approaches the nearest to it, among remedial agents.

AN Ottawa fruit dealer, on Sunday last, opened his business as usual and put out his display of oysters, &c., but after a while, seeing that the street was unusually quiet, he consulted his wife, who looked at the almanac, and discovered his mistake. He shut up again and went to church.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

PRELIMINARIES are nearly completed for the establishment of a brigade of boys who will be in attendance at the Ottawa city markets during the busy hours for the purpose of delivering parcels to any part of the city for a nominal fee. The boys will, no doubt, be largely patronized by persons purchasing at the markets.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

THE town of Cornwall Ont., obtains its supply of water from wells, and specimens of the water from eighteen have been sent to Dr Baker Edwards, of Montreal, for analysis. He analyzed them, with the startling and disagreeable result that at least half of the wells furnish water totally unfit to drink, from sewage contained in them.

FRANK and Robert Griffin, two Brantford men, and brothers of W. H. Griffin, late manager of the Dominion Telegraph Company at that place, returned there a day or two ago after eight years' absence, during which they saw considerable fighting in Africa, as British soldiers. Robert was in twelve engagements, but both he and his brother escaped unhurt.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but sample food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

A GRACEFUL little sketch signed, in a minute hand, "Louise," will appear in the next number of the *Century*. It represents a pretty young Venetian woman making lace, cushion in lap, and is the work of clever Princess Louise of England. Her well-trained taste for arts is one of the most charming possessions of this charming lady. Some of her most intimate friends are among the women artists of England.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

SOME practical joker played a mean trick on an Ottawa man a few days ago. To begin with he or she pinned a piece of crape tied with white to the door, under which he placed a card with the word 'diphtheria' written on it, so that when the milkman, baker and butcher came with their supplies, they became frightened at the notice and drove off, leaving the family without their usual supply of bread, meat and milk. The milkman, who happened to have a slight cold, drove to the nearest doctor to ascertain had he any symptoms of the dread disease.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

ABOUT a year ago Mr. L. W. Morley, the owner of an extensive milk ranche in California, by some chance saw the photograph of a South Dorchester girl, Miss Maggie Rolph, who for some years had been known by her various employers to act well her part as a domestic. He became so fascinated with the picture that a correspondence sprang up between the two. The other day the Californian arrived in Canada from the far west. A week latter the romantic courtship ended in a wedding, and on Monday the happy milkman and his newly-made bride started for the Golden State.

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wister's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

THE HOG.—This important source of wealth to the Canadian farmer, is never so remunerative or so healthy as when his feed has been mixed continually with Harvell's Condition Powders, as they vastly improve his weight, and the flavour of his flesh.

LOCAL AND MUNICIPAL.

Millbrook and Lacrosse.

We have received a letter from a member of the Millbrook Lacrosse Club, objecting to the item that appeared in the REVIEW recently regarding the Millbrook-Peterborough match last summer. The letter states that the Millbrook team was a "mixed" one, and such we believe was the case, but at the same time, the same players, almost without exception, played in the matches against the "Ontarios" and "Cobourgs." There is no use in beating about the bush in this case, the facts are that Millbrook sent to Peterborough the *best* team they could muster, and when the referee refused to allow several of their men to play as "second twelve" men, they agreed to call themselves a "mixed team." Notwithstanding what may be said to the contrary, a genuine *second* twelve of Peterborough defeated the best twelve Millbrook could produce. Facts are facts and these speak for themselves.

The "Cramming System.

The Minister of Education, with the view of acertaining to what extent the evils of "cramming" have extended in the public schools, has issued a circular to the inspectors requesting the following information :—1st, the number of elementary schools ; 2nd, the number in which local examinations were held ; 3rd, the number of times held in 1880 ; 4th, the number of pupils in reading, writing and arithmetic : 5th, specifications of all other subjects, and the number therein ; 6th, the classes of pupils, the number in each class ; 7th, ages of pupils, 7 to 10 inclusive, and, 11 to 14 inclusive; 8th, number examined ; 9th, number passed ; 10th, objects or purposes of those examinations and the results obtained.

A Narrow Escape.

On Tuesday evening a young lad, whose name we have not learned, had a very narrow escape from drowning. The boy who is employed at the Auburn Factory, endeavoured to get ahead of some others just after quitting work for the night, and in his hurry, by so doing fell into the raceway in front of the dye-house. His cries attracted the attention of some of the other employees, and he was fished out as speedily as possible. The cold bath had the effect of chilling him through, and it was only with assistance that he was enabled to reach home.

Personal.

We regret to learn that Mr. A. H. Macdougal has left the Ontario Bank, the authorities of that institution, in the reductions they are making, having dispensed with his valuable services. Mr. Macdougal has been so long a zealous and hardworking officer of the branch here, and has given such satisfaction to its customers by his courtesy and attention to their business, that it will be hard to fill his place.

To-Night.

At the great auction sale of Furs, Robes, &c., there will be sold a consignment of fine Scotch and English tweeds, broad and narrow cloths, blankets, flannels, shirtings, damask and linen table cloths, and a variety of fancy goods all suitable for the present season and Xmas presents. To be absent will be your own loss.

Save Your Money.

A call will convince the most skeptical of the great saving to be effected by making their purchases at W. Fairweather & Co's great sale. Their stock is the largest in town. The assortment is without a rival, and the prices are right.

The Pay List.

The last street and bridge pay list, amounted to $218.20. After another week or two, the work for this season will wind up, for the reason that the funds at the command of the Committee are about exhausted.

Social Supper.

On Wednesday evening the members of the Philharmonic Society were entertained to a supper at the Caisse House, by Mr. A. Elliott. A very pleasant evening was spent.

The Schools.

The town schools will close for the Christmas holidays on Thursday, the 22nd inst., and reopen on Monday the 9th of January, 1882.

POLICE COURT.

A PROJECTING SIGN.

TUESDAY, Dec. 13.—The adjourned case of P. C. McGhee against A. Graham, charged with erecting a projecting sign, was called and adjourned until after the next council meeting.

A NUISANCE.

John Gamble was charged by P. C. McGhee, with keeping and maintaining a public nuisance on his premises on Antrim Street.

The case was enlarged until Wednesday morning.

WITHDRAWN.

WEDNESDAY, Dec, 14.—The nuisance case of P. C. McGhee against John Gamble, came up this morning, but was withdrawn upon payment of $1.50 costs, the nuisance having been abated to the satisfaction of the health officers.

Railway Notes.

It is said that the Midland Railway Company have ordered five of those large and powerful locomotives known as the "Mogul" locomotive.

The *Guide* says that Wilson's patent car passed through Port Hope on Sunday night laden with steamship freight from Halifax to Toronto by a special train. Mr. Hickson telegraphs as soon as it is discharged to send the car to Montreal for his official inspection. Mr. Wilson has struck oil this time sure. He has been offered fifty thousand dollaes for his right in the United States.

Mr. Hogg, C.E., and staff have finished the location of the line from Peterborough to Omemee, and in the course of a very short time, affairs will be in such a position that the proprietors will be able to ask for tenders for the construction of the much needed "missing link."

It is now rumored that the Canada Pacific Syndicate are negotiating for the purchase of the Cobourg, Peterborough and Marmora railway, with a view of extending it to Bobcaygeon and Fenelon Falls, crossing and acting as a feeder for the Ontario and Quebec Road, as well as giving the Company an independent outlet at Cobourg.

A few days ago it was announced that the Midland had acquired control of the Whitby, Port Perry, and Lindsay and Victoria railways, on Tuesday separate meetings of the Boards of these roads were held, and formal resolutions of amalgamation with the Midland were passed.

Canadian railway companies are endeavouring to induce the Customs Department to withdraw an order issued some time ago to the effect that no free goods can be carried in cars in which bonded goods are shipped. The companies consider it a great hardship, as an extra supply of rolling stock is required, and the expense is much greater in every respect.

The Whitby, Port Perry and Lindsay Railway traffic returns for the week ending December 9 aggregate $2,004, being an increase of $725 over the corresponding week of last year.

The new freight shed at the union station is now ready for occupation.

The consolidation of the roads in this district into one road under the management of Mr. Cox, is received with favor all over the country, the number opposed to it being exceedingly small, both in numbers and influence.

A passenger tariff for the through line from Peterborough to Toronto is now being prepared and will soon be ready.

Now that the amalgamation has been completed, work on the new line on the Grand Junction turning from Downer's corner and crossing the river below the locks, and thence to the main line, will soon have to be commenced.

The Weather.

The weather continues cold and disagreeable, but without Vennor's promised snow. We are rather afraid that the prophet was doing a little guess work when he sent forth his last prediction and that it was not altogether founded on careful observation as was stated. People are now talking of a "green Christmas," and certainly the outlook, in this vicinity at least, is very good for such a thing. The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lakes—Fresh to strong westerly to north westerly winds; colder, cloudy followed by fair weather.

The Ashburnham Elevator.

Work on the Ashburnham Elevator is progressing favourably. The timber is all on the ground, and the framing is being done rapidly. It is expected to use the building for the storage of grain this season. It will be a great convenience.

POULTRY SHOW.

Many of our readers will be glad to learn from the letter of the President of the Midland Central Poultry Association, that they intend to have an exhibition here this winter, the statement to the contrary in the Toronto dailies not having been authorized :—

To the Editor of the Review :

DEAR SIR,—Will you kindly allow me space in your columns to remove an impression that has gone abroad, caused by a paragraph that appeared in the *Mail* and *Globe* of Friday last and which was reproduced in your evening edition of that date, in which it was stated that the Midland Central Poultry Association had intended to hold an exhibition this winter, but had abandoned the idea in order that a grand rally might be made at the Canadian Poultry Exhibition at Toronto. As such is not the case you will see the advisability of having the misunderstanding removed at as early a date as possible. There will be a meeting of the Midland Central Poultry Society on Friday evening, to draw up the prize list and to fix the date of the exhibition, which will be announced in a few days—as soon as arrangements are made in order that similar shows in other places will not interfere with ours.

Yours truly.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

Come let the joyous tidings roll
From east to west, from pole to pole,
That woman's teeth, and lips, and breath
No more shall suffer worse than death,
For Sozodont with magic sway,
Preserves them now from foul decay.

Decline of Man.—Impotency of mind, limb or vital function, nervous weakness, sexual debility and all diseases caused by indiscretions and abuse, are radically and promptly cured by the use of Mack's Magnetic Medicine, which is for sale by all responsible druggists. See advertisement in another column. Sold in Peterborough by ORMOND & WALSH.

AHA !—Dentists who have tried "Teaberry," pronounce it the finest thing on the face of this earth for the teeth and breath. 5 cent samples.

WHAT SHALL I BUY?

There are two ways to supply your wants ; one to find A RELIABLE MERCHANT and make use of him whenever you have need. The other to go in search of BARGAINS, offered by those who claim to have made their ANNUAL REDUCTIONS, that only in this cutting of rates get their prices down to the figures a reliable merchant has been selling at the whole season through.

In the latter case you may be served with shop-worn goods that could not be sold at the high prices they held them at.

People recognize that we are at the head of the first named class, we have as complete lines of Dry Goods as were ever collected in one Concern in Peterborough.

Great Bargains in all matters of DRESS GOODS are now being shown by us ; and shoals of customers are profiting by the inducements of our prices to supply their wants.

We have made the most ample preparation to meet a stirring CHRISTMAS TRADE in fancy and seasonable articles.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them, It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION,—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

REVIEWS.

VICK'S FLORAL GUIDE.—Of the many guides and Seed and Plant Catalogues sent out by our Seedsmen and Nurserymen, and that are doing so much to inform the people and beautify and enrich our country, none are so beautiful, none so instructive as *Vick's Floral Guide.* Its paper is the choicest, its illustrations handsome, and given by the thousand, while its coloured plates are gems. This work, although costing but ten cents, is handsome enough for a Gift Book, or a place on the parlor table. Published by JAMES VICK, Rochester, N. Y.

A MEXICAN OUTRAGE.

Alleged Ill-Treatment of Nova Scotians in Silver Mines—Britain Appealed To.

HALIFAX, Dec. 13.—Some time last summer a Mr. Robinson, who is said to represent Wells, Fargo & Co., of New York, engaged a number of young men in and about Halifax to go to Mexico to work in the silver mines. The young men wrote to their friends stating that the company have not treated them right all the way through, and it appears from letters received that whenever any of them have attempted to to leave the mines they have been arrested and detained. Recent letters state that a party of these young men who had left in a body had been surrounded by Mexicans and forced back into the mines, and that in the *fracas* several of the escaping party were shot, some fatally. The Lieutenant Governor gave audience on Saturday morning to a delegation composed of Dr. W. H. Weeks, Mr. St. Clair Ruggles, and Mr. J. D. Maxwell, who officially brought the matter to his notice. The Governor replied that the matter was an important one, and would have to be dealt with by the Imperial Government, and that he would forward the necessary document, when placed in his hand, to the Governor-General.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2dlwly

ITALY'S APPROVAL.

TUNIS, Dec. 14.—Italy has approved of the conduct of the Italian Consul in protesting against French occupation of Tunis, and has refused to withdraw the protest. The Italian authorities continue to ignore the French protection and have sent a man-of-war to Susa.

ANOTHER STORY.

LONDON, Dec. 14.—It has been definitely arranged that the Marquis of Lorne, Governor-General of Canada, will sail from Liverpool by the Allan steamship *Parisian* on January 11th. The Marquis will not be accompanied by the Princess Louise, her Royal Highness having been ordered to the south of France by her medical attendant. His Excellency's sister, Lady Frances Balfour, will proceed to Canada with him, as will also her husband, Mr. A. J. Balfour, who is a nephew of the Marquis of Salisbury.

PENALTIES AGAINST THE PRESS.

ST. PETERSBURG, Dec. 14.—*Vedomosti* announces that General Ignatieff is elaborating fresh penalties against the newspaper press. *Vedomosti* adds:—"We will only consider entire suppression as cancelling our obligations in order that our subscribers and editorial staff may not suffer under future regulations."

THE PREMIER'S ASSAILANT.

ROME, Dec. 14.—The man Caluso, who threw a revolver at the Prime Minister, has been sentenced to one year's imprisonment and one year's internment in the island of Ischia, and fined 200 francs.

CANADA IN ENGLAND.

LONDON, Dec. 14.—A meeting of the supporters of the Women's Emigration Society was held at Exeter Hall to-day, to discuss female emigration to Canada. The Marquis of Lorne presided. He said he thought that committees sending women to Canada should have affiliated committees in Canada who should send reports to London monthly. He specially dwelt upon the capabilities of the North-West for supporting a large population, and suggested that arrangements be made for the organization of committees in centres of population with a view of encouraging the emigration of women. Sir A. T. Galt, resident Minister of the Dominion in Great Britain, also spoke. He said he regretted that the British Government had never recognized the importance of protected emigration. He hoped the Government would soon meet the liberal offers of Canada, and co-operate in promoting emigration of England's surplus population to the Dominion.

HIGH WATER.

BUFFALO, Dec. 14.—The water in the Buffalo river was reported to be about eight feet higher than usual in the vicinity of the Buffalo chemical works yesterday morning. The rise was caused by the recent rains. There being no ice in the creek, damage from the freshet is not feared.

THE GREATEST FRAUD.

PHILADELPHIA, Dec. 14.—The Keely motor stockholders yesterday adopted the report of the directors that the inventor should, for the protection of the stockholders, communicate to some other person than himself the secrets he had discovered, and take out a patent to cover his invention.

ROBBING A TRAIN.

ELPASO, Texas, Dec. 15.—Highwaymaen, boarded a Southern Pacific train near here yesterday morning. Wells, Fargo and Co's messenger was knocked senseless, bound and gagged. The express safe was robbed of $15,000 cash and securities. At Rodgers station the robbers jumped off and escaped to Mexico.

RAILWAY PURCHASE.

CHICAGO, Dec. 15.—The purchase of the Chicago and Eastern Illinois railway by the Louisville and Nashville combination is regarded as a fact.

THERE'S MONEY IN IT.

NEW YORK, Dec. 15.—It is said that the directors of the Western Union Telegraph Company on Tuesday decided to declare a quarterly dividend of 1½ per cent. on the net earnings of the quarter. There will be over two millions surplus after payment of a dividend of about a million.

A REPTILE'S BITE.

WASHINGTON, Dec. 15.—Gov. Shepperd was bitten by a Tarantula in a mine in Mexico, and it is feared that his leg will have to be amputated. He expects to return to this country for treatment as soon as possible.

KILLED BY A TREE.

RICHMOND, Va., Dec 15.—William Wright of Caroline County, was felling trees, and when his wife brought his lunch a falling tree frightfully and fatally injured her.

SUING A CITY.

ST. PAUL, Dec. 15.—Edward Brewis has sued the city and village of Duluth, to recover coupons overdue on bonds of the City of Duluth. The Legislature created the village of Duluth, out of territory occupied by the city, and a demurrer was interposed by the village of Duluth. U. S., Judge Nelson over-rules the demurrer, and declares the act creating the village of Duluth, interferes with the rights of the creditors. Most of the Duluth creditors are Eastern capitalists.

RISE IN RATES.

ST. LOUIS, Dec. 1.—Five trunk railroads running east have agreed to make the cotton rates to New York thirty cents per hundred and divide the traffic equally. This is about twice as much as cotton really has been taken to New York for.

A MORMON BISHOP'S BLESSING.

How it Failed to Drive the Old Adam out of a Balky Horse

The Saints do not place so much dependance on the laying on of hands and the blessing business as they once did, yet hundreds cling to the old relic along with the other absurdities of the church. Only a few years ago they believed that consecrated oil would cure the bites of horses, and that the laying on of hands would quiet the most vicious animal of kicking, biting or balking. One day on Main street an old Mormon had a balky horse, whose antics drew a crowd of spectators. Presently a bishop made his way through the crowd and offered to "lay on hands" for $3. This was the regular price for such ministrations, and the owner of the horse consented. He blessed the animal in the flanks, in the legs, prayed over his neck and passed his hands over the animal while he muttered a jargon of mysterious words suited to the occasion, amid the laughter of about a hundred Gentiles who stood on the walk watching the proceedings. When he had finished his incantations to the astonishment of everybody the animal started off as docile as an old sheep. The Saints were delighted and the Gentiles quit laughing entirely. Still they concluded to watch the horse. The beast seemed to have all the old original sin drawn out of him. It was a changed horse. The Gentiles began to disperse, disgusted with the outcome of the affair, when suddenly the old plug stopped short and began to lay back his ears. "He is recovering from the effects," shouted somebody, and a moment later the heels of the steed began to familiarize themselves with the forward works of the buggy. He bucked right through it and scattered the flinders as high as the second story window of the business houses along the streets, and then with the shafts clinging to his sides he dashed down the street amid the hilarity of the spectators, who were glad that they had waited to see the result.—*Salt Lake Tribune.*

STOCK RAISING.

Lord Dunmore Gives His Opinions Upon the Colonization Scheme and Cattle Breeding.

NEW YORK, Dec. 12.—The Earl of Dunmore who arrived in New York from Europe during the past week, is no stranger in America. He has been here a great many times, and has travelled much in Wyoming and other distant parts of the Union. The Earl, who is in the prime of life, being but just past forty, is a man of splendid physique and genial bearing. He is a Highlander, having large estates in Scotland, and a Lord-in-waiting on the Queen. He is an enthusiastic breeder of Shorthorn cattle. His present visit to this country has a dual object. He proceeds to Canada to see how the work of clearing the lands recently purchased by an English colonization company, of which he is President, is progressing and possibly to negotiate for the purchase of more land. Before returning to Europe His Lordship purposes visiting Texas, with the view of ascertaining what facilities that State affords for an extension of the Canadian scheme, and also to see something of the great cattle raising ranches of the Lone Star State.

"In the Canadian colonization scheme," said His Lordship to a reporter, "I am associated with several leading men in the Dominion, as well as my brother directors in London. There are Sir N. Belleau, K. M. G., Mr. Gibb Ross, Mr. McGreevy, M. P., Mr. Sharples, and others. The Vice-President of the Company is Mr. J. W. McClure, Vice-President of the the Great Western Railroad of Canada. We have purchased of the Quebec Government one hundred thousand acres of land in the Province of Quebec, and are now employed in clearing it. We are bound by the terms of purchase to clear two thousand acres per annum. At present by the aid of our engines, we are cutting ten thousand feet of timber a day. It runs about 20,000 feet to the acre. We have at present cleared 5,000 acres, have seven hundred slashed and one hundred piled. The capital was readily subscribed on the other side, and our intention is to place emigrants on the land when it is ready for them to till it. We shall also erect log houses on each lot of land, so that the families will find homes all ready to occupy on their arrival. I am going to look at, and possibly purchase on behalf of our Company, a further property of 600 acres, which has a frontage of two miles on the Chaudiere river."

"You had a terrible passage this time, had you not?" (Lord Dumore arrived by the Servia.)

"Well, bad enough, but I had a much worse one the first time I crossed the Atalantic, I was then in the Scots Guards, and we came by the steamship Parama. We left on December 19th and arrived on February 3rd. What do you think of that for a trip from England to America?" And, laughing heartily, Lord Dunmore bade his visitor adieu.

IN the Baptist church, Brooklyn, one evening, deacons were voted for, and the tellers retired to count the votes while the devotional exercises proceeded. After they had been out about thirty minutes, the pastor, Dr. Hoyt, announced the hymn, "We are waiting, we are watching." He was surprised at the manifestations of mirth.

DAVENPORT, Iowa, Dec. 15.—Articles of incorporation have been filed here for the Western Railway Insurance Co., Capital $25,000. Twenty Western Railway Managers, Superintendents, etc., are named as incorporators.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

GIVEN AWAY—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

THURSDAY, DECEMBER 15, 1881.

ARE WE DOING OUR PART?

While we are thorough believers in the National Policy and are convinced that it has done and is doing much to promote the development of the industrial and manufacturing interests of the country, we are not so foolish as to suppose that it can of itself make "tall chimneys" mushroom-like, to spring up in a night. In addition, individual enterprise and capital must be set in motion, if the desired object is to be attained, and those localities which either collectively or individually, or both combined, display most enterprise will undoubtedly obtain the largest and most direct benefits from the N. P. We are well aware that not a few of our citizens, with much show of reason, object to the bonusing system, as unwise and not required by sound commercial undertakings. While this position is no doubt correct in theory, there is no use ignoring the circumstances by which we are surrounded, and that so long as other municipalities offer substantial assistence to manufacturing enterprises it is useless for us to expect to get our share, while folding our hands and doing nothing to render Peterborough attractive to those embarking their capital in such undertakings. No matter how sound the enterprise about to be entered upon may be, its promoters are putting their money into it for the purpose of making money, and if they are good business men, will unquestionably seek those localities which, all things considered, are the best for their purpose, and among the all things considered of course will be the cost of site and power, the transport facilities afforded, the probable burden of taxation, the facility for obtaining the kind of labor required, and such like, all of which can be influenced by the policy adopted by the several municipalities. By offering sites and power either free or at a nominal rent, they can reduce the cost of this item. By securing the opening of railway and water communications they can improve their transport facilities. By exempting in whole or in part such establishments from taxation they can minimize the burden to be borne on this account, and by every new factory established they increase the facilities for obtaining the labour required.

Now these being facts which cannot be disputed, does it not become us as a people to ask ourselves if we are doing our part in endeavoring to promote and encourage the establishment of manufactories in and about our town? The fact of the matter is we are doing nothing as a municipality, and very little as individuals. It is useless to say that the bonusing system is wrong, and to refuse to to do anything of the kind while other municipalities are acting upon the opposite principal. Manufacturers cannot be blamed for accepting municipal aid so long as municipalities are willing to give it, neither can it be denied that municipalities frequently promote their own prosperity by so doing. The whole thing is after all purely a matter of dollars and cents, and the question to be considered in each case is: will it pay? If by giving a bonus or other assistance the demand for houses, stores, etc., can be increased so as to return us two dollars for the one given, then clearly it is our duty to give it; if not then we had better withhold it. One thing is certain that if the town is to continue to grow we must increase its manufacturing population. Without this we cannot look for any great growth in the future, and the question which we have got to solve is how to secure such a population. We believe that heaven helps those who help themselves, and therefor we think we should be up and doing our part.

THE MIDLAND AMALGAMATION.

It cannot but be gratifying to Mr. Cox and his co-directors to find that their amalgamation scheme has met with not only the unanimous approval of the owners of the several roads interested, but also the general approval of the localities served by the various roads, that will henceforth be included under the name of the Midland Railway of Canada. Indeed it could scarcely be otherwise, seeing that the amalgamation will on the whole prove advantageous to the business interests of the country served by the new combination, inasmuch as it will facilitate and cheapen the transport between all the points now brought into connection with one another upon a single line, under one management. With such a unanimity of feeling on the part of the owners and of the people more immediately interested, there ought to be no difficulty in obtaining the legislation necessary to give the final touches to the agreements which have already been entered into and are now being put in operation.

THE WARD SYSTEM.

London Citizens' Committee Asks to Have it Dealt with by the Legislature.

LONDON, Dec. 13.—The question of municipal reform was intelligently discussed by the citizens' Committee this afternoon. There was a marked unanimity of feeling that the present system of civic government is eminently unsatisfactory, and that the Council, as at present constituted is altogether too cumbersome and must be reduced in number. After various schemes and proposals had been discussed, a resolution was unanimously carried recommending the City Council to instruct W. R. Meredith, Q. C., to obtain such legislation by the Local Assembly as will enable cities to abolish the ward system and reduce the number of Aldermen, so as not to exceed seven elected by the whole city; and that the City Council be furthe r recommended to ask the co-operation of other cities in Ontario in obtaining the much needed reforms. The matter will also be brought up at the several ward meetings during the municipal election, and an expression of opinion taken.

BELLEVILLE.

THE CITY CLERKSHIP.—At the meeting of the City Council on Monday Mr. D. B. Robertson was elected city clerk, thus necessitating his retirement from the Mayoralty. Alderman Nelson Lingham now comes forward as a Mayoralty candidate.

IRON SMELTING WORKS WANTED.—The City Council has authorized the purchase of sites for iron smelting companies that may be established in the city, and will also grant exemption from taxes for ten years.

FIRE.—At about 3 a.m., on Monday morning a fire broke out in the stables of Arkle's hotel, Front street, destroying the building, together with two horses belonging to Mr. Bath, of Hungerford. The fire spread to and destroyed a frame building owned by Mr. L. O'Brien, and occupied by Thos. Naylor, blacksmith. He saved his tools. Mr. O'Brien's loss was about $500; insured for $300. Arkle's loss will be about $200; no insurance. The loss on Arkle's stables, owned by Wm. Dafoe, will be about $300; uninsured.

The Place for Emigrants.

LONDON, Dec. 13.—A special cable to the *Globe* says that every day the inquiries about Canada and the prospects of emigrants to the older Provinces or to the North-West become more numerous. The Dominion is better known and its name is more frequently mentioned than ever before. A large and very intelligent class of people therefore are greatly interested by the announcement which has been made that a public meeting will be held at Exeter Hall to-morrow evening, at which the subject of emigration to Canada will be discussed. His Excellency the Governor-General had accepted an invitation to preside. Among the spectators will be Sir Alexander Galt, Canada's High Commissioner, whose recent visit to the North-West will no doubt form the subject for a most interesting address. Other prominent men who have visited Canada and have taken a special interest in examining her great resources will also address the audience. It is expected that a very large number of people will be present.

Hanlan-Boyd.

LONDON, Dec. 13.—At a meeting of Boyd's Committee in Newcastle to-day articles were drawn up for a match to take place on the 3rd of April next, and £100 were deposited on behalf of Boyd. Hanlan's approval of the terms is now awaited.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

AUCTION SALE

OF VALUABLE

TOWN PROPERTY

IN THE

Town of Peterborough.

There will be offered for sale by Public Auction by Charles Stapleton, Auctioneer, on

MONDAY, JANUARY 9, 1882,

at the CAISSE HOUSE, at the hour of THREE O'CLOCK in the afternoon, the following choice property, viz.:

Part of Lot Number Two, East of George Street and North of Brock Street,

in the said Town of Peterborough, described as follows:—Commencing at the north-east angle of the said lot; thence southerly along the eastern boundary thereof one hundred and eleven feet, five inches, more or less, to a point distant eighty-eight feet from the south-east angle of the said lot; thence westerly parallel with the northern limit of said lot one hundred and fifteen feet, more or less, to the western limit thereof; thence northerly along the said western limit one hundred and eleven feet, five inches, more or less, to the northern limit of the said lot; thence easterly along the said northern limit one hundred and fifteen feet, more or less, to the place of beginning.

This property, directly fronting the Park and Court House, forms one of the most desirable building sites in the Town. There are now on the premises four two storey rough-cast dwelling houses.

There will also be offered for sale the following valuable leasehold property, composed of

Part of Lot Number Two, on the South Side of Simcoe Street, and East of George Street,

described as follows:—Commencing at the north-east corner of the said lot, thence westerly along the southern limit of Simcoe Street to the north-east corner of the Engine House lately erected; thence southerly along the eastern gable wall of the said Engine House, and in a line therewith seventy feet; thence easterly in a line parallel with Simcoe Street to the western limit of Water Street; and thence northerly along the said western limit of Water Street, to the place of beginning. And

Part of Lot Number one, on the South Side of Simcoe Street, and East of George Street,

described as follows:—Commencing on Simcoe Street aforesaid, at a point distant one hundred and six feet from the north-west corner of said lot; thence southerly parallel with George Street seventy feet; thence easterly parallel to Simcoe Street fifty feet; thence north parallel to George Street seventy feet; thence westerly along Simcoe Street to the place of beginning; being the whole of the block from and inclusive of the building occupied by the Bank of Toronto down to and including the shop occupied by J. W. Flavelle as a flour and feed store, except that part thereof used as a Fire Hall and all the rooms immediately over the Fire Hall.

The first of the above described leasehold properties is held under a certain indenture of lease from the Commissioners of the Peterborough Town Trust, dated the first day of November, 1864, at a ground rent of $100 for the full term of 21 years, reckoning from the First day of November, 1864, such lease consequently not expiring until the First of November, 1885, and will then be renewable in the option of the said Commissioners for a further term of twenty-one years. And the latter of the said leasehold properties is held under a certain other indenture of lease from the Town Council of the Town of Peterborough, dated the first day of May, 1861, at a ground rent of $75,00 for the like term of twenty-one years, reckoning from the said first day of May, 1861 and expiring on the first day of May, 1882. This lease is also renewable for a further term of twenty-one years.

The Terms of Sale are easy, and will be made known at the time of sale. There will be a reserved bid. Further information can be obtained from the undersigned, or at the office of Messrs. Poussette & Roger, Water Street.

Dated December 7th, 1881.

FORESTERS' SOCIAL.

The Foresters' social and oyster supper held in the hall on Queen street, on Thursday evening the 6th instant, was a great success. The Masonic Hall was kindly lent for the occasion by Clementi Lodge of A. F & A. M. and was used as a reception room, both the halls being on the same flat. The supper table was spread in the Foresters' Hall, and partaken of at 9 o'clock. The principal part of the remainder of the evening was spent, as Foresters and their wives know so well how to spend it, in social intercourse, music, readings &c., &c. The following programme was carried out in first class style:—

PROGRAMME.

Song	Mr. Urquhart
Song	Bro. Wm. Graham
Song	Miss Clarin
Reading	Mrs. Wm. Graham

A Series of Robberies

KINGSTON, Dec. 13.—Last night the residence of John Elmer, on Sydenham-street, was entered and upwards of $150 stolen. The burglar made an entrance by the parlour window, and although the house was lighted up and some members of the family up stairs, the bold thief succeeded in carrying off his booty. Owing to many larcenies and burglaries, there is considerable alarm among the citizens, and they are carefully bolting doors and windows to prevent entrances. The robbery was reported some time ago of about $600 in bills, and coin and notes increasing the amount to $1,000, from the residence of High Peters, an elderly gentleman, who lived near Merivale. The burglars entered the house in the night time, and from under the gentleman's very nose removed a large chest containing the valuables. It was taken down through the cellar and thence out doors. Since that time clues have been carefully followed up, and on Saturday last Detective Sullivan, of this city, was despatched to work up the case. He did so, and yesterday delivered at the police station here a man named Long, who, it is claimed, was one of the burglars. He was at Peters' on the night of the robbery. The accomplices may also be secured.

A DOG FIGHT.

How Toronto and Hamilton Sports Amuse Themselves on Sunday.

Some Toronto dog fanciers rejoice in the possession of a bull dog named White Star, which they believe can literally chaw up any other animal of the same species. Until yesterday Hamilton sports owned a similar animal called Kate, and as they had the same high aspirations regarding their dog as the Toronto men respecting theirs, it was not difficult to arrange a match between the owners of the two animals. $50 a side was the stake agreed upon, and yesterday the scrimmage came off before a select audience in a quiet spot near Riverside. Some of the onlookers were awarded guard duty to give timely warning of the approach of any of the usually ubiquitous county constables, but, strange to say, none of the latter appeared to mar the pleasure of the canine encounter. Both animals were of the female persuasion, and they fought for about an hour, At the end of that time the Hamilton dog gave out. Her adherents threw up the sponge, and the Toronto dog was declared the winner. The vanquished animal was badly bitten, and died in a few minutes after the close of the scrimmage.—*Mail.*

FROM ALL OVER.

SOME hundred and sixty Canadian families at present living in the State of Michigan, Illinois, and New York, and all possessed of more or less means, are about to move to the Turtle Mountain district.

AT No. 411 Market street, Harrisburg, Pa., lives Miss Mary C. Bruner, who was subject to neuralgia. Happily she was induced to try St. Jacobs Oil, and it relieved her immediately.

THE ratepayers of St. Thomas held an indignation meeting on Monday night to protest against the amalgamation of the Credit Valley railway with the Great Western, and to arrange for action to prevent the completion of such amalgamation.

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

IT is understood that upon their return to England from America, Messrs. T. P. O'Connor and Healy will be indicted for conspiracy, the charge being founded upon their utterances at the National Land League convention at Chicago.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

ON Friday last a farmer of the township of Caradoc, Middlesex, named William Paddison, near Amiens P. O., was found hanging by the neck to one of the cross-beams in his stable, life being extinct. The unfortunate man was greatly troubled in mind by the loss of a son and the giving up of his farm.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

THE Rev. Dr. Thomas, the Chicago expelled Methodist, has formed a people's church, and is preaching to twice as many people as before, for twice as much salary. The only creed the new organization holds is the ten commandments and the teaching of Christ.

THE HOG.—This important source of wealth to the Canadian farmer, is never so remunerative or so healthy as when his feed has been mixed continually with Harvell's Condition Powders, as they vastly improve his weight, and the flavour of his flesh.

MR. LONGWORTH POWERS of Rome, son of Hiram Powers, the Sculptor, having obtained the best photograph of President Garfield, began a bust of him on the 2nd July, the day the president was shot, and, singularly enough, he finished it on the 19th of September, the day on which he died.

IT is possible for a man to begin a sentance like a philanthropist and end it like a tyrant. "I like to hear a child cry," said the Abbe Morold, and at once the company, consisting largely of ladies, thought him a model man. "Yes," he said again, "I always like to hear a child cry, because he is sure to be sent out of the room."

IN the new city of Pullman near Chicago a handsome roofer, who for more than three months has done work on the highest building with as much skill as the best workman, has just been discovered to be a young woman in disguise. Of course her wages will be reduced one-half at once. It is outrageous that women should be allowed as much pay as men for doing the same work.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

IT is rumoured that a new line of steamers, owned in Canada, will be placed upon the route between San Francisco and Japan and China, calling at Victoria, B. C., as an intermediary point. Statistics of the trade between the countries named are being collected with a view to deciding its commercial success, and it is likely that an Act of Incorporation for the proposed company will be applied for at the approaching session of Parliament.

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible!" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

LOCAL AND MUNICIPAL.

Smoke and Excitement.

About four o'clock on Wednesday afternoon the ringing of the fire bells roused our citizens and made them seek the open air to discover if possible the cause of the alarm. A dense smoke on Hunter street, soaring high above the fire-trap roofs, made many believe that one of these much to be feared Mansards had caught fire, but a close view showed that all the hubbub was caused by a chimney fire, the same one that has on numerous occasions called out the brigade when there was not the least cause for alarm. We refer to the chimney over the rooms formerly occupied by the Mechanics' Institute. Time and again attention has been called to this chimney, which appears to take fire to raise some excitement and give the firemen a hot run for nothing. The attention of the owner of the building has been drawn to the dangerous condition of the flue, but as he has apparently paid no attention to it, it is about time that the authorities took some action in the matter, and at the same time we might mention that there are one or two other chimneys, not far from this one, that also need looking after. The firemen had their apparatus on the ground in short order, but fortunately their services were not required. The alarm drew a large number of people to the spot, and for some time, the streets were almost blocked.

Picturesque Canada.

We have before us the first number of "Picturesque Canada," issued under the joint supervision of L. R. O'Brien, president of the Canadian Academy of Arts, and Professor Grant of Queen's University. This number fully realizes the high expectations we had formed of it. The illustrations are very numerous, and are of the highest style of art, while the letter press, paper, etc., leaves nothing to be desired. This is a beautiful Canadian work, and should be patronised by all lovers of our country. Owing to the satisfactory progress of the canvas so far, the publishers, the Art Publishing Co. of Toronto, are sanguine that the general delivery of this work will be commenced at an early date.

S. S. Mass Meeting.

We are requested to announce that a mass meeting of the children of the town Sabbath Schools will be held in the George Street Methodist Church, on Sunday the 1st of January next. The service will commence at 2.45 p.m., sharp, and close at 4 o'clock. A very interesting programme is under preparation. Besides the singing and responsive scripture readings by the scholars, the Rev. Messrs. Joliffe, Torrance, Shaw, Bell, Stobo and Workman, will take part in the service.

Orange Supper.

After the installation of the officers of McWilliams' Lodge of True Blues, No. 25, by Bro. P. P. Breillatte, Past District Master of Toronto District, on Monday evening last, the brethren repaired to the St. James' Hotel, where they partook of an oyster supper, prepared in Mr. F. J. Daly's best style. Two or three hours were very agreeably and profitably passed, after which those present separated well pleased with the entertainment and the result of the election.

Presentation.

Prior to her departure from Midland to Peterborough, Miss Ada. Thomson, daughter of Mr. W. G. Thomson, was presented by a large number of her friends, with an address and a handsome gold ring. The recipient of these remarks of esteem made a suitable reply. The removal of Mr. Thomson and his family is regreted by a large circle of friends and acquaintances.

Save Your Money.

A call will convince the most skeptical of the great saving to be effected by making their purchases at W. Fairweather & Co's great sale. Their stock is the largest in town. The assortment is without a rival, and the prices are right.

Prof. Grady.

After a somewhat lengthy and successful visit to Peterborough, leaves for Cobourg in a day or two. We would advise all afflicted with a difficulty in their speech not to miss so favourable an opportunity of consulting the Professor.

Just Arrived, New Light Silks for Evening Wear. See Them at W. Fairweather & Co's

Silver Ware.

For a good Xmas present there is undoubtedly nothing like silver ware. It is not a thing that passes away in the using of it but remains a lasting memento of the giver, which is just what most people desire when they give such gifts. Moreover it is made up in such a variety of ways and articles, that one can always find something suited to their means, and in the presentation of which there is little risk of duplication—especially when there is such a large and varried stock to select from as there is now to be found at Austin's. We believe we are within the mark when we say that it is the finest, largest and best stock of silverware ever brought into Peterborough, and that it will compare favourably with and be sold cheaper than the best city stocks. In fact Austin's is just the place to go to if you want to buy an Xmas present, no matter whether it be for your grand mother, mother, or sweetheart, or for the little ones at home. Go and see for yourselves, for seeing is believing.

Midland and Grand Junction Railways.

The traffic returns of the above railways for the week ending Dec. 11, 1881, were as follows:

MIDLAND RAILWAY.—Passengers and Mails, $2517.50; Freight, $3279.83; Total, $5797.33, as compared with $3853.03 for the correspond, ing week of 1880, being an increase of $1944.30 and the aggregate traffic to date is $382,523.37, being an increase of $60,488.00 over 1880.

GRAND JUNCTION RAILWAY.—Passengers and Mails, $727.26; Freight, $926.69; Total, $1,653.95, as compared with $903.73 for the corresponding week of 1880, being an increase, of $750.22; and the aggregate traffic from 1st June to date is $63,973.10, being an increase of $34,774.96 over 1880.

Personal.

Mr. A. Bertram, of Toronto, spent a few day's in town this week.

Mr. J. Jardine, of the Bank of Toronto, Barrie, paid a flying visit to Peterborough this week.

His many friends; more particularly the customers of the bank will be pleased to learn that Mr. W. Manson has again been placed in charge of the branch of the Canadian Bank of Commerce here. Mr. Manson during his former management of the institution did much to advan ce its intrests and as he is exceedingly popular with all classes of the community, we have no fear that the managers of the bank will have any reason to regret the appointment.

Mr. F. C. Taylor, Mayor of Lindsay, was in town to-day, as was Mr. E. Peplow of Port Hope.

Poultry Show.

Mr. McClelland in writing to his friend Mr. Geo. Hope of the Toronto Poultry Association. that he was willing to waive holding a poultry exhibition in Peterborough this year in favour of Toronto, spoke only for himself and had no wish to bind the Central Midland Association in any way. The *Mail* therefore was not authorized by him to say that a show would not be held here, but Toronto and its press are never willing to let any other place in the Province have any show. At all events this misunderstanding will have the good effect of well advertising the poultry exhibition which is to be held here this winter.

The Weather.

The weather probabilities for this district for the following 24 hours as reported from Toronto, at 10 a.m. by the Great Northwestern Telegraph Company, are as follows:—Lake region, moderate to fresh westerly to northerly winds, cloudy to fair cold weather with snow flurries to-day; increasing southerly winds, and rising temperature tomorrow, probably snow in many localities at night.

Railway Notes.

Mr. George S. Perks, lately station agent of the Grand Junction at Belleville, has been appointed to a position in the audit office of the amalgamated company at Peterborough.

A Toronto gentlemen has received word from one of the survey party on the proposed Ontario and Quebec railway line that they have finish-with the survey as far as the village of Clarmont.

The Holidays.

In consequence of Christmas and New Year's days falling on Sunday, it is probable that the Lieutenant-Governor will declare the following Mondays public holidays. That is exactly what is required.

One Month in Gaol.

James Farley, charged with an assault on his step-daughter, Ellen Higgins, was tried on Wednesday, before his honor Judge Dénniston, found guilty and setenced to one month in gaol.

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

Decline of Man.—Impotency of mind, limb or vital function, nervous weakness, sexual debility and all diseases caused by indiscretions and abuse, are radically and promptly cured by the use of Mack's Magnetic Medicine, which is for sale by all responsible druggists. SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

A LIBEL SUIT.

PARIS, Dec. 15.—In the libel suit of Roustin, Minister of Tunis, against Rochfort, yesterday St. Hilliare, late Foreign Minister, denied the assertion, that he entrusted DeBilling with a mission to Tunis. A violent altercation ensued St. Hilliare and DeBilling accusing each other of lying.

TERRIBLE LOSS OF LIFE.

LONDON, Dec. 15.—News has just been received that a terrible typhoon visited the country about Haifong and Lalee in China, raising the waters of the sea and driving them inland four miles. One town was entirely submerged and swept away with all inhabitants, numbering three thousand.

"UNITED IRELAND."

DUBLIN, Dec. 15.—Yesterday the police entered the office of *United Ireland* and arrested Mr. Burton, a clerk, and Mr. O'Keefe, sub-editor, and seized all the papers.

MRS. LANGTRY'S DEBUT.

LONDON, Dec. 15.—Mrs. Langtry made her first appearance at the Haymarket theatre this afternoon. All the papers highly praise her representation.

AUSTRO-ROUMANIAN RELATIONS.

VIENNA, Dec. 15.—The official *Fremdenblatt* in a leading article to-day threatens a formal rupture of the present Austrian relations with Roumania, unless the latter Government affords direct satisfaction without the mediation of foreign influence.

A REICHSTAG ROW.

BERLIN, Dec. 15.—There was a stormy discussion in the German Reichstag to-day on the subject of official influence in the recent elections. Herr von Puttkammer, Vice-President of the Council, stated that the conduct of the Prussian officials merited the thanks, not only of the Government, but of the Emperor. Herr Richter said he considered Herr von Puttkammer's remarks degraded public officials to the position of electoral agents. Herr von Bendigsen declared that the late elections surpassed the others for the rancour displayed. The Government and the press which they inspired must be held to have incurred greater responsibility for these proceedings than individuals. He protested. Herr von Puttkammer replied that he could retract nothing, as the Government had been accused of following an interested policy of the lowest and meanest description. The debate lasted until past midnight.

EMIGRATION TO CANADA.

LONDON, Dec. 15.—The *Times* in an editorial on the meeting of the Women's Emigration Society, yesterday says:—"Canada is the goal towards which the society would point. If any Colony would attract an independent supply of women emigrants that Colony is British North America. The voyage is the shortest and least expensive. The emigrant is not cut off irrevocably from the comforts of the mother country, as civilisation is as widely diffused there as in any Colony. The climate is healthy and above all, the Colony is thoroughly English. It is permeated and perforated in all directions with English society, and types of English life and English thoughts. If these advantages fail to attract the emigration of women, either the women are unaware of the premium the sex commands across the Atlantic, or they do not know the facilities offered for leaving the overcrowded Mother Country."

SHOT DEAD.

LONDON, Dec. 15.—A sentry guarding the the prison at Malaga noticed an Englishman walking around the walls, and challenged him five times. The latter, not understanding the challenge, remained silent, whereupon the soldier shot him dead. The military authorities are investigating.

PARNELL'S FARM.

DUBLIN, Dec. 15.—Several hundred tenant farmers ploughed Mr. Parnell's farm in Wicklow county, and performed all the necessary work thereon. On separating they cheered Messrs. Parnell, Dillon, Father Sheehey and others. An effigy of Mr. Gladstone, labelled "the last landlord," was paraded over the grounds. Two members of Parliament delivered addresses. Three thousand persons were present.

AN ALLIANCE WITH GERMANY.

CONSTANTINOPLE, Dec. 15.—It is now the firm conviction at the Palace that an offensive and defensive alliance will shortly be concluded with Germany. Meanwhile Germany is now commanding the political influence which England once possessed.

A MINERS' STRIKE.

PARIS, Dec. 15.—A strike has occured amongst the miners at the Grand Combe coal pits, and disturbances have taken place. The troops are confined to barracks in readiness for action in case their services are need to repress disorder.

CENSUS STATISTICS.

LONDON, Dec. 15.—The census taken last April by the city authoritiess show that the number of persons regularly employed or resident within the limits of the city of London on the day the census was taken was 261,061, and the number of persons who entered the city with twenty-four hours was 797,563.

NOT GUILTY.

PARIS, Dec. 15.—The jury found Rochefort, editor of *Intransigeant*, not guilty of the charge of insulting Rousta, French Minister to Tunis. The latter was adjudged to pay costs. The verdict created a sensation.

THE FRENCH AMBASSADOR.

BERLIN, Dec. 15. Count de St. Vallier had a farewell audience with Emperor William to-day, when he presented his letter of recall as French Ambassador. The Emperor gave a grand banquet in his honour this evening.

ARABS SETLING IN MOROCCO.

MADRID, Dec. 15.—Advices from Morocco state that 45,000 Arab families have entered Morocco and asked permission to settle permanently in that country. The Moorish Government has not yet given them any reply.

COPS IN CONVENTION.

CHICAGO, Dec. 16.—A convention of the police of the United States was held here yesterday. The object was to organize a system for intercharging telegraphic information regarding criminal fugitives from justice, and promoting the efficiency of the police generally.

HEAVY EXPENSES.

NEW YORK, Dec. 16.—The *Herald* says that the following remunerations will be made to the physicians and nurses of Garfield. The head surgeon will be asked to retire, and Surgeon General Barnes will rank as Major-General. Woodward holding the rank of Major in the medical college will be advanced to the special rank of Colonel. Under the act to pay the expenses incidental to Garfield's illness $110,000 or perhaps $125,000 will be paid out. Bliss, Agnew and Hamilton will receive about $24,000 or $27,000 each, four nurses will receive $2,500 each. Dr. Lamont, of the Surgeon-General's office, will receive $1,000 for the autopsy. Reyburn, Bliss', assistant, will also receive a reasonable sum. It is not known what charge the railway companies will make for the use of the special trains or for the construction of new tracks from Washington to Long Branch.

AN IMPORTANT WITNESS

PITTSBURG, Dec. 16.—John J. Foster, a commercial traveller residing in Beaver, Pennsylvania, has been summoned to Washington by Corkhill. It is understood that Foster will testify that one day before the shooting of Garfield he was sitting at a bootblack's stand in Washington, when Guiteau came up. They got into conversation and Guiteau said, "I have been appointed a consul." Said Foster, "are you sure you will get it?" "Oh, yes," replied Guiteau, and added, "if I don't get it I will cause greater excitement here in Washington than there has been since 1865."

DRUGGING GUITEAU.

NEW YORK, Dec. 16.—A Washington special to the *Times* says that Dr. Young was interrogated yesterday regarding the medecines given to Guiteau, because of the report that the prisoner had been given opiates in his food, to quiet and stupify him. Mrs. Scoville believes that Guiteau has been secretly given medecine in his food, and that the effect of this has been to change his personal appearance.

A BIG CLAIM.

NEW YORK, Dec. 16.—The *Herald* gives the private prospectus of a Peruvian Company, which claims to be the owner of a claim against Peru arising out of a right to deposits of salt petre amounting to nine hundred million dollars. The scheme looks like taking possession of Peru by American speculators, with the help of the United States Government.

SHOT BY AN OFFICER.

FRANKLIN, Pa., Dec. 16.—Price, a coloured man while on a spree, knocked down Constable Oliver, who attempted to arrest him. Oliver fatally shot Price.

SENTENCED FOR MURDER.

WINSTON, N.C., Dec. 16.—The sentence of Wm. Wann, who killed the brother of the inventor of the Gatling gun, has been commuted to imprisonment for life.

CHILD ABDUCTION.

ROCHESTER, Dec. 16.—The Rev. H. O. Bates who recently had his divorced wife ejected from his church at Sodus, has commenced an action for the recovery of his child which has been abducted by the mother.

ANOTHER THEATRE FIRE.

COLUMBUS, O., Dec, 16.—The Grand Opera House was gutted by fire this morning. Loss $20,000.

THREATENING A JUDGE.

OMAHA, Dec. 16.—When the case of Arndt, against the Union Pacific Railway was called yesterday, U. S. Judge Dundy stated in open court that he had heard that Arndt had threatened to kill him. This created a sensation. Arndt emphatically denied making such a threat.

U. S. AND CHILI.

NEW YORK, Dec. 16.—A special to the *Sun* says that Martines the Chilian Minister has sent a long memorandum note to Blaine regarding the the present complications dated the 1st of Nov. Its object is stated to have the Government of the United States correctly informed so it may be enabled to appreciate the upright and prudent policy of Chili, and understand those events which are yet to come. Martines reviews the conflict in Peru and says that Calderon told Chili's diplomatic agent that for his part he was ready to sign a treaty of peace based upon a cession of territory, but he never dared to do so, because the people opposed that condition. Christiancy encouraged Calderon in his resistance to the cession of territory. Then Calderon fell into the most lamentable discredit, and the Chilian Commander would have deposed Calderon even if he had been recognized by all the neutral powers in the world, instead of by the United States and Switzerland only. Chili's entire course of late has been with reference to the cession of Peruvian territory, and she will continue that course until she gains her object. There will be no peace in Peru as long as certain financial schemes are supported by this or that Government, or as long as there is hope of the intervention of the United States. Chili demands liberty of action, as the conqueror has the right to dictate terms. If Peru continues to give evidence of absolute incapacity, Chili has the right of annexation.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us to dust a resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1wly

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere. d52w9

NO PROGRAMME.

The Montreal *Star*, an independant journal says: "Unless the [illegible] some attractive programme, they will find the country swept by the Conservatives when the political parties muster for battle array. At present the Reform party is all negative; it is for pulling down, not building up, and the country is eagerly looking out for a programme to which the seal of the party may be attached with ostentatious display. It will not do to tell us that the Pacific Railway is a delusion, or that the N. P. is a snare. These cries have no influence on the public mind, for the country is pledged to the one, and it is benefited by the the other. The *Globe* may rail, and all the little *Globes* may wriggle, but there is no escape from the Syndicate on the one hand, nor is their any general desire to interfere with the National Policy on the other. On these two points the country may be said to be almost unanimous, and the sooner the one becomes a dead issue and the other something to debate, not to rail at, the better chance the Reform part will have of gaining the public ear. The people want a programme outside these issues." Query? Where are the Reformers going to get the attractive programme? The only programme they have at present is the upsetting of the good effects produced by the policy of the Government. And certainly that is not likely to prove very attractive."

LAKEFIELD NEWS.

From our own Correspondent.

LAKEFIELD BRIDGE.

The report has got into circulation during the last week or ten days that the Lakefield bridge was to be taken down on 15th instant. This report had no foundation whatever. The bridge has not been taken down, and it will not be taken down until proper notice is given. The Toronto Bridge Co. has informed the council that the bridge would be completed by the 10th of next month. The engineer has informed our Reeve that he intends to provide fully for the accommodation of the public with regard to the bridge. It is intended to erect a temporary bridge with the timbers of the old bridge in order to meet the demands of the public and the requirement of travellers. The new iron bridge will be erected on the old piers thoroughly overhauled, and the bridge will be constructed so as to admit of new piers, stone or wood, being built when required. Some parties, for want of knowing better, have had a good deal to say by way of criticism about the bridge being put on these old piers. These wiseacres would have the public believe that they knew more than the County Engineer, but such talkers do not amount to much.

THE MAILS.

The people of Lakefield merit at least fair and candid consideration in the matter of their mails. Lakefield is intimately connected with the interests and welfare of the country north of it, and its people have been and are still anxious to do all they can for those in the north. Lakefield is fully prepared to make a sacrifice in giving the mail stage between Peterborough and Lakefield for the benefit of the back country. The is no reason why during at least two thirds of the year if the mail left Lakefield instead of Peterborough, the post offices north of here should not have their mails 24 hours earlier than at present. On Monday morning last the mail by stage left Peterborough at 7 a.m., arriving in Lakefield at 10 a.m., and started from Lakefield half an hour later. Well, now, if that mail had waited until one o'clock, or two and a half hours later it would have contained twenty-four hours later mail matter than it did. The assertion that the mails could be carried from Lakefield instead of Peterborough for three fourths of the present cost was made to the Post Office Department long ago by a petition signed by hundreds. Again there is no valid reason why twenty-four hours could not be gained also in the return of the mails to Lakefield instead of to Peterborough, because very frequently the stage does not reach Peterborough in time to go forward until next day.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

SADLY VICTIMIZED.

A Too Confiding Nova Scotian Robbed of Six Hundred Dollars While on a Spree.

MONTREAL, Dec. 14.—About a week since a young American, stylishly drassed and with the air of a gentleman, came to Montreal and put up at one of our leading hotels, where he registered as Nathan Treen, from Boston. He seemed to be a gay and genial sort of fellow, with plenty of money in his pocket, and was quite lavish in its expenditure around the bars and billiard-rooms, as well as in more questionable haunts, where his new found friends introduced him. It was noticed that he suddenly became low in funds, but just as suddenly got flush again. He accounted for his good luck by saying he had cashed a cheque for what he required. He did not remain, however, long in town after replenishing his exchequer, as the same evening he took his departure to Chicago. Circumstances since his departure have developed his true character. It appears he got a certificate of deposit on the Merchants' National Bank of Boston in favour of W. Rone for three hundred dollars cashed by a local banking house on the strength of a forged letter of identification in the name of Mr. Nield, a wholesale merchant of the city. When the certificate was forwarded in due course to the Merchants' National Bank payment was refused on the ground that the signature endorsed upon it was a forgery. The matter was then placed in the hands of one of the detectives at the "Hub" who investigated it, and gives an account of what is known of Treen in Boston. It seems he was a gay young man about the modern Athens with many jolly acquaintenances. He was on good terms with a Mr. Rone, who was until lately a successful saloon-keeper in Yarmouth, N.S., but had recently emigrated to Boston, where he intended commencing business. He had brought with him six hundred dollars, which he lodged in the Mechanics' National Bank, and received a certificate or receipt for the amount, which he carried in his pocket. He was socially of as lively a temperature as his new friend, and it was arranged that they should go off on a spree. The result was that Rone got drunk at the Sherman house, and Treen relieved him of the deposit receipt, which the owner since admits had been endorsed by himself with the view of drawing out a portion of the money. Treen forged a letter in Rone's name to the bank saying he wanted half the amount he had lodged in cash, and a certificate for the other moiety. The forger was the bearer of the missive, and his demand was complied with. He then came on at once to Montreal, leaving his unfortunate victim penniless in a strange land to ruminate upon the folly of giving his confidence to a stranger. The certificate which the scoundrel got cashed here was the one he obtained through his deceit in Boston. The banker in this city and the bank in Boston have employed detectives, and if the forger remains on the continent he has little chance of escape from the punishment he so richly merits. It is reported that he has also victimized quite a number of greenhorns here, whom he only casually met in bar-rooms. Had he remained long enough, no doubt he would have got the *entree* into good society, like the famous German-English Captain Howard, who lately created such a sensation by bleeding all his numerous society acquaintances, and then absconding to Boston, where, at last accounts, he was commencing his swindling operations anew.

HASTINGS.

CARRIED.—Voting on the By-law, on Monday 5th inst., resulted in 22 for the By-law and 1 against it.

NEW ELEVATOR.—Mr. H. M. Fowlds has commenced the erection of another elevator along side of the present one.

A COLD DIP.—While Mr. P. Tracy was attempting to cross the mill race, to his work, on last Saturday, he fell through the ice and narrowly escaped a watery grave.

CATTLE SHIPMENT.—Our enterprising townsman Mr. J. Collins, shipped thirty head of fat cattle to Rathburn's shanty last week, and will ship fifty barrels of beef to the same firm this week.

A COOL TRICK.—The *Star* says that two individuals hailing from the vicinity of Norwood, stole a buffalo robe from Mr. Thomas Grady's buggy, on Saturday evening last, but their attempts were frustrated, as Mr. Grady had suspicion of the parties, and followed them to Norwood, and obtained his robe. We will publish their names, and give full particulars of the affairs in our next issue.

YOUNGS' POINT.

From Our Own Correspondent.

THE ROADS.—The roads since the last heavy rain are very bad indeed; if this weather continues for a little time longer it will perplex the lumbermen.

SHOOTING.—Some individual carrying a gun shot Stewart's Tom cat, about a mile from this place in mistake for a a racoon, (so the story goes). Probably the sportsman (?) has often seen two moons. It certainly was a very fine specimen of a cat, being very large.

SHINGLE MILL.—The new engine had a slight break down the other day, but it is repaired again and works well. Considering the state of the roads from Lakefield it came very safe. It is a very fine looking engine, and reflects great credit on the Waterous Co'y of Brantford, the makers.

THRESHING.—The farmers around this section have been busy threshing their grain. The yield of wheat and all kinds of coarse grain has turned out very well, a very good average crop, indeed. The root crop, owing to the dry summer, was not up to the mark.

A Dean Stanley Memorial.

LONDON, Dec. 14.—At a meeting held to-day to take steps for erecting a suitable memorial in Westminster Abbey in commemoration and honour of the late Dean Stanley, the Prince of Wales was present, and after making a well chosen and feeling address, his Royal Highness proposed a resolution, setting forth that Dean Stanley's agenius, character, and services entitle him to a national memorial. A resolution was adopted; but at a later stage of the meeting Mr. James Russell Lowell, American Minister to England, after paying a high tribute to the mental, moral, and social qualities of Dean Stanley, expressed a hope that the memorial would be international, so that the American people might be allowed to contribute to it. The memorial will consist of an effigy of the Dean in pure white marble in a recumbent position, placed over the grave in the abbey where his body now rests.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

SEQUEL TO AN ESCAPE.

Shiote Gets Six Months for his Share in the Penitentiary Breakaway.

KINGSTON, Dec. 14.—In February last, on a Sabbath night, four convicts made a desperate escape from the Kingston penitentiary. They were all confined in solitary cells at the rear of the prison. One (Wright) cut out a section of the door grating, crawled out, and with the piece broke the locks of four cells, allowing all the prisoners out into the corridor. When the guards came to see them they were overpowered, held and locked up in the cells. The desperadoes got outside, stole clothing from the tailor shop, scaled the walls, and tramped fourteen miles across the ice to Cape Vincent. The prisoner Wright carried a half crazy murderer on his back across the slushy ice, until his legs gave out, and half frozen they crawled to a house for succour. All were recaptured, and to-day Shiotte, whose original sentence was completed, was tried for robbery and escape, and pleaded guilty to both charges. On the latter he was sentenced to six months imprisonment in the penitentiary. The sentence for robbery was deferred until the conclusion of the present sentence.

The Pope and the English Government.

The meaning assigned to Mr. Errington's visit to Rome is excellently calculated to set the more fanatical Protestantism of the country in a flame. It is rumoured that the Government are actually thinking of accrediting, though in an informal way, an English Minister to the Pope. It was bad enough that this should be done when the Pope was a secular Prince; but even Exeter Hall could see that, so long as it pleased Providence to leave anti-Christ in possession of certain temporal dominions, the fact had to be recognized, however repulsive it might be to pious minds. Now that the temporal sovereignity has been overthrown for more than ten years, and the Pope is universally recognized outside his own palace as neither more nor less than the chief of the Roman Catholic religion, the apparent compliment paid to that religion by accrediting a minister to its head would be more significant and consequently more irritating. Why, it will be said, should England have diplomatic relations with the chief of the Italian Roman Catholics, rather than with the chief, if there be one, of the American Baptists or the Polish Jews? There is an obvious answer to this question; but as it is one the force of which cannot be appreciated without some slight care or common sense, it cannot be expected to carry conviction to Exeter Hall.—*Saturday Review.*

A New Motor.

A locomotive is being built at the Grant Locomotive Works, Paterson, N.J., which will burn neither wood nor coal. The fuel will be water, which is decomposed in "association with carbon, forming readily combustible gases, of which hydrogen is the chief." The method of decomposing water at a low temperature, invented by Dr. Charles Holland, was first used as a motor in a common coal-burning locomotive on Long Island a year ago. It is now used practically in heaters and in illuminating houses. The water vapour is dissociated into its elements, oxygen and hydrogen, in the presence of the carbon of naptha gas at a temperature of 400 deg. c. As the hydrogen burns with a heat of nearly 8,000 deg. c., a gain is effected of 18-20 of the whole heat. The engine of course is constructed very differently from the common engine. What may be termed the "gas grate," consisting of four retorts, three feeder pipes and 352 burners, occupies the place of the grate and lower part of the fire box in an ordinary locomotive. The gas passes from the retorts to the feeders, and thence to the burners, and burns with a colorless and almost invisible light. The heat of 8,000 deg. c. is greater than any heat known, except that of electric light. The use of this fuel does away with smoke, cinders and sparks. It requires but little "firing up," as the touch of a lighted match is all that is necessary. The trial of this engine will be made soon after it is completed and tested. It is said that a railroad company has offered $1,000,000 for the right to use this process, provided that this engine will draw a train of four Pullman cars from New York to Chicago and return on schedule time.

Inlaying Wood by Pressure.

An exchange says that a new method of inlaying wood has been contrived by a furniture house in England. The process is as follows:—A veneer of the same wood as that of which the design to be inlaid consists—say sycamore—is glued entirely over the surface of any hardwood, such as American walnut, and allowed to dry thoroughly. The design is then cut out of a zinc plate about one-twentieth of an inch in thickness, and placed upon the veneer. The whole is now subjected to the action of steam, and made to travel between two powerful cast iron rollers, of eight inches in diameter by two feet long, two above and two below, which may be brought within any distance of each other by screws. The enormous pressure to which the zinc plate is subjected forces it completely into the veneer, and the veneer into the solid wood beneath it, while the zinc curls up out of the matrix it has just formed, and comes away easily. All that now remains to be done is to plane down the veneer left untouched by the zinc until a thin shaving is taken off the portion forced into the walnut, when the surface, being perfectly smooth, the operation will be completed. It might be supposed that the result of this forcible compression of the two woods would leave a ragged edge, but this is not the case, the joint being so singularly perfect as to be unappreciable to the touch; indeed, the inlaid wood fits more accurately than by the process of fitting, matching and filling up with glue, as is practised in the ordinary mode of inlaying.

A Kiss on the Sly.

There is to be found much refreshment in a well-proportioned kiss. This much everybody acknowledges, though only a frank few have the courage to acknowledge it openly. And it is a curious fact, yet unexplained by the philosophers, that the slyer the kiss is the more there is in it of refreshment.

A kiss that is paid as a forfeit before a whole room full of people, is prosaic, not to say embarrassing. The girl laughs, which spoils the romance, and the fellow, ten to one, blushes—neither of them thinking much of it, and they both are apt pretty soon to forget all about it.

But let the same fellow kiss the same girl when nobody is looking—and the situation is as different as possible. That sort of a kiss, fired off in a hurry behind the door or in a conservatory, is like an electric shock and is as sweet as cream. The ta-ta of it sort of holds on and suggests the propriety—or impropriety, as the case may be—of trying it again. And the laughing and blushing are exactly reversed. The fellow laughs, without spoiling the romance a bit, and the girl blushes like a pink carnation.

It is queer that the very same thing should under such slightly altered circumstances, be so entirely different, nor is it any the less queer because the difference has existed from the earlist age of the world.

FROM ALL OVER.

THE Mormons are credited with having struck up an unholy alliance with the Utes placed in Utah, whom they have furnished with firearms, provisions, and whiskey.

A DANGEROUS fall compelled L. B. Stowalt, Danville, Va., to test the merits of St. Jacobs Oil, and he now declares himself a well man, and highly recommends the remedy.

THE few plagues of a newspaper office are bores, poets, typographical errors, canvassers, and the man who always knows how to run the paper better than the editor does himself.

A RELIABLE FACT.—It is an established fact that Hagyard's Pectoral Balsam is the best cure for coughs, colds, sore throat, asthma, croup, bronchitis, and all troubles arising from neglected colds. Price 25 cents.

A BOSTON man at a theatre asked a Gainsborough hat with a girl in it whether she would not allow him to have a monetary view of the stage. The girl replied that it was the only hat she had.—He gallantly offered to contribute a half dollar toward a new one.

HAGYARD'S YELLOW OIL is at the head of the list for all purposes of a family medicine. It is used with unprecedented success, both internally and externally. It cures sore throat, burns, scalds, frost bites; relieves, and often cures asthma

CAUTION.—Beware of any man who offers you an imitation article, no matter what it is and says it is "just as good as the genuine;" they sell all kinds of "sham remedies" in this way upon the reputation of the Pain-Killer—be sure and get the genuine make by Perry Davis.

ONE of the circuses made a great stir last summer by showing "the handsomest woman in America" at the head of its street processions. A rival circus will next season exhibit "the handsomest man and woman in the world, and a pretence of offering $30,000 for the pair is made.

THE HOG.—This important source of wealth to the Canadian farmer, is never so remunerative or so healthy as when his feed has been mixed continually with Harvell's Condition Powders, as they vastly improve his weight, and the flavour of his flesh.

Mr. Spaulding, who was so anxious that Ottawa should be lighted by means of the electric light, has came to terms with the City Council of Victoria, B. C., which city will now be lighted by his system. The latest Victoria papers to hand state that the erection of the towers will be gone on with immediately.

IT is remarkable that the active ingredients of Fellows' Hypophosphites are alkoloids from trees which attain to very great ages; taken in connection with the fact that this preparation will increase the longevity of the human family this is a somewhat singular coincidence.

A LONDON correspondent says it is thought that an effort will be made to remove the Marquis Lorne from Canada to Ireland. The Princess Louise is not afraid to live in Dublin, and the Marquis is understood to be willing to make the suggested change, although he expresses himself devoted to his Canadian duties, which he would relinquish with regret.

A GREAT many people are troubled with cold feet, which is invariably caused by a sluggish circulation of the blood. A few doses of Dr. Carson's Stomach and Constipation Bitters will soon produce a free circulation of the blood, and stimulate and tone the system. Sold in large bottles at 50 cents. J. D. Tully, agent for Peterborough.

A LONDON paper says that "a Dresden chemist, Nieske, has invented a stove which, by the combination of the actate and hyposulphate of soda, gives out heat without the use of a fuel." There is nothing extraordinary about this. Several men in America have invented stoves which won't give out heat with the use of fuel.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

THE Queen is ill. She suffers much from the comparative mildness of the weather, warmth always being particularly depressing to her. Her Majesty delights in cold, and a hot room or a prolonged ceremonial involving a crowd invariably causes her to feel ill and faint. The hot air apparatus which is used to heat Windsor Castle is never turned on in the suite occupied by the Queen, however severe may be the weather.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

SINGLE young ladies are in great demand, it is said, in the matrimonial market of the North West. A short time ago a milliner engaged four young women as seamstresses to go with her to Winnipeg. The party had scarcely arrived at that city when the young women were captured by four lonely bachelors and converted into wives. The milliner is now back in Toronto seeking for more seamstresses. The publication of these facts will doubtless get her more applicants than she requires.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family medicine. Immediate relief will follow its use. It relieves pain, cures chilblains, frost bites, scalds, burns, corns, rheumatism, neuralgia, etc. For internal use it is none the less wonderful. One or two doses frequently cure sore throat. It will cure croup in a few minutes. A few bottles has often cured asthma. Colic has been cured by a teaspoonful dose. It cures with the utmost rapidity, It is really a wonderful medicine.

FUN in the family: Snickerson came into the house last evening with a three inch and a half smile playing upon his countenance. "Huldah," said he, "when was beef the highest? When the cow jumped over the moon. Ha! ha! ha!" "There, there!" said his wife, "just hold that expression a minute. It reminds me of your great-grandmother's looks when he had to laugh at that self same joke." Snickerson simply retaliated by referring to his wife's "good memory for one who likes to be thought young," and dropped the laugh.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pains is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

FROM Rev. H. L. Gilman, of Glover, Vt. "I have been troubled for several years with a difficulty of the heart and lungs, have applied to several physicians for help, and have tried every remedy recommended, without receiving any assistance; but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only restored my lungs to a sound state, but I am entirely relieved of the difficulty or disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public; and I cheerfully and conscientiously recommend it to all persons suffering from pulmonary complaints." Fifty cents and $1 a bottle. Sold by dealers generally.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.
It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.
It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.
Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Daily Evening Review

FRIDAY, DECEMBER 16, 1881.

LOCAL AND MUNICIPAL.

POLICE COURT.

A BATCH OF ASSAULT CASES.

FRIDAY, Dec. 16.—The Dunlop-Meharry-Lytle *et al* series of assault cases came up this morning and were adjourned until one o'clock p.m., in anticipation of some kind of a setttlement being made.

AN OLD SCORE.

John Wilson was charged by Chief Johnston with assaulting Daniel Cushing on the 1st of March last, with intent to do him some grevious bodily harm.

Mr. John Burnham, M.P., appeared for the prisoner who pleaded not guilty.

As the prisoner was not ready for trial, the case was enlarged for one week, prisoner to find bail for his appearance or pass the time in gaol.

MALICIOUS INJURY TO PROPERTY.

John Wilson was also charged by Mr. Edward Phelan, with maliciously injuring his property, the injury amounting to less than $20.

The prisoner pleaded not guilty, and the case was enlarged for one week, Wilson to furnish bail for his appearance, himself in $200 and two sureties in $200 each.

THE CHARGES WITHDRAWN.

One o'clock p.m.—When the twelve assault cases were called, it was announced that the prosecutors in each case had withdrawn the charges, paid all the costs amounting to $20.10, and thus amicably ended what at one time threatened to be a rather serious affair.

Vennor's Latest.

Vennor had a conversation with a orte of the Montreal *Gazette* the other day and as many people are anxious to know the kind of weather to be expected during the holiday season, we reproduce it, giving it for what it is worth.

The reporter asked how long is this mild weather likely to last, Mr. Vennor?

Ans. Until about the 15th.

Will we have snow then?

Ans. Yes, both cold and snow, with stormy weather generally on the 16th, 17th and 18th.

Will that snow remain steady for Christmas?

Ans. I think it will, although the 20th to the 22nd is likely to reduce it to slush again.

What are we likely to have for Christmas?

Ans. Stormy weather.

And for New Year's?

Ans. Cold weather and a good deal of snow before and after, exactly as recorded in my Almanac. I am very well satisfied with the reading of these predictions.

Do you anticipate very cold weather?

Ans. Yes, very. We are likely to have a recurrence of last December's "Polar Wave" between Christmas and New Year's Days.

Educational Matters.

At the present time it may not be out of place to give some extracts from the report of the Minister of Education for 1879, the last available, for the purpose of comparing the cost of our Collegiate Institute, with those of the principal towns of the Province. In the year named the municipal grants were as follows:—Brantford $5,000; Kingston $1,950; St. Mary's $4,309; Peterborough $4,060; St. Catharines $4,922; Cobourg $1,800; Galt $1,709; Toronto $3,258; The fees paid run from $24 in Ottawa, to $3 in Peterborough, the London Institute alone being free. The following table will also be found of interest:—

Places.	Salaries.	Masters.	Av. Sal.	Cost Pupil
Brantford	$ 7352	8	$ 919	$19
Cobourg	3950	4	976	28
Galt	6658	7	951	24
Hamilton	12533	17	788	21
Ottawa	5775	6	962	28
Peterborough	5068	6	844	24
St. Catharines	7186	8	923	23
Toronto	9650	9	1071	27
Kingston	4100	5	820	22
London	6530	7	932	19

Save Your Money.

A call will convince the most skeptical of the great saving to be effected by making their purchases at W. Fairweather & Co's great sale. Their stock is the largest in town. The assortment is without a rival, and the prices are right.

Just Arrived, New Light Silks for Evening Wear. See Them at W. Fairweather & Co's.

THROUGH TO TORONTO.

A MIDLAND TRAIN RUNS FROM PETERBOROUGH TO THE QUEEN CITY.

Over the New Consolidated Lines, Making Excellent Time—The Time Between the Two Places to be About Three Hours.

The third rail having been laid on the Nipissing railway from Toronto to Woodville Junction on the Midland Railway, a distance of seventy-nine miles, and the link connecting the two lines having been finished, a Midland train, the first of the standard guage that ever ran over the Nipissing road, left Peterborough on Thursday morning, having the handsome official car of the Midland railway attached. On board were Messrs. Geo. A. Cox, President of the consolidated lines; E. Wragge, Manager of the Toronto, Grey and Bruce; W. C. Nunn, of the Toronto and Ottawa, and a number of prominent officials of the various Canadian roads. The Queen City was reached about 12 o'clock noon, all on board being highly gratified with the excellent condition of the road. The train left during the afternoon and reached Peterborough at an early hour. The time made was good, considering that it was the first train on the broad guage.

We are informed on excellent authority that the time from Peterborough to Toronto, when the "missing link" is completed will be reduced to three hours less than the time now occupied in reaching the Provincial capital by the Midland and Grand Trunk lines, and without any vexations delays at Port Hope to make connections.

Engineer James Young, as good a man as ever had charge of a throttle on the Midland road, had the honor of running the first train through.

RAILWAY NOTES.

The Chicago Common Council has passed an ordinance requiring the law department to prepare a proper ordinance assessing an annual license of $15 each on freight cars, and $75 on passenger cars of roads doing business in that city.

A special cable despatch to the *Globe* says that the Directors of the Toronto, Grey and Bruce Railway announce an arrangement with the Ontario and Quebec Railway, by which the latter pay the four per cent (30 years) bonds of the former. Sufficient cash to pay dividends to December, 1883, will be placed with the trustees in London.

Great difficulty is experienced by the surveying party of the Ontario and Quebec Railway in securing a favourable line between Maberly and Sharbot Lake. The surveyors of the Toronto and Ottawa road having made the first survey, selected the only good line in that vicinity. The road will cross the Toronto and Nipissing a short distance south of Markham.

The surveys on the Ontario and Sault Ste. Marie road have been completed for this season and the two surveying parties are expected home by the latter end of the week. The line has been surveyed from Algoma Mills to Sault Ste. Marie, a distance of 125 miles.

On an Old Charge.

Last night while P. C. McGhee was out in the country serving some subpœnas, he came across a man walking on the road, whom he at once recognized as one John Wilson, who has been wanted by the police ever since the 1st of March last. The officer quickly stopped and alighting from his buggy he arrested his man, and drove him to town. He appeared at the Police Court and was remanded for a week. It will be remembered that Wilson and Dan Cushing amused themselves one night by smashing decanters over each other's heads.

Land Purchase.

The Winnipeg *Sun* says that Messrs. C. S. Wallis, of Peterborough, A. M. Ramsay and Dr. Brown on Monday purchased from A. G. B. Bannatyne eleven hundred and fifty acres on the Red River, about five miles from Fort Garry.

Personal.

The Lindsay *Warder* says that Mr. H. A. Wallis, formerly of Lindsay, and a son of Mr. James Wallis, of Merino, now of Winnipeg, has, it is learned, secured a good birth, under Government, in the Indian department.

Poultry Association.

A meeting of the Midland Central Poultry Association will take place this evening at the Council Chamber at 8 o'clock, whon the prize list for the forthcoming show and other important business will come up.

Bank Change.

Mr. George M. Steward, for sometime teller in the Ontario Bank, Lindsay, has been promoted and becomes accountant of the branch in Peterborough. Mr. Stewart comes well recommended.

ONE EXPERIENCE FROM MANY.—I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what ailed me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said "Harrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother.—*Home Journal.*

WHEN DOCTORS DISAGREE, WHO SHALL DECIDE?—Nothing is more variable than the different opinions of medical men; but when they fail to agree, or perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.

WEAK LUNGS AND HOW TO MAKE THEM STRONG.—Breathe with the mouth closed, have access at all times to pure air, exercise moderately, eat nourishing but sample food, and take that best of all cough remedies, Hagyard's Pectoral Balsam, it speedily cures all throat and lung troubles of adults or children. Price 25 cents per bottle.

BRONCHITIS.—Unless arrested, will terminate in consumption. An almost never failing cure for this complaint is found in Allen's Lung Balsam, which can be had of any Druggist, price one dollar per bottle.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of olde pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

CANADIAN TELEGRAMS.

OWEN SOUND.

Special to the Review Dec. 17.

THE SEASON of navigation which has just closed has been one of the best for years past. A greater quantity of timber has been shipped from this part than any previous year in its history. Freights have been good and no casualities of any consequence have happened to any of the numerous vessels.

PERRY CENTRE, ONT.

Special to the Review, Dec. 17.

THE RAILWAY station of the Canada Southern at Perry took fire last evening, while the night operator was out attending to the lighting of the switch lamp. The fire originated in the telegraph office, it is thought from the stove. If it had not been for the exertions of the operator the station would have been totally destroyed. As it was considerable damage was done.

THE MARKET BY-LAW.

To the Editor of the Review.

DEAR SIR,—Have we any market by-law, and if so, why is it not enforced? Has anyone been appointed to detect and prosecute those who commit a breach of such by-law, if one exists? Should there be such an officer, by attending the market regularly and keeping his eyes open he may add largely to the assets of the town in the shape of fines.

At the same time he would confer a boom on the housekeepers of the town, who are now compelled to purchase at second hand, and thus pay two profits.

Yours truly,
HOUSEKEEPER.

A VIENNA SENSATION.

VIENNA, Dec. 16.—A sensation has been caused by a baker's statement, that after escaping from the burning theatre he purchased three candles, and hastened back in the hope of saving some sufferer, but the police arrested him.

THE TURKISH DEBT.

CONSTANTINOPLE, Dec. 16.—The Sultan has finally refused to sign an irade sanctioning a scheme for the settlement of the Turkish debt.

OPENING OF PARLIAMENT.

LONDON, Dec. 16.—The Queen will personally open Parliament on the seventh of February. She will ask for a grant of money for the Duke of Albany's marriage.

THE ROCHEFORT CASE.

PARIS, Dec. 16—*Le Temps* says that public opinion will not ratify the verdict in the trial of Rochefort, and basing its observations on statements made by Rochefort's counsel, points out that the verdict does not imply the condemnation of the Tunisian expedition or censure of the Tunisian difficulty. Lord Lyons, British Ambassador, had an interview with Gambetta, and presented a dispatch protesting against the action of the Tunisian authorities in Enfida affairs.

"UNITED IRELAND."

DUBLIN, Dec. 16.—The *United Ireland* newspaper was seized yesterday by the direction of the Attorney-General, who is of the opinion that the paper was a "no rent" manifesto of the worst kind, seditious, and a direct incitement to murder. It is understood that *United Ireland* will be printed in London and posted to subscribers. Should the Government interfere with the publication the office will be removed to Paris, whence copies of the paper will be distributed under cover.

A CHILDISH OBJECTION.

DUBLIN, Dec 16.—Mr. Biggar, M.P., writes to the *Freeman's Journal* objecting to any member of a royal family, which is a foreign family to Ireland, opening the proposed Irish industrial exhibition, and saying Mr. Davitt or Mr. Parnell ought to open the exhibition.

THE VIENNA DISASTER.

VIENNA, Dec. 16.—650,000 florins have been subscribed for the sufferers by the Ring theatre disaster. There have been many offers to adopt orphans who have been left by those who perished in the flames.

A SNUB FOR PARNELL.

DUBLIN, Dec 16.—The Lord Mayor has declined to call a meeting of the corporation to consider a proposal to present the freedom of the city to Messrs. Parnell and Dillon.

A CHALLENGE.

LONDON, Dec.—A formal invitation has been sent from the secretary of the National Rifle Association of Great Britain to the president of the American Rifle Association to send a team to Wimbledon to shoot against the English team.

BLAINE AND THE CANAL.

LONDON, Dec. 16.—The *Standard* says of Secretary Blaine's instructions relative to the Clayton-Bulwer treaty that "never were startling demands made with less affectation of a reassuring pretext. The Americans must regret that Mr. Blaine tried to justify his position with arguments. The question simply is: Is the demand reasonable." The *News* says:—"Mr. Blaine's production contains an implication by no means courteous or considerate towards England. Least of all countries can England place the control of her vast commerce in any one, however friendly, power." The *Times* admits that "Secretary Blaine's contention is not wholly unreasonable, that he is taking precautions against possible danger. If the United Stater cannot trust England why should England be required to trust the United States."

FINE CATTLE.

LONDON, Dec. 16.—The polled Aberdeen bull Viscount, which has just been shipped with other Polls to the Hon. J. H. Pope, Minister of Agriculture, is a full brother of the heifer which was so unprecedentedly successful at the Smithfield Show. She took the first prize of £20 in her class, the £40 cup for the best Scotch beast, the £50 cup for the best cow or heifer, and the champion plate of 100 guineas for the best beast shown, besides silver and gold medals.

U. S. ATTORNEY-GENERAL.

WASHINGTON, Dec. 16.—The President to-day nominated Benjamin Harris Brewster of Pennsylvania as Attorney-General.

NEARING THE END.

NEW YORK, Dec. 17.—The *Tribune's* Washington special says that the prosecution now expects that the testimony on both sides in the Guiteau trial will all be in by the begining of next week, and the speeches can be gone on with at the opening of Christmas week.

Fire.

BELLEVILLE, Dec. 16.—At about two o'clock this morning a fire broke out in a stable in rear of the east side of Front-street, occupied by Mr. Cook, veterinary surgeon, and owned by Mr. J. B. Graham, which was destroyed, together with two rigs. The stables and sheds of Doyle's Hotel, closely adjoining, were also destroyed, and a dwelling house occupied by Mrs. Marrion and owned by Mr. Graham was slightly damaged. Mr. Doyle was insured for $1,000 and Mr. Cook for $400, which will cover their loss. Mr Graham had $700 insurance on the dwelling, but none on the stable, which was worth about $400.

THE MISSING AERONANT.

MADRID, Dec. 17.—A Customs officer near Santander reports that he saw last night a balloon proceeding in the direction of Bilbao.

THE OFFICIAL REPORT.

VIENNA, Dec. 17.—The official report of the Board of Works says that the Chief Engineer asked two policemen at the main entrance to the Ring Theatre whether there was anybody within and received the reply that the whole audience had left safely. This statement was apparently confirmed by the fact that no persons were seen at the entrance to the building. The men of the fire brigade subsequently made their way to the galleries, but the air was suffocating and it was impossible to penetrate the passages. The lights went out for want of oxygen and the firemen were unable to breathe. The report expresses the conviction that the audience died speedily from suffocation.

LAND SHARKS.

ST. PAUL, Dec. 17.—An extensive land swindle has been discovered in Dakotah. Parties residing in Emerson, Manitoba, by misrepresentation entered lands in Dakotah, and are still retaining their residence in Canada. As they are subjects of Queen Victoria and citizens of another conntry, they are beyond the jurisdiction of the United States courts.

DROWNING ACCIDENT.

NEW YORK, Dec. 17.—David Fernald, and son-in-law were accidently drowned on Wednesday while fishing through the ice.

THE CABINET.

WASHINGTON, Dec. 17.—There are the best reasons for believing that Arthur has made the following additional selections for his Cabinet:—Secretary of War, Lincoln; Navy, Boutwell; and Secretary of the Interior, Chaffee.

RIGOROUS PROSECUTION.

NEW YORK, Dec. 17.—The *Times*, Philadelphia special says that the Attorney-General, who returned last night from Washington, said that he was assured of the President's sympathy in the rigorous measures he intended taking to push the State prosecution to the full extent of the law.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrages, Pneumonia, Severe Coughs, Croup, or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75 cents. 2d1w1y

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. **Brown's Bronchial Troches** do not disorder the stomach like cough syrup and balsams, but act directly on the Inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age, Sold at 25c. a box everywhere. d52w9

SATURDAY, DECEMBER 17, 1881.

A NEW ENTERPRISE.

The Dominion Salvage and Wrecking Company.

A company which will prove of very great importance to the shipping interests has recently been formed, under the title of the Dominion Salvage Wrecking Company. The operations of the company—the nature of which is sufficiently indicated by the name—will extend from the Upper Lakes to the Lower St. Lawrence and to the shores of the Maritime Provinces. The wrecking steamers have already been secured; two splendid pontoons of immense lifting power are under construction, and the company is already in a position to commence operations. Whenever a vessel is in distress or has met with an accident in any Canadian waters, the commander will simply have to telegraph to the nearest office of the company, when assistance will be immediately despatched, just as our fire brigades respond to the fire alarms. The new gulf telegraph will be of great service to the company. Great loss has been experienced in past years for the want of such an agency. Had it been in operation when the Ottawa was wrecked last year, that vessel might easily have been saved. The capital is to be $300,000, but it is not proposed to issue more than $100,000 or $150,000 at present. The stock is being taken up very readily, $20,000 worth having been disposed of within the last two days. The principal officers are Captain Heriman, President; W. J. G. Ross of Quebec, Vice-President, and Mr. John Donnelly, Wrecking Master. The head office of the company is at Mr. Henshaw's, Hospital street. The directors and stockholders comprise some of the leading men in both Provinces.—*Montreal Gazette.*

THE DEAD LEPER.

The Experience of the Canadian Authorities With the Disease.

The report of thh death of George Henckle, a leper, seventy-four years of age, who died in the Charity Hospital on Blackwell's Island on November 30, has stirred up a discussion among the medical fraternity as to the proper treatment of the disease and the means necessary to prevent the possible spread of the contagion. The very idea of its appearance in this community has caused a sensation of terror among many who know the dangers to which our tenement house population are subjected from contagious diseases of every kind. A distinguished physician from Canada in an interview with the *Telegram* reporter lately in regard to the matter said:—

"The disease called leprosy has interested the authorities in Canada to some extent for several years past. At a place called Tracadie, in New Brunswick, is a lazaretto in which are confined eighteen or twenty patients at present under treatment. Although the Deputy Minister of Agriculture, Mr. Tache, has for several years past made the disease mentioned a special study he does not yet consider that he has sufficient knowledge of its symptoms and the possibility of its elimination to make a detailed report. As far as is known, the disease is perpetuated by the best informed physicians conversant with cases in Canada, as elsewhere, points to the fact that the disease is incurable, and the only remedy left is complete isolation and prohibition of marriage among the lepers."

Loss by Fire.

PORT COLBORNE, Dec. 15.—A fire this morning burned a frame dwelling owned by Mrs. McFall, and occupied by her as a boarding house, valued at $1,000, and insured for $400; a wood and brick building, a store owned by Mrs. McFall, valued at $1,200, and insured for $600, occupied by P. Sweeney, merchant tailor, whose loss is about $800, and no insurance. Robert Thayer, barber, lost about $400, with no insurance. A brick building, owned by Samuel Hopkins, and valued at $2,000, with no insurance, occupied by J. Colloton, merchant tailor, loss $1,900, insured for $1,000. S. J. Hopkins, dentist, office, loss about $400, no insurance. The Maple Leaf hotel, where the fire was stopped, was damaged to the extent of about $500, fully insured. Henry Bell, the occupant and proprietor of the hotel, sustains a loss to furniture of about $800, insured for $600.

Now that winter has well commenced we would advise our readers against using pills containing Calomel and other injurious substances, as there is a great danger of catching cold after their use. An excellent substitute for pills is a Vegetable Preparation known as Dr. Carson's Stomach and Constipation Bitters, a family medicine that, from all accounts, will soon take the place of every other purgative and blood purifier. J. D. Tully is agent for the Bitters here.

THE PERUVIAN SYRUP is an iron tonic, prepared expressly to supply the blood with its iron element. Being free from alcohol in every form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an iron constitution. It is an excellent substitute for wine or brandy where a stimulent is needed. Sold by all druggists.

DISTRICT INTELLIGENCE

BOBCAYGEON.

OYSTER SUPPER.—The *Independent* says that there was an oyster supper on Tuesday evening at Goulais hotel, on the occasion of the completion of the brick work of the new hotel. About forty persons were present, and a very enjoyable evening was spent. Mr. John E. Belcher, the architect, and Mr. John Alford, the contractor, took an active part in the proceedings, and contributed to the festivities. The new hotel is in a position to get a roof put on in a few days. A good idea of the effect of the building can now be obtained, and it is beyond dispute a remarkably handsome block. The facade is very cleverly broken by a projecting porch, and a cornice beneath the Mansard roof gives those effects of light and shade without which no work can be artistically perfect. Viewed from the swing bridge the building stands out in most harmonous proportions, and with an air of lightness and elegance particularly inviting. The general opinion is that about March next hot Scotch will be obtainable in the new hotel. At the supper, on Friday, complimentary remarks were passed between those interested in the new building, and architect, contractor, proprietor, bricklayer, and everybody, shook hands all round, and had a high old time.

SHIPBUILDING.—The lock is now appropriated as a dry dock, and a number of scows are being repaired. Captain Bottum intends building this winter a palace scow, of unique construction, which will be elaborately fitted up for excursions in the summer, and for the receipt of grain in the fall. Dr. McCamus is about to draw his steam yacht on to slips and house her comfortably for the winter.

CAMPBELLFORD.

SHOULDER DISLOCATED.—The *Herald* says Mr. William Arnott, a farmer residing in Seymour west, had his right shoulder put out of joint, on Friday last. The injury was caused by a fall which he had while bringing into subjection a troublesome cow he was leading to his premises. The dislocation has given him much pain, and Mr. Arnott will have an arm to nurse for a short time. Dr. Byam attended him.

INJURED BY A FALL.—Mr. Robert Armour who resides just beyond the Seymour boundary line, on lot 22 in the 10th concession of Percy, fell from a load of hay in Hastings, one day last week, and was severely injured. The accident was the result of a fright which his team of colts received from the opening of a door ina loft where Mr. Armout was about to deposit the load. We believe he is recovering, though he suffered a severe shock to his system.

NEW INDUSTRIES.—Joseph L. Smith, son of Mr. Joseph Smith who has been connected with the flour mills north of this village, has rented the mills at Northam. He will do sawing also, as the grist and saw-mill are combined. If industry brings any reward, our young friend will pick up something somewhere along the road to wealth, because it was born with him.

THE COTTON MILL.—Nearly all the work on the raceway and about the water-wheels of the new building is completed. Water from the river, which was shut off to enable the workmen to proceed with operations, was allowed to flow into the artificial channel, one day last week. The wheel-house is built of stone, and covered with a close-fitting roof, all snugly and substantially done.

FLOUR FOR ENGLAND.—Mr. Charles Smith has shipped during the past few days, six carloads of flour direct to Portland, Me., for export via S. S. Valetta, for Liverpool.

BELLEVILLE.

A WINDFALL.—The *Intelligencer* says that in August last a man named James Foy was shot, it is supposed, by Indians in California. He left considerable property, consisting chiefly of stocks, mining claims, &c., but he had no relatives in California to leave it to, and it was not known that he had relatives anywhere. The only fact that was known about him was that he was "a native of Belleville, Canada." He was a member of the Masonic order, and the master of the lodge to which he belonged in Prescott, Atoka Territory (Morris Goldwater by name) wrote to the secretary of the Grand Lodge of Canada, Mr. J. J. Mason, of Hamilton, asking him to institute inquiries respecting the relatives of the deceased. The Grand Secretary, in his turn, communicated with Mr. Robt. Dick, master of Moira Lodge of this city. The following facts respecting the Foy family have been elicited:—

Old Mr. and Mrs. Foy lived for many years on the Canifton Road, in a house opposite Mr. W. Alford's. The old man died some twenty years ago or more, and his widow, Mary Foy, survived him only a few years. They had a daughter named Bridget, and a son who was blind and used to go about playing a fiddle, and who left Belleville while quite young, and was lost sight of. Bridget Foy married a man named Peter Asselstine, from Kingston, and by him had a daughter named Barbara. Mrs. Asselstine died in Kingston about twelve or fifteen years ago (some say she was shot) and was brought to Belleville to be buried. After her death her husband went back to Kingston with his daughter, and has not since been heard of.

There is little doubt that the James Foy who was shot in California is a member of this family. He may be the blind son of old Mr. Foy, who wondered away from the town many years ago, or he may be his son. It is possible that Bridget Foy had a son as well as a daughter, and that he went away to the states and assumed his mother's maiden name when he got there. The relative for whom the quest is now being made is Barbara Asselstine. She must be a relative of the deceased in any case. If he was the blind son, he was her uncle; if he was his son, he was her cousin; if he was Bridget Foy's son, he was her brother. If she can be found, she will probably come into a nice little property. Any information respecting either Peter Asselstine or his daughter Barbara should be forwarded to Mr. Robt. Dick, of this city.

INCIPIENT CONSUMPTION.—In bronchial and other chest affections, in arresting incipient consumption, and in lessoning the distressing symtoms of this disease in its hopeless stages, as well as in cases of nervous debility in giving tone to the system, Allen's Lung Balsam is undoubtedly a valuable remedy. John McMurray, Methodist minister, Newport, N. S.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

"BIG INJUN, EAT HEAP."

A Sioux Bill of Fare—How it Led to Internal Disturbances.

One of the peculiarities of the latest United States style of feeding the noble red man is the fact that he is given government rations, and at the same time appropriations are made which are supposed to maintain him. Sometimes a wild Indian who don't know much about groceries, and how to prepare them for food, comes in and draws his regular soldier rations in this way. For instance, up in the Sitting Bull country awhile ago an Indian came in from the war path who had never seen any of the pale-face style of food, and drew his rations. He made a light meal of unground coffee the first day, and as he overate and the coffee swelled on him, he had difficulty in buttoning his pants around the pain he had on hand. He feit very unhappy for a day or two, but laid it to the fact that he hadn't exercised much, and the consequent ennui and indigestion resulting therefrom. As soon as he succeeded in getting the interior department quietedd own a little he tackled his ration of candies. These he decided to parboil, in order to avoid trouble from indigestion. The dish was not so much of a glittering success as he had anticipated, and as he remorsely picked the candle wicking out of his teeth with a tent pin he made some remark that grated harshly on the æsthetic ears of those who stood near. He then tried a meal of yeast powder with vinegar. He ate the yeast powder and then took a pint of extremely potent vinegar to wash it down. At first there was a feeling of glad suprise in his stomach, which rapidly gave place to unavailing remorse. A can of yeast powder in an Indian's midst don't seem to be prepared for a pint of vinegar, and the result of such an unfortunate circumstance is not gratifying. Every little while a look of pain would come over the features of the noble child of the forest, and then he would jump about seventeen feet and try to kick a cloud out of the sky. Then he would sit down and think over his past life. It took about a week for him to get back to where he dared to get up another meal for himself. Then he fricasseed a couple of pounds of laundry soap and ate that. Soap is all right for external purposes or for treating a pair of soiled socks, but it does not assimiliate with the gastric juice readily, and those who have tried laundry soap as a relish do not seem to think that it will ever arrive at any degree of prominence as an article of diet. That is why this untutored child of nature swore. He had never received the benefits of early training in profanity, and his language, therefore, was disconnected and rambling; but when we consider that he was ignorant of our language, and that every little while he had to stop and hold on to his digester with both hands and dig great holes in the earth with his toes, the remarks didn't seem altogether out of place or irrelevant. When a gallon or so of agitated baking powder and vinegar is singing its little song in the innermost recesses of an Indian, and this has been followed by a treatment of laundry soap, the student of humafi nature can find a wide field for observation in that locality. The earnest and occupied look, the troubled expression of the countenance, followed by the quick, nervous twitchings of the muscles of the face, and then the swelling up and the bursting of the suspender button, the deep-drawn sigh and the smothered cuss-word, all betoken the gastric agitation going on within. This is why an Indian prefers a link of bolonga sausage and a two-year-old dog to the high priced groceries so common to our modern civilization.

The Best Field
FOR
EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

LIKE A TREE.

A man is very like a tree,
For instance, crooked limbs has he,
He has a trunk; he grows somehow,
And when he leaves he makes a bough.
He can be cut; will often lean,
Is always sappy when he's green.
He is aboard when on the sea,
And oft a-shaving, too, is he.
When he is frightened quite a lot,
Like trees, he's rooted to the spot.
If he is axed too much he'll lie,
And often will, like trees, get "high."
He has his lumber in the night;
Is sadly warped, and feels the blight,
He "chips" for stakes, though he should not,
And has his chops, sometimes a lot.
He gets "deadwood" on him. Is wood
Is knotty when he should be good.
And when he dies he's sure to learn,
That he, like trees, has got to burn.

HE GOT INTO THE WRONG HOUSE.

The Rev. Dr. Gage's Adventure with a Burglar—The Minister Captures Him.

For some time past Mr. Frank A. Thompson, General Agent of the Phœnix Life Insurance Company, has been occupying the residence of the Rev. Dr. Gage, on Asylum avenue, during the absence of the family. On Saturday Mr. Thompson moved away, and it is supposed that the house was watched, and believed to be empty. However, Dr. Gage was occupying it. Yesterday afternoon, about 4 o'clock, he locked up the premises and came down town. Shortly after 8 o'clock he returned, intending to pass the remainder of the evening in his study, reading. He unlocked the front door, stepped into the hall, where it was pitch dark, and closed the door. An instant later he heard a movement in the direction of his study, which opens upon the front hall, and then twice a stern voice, "Open that door! open that door!" His first impression was that it was Mr. Thompson speaking, but it flashed upon him that the voice was an unfamiliar one. Then he knew that the man was a stranger, and in all probability, a burglar. A moment later Dr. Gage threw open the door, as he could see nothing, and just then the burglar made a quick rush for freedom. He was not quick enough. As he came up Dr. Gage caught him at the back, clasping both arms around him and seizing his right hand, in which was detected the gleam of a pistol. A fierce struggle ensued, the burglar trying to free himself, and, wiry and strong, proving no mean competitor for Dr. Gage, although that gentleman is powerfully built. No words were spoken other than the burglar's:—"Let me go!" "Let me go!"

The struggle continuing, the two men went out of the door and down the short steps into the front yard, where Dr. Gage lifted his captive and threw him heavily, falling on top. All this time the fellow had been endeavouring to get a chance to use his weapon, but could not free his hand from the strong grasp. When both were down Dr. Gage felt that he was in great danger of the weapon, which he could no longer see, and he called for assistance. A young man, whom Dr. Gage did not recognize in the excitement of the moment, responded to the call, and a moment after, Mr. Gurdo Trumbull, who was passing, rushed up, and, drawing a pistol, presented it, cocked, at the burglar's head, and ordered him to drop his weapon. He did so, and just then Mr. A. M. Harlbut and United States Marshal Bates, who lives across the street came up. Mr. Bates slipped a pair of handcuffs upon the burglar, and then Dr. Gage for the first time released his grasp and rose to his feet. Other passers-by stopped, and Mr. W. G. Comstock, jr., of East Hartford, who was driving by volunteered to get an officer. He returned with Officer Harris, and the prisoner was taken to the police station.

In the melee Dr. Gage sustained no injuries other t[h]an slight scratches upon his hands.

An exa[m]ination of the premises showed how the fellow had operated. He opened a kitchen window from the verandah, and, stepping in, unlocked the kitchen door, to leave a way of exit, but, as the affair ended, did not have an opportunity to use it. He ransacked the first floor in part, and in Dr. Gage's study piled up his booty, mostly clothing, excepting what he wore, his travelling-bag, and a pillow case, in which were three of Mrs. Gage's silk dresses and other valuable clothing. When he started to escape he held on to the pillow-case, expecting that he could escape with it when the door was thrown open at his command.

On reaching the station-house the prisoner gave his name as John Gillespie. A finely-made steel jimmy, about seventeen inches long, was found in an inner pocket of his inside coat, the pocket being about two inches wide and twenty inches deep, and specially made to hold the jimmy. He was comfortably dressed, and when captured had a very excellent overcoat on—in fact, Dr. Gage's best coat, which he had donned as the easiest way of carrying it away. At the station house he gave his occupation as a carpenter, but an examination of his hands showthat he was unaccustomed to manual labor. He is about five feet seven inches in height, will weigh about 150 pounds, and is of wiry, muscular build. His complexion is dark; he has a black mustache, and his face is covered with a three weeks' growth of beard. He is very bald and what little hair remains on either side is of a dark brown color. Generally speaking, he is bright and keen, and is evidently an amateur in his line. None of the policemen have recognized him. He is an American, with a slightly German cast of features.—*London Free Press.*

THE Lord Lieutenant knighted Mr. Edward Porter Cowan, Mayor of Belfast, on Nov. 23rd.

AT Lanesborough the other day an agent could not even get any place to receive rents in, much less any rents to receive.

THE MOST REV. DR. BUTLER, Bishop of Limerick, has given a grant in perpetuity of the site for the Sarsfield statue on St. John's Cathedral grounds.

THE Land League No Rent manifesto has been posted up in nearly every parish throughout the county of Tipperary, and is being almost universally obeyed by the farmers.

THE Harbor Commissioners of Belfast have made an arrangement with the contractors for the electric light on Donegal quay, to continue the lighting of the place for six months longer.

THE Muskerry foxhounds have just been sold to Major Kearns, of Pau, France, for a sum of £400. Their sale is due to the system of boycotting they have undergone this season. The Muskerry covert is one of the most extensive hunting districts in Cork, and comprises the important military district of Ballincollig.

FOUR dead bodies were recently washed ashore at Keadue strand, county Donegal, and identified as those of persons belonging to the island of Innesheeragh. Communication from the mainland is impossible, and it was feared that the island, which is a very low lying one, has been swept by the Atlantic during a terrible storm on November 21st.

AHA!—Dentists who have tried "Teaberry," pronounce it the finest thing on the face of this earth for the teeth and breath. 5 cent samples.

FROM ALL OVER.

THE missing ocean steamer Bath City has been given up as lost. Eighty guineas premium was paid on her in London on Wednesday. She was valued with her cargo at $300,000, and carried a crew of thirty-two, but fortunately no passengers.

BUT ONE OPINION prevails throughout the world, and that is so strongly in favour of Perry Davis' Pain-Killer, that no other article ever attained so wide-spread popularity.

AN electrician in France is having built a small boat with which he intends to cross the English Channel, using an electric motor to propel it. He will take a companion on the voyage, and it is said to have selected the route from Boulogne to Folkestone.

EZEKIEL SMITH and wife, two aged residents of Huntington, Vt., died at the same minute a few nights ago. They lay down in the afternoon apparently in their usual health. Their daughter entered the room later in the evening, and found them both dying.

WHAT'S THE USE OF TALKING? There is no denying that Sozodont is the best preparation for the mouth and teeth. Preparations, like snowflakes in number, have appeared, but the public faith is still strong in the virtue of Sozodont. Its use grows yearly.

A NEW and exciting game of chance has been introduced into fashionable circles of Boston, which, while it intoxicates the senses, does not weaken the nerves or impair the mind to any great extent. The game is to guess at the number of beans in a glass jar.

MR. C. FOSDICK, 52 Hartwell street, Fitchburg, Mass., writes that that he used St. Jacobs Oil for rheumatism with a magical result. The men in the works, of which he is superintendent, say there is nothing in the world to equal it as a remedy for neuralgia, sprains, etc.

THERE is one city provided with pure milk, and that is Frankfort-on-the-Main. The business is conducted by a concern called the anstalt, established by the medical association. The cows are carefully selected, and properly fed housed, and the milk is delivered within four hours from the time it leaves the cow in glass bottles, sealed with wax.

LOOK TO YOUR LUNGS.—When these vital organs become effected from any cause whatever, they can be speedily relieved by Herrick's Sugar-Coated Vegetable Pills, that subdue all fever, purify the blood, and destroy all pain. These pills never fail. They are for sale everywhere. Try them.

THE recent heavy gales have seriously interfered with transatlantic navigation. At the port of New York alone thirty-six ocean steamships and sailing vessels are reported overdue. fears are entertained for the safety of the steamship Bath City, from Bristol for New York, which was spoken three weeks ago heading for St. John's, Nfld., in a leaky condition, and which has not been heard of since.

THERE is no doubt that our Canadian climate is conducive to lung affections, and for this reason Dr. Carson's Pulmonary Cough Drops should be in every house. For Coughs, Colds, and all Lung and throat affections they have no equal. In large bottles at 50 cents. J. D. Tully, agent for Peterborough.

A ROUMANIAN mechanic has recently submitted the project of a submarine vessel to his Government. It has been decided to build a vessel after the proposed plan at the expense of the Government. It is said to be capable moving under water at the depth of 100 feet for twelve hours without a renewal of air. Steam is the motor, and the speed is grsater than that of a sailing ship. The vessel is rapidly sunk by opening certain valves, but a return to the surface requires more complicated operations. An electric light will render objects distinguishable for a distance of 150 feet.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds. Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

THE undergraduates of Queen's University, Kingston, are at war with the university authorities. They petitioned the senate for an extension of the Christmas holidays, were refused, and incontinently decided to take term they desired. This declaration of independence was met by the Senate with a manifesto announcing that all students who overstayed the prescribed holiday limit would lose their session. This took the rebells cosiderably by surprise, but it is understood they intend to hold out.

THE cook aboard a tug boat in Boston heard cries of distress in the night. After they had continued half an hour, he got out of bed and went on deck. A man was in the water, clinging to a pile and calling for help. The cook was clad only in a night shirt, and the weather was cold. Besides it would have been necessary to lower a boat and row a short distance in order to make a rescue. He reasoned that probably before he could dress himself the man would be drowned, and as for going as he was, the idea does not seem to have occurred to him. The upshot was that he went back to his warm bed, and let the man drown.

FEEBLE LADIES.—Those languid, tiresome sensations, causing you to be scarcely able to be on your feet; that constant drain that is taking from your system all its elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain is permanently removed. Will you heed this?—*Cincinnati Saturday Night*

NO IMPOSSIBILITY.—People often say, when suffering in the first stages of Consumption, or suffering from lung disease, if their physician fails to effect a cure, "my case is a hopeless one, and my enjoyment of health again is an impossibility." The celebrated French Count Mirabeau's nasty temper is well known. "Monsieur le Comte" said his secretary to him one day, "the thing you require is impossible." "Impossible" exclaimed Mirabeau, starting from his chair, "never again use that foolish word in my presence." It is well-known that N. H. Downs' Vegetable Balsamic Elixir has brought to health and strength thousands who were told by doctors that their recovery was impossible. Be not deceived by any apparent impossibilities; always use the Elixir.

Fatal Gun Accident.

ASHDOWN, Muskoka, Dec. 15.—On Tuesday of the last week a sixteen-year-old son of Mr. Stutters of Cardwell township, Muskoka, went out to visit some traps, taking a gun with him. Before leaving the house he remarked to his sister that if she heard the report of the gun and afterward a whistle, that all was well, but if no whistle then something was wrong. The report but no whistle was heard, and the sister went out and found her brother laying dead some few yards from where the gun had been discharged. It appears that on finding a live mink in the trap he had attempted to strike the animal with the butt end of the gun, when the latter discharged the ball into his side. The body will be conveyed to Seaforth for interment.

ZOPESA.
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

EVIDENCE

That our Great Sale has been, and still is a success, may be seen at any time by the crowds who come AND BUY. We will continue to sell at our present prices until our

Removal on the 1st of February next

When you will hear from us again.

The fitting up of our new store, (3 doors north), is proceeding rapidly, and will be one of the neatest and most convenient in town.

Our stock was disappearing so rapidly that, contrary to our intentions, we found it necessary to replace many lines in daily demand, so as not to disappoint our customers. The assortment is still therefore, complete and attractive. Those who have not called on us, will find that a visit will repay their trouble.
